Statement of Accounting Policy

The accompanying financial statements include the accounts of Myers Industries, Inc. and subsidiaries (collectively, the Company), and have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures are adequate to make the information not misleading. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's latest annual report on Form 10-K.

In the opinion of the Company, the accompanying financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of March 31, 2009, and the results of operations and cash flows for the three months ended March 31, 2009 and 2008. The results of operations for the three months ended March 31, 2009 are not necessarily indicative of the results of operations that will occur for the year ending December 31, 2009.

Recent Accounting Pronouncements

In December 2007, the FASB issued Statement No. 141R Business Combinations and FASB Statement No. 160, Non-Controlling Interests in Consolidated Financial Statements. Statements 141R and 160 require most identifiable assets, liabilities, non-controlling interests, and goodwill acquired in a business combination to be recorded at full fair value and require non-controlling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with non-controlling shareholders. The adoption of these standards did not have a material impact to the Company's statement of financial position, result of operations or cash flows. The Company will apply the guidance of the statements to business combinations in 2009 and beyond.

Effective January 1, 2009, the Company adopted SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, and amendment of SFAS No. 133. The Statement requires enhanced disclosures about an entity's derivative and hedging activities. The adoption of this standard did not have a material impact to the Company's statement of financial position, results of operations or cash flows.

The Company adopted SFAS No. 157, Fair Value Measurements (SFAS 157) as of January 1, 2008. SFAS 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. FASB Staff Position 157-2, Effective Date of FASB Statement No. 157, applies to nonfinancial assets and nonfinancial liabilities and was effective January 1, 2009. The adoption of this standard had no impact on the Company in first quarter 2009.

Discontinued Operations

In the first quarter of 2007, the Company sold its European Material handling businesses. In accordance with U.S. generally accepted accounting principles, the operating results related to these businesses have been included in discontinued operations in the Company's condensed statements of consolidated income for all periods presented.

In the three months ended March 31, 2008, the Company recorded net income of approximately \$1.7 million as a result of net proceeds received related to the settlement of certain contingencies in connection with the disposed businesses.

Merger Agreement

Edgar Filing: MYERS INDUSTRIES INC - Form 10-Q

On April 3, 2008, the Company entered into a letter agreement mutually terminating the Agreement and Plan of Merger (the Merger Agreement) with MYEH Corporation, a Delaware corporation (the Parent) and MYEH

Acquisition Corporation, an Ohio corporation (MergerCo). Under the terms of the Merger Agreement, MergerCo would have been merged with and into the Company, with the Company continuing as the surviving corporation and becoming a wholly-owned subsidiary of Parent (the Merger). Parent is owned by GS Capital Partners, LP (GSCP) and other private equity funds sponsored by Goldman, Sachs & Co.

The Merger Agreement contained termination rights for both the Company and Parent in the event the Merger was not consummated by December 15, 2007. In December 2007, an agreement was made to extend this date from December 15, 2007 to April 30, 2008. This extension did not provide GSCP additional rights with respect to the potential merger and any consummation of the merger would have remained subject to satisfaction of the conditions to the closing in the Merger Agreement. In connection with the extension, GSCP paid the Company a previously agreed upon \$35.0 million termination fee in 2007. This non refundable termination fee, net of related expenses of \$8.3 million, was recorded as other income by the Company in the fourth quarter of 2007. In addition, as permitted by the extension, the Company paid a special dividend of \$0.28 per common share totaling approximately \$9.9 million on January 2, 2008 to shareholders of record as of December 20, 2007.

Goodwill

The change in goodwill for the three months ended March 31, 2009 is as follows:

Total	\$ (6,320)	\$ (4,570)

Restructuring & Impairment Charges

In the first quarter of 2009, the Company continued the implementation of its plan to restructure the businesses in the Lawn and Garden segment. Certain components of production from its Surrey, B.C., Brantford, Ontario and Sparks, Nevada manufacturing facilities were reallocated to the segment's other five manufacturing facilities. In conjunction with this reallocation, the Company recorded an impairment charge of \$0.3 million related to certain property, plant, and equipment at these and other manufacturing Lawn and Garden facilities. The Company also incurred severance and personnel related, consulting, and other expenses associated with the restructuring of approximately \$5.0 million in the first quarter.

In 2009, the Company expects to incur additional charges of \$2.0 million for severance and other one time termination benefits and \$4.1 million of other restructuring charges associated with the realignment.

Activity related to the Lawn and Garden business restructuring as of March 31, 2009 is as follows:

(Dollars in thousands)	Severance and Personnel	Other Exit Costs	Total
Balance at January 1, 2009	\$ 0	\$ 0	\$ 0

Also in the first quarter of 2009, the Company announced the closure of its Fostoria, Ohio facility. As a result, an impairment charge of approximately \$1.0 million was recorded to adjust the carrying value of real estate at this location to its estimated fair value.

Stock Compensation

In 1999, the Company and its shareholders adopted the 1999 Stock Plan allowing the Board of Directors to grant key employees and Directors various types of stock based awards including stock options, restricted stock and stock appreciation rights. In general, options granted and outstanding vest over three to five years and expire ten years from the date of grant. On January 1, 2009, the 1999 Stock Plan expired by its terms, and these shares were no longer available for future grants from that date.

Stock compensation expense under SFAS No. 123R reduced income before taxes approximately \$0.5 million and \$0.3 million for the three months ended March 31, 2009 and 2008, respectively. These expenses are included in SG&A expenses in the accompanying Condensed Statements of Consolidated Income. Total unrecognized compensation cost related to non-vested share based compensation arrangements at March 31, 2009 was approximately \$3.3 million, which will be recognized over the next four years.

The following table summarizes the stock option activity for the three months ended March 31, 2009:

	Shares	Average Exercise Price	Weighted Average Life
Outstanding at December 31, 2008	1,193,376	\$ 13.66	
Options Granted	-0-		
Options Exercised	-0-		
Cancelled or Forfeited	(16,230)	\$ 12.39

Exercisable at March 31, 2009	450,720	\$ 13.71	

On April 30, 2009, the shareholders of the Company approved the adoption of the 2008 Incentive Stock Plan. The full text of the 2008 Incentive Stock Plan is attached as Exhibit 4.3 to the registration statement on Form S-8 filed with the SEC on March 17, 2009. As a result of this approval, the Company granted 584,869 options with an exercise price of \$10.92 that were originally awarded to certain employees and non-employees on October 8, 2008. These options were awarded conditionally based on shareholder approval of the 2008 Stock Incentive plan.

In addition, at March 31, 2009 the Company had 126,000 shares of restricted stock outstanding. The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. There were no stock options exercised during the three months ended March 31, 2009. The total intrinsic value of the options exercised during the three months ended March 31, 2008 was approximately \$0.1 million.

Income Taxes

As of December 31, 2008, the total amount of gross unrecognized tax benefits in accordance with FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48), was \$6.7 million of which \$6.3 million would reduce the Company's effective tax rate. The amount of accrued interest expense within the Company's consolidated financial position at December 31, 2008 was \$0.4 million.

No material changes have occurred in the liability for unrecognized tax benefits during the three months ended March 31, 2009. The Company does not expect any significant changes to its unrecognized tax benefit balance over the next twelve months.

The Company recognizes accrued amounts of interest and penalties related to its uncertain tax positions as part of its income tax expense within its consolidated statements of income.

As of March 31, 2009, the Company and its significant subsidiaries are subject to examination for the years after 2003 in Brazil and Canada as well as after 2004 for the United States, France, and certain states within the United States. The Company is also subject to examinations after 2005 in the remaining states within the United States.

Retirement Plans

For the Company's two defined benefit pension plans included in continuing operations, the net periodic benefit cost for the three months ended March 31, 2009 and 2008 was as follows:

(In thousands)	Three Months Ended March 31,	
	2009	2008
Service cost	\$ 15	\$ 22
Interest cost	81	80
Expected return on assets	(65)	(108)
Amortization of prior service cost	-0-	-0-
Amortization of net loss	22	5
Net periodic pension cost	\$ 53	\$ (1)

The Company expects to make a contribution of approximately \$0.1 million in 2009. As of March 31, 2009, no contributions have been made.

Contingencies

The Company is a defendant in various lawsuits and a party to various other legal proceedings, in the ordinary course of business, some of which are covered in whole or in part by insurance. We believe that the outcome of these lawsuits and other proceedings will not individually or in the aggregate have a future material adverse effect on our consolidated financial position, results of operations or cash flows.

A number of parties, including the Company and its subsidiary, Buckhorn, Inc., were identified in a planning document adopted in October 2008 by the California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB). The planning document relates to the presence of mercury, including amounts contained in mining wastes, in and around the Guadalupe River Watershed (Watershed) region in Santa Clara County, California. Buckhorn has been alleged to be a successor in interest to an entity that performed mining operations in a portion of the Watershed area. The Company has not been contacted by the RWQCB with respect to Watershed clean-up efforts that may result from the adoption of this planning document. The extent of the mining wastes that may be the subject of future cleanup has yet to be determined, and the actions of the RWQCB have not yet advanced to the stage where a reasonable estimate of remediation cost, if any, is available.

Although assertion of a claim by the RWQCB is reasonably possible, it is not possible at this time to estimate the amount of any obligation the Company may incur for these cleanup efforts within the Watershed region, or whether such cost would be material to the Company's financial statements.

Segment Information

The Company's business units have separate management teams and offer different products and services. Using the criteria of SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information", these business units have been aggregated into four reportable business segments. These include three manufacturing segments encompassing a diverse mix of plastic and rubber products: 1) Material Handling, 2) Automotive and Custom, and 3) Lawn and Garden. The fourth segment is Distribution of tire, wheel, and undervehicle service products. The aggregation of operating business segments is based on management by the chief operating decision maker for the segment as well as similarities of products, production processes, distribution methods and economic characteristics.

Income (Loss) Before Income Taxes for each business segment is based on net sales less cost of products sold, and the related selling, administrative and general expenses. In computing business segment operating income, general corporate overhead expenses and interest expenses are not included.

Part I Financial Information**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations: First Quarter 2009 versus 2008****(Dollars in millions)****Net Sales from Continuing Operations:**

Segment	2009	2008	Change	%Change
Lawn & Garden	\$ 76.4	\$ 92.4	\$(16.0)	(17)%
Material Handling	\$ 58.0	\$ 72.7	\$(14.6)	(20)%
Distribution	\$ 36.3	\$ 44.5	\$ (8.2)	(18)%
Auto & Custom	\$ 27.1	\$ 46.4	\$(19.3)	(42)%
Inter-segment elimination	\$ (7.7)	\$ (6.6)	\$ (1.1)	(19)%
TOTAL	\$190.1	\$249.3	\$(59.2)	(24)%

Sales in the first quarter of 2009 were adversely affected by the weakness in the general economy, which impacted all segments of the Company's business and all markets in which the Company sells. The sales decline is primarily due to lower sales volumes and a decrease of \$10.0 million from foreign currency translation and the unfavorable impact of exchange rates for the Canadian dollar.

Net sales in the Lawn and Garden segment in the first quarter of 2009 were down \$16.0 million or 17% compared to the first quarter of 2008. Approximately \$8.7 million of the decrease was due to foreign currency translation from the unfavorable impact of the exchange rates for the Canadian dollar. Excluding the impact of foreign currency translation, sales in this segment were down \$7.3 million. Volume declines of \$11.2 million were partially offset by increases of \$3.9 million from higher selling prices.

In the Material Handling segment, sales decreased \$14.6 million or 20% in the first quarter of 2009 compared to the same quarter in 2008. Sales were down 15% due to the impact of volume declines in automotive, industrial and other markets.

Net sales in the Distribution segment decreased \$8.2 million or 18% in the first quarter of 2009 compared to the first quarter of 2008. Sales were down primarily due to lower unit volumes from softer sales of replacement tires and the impact of a weak economy which reduced miles driven. These factors reduced demand for the Company's tire service and retread consumable supplies. In addition, sales of equipment in the Distribution segment continued to be weak as tire dealers, auto dealers, fleet and other customers reduced capital purchases.

In the Auto and Custom segment, net sales in the first quarter of 2009 decreased \$19.3 million, or 42% compared to the prior year. The decrease is due to significant volume declines in the automotive, heavy truck, recreational vehicle and marine markets in the first quarter of 2009.

Cost of Sales & Gross Profit from Continuing Operations:

Cost of Sales and Gross Profit	2009	2008
Cost of sales	\$ 134.9	\$ 189.4
Gross profit	\$ 55.2	\$ 60.0
Gross profit as a percentage of sales	29.0%	24.0%

Gross profit margin increased to 29% in the quarter ended March 31, 2009 compared with 24% in the prior year primarily due to lower raw material costs as prices for plastic resins were, on average, approximately 40% lower in the first quarter of 2009 compared to the first quarter of 2008. In addition, the liquidation of inventories valued at LIFO cost reduced cost of sales by approximately \$1.4 million. The impact of lower raw material costs more than offset the unfavorable impact of higher manufacturing costs due to a reduction in capacity utilization and increased unabsorbed overhead.

Part I Financial Information**Selling, General and Administrative (SG&A) Expenses from Continuing Operations:**

SG&A Expenses	2009	2008	Change
SG&A expenses	\$43.2	\$43.2	\$ (0)
SG&A expenses as a percentage of sales	22.7%	17.3%	(5.4)

Selling and administrative expenses for the quarter ended March 31, 2009 were \$43.2 million, which remained consistent with the prior year. Expenses in 2009 include unusual charges of approximately \$5.0 million for consulting fees, movement of machinery and equipment and other restructuring costs of our Lawn and Garden businesses. These unusual charges were offset by lower freight and selling expenses from decreased sales volumes.

Impairment Charges from Continuing Operations:

In the first quarter of 2009, the Company continued the implementation of its restructuring plan in the Lawn and Garden business and announced the closure of its Fostoria, Ohio manufacturing facility in its Auto and Custom business. In connection with this closure, the Company recorded impairment charges of \$1.3 million for certain property, plant, and equipment, primarily related to the estimated fair value of its facility in Fostoria, Ohio.

Interest Expense from Continuing Operations:

	2009	2008	Change	% Change
Net Interest Expense				
Interest expense	\$ 2.4	\$ 3.0	\$ (0.6)	(19)%
Outstanding borrowings	\$181.5	\$199.6	\$(18.1)	(9)%
Average borrowing rate	5.34%	6.27%	(0.93)	(15)%

Net interest expense for quarter ended March 31, 2009 was \$2.4 million, a decrease of 19% compared to \$3.0 million in the prior year. The decrease was the result of lower average borrowing levels and lower interest rates compared to the same period last year.

Income Before Taxes from Continuing Operations:

Segment	2009	2008	Change	% Change
Lawn & Garden	\$11.7	\$ 8.1	\$ 3.6	45%
Material Handling	\$ 6.7	\$ 8.6	\$(2.0)	(23)%
Distribution	\$ 2.2	\$ 3.3	\$(1.1)	(33)%
Auto & Custom	\$(3.0)	\$ 1.5	\$(4.5)	(297)%
Corporate and interest	\$(9.3)	\$(7.8)	\$(1.5)	(20)%
TOTAL	\$ 8.3	\$13.8	\$(5.5)	(41)%

Income before taxes for the quarter ended March 31, 2009, was lower than the same period in the prior year due to the impact of significantly lower sales volumes and restructuring and impairment charges totaling \$6.4 million. These factors were partially offset by a reduction in certain raw material costs.

Income Taxes from Continuing Operations:

Consolidated Income Taxes	2009	2008
Income before taxes	\$ 8.3	\$13.8
Income taxes	\$ 3.2	\$ 5.1
Effective tax rate	38.6%	37.2%

Table of Contents**Part I Financial Information**

Income tax expense as a percentage of pretax income increased to 38.6% for the quarter ended March 31, 2009 compared to 37.2% in the prior year. The increase is attributable to changes in the mix of domestic and foreign composition of income and the related foreign tax rate differences.

Liquidity and Capital Resources

Cash used by operating activities from continuing operations was \$2.4 million for the quarter ended March 31, 2009 compared to \$9.3 million in the first quarter of 2008. The decrease in cash used for operations was primarily attributable to a \$9.1 million reduction in cash used for working capital which more than offset a decline of \$2.2 million in cash generated from income, excluding depreciation and other non-cash charges.

The change in cash flow used for working capital was the result of a reduction of inventory that generated \$6.6 million more cash in the first quarter of 2009 compared to 2008 and the Company using \$5.0 million less cash for accounts payable and other current liabilities in the current year. These benefits to cash flow were partially offset by an increase of \$1.1 million used for accounts receivable, primarily related to seasonal business in the Company's Lawn and Garden segment and an increase of \$1.4 million for prepaid expenses in the first quarter of 2009.

Capital expenditures were approximately \$1.4 million in the quarter ended March 31, 2009 and are expected to be in the range of \$15 to \$20 million for the year. In addition, the Company used cash to pay dividends of \$2.1 million in the first quarter of 2009.

Total debt at March 31, 2009 was approximately \$181.5 million compared with \$169.5 million at December 31, 2008. The Company's Credit Agreement provides available borrowing up to \$250 million and, as of March 31, 2009, the Company had approximately \$174 million available under this agreement. The Credit Agreement expires in October 2011 and, as of March 31, 2009 the Company was in compliance with all its debt covenants. The significant financial covenants include an interest coverage ratio and a leverage ratio, defined as earnings before interest, taxes, depreciation, and amortization, as adjusted, compared to total debt. The ratios as of and for the period ended December March 31, 2009 are shown in the following table:

	Required Level	Actual Level
Interest Coverage Ratio	2.5 to 1 (minimum)	3.8
Leverage Ratio	3.5 to 1 (maximum)	2.4

The Company believes that cash flows from operations and available borrowing under its Credit Agreement will be sufficient to meet expected business requirements including capital expenditures, dividends, working capital, and debt service into the foreseeable future.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company has certain financing arrangements that require interest payments based on floating interest rates. The Company's financial results are subject to changes in the market rate of interest. At present, the Company has not entered into any interest rate swaps or other derivative instruments to fix the interest rate on any portion of its financing arrangements with floating rates. Accordingly, based on current debt levels at March 31, 2009, if market interest rates increase one percent, the Company's interest expense would increase approximately \$0.8 million annually.

Some of the Company's subsidiaries operate in foreign countries and their financial results are subject to exchange rate movements. The Company has operations in Canada with foreign currency exposure, primarily due to sales made from businesses in Canada to customers in the United States. These sales are denominated in US dollars. In addition, the Company's subsidiary in Brazil has loans denominated in U.S. dollars. In 2007, the Company began a systematic program to limit its exposure to fluctuations in exchange rates related to certain assets and liabilities of its operations in Canada and Brazil that are denominated in U.S. dollars. The net exposure generally ranges from \$5 to \$10 million. The foreign currency contracts and arrangements created under this program are not designated as hedged items under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and accordingly, the changes in the

fair value of the foreign currency arrangements, which have been immaterial, are recorded in the income statement. The Company's foreign currency arrangements are generally three months or less and, as of March 31, 2009, the Company had no foreign currency arrangements or contracts in place.

Part I Financial Information

The Company uses certain commodities, primarily plastic resins, in its manufacturing processes. The cost of operations can be affected as the market for these commodities changes. The Company currently has no derivative contracts to hedge this risk, however, the Company also has no significant purchase obligations to purchase fixed quantities of such commodities in future periods.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

Part II Other Information**Item 1. Legal Proceedings**

A number of parties, including the Company and its subsidiary, Buckhorn, Inc., were identified in a planning document adopted in October 2008 by the California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB). The planning document relates to the presence of mercury, including amounts contained in mining wastes, in and around the Guadalupe River Watershed (Watershed) region in Santa Clara County, California. Buckhorn has been alleged to be a successor in interest to an entity that performed mining operations in a portion of the Watershed area. The Company has not been contacted by the RWQCB with respect to Watershed clean-up efforts that may result from the adoption of this planning document. The extent of the mining wastes that may be the subject of future cleanup has yet to be determined, and the actions of the RWQCB have not yet advanced to the stage where a reasonable estimate of remediation cost, if any is available. Although assertion of a claim by the RWQCB is reasonably possible, it is not possible at this time to estimate the amount of any obligation the Company may incur for these cleanup efforts within the Watershed region, or whether such cost would be material to the Company's financial statements.
