Item 8.01, Other Events.

On May 31, 2007, an agreement was reached in the rate case pending before the West Virginia Public Service Commission, or PSC, previously disclosed in Century Aluminum Company's preliminary prospectus dated May 29, 2007, on proposed adjustments to the tariff rate paid by purchasers of electrical power from Appalachian Power Company, or APCo. APCo supplies all of the electrical power requirements for Century Aluminum of West Virginia, Inc.'s (CAWV) Ravenswood smelter. In the rate case, APCo requested an increase in the tariff rate established in July 2006 for pollution control additions and higher than anticipated increases in fuel, purchased power and capacity charges. The agreement, which remains subject to final approval by the PSC, would be effective July 1, 2007 and would increase the special contract rate for CAWV by approximately 10%. The rate case does not affect CAWV's right to be excused from or defer the payment of a portion of the tariff rate, including the additional increase that would be effective July 1, 2007, if aluminum prices as quoted on the London Metal Exchange fall below pre-determined levels. Management does not believe that the higher costs that could result due to the tariff rate increase will have a material adverse effect on Century Aluminum Company's financial condition, results of operations, or liquidity.
