PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON OCTOBER 25, 2001

INTRODUCTION

This Proxy Statement is furnished to stockholders of Bollinger Industries, Inc., a Delaware corporation ("Bollinger" or the "Company"), in connection with the solicitation of proxies on behalf of the Board of Directors of the Company for use at the annual meeting of stockholders to be held on October 25, 2001, and at any postponements or adjournments thereof. Proxies in the form enclosed will be voted at the meeting if properly executed, returned to the Company prior to the meeting, and not revoked. The approximate date on which this Proxy Statement and the accompanying proxy card will first be sent to stockholders is September 27, 2001.

REVOCABILITY OF PROXY

A proxy may be revoked at any time before it is voted by delivering written notice of revocation to the Secretary of the Company, by delivering a subsequently dated proxy, or by attending the meeting and withdrawing the proxy. A stockholder's attendance at the meeting will not constitute automatic revocation of the proxy.

ACTION TO BE TAKEN AT THE MEETING

The accompanying proxy, unless the stockholder otherwise specifies in the proxy, will be voted (i) for the election as directors of the nominees listed under "Election of Directors"; (ii) for the ratification of the appointment of King, Griffin & Adamson, P.C. as independent public accountants of the Company for the 2002 fiscal year; and (iii) at the discretion of the proxy holders, on any other matter that may properly come before the meeting or any postponements or adjournments thereof.

Where stockholders have appropriately specified how their proxies are to be voted, they will be voted accordingly. If any other matter of business is brought before the meeting, the proxy holders may vote the proxies at their discretion. The directors do not know of any such other matter or business.

OUTSTANDING CAPITAL STOCK

Edgar Filing: BOLLINGER INDUSTRIES INC - Form DEF 14A

In deciding all questions, a holder of Common Stock is entitled to one vote, in person or by proxy, for each share held in his or her name on the record date. Directors of the Company will be elected by a plurality of the votes cast by the stockholders present in person or by proxy at the Annual Meeting and entitled to vote thereon. PERSONS MAKING THE SOLICITATION

The accompanying proxy is being solicited by the Board of Directors of the Company. The cost of soliciting proxies will be borne entirely by the Company and no other person or persons will bear such costs either directly or indirectly. In addition to the use of the mails, proxies may be solicited by personal interview, telephone and telegram by directors, officers and employees of the Company.

Stephen Parr was the sole member of the Compensation and Stock Option Committee during fiscal 2001, and served as its chairman. The Compensation and Stock Option Committee determines the Company's policy with respect to the nature and amount of all compensation of the Company's officers, and will at least annually prepare a compensation report in accordance with rules promulgated by the Securities and Exchange Commission (the "SEC"), and also administers the Bollinger Industries, Inc. 1993, 1998 and 2000 Stock Option

STOCK OPTION PLANS

DESCRIPTION OF STOCK OPTION PLANS.

1993 Plan. In September 1993 the Board of Directors adopted the Bollinger Industries, Inc. 1993 Stock Option Plan (the "1993 Plan") pursuant to which options to purchase up to 500,000 shares of Common Stock may be granted. The individuals eligible to participate in the 1993 Plan are those full-time key employees, including officers and employee directors, and independent directors of the Company or its subsidiaries as the Compensation and Stock Option Committee of the Board of Directors, which administers the 1993 Plan, may determine from time to time. The Compensation and Stock Option Committee may grant either incentive stock options ("ISOs") within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, or nonqualified stock options. Only nonqualified stock options may be granted to independent directors.

-8-

12

The purchase price of shares subject to an option granted under the 1993 Plan is determined by the Compensation and Stock Option Committee at the time of grant, but may not be less than 50% of the fair market value of the shares of Common Stock on the date of grant. The exercise price of ISOs must be at least 100% of the fair market value. The aggregate fair market value (determined as of the date the option is granted) of the stock with respect to which ISOs are exercisable for the first time by the optionee in any calendar year (under the 1993 Plan and any other incentive stock option plan of the Company) may not exceed \$100,000. Options granted under the 1993 Plan must be exercised within ten years from the date of grant and will generally vest in annual installments as determined by the Compensation and Stock Option Committee. In the case of any eligible employee who owns or is deemed to own stock possessing more than 10% of the total combined voting power of all classes of stock of the Company, the exercise price of any ISOs granted under the 1993 Plan may not be less than 110% of the fair market value of the Common Stock on the date of grant, and the exercise period may not exceed five years from the date of grant.

Options granted under the 1993 Plan are not transferable by the optionee other than by will or under the laws of descent and distribution. Options terminate on the earlier of the date of the expiration of the option or thirty (30) days after the date the optionee terminates employment with the Company and its subsidiaries for any reason other than termination for cause or the death or disability of the optionee. During the 30-day period, the optionee may exercise the option in respect of the number of shares that were vested on the date of termination of employment. In the event of termination because of the death or disability of an optionee and before the date of expiration of the option, the option terminates on the earlier of the date of expiration or one year following the date of termination of employment, during which period the option may be exercised in respect of the number of shares that were vested on the termination of employment.

The 1993 Plan provides that an option agreement may permit an optionee to tender previously owned shares of Common Stock in partial or full payment for shares to be purchased on exercising an option. Unless sooner terminated by action of the Board of Directors, the 1993 Plan will terminate in 2003. Subject to certain exceptions, the 1993 Plan may be amended, altered or discontinued by the Board of Directors without stockholder approval.

Edgar Filing: BOLLINGER INDUSTRIES INC - Form DEF 14A

As of September 14, 2001 options to purchase a total of 168,666 shares of Common Stock are outstanding under the 1993 Plan at prices ranging from \$0.63 to \$13.00 per share.

1998 Plan. The Bollinger Industries, Inc. 1998 Stock Option Plan (the "1998 Plan") was adopted by the Board of Directors and approved by the stockholders in September 1998. This plan provides for the grant of options to purchase up to 500,000 shares of Common Stock of the Company to officers and employees of the Company who are responsible for or contribute to the management, growth and profitability of the business. No grant will be made under this Plan to a director who is not an officer or a salaried employee of the Company.

The purchase price of shares subject to an option granted under the 1998 Plan is determined by the Compensation and Stock Option Committee at the time of grant, and the exercise price shall not be less than 100% of the fair market value of the Common Stock subject to the stock option on the date of grant (or 110% in the case of a stock option granted to a participant who owns or is deemed to own stock possessing more than 10% of the total combined voting power of all classes of stock of the Company). Options granted under the 1998 Plan must generally be exercised within ten years from the date of grant (five years from the date of grant in the case of a stock option granted to a participant who owns or is deemed to own stock possessing more than 10% of the total combined voting power of all classes of stock of the Company), unless otherwise provided by the Compensation and Stock Option Committee.

-9-

13

Stock options granted under the 1998 Plan may be of two types: ISOs and nonqualified stock options. The Board of Directors has the authority to grant to any participant ISOs, nonqualified stock options or any combination thereof.

Options granted under the 1998 Plan are not transferable by the optionee other than by will or under the laws of descent and distribution. Unless otherwise determined by the Compensation and Stock Option Committee: (i) options terminate on the earlier of the date of the expiration of the option or three months after the date the optionee terminates employment with the Company and its subsidiaries for any reason other than termination as a result of the death or disability of the optionee; (ii) during the 3-month period, the optionee may exercise the option in respect of the number of shares that were vested on the date of termination of employment; and (iii) in the event of termination because of the death or disability of an optionee and before the date of expiration of the option, the option terminates on the earlier of the date of expiration or one year following the date of termination of employment due to death or six months following the date of termination of employment due to disability, during which period the option may be exercised in respect of the number of shares that were vested on the termination of employment, or on such accelerated basis as the Compensation and Stock Option Committee may otherwise determine.

The 1998 Plan provides that an option agreement may permit an optionee to tender previously owned shares of Common Stock in partial or full payment for shares to be purchased on exercising an option. Unless sooner terminated by action of the Board of Directors, the 1998 Plan will terminate in 2008.

As of September 14, 2001 options to purchase a total of 451,495 shares of Common Stock are outstanding under the 1998 Plan at an exercise price of \$1.00 per share.

Edgar Filing: BOLLINGER INDUSTRIES INC - Form DEF 14A

2000 Plan. The Bollinger Industries, Inc. 2000 Stock Option Plan (the "2000 Plan") was adopted by the Board of Directors and approved by the stockholders in September 2000. The 2000 Stock Option Plan provides for the grant of options covering a total of 500,000 shares of Common Stock of the Company to be issued to officers and employees of the Company who are responsible for or contribute to the management, growth and profitability of the business. No grant will be made under this Plan to a director who is not an officer or a salaried employee of the Company.

The exercise price per share shall be determined by the Board and set forth in the stock option agreement, and in the case of an incentive stock option, the exercise price shall not be less than 100% of the fair market value of the Common Stock subject to the stock option on the date of grant (or 110% in the case of a stock option granted to a participant who is a ten percent shareholder on the date of the grant).

Stock options granted under the 2000 Plan may be one of two types: incentive stock options and non qualified stock options. The Board has the authority to grant to any participant incentive stock options, non qualified stock options or any combination thereof.

Unless sooner terminated by action of the Board of Directors, the 2000 Plan will terminate in 2010. As of September 14, 2001 options to purchase a total of 143,995 shares of Common Stock are outstanding under the 2000 Plan at an exercise price of \$1.00 per share.

NQO Plan. The Bollinger Industries, Inc. 2000 Nonqualified Stock Option Plan (the "NQO Plan") was adopted by the Board of Directors in June 2000. The NQO Plan provides for the grant of options to purchase up to 200,000 shares of Common Stock. The individuals eligible to participate in the NQO Plan are members of the Board of Directors who are not officers or other employees of the Company or of any corporation or other entity which is then a subsidiary of the Company.

-10-

14

The purchase price of shares subject to an option granted under the NQO Plan is determined by the Compensation and Stock Option Committee at the time of grant, but may not be less than 100% of the fair market value of the shares of Common Stock on the date of grant. Options granted under the NQO Plan must be exercised within ten years from the date of grant or such shorter term as may be determined by the Compensation and Stock Option Committee and may vest in installments as determined by the Compensation and Stock Option Committee. Options granted under the NQO Plan are not transferable by the optionee other than by will or under the laws of descent and distribution.

Unless sooner terminated by action of the Board of Directors, the NQO Plan will terminate in 2010. As of September 14, 2001 options to purchase a total of 85,000 shares of Common Stock are outstanding under the NQO Plan at an exercise price of \$1.00 per share.

OPTION GRANTS. A total of 384,495 options were granted in fiscal 2001.

COMPENSATION AND STOCK OPTION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal 2001 Stephen Parr served as the sole member of the Compensation and Stock Option Committee. No member of the Compensation and Stock Option Committee is a current or former employee or officer of the Company or any of its affiliates or has any interlocking relationship with any other corporation that requires specific disclosure under this heading. Please refer to "Certain Relationships and Related Transactions."

BOARD COMPENSATION AND STOCK OPTION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The basic policy of the Compensation and Stock Option Committee (the "Committee") is to ensure that salary levels and compensation incentives are designed to attract and retain qualified individuals in key positions and are commensurate with the level of executive responsibility, the type and scope of the Company's operations, and the Company's financial condition and performance. The goal of this policy is to promote the attainment of the financial and strategic objectives of the Company.

Stephen Parr was the sole member of the Committee for fiscal 2001. The Committee believes that the base salary levels in place during fiscal 2001 continue to be consistent with the Company's status as a public company and with the Company's peers in the fitness industry. The salary levels during fiscal 2001 were not substantially different from those in fiscal 2000. The Committee has not, however, conducted a detailed examination of the compensation structure of peer companies, nor has it engaged the services of an executive compensation consultant.

The base salaries of the Company's executive officers may be augmented at the discretion of the Committee, at the recommendation of the Chief Executive Officer, by the award of individual performance-based cash bonuses ("Cash Bonuses"). Cash Bonuses are based on among other things an individual's quality of work performed, the financial condition and results of operation of the Company, progress made towards business objectives, and return on the Company's Common Stock for the period. Based on the financial condition and results of operations of the Company, the Committee determined to award Cash Bonuses to two of the named executive officers for fiscal 2001.

The Company also grants stock options pursuant to the Company's 1993, 1998 and 2000 Stock Option Plans. The Company's Chief Executive Officer and President, who each beneficially own a substantial amount of Common Stock of the Company, are not eligible to receive options under the 1993 Stock Option Plan, but are eligible to receive options under the 1998 and 2000 plans. Grants of stock options to eligible executive officers are intended to attract qualified individuals to work for the

Company as additional compensation and as an incentive for future performance. Through grants under the 1993, 1998 and 2000 Stock Option Plans, the Company's goal is to encourage ownership of the Common Stock by executive officers and other employees in order to enhance mutuality of interest with stockholders of the Company.

At this time, based on the Company's current executive compensation structure, the Company does not believe it is necessary to adopt a policy with respect to qualifying executive compensation in excess of \$1 million for deductibility under Section 162 (m) of the Internal Revenue Code of 1986, as amended.

Consistent with the above policies and objectives, the fiscal 2001 base salary for Glenn Bollinger, the Company's Chairman of the Board and Chief Executive Officer, was not changed by the Board of Directors, and remained at \$275,717. During fiscal 2001 Mr. Bollinger elected to reduce his salary to \$250,000 in exchange for 25,716 stock options. The Committee considers that Mr. Bollinger's base salary was within the range of salaries of chief executive officers of comparable companies.

This report shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.
