**Report of independent accountants on special review**

(A translation of the original report in Portuguese as filed with the Brazilian Securities Commission (CVM) containing quarterly financial information prepared in accordance with accounting practices adopted in Brazil)

The Shareholders and Board of Directors  
Brasil Telecom Participações S.A.  
Brasília - DF

We have reviewed the quarterly financial information of Brasil Telecom Participações S.A. for the quarter ended March 31, 2004, comprising the balance sheet and the consolidated balance sheet of the Company and its subsidiaries, the statement of income and the consolidated statement of income, the management report and other relevant information, prepared in accordance with accounting practices adopted in Brazil.

Our review was performed in accordance with auditing standards established by the Brazilian Institute of Accountants (IBRACON) and the Federal Accounting Council, which included: (a) inquiries and discussion with management responsible for the accounting, financial and operational areas of the Company regarding the criteria adopted in the preparation of the quarterly information; and (b) review of post-balance sheet information and events, which may have a material effect on the financial and operational position of the Company and its subsidiaries.

Based on our special review, we are not aware of any material changes that should be made to the aforementioned quarterly information for it to be in accordance with accounting practices adopted in Brazil and the regulations issued by the Brazilian Securities Commission, specifically applicable to the mandatory quarterly financial information.

Our review was performed for the purpose of issuing a special review report on the mandatory quarterly financial information. The statement of cash flow represents supplementary information to those statements and is presented to provide additional analysis. This supplementary information was submitted to the same review procedures applied to the quarterly financial information, and, based on our special review, is adequately presented in all material respects, in relation to the quarterly financial information taken as a whole.

OPERATIONS**

Brasil Telecom Participações S.A. ( The Company ) was established in accordance with Article 189 of Law 9472/97 - General Telecommunications Law, as part of the TELEBRÁS spin-off process, which the spin-off protocol and justification was approved in the Shareholders Meeting of May 22, 1998. The Company is a subsidiary of SOLPART Participações S.A. ( SOLPART ), which holds 53.59% of the Company's voting capital and 20.92% of total capital.

The Company is registered with the Brazilian Securities Commission - CVM) and the Securities and Exchange Commission - SEC in the USA, and its shares are traded on the main stock exchanges in Brazil and its ADR on the New York Stock Exchange ( NYSE ).

The Company is a pure holding company, indirectly carrying out operations through your parent company, Brasil Telecom S.A., a telecommunications operator holding a concession to operate the Switched Fixed Telephone Service (STFC), in Region II of the General Concessions Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul and the Federal District. In this area of 2,859,375 square kilometers, corresponding to 34% of the Brazilian territory, the Company renders from July of 1998 STFC local and local intra-region long distance.

With the recognition of the fulfillment in advance of the obligations for universalization stated in the General Plan of Universalization Goals ( PGMU ), forecast for December 31, 2003, in accordance with the acts published in the Diário Oficial da União (Official Daily Government Newspaper (DOU) on January 19, 2004, the restriction of providing other telecommunications services ceased to exist, permitting the Brasil Telecom S.A, its parent companies, its subsidiaries and associated companies to obtain new authorizations. On the same date ANATEL issued authorizations for the Brasil Telecom S.A to provide STFC in the following service modalities: (i) Local and Domestic Long Distance calls in Regions I and III and Sectors 20, 22 and 25 of Region II of the General Concession Plan ( PGO ); and (ii) International Long Distance calls in Regions I, II of III of PGO. As a result of these authorizations the Company began to provide the Domestic and International Long Distance services in the new regions, starting on January 22, 2004. In the case of the Local Service, to be provided in regions I and III, as established in the regulations, the Company has a period of 12 months to begin operations as from the date of the aforementioned authorization.

The information referring to the quality and universalization targets of the Switched Fixed Telecommunications Services - STFC adopted by its operator are available for interested parties on the web site of the Brazilian Telecommunications Agency, ANATEL, at the following address: [www.anatel.gov.br](http://www.anatel.gov.br).

The subsidiary Brasil Telecom S.A. has two wholly-owned subsidiaries: (i) BrT Serviços de Internet S.A. ( BrTI ), established in October 2001, engaged in the provision of internet services and related activities since 2002, when it entered into operation; and (ii) Brasil Telecom Celular S.A. ( BrT Celular ), established in December 2002 to operate the Mobile Personal Service (SMP), holding a license to serve the same coverage area where the Subsidiary operates STFC. At the end of the quarter, BrT Celular was initiating its structuring process - pre-operating phase, and the beginning of its activities is forecasted for the second semester of 2004.

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The Company also controls Nova Tarrafa Participações Ltda. ( NTP ) and Nova Tarrafa Inc ( NTI ). The latter, which was previously a minority investment, passed through a spin-off of its assets in the first trimester of 2003, becoming a subsidiary. NTP and NTI are engaged in holding interests in Internet Group (Cayman) Limited, which provides access to the Internet, which the sum of these investments represents a minority interest.

Completing the information on the companies where the Company exercises control indirectly, during the second quarter of 2003 Brasil Telecom Serviços de Internet S.A. invested, as a shareholder or quotaholder, and started to have the control of the following companies:

### *(i) BrT Cabos Submarinos (formerly Known as GlobeNet) Group*

This group of companies operates through a system of submarine handles of fiber optics, with points of connection in the United States, Bermuda Islands, Venezuela and Brazil, allowing the traffic of data through packages of integrated services, offered to local and international corporate customers. The following companies comprised it:

- Brasil Telecom Cabos Submarinos do Brasil (Holding) Ltda. ( BrT CSH ): company acquired for the BrTI on June 11, 2003, as part of purchasing program of the Group GlobeNet, acquisition previously disclosed on November 19, 2002, through relevant fact.
- Brasil Telecom Cabos Submarinos do Brasil Ltda. ( BrT CS Ltda. ): company acquired for the BrTI on June 11, 2003, in which has the direct control and the full control in set with BrT CSH, being also a part of the purchasing program of the GlobeNet Group.
- Brasil Telecom Subsea Cable Systems (Bermuda) Ltd. ( BrT SCS Bermuda ): company incorporated under the laws of the Bermudas, for which the transfer of resources by BrTI for payment of subscribed capital occurred on May 30, 2003. It is also part of the purchasing program of the GlobeNet Group. BrT SCS Bermuda holds the total share of Brazil Telecom of America Inc. and of Brasil Telecom de Venezuela S.A.

### *(ii) iBest Group*

BrTI has held, since February 2002, a minority interest in the iBest Holding Corporation ( IHC ), a company incorporated in the Caiman Islands. In June 2003, BrTI started to control the iBest Group, which includes the main companies are: (i) iBest Holding Corporation; (ii) iBest S.A.; (iii) Febraio S.A.; and (IV) Freelance S.A.

iBest was incorporated in January 1999, with the objective of organizing the iBest Prize , trading advertising space for the event. In December 2001 it extended its activities, when it started to offer and to concentrate its operations on providing dialed access to the Internet.

## **2. PRESENTATION OF FINANCIAL STATEMENTS**

### **Preparation Criteria**

The financial statements were prepared in accordance with accounting practices emanating from Brazilian corporate law, standards of the Brazilian Securities Commission - CVM and standards applicable to Switched Fixed Telecommunications Services - STFC concessionaires.

As the Company is registered with the Securities and Exchange Commission - SEC, it is subject to its rules, and should prepare financial statements and other information using criteria that comply with that entity s requirements. To comply with these requirements and aiming to meet the market s information needs, the Company adopts the practice of publish information simultaneously in both markets in their respective languages.

The notes to the financial statements are presented in thousands of reais, unless stated otherwise. According to each situation, the notes to the financial statements presented information related to the Company and the consolidated statements, identified as PARENT COMPANY and CONSOLIDATED respectively. When the information is common to both situations, it is indicated as PARENT COMPANY AND CONSOLIDATED .

The accounting estimates were based on objective and subjective factors, based on the judgment of the management for determining the appropriate amount to be recorded in the financial statements. Significant elements subject to these estimates and assumptions include the residual amount of the fixed assets, provision for doubtful accounts, inventories and deferred income tax assets, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits for employees. The settlement of transactions involving these estimates may result in significant different amounts due to the inherent imprecision to the process of their determination. The Company reviews the estimates and assumptions at least quarterly.

### **Consolidated Financial Statements**

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The consolidation was made in accordance with CVM Instruction 247/96 and includes the companies listed in Note 1.

Some of the main consolidation procedures are:

- Elimination of intercompany balances, as well as revenue and expenses of transactions among them.
- Elimination of the investor's shareholdings, reserves and accumulated results in the investees.
- Segregation of the portions of shareholders' equity and result of minority shareholders, indicated in the specific items.

The reconciliation between parent Company and Consolidated net income and Shareholders' Equity are presented as follows:

In addition, the Company presents the statement of cash flows, prepared under the indirect method, in accordance with Accounting Rules and Procedures - NPC Nr. 20 of Brazilian Institute of Accountants ( IBRACON ).

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to the practices adopted by the Company and its Subsidiaries which are reflected in the consolidated balance sheet.

**a. Cash and Cash Equivalents:** Cash equivalents are short-term, high-liquidity investments, which mature in less than three months. They are recorded at cost, plus income earned to the end of the quarter, not exceeding market value.

**b. Trade Accounts Receivable:** Receivables from users of telecommunications services are recorded at the amount of the tariff in effect on the date the service is rendered. Unbilled services provided to customers are also included in trade accounts receivable. The criteria adopted for making the provision for doubtful accounts take into account the calculation of the actual percentage losses incurred on each range of maturity for accounts receivable. The historic percentages are applied to the current ranges of accounts receivable, also including accounts not yet due and the unbilled portion, thus comprising the amount that could become a future loss, which is recorded as a provision.

**c. Inventories:** Stated at average cost of acquisition, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and those for maintenance. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress) and inventories to be used in maintenance are classified as current and non current assets. For the obsolete items is recorded a provision for losses.

**d. Investments:** Investments in subsidiaries were valued by the equity method. The goodwill was calculated based on the expectation of future results and its amortization is related to the volume and timing forecasted over a period of not more than ten years. Other investments are recorded at acquisition cost, less a provision for losses, when applicable. The investments derived from income tax incentives are recognized at the date of the investment, and result in shares of companies with tax incentives or quotas investment funds. In the period between the investment date and receipt of shares or quotas, they are classified in the Noncurrent assets. The Company adopts the criteria of using the maximum percentage of tax allocation. These investments are carried at cost or market prices and periodically valued and, when the latter is lower, provision for losses is recorded.

**e. Property, Plant and Equipment:** Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges related to loans assets used to finance constructions in progress are capitalized.

Costs incurred that represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair costs are charged to income, respecting the accrual basis.

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Depreciation is calculated using the straight-line method. The depreciation rates used are based on the expected useful lives of the assets and in accordance with the rules of the Public Telecommunications Service. The main rates used are set forth in Note 24.

**f. Deferred Charges:** Segregated between deferred charges on amortization and on formation. Their breakdown is shown in Note 25. Amortization is calculated using the straight-line method, for the period of five years, in accordance with the legislation in force. When the asset no longer generates benefits, it is written off against non-operating income.

**g. Income and Social Contribution Taxes:** Income and social contribution taxes are recognized on the accrual basis. The taxes levied on temporary differences, tax losses and the negative social contribution basis are recorded under assets or liabilities, as applicable, on the assumption of realization or future, within the parameters established in CVM Instruction Nr. 371/02.

**h. Loans and Financing:** Updated monetarily by the exchange variations and interest incurred. Equal restatement is applied to the guarantee contracts hedging the debt.

**i. Provision for Contingencies:** Recognized based on the risk assessment and quantified on economic grounds and on legal counselors' opinions on the lawsuits and other contingency factors known at the end of the quarter. The bases and nature of the provisions are described in Note 7.

**j. Recognition of Revenues:** Revenues from services rendered are recognized on accrual basis. Local calls are charged based on time measured according to the legislation in force. Revenues from sales of payphone cards-prepaid services are recorded upon sale.

**k. Recognition of Expenses:** Expenses are recognized on accrual basis, considering their relationship with the realization of income. Expenses related to other periods are deferred.

**l. Financial Income (Expense), Net:** Financial income comprises interest earned on accounts receivable settled after their due date, and gains on investments and hedges, when incurred. Financial expenses comprise interest incurred and other charges on loans, financing and other financial transactions.

Interest on Shareholders' Equity is included in financial expenses and for financial statement presentation purposes, the recognized amounts are reversed to profit and loss accounts and reclassified as a deduction of the retained earnings, in the shareholders' equity.

**m. Research and Development:** Costs for research and development are recorded as expenses when incurred, except for expenses with projects linked to the generation of future revenue, which are recorded under deferred assets and amortized over a five-year period after the start-up of operations.

**n. Benefits to Employees:** Private pension plans and other retirement benefits sponsored by the Company and its Subsidiaries for their employees are managed by SISTEL and Fundação CRT. Contributions are determined on an actuarial basis, when applicable, and recognized on an accrual basis. As of December 31, 2001, in compliance with CVM Instruction Nr. 371/00, the Company recorded the actuarial deficit on the balance sheet date against shareholders' equity, excluding the corresponding tax effects. As from 2002, as new actuarial revaluations determine the need for adjustments to the provision, these are recognized in the profit and loss accounts, in accordance with the cited CVM deliberation above. Complementary information on private pension plans is described in Note 6.

**o. Employees and Management Profit Sharing:** The Company recognized provisions for employee and directors profit sharing on the accrual basis, and the calculation of the amount, which is paid in the year after recognition of the provision takes into consideration the program of targets established with the labor union, in accordance with Law Nr. 10,101/00 and the Company's bylaws.

**p. Earnings per thousand shares:** Calculated based on the number of shares outstanding at the end of the quarter, which comprises the total number of shares issued net of treasury stock.

#### 4. RELATED-PARTY TRANSACTIONS

Related party transactions refer to existing operations carried out by the Company with its subsidiaries Brasil Telecom S.A., Nova Tarrafa Participações Ltda. and Nova Tarrafa Participações INC.

Operations between the Company related parties are carried out under normal market prices and conditions. The main transactions are as follow:

**Brasil Telecom S.A.**

### 5. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALYSIS.

The Company and its subsidiaries assessed the book value of its assets and liabilities as compared to the market or realizable values (fair value), based on information available and valuation methodologies adequate for each situation. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each situation. As a result, the estimates presented may not necessarily indicate the amounts that may be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have a material effect on the amounts obtained. The selection of assets and liabilities presented in this Note was made based on their materiality. Those instruments, the value of which approximates fair value and risk assessment is not significant, are not mentioned.

In accordance with their natures, financial instruments may involve known or unknown risks, the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors that can affect the Company's business are the following:

#### a. Credit Risk

Most services provided by the subsidiary Brasil Telecom S.A. are related to the Concession Contract and a significant portion of these services is subject to the determination of tariffs by the regulatory agency. The credit policy, in case of public telecommunications services, is subject to legal rules established by the concession authority. The risk exists since the Subsidiary may incur losses arising from the difficulty in receiving amounts billed to its customers. In the quarter, the Company's default was 3.01% of gross revenue (2.60% in the same period in the previous year). By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting off access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services that should be maintained for national security or defense.

**b. Exchange Rate Risk**Assets

The Company has loans and financing contracted in foreign currency, these receivables arise from possible exchange rate fluctuation. The amounts of assets exposed to this type of risk are the following:

	PARENT COMPANY		CONSOLIDATED	
	Book Value		Book Value	
	03/31/04	12/31/03	03/31/04	12/31/03
<b>ASSETS</b>

<b>NONCURRENT ASSETS</b>	212,221	214,697	126,637	125,044

The loans receivable in dollars were transferred to the Company at the time of the split off of Telebrás. Due to their original characteristics, no financing is available on the market under similar conditions, which led to the presentation of the values booked.

Liabilities

The Company has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities. Loans subject to this risk represent approximately 3.9% of the total liabilities. To minimize this type of risk, the subsidiary enters into swap agreements with financial institutions to hedge foreign exchange exposures. 30% of the debt portion in foreign currency is covered by hedge agreements. Unrealized positive or negative effects of these operations are recorded in the profit and loss accounts as gain or loss. To the quarter, consolidated net gains totaled R\$1,082 (net loss of R\$20,452 in the same period in 2003).

Net exposure, as per book and market values, at the risk of the exchange rate prevailing at the balance sheet date, is as follows:

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The method used for calculation of market value (fair value) of loans and financing in foreign currency and hedge instruments was the discounted cash flow, utilizing the market rates prevailing at the end of the quarter.

### c. Interest Rate Risk

#### Assets

The private debentures issued by subsidiary Brasil Telecom S.A were fully subscribed by the Company.

	PARENT COMPANY		CONSOLIDATED

NONCURRENT ASSETS	1,334,489	1,408,190	7,705	7,513

The values booked are equal to market values, since the current contracting conditions for this type of financial instrument are similar to the original conditions.

The sum of the Company's debentures, loans and financing concentrated in the subsidiary represents 91.8% (92.3% in 12/31/03) of this type of assets.

#### Liabilities

In 2000, the Company issued private debentures convertible into preferred shares. This liability was contracted at the interest rate linked to TJLP (Brazilian long-term interest rate). The risk linked to this liability arises from possible increase in this rate.

The subsidiary Brasil Telecom S.A has loans and financing contracted in local currency subject to interest rates linked to: TJLP, UMBNDES, CDI (Rate DI - CETIP) and IGPM. The risk inherent in these liabilities arises from possible variations in these rates. The subsidiary has contracted derivative contracts to hedge for 78% (79% at December 31, 2003) of the liabilities subject to the UMBNDES rate, using exchange rate swap contracts, considering the influence of the dollar on the interest rate (basket of currencies) of these liabilities. However, the other market rates are continually monitored to evaluate the need to contract derivatives to protect, the subsidiary against the risk of volatility of these rates.

The aforementioned liabilities at the balance sheet date are as follows:

	PARENT COMPANY		CONSOLIDATED	
	Book and Market Value		Book and Market Value	
	03/31/04	12/31/03	03/31/04	12/31/03

LONG-TERM	441,721	437,593	1,874,572	1,979,974
-----------	---------	---------	-----------	-----------

Book values are equivalent to market values because the current contractual conditions for these type of financial instruments are similar to those in which they originated. In the case of a hypothetical variation of 1% in the aforementioned rates, unfavorable to the Company, the annual negative impact on income would be approximately R\$5,265.

### d. Risk of Not Linking Monetary Restatement Indexes to Accounts Receivable

Loan and financing rates contracted by subsidiary Brasil Telecom S.A. are not correlated to amounts of accounts receivable. Telephony tariff adjustments do not necessarily follow increases in local interest rates, which affect the subsidiary's debts. Consequently, a risk arises from this lack of correlation.

### e. Contingency Risks

Contingency risks are assessed, as probable possible or remote according to loss hypotheses. Contingencies considered as probable risk are recorded. Details on this risk are presented in Note 7.

### f. Risks Related to Investments

The Company has investments valued by the equity method and stated at cost of acquisition. The Brasil Telecom S.A., the Nova Tarrafa Participações Ltda., and the Nova Tarrafa Inc. are controlled corporations, whose investments are valued using the equity in subsidiaries.

Investments valued at cost are immaterial in relation to total assets. The risks related to them would not cause significant impacts to the Company's if losses were to occur on these investments.

The values related to the investments are represented as follows:

	03/31/04		12/31/03	
	Book Value	Market Value	Book Value	Market Value
<b>INVESTMENTS</b>	<b>4,389,240</b>	<b>4,456,742</b>	<b>4,470,460</b>	<b>5,655,364</b>

<b>Other investments</b>	<b>11,771</b>	<b>11,771</b>	<b>12,232</b>	<b>12,233</b>

The investment quoted on the stock exchange refers to the interest in Brasil Telecom S.A., and its market value valued based on the market quotations in trading between minority shareholders.

### g. Temporary Cash Investment Risks

The Company has several temporary cash investments in exclusive financial investment funds (FIFs), whose assets are constituted by post-fixed, federal securities, pre-fixed and exchange rates indexed to CDI, through future contracts indexed to the exchange rate of the Futures and Commodities Exchange - BM&F and investment fund in foreign currency, with no credit risks in such operations. The Company has financial investments in the amount of R\$576,560 (R\$490,538 as of December 31, 2003). Income earned to the quarter date is recorded in financial income and amounts to R\$20,607 (R\$13,875 in 2003). In the consolidated financial statements the amounts is as follows: temporary cash investments in the amount of R\$2,610,493 (R\$1,805,634 as of December 31, 2003) and income earned in the amount of R\$71,989 (R\$67,029 in 2003).

## 6. BENEFITS TO EMPLOYEES

The benefits described in this note are offered to the employees of the Company, its subsidiary Brasil Telecom S.A. and its wholly-owned subsidiary. These companies are better described together, and can be referred to as Brasil Telecom (group) and for the purpose of the pension scheme cited in this note, are also denominated Sponsor.

### a. Private Pension Plan

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Brasil Telecom (group) sponsors private pension schemes related to retirement for its employees and assisted members and, in the case of the latter, medical assistance in some cases. These plans are administered by two foundations, which are Fundação de Seguridade Social (SISTEL), which originated from certain companies of the former Telebrás System and Fundação dos Empregados da Companhia Riograndense de Telecomunicações (FCRT) originating from the former CRT, a company merged by the Company on December 28, 2000.

The bylaws stipulate approval of the supplementary pension policy and the joint liability attributed to the defined benefit plans is subject to the acts signed with the foundations, with the agreement of the Supplementary Pensions Department - SPC, when applicable to the specific plans.

The sponsored plans are valued by independent actuaries on the balance sheet date. In the case of the defined benefit plans described in this explanatory note, the Company adopts immediate recognition of the actuarial gains and losses. Full liabilities are booked for the plans showing deficits. This measure has been applied since the 2001 financial year, when the regulations of CVM Ruling Nr. 371/00 were adopted. In cases that shown positive actuarial situations, no assets are recorded due to the legal impossibility of reimbursing the surpluses.

The characteristics of the supplementary pension plans sponsored are described below:

### **FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL (SISTEL)**

#### **Plans**

##### **TCSPREV (Defined Contribution, Settled Benefit, Defined Benefit)**

This defined contribution and settled benefit plan was introduced on February 28, 2000, with the adherence of around 80% of the employees at that time. On December 31, 2001, all the pension plans sponsored by SISTEL were merged, being exceptionally and provisionally approved by the Supplementary Pensions Department - SPC, due to the need for adjustments to the regulations. They were subsequently transformed into defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, Convênio de Administração BrT and the Termo de Relação Contratual Atípica, the conditions established in the original plans being maintained. On March 2003, this plan was suspended to the employees who want to be included in the supplementary pension plans sponsored by the Company. TCSPREV currently attends to around 69.9% of the staff.

##### **PBS-A (Defined Benefit)**

Sponsored jointly with other companies linked to the telecommunications services market and intended for participants that had the status of beneficiaries on January 31, 2000.

##### **PAMA - Health Care Plan for Retired Employees (Defined Contribution)**

Sponsored jointly with other companies linked to the telecommunications services market and intended for participants that had the status of beneficiaries on January 31, 2000, and also for the beneficiaries of the PBS-TCS Group, incorporated into the TCSPREV on December 31, 2001, and beneficiaries of the plans of definite benefits PBS s of other sponsors of the SISTEL. According to a legal/actuarial appraisal, the sponsor's liability is exclusively limited to future contributions.

##### **PAMEC-BrT (Health-care Plan for Supplementary Pension Beneficiaries)**

Medical assistance for retirees and pensioners linked with the PBT-BrT, which was incorporated into the TCSPREV on December 31, 2001.

#### **Contributions Established for the Plans**

##### **TCSPREV**

Contributions to this plan were maintained on the same basis as the original plans incorporated in 2001 for each group of participants, and were established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV (defined contribution). In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by the employee and the sponsor, and the basic contribution percentages vary between 3% and 8% of the participant s salary, according to age. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without equal payments from the sponsor. In the case of the PBS-TCS group, the sponsor s contribution in 2003 was 12% of the payroll of the participants, whilst the employees' contribution varies according to the age, service time and salary. An entry fee may also be payable depending on age on entering the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits. In the quarter, contributions by the sponsor to the TCSPREV group represented on average 6.51% of the payroll of the participants in the plan. For the employees linked to the plan this average was 5.88%.

##### **PBS-A**

Contributions may occur in case of accumulated deficit. As of December 31, 2003, the plan recorded a surplus.

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

### PAMA

This plan is sponsored with contributions of 1.5% on payroll of active participants linked to PBS plans, segregated and sponsored by several SISTEL sponsors. In the case of Brasil Telecom (group), the PBS-TCS was incorporated into the TCSPREV plan on December 31, 2001, and became an internal group of the plan.

The company's contributions for this plan, that are exclusively the responsibility of the sponsors, were R\$29 in the quarter (R\$31 in 2003).

### PAMEC-BrT

Contributions for this plan were fully paid in July 1998, through a single allotment. New contributions will be limited to the future necessity to cover expenses, if that occurs.

### FUNDAÇÃO DOS EMPREGADOS DA CIA. RIOGRANDENSE DE TELECOMUNICAÇÕES -FCRT

The main purpose of sponsoring FCRT is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants. The actuarial system for determining the plan's cost and contributions is collective capitalization, valued annually by an independent actuary.

### **Plans**

#### BrTPREV

A defined contribution and settled benefits plan, introduced in October 2002, to provide supplementary social security benefits in addition to those of the official social security system, that initially only took care of the employees linked to the Rio Grande do Sul Branch. In March 2003 this plan was also opened to the new employees of the Company and its subsidiaries who wanted to participate in the sponsored complementary social security plans. BrTPREV attends around 24.9% of the employee staff.

#### Fundador - Brasil Telecom and Alternative - Brasil Telecom

Defined benefits plans to provide supplementary social security benefits in addition to those of the official social security system, now closed to the entry of new participants. Nowadays, this plan attend around 1.8% of the employee staff.

### **Contributions Established for the Plans**

#### BrTPREV

The contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine the costs. Contributions are credited in individual accounts of each participant, the employee's and sponsor's contributions being equal, the basic percentage contribution varying between 3% and 8% of the participation salary, according to age. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without equal payments from the sponsor. The sponsor is responsible for the cost of administrative expenses on the basic contributions from employees and normal contributions of the Company and risk benefits. In the quarter, contributions by the sponsor represented on average 5.96% of the payroll of the plan participants, whilst the average employee contribution was 5.21%.

#### Fundador - Brasil Telecom and Alternative - Brasil Telecom

The regular contribution by the sponsor in the quarter was an average of 1.92% of the payroll of plan participants, who contributed at variable rates according to age, service time and salary, the average rate was 2.96% in the quarter. With the Alternative-Brasil Telecom, the participants also pay an entry fee depending on the age of entering the plan.

The usual contributions of the Sponsor, in the quarter, were R\$5 (R\$125 in December 31, 2003)

The technical reserve corresponding to the current value of the Company's supplementary contribution must be amortized, due to the actuarial deficit of the plans, within the maximum established period of 20 years as from January 2000, according to Circular 66/SPC/GAB/COA from the Supplementary Pensions Department dated January 25, 2002. Of the maximum period established, 17 years and nine months still remain for complete settlement. The amortizing contributions in the quarter were R\$25,200 (R\$7,451 in 2003).

### **b. Stock Option Plan for Officers and Employees**

The Extraordinary Shareholders Meeting held on April 28, 2000 approved the general plan to grant stock purchase options to officers and employees of the Company and its subsidiaries. The plan authorizes a maximum limit of 10% of the shares of each kind of Company stock. Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Company shareholders. The administration of this plan was entrusted to a management committee appointed by the Board of Directors, which decided only to grant preferred stock options. The plan is divided into two separate programs:

**Program A:**

This program is granted as an extension of the performance goals of the Company established by the Supervisory Board for a five-year period. Up to March 31, 2004, no stock had been granted.

**Program B:**

The management committee, based on the market price of 1000 shares at the date of the grant, establishes the price for exercising the option, which will be monetary restated by the IGP-M between the date of signing the contracts and the date of payment.

The right to exercise the option is given within the following periods as follows:

	First Grant		Second Grant	
	From	End of Period	From	End of Period
33 %	01/01/04	12/31/08	12/19/05	12/31/10
33 %	01/01/05	12/31/08	12/19/06	12/31/10
34 %	01/01/06	12/31/08	12/19/07	12/31/10

The acquisition periods can be anticipated as a result of the occurrence of events or special conditions established in the option contract.

The information related with the general plan to grant stock options is summarized below:

	Preferred stock options (thousand)	Average exercise price - R\$
Balance as of 12/31/2003	907,469	11.73
Balance as of 03/31/2004	907,469	11.73

There has been no grant of options for purchase of stocks exercised until the end of the quarter and the representativeness of the balance of the options before the total outstanding stocks for the Company Brasil Telecom S.A is 0.17% (0.17% in December 31, 2003).

Considering the hypothesis that the options will be fully exercised, the opportunity cost of the premiums of the respective options, calculated by the Black&Scholes method, for the Company would be R\$311 (R\$204 in 2003).

**c. Other Benefits to Employees**

Other benefits are granted to employees, such as: health care/dental care, meal allowance, group life insurance, occupational accident benefit, sickness benefit, transport allowance, and others.

**7. PROVISIONS FOR CONTINGENCIES**

Brasil Telecom (Group) periodically performs an assessment for contingencies risks, and also review lawsuits taking into consideration the legal, economic, taxes and accounting aspects. The assessment of these risks aims at classifying them according to the chances of an unfavorable outcome between the alternatives of probable, possible or remote, taking into account, according to the circumstances, the opinion of its legal counselors.

Provisions are recognized for those contingencies where the risks are classified as probable. Contingencies classified as possible or remote are discussed in this Note. In certain situations, due to legal requirements or precautionary measures, judicial deposits are made to guarantee the continuity of the cases in litigation. These lawsuits are in progress in various courts, including administrative, lower, and higher courts.

**Labor Claims**

The provision for labor claims includes an estimate by the Company's management, supported by the opinion of its legal counselors, of the probable losses related to lawsuits filed by former employees of the Company and of service providers.

**Tax Suits**

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The provision for tax contingencies refers mainly to matters related to tax collections due to differences in interpretation of the tax legislation by the Brasil Telecom (group) counsel and the tax authorities.

### Civil Suits

The provision for civil contingencies refers to cases related to contractual adjustments arising from Federal Government economic plans, and other cases.

### Classification by Risk Level

#### Contingencies with a Probable Risk

Contingencies classified as having a probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

NATURE	PARENT COMPANY		CONSOLIDATED

**c. Capital Reserves**

Capital reserves are recognized in accordance with the following practices:

Reserve for Premium on Subscription of Shares: results from the difference between the amount paid on subscription and the portion allocated to capital.

Special Goodwill Reserve: represents the net value of the contra entry of the goodwill recorded in deferred charges as provided by CVM Instructions 319/99, 320/99 and 349/01. When the corresponding tax credits are used, the reserve is capitalized, annually, in the name of the controlling shareholder, observing the preemptive rights of the other shareholders.

Other Capital Reserves: recorded by the contra entry of the funds invested in income tax incentives.

**d. Profit Reserves**

The profit reserves are recognized in accordance with the following practices:

Legal Reserve: allocation of five percent of the annual net income, up to twenty percent of paid-up capital or thirty percent of capital plus capital reserves. The Legal Reserve is only used to increase capital or to offset losses.

Unrealized profit reserve: recognized in the year in which the amount of the mandatory dividend, calculated in accordance with the statutory provisions or with article 202 of Law Nr. 6,404/76, exceeds the realized portion of net income. The reserve can offset losses in subsequent years or, when realized, comprise the calculation of net income adjusted for dividend payments. According to the restatement required by Law Nr. 10,303/1, the income recorded under the unearned income reserve as from 2002 financial year should be considered at the value of the dividend postponed. However the unearned income reserve formed under the previous regulations, when realized, will continue to form part of the calculation base for the dividends, which is the case of unrealized profit reserve registered in the Company.

Retained Earnings: Comprises the remaining balances of net income, adjusted under the terms of article 202 of Law Nr. 6,404/76, or by the recognitions of prior year adjustments, when applicable.

**e. Dividends and Interest on Shareholders Equity**

The dividends are calculated in the end of the balance sheet date, in accordance with Company bylaws and corporate law. Mandatory minimum dividends are calculated in accordance with article 202 of Law Nr. 6,404/76 and the preferred or priority dividends are calculated in accordance with Company bylaws. As a result of a resolution by the Board of Directors, the Company may pay or credit, as dividends, Interest on Shareholders Equity (JSCP), under the terms of article 9, paragraph 7, of Law Nr. 9.249, dated December 26, 1995. The interests paid or credited will be offset against the minimum statutory dividend.

The JSCP credited to the shareholders and that will be allocated to dividends, net of income tax, as part of the proposed allocation of income for the current year that will be closed by the end of 2004, and to be submitted for approval of the general shareholders meeting, are as follows:

The loans and financing account includes the amount of R\$126,637 (R\$125,044 on December 31, 2003), related to the assets transferred to Brasil Telecom Participações S.A. in the TELEBRÁS spin-off process, referring to liabilities of Telebrasília Celular S.A. and Telegoiás Celular S.A. through a repass of funds for financing their expansions. These amounts are subject to exchange variation plus interest between 11.55% p.a. and the semiannual Libor rate plus 1% or 1.5% per year. These loans are being challenged in the courts by the holding company of the aforementioned mobile cellular operators, and therefore are not being received. According to the opinion of the Company's legal counselors, there are no expectations of loss in relation to these receivables.

The income related to the restatement of the charges on these loans receivable is being deferred for tax purposes, and the corresponding deferred income and social contribution taxes are recognized.

The amounts related to loans and debentures receivable from the Subsidiary until December 31, 2004, in the amount of R\$433,264 (R\$507,308 in December 31, 2003), are being presented in the noncurrent assets, in accordance with the article Nr. 179, under the Corporate Law.

The recoverable amount foreseen after the year 2013 is a result of a provision to cover an actuarial insufficiency of the pension plan, the liability for which is being settled according to the maximum period established by the Supplementary Pensions Department ( SPC ), which is 17 years and 9 months. Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the company presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. Tax credits in the amount of R\$47,902, attributed to the Consolidation were not recorded, due to the uncertainties of taxable income in the next ten years in BrT CS Ltda. and in Freelance S.A., indirect subsidiaries.

Other Tax Carryforwards

It is comprised of Federal withholding taxes and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Complementary Law Nr. 102/00.

In 2004, considering the current technological stage of the telecommunications equipment, the Company, based on technical report issued by Instituto Nacional de Tecnologia, in January 12, 2004, decided to changed the depreciation rates of some equipment, covering underground systems, and metallic, coaxial and optic cables. This change generated a reduction in income, net of taxes, in the amount of R\$72,088.

### Rent Expenses

The Company rents properties, posts, access through third-party land areas (roads), equipment and connection means, formalized through several contracts, which mature on different dates. Some of these contracts are intrinsically related to the provision of services and are long-term agreements. Total rent expenses related to such contracts amount to R\$18 (R\$4 in 2003) for the Company and R\$49,544 (R\$45,236 in 2003) for the consolidated.

### Leasing

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The Company and the subsidiary Brasil Telecom S.A. have lease contracts for information technology equipment. This type of leasing is also used for aircraft to be used in consortium with other companies, where the participation is 15.6% for the Company and 54.4% for the subsidiary. Leasing expenses recorded in the quarter amounted to R\$417 (R\$387 in 2003) for the Company and R\$9,953 (R\$10,962 in 2003) for the consolidated.

### Insurance

An insurance policy program is maintained for covering reversible assets and loss of profits as established in the Concession Contract with the government. Insurance expenses in the quarter were R\$241 (R\$269 in 2003) for the Company and R\$2,648 (R\$2,462 in 2003) for the consolidated.

The assets, responsibilities and interests covered by insurance are the following:

Type	Cover	Amount insured	
		03/31/04	12/31/03
Operating risks	Buildings, machinery and equipment, installations, call centers, towers, infrastructure and information technology equipment	11,526,140	9,910,135
Loss of profit	Fixed expenses and net income	7,370,615	6,789,697
Performance bonds	Compliance with contractual obligations	120,870	165,490

Insurance policies are also in force for third party liability and officers liability, the amount insured being the equivalent of US\$15,000,000.00 (fifteen million US dollars).

There is no contractual civil liability insurance to cover clients in the case of claims or judicial suits, or optional third party liability for third party claims involving Company vehicles.

In 2003 the subsidiary Brasil Telecom S.A paid PIS and COFINS taxes in installments, previously settled through offsetting tax credits, the ratification of which was refused by Federal Revenue department, at the administrative level. The payment in installments was included in the Program for Tax Recovery (REFIS) and Special Payment in Installment (PAES). The amount divided into installments through REFIS totaled R\$14,753, with the period for amortization established at 17 monthly payments, and the subsidiary still needs to pay R\$10,921 (R\$13,489 in December 31, 2003) for the remaining period of 12 months. With respect to PAES, the local amount divided into installments was R\$42,909 and the period for amortization was established as 120 monthly payments, with the subsidiary still needing to pay R\$43,395 (R\$43,529 in December 31, 2003) for the remaining period of 111 months. The balances payable for both programs are charged interest at the long-term interest rate (TJLP).

With respect to the tax credits that were refused, the subsidiary Brasil Telecom S.A has lodged appeals at the judicial level for restitution or future compensation.

The principal long-term portion refers to ICMS (State VAT) on the 69/98 Agreement, which is being deposited in escrow. It also includes the ICMS deferral, based on incentives by the government of the State of Paraná.

### 38. COMMITMENTS

#### Services Rendered due to Acquisition of Assets

BrT SCS Bermuda acquired fixed assets from an already existing company. Together with the assets of underwater cables acquired, it assumed the obligation of providing data traffic services, initially contracted with the company that sold the assets, which was a beneficiary of the financial resources of the respective advances. The time remaining for the providing of such assumed services is around twenty years.

#### Contracting of financing

On March 24 2004, the Company signed a contract for financing with a syndicate of Japanese banks led by Sumitomo Mitsui Banking Corporation - SMBC, with guarantees from the Japan Bank for International Cooperation - JBIC. The effects of this contracting was entered in the accounting records after the closing of the quarter, and coincided with the receipt of the funds on April 30 and May 3, 2004. The contracted amount, destined for financing the Company's investments, was ¥ 21,572,000,000.00 (Twenty-one billion, five hundred and seventy-two million Japanese yen), corresponding to the credited amount of R\$577,240. The grace period is for two years and amortization will occur in 10 consecutive, half-yearly payments, with the first payment falling due on September 24, 2006 and the last on March 24, 2011. Remuneration is

the Iene six-month LIBOR plus interest at 1.92% p.a. Payment of interest is six-monthly, always falling due on September 24 and March 24 of each year.

### 39. SUBSEQUENT EVENT

#### **Acquisition of Interests in MTH do Brasil Ltda. and Vant Telecomunicações S.A.**

On January 20, 2004, the Subsidiary Brasil Telecom S.A. manifested before MetroRED Telecommunications Group Ltd. and FTT Ventures, Limited ( FTT ), as well as before Aescom Sul Ltd., its intention to exercise the options of purchase of the remaining capital, respectively, of MTH of Brazil Ltd. ( MTH ), holder of 99.9% of the capital of MetroRED Telecommunications Ltd. ( MetroRED Brasil ) and of Vant Telecomunicações S.A. ( Vant ), companies in which the Subsidiary had already acquired 19.9% of the capital.

The transfers of control of MetroRED Brasil and of Vant to Companhia were approved respectively in meetings of the Council of Directors of ANATEL, held on April 28 and May 5, 2004.

Thus, MetroRED and FTT, through the signing of the competent instruments, transferred to the company on May 13, 2004, the quotas representing 80.1% of the capital of MTH and 01 (one) quota of MetroRED Brasil, receiving in consideration thereof the price of US\$51,000,000.00 (fifty-one million US dollars). Similarly, Aescom, through the signing of the competent instruments, transferred to the Company on May 13, 2004, the shares representing 80.1% of the capital of Vant, receiving in consideration thereof the price of R\$15,575. With the conclusion of these transactions, Brasil Telecom S.A. became, directly and indirectly, the titleholder of the total capital of MTH and, consequently, of MetroRED Brasil, and also of the total capital of Vant.

MetroRED Brasil is a provider of private telecommunications network services through fiber-optic digital networks, and has 339 km of local networks in São Paulo, Rio de Janeiro, and Belo Horizonte and 1,485 km of long distance network connecting these three major metropolitan commercial centers. It also owns an Internet Solutions Center with an area of 3,500 m<sup>2</sup> in São Paulo, which offers co-location, hosting and added-value services.

Vant is a service provider company for corporate networks, founded in October 1999. Initially with focus on TCP/IP networks, Vant began in Brazil with a network 100% based in this technology. Vant operates throughout Brazil, and is present in the main Brazilian capitals and offers a wide portfolio of voice and data products.

The above mentioned acquisitions are founded on the strategy for expansion by Brasil Telecom S.A. outside Region II, due to its positioning in the corporate market, its focus on data transmission services and on the complementation of its networks with the Brasil Telecom S.A.

**Lines Installed** In the 1Q04, Brasil Telecom installed 14.2 thousand lines, ending the quarter with 10.7 million terminals. In relation to 1Q03, the plant registered an increase of 92.5 thousand lines.

**Lines in Service** Plant in service totaled 9.7 million lines in the 1Q04. In this quarter, the Company started a process of delinquent line detailing, disconnecting 150 thousand lines which have no prospect of returning to the active base in the medium term. Therefore, the utilization rate was reduced to 90.9%. This process will remain strictly operative throughout the next quarters.

**ADSL** Brasil Telecom practically doubled its ADSL accesses in service in just a year, reaching 324.9 thousand accesses at the end of 1Q04.

**Goals**

**Quality Goals**      **On February and March 2004, Brasil Telecom accomplished all of the quality goals predicted in the General Plan of Quality Targets** established by Anatel in relation to the offering of switched fixed telephony service, in long-distance and local segments.

During January 2004, Brasil Telecom did not reach two quality targets due to problems in the network routes of some mobile carriers, causing a loss of calls due to traffic jams, which contributed to the failure in meeting the call completion target.

**Universalization Goals**      **At a meeting held by Anatel's Board of Directors on January 14 and 15, 2004, Brasil Telecom received approval for the achievement of the universalization targets.**

Following the approval, Brasil Telecom started to offer inter-regional and international long-distance services on January 22, 2004. In relation to the Personal Communication Service (PCS), Anatel authorized Brasil Telecom to use the radio frequency for its mobile operation.

**Traffic**

OPERATING DATA	1Q04	4Q03	1Q04/4Q03 (%)
Exceeding Local Pulses (Million)	2,586	2,927	(11.7)
Domestic Long Distance Minutes (Million)	1,534	1,559	(1.7)
Fixed-Mobile Minutes (Million)	1,037	991	4.7
Exceeding Pulses/Average LIS/Month	88.1	99.3	(11.6)
DLD Minutes/Average LIS/Month	52.2	52.9	(1.2)
Fixed-Mobile Minutes/Average LIS/Month	35.3	33.6	5.1

**Exceeding Local Pulses**      **Due to the typical seasonal effect in the first quarter of every year, the local traffic dropped 11.7, influenced by:**

- **The fewer business days in the quarter** (62 days in the 1Q04 against 65 days in the 4Q03);
- **The economic slowdown noted in the period**, which affects the purchase power and the level of confidence of the consumers;
- **The effects of aggressive promotions to sell pre-paid phones** during Christmas time.

It is worth noting that, as those credits end, the negative impact on local traffic decreased. Starting in March, this effect was no longer noted.

**DLD Traffic**      In the 1Q04, Long-Distance Traffic (LD) decreased 1.7% in comparison with the previous quarter. Even though the volume of traffic is lower, as a result of the seasonal effect and economic slowdown, **Brasil Telecom increased its share in the long-distance market. This increase was leveraged by the launch of the inter-regional and international long-distance service operation.**

**DLD Market Share**      **In just two months of operation, Brasil Telecom gained a 26.5% market share in the inter-regional segment and a 15,0% market share in the international segment.**

Leveraged by the success of the campaigns developed for the inter-regional and international service operation, using the CSC 14, **the LD market share of Brasil Telecom increased by 1.8 p.p. in intra-regional and 0.4 p.p. in the intra-sector segment.** In the intra-sector segment, market share reached 89.9% in the 1Q04, while in the intra-regional segment, Brasil Telecom reached 77.8%.

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

### Traffic Inter-Networks

**Inter-networks traffic grew 4.7% in the 1Q04**, mainly due to the increase of 7.4% in mobile plant of Region II.

Of the total inter-network traffic, 84.7% refers to VC-1 calls, 12.1% to VC-2 calls and 3.2% to VC-3 calls. **There was an increase of VC-2 traffic, which rose its share from 6.7% in the 4Q03 to 12.1% in the 1Q04, while the VC-3 rose its share from 1.6% in the 4Q03 to 3.2% in the 1Q04, resulting from the increase of mobile long-distance calls with CSC 14.**

### Tariffs

#### Higher Justice Court Decision keeps IPCA Adjustment

The last decision of Higher Justice Court in relation to the rate readjustment did not alter the current situation in relation to the percentages granted and applied on June 29, 2003. It is worth mentioning that the merit of the question has not yet been judged.

**Inter-network Adjustment** Anatel authorized, on February 9, 2004, the fixed-mobile tariff adjustments. **The average adjustments were 6.99% and 9.17% for VC and VU-M tariffs, respectively.**

### Subsidiaries

#### Brasil Telecom Celular

The Board of Anatel approved, at a meeting held on January 14, 2004, the accomplishment of the universalization targets of Brasil Telecom. Thus, **Brasil Telecom Celular was authorized to operate its PCS license.** This authorization was published in the Federal Official Journal on January 19, 2004.

The coverage was scaled giving priority to the regions with higher GDP and it will be expanded to the other locations over the next months. By exceeding the targets specified by Anatel, in December 2003, Brasil Telecom Celular already covered at least 50% of the metropolitan area of all 10 capital cities within Region II, with 146 installed BTSs. **Brasil Telecom Celular estimates to cover, by the beginning of the second half of 2004, at least 345 locations, by offering top quality mobile telephony to these locations.**

**At the completion of this project, Brasil Telecom Celular will offer to its future subscribers a coverage which is broader than that of Band B in certain regions, becoming the largest GSM coverage in Region II.**

In order to reach these objectives, R\$54.4 million were invested in the 1Q04, totaling R\$163.6 million in investments since the beginning of the project.

**Nowadays, Brasil Telecom Celular counts on approximately 16 thousand clients**, which resulted from the Our Cellphone (*Nosso Celular*) project, when Brasil Telecom's employees, their families and friends were able to acquire cell phones in special financing conditions.

The main platforms that will be used to provide the mobile service (prepaid service, voice mail, short messages - SMS, multimedia messages - MMS, other data service platforms - WAP, OTA, Middleware and anti-fraud) are already being implemented and integrated into the other systems and platforms of Brasil Telecom

### Financial performance

#### Revenues

##### Local Service

**The local service revenue, not including VC-1, reached R\$1,116.9 million in the 1Q04**, 5.0% below the obtained in the 1Q03.

**The installation revenue totaled R\$9.1 million in the 1Q04**. This performance is a result of the 404.8 thousand lines activated in the quarter.

**Gross revenue from basic subscription reached R\$747.4 million in the quarter**, a reduction of 0.2% in relation to R\$748.6 million registered in the 4Q03. This variation is explained mainly by the reduction of 0.4% in the average lines in service.

**Gross revenue from measured service totaled R\$336.4 million in the 1Q04**, a reduction of 11.2% in relation to

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

4Q03, basically due to the reduction of 0.4% in the average lines in service and to the drop of 11.7% in local traffic.

**Public Telephony** **Gross revenue from public telephony reached R\$108.2 million in the 1Q04**, a 6.3% reduction in comparison with 4Q03.

**Domestic Long Distance** **Gross revenue from long-distance calls, not including VC-2 and VC-3, reached R\$382.2 million in the 1Q04**, representing an 1.3% increase in comparison to 4Q03, due to the beginning of CSC 14 in the inter-regional and international connections of long distance.

In the 1Q04, revenue from inter-regional DLD hit R\$21.3 million, while the revenue from ILD totaled R\$5.7 million.

**Inter-Networks** **Gross revenue from inter-network VC-1, VC-2 and VC-3 calls reached R\$702.1 million in the 1Q04**, a 14.4% increase in relation to 4Q03, reflecting the increase of mobile long-distance calls using the CSC 14 and the increase of mobile plant in Region II.

The operation of CSC 14 in the calls originated from cell phones contributed with revenue of R\$78.5 million in the 1Q04, against R\$37.4 million in the 4Q03.

**Interconnection** **In the 1Q04, gross revenue from interconnection dropped 11.4% in comparison with 4Q03**. This variation is explained by the increase of Brasil Telecom market share in the long-distance segments.

**Lease of Means** **In the 1Q04, gross revenue from lease means reached R\$55.1 million, 9.6% below than the R\$60,9 million** registered in the 4Q03.

**Data Communication** **In the 1Q04, gross revenue from data communication reached R\$220.5 million**, stable in relation to the previous quarter.

**Data communication revenues increased 2% in the 1Q04**, excluding internet dial-in traffic, considering the negative effect of the seasonality in the internet utilization during the two first months of the year.

A year ago, gross revenue from data communication represented 5.4% of total revenue, while in the 1Q04 this segment represented 7.6% of total gross revenue.

**Supplementary and Value-Added Services** **Gross revenue from supplementary and value-added services increased 6.0% in the 1Q04, in comparison with the previous quarter, totaling R\$96.5 million.**

In March 2004 there was 6.0 million activated intelligent services, against 5.7 million in December 2003.

**Other Revenues** **In the 1Q04, other revenues reached R\$36.3 million**, a reduction of 8.3% amounted R\$39,6.

**Gross Revenue Deductions** **Gross revenue deductions reached R\$833.5 million in the 1Q04**, representing 28.7% of gross revenue in the quarter, against 28.5% in the 4Q03.

**Net Operating Revenue/Average LIS/month** **Net operating revenue/Average LIS/month was R\$70.7 in the 1Q04**, against R\$65.5 in the 1Q03, a 7.9% increase.

### Costs and expenses

**Costs and Operating Expenses** **Operating costs and expenses totaled R\$1,781.9 million in the 1Q04**, against R\$2,003.9 million in the previous quarter.

**Cash cost (operating costs and expenses excluding depreciation, amortization, provisions and losses) was R\$1,072.7 million in the 1Q04**, a reduction of 1.4% in relation to the R\$1,088.3 million registered in the 4Q03.

**Number of Employees**

## Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

At the end of 1Q04, 5,211 employees were working in fixed telephony operation at Brasil Telecom, against 5,194 in the previous quarter. This increase is a result of the 153 admissions and 136 dismissals which occurred in the period.

**Brasil Telecom Celular ended 1Q04 with 265 employees**, against 71 in the 4Q03, reflecting the structure period for the launching of this product.

**Personnel** Personal costs and expenses reached **R\$95.3 million**, a reduction of **34.6%** in relation to the previous quarter.

Costs and expenses with personnel in the 4Q03, excluding the amount referent to the profit share of the employees (R\$46.3 million), would have been R\$99.4 million. **Therefore, costs and expenses with personnel in the 1Q04 registered a drop of 4.2% in relation to 4Q03, excluding the effects of the employee profit share.**

**Productivity** At the end of 1Q04, productivity in fixed telephony was 1,866 LIS/employee, against 1,897 in the previous quarter.

**Subcontracted services** **Costs and expenses with subcontracted services**, excluding interconnection and advertising & marketing, **totaled R\$363.8 million in the 1Q04**, a 0.4% reduction in relation to the previous quarter

**Depreciation and Amortization** **Costs and expenses for depreciation and amortization totaled R\$598.7 million in the 1Q04**, an 18.5% increase in comparison to 4Q03. Considering the stage of technological advance of the telecommunication equipment, Brasil Telecom decided to alter the depreciation rates of a few items to better reflect their respective useful life.

**Interconnection** **Interconnection costs totaled R\$496.2 million in the 1Q04**, an increase of 7.6% in relation to the previous quarter, reflecting the VU-M readjustment of 9.17%, authorized by Anatel in February 2004.

**Advertising & Marketing** **Expenses with advertising & marketing totaled R\$24.1 million in the 1Q04**, 14.9% less than the previous period.

**PCCR/ROB** **The ratio of Losses with Accounts Receivable (PCCR) with gross revenue in the 1Q04 was 3.0%**, a 0.5 p.p. reduction in relation to 4Q03. PCCR totaled R\$87.7 million in the 1Q04. The co-billing with mobile carriers results in a delinquency percentage above the average for other segments in which the Company operates, and also the economic slowdown in the period.

**Accounts Receivable** **In the 1Q04, gross accounts receivable registered an increase of R\$56.2 million in relation to 4Q03.**

Accounts receivable in the 1Q04 increased as a result of CSC 14 operation in the inter-regional and international segments and due to the increase of calls originated from mobile phones using the CSC 14 and to the readjustment of fixed-mobile tariffs.

By deducting allowance for doubtful accounts worth at R\$176.7 million, **Brasil Telecom's net receivable accounts totaled R\$1,922.2 million at the end of 1Q04.**

**Provisions for Contingencies** **In the 1Q04, provision for contingencies totaled R\$22.8 million.**

**The reduction of 92.6% in relation to the previous quarter derived from the contingent liabilities in the 4Q03 registered at R\$245.5 million**, related to the operations of the Rio Grande do Sul Branch, former Companhia Riograndense de Telecomunicações S.A. - CRT, due to events occurred prior to the acquisition of this company, such as labor, civil and tax proceedings, and court costs and success fees.

**Other Costs and Operating Expenses/Revenues** **Other Operating Costs and Revenues/Expenses totaled R\$38.9 million in revenues in the 1Q04**, a 22.2% reduction in comparison with 4Q03.

### EBITDA

**EBITDA of R\$892,1 million** **Brasil Telecom's EBITDA was R\$892.1 million in the 1Q04**, 2.7% above the one registered in the 1Q03.

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

<b>EBITDA Margin</b>	<b>Brasil Telecom's EBITDA margin in the 1Q04 reached 43.0%.</b>
<b>EBITDA/Average LIS/month</b>	<b>In the 1Q04, EBITDA/Average LIS/month reached R\$30.4, stable in relation to the one registered in 1Q03.</b>
<b><u>Financial Result</u></b>	
<b>Financial Result</b>	<b>In the 1Q04, Brasil Telecom registered a negative net financial result excluding Interest on Shareholders Equity of R\$95.8 million, 30.6% better than the amount registered in the 4Q03.</b>
<b>Interest on Shareholders Equity</b>	<b>Interest on Shareholders Equity (JSCP) of R\$155.8 million registered in the financial result of 1Q04 refer to the credits related to 2004, as approved in Brasil Telecom S.A. and Brasil Telecom Participações S.A. Boards of Directors on December 12, 2003.</b>

**Non operating Result**

<b>Amortization of Reconstituted Goodwill</b>	<b>In 1Q04, Brasil Telecom amortized R\$31.0 million in reconstituted goodwill from CRT acquisition (which has no impact on cash flow and on the distribution of dividends), accounted for as non-operating expenses.</b>
---	---

**Indebtness**

<b>Total Debt</b>	<b>At the end of March 2003, total consolidated debt of Brasil Telecom was R\$4.3 billion, 13.0% lower than the one registered in the 4Q03.</b>
	<b>This increase was due to the issuance of a 10-year bond by Brasil Telecom S.A. worth at US\$200 million, which bears coupon of 9.375% p.a. The interest will be paid every six months and the principal will be paid in February 2014. This transaction was the first issuance of Brasil Telecom in the international market and counts on the Political Risk Insurance (PRI) issued by the Overseas Private Investment Corporation (OPIC), an institution whose obligations are assured and honored by the US Government.</b>
<b>Average Cost of Debt</b>	<b>The consolidated debt of Brasil Telecom had an average accumulated cost of 15.1% p.a.</b>
<b>Net Debt</b>	<b>Net debt totaled R\$1,362.8 million, a drop of 25.7% in relation to December 2003.</b>
<b>Financial Leverage</b>	<b>On March 31, 2004 Brasil Telecom's financial leverage represented by the ratio of its net debt (excluding the debt with the holding company), was equal to 22.2%, against 29.9% in December.</b>
