Section 2 Financial Information**Item 2.02 Results of Operations and Financial Condition.**

On August 17, 2009, CanArgo Energy Corporation reported preliminary unaudited interim results for the three and six months ending June 30, 2009.

Operating Revenues from Continuing Operations for the three month period ended June 30, 2009 deteriorated to \$0.8 million from \$2.6 million for the corresponding period for 2008. This deterioration was attributable to both a decrease in the realised price for oil sold and lower volumes of oil sold at the Ninotsminda Field in Georgia.

The Company reported a Net Loss for the three month period ended June 30, 2009 of \$1.8 million compared to a net loss of \$1.0 million in the corresponding period for 2008. This was attributable to both increases in Operating Loss from Continuing Operations and Total Other Expense compared to the corresponding period for 2008.

Operating Loss from Continuing Operations for the three month period ended June 30, 2009 increased to \$0.7 million compared to a small Operating Loss of \$3.1 thousand in the corresponding period for 2008. This was due to lower Operating revenues from Continuing Operations, despite being offset partially by reduced Field Operating Expenses, Direct Project Costs, Selling, General and Administrative Expenses and Depreciation, Depletion and Amortization. A copy of the unaudited consolidated results of operations and financial condition are attached to the Press Release furnished herewith as Exhibit 99.1. See Item 7.01 herein.

The information set forth herein and in the exhibit is preliminary in nature, has been prepared by management and has not been reviewed or audited by the Company's auditors. Accordingly, such information does not necessarily reflect results of the Company's operations and financial condition that may be reportable after completion of a review or audit and, while management is reasonably confident that such information is materially accurate, such preliminary results may be subject to change and should not be regarded as a definitive report on results of operations and financial condition of the Company as at June 30, 2009 and as at December 31, 2008 and for the fiscal year then ended. Although these statements have been produced on a best effort basis and management believes they are accurate, they may not be relied upon.

As previously reported, the Company is currently in default in making interest payments under its outstanding Senior Subordinated Convertible Guaranteed Notes, due September 1, 2009 and its 12%

Table of Contents

Subordinated Convertible Guaranteed Notes, due June 28, 2010. The Company is also currently in default under the terms of its Settlement Agreement with WEUS Holding Inc (WEUS), a subsidiary of Weatherford International Ltd, as reported previously. The Company is continuing its negotiations with its Note holders and WEUS among other creditors in respect of its defaulted obligations with a view to arriving at a restructuring plan which, under current expectations, will involve a possible debtor in possession restructuring in Chapter 11 of the United States Bankruptcy Code. There can be no assurance, however, that such negotiations and discussions will be successfully concluded.
