Proposal 2 Ratification of Independent Registered Public Accountants for 2005

As in prior years, shareholders are being asked to ratify PricewaterhouseCoopers LLP as our independent registered public accountants for the year ended December 31, 2005.

The board of directors recommends that you vote "**FOR**" this proposal.

VOTING INFORMATION**What is the record date for the meeting?**

The close of business on March 24, 2005 is the record date for the determination of shareholders entitled to notice of, and to vote at, the annual meeting or any adjournments thereof.

What shares of stock entitle holders to vote at the meeting?

We have the following classes of stock outstanding, each of which entitles holders to vote at the meeting:

Common Shares;

Series A Common Shares; and

Preferred Shares.

The Common Shares are listed on the American Stock Exchange under the symbol "TDS."

No public market exists for the Series A Common Shares, but the Series A Common Shares are convertible on a share-for-share basis into Common Shares.

No public market exists for the Preferred Shares. The Preferred Shares are divided into series, one of which is convertible into Common Shares. All holders of Preferred Shares vote together with the holders of Common Shares and Series A Common Shares, except in the election of directors. In the election of directors, all outstanding Preferred Shares vote together with the holders of Series A Common Shares.

What is the voting power of the outstanding shares in the election of directors?

The following shows certain information relating to the outstanding shares and voting power of such shares in the election of directors as of the record date:

Class of Stock	Outstanding Shares	Votes per Share	Voting Power	Total Number of Directors Elected by Voting Group and Standing for Election
Series A Common Shares	6,425,099	10	64,250,990	
Preferred Shares	38,645	1	38,645	
Subtotal			64,289,635	8
Common Shares	51,125,216	1	51,125,216	4
Total Directors				12

What is the voting power of the outstanding shares in matters other than the election of directors?

How may shareholders vote with respect to the election of directors in Proposal 1?

Shareholders may, with respect to directors to be elected by such shareholders:

vote FOR the election of such director nominees; or

WITHHOLD authority to vote for such director nominees.

Our board of directors recommends a vote **FOR** its nominees for election as directors.

How may shareholders vote with respect to the ratification of independent registered public accountants for 2005 in Proposal 2?

Shareholders may, with respect to the proposal to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accountants for 2005:

vote FOR,

vote AGAINST, or

ABSTAIN from voting on this proposal.

Your board of directors recommends a vote **FOR** this proposal.

How does the TDS Voting Trust intend to vote?

The Voting Trust under Agreement dated June 30, 1989, as amended (the "TDS Voting Trust"), holds 6,064,150 Series A Common Shares on the record date, representing approximately 94.4% of the Series A Common Shares. By reason of such holding, the TDS Voting Trust has the voting power to elect all of the directors to be elected by the holders of Series A Common Shares and Preferred Shares and has approximately 52.5% of the voting power with respect to matters other than the election of directors.

The TDS Voting Trust has advised us that it intends to vote:

FOR the board of directors' nominees for election by the holders of Series A Common Shares and Preferred Shares, and

FOR the proposal to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accountants for 2005.

The TDS Voting Trust does not currently own Common Shares and therefore does not have any votes with respect to directors to be elected by the holders of Common Shares.

How do I vote?

Proxies are being requested from the holders of Common Shares in connection with the election of four directors and the ratification of independent registered public accountants.

Proxies are being requested from the holders of Series A Common Shares and Preferred Shares in connection with the election of eight directors and the ratification of independent registered public accountants.

Whether or not you intend to be present at the meeting, please sign and mail your proxy in the enclosed self-addressed envelope to Computershare Investor Services, 2 North LaSalle Street, Chicago, Illinois 60602 or vote on the Internet in accordance with the instructions set forth on the proxy card. If you hold more than one class of our shares, you will find enclosed a separate proxy card for each holding. To assure

Edgar Filing: TELEPHONE & DATA SYSTEMS INC /DE/ - Form DEF 14A

that all your shares are represented, please vote on the Internet or return the enclosed proxy cards as follows:

a white proxy card for Common Shares, including Common Shares owned through the TDS dividend reinvestment plan and through the TDS tax-deferred savings plan;

a green proxy card for Series A Common Shares, including Series A Common Shares owned through the dividend reinvestment plan; and

a tan proxy card for Preferred Shares.

How will proxies be voted?

All properly executed and unrevoked proxies received in the accompanying form in time for our 2005 annual meeting of shareholders will be voted in the manner directed on the proxies.

If no direction is made, a proxy by any shareholder will be voted FOR the election of the board of directors' nominees to serve as directors and FOR the proposal to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accountants for 2005.

Proxies given pursuant to this solicitation may be revoked at any time prior to the voting of the shares at the annual meeting by written notice to the Secretary of TDS, by submitting a later dated proxy or by attendance and voting in person at the annual meeting.

What constitutes a quorum for the meeting?

In the election of directors, where a separate vote by a class or classes is required with respect to a director, the holders of a majority of the votes of the stock of such class or classes issued and outstanding and entitled to vote with respect to such director, present in person or represented by proxy, will constitute a quorum with respect to such election. Withheld votes will be treated as present in person or represented by proxy in connection with such proposal and broker "non-votes" with respect to such proposal will not be treated as present in person or represented by proxy with respect to such proposal. If an authorized representative of the TDS Voting Trust is present in person or represented by proxy at the annual meeting, the TDS Voting Trust will by itself constitute a quorum at the annual meeting in connection with the election of directors by the holders of Series A Common Shares and Preferred Shares.

With respect to the proposal to ratify accountants, the holders of a majority of the votes of the stock issued and outstanding and entitled to vote with respect to such proposal, present in person or represented by proxy, will constitute a quorum at the annual meeting in connection with such proposal. Abstentions will be treated as present in person or represented by proxy in connection with such proposals and broker "non-votes" with respect to such proposal will not be treated as present in person or represented by proxy with respect to such proposal. If an authorized representative of the TDS Voting Trust is present in person or represented by proxy at the annual meeting, the TDS Voting Trust will by itself constitute a quorum at the annual meeting in connection with such proposal.

What vote is required to elect directors in Proposal 1?

The election of each director requires the affirmative vote of holders of a plurality of the votes of the shares present in person or represented by proxy and entitled to vote with respect to such director at the annual meeting.

Accordingly, if a quorum exists, each person receiving a plurality of the votes of the shareholders entitled to vote with respect to the election of such director will be elected to serve as a director. Withheld votes and non-votes with respect to the election of such directors will not affect the outcome of the election of such directors.

What vote is required with respect to Proposal 2?

The holders of Common Shares, Preferred Shares and Series A Common Shares will vote together as a single group with respect to Proposal 2. Each holder of outstanding Common Shares or Preferred Shares is entitled to one vote for each Common Share or Preferred Share held in such holder's name. Each holder of Series A Common Shares is entitled to ten votes for each Series A Common Share held in such holder's name.

If a quorum is present at the annual meeting, the approval of Proposal 2 will require the affirmative vote of a majority of the voting power of the Common Shares, Preferred Shares and Series A Common Shares voting together as a single group and present in person or represented by proxy and entitled to vote on such matter at the annual meeting. Abstentions from voting on such proposal will be treated as a vote against such proposal. Broker non-votes with respect to such proposal will not be counted as shares present and entitled to vote on such proposal and, accordingly, will not affect the determination of whether such proposal is approved.

Special Common Share Proposal

On February 17, 2005, the TDS Board of Directors (the "TDS Board") unanimously approved a proposal (the "Special Common Share Proposal"), to be submitted to TDS shareholders at a special meeting of shareholders of TDS scheduled for April 11, 2005, to approve an amendment (the "Amendment") to the Restated Certificate of Incorporation of TDS to increase the authorized number of Special Common Shares of TDS from 20,000,000 to 165,000,000.

On February 17, 2005, the TDS Board also approved a distribution of one Special Common Share in the form of a stock dividend with respect to each outstanding Common Share and Series A Common Share of TDS (the "Distribution"), which is expected to be effective May 13, 2005 to shareholders of record on April 29, 2005, subject to the approval of the Special Common Share Proposal by shareholders, the effectiveness of the Amendment, and certain other conditions.

Following approval and effectiveness of the Special Common Share Proposal, at some time in the future TDS may possibly offer to issue Special Common Shares in exchange for all of the Common Shares of U.S. Cellular which are not owned by TDS (a "Possible U.S. Cellular Transaction"). TDS currently owns approximately 82% of the shares of common stock of U.S. Cellular. A Possible U.S. Cellular Transaction would cause U.S. Cellular to become a wholly-owned subsidiary of TDS.

TDS has no set time frame for taking action with respect to a Possible U.S. Cellular Transaction and TDS could choose to take action with respect to a Possible U.S. Cellular Transaction at any time, or not to take action with respect to a Possible U.S. Cellular Transaction, depending on the circumstances at the time.

Reference is made to the proxy statement of TDS dated March 14, 2005 for additional information relating to the foregoing, which is incorporated by reference herein.

Because there were no Special Common Shares outstanding on the record date for the 2005 annual meeting on March 24, 2005, there will be no Special Common Shares represented or entitled to vote at the 2005 annual meeting.

The description of a possible U.S. Cellular transaction is neither an offer to purchase nor a solicitation of an offer to sell any securities. Should TDS at some future date decide to take action relating to a possible U.S. Cellular transaction, TDS will file appropriate documents with the Securities and Exchange Commission with respect thereto. INVESTORS AND SECURITY HOLDERS ARE ADVISED TO READ THOSE DOCUMENTS IF AND WHEN THEY BECOME AVAILABLE, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION. Any such documents will be available at no charge at the Securities and Exchange Commission's web site at www.sec.gov and TDS's web site at www.teldta.com

The board of directors recommends a vote "FOR" each of the above nominees for election by the holders of Series A Common Shares and Preferred Shares.

The following additional information is provided in connection with the election of directors.

Meetings of Board of Directors

The board of directors held seven meetings during 2004. Each incumbent director attended at least 75 percent of the aggregate of the total number of meetings of the board of directors (held during 2004 for which such person has been a director) and the total number of meetings held by all committees of the board on which such person served (during the periods that such person served).

Long-Term Compensation Committee

The long-term compensation committee approves all compensation for the President and CEO, considers and approves long-term compensation for TDS executive officers and for the president of TDS Telecom, and reviews and recommends to the board of directors any long-term compensation programs for TDS employees. The current members of the long-term compensation committee are Herbert S. Wander (chairperson), Letitia G. Carlson, M.D. and George W. Off. All meetings of the long-term compensation committee in 2004 were attended by each member of the committee during the period that such person served. Certain actions were taken by unanimous written consent. A copy of the charter of the long-term compensation committee is available on TDS's web site, www.teldta.com, under Investor Relations Corporate Governance Board Committee Charters.

Compensation Committee

The primary function of the compensation committee is to develop and administer the near term compensation policies and programs for TDS officers and key subsidiary executives, other than the President and CEO of TDS, and to administer long-term compensation for non-executive officers of TDS. The sole member of the compensation committee is LeRoy T. Carlson, Jr., President and CEO of TDS. All actions of the compensation committee are taken by written consent. A copy of the charter of the compensation committee is available on TDS's web site, www.teldta.com, under Investor Relations Corporate Governance Board Committee Charters.

Audit Committee

The primary function of the audit committee is to assist the board of directors in fulfilling its oversight responsibilities with respect to the quality, integrity and annual independent audit of TDS's financial statements and other matters set forth in the charter for the audit committee, a copy of which is attached hereto as

Exhibit B. A copy of the charter is also available on TDS's web site, www.teldta.com under Investor Relations Corporate Governance Board Committee Charters.

The audit committee is currently composed of four members who are not officers or employees of TDS or any parent or subsidiary of TDS and do not have any other material relationship with TDS that would interfere with their exercise of independent judgment. The current members of the audit committee are George W. Off (chairperson), Donald C. Nebergall, Mitchell H. Saranow and Herbert S. Wander. The board of directors has determined that each of the members of the audit committee is "independent" and "financially sophisticated" as such terms are defined by the American Stock Exchange.

The board has made a determination that Mr. Saranow is an "audit committee financial expert" as such term is defined by the SEC.

In accordance with the SEC's safe harbor rule for "audit committee financial experts," no member designated as an audit committee financial expert shall (i) be deemed an "expert" for any other purpose or (ii) have any duty, obligation or liability that is greater than the duties, obligations and liability imposed beyond those imposed on a member of the board or the audit committee not so designated. Additionally, the designation of a member or members as an "audit committee financial expert" shall in no way affect the duties, obligations or liability of any member of the audit committee, or the board, not so designated.

The audit committee held sixteen meetings during 2004.

Corporate Governance Committee

The members of the corporate governance committee are Walter C.D. Carlson (chairperson), LeRoy T. Carlson, Jr. and Martin L. Solomon. The primary function of the corporate governance committee is to advise the board on corporate governance matters, including developing and recommending to the board a set of corporate governance guidelines for TDS. A copy of the charter and the corporate governance guidelines are available on TDS's web site, www.teldta.com, under Investor Relations Corporate Governance under "Board Committee Charters" for the charter and under "Corporate Governance Guidelines" for the guidelines.

American Stock Exchange Listing Standards

Because the TDS Common Shares are listed on the American Stock Exchange, TDS must comply with listing standards applicable to companies which have equity securities listed on the American Stock Exchange. TDS complies with such standards and has certified to this effect to the American Stock Exchange.

Under listing standards of the American Stock Exchange, TDS is a "controlled company" as such term is defined by the American Stock Exchange. TDS is a controlled company because over 50% of the voting power of TDS is held by the trustees of the TDS Voting Trust. Accordingly, it is exempt from certain listing standards that require listed companies that are not controlled companies to (i) have a board composed of a majority of directors that qualify as independent under the rules of the American Stock Exchange, (ii) have certain compensation approved by a compensation committee comprised solely of directors, or by a majority of directors, that qualify as independent under the rules of the American Stock Exchange, and (iii) have director nominations be made by a committee comprised solely of directors, or by a majority of directors, that qualify as independent under the rules of the American Stock Exchange.

As a controlled company, TDS is required to have three directors who qualify as independent to serve on the audit committee. The TDS audit committee has four members: George W. Off, Donald C. Nebergall, Herbert S. Wander and Mitchell H. Saranow. The TDS board of directors has determined that all four members of the TDS audit committee do not have any material relationship that would interfere with the exercise of independent judgement and qualify as independent under the listing standards of the American Stock Exchange, as well as the rules of the SEC. In addition, two of the other current directors and nominees for election as director do not have any material relationship with TDS other than in their capacities as directors of TDS and, accordingly, would qualify as independent directors under the listing standards of the American Stock Exchange. As a result, six of the twelve directors, or 50% of the directors, have been determined to qualify or would qualify as independent under the listing standards of the American Stock Exchange.

Director Nomination Process

TDS does not have a nominating committee and, accordingly, does not have a nominating committee charter. Under listing standards of the American Stock Exchange, TDS is exempt from the requirement to have a nominating committee because it is a controlled company as such term is defined by the American Stock Exchange. Instead, the entire board of directors participates in the consideration of director nominees. Similarly, since TDS is a controlled company, TDS also is exempt from the listing standard that requires director nominations to be made by a nominating committee comprised solely of independent directors or by a majority of independent directors.

The TDS board of directors does not have a formal policy with regard to the consideration of any director candidates recommended by shareholders. However, since the TDS Voting Trust has over 90% of the voting power in the election of directors elected by holders of Series A Common Shares and Preferred Shares, nominations of directors for election by the holders of Series A Common Shares and Preferred Shares is based on the recommendation of the trustees of the TDS Voting Trust. With respect to candidates for director to be elected by the Common Shares, the TDS board may from time to time informally consider candidates submitted by shareholders that hold a significant number of Common Shares. The TDS board has no formal procedures to be followed by shareholders in submitting recommendations of candidates for director.

The TDS board of directors does not have any specific, minimum qualifications that the board believes must be met by a nominee for a position on the TDS board of directors, or any specific qualities or skills that the board believes are necessary for one or more of the TDS directors to possess. The TDS board has consistently sought to nominate to the board of directors eminently qualified individuals whom the board believes would provide substantial benefit and guidance to TDS. The TDS board believes that substantial judgment, diligence and care are required to identify and select qualified persons as directors and does not believe that it would be appropriate to place limitations on its own discretion.

In general, the TDS board will nominate existing directors for re-election unless the board has a concern about the director's ability to perform his or her duties. In the event of a vacancy on the board of a director elected by the Series A Common Shares and Preferred Shares, nominations are based on the recommendation of the trustees of the TDS Voting Trust. In the event of a vacancy on the board of a Common Share director, TDS may use various sources to identify potential candidates, including an executive search firm. In addition, the President may consider recommendations by shareholders that hold a significant number of Common Shares. Potential candidates are initially screened by the President and by other persons as the President designates. Following this process, the President discusses with the Chairman of the Board whether one or more candidates should be considered by the full board of directors. If appropriate, information about the candidate is presented to and discussed by the full board of directors.

Each of the nominees approved by the TDS board for inclusion on TDS's proxy card for election at the 2005 annual meeting are executive officers and/or directors who are standing for re-election.

TDS has not paid a fee to any third party or parties to identify or evaluate or assist in identifying or evaluating potential nominees for election of directors at the 2005 annual meeting. However, from time to time, TDS may pay a fee to an executive search firm to identify potential candidates for election of directors.

Shareholder Communication with Directors

Security holders may send communications to the board of directors of TDS at any time. Any security holders can send communications to the board or to specified individual directors. Security holders should direct their communication to the board or to specified individual directors, in care of the Secretary of TDS at its corporate headquarters. Any security holder communications that are addressed to the board of directors or specified individual directors will be delivered by the Secretary of TDS to the board of directors or such specified individual directors. For more information, see the instructions on TDS's web site, www.teldta.com, under Investor Relations Corporate Governance Contacting the TDS Board of Directors.

TDS Policy on Attendance of Directors at Annual Meeting of Shareholders

All directors are invited and encouraged to attend the annual meeting of shareholders, which is followed by the annual meeting of the board of directors. In general, all directors attend the annual meeting of shareholders unless they are unable to do so due to unavoidable commitments or intervening events. Of the twelve directors, seven attended the 2004 annual meeting of shareholders.

Stock Ownership Guidelines

Under stock ownership guidelines for directors, each director is expected to own a minimum of 1,000 shares of common stock of TDS. In the event the value of the ownership interest of 1,000 shares falls below \$50,000, the board may increase the minimum investment level to ensure an investment equivalent to at least \$50,000. Directors have three years to comply with this requirement. The board will review the minimum ownership requirement periodically.

PROPOSAL 2
INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

We anticipate continuing the services of PricewaterhouseCoopers LLP as independent registered public accountants for the current fiscal year. Representatives of PricewaterhouseCoopers LLP, who served as independent registered public accountants for the last fiscal year, are expected to be present at the annual meeting of shareholders and will have the opportunity to make a statement and to respond to appropriate questions raised by shareholders at the annual meeting or submitted in writing prior thereto.

We are not required to obtain shareholder ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accountants by the Bylaws or otherwise. However, we have elected to seek such ratification by the affirmative vote of the holders of a majority of the votes cast by shares entitled to vote with respect to such matter at the annual meeting. Should the shareholders fail to ratify the selection of PricewaterhouseCoopers LLP as independent registered public accountants, the audit committee of the board of directors will review whether to retain such firm for the year ending December 31, 2005.

The board of directors recommends a vote "FOR" ratification of PricewaterhouseCoopers LLP as independent registered public accountants for the current fiscal year.

The audit committee determined that the payment of fees for non-audit related services does not conflict with maintaining PricewaterhouseCoopers LLP's independence.

PRE-APPROVAL PROCEDURES

The audit committee adopted a policy, effective May 6, 2003, as amended as of February 26, 2004, pursuant to which all audit and non-audit services must be pre-approved by the audit committee. The following describes the policy as amended. Under no circumstances may TDS's principal external accountant provide services that are prohibited by the Sarbanes-Oxley Act of 2002 or rules issued thereunder. Non-prohibited audit-related services and certain tax and other services may be provided to TDS, subject to such pre-approval process and prohibitions. The audit committee has delegated to the chairperson plus one other member of the audit committee the authority to pre-approve services by the independent registered public accountants and to report any such approvals to the full audit committee at each of its regularly scheduled meetings. In the event the chairperson is unavailable, pre-approval may be given by any two members of the audit committee. The pre-approval policy relates to all services provided by TDS's principal external auditor and does not include any *de minimis* exception.

AUDIT COMMITTEE REPORT

This report is submitted by the current members of the audit committee of the board of directors of TDS. The audit committee operates under a written charter adopted by the TDS board of directors, a copy of which is attached hereto as *Exhibit A*.

Management is responsible for TDS's internal controls and the financial reporting process. TDS has an internal audit staff, which performs testing of internal controls and the financial reporting process. The independent registered public accountants are responsible for performing an independent audit of TDS's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and issuing a report thereon. The audit committee's responsibility is to monitor and oversee these processes.

In this context, the audit committee held meetings with management, the internal audit staff and representatives of PricewaterhouseCoopers LLP, TDS's independent registered public accountants for 2004. In these meetings, the audit committee reviewed and discussed the audited financial statements as of and for the year ended December 31, 2004. Management represented to the audit committee that TDS's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the audit committee has reviewed and discussed the consolidated financial statements with management and representatives of PricewaterhouseCoopers LLP.

The discussions with PricewaterhouseCoopers LLP also included the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended, relating to information regarding the scope and results of the audit. The audit committee also received from PricewaterhouseCoopers LLP written disclosures and a letter regarding its independence as required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as amended, and this information was discussed with PricewaterhouseCoopers LLP.

Based on, and in reliance upon these reviews and discussions, the audit committee recommended to the board of directors that the audited financial statements as of and for the year ended December 31, 2004 be included in TDS's Annual Report on Form 10-K for the year ended December 31, 2004.

By the members of the audit committee of the board of directors of TDS:

George W. Off

Donald C. Nebergall

Mitchell H. Saranow

TDS Telecom Phantom Incentive Option Plan

James Barr III participated in the TDS Telecom phantom stock incentive plan (the "TDS Telecom Plan"). The TDS Telecom Plan was adopted by TDS Telecom in 1997 and related to the five-year period beginning on January 1, 1995 and ending on December 31, 1999. Under the TDS Telecom Plan, Mr. Barr was awarded certain phantom stock units in amounts determined by the Chairman of TDS Telecom. The award consisted of automatic awards and performance awards. The automatic awards vested in five equal annual installments beginning on December 15, 1995. The performance awards included a corporate performance award and an individual performance award. The performance awards vested on December 15 of the year following the performance year to which they relate. When vested, the phantom stock option units became exercisable at an exercise price determined in accordance with the terms of the plan. In 2002, Mr. Barr exercised options for an aggregate of 124,890 phantom stock units for 1998, 1999 and 2000. He received a net cash payment prior to withholding taxes, of \$2,450,422, which is equal to the difference between the exercise price and the implied value of the phantom stock units as provided in the TDS Telecom Plan. As a result of such exercise, Mr. Barr has exercised all options under the Plan.

Tax Deferred Savings Plan

The TDS tax deferred savings plan ("TDS Tax Deferred Savings Plan") is a qualified profit sharing plan under Sections 401(a) and 401(k) of the Internal Revenue Code, designed to provide retirement benefits for eligible employees of TDS and certain of its affiliates which adopted the TDS Tax Deferred Savings Plan. Participating employees have the option of investing their contributions and TDS's contributions in a TDS Common Share fund, a USM Common Share fund or certain unaffiliated mutual funds. TDS and participating employers make matching contributions to the plan in cash equal to 100% of an employee's contributions up to 2% and 40% of an employee's contributions up to 4% of such employee's compensation.

The amounts of the annual contributions for the benefit of the named executive officers under the TDS Tax Deferred Savings Plan are included above in the Summary Compensation Table under "All Other Compensation."

Pension Plans and Supplemental Benefit Agreements

The TDS employees' pension trust (the "TDS Target Pension Plan") was a defined contribution plan designed to provide retirement benefits for eligible employees of TDS and certain of its affiliates which adopted the TDS Target Pension Plan. Annual employer contributions based upon actuarial assumptions were made under a formula designed to fund a target pension benefit for each participant commencing generally upon the participant's attainment of retirement age.

U.S. Cellular previously had adopted the TDS wireless companies' pension plan (the "Wireless Pension Plan"). The Wireless Pension Plan, a qualified non-contributory defined contribution pension plan, provided pension benefits for employees of U.S. Cellular. Under the Wireless Pension Plan, pension contributions were calculated separately for each participant, based on a fixed percentage of the participant's qualifying compensation, and were funded currently.

Effective January 1, 2001, the TDS Target Pension Plan was merged with and into the Wireless Pension Plan and the new merged plan has been titled the TDS Pension Plan. All of the plan assets which had been held for the TDS Target Pension Plan and the Wireless Pension Plan were combined to be held on a consolidated basis for the new TDS Pension Plan, which will pay all benefits which previously accrued under both the TDS Target Pension Plan and the Wireless Pension Plan and all future pension plan accruals. All eligible participants who have been receiving target pension benefits under the TDS Target Pension Plan will continue to be eligible for target pension benefits under the TDS Pension Plan. Similarly, eligible participants who have been receiving a pension benefit contribution based on a fixed percentage of their qualifying compensation under the Wireless Pension Plan will continue to be eligible for such benefit under the TDS Pension Plan. All newly eligible employees of both TDS and U.S. Cellular and their affiliates will only be eligible for the pension benefit contribution based on a fixed percentage of qualifying compensation as previously provided under the Wireless Pension Plan.

Edgar Filing: TELEPHONE & DATA SYSTEMS INC /DE/ - Form DEF 14A

The amounts of the annual contributions for the benefit of the named executive officers under the TDS Target Pension Plan and/or the Wireless Pension Plan are included above in the Summary Compensation Table under "All Other Compensation."

The TDS supplemental executive retirement plan ("SERP") has provided supplemental benefits under the TDS Pension Plan and the Wireless Pension Plan and effective January 1, 2001, the new TDS Pension Plan. The SERP was established to offset the reduction of benefits caused by the limitation on annual employee compensation which can be considered for tax qualified pension plans under the Internal Revenue Code. The SERP is a non-qualified deferred compensation plan and is intended to be unfunded. The amounts of the accruals for the benefit of the named executive officers are included above in the Summary Compensation Table under "All Other Compensation."

In 1980, TDS entered into a non-qualified supplemental benefit agreement with LeRoy T. Carlson which, as amended, requires TDS to pay a supplemental retirement benefit to Mr. Carlson in the amount of \$47,567 plus interest at a rate equal to $\frac{1}{4}\%$ under the prime rate for the period from May 15, 1981 (the date of Mr. Carlson's 65th birthday) to May 31, 1992, in five annual installments beginning June 1, 2001, plus interest at $9\frac{1}{2}\%$ compounded semi-annually from June 1, 1992. The agreement was entered into because certain amendments made to the TDS Pension Plan in 1974 had the effect of reducing the amount of retirement benefits, which Mr. Carlson would receive under the TDS Pension Plan. The payments to be made under the agreement, together with the retirement benefits under the TDS Pension Plan, were designed to permit Mr. Carlson to receive approximately the same retirement benefits he would have received had the TDS Pension Plan not been amended. All the interest accrued under this agreement is included above in the Summary Compensation Table under "All Other Compensation" and identified in footnote 8 thereto as contributions under the TDS Pension Plan.

Deferred Compensation Agreements

James Barr III is party to an executive deferred compensation agreement, pursuant to which a specified percentage of his gross compensation is deferred and credited to a deferred compensation account. The deferred compensation account is credited with interest compounded monthly, computed at a rate equal to one-twelfth of the sum of the average thirty-year Treasury Bond rate plus 1.25 percentage points until the deferred compensation amount is paid to such person. The amount of compensation deferred by such person is included in and reported with all other non-deferred compensation in the "Summary Compensation Table." No amount is included in the Summary Compensation Table for the interest earned on such deferred compensation because such interest rate is intended to approximate a market rate.

Bonus Deferral and Stock Unit Match Program

The 2004 Long-Term Incentive Plan provides the opportunity for those who are employed by TDS at the position of Vice President or above to defer receipt of a portion of their bonuses and receive TDS matching stock unit credits. Executives may elect to defer receipt of all or a portion of their annual bonuses and to receive stock unit matches on the amount deferred up to \$400,000. Deferred compensation will be deemed invested in phantom TDS Common Shares. TDS match amounts will depend on the amount of annual bonus that is deferred into stock units. Participants receive a 25% stock unit match for amounts deferred up to 50% of their total annual bonus and a 33% match for amounts that exceed 50% of their total annual bonus. The matched stock units vest ratably at a rate of one-third per year over three years. The fair market value of the matched stock units is reported in the Summary Compensation Table under "Other Annual Compensation."

LeRoy T. Carlson deferred 100% of his 2004, 2003 and 2002 bonus. Accordingly, LeRoy T. Carlson will receive a 25% stock unit match for 50% of his deferred bonuses and a 33% match for 50% of his deferred bonuses up to \$250,000 for 2002 and 2003 under the previous 1998 Long-Term Incentive Plan and up to \$400,000 under the 2004 Long-Term Incentive Plan. LeRoy T. Carlson, Jr., deferred \$222,500 of his 2002 bonus and, accordingly, will receive a 25% stock unit match for this deferred bonus under the TDS Long-Term Incentive Plan. See the "Summary Compensation Table."

In addition, U.S. Cellular has a similar plan pursuant to which John E. Rooney may defer compensation and receive stock unit matches with respect to U.S. Cellular Common Shares. Any stock unit matches received by Mr. Rooney are reported in the Summary Compensation Table under "Other Annual Compensation."

Other Agreements

In 2003, TDS agreed to an arrangement with James Barr III relating to his employment. Under the arrangement, if Mr. Barr remains employed with TDS/TDS Telecom until at least March 31, 2005, (i) all of Mr. Barr's stock options will become fully vested on the date of his retirement and (ii) TDS will pay him a sum equal to his then annual salary in twenty-four equal monthly installments commencing the month after his retirement. Mr. Barr will be required to provide consulting services to TDS during such period in consideration for such payments. If Mr. Barr is demoted or terminated prior to his retirement for any reason other than a serious violation of TDS's Code of Business Conduct, TDS will pay Mr. Barr a sum equal to Mr. Barr's then annual salary.

TDS has entered into an agreement with LeRoy T. Carlson whereby it will employ Mr. Carlson until he elects to retire from TDS. Mr. Carlson is to be paid at least \$60,000 per annum until his retirement. The agreement also provides that upon his retirement, Mr. Carlson will be retained by TDS as a part-time consultant (for not more than 60 hours in any month) until his death or disability. Upon his retirement, Mr. Carlson will receive \$75,000 per annum as a consultant, plus increments beginning in 1985 equal to the greater of three percent of his consulting fee or two-thirds of the percentage increase in the consumer price index for the Chicago metropolitan area. If Mr. Carlson becomes disabled before retiring, TDS can elect to discontinue his employment and retain him in accordance with the consulting arrangement described above. Upon Mr. Carlson's death (unless his death follows his voluntary termination of his employment or the consulting arrangement), his widow will receive until her death an amount equal to that which Mr. Carlson would have received as a consultant. TDS may terminate payments under the agreement if Mr. Carlson becomes the owner of more than 21% of the stock, or becomes an officer, director, employee or paid agent of any competitor of TDS within the continental United States. No amounts were paid or payable under this agreement in 2004, 2003 or 2002, and no amounts related thereto are included above in the Summary Compensation Table.

Compensation of Directors

The board of directors has approved a compensation plan (the "Non-Employee Directors' Plan") for non-employee directors. A non-employee director is a director of TDS who is not an employee of TDS or its affiliates, U.S. Cellular or TDS Telecom. The purpose of the Non-Employee Directors' Plan is to provide reasonable compensation to non-employee directors for their services to TDS, and to induce qualified persons to serve as non-employee members of the board of directors.

The Non-Employee Directors' Plan provides that each non-employee director will receive an annual director's fee of \$34,000 payable quarterly, and the chairperson will receive an additional \$34,000 fee. The plan also provides that each non-employee director serving on the audit committee will receive an annual director's fee of \$8,000 payable quarterly, except for the chairperson, who will receive a fee of \$18,000. The plan also provides that each non-employee director will receive an annual fee of \$2,000 payable quarterly, for serving on the long-term compensation committee, except for the chairperson, who will receive a fee of \$4,000. It also provides that each non-employee director will receive a fee of \$1,500 for board of directors and audit committee meetings and \$1,000 for long-term compensation committee meetings, plus reimbursement of reasonable out-of-pocket expenses incurred in connection with travel to, and attendance at, each regularly scheduled or special meeting.

The Non-Employee Directors' Plan further provides that each non-employee director will receive 50%, and may elect to receive on an annual basis up to 100%, of their retainers and meeting fees for regularly scheduled meetings of the board (five per year), by the delivery of Common Shares of TDS having a fair market value as of the date of payment equal to the cash amount of the retainer or fee foregone.

Under the Non-Employee Directors' Plan, for purposes of determining the number of Common Shares deliverable in connection with any of the foregoing elections, the fair market value of a Common Share will be the average closing price of our Common Shares as reported in the American Stock Exchange Composite Transactions section of The Wall Street Journal for the twenty trading days before the end of the quarter or the date of the board meeting, as applicable. Our board of directors has reserved 65,000 Common Shares of TDS for issuance pursuant to the Non-Employee Directors' Plan.

In addition, TDS pays life insurance premiums to provide life insurance of \$100,000 for each of its directors. Except for such life insurance premiums, directors who are also employees of TDS or any affiliate do not receive any additional compensation for services rendered as directors. Directors are also reimbursed

for travel and expenses incurred in attending board and committee meetings pursuant to TDS's travel and expense reimbursement policy.

In addition to the persons who are identified in the Summary Compensation Table that are directors of TDS, LeRoy T. Carlson is a director of TDS who receives compensation in his capacity as Chairman Emeritus of TDS. In 2004, Mr. Carlson received the following compensation from TDS, based on the categories used in the Summary Compensation Table: Salary \$480,000; Bonus \$200,000, Other Annual Compensation \$58,000; and All Other Compensation \$19,362. In addition, Mr. Carlson received a grant of options for 22,475 Common Shares at an exercise price of \$66.00 per share that became exercisable on December 15, 2004 and that expire on May 8, 2014.

Executive Officer Compensation Report

This report is submitted by LeRoy T. Carlson, Jr., President and CEO, who serves as the compensation committee of the board of directors for all executive officers of TDS (other than the President and CEO), and by the TDS long-term compensation committee of the board of directors, which approves all compensation for the President and CEO and approves long-term compensation for executive officers of TDS. Long-term compensation for John E. Rooney is approved by the stock option compensation committee of U.S. Cellular (as described in its report in the proxy statement of U.S. Cellular).

TDS's compensation policies for executive officers are intended to provide incentives for the achievement of corporate and individual performance goals and to provide compensation consistent with the financial performance of TDS. TDS's policies establish incentive compensation performance goals for executive officers based on factors over which such officers have control and which are important to TDS's long-term success. Compensation should be appropriate to the financial performance of TDS and should be sufficient to enable TDS to attract and retain individuals possessing the talents required for long-term successful performance.

Executive compensation consists of both annual and long-term compensation. Annual compensation consists of base salary and an annual bonus. Annual compensation decisions are based partly on individual and corporate short-term performance and partly on the individual and corporate cumulative long-term performance during the executive's tenure in his or her position, particularly with regard to the President and CEO. Long-term compensation is intended to compensate executives primarily for their contributions to long-term increases in shareholder value and is generally provided through the grant of stock options.

The process of determining base salary begins with establishing an appropriate salary range for each officer, based upon the particular duties and responsibilities of the officer, as well as salaries for comparable positions with other companies. These other companies include those in the peer group index described below under "Stock Performance Chart", as well as other companies in the telecommunications industry and other industries with similar characteristics. The President and CEO is provided with information about executive compensation at other companies, as reported in proxy statements and salary surveys published by various organizations. The President and CEO uses these sources and makes the determination of appropriate ranges for each executive officer based on his informed judgment, using the information provided to him by the Vice President of Human Resources, as discussed below. The range is not based on any formal analysis nor is there any documentation of the range. The base salary of each officer is set within this range based on an assessment of the responsibilities and the performance of such officer, also taking into account the performance of TDS and/or its business units or divisions, other comparable companies, the industry and the overall economy during the preceding year. The salary of each of the executive officers is believed to be at or slightly above the median of the range considered to be appropriate in the judgment of the President and CEO.

Annually, the nature and extent of each executive officer's personal accomplishments and contributions for the year are determined, based on information submitted by the executive and by others familiar with his or her performance, including the executive's direct supervisor. The President and CEO evaluates the information in terms of the personal objectives established for such executive officer for the performance appraisal period. The President and CEO also makes an assessment of how well TDS did as a whole during the year and the extent to which the President and CEO believes the executive officer contributed to the results. With respect to executive officers having primary responsibility over a certain business unit or division of TDS, the President and CEO considers the performance of the business unit or division and the contribution of the executive officer thereto. No specific measures of performance are considered determinative in the compensation of executive officers. Instead, all the facts and circumstances are taken into consideration by the President

and CEO. Ultimately, it is the informed judgment of the President and CEO that determines an executive's salary and bonus.

The primary focus of TDS is increasing long-term shareholder value through growth, measured primarily in such terms as return on capital, revenues, customer units in service, operating cash flow (operating income plus depreciation and amortization) and operating income. However, there is no quantifiable relationship between compensation and such measures of performance. Instead, compensation decisions are made subjectively, considering certain performance measures, as well as other appropriate facts and circumstances.

The President and CEO of TDS also approves annual bonus compensation for executive officers of TDS and each of its business units or divisions. The Vice President-Human Resources prepares appropriate information, for the annual compensation reviews of executive officers. TDS has no written or formal corporate executive bonus plan. The bonuses for corporate executive officers are determined by the President and CEO based on his evaluation of each executive's contribution to TDS, the achievement of individual objectives, the performance of TDS and/or its business units and divisions and all other facts and circumstances considered appropriate in his judgment. The 2004 bonuses approved for the named executives are listed above in the Summary Compensation Table.

The annual compensation of the President and CEO of TDS is approved by the long-term compensation committee. The Vice President Human Resources prepares for the committee an analysis of compensation paid to chief executive officers of other comparable companies, including the companies in the peer group index described below under "Stock Performance Chart", as well as other companies in the telecommunications industry and other industries, to the extent considered appropriate, based on similar size, function, geography or otherwise. This information is presented to the long-term compensation committee, which approves the final base salary and bonus of the President and CEO based on such information. The long-term compensation committee approved a bonus of \$591,500 for the President and CEO for the year 2003, and increased his 2004 base salary to \$970,000, representing an increase of \$60,000 or 6.6% over his base salary of \$910,000 in 2003. The long-term compensation committee has not yet approved the 2004 bonus or base salary for 2005 for the President and CEO. As with the other executive officers, the compensation of the President and CEO is determined on the basis of the committee's analysis of multiple factors rather than specific measures of performance. The long-term compensation committee has access to numerous performance measures and financial statistics prepared by TDS. This financial information includes the audited financial statements of TDS, as well as internal financial reports such as budgets and their results, operating statistics and other analyses. The long-term compensation committee may also consider such other factors the committee deems appropriate in making its compensation decisions. Ultimately, it is the informed judgment of the long-term compensation committee, after reviewing the compensation information provided by the Vice President Human Resources, that determines the salary and bonus for the President and CEO.

As discussed above, the primary focus of TDS is the increase of long-term shareholder value through growth, measured primarily in such terms as return on capital, revenues, customer units in service, operating cash flow (operating income plus depreciation and amortization) and operating income. However, as discussed above, there is no quantifiable relationship between compensation and such measures of performance. Instead, compensation decisions are made subjectively, considering certain performance measurers, as well as all other appropriate facts and circumstances.

The long-term compensation committee believes that the total compensation (base salary and bonus) of the President and CEO has been set at an appropriate level considering, among other things, compensation of executives at companies which it considers comparable. Each of the members of the committee base this belief on his or her personal assessment and judgment of the President and CEO's responsibilities in comparison to those of chief executive officers and chief operating officers of the companies included in the peer group index described below under "Stock Performance Chart", as well as other companies in the telecommunications industry and other industries with similar characteristics, based on the information prepared by the Vice President Human Resources, as discussed above. The President and CEO has a substantial beneficial interest in TDS, as described below under "Security Ownership of Management", and will benefit together with other shareholders based on the performance of TDS. The committee has taken this fact into account in its review and approval of the President and CEO's salary and bonus.

The President and CEO may also recommend to the long-term compensation committee long-term compensation in the form of additional stock option grants, stock appreciation rights or otherwise for executive officers. The long-term compensation decisions for executive officers are made by the long-term compensation

committee in a manner similar to that described for annual base salary and bonus decisions, except that the stock options will generally vest over several years, in order to reflect the goal of relating long-term compensation of executive officers, including the President and CEO, to increases in shareholder value over the same period.

The performance of TDS is also a factor in determining the number of stock options which will be awarded and become exercisable with respect to the executive officers. As indicated under the table "Individual Option Grants in 2004", certain named executive officers received an award of Performance Options in 2004 based on the achievement of certain levels of corporate and individual performance in 2003.

Section 162(m) of the Code. Subject to certain exceptions, section 162(m) of the Internal Revenue Code generally provides a \$1 million annual limit on the amount that a publicly held corporation is allowed to deduct as compensation paid to each of the corporation's chief executive officer and the corporation's other four most highly compensated officers. TDS does not believe that the \$1 million deduction limitation should have a material effect on TDS in the immediate future. If the \$1 million deduction limitation is expected to have a material effect on TDS in the future, TDS will consider ways to maximize the deductibility of executive compensation, while retaining the discretion TDS deems necessary to compensate executive officers in a manner commensurate with performance and the competitive environment for executive talent.

This Executive Officer Compensation Report is submitted by LeRoy T. Carlson, Jr., sole member of the compensation committee and by the long-term compensation committee: Herbert S. Wander (chairperson), Letitia G. Carlson, M.D. and George W. Off.

Stock Performance Chart

The following chart graphs the performance of the cumulative total return to shareholders (stock price appreciation plus dividends) during the previous five years in comparison to returns of the Standard & Poor's 500 Composite Stock Price Index and a peer group index. The peer group index was constructed specifically for TDS and includes the following companies: ALLTEL Corp., Centennial Communications Corp. (formerly known as Centennial Cellular Corp.) Compensation Committee Interlocks and Insider Participation

The sole member of the compensation committee is LeRoy T. Carlson, Jr., President and CEO of TDS. The primary function of the compensation committee is to develop and administer the near term compensation policies and programs for TDS officers and key subsidiary executives, other than the President and CEO of TDS, and to administer long-term compensation for non-executive officers of TDS. Mr. Carlson is a member of the board of directors of TDS, U.S. Cellular, and TDS Telecom. He is also the Chairman of U.S. Cellular and TDS Telecom and, as such, approves the executive officer annual compensation decisions for U.S. Cellular and TDS Telecom. Mr. Carlson is compensated by TDS for his services to TDS and all its subsidiaries. However, U.S. Cellular reimburses TDS for a portion of such compensation pursuant to intercompany agreements between TDS and such subsidiaries. The long-term compensation committee of the board of directors of TDS approves all compensation for the President and CEO, considers and approves long-term compensation for TDS executive officers and for the president of TDS Telecom, and reviews and recommends to the board of directors any long-term compensation programs for TDS employees. The members of the TDS long-term compensation committee are Herbert S. Wander (chairperson), Letitia G. Carlson, M.D. and George W. Off. The members of the TDS long-term compensation committee are neither officers nor employees of TDS or any of its subsidiaries nor directors of any of TDS's subsidiaries. Long-term compensation for executive officers who are employees of U.S. Cellular is approved by the stock option compensation committee of U.S. Cellular. The stock option compensation committee of U.S. Cellular is composed of directors of such subsidiary who are neither officers nor employees of TDS or any of its subsidiaries nor directors of TDS.

In addition to such compensation committee interlocks and insider participation in compensation decisions, TDS and certain related parties are involved in the following relationships and transactions.

Other Relationships and Related Transactions. The following persons are partners of Sidley Austin Brown & Wood LLP, the principal law firm of TDS, U.S. Cellular and their subsidiaries: Walter C.D. VI. LIMITATIONS

While the Audit Committee has the functions set forth in this Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate or are in accordance with generally accepted accounting principles. The Company's management is principally responsible for Company accounting policies, the preparation of the financial statements and ensuring that the financial statements are prepared in accordance with generally accepted accounting principles. The Company's independent public accountants are responsible for auditing the Company's financial statements.

In its oversight capacity, the Audit Committee is neither intended nor equipped to guarantee with certainty to the full Board of Directors and stockholders the accuracy and quality of the Company's financial statements and accounting practices. Nor is it the duty of the Audit Committee to assure the Company's compliance with laws and regulations or compliance with the Company's Code of Business Conduct or the Board of Directors' compliance with the Company's Code of Ethics for Board of Directors. The primary responsibility for these matters also rests with the Company's management. The Audit Committee can do no more than rely upon information it receives, questions and assesses in fulfilling its functions.

The Board of Directors and the Audit Committee also recognize that meeting the responsibilities of an Audit Committee requires a degree of flexibility. To the extent that procedures included in this Charter go beyond what is required of an Audit Committee by existing law and regulation, such procedures are meant to serve as guidelines rather than inflexible rules and the Audit Committee is encouraged to adopt such different or additional procedures as it deems necessary from time to time to fulfil its functions.
