The Employee Benefits Committee

Idearc Savings Plan for Management Employees

We have audited the accompanying statements of net assets available for benefits of the Idearc Savings Plan for Management Employees as of December 31, 2007 and 2006, and the related statements of changes in net assets available for benefits for the year ended December 31, 2007 and period from November 17, 2006 (Inception) through December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and 2006, and the changes in its net assets available for benefits for the year ended December 31, 2007 and period from November 17, 2006 (Inception) through December 31, 2006, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2007 and 2006, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Idearc Savings Plan for Management Employees
Notes to Financial Statements
December 31, 2007 and 2006

1. Plan Description

Idearc Inc. became an independent public company on November 17, 2006, when Verizon Communications, Inc. (Verizon) completed the spin-off of Idearc Inc. common stock to Verizon's stockholders. As a result of the spin-off, the assets, liabilities, businesses, and employees of Idearc Inc. and its subsidiaries (Idearc) consisted of those that were primarily related to Verizon's domestic print yellow pages directories and Internet advertising operations. Effective as of the date of the spin-off, Idearc established three defined contribution plans, including the Idearc Savings Plan for Management Employees (the Plan), for the benefit of certain Idearc employees. In connection with the spin-off, the Plan received a transfer of \$476.3 million from the Verizon Savings Plan for Management Employees. The following description of the Plan provides only general information. Participants should refer to the Plan document for more detailed information.

Eligibility

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan provides eligible employees of Idearc with a convenient way to save for retirement.

Eligible employees may make tax-deferred or after-tax contributions to the Plan, upon completion of enrollment in the Plan, as soon as practicable following the date of hire.

A participant's active participation in the Plan shall terminate when the individual ceases to be an eligible employee. However, the individual shall remain a participant until his or her entire account balance under the Plan has been distributed or forfeited.

Vesting and Contributions

Participants are vested immediately in their contributions plus actual earnings thereon. A participant shall be fully vested in the employer contributions allocated to the participant's account and any income thereon, upon completing three years of vesting service or upon the participant's death, disability, retirement from Idearc, attainment of normal retirement age, or involuntary termination.

Table of Contents

Idearc Savings Plan for Management Employees
Notes to Financial Statements (continued)

1. Plan Description (continued)

A terminated employee's non-vested employer-matching contributions are forfeited and may be used to reduce future employer contributions to the Plan or to pay certain expenses for administering the Plan. Non-vested forfeitures of \$1.7 million and \$81 thousand were available at December 31, 2007 and 2006, respectively, to reduce future employer contributions.

The Plan is funded by employee contributions up to a maximum of 25% (16% for highly compensated employees) of compensation and by employer-matching contributions, which are paid in cash. The maximum percentage a non-highly compensated employee may contribute to the Plan was increased from 16% to 25% effective as of January 1, 2007. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Employer-matching contributions are credited to a participant's account in accordance with the participant's current contribution investment selections. The employer-matching contribution for management employees is 100% of the initial 6% of the participant's contributions of eligible compensation for each pay period. For union-represented employees, the employer-matching contribution is 100% of the initial 4% and 50% of the next 2% of the participant's contributions of eligible compensation for each pay period. Additionally, Idearc may make a discretionary, performance-based contribution to management employees participating in the Plan in an amount up to 50% of the participant's matched contributions for the Plan year. Employees attaining the age of 50 or older can elect to make catch-up contributions to the Plan of up to 60% of eligible compensation, subject to certain limitations.

Participant contributions may be before tax (Elective Contributions) or from currently taxed compensation (After-Tax Contributions). Each participant's Elective Contributions for the 2007 and 2006 plan years were limited to \$15.5 thousand and \$15 thousand, respectively. The total amount of Elective Contributions, After-Tax Contributions, employer-matching contributions and certain forfeitures that may be allocated to a Plan participant is limited under Internal Revenue Service regulations. The elective deferral limit increases for participants eligible to make catch-up contributions.

Effective January 1, 2008, eligible employees hired on or after January 1, 2008, who do not affirmatively elect to participate or not participate in the Plan will be enrolled automatically in the Plan and will be deemed to have authorized a contribution of 3% of eligible compensation.

Table of Contents

Idearc Savings Plan for Management Employees
Notes to Financial Statements (continued)

1. Plan Description (continued)

Investment Options

Participants shall direct their contributions to be invested in various Strategy Funds, mutual funds and Idearc common stock. Strategy Funds are composed of common/collective trusts, other common stocks, a stable value fund and mutual funds. During 2007, a participant's investment in Idearc common stock was limited to 25% of the participant's total account balance. Effective as of January 1, 2008, this limitation was reduced to 20% of the participant's total account balance. In addition, the stable value fund, which was included in certain Strategy Funds, was liquidated as of December 17, 2007. Investments in Verizon common stock that were transferred to the Plan from the Verizon Savings Plan for Management Employees will be liquidated after November 17, 2008. New investments in Verizon common stock are not permitted by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and rollovers, allocations of employer contributions and net investment income, and is charged with an allocation of administrative expenses. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

Benefits are payable in a lump-sum cash payment unless a participant elects, in writing, one of the three optional forms of benefit payment which include: (1) a lump sum in Idearc shares for investments in Idearc common stock, with the balance in cash, (2) annual, semiannual, quarterly, or monthly installments in cash of approximately equal amounts to be paid out for a period of two to 20 years, as selected by the participant, or (3) for those participants eligible to receive their distribution in installments as described in (2) above, a pro rata portion of each installment payment in Idearc shares for investments in Idearc common stock, with the balance of each installment in cash.

Participant Loans

The Plan includes an employee loan provision authorizing participants to borrow an amount of up to 50% from their vested account balances in the Plan, subject to certain limitations. Loans are generally repaid by payroll deductions. The term of repayment for loans generally will not be less than six months nor more than five years (15 years for a loan to purchase a principal

1. Plan Description (continued)

residence). Each new loan will bear interest at a rate based upon the prime rate as published in *The Wall Street Journal* on the last business day of the calendar quarter preceding the calendar quarter in which the loan is made.

Master Trust

At December 31, 2007 and 2006, the Plan participated in the Idearc Master Savings Trust (the Master Trust), and owned a percentage of the assets in the Master Trust along with the Idearc Savings and Security Plan for Mid-Atlantic Associates (the Mid-Atlantic Plan) and the Idearc Savings and Security Plan for New York and New England Associates (the North Plan). The Plan owned approximately 85% and 84% of the assets in the Master Trust at December 31, 2007 and 2006, respectively.

As of December 31, 2007, Fidelity Management Trust Company (the Trustee) was designated as the Trustee of the Master Trust. Expenses of administering the Plan, including fees and expenses of the Trustee, may be charged to the Plan.

Effective January 1, 2008, the assets of the Master Trust were transferred to JPMorgan Retirement Plan Services as Trustee of the Master Trust and Plan record-keeper. Effective as of that date, new investment elections were made by participants to direct their investments in any combination of common/collective trusts, Idearc common stock, or mutual funds.

Interest and dividends along with net appreciation (depreciation) in the fair value of investments in the Master Trust are allocated to the Plan on a daily basis based upon the Plan's participation in the various investment options that comprise the Master Trust as a percentage of the total participation in such options.

Plan Modification

Idearc, by action of its Board of Directors or Employee Benefits Committee, reserves the right to modify, alter, or amend the Plan at any time, subject to collective bargaining requirements. Idearc reserves the right to terminate the Plan at any time, subject to collective bargaining requirements. In the event of Plan termination, participants would become 100% vested in their accounts.

Table of Contents

Idearc Savings Plan for Management Employees
Notes to Financial Statements (continued)

2. Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting. Benefits paid to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments in common stocks traded on national and foreign securities exchanges are valued at the last reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices. Shares of mutual and money market funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Units of common/collective trusts are valued by the issuer based on the fair values of the underlying investments which represent the net asset value of units held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value.

The statements of changes in net assets available for benefits reflect the net investment income (loss) of the Plan's investments in the Master Trust, which consists of the realized gains or losses and the unrealized appreciation (depreciation) in value of those investments, as well as interest and dividends earned. Purchases and sales of investments are reflected as of the trade date. Realized gains and losses on sales of investments are determined on the basis of average cost. Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis.

The Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), which requires investment contracts be reported at fair value. However, contract value is the relevant measurement of that portion of net assets attributable to fully benefit-responsive investment contracts, as that is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the contracts, plus accrued interest, less withdrawals and administrative expenses. As required by the FSP, the statements of net assets available for benefits present net assets at fair value, with an adjustment from fair value to contract value for fully benefit-responsive investment contracts.

Table of Contents

Idearc Savings Plan for Management Employees
Notes to Financial Statements (continued)

2. Accounting Policies (continued)

The Master Trust invested in synthetic wrap investment contracts (wrap contracts) held with three insurance companies in 2007 and 2006. The wrap contracts have a common/collective trust as an underlying investment. In a typical wrap contract, the wrap issuer agrees to pay the fund the difference between the contract value and the fair value of the covered assets, once the fair value has been totally exhausted. As of December 31, 2006, Standard & Poor's rated the issuers of these contracts and the contracts underlying the securities AA- or better. The contracts are included in the Master Trust at fair value then adjusted to contract value, which was reported by the respective insurance companies at December 31, 2006.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include:

- (1) substantive modification of the Plan, including complete or partial Plan termination or merger with another plan;
 - (2) any change in law, regulation, or administrative ruling that could have a material adverse effect on the fund's cash flow;
 - (3) the Plan's failure to qualify under section 401(k) of the Internal Revenue Code (the Code); and
 - (4) bankruptcy of the Plan sponsor or other Plan sponsor events which cause a significant withdrawal from the Plan.
- However, upon termination of these contracts on December 17, 2007, the participants received fair value, not contract value.

Wrap contracts accrue interest using a formula called the crediting rate. Wrap contracts use the crediting rate formula to convert market changes in the covered assets into income distributions in order to minimize the difference between the fair and contract value over time. The crediting rate is reset quarterly and has a floor rate of zero. When the crediting rate increases, the fair value of the contract increases.

The wrap contracts had an average yield of 4.9% and 4.5% for the period from January 1, 2007, through termination of the contracts on December 17, 2007, and the period from November 17, 2006 (Inception) through December 31, 2006, respectively. The crediting interest rates for the wrap contracts were 3.7% and 4.4% for the period from January 1, 2007 through termination of the contracts on December 17, 2007, and the period from November 17, 2006 (Inception) through December 31, 2006, respectively.

Table of Contents

Idearc Savings Plan for Management Employees
Notes to Financial Statements (continued)

2. Accounting Policies (continued)

Recent Accounting Pronouncement

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), which provides enhanced guidance for using fair value to measure assets and liabilities. SFAS 157 applies whenever other standards require or permit assets or liabilities to be measured at fair value. The Standard does not expand the use of fair value in any new circumstances. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The effect, if any, of the adoption of SFAS 157 on the Plan's financial statements is currently being evaluated.

Use of Estimates

The accompanying financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which require management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

3. Income Tax Status

The Plan has not yet applied for a determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Code. However, the Plan administrator believes that the Plan has been designed to comply with the requirement of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Table of ContentsIdearc Savings Plan for Management Employees
Notes to Financial Statements (continued)**5. Related-Party Transactions**

Certain Master Trust investments are shares of mutual funds managed by the Trustee. Fees paid by the Plan for investment management services amounted to \$1.2 million for the year ended December 31, 2007 and \$207 thousand for the period from November 17, 2006 (Inception) through December 31, 2006. Additionally, a portion of the Plan's assets are invested in Idearc common stock. Because Idearc is the Plan's sponsor, transactions involving Idearc common stock qualify as party-in-interest transactions. All of these are exempt from the prohibited transaction rules.

6. Reconciliation of Financial Statements to Form 5500
