COMMITTEE REPORTS

Audit Committee Report

The committee met with management, PricewaterhouseCoopers LLP, and the Director of Internal Audit frequently throughout the year to review and consider the adequacy of RTI's internal control over financial reporting and the objectivity of its financial reporting, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002. We also discussed with RTI's management and PricewaterhouseCoopers LLP the process used for certifications by RTI's chief executive officer and principal financial officer that are required for certain of RTI's filings with the Securities and Exchange Commission. We have reviewed and discussed RTI's 2006 audited financial statements with management and with PricewaterhouseCoopers LLP. The committee also discussed with PricewaterhouseCoopers LLP the matters required to be communicated by Statement on Auditing Standards (SAS) No. 61 as amended by SAS No. 90 (Communications With Audit Committees).

In addition, the committee received from PricewaterhouseCoopers LLP the written disclosures required by Independence Standards Board Standard No. 1 and discussed with them their independence from RTI and its management. We have considered whether the provision by PricewaterhouseCoopers LLP of the professional services described above was compatible with the maintenance by PricewaterhouseCoopers LLP of its independent status and have determined that it was.

Based on these reviews and discussions, we recommended to RTI's Board of Directors, and the Board has approved, that the Audited Financial Statements be included in RTI's Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

A. Overview and Pay Philosophy

For the 2006 compensation that is detailed in the tables that follow, our Board of Directors empowered the Compensation Committee (the Committee or the Compensation Committee) to discharge the Board's duties concerning executive compensation and advise the Board on the Company's compensation philosophy, programs, and objectives. Specifically, the Committee makes decisions regarding compensation of our named executive officers in accordance with the Committee's Charter. The Committee is responsible for the review and approval of the Company's compensation philosophy including executive compensation programs, plans and awards; policies, principles and procedures for the selection of performance objectives and review of the CEO and other named executive officers; and for establishing compensation levels for the CEO and other named executive officers based on the Committee's evaluation of performance. The Committee also administers RTI's stock-based compensation plans (including the shareholder approved 2004 Stock Plan) through which long-term incentive compensation awards are granted to our named executive officers and other managers and employees.

Consistent with the Committee's mandate, RTI has adopted a comprehensive statement entitled Pay Philosophy and Guiding Principles Governing Officer Compensation (the Pay Statement) which, for 2006, was applicable to RTI's President and CEO, Executive Vice Presidents, Senior Vice Presidents and each Vice President.

The overall philosophy related to our officer compensation programs set out in the Pay Statement is as follows:

To promote achievement of the Company's business objectives and reinforce its strategies;

To align the interests of the Company's officers with those of its shareholders; and

To provide pay that is externally competitive and internally equitable.

The Pay Statement is designed to reward executive performance on both an individual basis and as a team as follows:

To recognize the efforts of the executive team in the performance of identifiable and measurable objectives for the Company;

To provide compensation awards based on individual objectives for performance to the extent identifiable and measurable; and

To allow for significant rewards for exceptional performance.

We previously announced that we put in place a management succession plan that will take effect as of our annual meeting. That plan includes amending the Pay Statement, replacing the employment agreements for our top executives and adopting certain policies with respect to executive severance issues. The discussion that follows details the compensation for the 2006 fiscal year. At the end is also a brief summary of the changes that will be effective with the management succession plan.

B. Elements of NEO Compensation

The Company's compensation program consists of the following elements for our named executive officers:

Salary: Executive salary addresses current compensation and is paid to attract and retain qualified personnel and to provide a guaranteed level of income regardless of performance as well as recognition of consistent excellent performance over a number of years. An individual's salary may fall anywhere in a pre-determined range, the midpoint of which for each position will be maintained near the median of that for similar positions at appropriate comparator

Table of Contents

companies with a maximum near the seventy-fifth percentile of the comparator group. However, individual salary increase levels will reflect a variety of factors including relevant experience, time in position and individual performance as measured by the executive's annual performance review.

Bonuses: The major role of annual incentive compensation (i.e., annual bonuses) is to motivate officers through the recognition of attainment of specific key short-term objectives and/or other strategic milestones or operational goals. The Pay Statement award opportunity guidelines call for annual bonuses for target performance to be established near the median of that for similar positions at appropriate comparator companies and within the following guidelines:

	Range	Target
President and CEO	0 to 120% of Salary	60% of Salary
Executive Vice Presidents	0 to 100% of Salary	50% of Salary
Senior Vice Presidents	0 to 100% of Salary	50% of Salary
Vice Presidents	0 to 80% of Salary	40% of Salary

No bonus will be paid to an officer whose performance is judged to be unacceptable regardless of the level of corporate performance. Likewise, the Compensation Committee may, in order to retain valued executives, pay bonuses to recognize exceptional individual performance regardless of the level of corporate performance.

Long-term Incentives: Long-term incentive awards are designed specifically to reward increases in shareholder wealth as measured by the price of the Company's common stock as well as improvement in earnings per share. Long-term incentive grants are currently made pursuant to the Company's 2004 Stock Plan and may be made in a combination of stock (which, under the plan, may be awards of restricted shares, performance shares, phantom stock or non-restricted shares) and stock options. It has been the Company's practice to utilize a mix of incentive stock options and restricted share awards, each vesting over time. Stock options align management's interest with that of shareholders and have value only if the stock price increases over time. Our stock options are granted at fair market value on the date of grant and vest ratably over three years. As many companies have moved away from the reliance on stock options, due in part to the evolution of regulatory, tax and accounting treatments, restricted share awards have become more prevalent. Because it is important to us to provide compensation that is externally competitive and to retain our executive officers, we utilize restricted share awards that vest ratably over five years. The total projected value of long-term incentive grants are to be divided roughly between stock and stock options and in the following ranges:

	Total Projected Value of Award at Target Performance	Allocation Stock Awards/Options
President and CEO	90 to 130% of Salary	80% / 20%
Executive Vice Presidents	80 to 120% of Salary	75% / 25%
Senior Vice Presidents	75 to 110% of Salary	75% / 25%
Vice Presidents	40 to 80% of Salary	70% / 30%

Although the Company has not adopted stock ownership guidelines for management, the Board of Directors expects our named executive officers to continue to align their interests with that of our shareholders through long-term holdings in our common stock.

Health and Welfare Benefits: We provide certain health and welfare benefits to our named executive officers which are not tied to any individual or corporate performance objectives and are intended to be part of an overall competitive compensation program. Our named executive officers participate in these plans on the same terms as other eligible employees, subject to any regulatory limits on amounts that may be contributed by or paid to the named executive officers under such health and welfare plans.

Table of Contents

Perquisites: Our named executive officers and other senior managers are provided certain perquisites that we believe are competitive and consistent with our compensation philosophy. Our principal perquisite programs are tax preparation and financial planning advice, use of a Company automobile, club memberships, and annual executive medical exams and are discussed in greater detail in the footnotes to and narrative disclosure following the Summary Compensation Table.

Post-Employment Compensatory Arrangements:

- *Pension Plan.* We have a qualified defined benefit plan that covers each of our current named executive officers except for Mr. Wellham. The benefits are based on a formula which includes a percentage of the participants average monthly base salary multiplied by continuous years of service. See Retirement Benefits following for a description of our defined benefit plan.
- *Supplemental Pension Program.* Those named executive officers that participate in the qualified defined benefit plan (all except Mr. Wellham) also participate in the Supplemental Pension Program, a non-qualified defined benefit plan. It entitles the executives to specified annual benefits based upon average annual bonuses and years of service if they retire after age 60 or prior to age 60 with 30 years of service with RTI's consent. See Retirement Benefits following for a description of our supplemental pension program.
- *401(k) Plan.* We maintain a 401(k) defined contribution plan in which the Company contributes 50% of the first 8% of an executive's base salary and bonus contributed by the executive, subject to applicable Internal Revenue Code limits, for those named executive officers that do not participate in the defined benefit pension plan. Mr. Wellham is the only such executive officer for whom the company is making matching contributions. Other named executive officers may participate in the 401(k) plan up to applicable Internal Revenue Code limits but the Company does not match their contributions.
- *Change in Control Severance Agreements.* As discussed in greater detail under the caption, Employment Agreements, Messrs. Rupert, Odle and Hull and Ms. Hickton each have employment agreements that provide for severance compensation under certain circumstances in the event that their employment terminates following a change in control of the Company (see Employment Agreements below). These provisions are designed to ensure that the actions and recommendations of management with respect to a possible or actual change in control transaction are in the best interests of the Company and its shareholders and are not influenced by management's personal interests concerning their employment status. The severance benefits following a change in control include (i) a lump sum cash payment of up to three times the sum of the named executive officer's current base salary plus the highest bonus in the four years prior to the date of termination (the average annual bonus in the three years prior to the date of termination in the case of Mr. Hull), (ii) the vesting of then unvested shares of restricted stock, stock options or other equity-based awards, (iii) post-termination life, disability, accident and health insurance benefits for up to 24 months and (iv) a cash payment of the amount necessary to insure that the payments listed above are not subject to net reduction due to the imposition of any federal excise tax. The severance benefits are payable if, any time after a change in control, the named executive officer's employment is terminated by the officer for good reason or by RTI other than for cause or disability. In addition, the benefits are payable to Mr. Odle or Mr. Rupert in the event either of them terminates employment within 90 days after a change in control to further protect the key executives.

C. Overview of the Decision Making Process

The Committee and, consequently, the Pay Statement recognize both that there is a dearth of companies that compete directly with RTI across all of our lines of business and that managerial talent can be found in organizations other than competing companies. Consequently, the compensation data selected for use in company and/or individual position comparisons includes information on a broad group of industrial companies similar to RTI in terms of sales volume or, as appropriate, assets, total capital, market value or number of employees. When appropriate and available, data specific to the metals industry or a specific position is used.

In January of each year, the CEO, with input from the individual executives as well as the Chairman of the Board of Directors, establishes specific performance-based objectives for each member of the executive team, based upon various factors including the immediate past performance of the Company and its reporting Groups, the projected market conditions in the industry, and the short and long-term strategic plan of the Company as established by the Board. Each performance-based objective is weighted in term of significance and then reviewed by the Compensation Committee.

In December of each year the CEO begins to review the performance of the named executives other than himself for the purpose of setting the base salary for the following year and bonus and incentive compensation for year then ending. He creates grids outlining the RTI stock price during the year; the Company and business unit performance in income before tax, earnings per share, cash flow and return of assets (all determined in accordance with Company accounting policy) as compared to the Company's annual business plan; and individual performance for each of the named executive officers as against the specific objectives set the prior year. Using these grids and basic information regarding trends in executive salaries in the manufacturing industry, the CEO makes recommendations as to the compensation of the other named executive officers which tally each element of the individuals' compensation. The recommendations, along with the tally sheets, are distributed to the Compensation Committee in January. The Committee reviews the recommendations of the CEO with respect to the other executive officers and then reviews the performance of the CEO in the same manner that the CEO evaluates the other executives. The Committee then makes the final determination as to the base salary for the new year and any bonus and incentive compensation for the immediate past year's performance based upon each individual's status and performance, in each case consistent with the Pay Statement set forth above. Any awards of long-term, equity-based compensation are granted at this January meeting.

In making determinations as to the compensation for the named executive officers for the different elements of the compensation program, the Committee takes into consideration the following considerations:

Variability: A large portion of total compensation will be based upon Company performance, recognizing the highly cyclical nature of the Company's business. While salaries will generally be maintained at competitive levels, the major opportunities for significant upward shifts in total compensation will be provided through short-term and long-term incentive programs.

Clarity: Performance objectives for short-term and long-term incentive programs will be clearly articulated to executives. The objectives will be predetermined in the beginning of a determination period, which occurred in January of 2006 for the year ending 2006, and in January of 2007 for the current year. However, if deemed appropriate by the Company's Board, after-the-fact discretionary judgment will be applied.

Communicability: Officers are made aware of and fully understand their earnings potential for a given year and what specific actions and results are needed to achieve these earnings.

Strategic Emphasis: The Pay Statement sets out the approximate proportion of total direct compensation to be represented by salary, short-term (bonus) and long-term incentives

Table of Contents

assuming both short-term and long-term incentives are paid at target levels by classes of officer as follows:

- President and CEO 35% salary, 20% bonus and 45% long-term incentives.
- Executive Vice President 40% salary, 20% bonus and 40% long-term incentives.
- Senior Vice Presidents 40% salary, 20% bonus and 40% long-term incentives.
- Vice Presidents 45% salary, 15% bonus and 40% long-term incentives.

The Pay Statement provides that RTI's officers compensation should range at about the average or median of the remuneration paid by the Company's comparator group when aspects of performance are at target levels.

Tax Considerations

The Committee considers the impact of the applicable tax laws with respect to executive compensation. In certain circumstances, applicable tax laws impose potential penalties on compensation or result in a loss of deduction to RTI for such compensation.

Participation in and compensation paid under our plans, contracts and compensation arrangements may result in the deferral of compensation that is subject to the requirements of Section 409A of the Internal Revenue Code. To date, the U.S. Treasury Department and the Internal Revenue Service have only issued preliminary guidance regarding the impact of Section 409A. While we intend for our plans, contracts and compensation arrangements to be structured and administered in a manner that complies with the requirements of Section 409A, to the extent that our plans, contracts and compensation arrangements fail to meet certain requirements under Section 409A, compensation earned thereunder may be subject to immediate taxation and tax penalties.

With certain exceptions, Section 162(m) of the Internal Revenue Code limits RTI's tax deduction for compensation deduction for compensation in excess of \$1 million paid to certain covered employees. Compensation paid to covered employees is not subject to the deduction limitation if it is considered qualified performance-based compensation. The Committee reserves the right to provide both market and performance-based compensation to covered employees. Certain awards, such as stock options, are intended to qualify for deduction under Section 162(m). Other types of awards, such as restricted shares, however, are not considered performance-based and may not be deductible under Section 162(m). While the Committee considers the tax impact of any compensation arrangement, it reserves the right to approve non-deductible compensation consistent with the overall pay philosophy of the Company.

If a change in control of the Company results in compensation being paid or accelerated vesting of equity-based awards, a disqualified individual could, in some cases, be considered to have received parachute payments within the meaning of Sections 280G and 4999 of the Internal revenue Code. A disqualified individual can be subject to a 20% excise tax on excess parachute payments and the Company can be denied a tax deduction. The employment agreements discussed above provide that if it is determined any payment or benefit thereunder would constitute an excess parachute payment, the Company will pay a gross-up payment, subject to certain limitations, such that the net amount retained by the disqualified person after the application of any excise taxes will be equal to such payments or distributions. Gross-up payments will not be deducted by the Company.

D. Analysis of Compensation Awards for Our NEOs

As described above, 2006 base salaries for each of the named executive officers were set by the Compensation Committee in January 2006. Prior to that time, the CEO asked the Company's human resources department to provide

him with suggested ranges of salary increases of top executives generally to provide comparative data. No specific peer group of companies was created or referenced. Information published by the Institute of Management and Administration summarizing surveys of the expected ranges of increases of top executive salaries in the manufacturing industries

Table of Contents

was consulted. Data from a commercial web site, www.companalyst.com, with respect to top executive positions in the Cleveland, Ohio metropolitan area in the manufacturing industry was also reviewed. This process resulted in a recommended range of salary increases for each position from 3.75 to 5.5%. After reviewing 2005 performance and this data, annual base salary was set as follows:

Executive	2006 Base Salary	Percentage Increase over 2005
Timothy G. Rupert	\$ 464,000	3.3%
John H. Odle	299,000	4.5%
Dawne S. Hickton	259,000	13.6%
William T. Hull	205,000	2.0%
Steve R. Giangiordano	164,000	3.2%
Michael C. Wellham	158,000	17.0%

Based on the Company's strong performance, and to maintain base salaries near the mid-point of those for similar positions, the Committee approved salary increases for the start of 2006 in line with its view of the market for Messrs. Rupert, Odle, Hull (who was hired mid-year 2005) and Giangiordano. Ms. Hickton's 2005 salary was increased in June 2005 upon her promotion to Senior Vice President. Had her adjusted 2005 salary been annualized, her 2006 percentage increase would have been 4%. Mr. Wellham's increase was higher on a percentage basis to reflect his increased responsibilities and to bring his salary more in line with the other named executive officers, recognizing that historically his base salary was deflated.

In reviewing the performance of the named executive officers for purposes of determining if bonuses and incentive compensation should be rewarded for 2006, the Committee took into consideration RTI's operating and financial performance, recognizing that the Company's financial performance in 2006 was the highest profit recorded in the Company's history on record sales. In addition, shareholder value as measured by the common share price increased by 106%, also a record for the Company. The Company's positive return on assets and cash flow also were considered in determining the success of the named executive officers' accomplishment of their objectives.

While our operating and financial performance and increases to shareholder value receive the highest weight, the Committee also measures executive performance against pre-determined individual objectives. Specific objectives for 2006 for Mr. Rupert and Ms. Hickton included leading the industry in defense of the Specialty Metals Clause of the Berry Amendment. As a result of successful execution of RTI's lobbying strategy during 2006, the United States Congress passed legislation enhancing the Specialty Metals Clause of the Berry Amendment which provides for additional compliance requirements favorable to the domestic titanium industry which positively benefits the Company's defense business. Specific objectives for Mr. Rupert also included milestones reached for each of the two capital expansion projects related to the new contract work for major customers. Objectives for each of Mr. Odle, Mr. Giangiordano and Mr. Wellham also included the achievement of milestones of one of these important capital projects. Important objectives for both Ms. Hickton and Mr. Hull included specific goals with respect to timely and accurately completing financial reporting and improving past internal control deficiencies while reducing the reliance upon and cost of outside consultants. These objectives were all met. In addition to these objectives, individual named executive officers had specific additional objectives related to their particular areas of responsibility, including matters relating to safety, quality, on-time delivery, and computer systems enhancements.

Table of Contents

The following chart summarizes the achievement of each of the named executive officer's individual objectives:

Executive	Total Number Of Objectives	Total Number of Objectives Achieved	Weighted Average Score Based On Achieved Objectives
Timothy G. Rupert	5	5	100%
John H. Odle	5	3	65%
Dawne S. Hickton	6	5	80%
William T. Hull	6	6	100%
Steve R. Giangiordano	6	5	85%
Michael C. Wellham	5	4	80%

The only objectives that were not met by Mr. Odle, were specific financial goals for the Company's Fabrication and Distribution Group as measured against plan as well as a shortfall in the planned increase in RTI Energy's backlog. The only objective not met by Ms. Hickton was specific financial goals as measured against plan of the Company's Fabrication and Distribution Group. The only objective not met by Mr. Giangiordano was a shortfall in the planned improvement of inventory turns for the Titanium Group. The only objective that was not met by Mr. Wellham, were specific financial goals for the Company's Fabrication and Distribution Group as measured against plan. Each of Mr. Rupert and Mr. Hull met all of their objectives. When reviewing the objectives that were not met, the Committee recognized that while the financial goals for the Fabrication and Distribution Group were not achieved in total, the Group exceeded its goals for profit.

Based upon the Committee's review of Company's strong operating and financial performance, increases in earnings per share, and, to a lesser extent, the named executive officer's accomplishments as they related to each individual's objectives, each of the named executive officers received bonuses, and shares of restricted stock and option grants as set forth in the Summary Compensation and Grants of Plan-Based Awards Tables. Mr. Rupert's bonus of \$550,000 is on the high end of the Pay Statement target range. The Committee made this determination to reward him for the Company's outstanding performance and his achievement of all of his personal objectives. The Committee believed that the bonus for each of the other named executive officers in the high range of target was appropriate in light of the Company's performance and the individuals' achievement of a significant number of their other objectives. In the cases of Ms. Hickton, Mr. Wellham, Mr. Hull and Mr. Giangiordano, the Committee also recognized that each has a very important role in the management succession plan described below, and their retention is critical.

Also because the Company met the earnings per share criteria set forth in the Pay Statement, the vesting of restricted stock granted in previous years was accelerated by 20% for each executive and the grants of restricted stock in the current year were increased by 20% to adjust for the formerly unvested shares that were vested in connection with this acceleration.

E. Changes in Compensation for 2007

As previously announced, Timothy G. Rupert will step down as President and Chief Executive Officer of RTI effective April 27, 2007 and will retire from RTI on July 31, 2007. John H. Odle, Executive Vice President of RTI, will retire, consistent with RTI's mandatory retirement policy, in September 2007 when he becomes 65 years of age.

The Board of Directors of RTI has implemented a succession plan and elected, effective on April 27, 2007, Dawne S. Hickton as Vice Chairman and Chief Executive Officer, Michael C. Wellham as President and Chief Operating Officer, Steve R. Giangiardano as Executive Vice President and William T. Hull as Senior Vice President and Chief Financial Officer. In addition Chad Whalen has been hired as Vice President and General Counsel effective February 19, 2007.

In furtherance of the succession plan, the Board of Directors hired Towers Perrin, a national benefits consulting firm, to review the Company's executive compensation generally and to give specific advice on the compensation of the Company's executive officers after the plan is implemented. Based upon

Table of Contents

this advice the Company has entered into new employment contracts with each of Ms. Hickton, Mr. Wellham, Mr. Hull and Mr. Giangiordano that will take effect on April 27, 2007. Effective with his date of hire, the Company also entered into an employment contract with Mr. Whalen. The following summarizes the target initial compensation for these individuals effective with their new positions:

Ms. Hickton will receive a base salary of \$425,000. She will be eligible for an annual target bonus in accordance with the Pay Statement of 75% of her base salary. She will be eligible for annual grants of long term incentive compensation under RTI's 2004 Stock Plan in a targeted amount of 200% of her base salary.

Mr. Wellham will receive a base salary of \$325,000. He will be eligible for an annual target bonus in accordance with RTI's Pay Statement of 60% of his base salary. He will be eligible for annual grants of long term incentive compensation under RTI's 2004 Stock Plan in a targeted amount of 110% of his base salary.

Mr. Giangiordano will receive a base salary of \$250,000. He will be eligible for an annual target bonus in accordance with the Pay Statement of 50% of his base salary. He will be eligible for annual grants of long term incentive compensation under RTI's 2004 Stock Plan in a targeted amount of 100% of his base salary.

Mr. Hull will receive a base salary of \$250,000. He will be eligible for an annual target bonus in accordance with the Pay Statement of 50% of his base salary. He will be eligible for annual grants of long term incentive compensation under RTI's 2004 Stock Plan in a targeted amount of 80% of his base salary.

Mr. Whalen will receive a base salary of \$200,000. He will be eligible for an annual target bonus in accordance with the Pay Statement of 40% of his base salary. He will be eligible for annual grants of long term incentive compensation under RTI's 2004 Stock Plan in a targeted amount of 60% of his base salary.

As part of the new employment contracts the Change in Control Severance Agreements outlined above will be terminated but each executive officer will be eligible to participate in executive severance policies that entitle the new CEO to a benefit equal to 2.5 times her annual base salary and bonus and for each other named executive officer 2 times their annual base salary and bonus, in each case if the executive's employment with the Company is terminated by the Company other than for cause, death or disability, or by the executive for good reason within 24 months after a change in control of the Company. Also upon such event the executives will be entitled to immediate vesting of unvested stock options and restricted stock the continuation of life, disability and health insurance benefits for a specified period and a gross-up payment in the event, in certain circumstances, the executive is subject to excise taxes because of the above. The named executive officers will also be entitled to certain severance benefits in the event that the Company terminates the executive's employment other than because of cause, death or disability outside of the context of a change of control, or if the Company breaches the executive's employment agreement in certain circumstance or if the company reduces the executives base salary without the executive's consent.

Finally, it is anticipated that the Pay Statement will be amended in 2007 to contemplate the new executive positions and to adjust the bonus targets.

attendance at the Company's annual shareholders meeting and one off-site Board meeting. None of these benefits individually exceeded the greater of \$25,000 or 10% of the total amount of these benefits for the listed individuals. The aggregate cost of all perquisites and personal benefits for each of Messrs. Wellham and Berkstresser was less than \$10,000.

- (2) Represents the Company's 401(k) matching contribution for the Named Executive Officer. Mr. Wellham is the only Named Executive Officer in the Company's defined contribution 401(k) plan that received a matching contribution.
- (3) Total amount paid in severance is the result of the Company's and Mr. Berkstresser's mutual agreement to terminate his employment. Amount includes \$332,154 related to the vesting of restricted stock awards, \$147,500 related to cash severance payments, and \$22,598 for the buy-out of the Company's auto lease with title being transferred to Mr. Berkstresser.

The tables above summarize the total compensation paid to or earned by each of our named executive officers for the fiscal year ended December 31, 2006. The narrative below describes current employment agreements and material employment terms with each of our named executive officers, as applicable.

Employment Agreements

On August 1, 1999, RTI entered into employment agreements with Ms. Hickton and Messrs. Odle and Rupert covering their employment for an initial four year term and for additional one year terms each year thereafter until the officer attains age 65 unless terminated prior thereto by either party on 120 days notice. Under the agreements, each officer will be paid the annual salary set forth, subject to increases from time to time in the sole discretion of RTI. RTI may terminate the services of the officer at any time for cause as defined in the agreement. Officers each agree not, for a period of 24 months after the end of the employment period or employment termination, whichever occurs first, to be employed by, or otherwise participate in, any business which competes with RTI. This restriction does not apply if the officer terminates employment with RTI under certain circumstances following a change in control of RTI as defined.

The employment agreements also provide that the officer will be entitled to certain severance benefits in the event of termination of employment under certain circumstances following a change in control as defined.

These are:

a cash payment of up to three times the sum of the officer's current salary plus the highest bonus in the four years before the date of termination,

all unvested restricted stock and options will vest immediately,

life, disability, accident and health insurance benefits for 24 months after termination,

a cash payment of the amount necessary to insure that the payments listed above are not subject to net reduction due to the imposition of federal excise taxes.

The severance benefits are payable if, any time after a change in control, the officer's employment is terminated by the officer for good reason or by RTI other than for cause or disability. In addition the benefits are payable to Mr. Odle or Mr. Rupert in the event either of them terminates employment within 90 days after a change in control.

The definition of a change in control for purposes of these agreements is complex but is summarized as follows. It includes any change in control required to be reported in response to Item 6(e) of Schedule 14A under the Securities Exchange Act of 1934 and provides that a change in control will have occurred if:

any person not affiliated with RTI acquires 20 percent or more of the voting power of our outstanding securities,

the Board no longer has a majority made up of (1) individuals who were directors on the date of the agreements and (2) new directors (other than directors who join the Board in connection with an election contest) approved by two-thirds of the directors then in office who (a) were directors on the date of the agreements or (b) were themselves previously approved by the Board in this manner.

Table of Contents

RTI merges with another company and RTI's shareholders end up with less than 50 percent of the voting power of the new entity,

our shareholders approve a plan of complete liquidation of RTI, or

we sell all or substantially all of RTI's assets.

Under the employment agreement dated as of August 1, 1999 between RTI and Mr. Odle, RTI agreed that if he continues in active employment with RTI until either age 65, or such earlier date as the RTI Board of Directors may approve, RTI, on a date six months from the effective date of his retirement, will pay him a one time lump sum payment of the then present value of the 9.16 years of non-pensionable service attributable to periods he was employed by U.S. Steel (3.58 years) and the Company (5.58 years) which pre-date his current period of employment, calculated pursuant to the RTI Pension Plan and its Supplemental Pension Program.

On December 6, 2003, RTI entered into a letter agreement with Mr. Rupert (the "2003 Letter") with respect to Mr. Rupert's retirement benefits. The 2003 Letter provided for an amendment to the RTI Supplemental Pension Program allowing the benefits payable to Mr. Rupert under the RTI Supplemental Pension Program to be calculated in a manner that includes Mr. Rupert's service with USX Corporation and its predecessor U.S. Steel, and with RTI. This amendment was effected in January 2004. RTI's obligations toward such benefit shall continue notwithstanding any termination of the RTI Supplemental Pension Program. The 2003 Letter superseded a previous letter agreement with respect to Mr. Rupert's benefits dated April 13, 1992, between Mr. Rupert and RMI Titanium Company, signed by L.F. Gieg, Jr. In addition, the 2003 Letter provides that Mr. Rupert's pension under the RTI Pension Plan is calculated based solely upon the terms of the RTI Pension Plan, using Mr. Rupert's combined years of service with the USX and RTI, reduced by the amount of any retirement benefits payable under the U.S. Steel Pension Plan. Mr. Rupert further agreed in the 2003 Letter that RTI will not have an obligation to make up any difference in (a) any pension benefit Mr. Rupert would have received from the U.S. Steel Pension Plan had Mr. Rupert remained employed by USX and (b) the actual combined pension benefit Mr. Rupert will receive from the U.S. Steel Plan and RTI. Finally, in the event that Mr. Rupert fails to receive from the U.S. Steel pension plan the pension benefits owed to him (estimated to be approximately \$33,436 per year), after using reasonable efforts to collect his benefits through the U.S. Steel pension plan's claims and appeals procedures, RTI agrees under the 2003 Letter to guarantee the full payment of such benefits, and Mr. Rupert agrees to cooperate with RTI in connection with any claim or action for reimbursement of all or any portion of such payments made under such guarantee. The effects of the 2003 Letter are reflected in the description of Mr. Rupert's pension benefits set forth above.

On July 29, 2005, RTI entered into an employment agreement with Mr. Hull covering his employment for an initial three year term and for additional one year terms each year thereafter until he attains age 65 unless terminated prior thereto by either party on 90 days notice. Under the agreement, he will be paid the annual salary set forth, subject to increases from time to time in the sole discretion of RTI. The agreement contains the other terms and conditions described above as being contained in the agreements with Mrs. Hickton except that Mr. Hull's cash severance benefit is based on current base salary and the average annual bonus in the three years before the date of termination.

grant date fair value for stock option awards is based on the Black-Scholes option pricing model. The actual value, if any, that a Named Executive Officer may realize upon exercise of stock options will depend on the excess of the stock price over the base value on the date of exercise, so there is no assurance that the value realized by a Named Executive Officer will be at or near the value estimated by the Black-Scholes model. The assumptions used in determining the grant date fair values of these awards are set forth in the notes to the Company's consolidated financial statements, which are included in our Annual Report on Form 10-K for the year ended December 31, 2006 filed with the SEC.

Retirement Benefits*Pension Plan*

RTI's Pension Plan for Eligible Salaried Employees (the Pension Plan) is a tax-qualified defined benefit plan which first became effective at RMI Company (a predecessor of RTI) in 1971. The Pension Plan recognizes, for pension benefits, services and compensation with RTI, RMI Titanium Company, RMI Company, Reactive Metals, Inc. (a predecessor of RMI Company), United States Steel Corporation, USX Corporation, Quantum Chemical Corporation, or subsidiaries of each. The amounts payable under the Pension Plan will be paid monthly after a participant retires. The benefits are based on a formula which provides under normal retirement amounts equal to 1.25% of the average monthly earnings multiplied by continuous years of service up to and including 30 years; plus 1.35% of the average monthly earnings multiplied by continuous years of service in excess of 30 years of a specified percentage (dependent on years of service) of average annual eligible earnings in the five consecutive years in the ten years prior to retirement in which such earnings are highest. Eligible earnings include only base salary. Incentive awards and similar benefits are excluded, although the amount of such benefits is included in the Summary Compensation Table. Benefits payable under the Pension Plan, and amounts reflected in the following table, are subject to offsets for certain pensions payable under the U.S. Steel and the Quantum pension plans. Effective January 1, 2006 the Plan was closed to new participants.

Excess Benefits Plan

The Internal Revenue Code imposes limits on the amount of annual eligible compensation under tax-qualified pension plans. For 2006, annual compensation in excess of \$220,000 cannot be taken into account in determining qualified plan benefits. RTI maintains the RTI International Metals, Inc. Excess Benefits Plan (the Excess Benefits Plan) for certain highly-compensated employees who participate in RTI's tax-qualified pension plans and would otherwise be limited by such tax limits. The Excess Benefits Plan is an unfunded excess benefit plan within the meaning of Section 3(36) of the Employee Retirement Income Security Act of 1974, as amended. It provides additional retirement income in an amount equal to the difference between benefits that would have been received under the Pension Plan but for the limitations imposed by the Internal Revenue Code and amounts actually payable under the Pension Plan. Participants must be designated by the Board of Directors; at this time only Messrs. Rupert and Odle and Ms. Hickton have been so designated.

Table of Contents*Supplemental Pension Program*

Officers participating in the Company's annual incentive compensation programs (i.e., annual bonuses) are also eligible for the RTI Supplemental Pension Program. If they retire or otherwise terminate employment after age 60, or prior to age 60 with a minimum of 30 years service and with RTI consent, they will be entitled to receive the benefits shown in the table below based on bonuses paid under the annual incentive compensation program.

RTI has agreed with Mr. Rupert that his continuous service for purposes of the Supplemental Pension Program shall include his service with USX Corporation and its predecessor U.S. Steel. As of December 31, 2006, Mrs. Hickton had 9 credited years of service, Mr. Hull had 1 year of credited service, Mr. Odle 29, and Mr. Rupert 38. Average annual bonus as of December 31, 2006, for purposes of the pension benefits under the RTI Supplemental Pension Program for each of the following named executive officers are as follows: Mrs. Hickton, \$149,000; Mr. Hull, \$45,000; Mr. Odle, \$195,000; and Mr. Rupert, \$415,000.

The benefits shown above are based on a formula whereby the average annual bonuses for the highest five years in the preceding ten year period are multiplied times a factor. The factor is determined by multiplying 1.5% for each year of continuous service. Participants in the plan may elect to have the monthly benefit as a result of the formula paid monthly for life or receive a lump sum distribution based on the present value of the amounts payable. The plan provides for surviving spouse benefits at a reduced rate.

In order to comply with the limitations of the Internal Revenue Code, pension benefits will be paid directly by RTI when they exceed the amounts permitted by the Code to be paid from federal income tax qualified pension plans.

As described in the financial statements, the discount rate assumption is 6.0%.

Potential Payments Upon Termination or Change in Control

The tables below reflect the estimated amount of compensation to be paid, and/or benefits to be provided, to each of the named executive officers, in the event of termination of such executive's employment as of December 31, 2006 under the different scenarios captioned in the tables. Actual amounts are tied to the day of termination and can only be finally determined following such date. The following tables should be read in conjunction with the discussion and tables related to retirement benefits and the employment agreements in place during 2006, each as set forth above.

While the following tables include payments under the Company's 401(k) Savings Plan, these benefits are fully-vested and are not effected by termination. The Savings Plan payments estimated for Ms. Hickton and Messrs. Rupert, Odle, Hull, Giangiordano and Berkstresser consist solely of employee contributions as these executives have not received any matching contributions by the Company. As previously discussed under the caption "Changes in Compensation for 2007" above, following the effectiveness of our succession plan, the continuing named executive officers will be subject to the terms of new employment agreements. Consequently, the calculations for termination following a change in control for Ms. Hickton and Messrs. Hull, Giangiordano and Wellham will change for 2007. Finally, as estimates for any potential excise tax imposed by Section 4999 of the Internal Revenue Code are tied to an executive's recent historical compensation, which can vary for events beyond the control of the Company (such as exercises of stock options or other transactions in Company securities), the estimates for 2006 may not be indicative of actual payments in future periods.

RTI employees receive no extra pay for serving as a director. For 2006, non-employee directors (except for the Chairman) received an annual retainer for their service on the Board of \$80,000 and Mr. Hernandez received an annual retainer of \$145,000 as non-employee Chairman of the Board. One-half of these retainers are paid in cash and one-half through awards of restricted stock under the 2004 Stock Plan. In addition, the Audit Committee Chairperson received an annual cash retainer of \$20,000 and the Nominating/Corporate Governance Committee Chairperson received an annual cash retainer of \$7,500. No fees are paid for Board or committee meetings attended except that if, in the opinion of the Chairman of the Board, circumstances require that an extra-ordinary number of Board meetings be held, non-employee directors will receive a meeting fee of \$1,000 for each meeting attended thereafter. No such additional fees were paid during 2006.

On October 27, 2006, the Board of Directors amended the Company's Directors Compensation Program in certain respects. The amendments were adopted, with input from a national consulting firm, to enhance the Company's ability to attract and retain independent directors and to align the Company's Director Compensation Program with public companies of comparable size. The amendments became effective on January 1, 2007 and raised the retainer compensation to \$120,000 for all non-employee directors other than the Chairman and to \$180,000 for the Chairman.

TRANSACTIONS WITH RELATED PARTIES

We are aware of no transactions with the Company involving over \$120,000 since the beginning of 2006 in which any of our directors, executive officers, five percent shareholders, or certain of their relatives (related parties) had or will have a direct or indirect material interest. We recognize that transactions between the Company and its related parties can present potential or actual conflicts of interest and may create the appearance that decisions may not be based on considerations in the best interests of the Company. As a general matter, and in accordance with the Company's Code of Ethical Business Conduct and its Conflicts of Interest Policy (both of which are available on our website at www.rtiintl.com), the Company's preference is to avoid such transactions. Nevertheless, we recognize that there are situations where such transactions may be in, or may not be inconsistent with, the best interests of RTI. We monitor the potential for such transactions and ask our directors and executive officers to confirm, at least annually, that they are not aware of any related-party transactions. In the event that recent transactions are entered into or potential transactions are being contemplated, it is our unwritten policy to discuss the merits of such transactions with the disinterested members of the Board of Directors and seek ratification or approval.
