3

DIVERSIFIED SECURITY SOLUTIONS, INC. AND SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

1. Basis of Presentation

Diversified Security Solutions, Inc., the ("Company") and its subsidiaries, are systems integrators providing design, installation and support services for a wide variety of security, communications and control systems. The Company specializes in turnkey systems that integrate many different technologies. Systems are customized to meet the specific needs of its customers. In addition, we manufacture and assemble CCTV equipment and provide security-consulting services to our clients. The Company markets nationwide with an emphasis in the New York, Dallas, Phoenix and Southern California metropolitan areas. Customers are primarily medium and large commercial and government agencies.

The Company's headquarters and manufacturing facility is located in Saddle Brook, New Jersey. Sales and service facilities are located near Dallas, Texas, Phoenix, Arizona and Fullerton, California.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles in the United States of America for full year financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal, recurring nature. Operating results for the three-month period ended March 31, 2003, are not necessarily indicative of the results that may be expected for the year ended December 31, 2003. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto that are included in the Company's Annual Report on Form 10-KSB for the fiscal period ended December 31, 2002

2. Net (Loss) Income Per Common Share

Basic net (loss) income per share of common stock is calculated by dividing net (loss) income by the weighted average number of shares of common stock outstanding during the period. For the periods ended March 31, 2003 and 2002, the weighted average number of shares of common stock outstanding were 5,138,357 and 4,725,000, respectively. Diluted earnings per share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance or potential common shares that may be issued by the Company relating to outstanding stock options and warrants. This amounted to 5,138,357 and 4,800,000 for the periods ending March 31, 2003 and 2002, respectively.

3. Stock Based Compensation

On January 1, 2003, the Company adopted the fair recognition value provisions of FASB No. 123, "Accounting for Stock Based Compensation," which was

Edgar Filing: DIVERSIFIED SECURITY SOLUTIONS INC - Form 10QSB

amended by FASB No. 148. Under the prospective method of adoption selected by the Company, stock based compensation cost will be recognized using the fair value method for all awards, granted, modified or settled on or after the effective date. For the quarter ended March 31, 2003 and 2002, there were no stock

4

based awards, grants, modifications or settlements. Accordingly adoption of this method had no affect on net (loss) income or proforma (loss) income.

4. Employee Benefit Plan

Effective January 1, 2003, the Company sponsored a 401-K and a discretionary profit sharing plan (the "Plan".) The Company matches up to three percent of qualifying employees' compensation contribution to the Plan. The Company's contributions to the employees' account vests equally over three years and the employee contribution to their own account vests immediately.

5. Commitments

On May 17, 2002, we purchased all of the issued and outstanding shares of PhotoScan Systems, Inc. ("PhotoScan") from Secure Alarm Systems, Inc. ("Secure Alarm"). The purchase price for the issued and outstanding, shares of PhotoScan was \$600,000 of which \$200,000 was paid in cash and balance was paid by issuing 51,249 shares of our restricted common stock. The purchase agreement provides that in the event that the average closing price of our common stock for the ten trading days immediately prior to May 16, 2003 is less than approximately \$7.805 per share, we will pay in cash Secure Alarm an amount equal to the difference between \$400,000 and the 51,249 shares multiplied by such average closing price.

On August 13, 2002 we acquired all of the issues and outstanding common stock of National Safe of California, Inc. ("National Safe"). The purchase price of the acquisition was \$2,000,000, which was paid by issuing an aggregate of 283,566 shares. The Stock Purchase Agreement provides that in the event that the average closing price of our common stock for the ten trading days immediately prior to August 13, 2003 is less than \$7.053 per share, we can within 10 days of the Reference Date, either purchase 212,675 of the Shares of \$1,500,000 (subject to certain adjustments detailed in the Stock Purchase Agreement) or pay the seller an amount equal to the difference between (i) \$1,500,000 and (ii) 212,675 (subject to certain adjustments detailed in the Stock Purchase Agreement) multiplied by such average closing price.

Any adjustment resulting from the above transaction(s) is a purchase price adjustment and will be recorded as goodwill.

Critical Accounting Policies

Disclosure of the Company's significant accounting policies is included in Note 1 to the consolidated financial statements of the Company's Annual Report on Form 10-KSB for the year ended December 31, 2002. Some of these policies require management to make estimates and assumptions that may affect the reported amounts in the Company's financial statement.

Recent Accounting Pronouncements

Edgar Filing: DIVERSIFIED SECURITY SOLUTIONS INC - Form 10QSB

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation--Transition and Disclosure," which amends SFAS No. 123, "Accounting for Stock-Based Compensation." SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require more prominent and more frequent disclosures in financial statements about the effects of stock-based

5

compensation. In addition, SFAS No. 148 improves the timeliness of those disclosures by requiring that this information be included in interim as well as annual financial statements. SFAS No. 148 is effective for fiscal years ending after December 15, 2002. The effects of adopting SFAS No. 148 did not impact on the Company's financial position or results of operations.

Forward Looking Statements

When used in this discussion, the words "believes", "anticipates", "contemplated", "expects", or similar expressions are intended to identify forward looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. Those risks and uncertainties include changes in interest rates, the ability to control costs and expenses, significant variations in recognized revenue due to customer caused delays in installations, cancellations of contracts by our customers, and general economic conditions which could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The Company undertakes no obligation to publicly release the results of any revisions to those forward looking statements that may be made to reflect events or circumstances after this date or to reflect the occurrence of unanticipated events.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Three Months ended March 31, 2003 and March 31, 2002

Sales. Sales for the three-month ended March 31, 2003 was \$3,705,703 representing an increase of 16.6% or \$526,319 from \$3,179,384 for the same quarter a year ago. Sales increased during the quarter ended March 31, 2003 primarily as a result of \$1,008,230 in sales from three acquisitions made by the Company offset by a decrease in our existing core business due to customer delays in releasing orders from existing backlog.

Cost of Sales. Cost of sales was \$2,654,536 for the three-months ended March 31, 2003 as compared to \$1,891,344 for the three-months ended March 31, 2002. This was an increase of \$763,192 or 40.4%. For the three-months ended March 31, 2003, cost of sales as a percentage of sales were 71.6% as compared to 59.5% for the three-month ended March 31, 2002. We attribute the increase in our cost of sales to our having to charge less for our services due to increased competition.

Selling, General and Administrative Expenses. Selling, general and

Edgar Filing: DIVERSIFIED SECURITY SOLUTIONS INC - Form 10QSB

administrative expenses increased to \$2,173,140 for the quarter ended March 31, 2003 as compared to \$1,212,966 for the same quarter a year ago. This increase of 79.2% or \$960,174 is primarily attributed to the costs incurred in hiring additional personnel and the additional cost associated with our West Coast offices. Additionally, we incurred startup cost in connection with our security consulting division, which began operating in the third quarter of 2002.

Interest Income. Interest income for the three months ended March 31, 2003 was \$5,540 for the quarter ended March 31, 2003 as compared to \$28,996 for the quarter end March 31, 2002. The decrease of \$23,456 was due to having less cash to invest.

Interest Expense. Interest expense for the three months ended March 31, 2003 was \$26,723 as compared to \$38,847 for the quarter ended March 31, 2002. The decrease of \$12,124 is attributed

6

to having average lower debt balance of \$2,222,355 for the three-months ended March 31, 2003 as compared to \$2,938,262 for the three-months ended March 31, 2002.

Net (Loss) Income. As a result of the factors noted above, for the quarter ended March 31, 2003 our net loss was \$663,156, as compared to net income of \$39,223, for the quarter ended March 31, 2002. This resulted in basic loss per share of \$.13 on weighted average common shares outstanding of 5,138,357 for the quarter ended March 31, 2003 compared with \$.01 on weighted average common shares outstanding of 4,725,000 for the quarter ended March 31, 2002.

Liquidity and Capital Resources

As of March 31, 2003, we had cash and cash equivalents of \$3,972,018. We have a loan facility of \$4,500,000 with Hudson United Bank and have certain debt maturing from November 2004 through May 2005. The amount available under the credit facility was \$2,322,622 as of March 31, 2003. Our working capital was \$10,820,061 as of March 31, 2003.

During the three months ended March 31, 2003, net cash used in operations was \$285,349 and we purchased property and equipment of \$143,512.

Our capital requirements have grown substantially as a result of the growth of our operations and staffing. We expect our capital requirements to continue to increase in the future as we may seek to expand our operations internally and thorough acquisitions. We believe that our current cash and available lines of credit should be sufficient to meet our capital requirements for the next twelve months.

Item 3. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule

Edgar Filing: DIVERSIFIED SECURITY SOLUTIONS INC - Form 10QSB

13a-14. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings.

The Company's management, including its Chief Executive Officer and Chief Financial Officer, does not expect that its disclosure controls and procedures or its internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, provides reasonable, not absolute, assurance that the objectives of the control system are met. Because there are inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been or will be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns occur because of simple error or mistake. Controls can be circumvented by the individual acts of some persons or by collusion of two or more people. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all potential

7

future conditions; over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with the policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

(b) Changes in internal controls.

There have been no significant changes in the Company's internal controls or, to its knowledge, in other factors that could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

Part II - Other Information

Item 1. Legal Proceedings

In May, 2003, Henry Bros. Electronics, Inc., a subsidiary of ours, commenced an action in the Superior Court located in Orange County, California, seeking a preliminary injunction against National Systems Integration, Inc. (formerly known as Intellisec). This action asserts that National Systems has engaged in unfair competitive practices in violation of California Business and Professions Code Section 17200 because it is intentionally interfering with Henry Bros.' business practices. Henry Bros. has been granted a temporary restraining order and its motion for a preliminary injunction is pending.

Item 2. Changes in Securities

Not applicable

Item 3. Defaults Upon Senior Securities

Not applicable
