**MATTERS TO BE CONSIDERED
AT THE 2002 ANNUAL MEETING OF STOCKHOLDERS**

PROPOSAL ONE: Election of Directors

The Board of Directors currently consists of seven members, all of whom have been nominated by the Board of Directors to stand for re-election at the Annual Meeting. Each director elected at the Annual Meeting will hold the office until the Annual Meeting of Stockholders in 2003 or until his or her successor is elected and qualified.

In accordance with the Company's Bylaws, the affirmative vote of a plurality of the votes cast by holders of Common Stock entitled to vote in the election of directors at the Annual Meeting is required for the election of the nominees as directors. Accordingly, although abstentions and broker nonvotes are considered shares present at the meeting for the purpose of determining a quorum, they will have no effect on the election of directors.

The Board of Directors is not aware of any reason why any nominee will be unable to stand for election as a director or serve if elected, but if any such nominee should become unavailable, the Board of Directors may nominate, and the persons named in the accompanying Proxy may vote for, a substitute nominee.

The Board of Directors recommends that you vote FOR the election of the nominees listed below. Properly dated and signed proxies will be so voted unless authority to vote in the election of directors is withheld.

Table of Contents

The Audit Committee of the Board of Directors (i) recommends the annual selection of independent public accountants to conduct audits of the Company's financial statements, (ii) approves the plan and scope of the annual audit of our financial statements and any other services provided by independent auditors and the fees for the audit and those services, (iii) reviews our annual audited financial statements prior to publication and discusses the results of the audit with management and independent auditors, and (iv) discusses with management and independent auditors the design, quality and adequacy of our internal controls. The Audit Committee charter, which is attached as Appendix A to this Proxy Statement, contains a detailed description of the Audit Committee's duties and responsibilities.

The Compensation Committee reviews and recommends to the Board of Directors the compensation and benefits of the Company's executive officers, establishes and reviews general policies relating to the Company's compensation and benefits, and administers the Torch Offshore, Inc. 2001 Long-Term Incentive Plan.

Since becoming a public entity on June 7, 2001, the Board of Directors held two meetings. The members of the Audit Committee met one time and the Compensation Committee met one time. During 2001, all directors attended at least 75% of the meetings of the Board of Directors and the Committees thereof of which they were members.

Director Compensation

Directors who are employees of the Company do not receive cash compensation for their services as directors or members of Committees of our Board of Directors. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors and executive officers and persons who own more than 10% of a registered class of the Company's equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock. Officers, directors and greater than 10% stockholders are required by SEC regulation to furnish the Company with copies of all such forms they file. Based solely on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, the Company believes that all its directors and executive officers during fiscal year 2001 complied on a timely basis with all applicable filing requirements under Section 16(a) of the Exchange Act, except that Willie J. We entered into a registration rights agreement with Riverside Investments LLC and Friends of Lime Rock LP (collectively, "Lime Rock"). This agreement gives Lime Rock the right, on three occasions, to demand that we register all or any portion of its shares of Common Stock for sale under the Securities Act of 1933, as amended. The gross proceeds of any proposed demand registration must reasonably be expected to be at least \$5 million. The registration rights agreement also provides Lime Rock with the right, if we propose to register any shares of Common Stock under the Securities Act, to include their shares of Common Stock in the registration, subject to limitations.

The agreement provides customary registration procedures. We will pay all registration-related expenses, other than underwriters' discounts and commissions. The registration rights under the agreement are assignable to any purchaser of registrable securities. Demand registration rights terminate in June 2011. The registration rights agreement contains customary indemnification and contribution provisions by us for the benefit of any selling stockholders and any underwriters.

Report of Compensation Committee on Executive Compensation

The Compensation Committee was established in June 2001 in connection with our initial public offering. Our Board of Directors granted to the Compensation Committee the authority, among other things, to review and recommend to the Board of Directors the compensation and benefits of the executive officers of the Company. In addition, the Compensation Committee has the responsibility of establishing and reviewing general policies relating to the Company's compensation and benefits as well as administering the 2001 Incentive Plan.

The Compensation Committee has structured its executive compensation policies to:

- Offer a performance-based compensation that takes into account the Company's financial performance on a short-term and long-term basis.

- Provide a total compensation program that considers the compensation policies of comparable companies with whom the Company competes so as to attract and retain qualified executives.

- Align executive compensation to the financial interests of the Company's stockholders by providing equity-based incentives.

The three major components to the compensation of the Company's executives are (i) base salary, (ii) annual incentive compensation in the form of a cash bonus, and (iii) long-term equity-based compensation. Factors taken into account in determining these compensation levels include the executive's responsibilities, experience, leadership, potential future contributions and individual performance. Long-term equity based compensation is provided in the form of stock options, which are tied directly to stockholder return. Stock options align the interests of the Company's executives with those of its stockholders by encouraging executives to enhance the value of the Company, and hence, the price of the Common Stock and each stockholder's return.

Table of Contents

The Compensation Committee establishes base salary levels of the CEO and other executive officers after review of salaries of other companies in the oilfield service industry having annual sales or revenues generally similar in size to the Company. By reviewing the salaries of such other companies from time to time, the Compensation Committee intends to try to ensure that the Company's base salaries are generally within the range of base salaries paid by other companies. The base salaries also take into account the executives experience and level of responsibility.

These base salaries are reviewed and updated annually, with adjustments made for updated salary data, increases in the cost of living, job performance, changes in responsibilities and duties of the executive, if any, and general market salary levels. No weight of emphasis is placed on any one of these factors.

Long-term equity based compensation is provided through the 2001 Incentive Plan which was adopted effective April 27, 2001. The objectives of the 2001 Incentive Plan are to retain and attract persons of training, experience and ability to serve as employees, consultants and directors of the Company, to encourage the sense of proprietorship of such persons and to stimulate the active interest of such persons in the development and financial success of the Company. The 2001 Incentive Plan provides long-term equity based compensation via awards to employees in the form of (i) incentive stock options, (ii) nonqualified stock options, (iii) performance stock awards with certain terms, conditions and limitations determined by the Compensation Committee, (iv) stock awards (including restricted stock) subject to conditions established by the Compensation Committee which may include continuous service with the Company, achievement of specific business objectives, increases in specified indices, attaining specified growth rates and other specified valuations, (v) phantom stock, (vi) stock appreciation rights and (vii) cash awards.

In 2001, the Company granted options to purchase an aggregate of 62,500 shares of Common Stock to executive officers of the Company.

The Company may periodically grant new options or other long-term equity-based incentives to provide continuing incentive for future performance. In making the decision to grant additional options, the Compensation Committee would expect to consider factors such as the size of previous grants and the number of options held. In addition, the Compensation Committee may consider factors including the executive's current ownership stake in the Company, the degree to which increasing that ownership stake would provide the executive with additional incentives for future performance, the likelihood that the grant of those options would encourage the executive to remain with the Company and the value of the executive's service to the Company.

CEO Compensation The CEO's compensation level is established by the Compensation Committee in the same manner as for other executive officers described above. During 2001, Lyle G. Stockstill was granted a base salary of \$253,600. Mr. Stockstill is not engaged in an employment contract with the Company. Mr. Stockstill was not granted stock options to purchase shares of Common Stock of the Company during 2001. However, Mr. Stockstill owns a 58.9% ownership in the Company through his ownership of Torch, Inc.

PROPOSAL TWO: Approval of Appointment of Independent Public Accountants

The Board of Directors, upon recommendation of its Audit Committee, has approved and recommends the approval of the appointment of Arthur Andersen LLP as independent public accountants to conduct an audit of the Company's financial statements for the year 2002. This firm has acted as independent public accountants for the Company for many years.

In light of the recent widely publicized events involving Arthur Andersen LLP, including the indictment obtained by the Department of Justice, the Audit Committee intends to continue to monitor the situation regarding Arthur Andersen LLP. The Audit Committee notes Arthur Andersen LLP's expressed intention to contest the indictment vigorously, and the Audit Committee believes the audit services provided to the Company by Arthur Andersen LLP have been satisfactory in the past, and that there are advantages deriving from its familiarity with the Company and its operations. Depending on the circumstances, the Audit Committee might in the future recommend a change, and the Board of Directors may in its discretion decide to change, the appointment at any time during the year without stockholder action if it determines that the change would be in the best interests of the Company and its stockholders.

Billed fees of Arthur Andersen LLP Arthur Andersen LLP provided the Company professional services totaling \$352,300 for the calendar year 2001. Those fees consist of the following:

Audit Fees The fees billed by Arthur Andersen LLP were \$91,000 relating to the audit of the Company's annual financial statements for the calendar year 2001 and the reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for the calendar year 2001.

Financial Information System Design and Implementation Fees There were no fees incurred for financial information system design and implementation services.

All Other Fees All other fees billed by Arthur Andersen LLP totaled \$261,300 and related primarily to the work performed in relation to the initial public offering and tax consultation.

The Audit Committee reviewed the non-audit services provided to the Company and determined that they did not impair the independence of Arthur Andersen LLP.

Representatives of Arthur Andersen LLP will attend the Annual Meeting and will be available to respond to questions that may be asked by stockholders. Such representatives will also have an opportunity to make a statement at the meeting if they desire to do so.

The Board of Directors recommends that you vote FOR the approval of the appointment of Arthur Andersen LLP as the Company's independent public accountants. In accordance with the Company's Bylaws, approval of the appointment of independent public accountants will require the affirmative vote of a majority of the shares of Common Stock voted on the proposal. Accordingly, abstentions and broker nonvotes applicable to shares present at the meeting will not be included in the tabulation of votes cast on this matter.

OTHER BUSINESS

Management does not intend to bring any business before the meeting other than the matters referred to in the accompanying notice. If, however, any other matters properly come before the meeting, it is intended that the persons named in the accompanying proxy will vote pursuant to discretionary authority granted in the proxy in accordance with their best judgment on such matters. The discretionary authority includes matters that the Board of Directors does not know are to be presented at the meeting by others.
