PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS
April 30, 2009

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Synalloy Corporation (the "Company") of proxies to be voted at the Annual Shareholders' Meeting to be held at the Company's corporate office, 2155 West Croft Circle, Spartanburg, South Carolina, on Thursday, April 30, 2009, at 10:00 a.m. local time, and at all adjournment(s) thereof. On or about March 27, 2009, we will begin mailing these proxy materials to all shareholders of record as of the close of business on March 2, 2009.

Quorum. The presence, in person or by proxy, of a majority of the outstanding shares of Common Stock of the Company is necessary to constitute a quorum at the Annual Meeting. If a share is represented for any purpose at the annual meeting by the presence of the registered owner or a person holding a valid proxy for the registered owner, it is deemed to be present for purposes of establishing a quorum. Therefore, valid proxies which are marked "Abstain" or "Withhold" and shares that are not voted, including proxies submitted by brokers that are the record owners of shares (so-called "broker non-votes"), will be included in determining the number of votes present or represented at the annual meeting. If a quorum is not present or represented at the meeting, the shareholders entitled to vote who are present in person or represented by proxy have the power to adjourn the meeting from time to time. If the meeting is to be reconvened within 30 days, no notice of the reconvened meeting will be given other than an announcement at the adjourned meeting. If the meeting is to be adjourned for 30 days or more, notice of the reconvened meeting will be given as provided in the Bylaws. At any reconvened meeting at which a quorum is present or represented, any business may be transacted that might have been transacted at the meeting as originally noticed.

Voting Rights. The securities which can be voted at the Annual Meeting consist of Common Stock of the Company, \$1.00 par value per share. The record date for determining the holders of Common Stock who are entitled to notice of and to vote at the Annual Meeting is March 2, 2009. On March 2, 2009, the Company had outstanding 6,253,916 (excluding 1,746,084 shares held in treasury) shares of Common Stock. Each share of Common Stock is entitled to one vote on each matter to be voted on at the meeting, except that in the election of Directors shareholders have cumulative voting rights.

If a quorum is present at the Annual Meeting, Directors will be elected by a plurality of the votes cast by shares present in person or by proxy and entitled to vote at the meeting. "Plurality" means that, if there were more nominees than positions to be filled, the individuals who received the largest number of votes cast for directors would be elected. Votes that are withheld or shares that are not voted in the election of directors will have no effect on the outcome of election of directors. Each stockholder of Common Stock entitled to vote for the election of Directors has the right to cumulate his votes either (1) by giving to one candidate as many votes as equal the number of shares owned by such holder multiplied by the number of directors to be elected, or (2) by distributing his votes on the same principle among any number of candidates. Any stockholder who intends to cumulatively vote his shares must either (1) give written notice of such intention to the Secretary of the Company not less than forty-eight (48) hours before the time fixed for the Annual Meeting, or (2) announce his intention in such meeting before the voting for Directors commences. If a stockholder gives notice of his intention to cumulate his votes, all shareholders entitled to vote at the meeting will, without further notice, be entitled to cumulate their votes.

If a quorum is present, all other matters which may be considered and acted upon by the holders of Common Stock at the Annual Meeting will be approved if a majority of shares present and entitled to vote at the meeting cast their votes in favor of the proposals. Abstentions and broker non-votes will have the effect of a vote against such matters.

Cost of Solicitation. The entire cost of soliciting proxies will be borne by the Company. The Company may make arrangements with brokerage houses, nominees, fiduciaries and other custodians to send proxies and proxy material to beneficial owners of the Company's stock and may reimburse them for their expenses in so doing. Proxies may be solicited personally or by telephone, other electronic means or mail by directors, officers and regular employees of the Company without additional compensation for such services. Synalloy has engaged the services of W. F. Doring & Company, a firm specializing in proxy solicitation, to solicit proxies and to assist in the distribution and collection of proxy material for a fee estimated at approximately \$2,500 plus reimbursement of out-of-pocket expenses.

Information about Voting. Shareholders of record can vote in person at the Annual Meeting or by proxy. Shareholders of record may vote their proxy by mail or by internet following the instructions on the proxy card. If your shares are held in the name of a bank, broker or other nominee, you will receive instructions from the nominee that you must follow in order for your shares to be voted. If your shares are not registered in your own name and you wish to vote your shares in person at the Annual Meeting, you should contact your broker or agent to obtain a broker's proxy card and bring it to the Annual Meeting in order to vote. If you hold shares in the Synalloy Corporation 401(k)/Employee Stock Ownership Plan, your proxy for these shares must be received by 5:00 p.m., local time, on April 21, 2009 to allow sufficient time for voting by the trustees and administrators of the plan.

Voting by Proxy. In voting by proxy with regard to the election of directors, shareholders may vote in favor of all nominees, withhold their votes as to all nominees or withhold their votes as to specific nominees. Shareholders should specify their choices on the accompanying proxy card. All properly executed proxy cards delivered by shareholders to the Company and not revoked will be voted at the Annual Meeting in accordance with the directions given. If no specific instructions are given with regard to the matters to be voted upon, the shares represented by a signed proxy card will be voted "FOR" the election of the persons named in this Proxy Statement as the Board of Directors' nominees for the election to the Board of Directors. If any other matters properly come before the Annual Meeting, the persons named as proxies will vote upon such matters according to their judgment.

Revocability of Proxy. Any record stockholder delivering a proxy has the power to revoke it at any time before it is voted by giving written notice to the Secretary of the Company at Post Office Box 5627, Spartanburg, South Carolina 29304; by delivering a valid proxy bearing a later date to the Company's offices at 2155 West Croft Circle, Spartanburg, South Carolina; or by attending the meeting and voting in person. Written notice of revocation of a proxy or delivery of a later dated proxy will be effective upon receipt by the Company. Attendance at the annual meeting will not in itself constitute revocation of a proxy. Shareholders who hold their shares in street name with a broker or other nominee may change or revoke their proxy instructions by submitting new voting instructions to the broker or other nominee.

Householding. The Securities and Exchange Commission's rules permit us to deliver a single proxy statement and annual report to one address shared by two or more of our shareholders. This delivery method is referred to as "householding" and can result in significant cost savings for us. In order to take advantage of this opportunity, we have delivered only one proxy statement and annual report to multiple shareholders who share an address, unless we received contrary instructions from impacted shareholders prior to the mailing date. If you prefer to receive separate copies of a proxy statement or annual report, either now or in the future, please call us at 864-585-3605, or send your request in writing to the following address: Secretary of Synalloy Corporation, Post Office Box 5627, Spartanburg, SC 29304. If you are still receiving multiple reports and proxy statements for shareholders who share an address and would prefer to receive a single copy of the annual report and proxy statement in the future, please call or write to use at the above address or telephone number.

Related Party Transactions. The Company requires that each executive officer, director and director nominee complete an annual questionnaire and report all transactions with the Company in which such persons (or their immediate family members) had or will have a direct or indirect material interest (except for salaries, directors' fees and dividends on our stock). Management reviews responses to the questionnaires and, if any such transactions are disclosed, they are reviewed by Board of Directors. The Company does not, however, have a formal written policy setting out these procedures. There were no such transactions during the year ended January 3, 2009.

CORPORATE GOVERNANCE

Director Qualifications and Nomination Process.

In recommending and evaluating candidates, the Nominating/Corporate Governance Committee takes into consideration such factors as it deems appropriate based on the Company's current needs. These factors may include diversity, age, skills such as understanding of appropriate technologies and general finance, decision-making ability, inter-personal skills, experience with businesses and other organizations of comparable size, and the interrelationship between the candidate's experience and business background and other Board members' experience and business background. Additionally, candidates for director should possess the highest personal and professional ethics, and they should be committed to the long-term interests of the shareholders.

The Nominating/Corporate Governance Committee does not have any specific process for identifying director candidates. Such candidates are routinely identified through personal and business relationships and contacts of the directors and executive officers.

The Nominating/Corporate Governance Committee will consider as potential Board of Directors' nominees persons recommended by shareholders if the following requirements are met. If a shareholder wishes to recommend a director candidate to the Nominating/Corporate Governance Committee for consideration as a Board of Directors' nominee, the shareholder must submit in writing to the Nominating/Corporate Governance Committee the recommended candidate's name, a brief resume setting forth the recommended candidate's business and educational background and qualifications for service, the number of the Company's shares beneficially owned by the person, and a notarized consent signed by the recommended candidate stating the recommended candidate's willingness to be nominated and to serve. Additionally, the recommending shareholder must provide his or her name and address and the number of the Company's shares beneficially owned by such person. This information must be delivered to the Secretary of the Company at Post Office Box 5627, Spartanburg, South Carolina 29304 or Croft Industrial Park, Spartanburg, South Carolina 29302, for transmission to the Nominating/Corporate Governance Committee, and must be received not less than 90 days nor more than 120 days prior to the Annual Meeting of Shareholders. The Committee may request further information if it determines a potential candidate may be an appropriate nominee. Director candidates recommended by shareholders that comply with these requirements will receive the same consideration that the Committee's candidates receive. The Nominating/Corporate Governance Committee routinely meets at the regular quarterly meeting of the Board of Directors next preceding the Annual Meeting.

Nominations for election as Directors may also be made by shareholders from the floor at the Annual Meeting of Shareholders provided such nominations are received by the Company not less than 30 nor more than 60 days prior to the Annual Meeting, contain the information set forth above, and otherwise are made in accordance with the procedures set forth in the Company's Bylaws.

COMPENSATION DISCUSSION AND ANALYSIS

Objectives of the Company's Compensation Program. The Company's compensation policies are intended to induce senior managers, including executive officers, to maximize value for shareholders over the long term. There are three

components of each compensation package: base salary, short-term cash incentive compensation and long-term incentive compensation. Together, the three elements of compensation for named executives are intended to attract, retain and give incentives to those individuals to the ultimate benefit of the Company and its shareholders. Synalloy Corporation has chosen the elements of executive compensation to address different considerations as

Table of Contents

further described below. Taken together, they fit the Company's business model to achieve its long-term goals. Each element addresses different considerations, and without one or more of the elements, our long-term goals might not be achievable.

Given the fact that our manufacturing businesses have, in the past, been cyclical, the Company has attempted to attract and retain the best available talent at the low end of the industry base compensation scale. It is important for the Company to remain competitive with not only its domestic competition, but also its competitors participating in world markets. Therefore, the Company attempts at all levels of management and operations to control costs so that the Company can strive for a relatively low base cost structure. This provides a cushion for the Company in times of reduced profitability.

However, in order to remain competitive in the executive workforce marketplace and attract the talented executives the Company needs, notwithstanding the lower relative base compensation, the Company believes it is necessary to provide enhancement to base compensation when targeted levels of profitability are achieved. Accordingly, the Company maintains short- and long-term incentive compensation programs that tend to be somewhat more generous than those of some of its industry peers.

The three elements of executive compensation are more fully described below, as are the methods used in determining their values.

Base Compensation. The Committee determines base salaries by considering market forces in the area, and in the industry applicable to each business unit. For the reasons discussed above, base salaries are set toward the low end of a range defined by our peers of comparable size and in related industries.

In addition to peer group information, the Company considers the attributes of each individual executive, including but not limited to his or her longevity with the Company, his or her educational background and experience, the particular responsibilities of his or her position, the compensation of others with similar background, credentials and responsibilities, and his or her past level of performance, as well as prospective assumptions.

Short-Term Incentive Compensation. As discussed above, in order for the lower relative base compensation approach to be effective, the Company maintains a cash incentive program which tends to be somewhat more generous than that of our peers when profits are robust, and pays the employees nothing unless minimum returns on average shareholders' equity are achieved. The cash incentive program compensates each manager eligible for such incentive compensation pursuant to a formula based upon returns on average equity in his business unit during the year. The intention is to make every senior manager's cash compensation dependent upon measurable objective performance criteria. Subsidiary senior managers participate in profit sharing pools determined by the performance of their business units, while the Chief Executive Officer's incentive compensation is based on consolidated profitability.

The formula employed with respect to the cash incentive program is to award an incentive pool to each business unit in an amount equal to 10% of operating income in excess of a threshold of 10% return on average shareholders' equity employed in the business units. A minimum of 60% of the incentive will be paid to designated participants pro rata to their salaries. A maximum of 30% of the incentive pool may be distributed to employees who are not designated participants and a minimum of 10% and a maximum of 40% of the incentive pool may be paid to designated participants in any proportion as recommended by the Chief Executive Officer and approved by the Compensation & Long-Term Incentive Committee. Other senior managers at the Company's headquarters, including the Chief Financial Officer, the Corporate Secretary and other senior executives, receive cash bonuses based upon their individual performance as determined by the Chief Executive Officer and the Compensation Committee & Long-Term Incentive Committee. In the past, cash bonuses have varied from a small percentage of the amount of cash bonuses allocated to the operating business units, to as much as 20% of that amount, depending upon specific

circumstances. There is no maximum or minimum amount currently established for these individuals, but there has been an indirect linkage between the size of the cash bonus pool, and the amounts allocated to these individuals. The Chief Executive Officer's cash bonus is specified in his employment contract, which extends through December 31, 2009 and is automatically extended for an additional year unless either party gives 90 days

Table of Contents

advance notice of intention to cancel the agreement. The employment contract provides a cash bonus equal to 5% of operating income before income taxes in excess of an amount equal to 10% of average stockholders' equity.

Long-Term Incentive Compensation. The Company also provides to senior managers a long-term incentive component to compensation. In 2004 and prior years, this component took the form of stock options pursuant to incentive stock option plans adopted in 1988 and 1998. For 2005 and future years, the Compensation & Long-Term Incentive Committee of the Board of Directors has recommended, and shareholders approved, awarding incentives through grants of restricted stock under the 2005 Stock Awards Plan. Grants of restricted shares instead of options are expected to benefit the Company in that such grants avoid the complicating issues of accounting for the cost of option grants and reduce the potential dilution to existing shareholders, while exposing the grantees to both the positive and negative aspects of changes in market price of the Company's common stock over time. Grants of restricted stock augment the cash component of compensation in a number of ways. The grants vest in 20% increments over a period of five years from the date of grant as long as the employee remains employed by the Company. Over time, the program provides an incentive for the executive to remain with the Company in the long term, as vesting depends upon continued employment. Goals are prospective, and the executives are made aware, annually, of the Company's long-term values and expectations. Cash compensation is necessarily focused in the near term. Long-term incentive compensation is focused largely on the future.

In allocating between cash and equity compensation, the Compensation & Long-Term Incentive Committee has taken into account the fact that the costs of stock grants under the Plan are a tax deductible expense to the Company measured on the date of vesting, whereas cash compensation is a direct expense to the Company in the time frame dictated by applicable accounting rules.

The granting of awards under the 2005 Stock Awards Plan begins with a determination by the Chief Executive Officer and the Compensation & Long-Term Incentive Committee of the dollar value of the stock available to be awarded for performance in a given year. The awards are made the following year and the total number of restricted shares available to be awarded is determined by dividing the previously determined dollar value of available stock by the average of the high and low sales prices on the trading day immediately prior to the determination date. The number of shares so determined is the maximum number that may be awarded to all participants for the prior year's performance.

The Chief Executive Officer and the Compensation & Long-Term Incentive Committee also agree at the beginning of the performance year upon specific milestones, largely comprised of measurable business metrics which can be impacted by management. These goals are established and communicated to managers in February or March of each year. The Committee reviews progress towards the goals during the performance year and evaluates performance after the end of the year. Based on its evaluation, the Committee awards restricted shares to the participants as it deems appropriate.

The Committee has and uses its discretion to determine the number of shares awarded to each named executive officer. The Committee does not use multiple levels of performance which are tied to multiple levels of awards. Rather, it subjectively evaluates the extent to which an executive officer has achieved or made progress toward achieving the officer's goals after considering the available data and it then uses its collective judgment to make awards it believes to be appropriate to the level of performance.

Corporate goals for 2008 included both financial and operating targets. Financial targets included, among others, revenue and profit growth, return on invested capital, and cost control. Operating targets included, among others, customer relationship issues, product quality and plant process efficiency.

No restricted stock grants were made in 2005. A total of 22,510 stock grants were made in February 2007 against a potential grant of 45,000 shares for 2006 plan participants' performance. Goals for 2007 were established and communicated to plan participants early in 2007. Based on the Company's achieving its goals and executive officers achieving their individual goals in 2007, a total of 11,480 stock grants were made against a potential grant of 24,465 shares at the Committee's meeting in February 2008. Likewise, goals were established in 2008 and quarterly reports on progress toward goals were produced by each business unit and senior management, and communicated to the

Table of Contents

Committee for review. In February 2009, the Committee evaluated each business unit and senior management with respect to 2008 performance versus goals. As a result of this evaluation process, the Committee declared an award of 5,500 restricted shares to plan participants against a potential grant of 76,628 shares. The awards for 2008 were smaller than in previous years due to the level of achievement being lower, relative to goals.

The Committee has deferred setting a value of stock awards for 2009 pending revision of the criteria for awards to senior management. The Committee's goal is to apply certain common goals across all levels of senior management, in addition to specific goals within their area of responsibility, as in the past. The size of the grant pool may rise or fall over time, depending on the long-term performance of the Company. The Committee's focus in setting this element of compensation is to achieve an appropriate balance among the three elements of executive compensation. Awards are granted in February so that the Committee has time to evaluate prior year goals against performance, and also to enable the participants to have the earliest possible awareness of what their goals are for the ensuing year. The Company does not employ a "claw back" or similar technique to reduce existing awards if performance falters in future years; instead, the goals are intended to induce continued improvement, and grading is rigorous. The entire system is intended to induce consistent and improving performance over time.

Other Matters. Executive officers make recommendations with respect to salaries of their subordinates. The Compensation & Long-Term Incentive Committee sets the salaries of the Chief Executive Officer, Chief Financial Officer, Corporate Secretary and the head of each business unit.

The Committee reviews all forms of executive compensation annually, and, based on its experience with this system, believes that is fair to the employees, and the Company, over time. The Committee also believes that the system provides motivation for employees to maximize shareholder value over the long term.

The process outlined above describes the mechanics of determining executive compensation at the Company in 2008. The Committee contemplates no major changes in the process for 2009.

DIRECTOR COMPENSATION

Non-employee directors are paid an annual retainer of \$35,000, and each director has the opportunity to elect to receive \$15,000 of the retainer in restricted stock. For 2008 and 2009, each director elected to receive \$15,000 of the annual retainer in restricted stock. The number of restricted shares issued is determined by the average of the high and low stock price on the day prior to the Annual Meeting of Shareholders. In 2008 each non-employee director received 959 shares of restricted stock (an aggregate of 4,795 shares). The shares granted to the directors are not registered under the Securities Act of 1933 and are subject to forfeiture in whole or in part upon the occurrence of certain events. In addition, directors are compensated \$1,500 for each board meeting attended in person; \$1,000 for each telephone Board meeting; and \$1,000 for attendance at committee meetings not held on Board meeting days. The Chairman of the Board and the Audit Committee Chair receive additional annual compensation of \$5,000 each; and the Compensation & Long-Term Incentive Committee Chair receives annual compensation of \$2,500. Directors are reimbursed for travel and other expenses related to attendance at meetings. Directors who are employees are not paid extra compensation for service on the Board or any committee of the Board.

The following table sets forth information about compensation paid by the Company to non-employee directors for the year ended January 3, 2009.

Employment Contract

The Company has a written employment agreement with Mr. Braam, which was effective January 1, 2006, pursuant to his appointment as Chief Executive Officer. The agreement provides for an annual salary of \$200,000. In addition, he is entitled to "bonus-compensation" equal to 5% of operating income before income taxes (as further defined in the agreement) in excess of an amount equal to 10% of average stockholders' equity. The agreement also provides certain fringe benefits and contains provisions for salary continuation benefits in the event of Mr. Braam's disability or death under specified conditions as described in the next paragraph, during the term of his employment with the Company. The agreement was for an initial term of one year, which is automatically extended for an additional year on each anniversary unless either party gives 90 days advance notice of intention to cancel the agreement.

The agreement also provides that Mr. Braam will be entitled to participate in all employee benefit plans in accordance with the terms of those plans. In the event of Mr. Braam's permanent disability or death while employed by the Company, he will be entitled to a payment equal to his current base salary at the date of death or disability until the next anniversary date of the agreement, which shall in no event be less than three months, together with his bonus compensation for that fiscal year prorated to the date of termination of his employment as a result of permanent disability or death. If Mr. Braam's employment with the Company had terminated on January 3, 2009, as a result of his permanent disability or death, he would have been entitled to a payment of \$50,000 with respect to his base salary and \$165,873 with respect to his short-term cash incentive compensation. The agreement contains Mr. Braam's covenant not to engage, directly or indirectly, in competition with the Company with respect to the businesses in which it is engaged on the date his employment is terminated for a period of one year after termination of his employment. Mr. Braam also agrees not to disclose, at any time during his employment with the Company or thereafter, any of the Company's confidential information.

EQUITY PLANS

Stock Option Plans

The Company has two stock option plans. Both plans were approved by shareholders and the 1998 Plan is an incentive stock option plan. Both plans had ten year terms and have terminated, and no further grants may be made under either plan. The Company did not grant any options during 2008, 2007 or 2006. Under the 1998 Plan covering officers and key employees, options were exercisable beginning one year after date of grant at a rate of 20% annually on a cumulative basis, and unexercised options expire ten years from the grant date. Under the 1994 Non-Employee Directors' Plan, options were exercisable at the date of grant. Currently, there are options outstanding under the both plans. The grant period for the 1994 Plan expired in April 2004, but options may be exercised under the 1994 Plan until April 2012. The grant period for the 1998 Plan expired April 30, 2008, but options may be exercised under this Plan until February 2015. The exercise price for options granted under these plans is 100% of the fair market value of the Company's Common Stock on the date the option was granted. Certain restrictions exist as to the time in which options can be exercised. In the event that (a) all or substantially all of the assets or Common Stock of the Company (or a subsidiary or division of the Company in which the option holder is employed) are/is sold to an entity not affiliated with the Company, or (b) a merger or share exchange with an unaffiliated party occurs in which the Company is not the surviving entity, an option holder may exercise, in addition to the above, 50% of the options not otherwise exercisable because of the vesting period requirement, subject to certain limitations. If one of the events described in (a) or (b) above had occurred as of January 3, 2009, half of the options shown in the 'Number of Securities Underlying Unexercised Options (#) Unexercisable' column of the Outstanding Equity Awards at Fiscal Year End 2008 table would have vested immediately.

Incentive stock options are not transferable other than by death and can only be exercised during the employee's lifetime by the employee. Under the 1994 Plan, in the event a person ceases to be a non-employee director for reasons

other than death, the unexpired options must be exercised by the earlier of three years after termination of

Table of Contents

Board service not to exceed 10 years after date of grant. On December 20, 2005, the Board of Directors elected to accelerate vesting of 44,144 outstanding unvested stock options under the 1998 Stock Option Plan. At March 2, 2009, there were 128,243 options outstanding under both plans of which 98,789 were exercisable.

Stock Awards Plan

The 2005 Stock Awards Plan, approved by shareholders at the April 28, 2005 Annual Meeting, and amended by the Board of Directors effective at its February 2008 meeting, authorizes issuance of up to 300,000 shares which may be awarded for a period of ten years from the effective date of the plan. Stock awards will vest in 20% increments annually on a cumulative basis, beginning one year after the date of grant. In order for the awards to vest, the employee must be in the continuous employment of the Company or a subsidiary since the date of the award. Any portion of an award that has not vested will be forfeited upon termination of employment. The Company may also terminate any portion of an award that has not vested upon an employee's failure to comply with all conditions of the award or the plan. Vesting of up to 50% of awards will automatically accelerate in the event of (i) a sale of all or substantially all of the assets of the Company (or a subsidiary or division of the Company in which the employee is employed) to an entity not affiliated with the Company, (ii) a merger or share exchange with an unaffiliated party in which the Company is not the surviving entity, or (iii) a similar sale or exchange transaction that, in the Committee's sole discretion, justifies such vesting. If one of the events described in (i), (ii) or (iii) above had occurred as of January 3, 2009, half of the restricted shares shown in the "Number of Shares or Units that have not Vested" column of the Outstanding Equity Awards at Fiscal Year Ended 2008 table would have vested immediately.

Shares representing awards that have not yet vested will be held in escrow by the Company and an employee will not be entitled to any voting rights with respect to any such shares. Share awards that have not vested will not be transferable.

The Board of Directors implemented an equity-based incentive compensation program pursuant to which it reserved 45,000 shares under the 2005 Stock Awards Plan for potential grant in 2007 to officers, including the named executive officers in the Summary Compensation Table, and certain key employees if they achieved pre-determined quantifiable and qualitative goals during 2006. As explained in connection with the Grants of Plan-Based Awards table, on February 12, 2007 a total of 22,510 restricted shares were awarded under this incentive program, of which 11,510 were awarded to the named executive officers, based on meeting pre-disclosed 2006 goals. Of these restricted share awards, 4,136 shares vested on February 12, 2008.

At its February 2007 meeting, the Compensation & Long-Term Incentive Committee set a number of shares with a market value on the date of grant of \$400,000 under the Plan to ultimately be denominated in restricted shares for potential grants to officers and managers for 2007, including the named executive officers in the compensation table, subject to achieving pre-determined quantifiable and qualitative goals during 2007. On February 12, 2008, the Committee granted 11,480 restricted shares, of which 6,735 were awarded to the named executive officers, based on their achieving these goals in 2007.

At its February 2008 meeting, the Compensation & Long-Term Incentive Committee again set a number of shares with a market value on the date of grant of \$400,000 under the Plan to ultimately be denominated in restricted shares for potential grants to officers and managers for 2008, including the named executive officers in the compensation table, subject to achieving pre-determined quantifiable and qualitative goals during 2008. As explained in connection with the Grants of Plan-Based Awards table, on February 12, 2009, a total of 5,500 shares were awarded under this incentive program, of which 3,500 were awarded to the named executive officers, based on meeting the pre-disclosed 2008 goals.

RETIREMENT PLANS

Salary Continuation Agreements

Mr. Braam had a salary continuation agreement with the Company whereby, if he continued employment until his retirement in 2010, he would have received the cash value proceeds of an insurance policy. In April 2007, the agreement was amended and ownership of the life insurance policy was assigned to Mr. Braam. As a result, Mr. Braam will receive no compensation at retirement from the Company under this agreement and the Company is relieved from any obligations with respect to, and has renounced, any right to benefits under the policy.

401(k)/ESOP Plan

The Company sponsors a 401(k)/Employee Stock Ownership Plan (the "Plan"). All employees (except those employees who are entitled to participate in Union-sponsored plans) who are 21 years or older will be automatically enrolled at a pre-determined percentage following 60 days of full-time employment with the Company. Employees may choose to opt out or elect to change the default deferral rate. Employees are eligible to receive a matching contribution on the month following their one-year anniversary.

Employees are permitted to contribute up to 100% of earnings not to exceed a dollar amount set by the Internal Revenue Service on a pretax basis through payroll deduction. Employees are permitted to change the election daily and can revoke the election at any time. Employee contributions are 100% vested at all times. The employee can invest his deferred contribution in any of the investment funds offered; however, employee contributions cannot be invested in Company stock.

Contributions by the Company are made primarily in Company Stock. For each plan year, the Company contributes on behalf of each participant who is eligible to share in matching contributions for the plan year, a discretionary matching contribution equal to a percentage which is determined each year by the Board of Directors subject to a maximum of 4% in 2008 and 2009. The matching contribution is allocated within 15 days of each pay period. In addition to the matching contribution, the Company may make a discretionary contribution which shall be distributed to all eligible participants regardless of whether they contribute to the Plan. No discretionary contributions have been made to the Plan.

Distributions are not permitted before age 59 1/2 except in the event of death, disability, termination of employment or reason of proven financial hardship as defined according to IRS guidelines. The Plan provides for payment of the participant's account balance upon death, disability or retirement in the form of cash or Company stock or both. If employment terminates for reasons other than retirement, disability or death (e.g. resignation or termination by the Company), the discretionary portion of a participant's account balance will vest as follows: less than three years service - 0% vested; three or more years - 100% vested.

Unvested amounts are forfeited and allocated to participants eligible to participate for a plan year. The Plan permits rollovers from qualified plans at the discretion of the Company. The ESOP is permitted to borrow money to purchase Company stock. All Company stock acquired by the Plan with the proceeds of a loan is maintained in a suspense account and is withdrawn and allocated to participant's accounts as the loan is paid. While a participant in the Plan, an employee may direct the trustee to vote shares allocated to his or her account in accordance with employees' wishes.

All Plan assets are held by an independent trustee. The trustee invests all assets and makes payment of Plan benefits. The Plan is managed and administered by an independent administrator and a Pension Committee comprised of the corporate officers of the Company. Expenses incurred for the administration of the Plan are paid by the Company. The Plan reserves to the Board of Directors of the Company the right to amend the Plan in any manner or terminate the

Plan at any time. The Plan may be amended to preserve the qualification of the Plan under the applicable provisions of the Internal Revenue Code, as amended from time to time. For 2008, the Company's total matching contribution was \$341,000.
