Report of Independent Registered Public Accounting Firm

Board of Directors
clickNsettle.com, Inc.

We have audited the accompanying balance sheet of clickNsettle.com, Inc. (the "Company") as of June 30, 2007 and the related statements of operations, changes in stockholders' equity, and cash flows for each of the years in the two-year period then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in

Edgar Filing: CLICKNSETTLE COM INC - Form 8-K

all material respects, the financial position of clickNsettle.com, Inc. as of June 30, 2007 and the results of their operations and their cash flows for each of the years in the two-year period then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As described in Note 2 to the financial statements, the Company has no operating business. Currently, the Company is actively searching for a new operating business to acquire or to enter into a merger transaction. There can be no assurances that an operating entity will be acquired or that a merger transaction will be consummated. As a result, there is substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to Financial Statements

June 30, 2007 and 2006

1. Organization and Basis of Presentation

clickNsettle.com, Inc. ("CLIK") previously provided a broad range of Alternative Dispute Resolution ("ADR") services, primarily arbitrations and mediations, principally in the United States. CLIK incorporated on January 12, 1994 and began operations on February 15, 1994. On October 31, 1994, the predecessor operating company, which was primarily owned by CLIK's Chief Executive Officer, was acquired by and became a wholly-owned subsidiary of CLIK. The transaction was accounted for as a transfer of assets between companies under common control, with the assets and liabilities of the predecessor operating company combined with those of CLIK at their historical carrying values. The predecessor operating company also provided a broad range of ADR services, including arbitrations and mediations. The predecessor operating company began operations in March 1992.

Prior to January 1, 2006, the accompanying financial statements of clickNsettle.com, Inc. included the accounts of its wholly-owned subsidiaries, Michael Marketing LLC and clickNsettle.com LLC (collectively referred to herein as the "Company"). As of January 1, 2006, the Company transferred ownership of its wholly-owned subsidiary, Michael Marketing LLC, to National Arbitration and Mediation, Inc. ("NAMI") (see Note 2 below). Such subsidiary was inactive and had no operations or net assets. Previously, the Company dissolved its wholly-owned subsidiary, clickNsettle.com LLC, as it was also inactive and had no operations or net assets. As such, the Company no longer owns any subsidiaries or has any operations. There is substantial doubt about the Company's ability to continue as a going concern. See Note 2.

2. Going Concern

On January 13, 2005, the Company sold the assets of its dispute resolution business (the "ADR business") to NAMI, a company owned by the Company's Chief Executive Officer, Roy Israel. In consideration, NAMI assumed all current and future liabilities and commitments of the ADR business. Specifically, the Company was released from its lease agreements for office space in Great Neck and Brooklyn, New York and from its employment agreements with its President and Chief Financial Officer. Additionally, NAMI paid all the remaining payments on leases of a Company automobile and of a postage meter. The Company remained contingently liable for payables and other obligations assumed by NAMI of approximately \$20,380 as of June 30, 2007. See Note 8.

The liabilities and assets other than cash were transferred to NAMI as of January 13, 2005, while the cash balances were transferred thereafter. As such, the Company incurred interest expense on the unpaid balance. The interest rate charged was equal to the interest rate earned on invested balances. The cash balances were fully transferred from the Company to NAMI during the period from August 2005 through February 2006. The interest

F-7

charge for the year ended June 30, 2006 was \$3,250. Since the consummation of the sale, the Company has no operating business. Currently, the Company is actively searching for a new operating business to acquire or to enter into a merger transaction. There can be no assurances that an operating entity will be acquired or that a merger transaction will be consummated. The Company's controlling shareholders have signed a letter of intent with a third party for

Edgar Filing: CLICKNSETTLE COM INC - Form 8-K

the sale of their common stock. If a sale is consummated, a change in control of the Company would result. If a sales agreement is executed, it is expected that the Company will seek to increase its authorized common shares and effect a reverse stock split. The purchaser, a non-operating entity, intends to effect a merger with, or an acquisition of, an operating company at a later date. No acquisition target has been identified at this time. There is no assurance that the stock sale will be completed, or if completed, that the post-stock sale transaction company will be able to effectuate a merger with, or an acquisition of, an operating company.

As a result of continued losses, limited cash and other resources and the uncertainty as to the Company's ability to effect a merger or a similar transaction with the intent to acquire a different operating business, there is substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

3. Summary of Significant Accounting Policies

A summary of the significant accounting and reporting policies applied on a consistent basis which conforms with accounting principles generally accepted in the United States of America follows:

a. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the revenues and expenses during the reporting period. Actual results may differ from those estimates.

b. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and money market funds. The Company considers all unrestricted highly liquid investments purchased with a maturity of less than three months to be cash equivalents.

c. Income Taxes

The Company follows the asset and liability method of accounting for income taxes by applying statutory tax rates in effect at the balance sheet date to differences between the book and tax bases of assets and liabilities. The resulting deferred tax liabilities or assets are adjusted to reflect changes in tax laws or rates by means of charges or credits to income tax

F-8

expense. A valuation allowance is recognized to the extent a portion or all of a deferred tax asset may not be realizable.

d. Loss Per Common Share

Basic loss per share is based on the weighted-average number of common shares outstanding without consideration of potential common stock. Diluted loss per share is based on the weighted-average number of common and potential common shares outstanding. The calculation takes into account the shares that may be issued upon exercise of stock options, reduced by the shares that may be repurchased with the funds received from the exercise, based on the average price during the period. Diluted loss per share is the same as basic loss per share, as potential common shares of 213,990 and 448,974, at June 30, 2007 and

Edgar Filing: CLICKNSETTLE COM INC - Form 8-K

2006, respectively, would be antidilutive as the Company incurred net losses for the years ended June 30, 2007 and 2006.

e. Effect of Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard No. 123R, Share-based Payment ("SFAS No. 123R"). SFAS No. 123R established standards for the accounting for transactions in which an entity exchanges its equity instruments for goods and services. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123R requires that the fair value of such equity instruments be recognized as an expense in the historical financial statements as services are performed. Prior to SFAS No. 123R, only certain pro-forma disclosures of fair value were required. The Company adopted SFAS No. 123R as of July 1, 2006. The adoption of this statement did not have a material impact on the financial statements of the Company as the Company has not issued any stock options since June 30, 2004. Additionally, the Company's Incentive and Nonqualified Stock Option Plan automatically terminated on April 1, 2006 and therefore no additional options may be issued pursuant to this plan.

In June 2006, the FASB issued Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" ("FIN 48"). The interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." Specifically, the pronouncement prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related de-recognition, classification, interest and penalties, accounting for interim periods, disclosure and transition of uncertain tax positions. The interpretation is effective for the Company's fiscal year 2008 financial statements. The adoption of this interpretation is not expected to have a material impact on the financial statements of the Company.

In September 2006, the U.S. Securities and Exchange Commission (the "SEC") issued Staff Accounting Bulletin ("SAB") No. 108, which expresses the views of the SEC staff regarding the process of quantifying financial statement misstatements. SAB No. 108 provides guidance on the consideration

F-9

of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. The Company adopted SAB No. 108 as of June 30, 2007. The adoption of this statement did not have a material impact on the financial statements of the Company.

4. Comprehensive Loss

There are no items of comprehensive loss other than net loss.

5. Income Taxes

Temporary differences which give rise to deferred taxes are summarized as follows:
