**SUPPLEMENT TO
NETWORKS ASSOCIATES, INC.
PROXY STATEMENT DATED APRIL 9, 2004**

The Option Grants in 2003 table is hereby modified and set forth in its entirety below to provide the previously omitted percentages for column two of the table. As described in note 15 to our consolidated financial statements contained in our 2003 Form 10-K previously filed with the SEC on March 9, 2003, approximately 7.8 million aggregate common stock options were granted in 2003. This Supplement is available on our website at www.networkassociates.com. A copy may also be obtained without charge by calling or writing the Corporate Secretary at our corporate headquarters.

This table shows stock option grants made by Network Associates to our chief executive officer and our four other most highly compensated executive officers during the year ended December 31, 2003:

OPTION GRANTS IN 2003

- (1) All of the options for Network Associates common stock granted in 2003 vest at the rate of one-fourth (or 25%) one year from the date of grant and the remaining shares vest at a rate of 1/36th per month for the remaining 36 months of the vesting period. Under the 1997 Stock Incentive Plan, the board of directors is allowed to modify the terms of outstanding options. The exercisability of options may be accelerated upon a change in control. Options are cancelled on an optionee's termination of employment under certain specified circumstances.
- (2) All options were granted at an exercise price equal to the fair market value of the common stock on the date of grant.
- (3) These columns present hypothetical future values that might be realized on exercise of the options, less the exercise price. These values assume that the market price of our stock appreciates at a five and ten percent

compound annual rate over the term of the options. The stock price appreciation rates are presented as examples pursuant to the SEC's proxy rules and do not necessarily reflect management's assessment of our future stock price performance. The potential realizable values presented are not intended to indicate the value of the options.
