**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**September 30, 2016**

**(Unaudited)**

**NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION**

Alternet Systems Inc. s (the Company ) focus has evolved into the digital payments and data analytics, micro segmentation and marketing intelligence. The target markets include the mass consumer goods, payments, financial services and telecommunications sectors. Its vision is to be the leading digital commerce solutions provider into global markets, and its mission is to provide innovative solutions that facilitate and expedite commerce, enriching our partners and their customers experience, and improving efficiency.

Previously, the Company provided leading edge mobile financial solutions and mobile security and related solutions with the former being offered throughout the Western Hemisphere, but most actively in Central and South America and the Caribbean, and the latter being offered globally. As detailed in Note 5, Discontinued Operations, the Company, pursuant to a transaction in Alternet Transactions Systems ( ATS Transaction ), discontinued providing mobile financial solutions and mobile security. ATS is dormant and being closed this year.

The Company and its wholly owned subsidiaries, started to provide its services on a commercial basis. These services include:

- . Alternet Payment Solutions, LLC ( APS ) developing and deploying, retail and consumer multichannel payment mechanisms
- . Modernization of the electronics point of sale legacy infrastructure expanding the useful life of the electronic point of sale, and including new payment functions in the terminals, such as bill payment, electronic top-up and native payments with digital currency at the point of sale.
- . Data analytics tools and services for the Telecommunications and Financial Services industries.

These condensed consolidated financial statements have been prepared on the basis of a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. At September 30, 2016 the Company had a working capital deficiency of \$3,132,860 (December 31, 2015 - \$2,622,672). The Company s continued operations are dependent on the successful implementation of its business plan, its ability to obtain additional financing as needed, continued support from creditors, settling its outstanding debts, and ultimately attaining profitable operations. The accompanying condensed consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Interim Financial Statements**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (the SEC ). In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included. Results for interim periods should not be considered indicative of results for a full year. These interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto contained in the company s Annual Report on Form 10-K for the year ended December 31, 2015, filed with SEC on March 31, 2016. The consolidated financial statements include the accounts of the Company and all of its subsidiaries in which a controlling interest is maintained.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Principles of Consolidation**

These condensed consolidated financial statements include the accounts of the following wholly owned subsidiaries:

- . Alternet Systems Inc. ( Alternet )
- . AI Systems Group, Inc.
- . Tekvoice Communications, Inc.
- . Alternet Transactions Systems ( ATS ), Inc., a wholly owned subsidiary of Alternet (formerly a 51% owned subsidiary. See Note 5, Discontinued Operations)
- . Utiba Guatemala, S.A.
- . International Mobile Security, Inc. ( IMS )
- . Megatecnica, S.A.
- . Alternet Financial Solutions, LLC ( AFS )
- . Alternet Payment Solutions, LLC ( APS )
- . OneMarket, Inc.

All significant intercompany transactions and account balances have been eliminated.

**Reclassifications**

Certain prior period balances have been reclassified to conform with current period presentation. Changes have not impact on net losses or loss per share information.

**Use of Estimates and Assumptions**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the useful life and recoverability of long-lived assets, fair value of convertible notes payable and investment in digital currency. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between estimates and the actual results, future results of operations will be affected.

**Revenue Recognition**

The Company recognizes revenue in accordance with ASC Topic 605, *Revenue Recognition*, whereby revenue is recognized when persuasive evidence of an arrangement exists, the related services have been provided, the price is fixed and determinable and collectability is reasonably assured. The Company currently generates its revenues from providing consulting services, primarily consisting of project management on existing projects in Colombia and Peru, on a contract basis in regards to data analytics solutions.

**Digital Currency Transactions**

The Company can enter into transactions that are denominated in digital currency (Ven). These transactions result in digital currency denominated assets and liabilities that are revalued periodically. Upon revaluation, transaction gains and losses are generated and are reported as unrealized gains and losses in other items in the Consolidated Statements

of Operations. The Company determines fair value as of the balance sheet date based on Level 1 inputs which consist of quoted prices in active markets. The value of the Company's digital currency is \$117,004 (December 31, 2015 \$114,763), net of \$7,996 (December 31, 2015 - \$10,237) of unrealized losses. Due to the uncertainty regarding the current and future accounting treatment and tax, legal and regulatory requirements relating to digital currencies or transactions utilizing digital currencies, such accounting, legal, regulatory and tax developments or other requirements may adversely affect us.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Income (Loss) per Share**

The Company computes net income (loss) per share in accordance with ASC Topic 260, *Earnings Per Share*. Topic 260 requires presentation of both basic and diluted earnings per share (EPS). Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including warrants using the treasury stock method. Diluted EPS excludes all dilutive potential common shares if their effect is anti-dilutive.

At September 30, 2016 and December 31, 2015 the Company had no warrants or options outstanding to consider in the income (loss) per share calculations.

**Recent Accounting Pronouncements**

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* ( ASU 2014-09 ). The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: identify the contract(s) with a customer; identify the performance obligations in the contract; determine the transaction price; allocate the transaction price to the performance obligations in the contract; and recognize revenue when (or as) the entity satisfies a performance obligation. ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification Topic No. 605, Revenue Recognition, most industry-specific guidance throughout the industry topics of the accounting standards codification, and some cost guidance related to construction-type and production-type contracts. ASU 2014-09 is effective for public entities for annual periods and interim periods within those annual periods beginning after December 15, 2017. Early adoption is not permitted. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09. In August 2015, the FASB subsequently issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of Effective Date*, which defers the effective date of ASU 2014-09 by one year for all entities. In March 2016, the FASB subsequently issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which reduce the potential for diversity in practice arising from inconsistent application. In April 2016, the FASB subsequently issued ASU 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which reduce the potential for diversity in practice at initial application and reduces the cost and complexity of applying Topic 606 on transition and on an ongoing basis. The Company is currently evaluating the potential impact of adopting this guidance on its financial statements.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40)*. The new guidance addresses management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and in certain circumstances to provide related footnote disclosures. The standard is effective for the annual period beginning after December 15, 2016 and for annual and interim periods thereafter. Early adoption is permitted. Management is currently evaluating the impact this pronouncement will have on the Company's financial statements.

In January 2016, the FASB issued ASU No. 2016-01, *Financial Instruments - Overall (Subtopic 740): Recognition and Measurement of Financial Assets and Financial Liabilities*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2016-01 enhances the reporting model for financial instruments to provide users of financial statements with more decision-useful information. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2018. ASU No 2016-02 increases transparency and comparability among organizations to improve financial reporting. Management is currently evaluating the impact this pronouncement will have on the Company's financial statements.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Recent Accounting Pronouncements (continued)**

In March 2016, the FASB issued ASU No. 2016-07, *Investments – Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2016. ASU No 2016-07 eliminates the requirement to retroactively adopt the equity method when a change in ownership occurs. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2016. ASU No 2016-09 involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In September 2016, the FASB issued ASU No. 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2019. ASU No 2016-13 provides financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments* (a consensus of the Emerging Issues Task Force). This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2016-15 improves the accounting for the income tax consequences of intra-entity transfers of assets other than inventory. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In October 2016, the FASB issued ASU No. 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2016-16 provides guidance on eight specific cash flow issues with the objective of reducing the existing diversity in practice. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, *Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2017-09 provides clarity and reduce both (1) diversity in practice and (2) cost and complexity when applying the guidance in Topic 718, Compensation – Stock Compensation, to a change to the terms or conditions of a share-based payment award. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the SEC did not, or are not believed by management to, have a material impact on the Company's present or future financial position, results of operations or cash flows.

**NOTE 5 DISCONTINUED OPERATIONS**

On October 15, 2013 and as subsequently amended in its entirety on January 6, 2014, the Company, Utiba Pte. Ltd. ( Utiba ), a non-controlling interest investor in ATS, ATS, and Utiba Guatemala entered into an Asset Purchase Agreement in order to effect the sale by ATS of all of its business and assets to Utiba, as described below (the ATS Transaction ). For such transaction to proceed, approval of the Company's shareholder was required, which approval was obtained on February 21, 2014.

**Overview of the ATS Transaction and Consideration Payable**

- 1 The sale pursuant to the Asset Purchase Agreement by ATS of substantially all of its business and assets to Utiba (including the assumption by Utiba of certain liabilities related to such business and assets), in consideration for up to \$3,100,000 in cash (the "Cash Purchase Price") subject to certain adjustments related to certain net receivables or liabilities, as the case may be, and reduction to the extent of certain tax liabilities of ATS. The amount of \$300,000 of the Cash Purchase Price will be held back to cover certain claims that may be made under the indemnification provisions of the Asset Purchase Agreement.
- 2 The entry by the Company into a non-compete covenant in favor of Utiba and its affiliates in the mobile payment, top up and mobile financial services industry for a period of 36 months, in consideration for a payment in cash on closing of the transactions contemplated by the Asset Purchase Agreement (the Closing ) of \$2,200,000. The Company recognized the full amount as income in 2014 as it did not intend to compete in this industry in the future.
- 3 The release by the Company of Utiba from all its obligations under the ATS Shareholders Agreement in consideration for a payment in cash on Closing of \$200,000.
- 4 Upon Closing, Utiba shall transfer its 49% interest in ATS to the Company so that the Company will own 100% of ATS after Closing.

On March 4, 2014, the ATS Transaction closed pursuant to which the Company received \$4,928,036 in proceeds. An additional \$667,264 was held in escrow to cover certain claims that may be made under the indemnification provisions of the Asset Purchase Agreement. During the year ended December 31, 2014, \$367,264 was released. The remaining \$300,000 was included in sales proceeds held back and a deferred gain on sale. Proceeds of \$150,000 were received in April 2015 with the remaining balance received in September 2015.

During the year ended December 31, 2015, the Company wrote off \$32,167 to discontinued operations for wages payable from ATS's operations prior to the ATS Transaction which were determined not to be payable. Additionally, the Company settled its lawsuit with Utiba for \$80,000 plus the release of all amounts payable to and from Utiba for a total of \$1,055,177.

As of September 30, 2016 and December 31, 2015, the associated liabilities of the consolidated ATS business have been classified as discontinued operations and are presented below

## **NOTE 9 FAIR VALUE**

Fair value accounting establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1      Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2      Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3      Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The fair value of the Company's accounts receivable, due from related parties, accounts payable, other loans payable, and due to related parties approximate their carrying values. The Company's other financial instruments, being cash and investment in digital currency, are measured at fair value using Level 1 inputs.

## **NOTE 10 LAWSUIT**

In January 2014, the Company received notice of a default judgment in the amount of \$39,000 plus interest entered by the State of New York related to an unpaid service agreement entered into on February 11, 2009. The Company has filed a motion to vacate the foreign judgment or in the alternative stay the enforcement. The Company, until receipt of such notice, was unaware of any such demand. No prior notice had been served to the Company or its Chief Executive Officer. On March 23, 2015, the Supreme Court of the State of New York vacated and set aside the default judgments. As of September 30, 2016, no provision for this claim has been made.

## **NOTE 11 SUBSEQUENT EVENTS**

Events occurring after June 30, 2016 were evaluated through the date this Interim Report was issued, in compliance with FASB ASC Topic 855 Subsequent Events, to ensure that any subsequent events that met the criteria for recognition and/or disclosure in this report have been included.

In July 2017, the Company completed a Share Exchange Agreement ( Agreement ) with Lithium IP Holdings Corporation ( LIP ) to acquire 100% of the outstanding LIP shares in exchange for the following share issuances to LIP's sole shareholder (the Exchange ):

## **ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS:**

The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to those discussed below and in our annual report on Form 10-K for the year ended December 31, 2015, filed with the Securities and Exchange Commission on September 30, 2016, particularly in the section entitled "Risk Factors" .

### *Overview*

#### **2015 and Beyond**

In 2015 Alternet (the Company ) decided to cease pursuing digital currency opportunities due to the market collapse for digital currencies, mostly due to the volatility of such digital assets as Bitcoin, the lack of a clear regulatory framework, a risky value and revenue generation model, and the entrance of major players in the field, obliged management to steer away from these opportunities.

The Company and its wholly owned subsidiaries, started to provide its services on a commercial basis. These services will include:

- . APS will develop and deploy, retail and consumer multichannel payment mechanisms
- . Modernization of the electronics point of sale legacy infrastructure expanding the useful life of the electronic point of sale, and including new payment functions in the terminals, such as bill payment, electronic top-up and native payments with digital currency at the point of sale.
- . Data analytics tools and services for the Telecommunications and Financial Services industries.

In April 2015 APS signed an agreement with R4 Technologies, LLC ( R4 ) to market and promote R4 s purpose-built cloud platform for microsegment data, insight and engagement to help brands leverage data and automate yield optimization. APS will partner with R4 across Latin America and the Caribbean.

In May 2015 APS signed a commercial distribution software reseller agreement with APPI Tecnologia S/A ( APPI ), a leading information technology company, based in Brazil, specializing in the integration and development of technical solutions and software for the electronic transaction payment industry. APS will promote APPI s unique, innovative, and efficient solutions for the Payments and Services segments in the United States, Canada and the Caribbean.

#### **Solutions**

Alternet delivers technology solutions to financial organizations that manage a wide range of payment channels including development engines that extend the capabilities of processing across all capture devices such as point-of-sale (POS), mobile phones, tablets, PCs and web-based applications. These solutions deliver channel specific abilities. Alternet partners with leading manufacturers that deliver solutions that meet the needs of device and channel management, now and in the future.

Growing demand from mobile point-of-sale terminals and increased emphasis on advanced analytics features are significant factors for the growing demand for software in the point-of-sale terminals market. Alternet is strategically positioned to introduce MUXI s innovative, brand agnostic point-of-sale terminal and disruptive payment technology to underserved U.S. markets while providing timely and cost effective solutions across all devices to facilitate multichannel capability to any merchant.

---

**Payment Technologies   Rapidly expanding market**

- Legacy from multiple decades of infrastructure for credit card payments and Point-of-Sale (POS) terminals
- Omni-channel payments will require a complete refresh of the legacy installed base
- The only cost-effective, efficient solution is through software

**Data Analytics**

Revolutionizing how leading organizations optimize data analytics and automate marketing research operations, Alternet's integrated analytics, micro segmentation and marketing automation technology empower marketing organizations to create and develop critical marketing decision matrixes. In addition, the Company's solutions give clients a proprietary market view across diverse data sources, allows discovery of unique audience and location micro-segments, automates data management, and generates recommendations at micro level P&L-oriented yield optimization, across products, price and promotion investment.

**Results of Operations:****Three and nine months ended September 30, 2016 compared to three and nine months ended September 30, 2015**

The Company's results, on a consolidated basis, reflect its own results consolidated with its subsidiaries. For the remainder of this part, the term "Company" refers to both the Company and its wholly owned subsidiaries.

**Net Sales**

For the three and nine months ended September 30, 2016, the Company had net sales of \$15,000 and \$51,966, respectively, compared to no sales during the three and nine months ended September 30, 2015. The current sales have been exclusively related to initial pilot projects within the Data Analytics solution.

**Selling, General and Administrative Expenses**

The operating and administrative expenses for the three months ended September 30, 2016 and 2015 totaled \$134,529 and \$222,441, respectively. The table below details the major changes in administrative expenditures for the three months ended September 30, 2016 and 2015.

Expenses	Increase / Decrease in Expenses	Explanation for Change Three months ended September 30, 2016 as Compared to three months ended September 30, 2015
Investor relations	Decrease of \$10,000	Decreased need for communication with investors due to the decrease in corporate activity.
Management and consulting	Decrease of \$40,750	The comparative quarter included consulting fees for searching out new business ventures. During the current quarter, the company had a more focused plan and did not require as much consulting services.
Payroll	Decrease of \$25,800	Decreased employees during the current quarter

The operating and administrative expenses for the nine months ended September 30, 2016 and 2015 totaled \$554,660 and \$754,387, respectively. The table below details the major changes in administrative expenditures for the nine months ended September 30, 2016 and 2015.

Expenses	Increase / Decrease in Expenses	Explanation for Change Nine months ended September 30, 2016 as
----------	---------------------------------	---

**Compared to Nine months ended September 30, 2015**

Investor relations	Increase of \$15,000	The current period included a charge for investor communications that had been incurred during the current period and prior year.
Management and consulting	Decrease of \$130,008	The comparative period included consulting fees for searching out new business ventures. During the current period, the company had a more focused plan and did not require as much consulting services.
Payroll	Decrease of \$77,354	Decreased employees during the current period

---

## **Interest and Other Expenses**

The Company's net interest expense decreased to \$19,615 and \$58,632 for the three months and nine months ended September 30, 2016, respectively, as compared to \$22,069 and \$64,538 for the three and nine months ended September 30, 2015, respectively. The decrease in interest during the current period was due to the decrease in loans outstanding during the period as a result of the settlement of notes amounting to \$35,000 through the issuance of 7,500,000 common shares during the period.

## **Net Loss**

For the three months ended September 30, 2016, the Company had a net loss from continuing operations of \$(137,047) or \$(0.00) per share and an overall net loss of \$(137,047) or \$(0.00) per share, a decrease of 37.00% and an increase of 102.90% respectively, when compared to the corresponding three months ended September 30, 2015 which had a net loss from continuing operations of \$(217,543) or \$(0.00) per share and an overall net loss of \$(67,543) or \$(0.00) per share.

For the nine months ended September 30, 2016, the Company had a net loss from continuing operations of \$(622,707) or \$(0.01) per share and an overall net loss of \$(622,707) or \$(0.01) per share, a decrease of 21.47% and an increase of 35.15% respectively, when compared to the corresponding nine months ended September 30, 2015 which had a net loss from continuing operations of \$(792,922) or \$(0.01) per share and an overall net loss of \$(460,755) or \$(0.00) per share.

The increased losses were mostly attributable to the Company recording the sale of ATS's Assets in the comparative period.

## **Liquidity and Capital Resources**

As of September 30, 2016, the Company had \$1,227 (December 31, 2015 - \$78,780) cash in the bank. At September 30, 2016, the Company had a working capital deficiency of \$3,132,860 (December 31, 2015 - \$2,622,672).

Accounts payable were \$906,239 at September 30, 2016 compared to accounts payable of \$746,508 at December 31, 2015. As at September 30, 2016, the Company's current liabilities were \$3,268,451, an increase of \$445,236 from the current liabilities of \$2,823,215 at December 31, 2015.

## **Critical Accounting Policies**

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with the accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financial statements.

### *Basis of Presentation and Consolidation*

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in United States dollars. These financial statements include the accounts of the Company and its wholly owned and majority owned subsidiaries. Our fiscal year-end is December 31.

*Use of Estimates and Assumptions*

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the useful life and recoverability of long-lived assets, fair value of convertible notes payable and derivative liabilities. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between estimates and the actual results, future results of operations will be affected.

*Accounts Receivable and Allowance for Doubtful Accounts*

Trade accounts receivable are stated at the amount the Company expects to collect. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. Management considers the following factors when determining the collectability of specific customer accounts: customer credit-worthiness, past transaction history with the customer, current economic industry trends, and changes in customer payment terms. Past due balances over 90 days and other higher risk amounts are reviewed individually for collectability. If the financial condition of the Company's customers were to deteriorate, adversely affecting their ability to make payments, additional allowances would be required. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Company has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

*Revenue Recognition*

The Company recognizes revenue in accordance with ASC Topic 605, *Revenue Recognition*, whereby revenue is recognized when persuasive evidence of an arrangement exists, the related services have been provided, the price is fixed and determinable and collectability is reasonably assured. The Company currently generates its revenues from providing data analytics solutions...

*Digital Currency Transactions*

The Company enters into transactions that are denominated in digital currency (Ven). These transactions result in digital currency denominated assets and liabilities that are revalued periodically. Upon revaluation, transaction gains and losses are generated and are reported as unrealized gains and losses in other items in the Consolidated Statements of Operations. The Company determines fair value as of the balance sheet date based on Level 1 inputs which consist of quoted prices in active markets. The value of the Company's digital currency is \$117,004 (December 31, 2015 - \$114,763), net of \$7,996 (December 31, 2015 - \$10,237) of unrealized losses, as of December 31, 2015. Due to the uncertainty regarding the current and future accounting treatment and tax, legal and regulatory requirements relating to digital currencies or transactions utilizing digital currencies, such accounting, legal, regulatory and tax developments or other requirements may adversely affect us.

---

### *Foreign Currency Translation*

The Company's functional currency and its reporting currency is the United States Dollar. Foreign denominated monetary assets and liabilities are translated to their United States dollar equivalents using foreign exchange rates which prevailed at the balance sheet date. Revenue and expenses are translated at average rates of exchange during the year. Related translation adjustments are reported as a separate component of stockholders' (deficit), whereas gains or losses resulting from foreign currency transactions are included in the results of operations.

### *Income (Loss) per Share*

The Company computes net income (loss) per share in accordance with ASC Topic 260, *Earnings Per Share*. Topic 260 requires presentation of both basic and diluted earnings per share (EPS). Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including warrants using the treasury stock method. Diluted EPS excludes all dilutive potential common shares if their effect is anti-dilutive.

At September 30, 2016 and December 31, 2015 the Company had no warrants or options outstanding to consider in the income (loss) per share calculations.

### *Recent Accounting Pronouncements*

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09). The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: identify the contract(s) with a customer; identify the performance obligations in the contract; determine the transaction price; allocate the transaction price to the performance obligations in the contract; and recognize revenue when (or as) the entity satisfies a performance obligation. ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification Topic No. 605, *Revenue Recognition*, most industry-specific guidance throughout the industry topics of the accounting standards codification, and some cost guidance related to construction-type and production-type contracts. ASU 2014-09 is effective for public entities for annual periods and interim periods within those annual periods beginning after December 15, 2017. Early adoption is not permitted. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09. In August 2015, the FASB subsequently issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of Effective Date*, which defers the effective date of ASU 2014-09 by one year for all entities. In March 2016, the FASB subsequently issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which reduce the potential for diversity in practice arising from inconsistent application. In April 2016, the FASB subsequently issued ASU 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which reduce the potential for diversity in practice at initial application and reduces the cost and complexity of applying Topic 606 on transition and on an ongoing basis. The Company is currently evaluating the potential impact of adopting this guidance on its financial statements.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40)*. The new guidance addresses management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and in certain circumstances to provide related footnote disclosures. The standard is effective for the annual period beginning after December 15, 2016 and for annual and interim periods thereafter. Early adoption is permitted. Management is currently evaluating the impact this pronouncement will have on the Company's financial statements.

In January 2016, the FASB issued ASU No. 2016-01, *Financial Instruments - Overall (Subtopic 740): Recognition and Measurement of Financial Assets and Financial Liabilities*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2016-01 enhances the reporting model for financial instruments to provide users of financial statements with more decision-useful information. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2018. ASU No 2016-02 increases transparency and comparability among organizations to improve financial reporting. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

---

In March 2016, the FASB issued ASU No. 2016-07, *Investments - Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2016. ASU No 2016-07 eliminates the requirement to retroactively adopt the equity method when a change in ownership occurs. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2016. ASU No 2016-09 involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2019. ASU No 2016-13 provides financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments* (a consensus of the Emerging Issues Task Force). This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2016-15 improves the accounting for the income tax consequences of intra-entity transfers of assets other than inventory. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In October 2016, the FASB issued ASU No. 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2016-16 provides guidance on eight specific cash follow issues with the objective of reducing the existing diversity in practice. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, *Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting*. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017. ASU No 2017-09 provides clarity and reduce both (1) diversity in practice and (2) cost and complexity when applying the guidance in Topic 718, Compensation - Stock Compensation, to a change to the terms or conditions of a share-based payment award. Management does not anticipate that this accounting pronouncement will have any material future effect on our consolidated financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the SEC did not, or are not believed by management to, have a material impact on the Company's present or future financial position, results of operations or cash flows.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

As a smaller reporting company, we are not required to provide the information required by this Item.

#### **Item 4. Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated communicated to our management, including our president (also our principal executive officer) and our chief financial officer (also principal financial officer) to allow for timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, provide only reasonable assurance of achieving the desired control objectives, and our management is required to apply its judgment evaluating the cost-benefit relationship of possible controls and procedures.

As of September 30, 2016, we carried out an evaluation, under the supervision and with the participation of our president (also principal executive officer) and our chief financial officer (also our principal financial officer), of the effectiveness of the design operation of our disclosure controls and procedures. In conducting his evaluation, our officers determined that there may be material weaknesses in our internal controls over financial reporting. Specifically, the following deficiency is are noted:

- . We do not have an Audit Committee. Although we are not legally required to have one, this means that we do not have entity control over our financial statements.
- . We do not have any independent (or outside) board members. To provide arm's-length oversight and comply with regulations, it is critical that

As of September 30, 2016, the Company's Board of Directors does not include an outside director. The Company has identifying potential outside directors and is discussing the position with the candidates.

#### ***Changes in Internal Control over Financial Reporting***

During the nine months ended September 30, 2016, changes in our internal controls over financial reporting consisted in ensuring timely follow-up on pending receipt of invoices from third party providers, primarily those based overseas. While such occurrences are limited, the change to internal controls ensure proper timing of recording expenses.

## **PART II OTHER INFORMATION**

#### **Item 1. Legal Proceedings**

Other than as described below, management is not aware of any legal proceedings (either presently engaged in or contemplated) by any government authority or other party involving the Company, its properties or its products.

In January 2014, the Company received notice of a default judgment in the amount of \$39,000 plus interest entered by the State of New York related to an unpaid service agreement entered into on February 11, 2009. The Company has filed a motion to vacate the foreign judgment or in the alternative stay the enforcement. The Company, until receipt of such notice, was unaware of any such demand. No prior notice had been served to the Company or its Chief Executive Officer. On March 23, 2015, the Supreme Court of the State of New York vacated and set aside the default judgments. As of September 30, 2015, no provision for this claim has been made.

#### **Item 2. Unregistered Sales of Equity and Use of Proceeds**
