HUANENG POWER INTERNATIONAL, INC.  
Announces 2003 Interim Results

Net Profit Increases 28.58% to RMB2,285 Million

(Beijing, China, August 6, 2003) Huaneng Power International, Inc. (the "Company") [NYSE: HNP; HKEx: 902; SSE: 600011] today announced its unaudited operating results for the six months period ended June 30, 2003.

Consolidated net profit of the Company and its subsidiary for the first half of 2003 was RMB 2,285 million (equivalent to US\$276 million), representing an increase of 28.58% compared to the same period last year. Earnings per share was RMB0.38 or RMB15.20 (equivalent to US\$1.84) for each American Depositary

## Edgar Filing: HUANENG POWER INTERNATIONAL INC - Form 6-K

Share. The board of directors does not recommend any interim dividends for year 2003.

The increase in profit is due to power generation increase of the Company's power plants, as well as the Company's effective cost control measures. The Company's average unit cost for power sold for the first half of 2003 was decreased by 2.19% compared to the same period last year. The board of directors of the Company is satisfied with the above operating results.

With the joint efforts made by the management and all the staff, the Company achieved satisfactory results in all aspects in the first half of this year:

1. The Company's total power generation based on a consolidation basis for the first half of the year was 41.079 billion kWh, an increase of 39.67% over the same period last year.
2. The Company made breakthrough in acquiring power assets. i) The Company entered into an agreement with Shenzhen Energy Group Co., Ltd. ("SEG") and Shenzhen Investment Holding Corporation to acquire a 25% interest of the enlarged share capital of SEG. The transaction was completed and it enlarged the Company's market share in Guangdong Province, in particular Shenzhen Municipality, an area with rapid economic growth and substantial power demand. ii) The Company entered into a transfer agreement with China Huaneng Group on June 5, 2003 about transferring China Huaneng Group's equity interests in Henan Huaneng Qinbei Power Generation Limited Liability Company, Shanxi Huaneng Yushe Power Limited Liability Company and the entire assets and liabilities of China Huaneng Group Xindian Power Plant. The acquisition and the connected transactions ancillary thereto were approved by the extraordinary general meeting on July 22, 2003, now pending the approvals from the relevant government authorities. The Company believes that the acquisition will bring increase in earnings per share for the Company.
3. In addition, i) the two environmental friendly 135 MW coal-fired generating units (Units 5 and 6) of Jining Power Plant expansion project (using Cycled Fluidized Bed Combustion Boilers) have completed their 168 hours full-load trial run on July 11 and August 5, 2003, respectively and the generating unit 5 has commenced commercial operation. ii) The two gas-fired generation projects in Shanghai and Jinling and the expansion projects of Huaiyin Power Plant Phase II and Shantou Power Plant Phase II, as well as Zhejiang Yuhuan Power Plant have made progress on their preliminary work.

In the second half of year 2003, increasing power demand will put a lot of pressure on the power supply, and the power tariff reform will be further deepened. The management of the Company will continue to put optimization of shareholders' interests as its operating objective, seizing the opportunities and overcoming the difficulties. Accordingly, the management and all the staff of the Company will make joint efforts to ensure the achievement of the annual targets in terms of generation and operation as well as other aspects, and to bring stable and growth return to all of its shareholders.

Huaneng Power International, Inc. develops, constructs, operates and manages large thermal power plants in China nationwide, with a total generation capacity of 14,915MW on an equity basis. The Company wholly owns 13 power plants, and has controlling interests in three power plants and minority interests in three power companies. Today, it is one of the largest independent power producers in China.

~ End ~
