Risk factors

Investing in these securities involves a high degree of risk. As an investor you should be able to bear a complete loss of your investment. You should carefully consider the information set forth in the Risk Factors section incorporated by reference into this prospectus.

Our principal business office is located at 7A Commercial Wharf West, Boston, Massachusetts 02110, and our telephone number is (617) 624-0111. Our website address is www.convertedorganics.com. Information contained on our website or any other website does not constitute part of this prospectus.

RISK FACTORS

Investment in our securities involves a high degree of risk. You should carefully consider the risks described below, those risks described in Item 1A Risk Factors of our Form 10-K for the year ended December 31, 2009, which has been filed with the Securities and Exchange Commission and is incorporated herein by reference in its entirety, as well as other information in this prospectus supplement, the accompanying prospectus, in any other documents incorporated by reference, and in any Form 8-K filed subsequent to our annual report on Form 10-K before purchasing any of the securities. Each of the risks described in these sections and documents could adversely affect our business, financial condition, results of operations and prospects, and could result in a complete loss of your investment. This prospectus supplement, the accompanying prospectus and the incorporated documents also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks mentioned above.

Risks Related to this Offering

The price per share at which we may repay the Notes and the exercise prices of the Warrants will likely be significantly less than \$1.00 per share. A large number of shares may be sold in the market following this offering, which may depress the market price of our common stock.

A large number of shares may be sold in the market following this offering, which may depress the market price of our common stock. We have the right to pay the installment payments for the Notes in shares of our common stock based on the lower of (i) the conversion price then in effect and (ii) 85% of the average of the three lowest closing sale prices of our common stock during the 20 trading day period prior to payment of the installment amount. For example, assuming our current stock price on December 15, 2010 of \$0.34 equaled our price for any installment payment, we

would be valuing our shares at \$0.289 per share if we used our shares to pay that installment. Additionally, although the Warrants have initial exercise prices of \$1.00, these prices will be reduced in the future to the average price per share at which we repay the Note installment payments (assuming we choose to use shares for such payments). Furthermore, the number of shares underlying the Series B Warrant will

S-2

Table of Contents

increase if the exercise price of the Series B Warrant decreases, such that the total exercise price of the Series B Warrant will remain \$4,990,000. As such, the total number of the shares underlying the Notes and their Series B Warrants is not known, and will likely be substantial.

Sales of a substantial number of shares of our common stock in the public market following this offering could cause the market price of our common stock to decline. If there are more shares of common stock offered for sale than buyers are willing to purchase, then the market price of our common stock may decline to a market price at which buyers are willing to purchase the offered shares of common stock and sellers remain willing to sell the shares.

We are required to hold a shareholders meeting no later than February 28, 2011 to vote on various proposals related to this offering, and if we fail to obtain such approval, we are required to continue to pursue such approval on a periodic basis.

We have agreed to hold a shareholders meeting no later than February 28, 2011 to approve: (A) to the extent required by Nasdaq, the issuance of Notes and Warrants to be sold at the second closing, (B) the issuance of greater than 20% of our shares of common stock pursuant to the Notes and Series B Warrant, (C) the adjustment of the exercise price of the Series A and Series C Warrant below their floor prices, and (D) the adjustment of the exercise price of the Class G Common Stock Purchase Warrant to purchase 2,500,000 shares held by the purchaser below its temporary floor price.

If we are unable to get the requested shareholder approval, we may be unable to repay the Notes using our common stock, which would require us to use our working capital to make the repayments. We may not have sufficient working capital to make such payments, or to the extent we are able to make such payments, it will reduce the amount of working capital we have to operate our business. In addition, if we are unable to obtain the requested shareholder approval, the exercise price of our Warrants will not be permitted to be reduced below the current floor price of \$0.345, which may cause the exercise price to be greater than our market price and cause the Warrants to be worthless.

Our management will have broad discretion as to the use of certain of the proceeds from this offering, and we may not use the proceeds effectively.

We have not designated the net proceeds from this offering to be used for any particular purpose, other than such proceeds must be used solely for general working capital purposes. Accordingly, our management will have broad discretion as to the application of the net proceeds from this offering and could use them for purposes other than those contemplated at the time of this offering. Our shareholders may not agree with the manner in which our management chooses to allocate and spend the net proceeds. Moreover, our management may use the net proceeds for corporate purposes that may not increase our profitability or market value. Notwithstanding the foregoing, the use of such proceeds shall be subject to the restrictions described below under Use of Proceeds.

USE OF PROCEEDS

We shall use the net proceeds from the sale of the Notes and Warrants solely for general working capital. Notwithstanding the foregoing, none of such proceeds shall be used, directly or indirectly, (i) for the satisfaction of any debt (other than payment of trade payables incurred after the date hereof in the ordinary course of business and consistent with prior practices) or (ii) for the redemption of any of our securities..

DIVIDEND POLICY

We have not paid any cash dividends since our inception and presently anticipate that all earnings, if any, will be retained for development of our business and that no dividends on our common stock will be declared in the foreseeable future. Any future dividends will be subject to the discretion of our Board of Directors and will depend upon, among other things, future earnings, the operating and financial condition of our company, our capital requirements and general business conditions.

Table of Contents**DILUTION**

Our unaudited net tangible book value of our common stock on September 30, 2010 was approximately \$(19,624,108), or approximately \$(0.44) per share. Net tangible book value per share is equal to the amount of our total tangible assets, less total liabilities, divided by the aggregate number of shares of common stock outstanding. Dilution per share represents the difference between the amount per share paid by purchasers of shares of common stock in this offering and the net tangible book value per share of our common stock immediately after this offering.

In calculating the amounts in the following table, we have assumed that the initial conversion price of the Notes of \$1.00 per share and the initial exercise price of the Warrants of \$1.00 per share is the price at which holders of the Notes and Warrants will purchase shares of common stock. After giving effect to: (i) the conversion of the Notes into 4,990,000 shares of common stock at the conversion price of \$1.00 per share, (ii) the exercise of the Warrants into 9,980,000 shares of common stock at an exercise price of \$1.00 per share, and (iii) after deducting estimated offering expenses of \$1,300,000 (which includes the maximum fee to our placement agent assuming the full exercise of the Warrants), our net tangible book value at September 30, 2010 would have been approximately \$(6,194,108), or approximately \$(0.11) per share. This represents an immediate dilution of \$1.11 per share to new investors purchasing shares of common stock in this offering. The following table illustrates this dilution:

Public offering price per share		\$ 1.00
Net tangible book value per share as of September 30, 2010		\$(0.44)
Increase per share attributable to the current offering		\$ 0.33
Net tangible book value per share as of September 30, 2010 after giving effect to the shares in this offering		\$(0.11)
Dilution per share to new investors		\$ 1.11

DESCRIPTION OF SECURITIES

The material terms and provisions of the Notes and Warrants being offered pursuant to this prospectus supplement and the accompanying prospectus are summarized below. The summary is subject to, and qualified in its entirety by, the form of Notes and Warrant which will be provided to each purchaser in this offering and will be filed as an exhibit to a Current Report on Form 8-K with the SEC in connection with this offering.

Description of Notes

We are offering Notes in the aggregate original principal amount of \$4,990,000, which Notes are convertible into shares of our common stock, such Notes to be purchased in two tranches, the first of which shall involve the sale of Notes in the aggregate original principal amount of \$3,939,473.68 (the Initial Notes), and the second of which shall involve the sale of Notes in the aggregate original principal amount of \$1,050,526.32 (the Additional Notes) and shall be consummated upon the satisfaction (or waiver) of certain conditions.

The Notes will be issued with an original issue discount of approximately 4.8%, and the purchase price of the Initial Notes will be \$3,750,000 and the purchase price of the Additional Notes will be \$1,000,000. The Notes are not interest bearing, unless we are in default on the Notes, in which case the Notes carry an interest rate of 18% per annum.

The Notes are initially convertible into shares of common stock at a conversion price of \$1.00 per share; provided that if we make certain dilutive issuances (with limited exceptions), the conversion price of the Notes will be lowered to the per share price for the dilutive issuances. We also have the right, at our option, to permit the holders of the Notes to convert at a lower price specified by us for a period specified by us. We are required to repay the Notes in six equal monthly installments commencing February 1, 2011, either in cash or in shares of our common stock. If we choose to utilize shares of our common stock for the payment, we must make an irrevocable decision to use shares 22 trading days prior to the installment payment date, and the value of our shares will be equal to the lower of (i) the conversion price then in effect and (ii) 85% of the average of the three lowest closing sale prices of our common stock during the 20 trading day period prior to payment of the installment amount (the Installment Conversion Price). If we choose to make an installment payment in shares of common stock, we must make a pre-installment payment of

shares (the Pre-Installment Shares) to the Note holders 20 trading days prior to the installment date based on the same formula during the preceding 20 trading days. On the

S-4

Table of Contents

installment date, to the extent we owe the Note holders additional shares in excess of the Pre-Installment Shares to satisfy the installment payment, we will issue the Note holders additional shares, and to the extent we have issued excess shares, such shares will be applied to future payments.

If an event of default occurs under the Note, we must redeem the Notes in cash at the greater of 135% of the unconverted principal amount or 135% of the greatest equity value of the shares of common stock underlying the Notes from the date of the default until the redemption is completed.

The conversion price of all the Notes is subject to adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions. The convertibility of the Notes may be limited if, upon exercise, the holders or any of their affiliates would beneficially own more than 4.9% of our common stock.

Description of Warrants

We are offering to the purchaser of the Notes warrants to acquire shares of common stock, in the form of three warrants: (i) the Series A Warrant, (ii) the Series B Warrant and (iii) the Series C Warrant (collectively, the Warrants). The Warrants will be issued in two tranches on the dates the Initial Notes and Additional Notes are issued, on a pro rata basis based on the principal amount of Notes being issued. The first closing is referred to herein as the Initial Closing and the second closing is referred to herein as the Additional Closing.

Series B Warrants

The Series B Warrants are exercisable anytime after the earlier to occur of us receiving shareholder approval (as discussed below) or the date on which Initial Notes are no longer outstanding (or the issuance date if issued after shareholder approval) and expire upon the earlier to occur of: (i) the first anniversary of the initial exercise date and (ii) the nine (9) month anniversary of the date on which shareholder approval is obtained. The Series B Warrants provide that the holders are initially entitled to purchase an aggregate of 4,990,000 shares (warrants to purchase 3,939,474 shares of common stock will be issued at the Initial Closing and a warrant to purchase 1,050,526 shares of common stock will be issued at the Additional Closing) at an initial exercise price of \$1.00 per share. If we make certain dilutive issuances (with limited exceptions), the exercise price of the Series B Warrants will be lowered to the per share price for the dilutive issuances. In addition, the exercise price of the Series B Warrants will adjust to the average of the Installment Conversion Prices used to repay the Initial Notes (see above for a discussion of the Note installment payments). The floor price for the exercise price of the Series B Warrants is \$0.345. The number of shares underlying the Series B Warrants will adjust whenever the exercise price adjusts, such that at all times the aggregate exercise price of the Series B Warrants will be \$4,990,000 (\$3,939,473 for the Series B Warrant issued in the Initial Closing and \$1,050,526 for the Series B Warrants issued in the Additional Closing).

To the extent we enter into a fundamental transaction, we have agreed to purchase the Series B Warrants from the holders at their Black-Scholes value. A fundamental transaction means that (i) we or any of our subsidiaries shall, directly or indirectly, in one or more related transactions, (1) consolidate or merge with or into any other person, or (2) sell, lease, license, assign, transfer, convey or otherwise dispose of all or substantially all of our respective properties or assets to any other person, or (3) allow any other person to make a purchase, tender or exchange offer that is accepted by the holders of more than 50% of the outstanding shares of our voting stock, or (4) consummate a stock or share purchase agreement or other business combination with any other person whereby such other person acquires more than 50% of the outstanding shares of our voting stock, or (5) reorganize, recapitalize or reclassify our common stock, or (ii) any person or group (as these terms are used for purposes of the securities laws is or shall become the beneficial owner, directly or indirectly, of 50% of the aggregate ordinary voting power represented by our issued and outstanding voting stock.

If our common stock trades at a price at least 200% above the Series B Warrants exercise price (Trigger Price) for a period of 10 trading days at any time after we get shareholder approval (discussed below), we may force the exercise of the Series B Warrants if we meet certain conditions. These conditions include, among other items, that (1) our common stock trade for a price at or above the Trigger Price on any day during the period commencing on the date we give notice of our intention to force exercise and ending on the day immediately preceding the mandatory exercise date; and (2) the aggregate dollar trading volume (as reported on Bloomberg) of our common stock on any day during the period commencing on the mandatory exercise notice date and ending on the day immediately preceding the mandatory exercise date is less than \$250,000 per day.

Table of Contents

The Series A and Series C Warrants are exercisable anytime after the earlier to occur of: (i) the six month and one day anniversary of the date of issuance and (ii) the date on which shareholder approval is obtained (or the initial closing date if issued prior to shareholder approval) and have five year terms. The Series A Warrants provide that the holders are initially entitled to purchase an aggregate of 2,495,000 shares (warrants to purchase 1,969,737 shares of common stock will be issued at the Initial Closing and a warrant to purchase 525,263 shares of common stock will be issued at the Additional Closing) at an initial exercise price of \$1.00 per share. The Series C Warrants provide that the holders are initially entitled to purchase an aggregate of 2,495,000 shares (warrants to purchase 1,969,737 shares of common stock will be issued at the Initial Closing and a warrant to purchase 525,263 shares of common stock will be issued at the Additional Closing) at an initial exercise price of \$1.00 per share; provided that the Series C Warrants may only be exercised by each holder in the same proportion as such holder has already exercised its Series B Warrants. For example, if a holder has exercised 20% (by dollar value) of its Series B Warrants, then it may exercise 20% (by dollar value) of its Series C Warrants.

If we make certain dilutive issuances (with limited exceptions), the exercise price of the Series A and Series C Warrants will be lowered to the per share price for the dilutive issuances. In addition, the exercise price of the Series A and Series C Warrants will adjust to the average of the Installment Conversion Prices used to repay the Initial Notes (see above for a discussion of the Note installment payments). Until we obtain shareholder approval (as discussed below), the floor price of the Series A and Series C Warrants is \$0.345.

To the extent we enter into a fundamental transaction (as defined above), we have agreed to purchase the Series A and Series C Warrants from the holders at their Black-Scholes value.

The exercise price of all the Warrants is subject to adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions.

Our obligation to issue and sell the Additional Notes and Warrants to the investors at the Additional Closing is subject to the satisfaction by the investors of certain conditions, including that such investors shall have delivered to us the Additional Purchase Price for the Additional Notes and Warrants and that the investors representations and warranties shall remain true and correct in all material respects as of the Additional Closing Date. The obligation of the investors to purchase the Additional Notes and Warrants at the Additional Closing is subject to satisfaction by us of certain conditions, including, without limitation, that we shall have obtained the shareholder approval discussed below and that no event or series of events shall have occurred that would result in a material adverse effect on us.

Limitations on Exercise

Until we receive shareholder approval (as discussed below), we may not issue the holders of the Notes or Series B Warrants, upon their conversion or exercise, as applicable, 20% or more of our common stock outstanding on the date hereof. The exercisability of the Notes and Warrants may be limited if, upon exercise, the holder or any of its affiliates would beneficially own more than 4.9% of our common stock.

Shareholder Approval; Other Covenants

We have agreed with the investors of the Notes and Warrants to, among other things, (i) not issue any securities for a period of 90 days from the date from the date hereof, subject to certain exceptions (ii) not to enter into a variable rate transaction at any time while the Notes or Warrants are outstanding, (iii) for a period of one year from the date hereof to allow the investors to participate in future issuances of securities, subject to certain exceptions; and (iv) to hold a shareholder meeting by February 28, 2011 to approve: (A) the issuance of greater than 19.99% of our shares of common stock pursuant to the Notes and Series B Warrants, (B) the adjustment of the exercise price of the Series A and Series C Warrants below their floor prices, and (C) issuance of the Additional Notes and additional Warrants at the Additional Closing and (D) the elimination of the temporary floor price in the Class G warrants held by one of the investors.

As an underwriter, the placement agent is required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares of common stock, Notes and Warrants by the placement agent. Under these rules and regulations, the placement agent (1) may not engage in any stabilization activity in connection with our securities; and (2) may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

From time to time in the ordinary course of their respective businesses, the placement agent or its affiliates have in the past and may in the future engage in investment banking and/or other services with us and our affiliates for which it has or may in the future receive customary fees and expenses; however, we have no such current arrangements with the placement agent.

We will also agree to indemnify the purchasers and the placement agent against certain losses resulting from our breach of any of our representations, warranties, or covenants under agreements with the purchasers as well as under certain other circumstances described in the securities purchase agreement. We have agreed to indemnify the placement agent against liabilities under the Securities Act.

Fees

The placement agent will be entitled to a cash fee of 8% of the gross proceeds paid to us for the securities we sell in this offering, when and as received by us. Assuming we complete the offering for \$4,990,000 in principal amount of Notes and the Warrants at an aggregate purchase price of \$4,750,000, the placement agent will receive a fee of \$380,000. If we complete the offering for only \$3,939,473.68 in principal amount of Notes and Warrants at an aggregate purchase price of \$3,750,000, the placement agent will receive a fee of \$300,000.

Because there is no minimum offering amount required, the actual total placement agency fees, if any, are not presently determinable and may be substantially less than the maximum amount set forth above. The maximum fees to be received by any member of the Financial Industry Regulatory Association, or FINRA, or independent broker-dealer may not be greater than 8% of the initial gross proceeds from the sale of any securities being offered hereby.

The sale of the Initial Notes and Warrants at the Initial Closing will be completed on December 17, 2010. We estimate the total offering expenses of this offering that will be payable by us, excluding the placement agency fees, will be approximately \$80,000, which include legal and printing costs, and various other fees. At the closing, we will mail the Notes and Warrants directly to the purchasers at the respective addresses set forth in the securities purchase

agreement.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (SEC) using a shelf registration process. Under this shelf registration process, we may offer from time to time, in one or more offerings, securities having an aggregate initial offering price of up to \$75,000,000. Each time we offer securities, we will provide you with a prospectus supplement that describes the specific amounts, prices and terms of the securities we offer. The prospectus supplement also may add, update or change information contained in this prospectus. You should read carefully both this prospectus and any prospectus supplement together with additional information described below under the caption **Where You Can Find More Information**.

This prospectus does not contain all the information provided in the registration statement we filed with the SEC. For further information about us or our securities offered hereby, you should refer to that registration statement, which you can obtain from the SEC as described below under the heading **Where You Can Find More Information**.

RISK FACTORS

Before making an investment decision, you should carefully consider the risks described under **Risk Factors** in the applicable prospectus supplement and in our most recent Annual Report on Form 10-K, and in our updates to those Risk Factors in our Quarterly Reports on Form 10-Q, together with all of the other information appearing in this prospectus or incorporated by reference into this prospectus and any applicable prospectus supplement, in light of your particular investment objectives and financial circumstances. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our securities could decline due to any of these risks, and you may lose all or part of your investment.

Our principal executive offices are located at 137A Lewis Wharf, Boston, MA 02110, and our telephone number is (617) 624-0111. Our web site address is *convertedorganics.com*. Information on our web site is not part of this prospectus.

FORWARD-LOOKING STATEMENTS

Some of the information in this prospectus, any prospectus supplement, and the documents we incorporate by reference contains forward-looking statements within the meaning of the federal securities laws. You should not rely on forward-looking statements in this prospectus, any prospectus supplement, and the documents we incorporate by reference. Forward-looking statements typically are identified by use of terms such as *anticipate, believe, plan, expect, future, intend, may, will, should, estimate, predict, potential, continue, and similar words, although* forward-looking statements are expressed differently. This prospectus, any prospectus supplement, and the documents we incorporate by reference may also contain forward-looking statements attributed to third parties relating to their estimates regarding the growth of our markets. All forward-looking statements address matters that involve risk and uncertainties, and there are many important risks, uncertainties and other factors that could cause our actual results, as well as those of the markets we serve, levels of activity, performance, achievements and prospects to differ materially from the forward-looking statements contained in this prospectus, any prospectus supplement, and the documents we incorporate by reference.

You should also consider carefully the statements under **Risk Factors** and other sections of this prospectus, any prospectus supplement, and the documents we incorporate by reference, which address additional facts that could cause our actual results to differ from those set forth in the forward-looking statements. We caution investors not to place significant reliance on the forward-looking statements contained in this prospectus, any prospectus supplement, and the documents we incorporate by reference. We undertake no obligation to publicly update or review any forward-looking statements, whether as a result of new information, future developments or otherwise.

USE OF PROCEEDS

Except as otherwise provided in a prospectus supplement, we will use the net proceeds from the sale of the securities covered by this prospectus for general corporate purposes, which may include reducing our outstanding indebtedness, increasing our working capital or financing acquisitions and capital expenditures. Table of Contents

DESCRIPTION OF SECURITIES WE MAY OFFER

This prospectus is part of a shelf registration statement. Under this shelf registration statement, we may offer from time to time up to \$75,000,000 of any of the following securities, either separately or in units:

common stock;

preferred stock;

debt securities, including convertible debt securities;

warrants; and

units.

DESCRIPTION OF COMMON STOCK

We are authorized to issue 250,000,000 shares of common stock. As of July 1, 2010, there were outstanding: 40,520,708 shares of common stock outstanding;

3,688,795 shares issuable upon the exercise of options issued pursuant to our current stock option plans;

29,312,012 shares issuable upon the exercise of outstanding warrants, and additional shares underlying a convertible note that is convertible into our common stock at the option of the holder at a price equal to the average closing price of our common stock on the NASDAQ Capital Market for the five days preceding conversion (as of June 30, 2010, the note had a remaining principal balance of approximately \$286,450); and

3,458,047 shares issuable upon the exercise of options available for future grant under our stock option plans.

Subject to preferences that may be applicable to any preferred stock outstanding at the time, the holders of our common stock are entitled to receive dividends out of legally available assets at such times and in such amounts as our Board of Directors may from time to time determine. Each shareholder is entitled to one vote for each share of common stock held on all matters submitted to a vote of shareholders. Cumulative voting for the election of directors is not authorized.

Our common stock is not subject to conversion or redemption and holders of our common stock are not entitled to preemptive rights. Upon the liquidation, dissolution or winding up of our company, the remaining assets legally available for distribution to shareholders, after payment of claims or creditors and payment of liquidation preferences, if any, on outstanding preferred stock, are distributable ratably among the holders of our common stock and any participating preferred stock outstanding at that time. Each outstanding share of common stock is fully paid and nonassessable.

Anti-Takeover Effects of Provisions of Delaware Law and Our Certificate of Incorporation and Bylaws

Our Certificate of Incorporation and Bylaws contain a number of provisions that could make our acquisition by means of a tender or exchange offer, a proxy contest or otherwise more difficult. These provisions are summarized below.

Staggered Board. Staggered terms tend to protect against sudden changes in management and may have the effect of delaying, deferring or preventing a change in our control without further action by our shareholders. Our Board of Directors is divided into three classes, with one class of directors elected at each year's annual shareholder meeting.

Special Meetings. Our Bylaws provide that special meetings of shareholders can be called by the President, at the request of a majority of the Board of Directors or at the written request of holders of at least 50% of the shares outstanding and entitled to vote.

Table of Contents

Undesignated Preferred Stock. The ability to authorize undesignated preferred stock makes it possible for our Board of Directors to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to acquire us. The ability to issue preferred stock may have the effect of deferring hostile takeovers or delaying changes in control or management of our Company.

Delaware Anti-Takeover Statute. We are subject to the provisions of Section 203 of the Delaware General Corporation Law regulating corporate takeovers. In general, Section 203 prohibits a publicly held Delaware corporation from engaging under certain circumstances in a business combination with an interested shareholder for a period of three years following the date the person became an interested shareholder unless:

Prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the shareholder becoming an interested shareholder.

Upon completion of the transaction that resulted in the shareholder becoming an interested shareholder, the shareholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding (1) shares owned by persons who are directors and also officers and (2) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer.

On or subsequent to the date of the transaction, the business combination is approved by the board and authorized at an annual or special meeting of shareholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested shareholder.

Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested shareholder. An interested shareholder is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested shareholder status, did own 15% or more of a corporation's outstanding voting securities. We expect the existence of this provision to have an anti-takeover effect with respect to transactions our Board of Directors does not approve in advance. We also anticipate that Section 203 may also discourage attempted acquisitions that might result in a premium over the market price for the shares of common stock held by shareholders.

The provisions of Delaware law, our Certificate of Incorporation and our Bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, they may also inhibit temporary fluctuations in the market price of our common stock that often result from actual or rumored hostile takeover attempts. These provisions may also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that shareholders may otherwise deem to be in their best interests..

Limitation of Director Liability

The Delaware General Corporation Law authorizes corporations to limit or eliminate the personal liability of directors to corporations and their shareholders for monetary damages for breach of the directors' fiduciary duty of care. Although the law does not change the directors' duty of care, it enables corporations to limit available relief in most cases to equitable remedies such as an injunction. Our certificate of incorporation limits the liability of directors to us or our shareholders to the fullest extent permitted by applicable law. Specifically, our directors will not be personally liable to us or our shareholders for monetary damages for breach of a director's fiduciary duty as a director, except for liability:

for any breach of the director's duty of loyalty to us or our shareholders;

for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;

for unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the DGCL; or

for any transaction from which the director derived an improper personal benefit.

Table of Contents

Indemnification

To the maximum extent permitted by law, our bylaws provide for mandatory indemnification of directors and permit indemnification of our employees and agents against all expense, liability and loss to which they may become subject or which they may incur as a result of being or having been our director, officer, employee or agent. In addition, we must advance or reimburse directors and officers, and may advance or reimburse employees and agents, for expenses incurred by them as a result of indemnifiable claims.

Transfer Agent, Warrant Agent and Registrar

The transfer agent and registrar for our common stock and warrant agent for our Class B warrants and Class H warrants is Computershare Shareholder Services, Inc., and its wholly owned subsidiary, Computershare Trust Company, N.A., 250 Royall Street, Canton, Massachusetts 02021.

Listing

Our common stock, Class B warrants and Class H warrants are listed on the Nasdaq Capital Market.

DESCRIPTION OF PREFERRED STOCK

We are authorized to issue 10,000,000 shares of preferred stock.

Our Board of Directors has the authority, without action by our shareholders, to designate and issue preferred stock in one or more series. Our Board of Directors may also designate the rights, preferences and privileges of each series of preferred stock, any or all of which may be greater than the rights of the common stock. It is not possible to state the actual effect of the issuance of any shares of preferred stock on the rights of holders of the common stock until our Board of Directors determines the specific rights of the holders of the preferred stock. However, these effects might include: (a) restricting dividends on the common stock; (b) diluting the voting power of the common stock; (c) impairing the liquidation rights of the common stock; and (d) delaying or preventing a change in control of our company without further action by our shareholders.

As of the date of this prospectus, we have not authorized any classes of preferred stock.

DESCRIPTION OF DEBT SECURITIES

The following description sets forth some general terms and provisions of the debt securities we may offer, but is not complete. The particular terms of the debt securities offered, and the extent to which the general provisions may or may not apply to the debt securities so offered, will be described in the prospectus supplement relating to the particular debt securities.

Except as permitted by applicable law, any indentures will be qualified under the Trust Indenture Act of 1939, as amended. Except as permitted by applicable law, any senior debt securities will be issued under a senior indenture to be entered into between us and the trustee named in the senior indenture. Except as permitted by applicable law, any subordinated debt securities will be issued under a subordinated indenture to be entered into between us and the trustee named in the subordinated indenture.

The following summaries of some material provisions of the senior debt securities, the subordinated debt securities and the indentures are subject to, and qualified in their entirety by reference to, all the provisions of the indenture (as supplemented) applicable to a particular series of debt securities, including the definitions therein of some terms. As such the following provisions may be amended or modified by the terms of such indenture. If we so indicate in the prospectus supplement, the terms of any debt securities offered under that prospectus supplement may differ from the terms described below. In addition, to the extent an indenture is not required pursuant to applicable law, the following provisions may be modified in the instruments comprising the debt securities.

General

Unless otherwise specified in a prospectus supplement, the debt securities will be our direct unsecured obligations. The senior debt securities will rank equally with any of our other senior and unsubordinated debt. The subordinated debt securities will be subordinate and junior in right of payment to any senior indebtedness.

Table of Contents

Unless otherwise specified in a prospectus supplement, the indentures do not limit the aggregate principal amount of debt securities that we may issue and provide that we may issue debt securities from time to time at par or at a discount, and in the case of the new indentures, if any, in one or more series, with the same or various maturities. Unless indicated in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series outstanding at the time of the issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under any applicable indenture.

Each prospectus supplement will describe the terms relating to the specific series of debt securities being offered. These terms will include some or all of the following:

the title of debt securities and whether they are subordinated debt securities or senior debt securities;

any limit on the aggregate principal amount of the debt securities;

the ability to issue additional debt securities of the same series;

the price or prices at which we will sell the debt securities;

whether the debt securities of the series will be guaranteed and the terms of any such guarantee;

the maturity date or dates of the debt securities;

the rate or rates of interest, if any, which may be fixed or variable, at which the debt securities will bear interest, or the method of determining such rate or rates, if any;

the date or dates from which any interest will accrue or the method by which such date or dates will be determined;

the right, if any, to extend the interest payment periods and the duration of any such deferral period, including the maximum consecutive period during which interest payment periods may be extended;

whether the amount of payments of principal of (and premium, if any) or interest on the debt securities may be determined with reference to any index, formula or other method, such as one or more currencies, commodities, equity indices or other indices, and the manner of determining the amount of such payments;

the dates on which we will pay interest on the debt securities and the regular record date for determining who is entitled to the interest payable on any interest payment date;

the place or places where the principal of (and premium, if any) and interest on the debt securities will be payable, where any securities may be surrendered for registration of transfer, exchange or conversion, as applicable, and notices and demands may be delivered to or upon us pursuant to the indenture, if applicable;

if we possess the option to do so, the periods within which and the prices at which we may redeem the debt securities, in whole or in part, pursuant to optional redemption provisions, and the other terms and conditions of any such provisions;

our obligation, if any, to redeem, repay or purchase debt securities by making periodic payments to a sinking fund or through an analogous provision or at the option of holders of the debt securities, and the period or periods within which and the price or prices at which we will redeem, repay or purchase the debt securities, in whole or in part, pursuant to such obligation, and the other terms and conditions of such obligation;

the denominations in which the debt securities will be issued, if other than denominations of \$1,000 and integral multiples of \$1,000;

the portion, or methods of determining the portion, of the principal amount of the debt securities which we must pay upon the acceleration of the maturity of the debt securities in connection with an event of default (as described below), if other than the full principal amount;

Table of Contents

the currency, currencies or currency unit in which we will pay the principal of (and premium, if any) or interest, if any, on the debt securities, if not United States dollars;

any deletions from, modifications of or additions to the events of default or our covenants with respect to the applicable series of debt securities;

any limitation on our ability to incur debt, redeem shares, sell our assets or other restrictions;

the application, if any, of the terms of the indenture, if applicable, relating to defeasance and covenant defeasance (which terms are described below) to the debt securities;

whether the subordination provisions summarized below or different subordination provisions will apply to the debt securities;

the terms, if any, upon which the holders may convert or exchange the debt securities into or for our common stock, preferred stock or other securities or property;

whether any of the debt securities will be issued in global form and, if so, the terms and conditions upon which global debt securities may be exchanged for certificated debt securities;

any change in the right of the trustee or the requisite holders of debt securities to declare the principal amount thereof due and payable because of an event of default;

the depository for global or certificated debt securities;

any special tax implications of the debt securities;

any trustees, authenticating or paying agents, transfer agents or registrars, or other agents with respect to the debt securities; and

any other terms of the debt securities not inconsistent with the provisions of the indentures, as amended or supplemented, if applicable.

Unless otherwise specified in the applicable prospectus supplement, the debt securities will not be listed on any securities exchange. Debt securities may be sold at a substantial discount below their stated principal amount, bearing no interest or interest at a rate which at the time of issuance is below market rates. The applicable prospectus supplement will describe the federal income tax consequences and special considerations applicable to any such debt securities.

Guarantees

Debt securities may be guaranteed by our subsidiaries if so provided in the applicable prospectus supplement. The prospectus supplement will describe the terms of any guarantees, including, among other things, the method for determining the identity of the guarantors and the conditions under which guarantees will be added or released. Any guarantees will be joint and several obligations of the guarantors. The obligations of each guarantor under its guarantee will be limited as necessary to prevent that guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law.

Subordination

The prospectus supplement relating to any offering of subordinated debt securities will describe the specific subordination provisions, if any. However, unless otherwise noted in the prospectus supplement, subordinated debt securities will be subordinate and junior in right of payment to any existing indebtedness. Unless otherwise noted in the prospectus supplement, the subordinated indenture, if applicable, will not limit the amount of subordinated debt securities which we may issue, nor will it limit us from issuing any other secured or unsecured debt.

Unless otherwise noted in an accompanying prospectus supplement, if we default in the payment of any principal of (or premium, if any) or interest on any senior indebtedness when it becomes due and payable, whether at maturity or at a date fixed for prepayment or by declaration or otherwise, then, unless and until such default is cured or waived or ceases to exist, we will

Table of Contents

make no direct or indirect payment (in cash, property, securities, by set-off or otherwise) in respect of the principal of or interest on the subordinated debt securities.

In the event of the acceleration of the maturity of any subordinated debt securities, the holders of all senior debt securities outstanding at the time of such acceleration, subject to any security interest, will first be entitled to receive payment in full of all amounts due on the senior debt securities before the holders of the subordinated debt securities will be entitled to receive any payment of principal (and premium, if any) or interest on the subordinated debt securities.

Unless otherwise indicated in an applicable prospectus, if any series of subordinated debt securities is guaranteed by certain of our subsidiaries, then the guarantee will be subordinated to the senior indebtedness of such guarantor to the same extent as the subordinated debt securities are subordinated to the senior indebtedness.

Consolidation, Merger or Sale; No Protection in Event of a Change of Control or Highly Leveraged Transaction

The indenture does not contain any covenant that restricts our ability to merge, consolidate, sell, convey, transfer or otherwise dispose of all or substantially all of our assets so long as no default or event of default under the indenture shall have occurred or be continuing immediately before and immediately after giving effect to such a transaction. Any successor to or acquirer of such assets must assume all of our obligations under the indenture or the debt securities, as appropriate.
