FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

INTRODUCTION TO INTERIM FINANCIAL STATEMENTS.

The interim financial statements included here in have been prepared by Bay Resources Ltd. (the "Company") without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (The "Commission"). Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30 2001.

In the opinion of management, all adjustments, consisting of normal recurring adjustments and consolidating entries, necessary to present fairly the consolidated financial position of the Company and subsidiaries as of March 31, 2002 and March 31, 2001, the results of its consolidated operations for the three and nine month periods ended March 31, 2002 and March 31, 2001, and the changes in its consolidated cash flows for the three and nine month periods ended March 31, 2001 and March 31, 2000, have been included. The results of consolidated operations for the interim periods are not necessarily indicative of the results for the full year.

UNLESS OTHERWISE INDICATED, ALL FINANCIAL INFORMATION PRESENTED IS IN AUSTRALIAN DOLLARS.

Notes to Consolidated Financial Statements
March 31, 2002, June 30, 2001 and
March 31, 2001

(1) ORGANISATION

Bay Resources Ltd. (Bay Resources) is incorporated in the State of Delaware. The principal shareholder of Bay Resources is Edensor Nominees Proprietary Limited (Edensor), an Australian corporation. Edensor owned 78.8% of Bay Resources as of March 31, 2002. Bay Resources acquired a controlling interest on September 3, 1987 in former subsidiary, Solmecs Corporation N.V. ("Solmecs") and 100% ownership on January 2, 1992. Bay Resources sold its interest in Solmecs effective June 5, 1998. During fiscal 1998, Bay Resources incorporated a further subsidiary, Baynex.com Pty Ltd (formerly Bayou Australia Pty Ltd), under the laws of Australia. Baynex.com Pty Ltd has not traded since incorporation.

(2) INVESTMENT SECURITIES

The following is a summary of Investment Securities at March 31, 2002, June 30, 2001 and March 31, 2001:

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

The investment using this cost method is carried at cost. Dividends received from the investment carried at cost are included in other income. Dividends received in excess of the Company's proportionate share of accumulated earnings ("return of capital dividends") are applied as a reduction of the cost of the investment. No securities were sold during 2001 and 2000 and all securities were treated as available for sale for 2001 and 2000. At June 30, 2001 the Company determined that the decline in value of its investment was permanent and has recorded a realised loss in the amount of A\$4,516.

(3) SHORT TERM AND LONG TERM DEBT

The following is a summary of Bay Resources' borrowing arrangements as of March 31, 2002, June 30, 2001 and March 31, 2001.

(4) AFFILIATE TRANSACTIONS

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

Bay Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation. At March 31, 2002, Bay Resources had no outstanding advances to or from unconsolidated affiliated companies. \$418,000 \$185,000 and \$276,000 of accounts payable for the periods shown is due to an affiliated management company.

(5) GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources and Solmeecs as a going concern. However, Bay Resources has sustained recurring losses. In addition, Bay Resources has no net working capital, which raises substantial doubts as to its ability to continue as going concerns. Bay Resources anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place. In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies and the President. Bay Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Bay Resources has not confirmed any other arrangements for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

(6) SALE OF SOLMECS

Pursuant to a stock purchase agreement dated as of June 5, 1998, the Company acquired 499,701 shares in SCNV Acquisition Corp ("SCNV"), representing approximately 24% of the issued and outstanding share capital of SCNV, in return for the whole of the share capital of Solmeecs Corporation N.V., a Netherlands Antilles company which prior to the exchange was formerly a wholly owned subsidiary of the Company. The 499,701 shares has been valued at US\$2,800,000 or A\$4,516,000 and will be accounted for using the cost method because the Company does not exercise significant influences over SCNV's operating and financial activities (see note 4). The sale resulted in a gain of \$5,899,000 which is included in other income.

SCNV is a Delaware corporation established May 1997 to select, develop and commercially exploit proprietary technologies, in various stages of development, invented primary by scientists who immigrated to Israel from and by scientists and institutions in Russia and other countries that formerly comprised the Soviet Union. Simultaneously with the SCNV stock acquisition by the Company, SCNV completed an initial public offering of common stock and warrants which resulted in gross proceeds of approximately US\$5,900,000.

The Company has been granted certain demand and "piggyback" registration rights with respect to the SCNV shares. Notwithstanding the foregoing, the Company has agreed not to sell, grant options for sale or assign or transfer any of the SCNV shares, for a period of 24 months from the closing of the ("Lock-up") agreement, which expired in June 2000. Bay Resources has requested SCNV to take the necessary steps to register Bay Resources shareholding in SCNV.

(7) INCOME TAXES

Bay Resources files its income tax returns on an accrual basis. Bay Resources has carry forward losses of approximately US\$17.5 million as of June 30, 2001 which expire in the years 1999 through 2012. Bay Resources will need to file tax returns for those years of the NOL carryforwards. Due to the uncertainty as to realisation of these losses, a valuation allowance of US\$6.0 million has been recorded to off set the tax benefit of the carry forward losses. During the year

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

ended June 30, 2001, Bay Resources provided an additional valuation allowance of US\$1.0 million. Due to the uncertainty as to realisation of these losses, a valuation allowance of US\$4.7 million has been recorded to off set the tax benefit of the carry forward losses.

(8) NEW BUSINESS OPPORTUNITY

In March 2002, Bay Resources reached an agreement with Tahera Corporation ("Tahera") to explore for gold on Tahera's extensive properties on the Slave Craton in northern Canada. Tahera is a diamond exploration company listed on the Toronto Stock Exchange and is engaged in diamond exploration in the northern Slave Craton. Tahera has developed an extensive database to explore for diamonds and under the terms of the agreement, Bay Resources will use the database and geochemical samples to explore for gold.

Tahera will retain a two percent net smelter return royalty on any production from deposits discovered as a result of Bay Resources using the Tahera samples and database.

Notes to Consolidated Financial Statements

(8) NEW BUSINESS OPPORTUNITY (CONT'D)

Tahera's diamond exploration data that Bay Resources will have access to includes electromagnetic and magnetic geophysical surveys, overburden and bedrock mapping, overburden sampling and drilling data. The Tahera overburden samples cover some 60,000 square kilometres of the northern Slave Craton with some 17,000 samples being potentially available for gold and base-metal analysis. The overburden samples have been taken on a reconnaissance scale with line intervals at 2.5 - 5.0 kilometers with some detailed surveys at

50-100 meter sample spacings. The Tahera samples cover areas of known gold mineralisation including in the vicinity of the Lupin and Ulu gold deposits.

Tahera's Jericho and Contwoyto properties lie in close proximity to the Lupin gold mine, which is a large, high grade, gold deposit (some three million ounce gold endowment produced to date), currently operated by Echo Bay Mines Ltd. Bay Resources considers there to be significant potential for gold mineralization, similar to that found at Lupin, on Tahera's Jericho and Contwoyto properties.

Utilising the Tahera database in conjunction with existing public data, Bay Resources's objective for the coming year is to delineate new areas of gold mineralization on the northern Slave Craton that could lead to a multi-million ounce gold discovery. Bay Resources will also continue to look for further mineral exploration opportunities in North America.

The president of Tahera, Mr. Joseph Gutnick is also the chairman and president of the Company, and the Company's principal stockholder, Edensor Nominees Pty Ltd., is also a significant stockholder of Tahera.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FUND COSTS CONVERSION

The consolidated statements of income and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial

results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar during the periods indicated:

9 months ended March 31, 2002	A\$1.00 = U.S. \$.5282
9 months ended March 31, 2001	A\$1.00 = U.S. \$.4856

RESULTS OF OPERATION

Three Months ended March 31, 2002 vs Three Months ended March 31, 2001.

The Company did not have any revenues in either the three months ended March 31, 2002 or the three months ended March 31, 2001.

Costs and expenses decreased from A\$118,000 during the three months ended March 31, 2001 to A\$96,000 during the three months ended March 31, 2002. The decrease is a result of the decrease in administrative costs including salaries from A\$87,000 in the three months ended March 31, 2001 to A\$68,000 in the three months ended March 31, 2002. In the prior period costs were incurred in the due diligence on St. Andrew which included consultants and travel and accommodation and there were no comparable costs in this period.

As a result of the foregoing, the loss from operations decreased from A\$118,000 for the three months ended March 31, 2001 to A\$96,000 for the three months ended March 31, 2002. There was no provision for income tax in either period.

The net loss was A\$96,000 for the three months ended March 31, 2002 compared to a net loss of A\$118,000 for the three months ended March 31, 2001.

NINE MONTHS ENDED MARCH 31, 2002 VS. NINE MONTHS ENDED MARCH 31, 2001.

The Company did not have any revenues in either the nine months ended March 31, 2002 or the nine months ended March 31, 2001.

Costs and expenses decreased from A\$438,000 in the nine months ended March 31, 2001 to A\$319,000 in the nine months ended March 31, 2002. The decrease is a net result of:

- a) an increase in interest expense from A\$51,000 for the nine months ended March 31, 2001 to A\$64,000 for the nine months ended March 31, 2002 as a result of an increase in long term interest bearing debt which was offset by the reduction in interest rates.
- b) the decrease in legal, accounting and professional costs from A\$20,000 in the nine months ended March 31, 2001 to A\$9,000 in the nine months ended March 31, 2002. In the prior period legal fees were incurred as part of the due diligence on St. Andrews and there were no comparable costs in this period.
- c) the decrease in administrative costs including salaries from A\$367,000 in the nine months ended March 31, 2001 to A\$246,000 in the nine months ended March 31, 2002. In the prior period substantial costs were incurred in the due diligence on St Andrew which included consultants and travel & accommodation and there were no comparable costs in this period.

As a result of the foregoing, the loss from operations decreased from A\$438,000 for the nine months ended March 31, 2001 to A\$319,000 for the nine months ended March 31, 2002. There was no provision for income tax in either period.

The net loss was A\$319,000 for the nine months ended March 31, 2002 compared to

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

a net loss of A\$438,000 for the nine months ended March 31, 2001.

LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2002 the Company had short-term obligations of A\$481,000 comprising accounts payable and accrued expenses and long-term debt of A\$746,000 consisting of loans from corporations affiliated with the president of the Company.

The Company anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid which there can be no assurance. In addition the Company has historically relied upon loans and advances from affiliates to meet a significant portion of the Company's cash flow requirements which the Company believes based on discussions with such affiliates will continue to be available during fiscal 2002 and 2003.

Other than the arrangements above the Company has not confirmed any further arrangements for ongoing funding. As a result the Company may be required to raise funds from additional debt or equity offerings and/or increase the revenues from operations in order to meet its cash flow requirements during the forthcoming year.

CAUTIONARY SAFE HARBOR STATEMENT UNDER THE UNITED STATES PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995.

Certain information contained in this Form 10-Q is forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the "Act") which became law in December 1995. In order to obtain the benefits of the "safe harbor" provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial and business results. Actual results may differ as a result of factors over which the Company has no control including without limitation, the risks of exploration and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold prices. Additional information which could affect the Company's financial results is included in the Company's Form 10-K on file with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to interest rate risk primarily through loans and advances from affiliates. The Company utilizes these borrowings to meet its working capital needs.

At March 31, 2002, the Company had outstanding long term borrowings of approximately \$746,000. In the event that interest rates associated with these borrowings were to increase 100 basis points, the impact on future cash flows would be a decrease of approximately \$7,460 annually.

(i) Appointment of Director

Mr Hugo Dummett was appointed a Non-Executive Director of the Corporation on 19 April 2002. Mr Dummett holds a geology degree from the University of Witwatersrand in South Africa and is one of Canada's most prominent and knowledgeable mining and exploration industry professionals. Mr Dummett is currently Chief Executive Officer of African Minerals Limited. From 1989 to 2000, Mr Dummett was employed with BHP Minerals, serving as Vice President and Senior Vice President Exploration from 1994 to 2000. Mr Dummett's appointment will bring further experience to Bay Resources, particularly his experience in Canada.

(ii) New Business Opportunity

In March 2002, Bay Resources reached an agreement with Tahera Corporation ("Tahera") to explore for gold on Tahera's extensive properties on the Slave Craton in northern Canada.
