Proxy Statement

When and where is the meeting being held?

The meeting is being held at 10:00 A.M., EDT on Thursday, May 15, 2014, at The Bethesda Marriott Hotel, 5151 Pooks Hill Road, Bethesda, Maryland.

What am I being asked to vote on at the meeting?

You are being asked to vote on three proposals at the meeting:

1. the election of eight directors for a one year term until the 2015 Annual Meeting of Shareholders and until their successors are duly elected and qualified;
2. the ratification of the appointment of Stegman & Company as the Company's independent registered public accountants for the year ended December 31, 2014; and
3. a non-binding advisory resolution approving the compensation of our named executive officers.

How does the Board recommend I vote?

The Board unanimously recommends that you vote FOR the election of all of the nominees for election as director, and FOR the ratification of accountants and FOR the nonbinding resolution approving our named executive officer compensation.

Who is entitled to vote at the meeting?

Only shareholders of record of the Company's common stock, par value \$0.01 per share (the common stock), at the close of business on March 20, 2014, will be entitled to notice of and to vote at the meeting or any adjournment or postponement of the meeting. On that date, the Company had 25,976,269 shares of common stock outstanding, held by approximately 12,543 total shareholders, including 806 shareholders of

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

record. The common stock is the only class of securities entitled to vote at the meeting.

If your shares are registered directly in your name with Computershare Trust Company, N.A., our transfer agent, then you are a shareholder of record. As a shareholder of record, you may vote in person at the meeting, or vote by proxy, using any of the following three methods to submit your proxy:

- by Internet: go to www.cesvote.com and follow the instructions provided;
- by toll-free telephone: call 1 (888) 693-8683; or
- by mail: mark, sign, date and promptly mail the enclosed proxy card in the enclosed postage-paid envelope.

If your shares are held in an account at a broker, bank or other nominee (collectively, your broker), rather than in your name, then you are a beneficial owner of street name shares, and these proxy materials are being forwarded to you by your broker. Only your broker is entitled to vote your shares at the meeting or submit a proxy. (Please see the next question for important information regarding voting by your broker.) As a beneficial owner, you are entitled to direct your broker how to vote your shares. You will need to follow the directions your broker provides you and give it instructions as to how it should vote your shares by following the instructions you received with your copy of this proxy statement. If you want to vote your shares held in street name at the meeting, you will need to obtain a legal proxy from your broker authorizing you to vote your shares. A brokerage statement or the voting instruction form you receive from your broker will not allow you to vote in person at the meeting. Please note that your broker may have a deadline for submitting voting instructions which is earlier than the deadline for voting for recordholders.

Whether or not you plan to attend the meeting, we urge you to vote and submit your proxy, by Internet, telephone or mail, or to instruct your broker how to vote, in order to ensure the presence of a quorum.

Table of Contents

Will my broker vote my shares for me?

Under the rules of the New York Stock Exchange applicable to its member firms, your broker will not vote your shares on the election of directors or the advisory resolution on executive compensation unless they receive instructions from you. **If you hold your shares through a broker, it is extremely important that you instruct your broker how to vote your shares.** The election of directors (even if not contested) and the non-binding advisory vote on executive compensation are not considered routine matters. As such, your broker cannot vote your shares with respect to these proposals if you do not give instructions.

How many votes do I have?

You have one vote for each share of common stock you hold as of the record date on each matter submitted for the vote of shareholders. You do not have the right to cumulate votes in the election of directors.

What is the quorum requirement for the meeting?

The presence, in person or by proxy, of at least a majority of the total number of outstanding shares of common stock is necessary to constitute a quorum at the meeting.

How will proxies be voted and counted?

Properly executed proxies received by the Company in time to be voted at the meeting will be voted as you specify. If you do not specify how you want your shares voted, proxies will be voted **FOR** the election of all the nominees for election as directors, **FOR** the ratification of the appointment of Stegman & Company, and **FOR** the non-binding advisory resolution approving the compensation of our named executive officers. We do not know of any other matters that will be brought before the meeting. If other matters are properly brought before the meeting, the persons named in the proxy intend to vote the shares to which the proxies relate in accordance with their best judgment.

The inspector of election appointed by the Board of Directors for the meeting will determine the presence of a quorum and will tabulate the votes cast at the meeting. Abstentions will be treated as present for purposes of determining a quorum, but as unvoted for purposes of determining the approval of any matter submitted to the vote of shareholders. If a broker advises the Company that it cannot vote on a matter because the beneficial owner has not provided voting instructions and it does not have discretionary voting authority on a particular matter, this is a broker non-vote with respect to that matter. Shares subject to broker non-votes will be counted as shares present or represented at the meeting for purposes of determining whether a quorum exists; however, such shares will not be considered as present or voted with respect to the matters on which the broker does not have the power to vote.

Can I revoke my proxy after I submit it?

Yes. You may revoke your proxy or change your vote at any time before it is voted at the meeting:

- by granting a later proxy with respect to the same shares;

- by sending written notice to Jane E. Cornett, Corporate Secretary of the Company, 7830 Old Georgetown Road, Third Floor, Bethesda, Maryland 20814 at any time prior to the proxy being voted; or

- by voting in person at the meeting.

Your attendance at the meeting will not, in itself, revoke your proxy. If your shares are held in the name of your broker, please see the voting form provided by your broker for additional information regarding the voting of your shares.

What votes are required to approve the election of directors and the other proposals?

Under Maryland law and our bylaws, directors are elected by a plurality of the votes cast in the election, in the order of the number of votes received. Each of the other proposals requires a majority of the votes cast on that matter in order to be approved.

Table of Contents

How are proxies being solicited?

Proxies may also be solicited personally or by telephone by officers, regular employees or directors of the Company or its subsidiary, EagleBank, who will not receive any special compensation for their services in soliciting proxies. Additionally, we have engaged Alliance Advisors, LLC (Alliance), a proxy solicitation firm, to assist us in the distribution of proxy materials and the solicitation of votes. We will pay Alliance a fee of \$5,500, plus reimbursement of its out-of-pocket expenses, for its services. We may also reimburse brokers, custodians, nominees and other fiduciaries for their reasonable out-of-pocket and clerical costs for forwarding proxy materials to their principals. The cost of this proxy solicitation is being paid by the Company.

How can I find out the results of the voting at the annual meeting?

Voting results will be announced by the filing of a Current Report on Form 8-K within four business days after the Annual Meeting ends. If final voting results are unavailable at that time, we will file an amended Current Report on Form 8-K within four business days after the day final results are available.

What does it mean if I receive more than one set of materials?

This means you hold shares of common stock in more than one way. For example, you may own some shares directly as a shareholder of record and other shares through a broker, or you may own shares through more than one broker. In these situations you may receive multiple sets of proxy materials. In order to vote all the shares you own, you must either complete, sign, and return all of the proxy cards or follow the instructions for any alternative voting procedure on each of the proxy cards voting forms you receive. Each proxy card you received came with its own prepaid return envelope. If you vote by mail, make sure you return each proxy card in the return envelope that accompanied that proxy card.

Why aren't all of the shareholders who are in my household getting their own copy of the proxy materials?

In some cases, only one copy of the proxy statement and the annual report is being delivered to multiple shareholders sharing an address. However, this delivery method, called householding, is not being used if we have received contrary instructions from one or more of the shareholders. We will deliver promptly, upon written or oral request, a separate copy of this proxy statement and the Annual Report to a shareholder at a shared address to which a single copy of the documents were delivered. To request a separate delivery of these materials now or in the future, you should submit a written request to: Jane E. Cornett, Corporate Secretary, at the Company's executive offices, 7830 Old Georgetown Road, Bethesda, Maryland 20814, or by calling (301) 986-1800. Additionally, any shareholders who are presently sharing an address and receiving multiple copies of shareholder mailings and who would prefer to receive a single copy of such materials may let us know by directing that request to us in the manner provided above.

Proposal 1: Election of Directors

The Board of Directors has nominated eight (8) persons for election as directors at the meeting, for a one-year period until the 2015 Annual Meeting of Shareholders and until their successors have been elected and qualified.

Unless you withhold authority to vote for one or more nominees for election as director, all proxies received in response to this solicitation will be voted for the election of the nominees listed below. Each of the nominees for election as a director currently serves as a member of the Board of Directors. Each nominee has indicated a willingness to serve if elected. However, if any nominee becomes unable to serve, the proxies received in response to this solicitation will be voted for a replacement nominee selected in accordance with the best judgment of the persons named as proxies.

The rules of The NASDAQ Stock Market (NASDAQ) require that a majority of the members of the Board be independent directors. The Board of Directors has determined that each director and nominee for election as director, other than Mr. Paul, is an independent director as that term is defined in Rule 5605(a)(2) of the NASDAQ rules. The Board has also considered whether the members of the Audit and Compensation Committees are independent under the heightened standards of independence required by Sections 5605(c)(2)(A) and 5605(d)(2)(A), respectively, of the NASDAQ rules, and has determined that they are. In making these determinations, the Board of Directors was aware of and considered the loan and deposit relationships with directors and their related interests which the Company enters into in the ordinary course of its business, the arrangements which are disclosed under Certain Relationships and Related Transactions in this proxy statement, and the compensation arrangements described under Director Compensation. In making this determination with respect to Mr. Rogers service on the Compensation Committee, the Board also considered the fees paid by the Company and its subsidiaries for legal services to the law firm of which Mr. Rogers is a member. The Board of Directors was aware that Mr. Rogers does not receive substantial personal compensation as a result of the services provided by, or the fees paid to, his firm, and as such, determined that Mr. Rogers membership in the law firm did not constitute a relationship with the Company that was material to his ability to be independent from management in connection with his duties as a member of the Compensation Committee.

As required under applicable NASDAQ listing standards, our independent directors meet in regularly scheduled executive sessions at which only independent directors are present.

Set forth below is information concerning the nominees for election as directors. Except as otherwise indicated, the occupation listed has been such person s principal occupation for at least the last five years. Each of the nominees also serves as a director of the Bank. Except as noted below, each nominee has served as a director of the Company since its organization.

Audit Committee

The Audit Committee is responsible for the selection, review and oversight of the Company's independent registered public accounting firm, occasionally referred to as the independent accountants, the approval of all audit, review and attest services provided by the independent accountants, the integrity of the Company's reporting practices and evaluation of the Company's internal controls and accounting procedures, including review and approval of quarterly and annual filings with the Securities and Exchange Commission on Forms 10-Q and 10-K and internal audit departments plans and reports. It also periodically reviews audit reports with the Company's independent accountants. The Board of Directors has adopted a written charter for the Audit Committee. A copy of the charter is available on the Company's website at www.eaglebankcorp.com. Each of the members of the Audit Committee is independent, as determined under the definition of independence adopted by NASDAQ for audit committee members in Rule 5605(c)(2)(A). The Board of Directors has determined that Mr. Alperstein is the audit committee financial expert as defined under regulations of the Securities and Exchange Commission.

The Audit Committee is also responsible for the pre-approval of all non-audit services provided by its independent accountants. Non-audit services are only provided by the independent auditors to the extent permitted by law. Pre-approval is required unless a *de minimus* exception is met. To qualify for the *de minimus* exception, the aggregate amount of all such non-audit services provided to the Company must constitute not more than five percent of the total amount of revenues paid by the Company to its independent accountants during the fiscal year in which

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

the non-audit services are provided; such services were not recognized by the Company at the time of the engagement to be non-audit services; and the non-audit services are promptly brought to the attention of the committee and approved by one or more members of the committee to whom authority to grant such approval has been delegated by the committee prior to the commencement of the non-audit services.

Compensation Committee

The Compensation Committee makes determinations with respect to salary levels, bonus compensation and equity compensation awards for executive officers. The Compensation Committee has the sole responsibility for determining executive compensation, including that of the named executive officers. Each of the members of the Compensation Committee is independent, as determined under the definition of independence adopted by NASDAQ for audit committee members in Rule 5605(d)(2)(A). The Board of Directors has adopted a charter for the Compensation Committee. A copy of the charter is available on the Company's website at www.eaglebankcorp.com.

During 2013, the Compensation Committee retained and worked with ChaseCompGroup, LLC (the ChaseCompGroup), an executive compensation and benefits consulting firm of national scope and reputation, to assist the Company in evaluating executive compensation levels and the form of executive compensation, and in connection with determining compensation levels for 2012 and 2013. In September, 2013, in accordance with the requirement contained in the Compensation Committee's revised charter that a compensation consultant not serve more than five years, the Compensation Committee retained Meyer-Chatfield Compensation Advisors to advise it in connection with executive compensation decisions for 2014.

Governance & Nominating Committee

The Board of Directors has a standing Governance & Nominating Committee, consisting of three members of the Board of Directors who are independent directors within the meaning of NASDAQ Rule 5605(a)(2). The Governance & Nominating Committee is responsible for the evaluation of nominees for election as director, the recommendation to the Board of Directors of director candidates for nomination for election by the shareholders and evaluation of sitting directors. The Board of Directors has adopted a charter for the Governance & Nominating Committee addressing the nominations process. A copy of the charter is available on the Company's website at www.eaglebankcorp.com.

The Board has not developed a formal policy for the identification or evaluation of nominees. In general, when the Board determines that expansion of the Board or replacement of a director is necessary or appropriate, the nominating committee will review, through candidate interviews with members of the Board and management, consultation with the candidate's associates and through other means, a candidate's honesty, integrity, reputation in and commitment to the community, judgment, personality and thinking style, willingness to invest in the Company, residence, willingness to devote the necessary time, potential conflicts of interest, independence, understanding of financial statements and issues, and the willingness and ability to engage in meaningful and constructive discussion regarding Company issues. The Governance & Nominating Committee would review any special expertise, for example, expertise that qualifies a person as an audit committee financial expert, and membership or influence in a particular geographic or business target market, or other relevant business experience. The Board of Directors and the Governance & Nominating Committee have not established a specific diversity component in their consideration of candidates for director. To date the Company has not paid any fee to any third party to identify or evaluate, or to assist it in identifying or evaluating, potential director candidates.

The Governance & Nominating Committee will consider director candidates nominated by shareholders during such times as the Company is actively considering obtaining new directors, on the same basis as candidates proposed by the committee, the Board or other sources. Candidates recommended by shareholders will be evaluated based on the same criteria described above. Shareholders desiring to suggest a candidate for consideration should send a letter to the Company's Corporate Secretary and include: (a) a statement that the writer is a shareholder (providing evidence if the person's shares are held in street name) and is proposing a candidate for consideration; (b) the name and contact information for the candidate; (c) a statement of the candidate's business and educational experience; (d) information regarding the candidate's qualifications to be director, including but not limited to an evaluation of the factors discussed above which the Board would consider in

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

evaluating a candidate; (e) information regarding any relationship or understanding between the proposing shareholder and the candidate; (f) information regarding potential conflicts of interest; and (g) a statement that the candidate is willing to be considered and willing to serve as director if nominated and elected. Because of the limited resources of the Company and the limited opportunity to seek additional directors, there is no assurance that all shareholder proposed candidates will be fully considered, that all candidates will be considered equally, or that the proponent of any candidate or the proposed candidate will be contacted by the Company or the Board, and no undertaking to do so is implied by the willingness

Table of Contents

to consider candidates proposed by shareholders.

In addition, the Governance & Nominating Committees regularly discusses the contributions of the persons then serving as directors, to ensure alignment with the strategic and tactical directions of the Company.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee has served as an officer or employee of the Company or Bank at any time. None of our executive officers serve as a member of the Compensation Committee of any other company that has an executive officer serving as a member of our Board of Directors. None of our executive officers serve as a member of the board of directors of any other company that has an executive officer serving as a member of the Compensation Committee. Except for loans and deposit transactions in the ordinary course of business made on substantially the same terms, including interest rates and collateral, as those for comparable transactions with unaffiliated parties, and not presenting more than the normal risk of collectability or other unfavorable features, and for transactions described under Election of Directors - Director Compensation and Executive Compensation - Certain Relationships and Related Transactions, no member of the Compensation Committee or any of their related interests has any material interest in any transaction involving more than \$120,000 to which the Company is a party.

Board Leadership Structure and Risk Oversight Role

The role of Chairman of the Board of Directors and Chief Executive Officer of the Company are currently held by the same person, Mr. Paul. This structure is not mandated by any provision of law or our articles of incorporation or bylaws. The Board of Directors reserves the right to establish a different structure in the future. The Board of Directors currently believes that this structure is the most appropriate leadership structure for the Company. Under the Company's bylaws, the official role and power of the Chairman is limited, and is related largely to the conduct of meetings of the Board of Directors and shareholders. The Board of Directors believes that the Chief Executive Officer is in the best position to be aware of major issues facing the Company on a day-to-day and long-term basis, and is in the best position to identify key risks and developments facing the Company that may need to be brought to the full Board's attention. Further, a combined Chairman/Chief Executive Officer position eliminates the potential for confusion as to who leads the Company, providing the Company with a single public face in dealing with customers, shareholders, employees, regulators, analysts and other constituencies. To date, this structure has worked successfully for the Company. The Board of Directors does not have a designated lead director. However, members of the Board of Directors are active in their oversight of management.

The Board of Directors of the Company, all of the members of which are also members of the Board of Directors of the Bank, is actively involved in the Company's and Bank's risk oversight activities. These directors, as well as the directors of the Bank, working through numerous committees of the Company and Bank, review and approve the policies of the Company and Bank. The Boards of Directors regularly review the minutes and other reports from the various Board committees.

Shareholder Communications

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

If you wish to communicate with the Board of Directors or an individual director, you can write to Eagle Bancorp, Inc., 7830 Old Georgetown Road, Bethesda, Maryland 20814, Attention: Jane E. Cornett, Corporate Secretary. Your letter should indicate that you are a shareholder, and whether you own your shares as a registered holder or in street name. Depending on the subject matter, management will: (a) forward the communication to the director or directors to whom it is addressed; (b) handle the inquiry directly or delegate it to appropriate employees, such as where the communication is a request for information, a stock related matter, or a matter related to ordinary course matters in the conduct of the Company's banking business; or (c) not forward the communication where it is primarily commercial or political in nature, or where it relates to an improper, frivolous or irrelevant topic. Communications which are not forwarded will be retained until the next Board meeting, where they will be available to all directors.

Director Attendance at the Annual Meeting

The Board of Directors believes it is important for all directors to attend the annual meeting of shareholders in order to show their support for the Company and to provide an opportunity for shareholders

Table of Contents

to communicate any concerns to them. Accordingly, it is the policy of the Company to encourage all directors to attend each annual meeting of shareholders unless they are unable to attend by reason of personal or family illness or pressing matters. All of the eight directors in office at the time attended the 2013 annual meeting of shareholders.

Audit Committee Report

The Audit Committee has been appointed to assist the Board of Directors in fulfilling the Board's oversight responsibilities by reviewing the financial information that will be provided to the shareholders and others, the systems of internal controls established by management and the Board and the independence and performance of the Company's audit process.

The Audit Committee has:

1. reviewed and discussed with management the audited consolidated financial statements included in the Company's Annual Report on Form 10-K;
2. discussed with Stegman & Company, the Company's independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T; and
3. has received the written disclosures and letter from Stegman & Company as required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountants' communications with the Audit Committee concerning independence, and has discussed with Stegman & Company, its independence.

Based on these reviews and discussions, the Audit Committee has recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The Audit Committee has also considered whether the amount and nature of non-audit services provided by Stegman & Company is compatible with the auditor's independence.

Executive Summary - Our Business

The Company, headquartered in Bethesda, Maryland, was incorporated under the laws of the State of Maryland on October 28, 1997, to serve as the bank holding company for EagleBank (the Bank). The Company was formed by a group of local businessmen and professionals with significant prior experience in community banking in the Company's market area, together with an experienced community bank senior management team.

The Bank, a Maryland chartered commercial bank, which is a member of the Federal Reserve System, is the Company's principal operating subsidiary. It commenced banking operations on July 20, 1998. As of December 31, 2013, the Bank operated eighteen banking offices: seven in Montgomery County, Maryland located in Rockville (three), Bethesda, Silver Spring, Potomac and Chevy Chase; five located in the District of Columbia; and six in Northern Virginia located in Tysons Corner, Ballston, Rosslyn, Reston, Merrifield and Old Town Alexandria.

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

The Bank operates as a community bank alternative to the super-regional financial institutions which dominate its primary market area. The cornerstone of the Bank's philosophy is to provide superior, personalized service to its clients. The Bank focuses on relationship banking, providing each client with a number of services, familiarizing itself with, and addressing itself to, client needs in a proactive, personalized fashion. Management believes that the Bank's target market segments, small to medium-sized for profit and non-profit businesses and the consumer base working or living in and near of the Bank's market area, demand the convenience and personal service that a smaller, independent financial institution such as the Bank can offer. It is these themes of convenience and proactive personal service that form the basis for the Bank's business development strategies.

Based on June 30, 2013 deposit market share, EagleBank held the highest rank among Washington area community banks and was the only locally based community bank in the top 10 as reported by the FDIC.

Compensation Components

2013 Executive Pay-for-Performance

2013 was an outstanding performance year for the Company, as we exceeded our financial objectives on many fronts. As in prior years, our 2013 executive compensation awards reflected both financial and operational results that our Board of Directors determined critical to our long-term strategic objectives. The connection between our performance results and named executive officer compensation awards continues to be at the forefront of decision-making. The Compensation Committee also takes into account risk management practices within the organization, including results of federal and state regulatory examinations and internal controls matters that may arise from internal and independent audits throughout the year.

The key components of our 2013 executive compensation program for all named executive officers consist of a base salary, a performance-based cash incentive plan [the Senior Executive Incentive Plan (the SEIP)], an equity based compensation plan (the 2006 Stock Plan), a 401(k) Plan and a nonqualified supplemental executive retirement benefit program for all named executive officers except Mr. Paul (implemented in the second quarter of 2013). In lieu of a supplemental retirement benefit plan for Mr. Paul, the Board of Directors determined that a one-time grant of restricted equity in 2013 was beneficial to the Company as a retirement benefit that aligned with shareholder interests, as further described below. In addition, the restricted equity has a four-year vesting period, with no immediate vesting and then twenty-five (25%) percent vesting at the end of each year.

Based on peer reviews and the results of market survey data prepared by Meyer-Chatfield Compensation Advisors (MCCA), the Company's outside compensation consultant, the Compensation Committee took the following actions with respect to the 2013 compensation of the named executive officers:

- **Base Salaries**

The Board of Directors believes that base salaries for named executive officers should be targeted at market competitive levels. Base salaries are reviewed annually and adjusted based on our review of market data and assessment of Company and individual executive performance. In 2013, our named executive officers received base salary increases of 4% to 10% over 2012 base salary levels.

- **Senior Executive Incentive Plan**

The SEIP was established to reward our executives for achieving or exceeding predefined performance goals. In 2013, all named executive officers participated in the SEIP. Under the plan, an executive is eligible to earn a percentage of his or her base salary based on achievement of Company and individual performance objectives. With respect to 2013 performance, executives could earn an incentive payment of 25% to 50% of their base salary at target performance levels. For 2013, a participant could receive a pay out of incentive awards above target, if performance results were beyond performance expectations (referred to as target plus). Performance must be at least 15% above budgeted goals

to achieve target plus payouts. Payments for performance in excess of target are not capped, but increase in proportion to the level of performance achieved. Reflecting our above-target performance for the year, the named executive officers received bonus payments that were 64% to 262% of their target bonus opportunities.

We believe our use of annual performance metrics versus longer term metrics is appropriate, in that current economic conditions and unforeseeable changes in business can so significantly impact (for better or for worse) the results of operations, that it would be inordinately difficult to establish appropriate multi-year targets. In addition, use of multi-year targets, or targets based on market performance of our stock, could negatively impact participants who perform admirably but not receive market recognition for it. Significantly, we have incorporated a longer term element in our plan by adopting a vesting period that creates not only a golden handcuff, but provides an impetus for achieving continued performance.

Table of Contents

For 2013, the target goals, the Company's actual performance and the weighting of each goal for purposes of determining the amount of the award to each named executive officer were as set forth in the table below.

	Mr. Paul	Mr. Langmead	Mr. Marquez	Ms. Riel	Ms. Williams	Actual Performance	
Net Operating Income (available to common shareholders)	35%	25%	7.5%	15%	10%	Exceeded	Target-Plus
Nonperforming assets			10%		25%	Exceeded	Target-Plus
Strategic Alignment	25%	15%	10%	25%	10%		N/A
Total Loan Growth (Average Balance - CRE)			20%				Below Threshold
Average Core Deposit Growth (CRE Team)			25%			Exceeded	Target-Plus
Efficiency Ratio		20%		20%	10%	Exceeded	Target
Expenses (Salaries, Benefits, Other Expenses)		20%		15%		Exceeded	Target
Net Interest Margin			15%		10%	Exceeded	Target
Charge Offs					20%	Exceeded	Target-Plus
Dept/Individual Performance	40%	20%	12.5%	25%	15%		N/A

The target level for the efficiency ratio was 50.2%; for net interest margin the target level was 4.1%; the target level for net operating income (available to common shareholders) was \$42.9 million. The target level for salary, benefit and other expenses was \$59.3 million. The target levels for loan related, nonperforming asset related, deposit growth related and expense related metrics are not disclosed in order to prevent competitive harm to the Company.

- **Equity Compensation**

We believe equity ownership aligns our executives with our shareholders, promotes a long-term focus on the performance and success of the Company and is consistent with our compensation philosophy. In addition, through the use of extended vesting, equity supports our retention goals and builds future wealth for our executives only where our stock continues to perform. In 2013, we granted equity in the form of restricted stock to our named executives. The equity grants approved in February 2013 were based on Company-wide and individual performance in 2012, as well as direct compensation values in accordance with our market analysis. Awards made in February 2014, reflected the 2013 Stock Awards column of the Summary Compensation Table, relate to 2013 performance and compensation.

- To determine the amount of the equity award to a particular executive, that executive's performance is considered along with projected payouts they earned under our SEIP. We then determine the optimal level of direct compensation (base salary plus cash incentives plus equity) that we believe each executive should receive (for example a high performing executive that achieved target-plus performance levels on all of their goals as well as the Company-wide goals, should place in the 75th to 90th market percentile with regards to total direct compensation (assuming we deem our overall performance relative to our peers to be in the same range of percentile in a given year). Using this methodology, the equity awards granted to named executive officers in 2014 in respect of 2013 performance, shown in the Summary Compensation Table, ranged from 36% to 52% of an executive's base salary.

- Equity awards for 2013 performance vest ratably over three years commencing on the first anniversary of the date of grant. This helps to ensure that executives maintain a long-term focus on maintaining and improving Company-wide performance. We believe this feature of the plan enhances shareholder value for the long term.

- **Supplemental Executive Retirement Plan**

During 2013, the Company took steps to retain certain executives that were critical to the success of the organization. The Compensation Committee believed that the most efficient tool to achieve this objective was a long-term plan with long-term company performance implications. Because of the nature of a supplemental retirement benefit, with benefits payable well into retirement years, executives must maintain a focus on a long-term Company performance. In this regard, the Company adopted a Supplemental Executive Retirement Plan (SERP) with a unique design that provides for a lifetime retirement benefit at approximately 86% of the cost of similar plans for comparably situated executives. The target retirement age for the benefit is age 67.

The SERP Agreements are unfunded arrangements maintained primarily to provide supplemental retirement benefits to comply with Section 409A of the Internal Revenue Code. The Company has elected to finance the retirement benefits by purchasing annuities that have been designed to provide a future source of funds for the lifetime retirement benefits of the SERP Agreements. The primary impetus for utilizing annuities is a substantial savings in compensation expense for the Company as opposed to a traditional SERP.

The targeted retirement benefits (as a percent of final projected base salaries) are slightly below market competitive ranges, as determined by ChaseCompGroup and Meyer-Chatfield, Inc., our SERP advisor. This decision was made, in part, based on the fact that several executives that helped to build the Company are nearing retirement age. This gives the Bank less time to accrue for the benefit, which impacts the initial costs of the program. However, base salaries for several of our executives are above the market 75th percentile at this time; our advisors believe that the approved percentages will, in fact, provide competitive retirement income during the executives' retirement.

The Company considers this plan as accomplishing its objective of retention of executives critical to its success and long-term performance, and to the protection of shareholder value for the following reasons:

- Retention is enhanced in that executives must continue employment to retirement to receive the full benefit.
- Long-term performance is required in order for the Bank to provide payments under the SERP, with payments beginning at retirement and continuing for the life of the executive. The Bank is the payor, beginning at retirement, and must be in sound financial condition for the remainder of payments for the executive's life, thus ensuring sound succession planning. The SERP is not pre-funded.
- Additionally, shareholders are protected from excessive risk taking in that the retirement benefit is contingent on the bank's continued financial strength and stability. The Bank believes this inherent factor in the design of the plan promotes careful, long-term performance and mitigates risky strategies to artificially inflate shareholder price over the short term.

Mr. Paul is not a party to the SERP that was implemented for the other executive officers. The Compensation Committee determined that a one-time grant of equity was reasonable and appropriate to provide a retirement benefit in lieu of the SERP. This one-time grant was designed to provide an estimated retirement benefit having a value consistent with retirement plans provided to the chief executive officers of peer banks.

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

As such, this one-time grant has long-term performance implications. In order to meet the targeted value of an equivalent benefit under a traditional supplemental retirement plan, the Company's share price must appreciate 5% annually over the next ten years and maintain that price for the following twenty years. The Board of Directors believes that this arrangement was appropriate in that it promotes long-term decision-making in the interest of the shareholders as opposed to short-term decision-making that may be in the interest of the executive. In addition, Mr. Paul's role as a primary driver of our business, and his resulting performance, has caused the Company to successfully rank ahead of its peers in a number of key Company performance measurements. Based on this approach, the Board of Directors is satisfied with Mr. Paul's alignment of compensation and performance.

For comparative purposes, the value of the CEO equity grant should be viewed over the remaining term of Mr. Paul's service—ten years until age 67. On that basis, the rank of his compensation as compared to that of chief executive officers of the Company's peers would be as follows:

Table of Contents

Name and Principal Position	Year	Salary	Bonus	Stock Awards	Option Awards	Non-Equity Incentive Plan Compensation	All Other Compensation	Total
Ronald D. Paul, President and CEO	2013	\$ 733,700	\$ 600,000	\$ 383,837		800,141	\$ 620,790	\$ 3,138,468
Percentile Rank with Peers		95th	86th	64th			79th	95th

This is consistent with a pay-for-performance approach to compensation as validated by the Company's performance, as shown below:

Eagle Bancorp, Inc.	ROAA	Net Income 5-Year CAGR	Operating Revenue 5-Year CAGR	1-Year Total Return	3-Year Total Return	5-Year Total Return
Percentile Rank with Peers	97th	95th	95th	96th	Highest	Highest

- **Retirement Benefit**

Our 401(k) plan allows all officers and employees of the Company working 1,000 hours or more in a calendar year to defer a portion of their compensation, and provides a match of up to 3% of their base salaries, subject to certain IRS limitations. While the decision to match employee contributions is discretionary, all employees receive the same percentage match. During 2013, the Company made the maximum matching contributions.

- **Health and Welfare Benefits**

We provide health benefits to our executive officers, including the named executive officers, generally on the same basis as all of our full-time employees. These benefits include medical and dental benefits, short-term and long-term disability insurance, as well as basic life insurance coverage and long term care insurance coverage. We design our employee benefits programs to be affordable and competitive in relation to the market, as well as compliant with applicable laws and practices. We adjust our employee benefits programs as needed based upon regular monitoring of applicable laws and practices and the competitive market.

The Compensation Committee believes our current executive compensation policies and practices are effective in advancing our long-term strategic plan, reasonable in relation to our compensation peer group and responsible in encouraging the named executive officers to work for meaningful shareholder returns without taking unnecessary or excessive risks.

- **Employment and Severance Arrangements**

Each of our named executive officers has an employment agreement which contains provision for payments upon a change in control of the Company and provides for noncompetition and non-solicitation provisions benefiting the Company under certain circumstances. These agreements are described in detail under Employment Agreements following the Summary Compensation Table. The Committee believes that the agreements provide continuity of executive management and employment security, which is conducive to maximum employee effort and valuable protections for the Company and its executive officers.

CEO Pay-for-Performance

We operate in a highly-dynamic business environment, which has been and continues to be characterized by rapidly changing market and customer trends, regulatory changes and requirements, as well as expectations from shareholders for meaningful growth without excessive risk taking. To succeed in this environment, our senior leadership must be able to continually refine and enhance products and services; respond to competitive challenges in our markets; attract, satisfy and retain customers; and demonstrate an ability to quickly identify and capitalize on business opportunities.

Our steady and consistent growth over the years, as well as our success in developing a leading

Table of Contents

market position relative to our peers and competitors, has largely been the result of the exceptional leadership of Mr. Paul, and the team he has assembled, whose focus, creativity and ability to motivate our workforce has enabled us sustained year over year growth and improvement in profitability. As a result, we have sought to structure the compensation opportunities for Mr. Paul to achieve two principal objectives: to motivate and reward the achievement of our annual and longer term financial and strategic objectives and to ensure that he remains with the Company to guide our business into the future.

At the same time, we seek to align his compensation opportunities with our shareholders' long-term interests. Accordingly, in recent years, the Compensation Committee has focused on using incentive compensation with long-term company performance implications as the dominant element of his target total direct compensation opportunity (that is, the sum of base salary, target annual cash bonus opportunity and the grant date fair value of equity awards) to emphasize the importance of our ongoing financial performance and to further reward him, through his participation in increased market valuation of our common stock, when that performance is sustained over a multi-year basis, providing our shareholders a corresponding benefit and to ensure his retention consistent with our long-term executive retention objectives.

Over time, the Company's exceptional performance has correlated with an increase in the target total direct compensation opportunity of Mr. Paul, which has been largely comprised of long-term incentive compensation in the form of an annual equity award. Consistent with our business strategy, which seeks to position the Company as a community bank alternative to the super-regional financial institutions the value of these equity awards rise and fall over the long-term, much like our stock performance. Accordingly, as the vast majority of Mr. Paul's target total direct compensation opportunity is contingent on our long-term performance, he experiences the same variability in the total amount of compensation he actually realizes as our shareholders experience in the value of their shareholdings.

In the case of his Restricted Stock awards granted in 2013 in lieu of a SERP (per Mr. Paul's request to be excluded from the SERP), the Compensation Committee determined that it was reasonable and appropriate to offer him the opportunity to earn shares of our common stock over a four-year time-based vesting period to ensure his continuing loyalty to and employment with us. While the Compensation Committee recognized that this award constituted a major portion of his 2013 compensation, it believed that such an award was appropriate for the following reasons:

- His role as the primary driver of our business, resulting in the Company's market-leading position relative to peers and his recognized status as a leader and visionary in the financial services market sector.
- Our success has made our CEO an attractive candidate for employment with larger companies and companies preparing to go public. We believe that it is critical to our continued success to offer him a compensation package that will forestall the lure of employment opportunities with other companies in our industry.
- The cost to us of having to replace Mr. Paul at this point in our development, and in light of the potential impact of his departure. The Compensation Committee believed that this replacement cost would far exceed the potential cost of his target total direct compensation opportunity because of what we would likely have to pay to find a suitable replacement, the potential disruption to our current plans and initiatives, and the message that this development would send to our shareholders, employees and customers.

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

Based on this design, the Compensation Committee is satisfied with the alignment of Mr. Paul's total direct compensation with our performance. Over time, as the size, complexity and performance of the Company has grown, the Compensation Committee has increased the pay for Mr. Paul to reflect his enhanced role and performance. We believe that, given our current long-term business objectives, the most relevant measure for assessing pay-for-performance alignment is a comparison of Mr. Paul's total direct compensation with the key financial measures that our Board of Directors uses to evaluate our ability to position our business for continued growth and long-term market success.

Executive Compensation Policies and Practices

In discharging its responsibilities relating to executive compensation, the Compensation Committee monitors trends and developments in compensation best practices and looks to enhance the effectiveness of our executive compensation program on an ongoing basis. As a result, our executive compensation program reflects the following policies and practices:

- *Compensation Committee and Advisor Independence*

The Compensation Committee is composed solely of independent directors, under its own authority, and has engaged its own independent advisors, including a compensation consultant and legal counsel.

- *Advisory Vote on Executive Compensation*

We conduct an annual shareholder advisory vote on the compensation of the named executive officers, and our Board of Directors and the Compensation Committee carefully consider the outcome of these advisory votes when making compensation decisions.

- *Compensation Recovery Policy*

We maintain a compensation recovery (clawback) policy that gives the Company the right to recover any incentive payments that were made based on material misstatements or inaccurate performance metrics.

- *Compensation-Related Risk Assessment*

We conduct an annual evaluation of our compensation programs, policies and practices to ensure that they reflect an appropriate level of risk-taking but do not encourage our employees to take excessive or unnecessary risks that could have an adverse impact on the Company.

- *Change in Control Arrangements*

The post-employment compensation arrangements for the named executive officers provide for the receipt of payments and benefits only in the event of (i) involuntary termination of employment or material reduction in the named executive officer's title, duties and/or position following a change in control of the Company or (ii) a voluntary termination at the expiration of a twelve-month period following consummation of a Change in Control.

- *Executive Perquisites*

We do not provide any significant perquisites or other personal benefits to our executive officers; our executive officers participate in our health and welfare benefit programs on the same basis as all of our employees.

- *No Tax Gross-Ups or Payments*

We do not provide any gross-ups or tax payments in connection with any cash or equity compensation element or any excise tax gross-up or tax reimbursement in connection with any change in control payments or benefits.

2013 Advisory Vote on Executive Compensation

At our 2013 Annual Meeting of Shareholders, we conducted a non-binding advisory vote of our shareholders (Say-on-Pay vote) to approve the compensation of the Named Executive Officers. At that meeting, 62.6 % of the votes cast were voted in approval of the compensation of the Named Executive Officers. These results represented a decrease in the proportion of votes cast in favor of our executive compensation program as compared with our 2012 Say-on-Pay vote.

Following the 2013 Annual Meeting of Shareholders, we actively engaged with many of our large institutional shareholders to discuss our executive compensation program, the 2013 Say-on-Pay vote and identify shareholder concerns and potential areas for modifying our executive compensation program. The purpose of these discussions was so that we can maintain alignment of our programs with shareholder objectives and to be responsive to the views that shareholders expressed in the 2013 shareholder advisory vote on executive compensation. Since the 2013 Say-on-Pay vote occurred after the annual executive compensation review in February of 2013, changes or enhancements to our executive compensation programs will be reflected in 2014.

The discussions concerning our executive compensation programs and philosophy were generally

Table of Contents

favorable. We received feedback on our consideration of Company and executive performance as compared to peers, the relative alignment of compensation with Company performance over multi-year periods and the long term impact of extended vesting periods for equity awards.

The Compensation Committee was briefed on and considered this feedback, as well as the results of the 2013 non-binding Say-on-Pay vote in reviewing our executive compensation practices. While the Compensation Committee believes that our executive compensation program is effectively designed and aligned with the interests of our shareholders, it has made the following changes in the executive compensation program:

- **Selection of a new Compensation Consultant**

Based on several factors the Committee retained Meyer-Chatfield Compensation Advisors as its compensation consultant. The consultant worked with the Committee on the design of the Company's 2014 executive compensation program and review of awards made under the 2013 program;

- **Compensation Peer Group Changes**

The Committee directed the new compensation consultant to reevaluate our compensation peer group, and as a result revised the peer group for purposes of reviewing the compensation of our executive officers for 2013 and 2014.

The Company is committed to continuing its engagement with our shareholders on executive compensation matters to understand their views concerning our executive compensation philosophy, policies and practices.

Consistent with the recommendation of our Board of Directors and the preference of our shareholders, as reflected in the advisory vote on the frequency of Say-on-Pay votes conducted at our 2012 Annual Meeting of Shareholders, our Board of Directors believes it is appropriate to conduct annual shareholder non-binding advisory votes regarding our executive compensation programs.

Table of Contents

The Compensation Committee seeks to target executive compensation at or above market commensurate with our performance. Our goal is to provide meaningful incentives through pay for performance programs that pay at the 75th percentile or higher when performance expectations are exceeded. The executive officers' compensation is weighted toward programs contingent upon the Company's level of annual and long-term performance. In general, for executive management positions of the Company (including the named executive officers) and its subsidiaries, the Company will pay base salaries, on average, at the 50th percentile or higher when performance warrants, of other banks and/or companies with similar asset size, complexity and with similar products and markets. Goals for specific components include:

- Base salaries for executives generally are targeted at the 50th percentile or higher.
- The SEIP targets cash compensation between the 75th and 100th percentile based on achieving and exceeding annual goals.
- Performance based discretionary equity compensation with long term components are awarded when target goals are met will provide equity compensation when target goals are met with the potential for higher awards when long-term goals are exceeded. No equity awards will be made if long-term performance goals are not met.
- Retain the services of one or more nationally recognized consulting firms to assist the Compensation Committee in performing its various duties. Those firm(s) advise the Compensation Committee on compensation programs for the named executive officers.

Executive Compensation Design

Consistent with our compensation philosophy, the target total direct compensation opportunities of Mr. Paul and other executive officers, including each of the other named executive officers, reflect a higher percentage of at-risk compensation relative to other employees. This performance-based structure creates opportunities for higher compensation with strong corporate and individual performance and lower compensation at lower performance levels. The Compensation Committee believes that the more senior an executive officer, the more his or her compensation should be at-risk. We believe that this approach is appropriate because our executive officers have the greatest influence on our performance, with Mr. Paul having the greatest influence.

Executive Compensation Process

The Role of the Compensation Committee

The Compensation Committee, among its other responsibilities, establishes our overall compensation philosophy and reviews and approves our executive compensation program, including the specific compensation of our executive officers, including the named executive officers. The Compensation Committee has the authority to retain special counsel and other advisors, including compensation consultants, to assist in carrying out its responsibilities to determine the compensation of our executive officers.

While the Compensation Committee determines our overall compensation philosophy and approves the compensation of our executive officers, it relies on its compensation consultant and special legal counsel, as well as Mr. Paul, our Chief Financial Officer and Human Resources to

Edgar Filing: EAGLE BANCORP INC - Form DEF 14A

formulate recommendations with respect to specific compensation actions. The Compensation Committee makes all final decisions regarding compensation, including base salary levels, target bonus opportunities, actual bonus payments and equity awards. The Compensation Committee meets on a regularly-scheduled basis and at other times as needed.

At least annually, the Compensation Committee conducts a review of our executive compensation program to assess whether our compensation elements, actions and decisions (i) are aligned with our vision, mission, values, corporate goals and compensation philosophy, (ii) provide appropriate short-term and long-term incentives for our executive officers and (iii) are competitive with the compensation of the executive in comparable positions at the companies with which we compete for executive talent.

As part of this process, the Compensation Committee takes into consideration the recommendations of Mr. Paul and a competitive market analysis prepared by its compensation

consultant. In the course of its deliberations, the Compensation Committee also considers competitive positioning, internal equity and our corporate and individual achievements against one or more short-term and long-term performance objectives. The Compensation Committee does not weight goals in any predetermined manner, nor does it apply any formulas in making these decisions. The Compensation Committee considers all of this information in light of their individual experience, knowledge of the Company, knowledge of the peer companies, knowledge of each named executive officer and business judgment in making decisions regarding executive compensation and our executive compensation program.

As part of this process, the Compensation Committee also evaluates the performance of Mr. Paul each year and makes all decisions regarding his base salary adjustments, bonus payments and equity awards. Mr. Paul is not present during any of the deliberations regarding his compensation.

The Role of Consultants

The Compensation Committee engaged in the fourth quarter of 2013 the services of MCCA as its independent advisor on matters of executive and board compensation (the Engagement). MCCA reports directly to the Committee and provides no other remunerated services to the Company or any of its affiliates. The Company has affirmatively determined that no conflicts of interest exist between the Company and MCCA or any individuals working on the Company's account on MCCA's behalf. In reaching such determination, the Company considered the following enumerated factors, all of which were attested to or affirmed by MCCA:

- During 2013, MCCA provided no services to and received no fees from the Company other than in connection with the Engagement;
- The amount of fees paid or payable by the Company to MCCA in respect of the Engagement was \$6,000 for the fourth quarter of 2013 (toward an annual fee of \$24,000);
- MCCA has adopted and put in place adequate policies and procedures designed to prevent conflicts of interest, which policies and procedures were provided to the Company;
- There are no business or personal relationships between MCCA and any member of the Compensation Committee other than in respect of (i) the Engagement, or (ii) work performed by MCCA for any other company, board of directors or compensation committee for whom such Committee member also serves as an independent director;
- No employees of MCCA owns any stock of the Company; and
- There is no business or personal relationships between MCCA and any executive officer of the Company other than in respect of the Engagement.

The Role of Management

Input from Mr. Paul is considered by the Compensation Committee regarding the criteria to be used to determine base salary, bonuses and other benefits for named executive officers other than Mr. Paul. Although input from Mr. Paul is considered by the Compensation Committee, the

Compensation Committee exercises final authority on compensation matters for all named executive officers. Mr. Paul is not present at meetings during which his own compensation is discussed and deliberated.

Competitive Positioning

In making compensation decisions, the Compensation Committee considers the competitive market for executive talent, as well as the compensation policies and practices of the companies with which we compete for talent, which include both publicly-traded and privately-held companies in a wide range of sizes and stages of development. For this purpose, the Compensation Committee uses a number of resources, including executive compensation data compiled by its compensation consultant from publicly-available sources and from various national compensation surveys.

The peer group is a select group of twenty-two public banks between \$2.7 billion and \$6.4 billion in assets. The peer group was selected based on assets, performance and regional similarities. In applying the methodology, we started with seventy-five public banks between \$2.7 billion and \$7 billion in assets. We then narrowed the list further using asset size, full-time employees, number of offices, performance and geographic location. Following a review of the group of peer companies that it uses as a reference for

evaluating the competitive market for executive talent, based on the analysis prepared by and recommendations of its compensation consultant, the Compensation Committee approved the following peer group, consisting of 22 financial institutions, for use in connection with its annual compensation review in 2013. The selected companies range in assets from \$2.70 billion to \$6.47 billion. The list was further refined based on performance and regional similarities.

Timing and Pricing of Equity Awards

Equity compensation awards for named executive officers and employees are generally approved in the first quarter of each year. Awards may be made periodically for new hires during the year. Awards are based on a number of criteria including the Company's performance, the relative rank of the employee within the Company and his or her specific contributions to the success of the Company.

The grant date is established when the Compensation Committee approves the grant. We set the exercise price for our stock options as the average of the high and low stock price on the grant date. Our equity award process is independent of any consideration of the timing of the release of material nonpublic information, including with respect to the determination of grant dates or stock option exercise prices. Similarly, we expect that the release of material nonpublic information will not be timed with the purpose or intent to affect the value of executive compensation.

Risk Analysis of Incentive Compensation Programs

In setting compensation, the Compensation Committee of the Company also considers the risks to the Company's shareholders and the achievement of our goals that may be inherent in our compensation programs. Although a significant portion of some employees' compensation is performance-based and at-risk, we believe our compensation program is appropriately structured and does not pose a material risk to the Company. The Compensation Committee of the Company receives feedback from the Chief Risk Officer identifying any risks associated with named executive officer compensation plans and other employee incentive compensation plans. The report below outlines our process and the steps taken to mitigate any risks that were uncovered in our discussions.

Executive Compensation Plan Risk Assessment

Our Chief Risk Officer has reviewed all incentive programs, including the Senior Executive Incentive Plan, and concluded that none of the plans, considered individually or as a group, presented any material threat to our capital or earnings, encouraged taking undue or excessive risks, or encouraged manipulation of financial data in order to increase the size of an award. This feedback was provided to the Compensation Committee. The conclusions were based on the following:

- The Senior Executive Incentive Plan is a formal performance-based plan in which the Compensation Committee is deeply involved. The Compensation Committee establishes Company-wide goals early in the performance year and communicates these performance goals to the Compensation Committee for their review and approval. We use a balance of Company-wide goals, strategic goals and individual or departmental goals and customize the goals each year based on each executive's functional responsibility. The Compensation Committee is active in setting and approving the Company-wide goals each year. The Chief Executive Officer provides input on weighting of departmental or individual goals for executive officers. Once these are presented to the Compensation Committee, the Compensation Committee will discuss and approve, or revise the goals for the other named executives.

- When setting actual goals, we consider not only our annual budget, but our strategic initiatives and peer performance, which we believe mitigates risk and keeps executives focused on the long-term success of the Company. The Compensation Committee reviews these performance evaluations each year, not only to determine final award payouts, but to discuss developmental opportunities for our named executives. In addition, for any payout to occur, we must have satisfactory regulatory ratings and reviews.
- We believe that target and elevated target (target plus) awards are reasonable and competitive based on market research that was provided by our compensation consultant. We also pay out on a pro-rata basis for actual performance results that fall in between threshold, target and target plus levels and above target plus levels. We believe this reduces the likelihood of an executive misstating numbers to reach the next award level or withholding information to count toward the next performance year.
- A clawback policy was adopted in early 2009 under the SEIP. This allows us to recover all or part of a cash or stock incentive award in certain cases of inaccurate financial statement

Table of Contents

information that resulted in a restatement of our financial statements, or on a fraudulent, willful or grossly negligent misrepresentation. Accordingly, such activities would not be rewarded.

- The individual named executive officer employment agreements, which have previously been reviewed and approved by the Compensation Committee, provide for the payment to each named executive officer of base salaries, certain insurance benefits, car allowances, and eligibility for participation in our incentive plans, equity compensation plans and other compensation programs we may adopt, as well as certain benefits and payments upon termination or a change in control. None of the agreements provides for any specific mandatory variable or incentive pay, or any other conditional compensation. As such, the Compensation Committee believes that none of such agreements present any material threat to our capital or earnings, encourage taking undue or excessive risks, or encourage manipulation of financial data in order to increase the size of an award.

Non-Executive Compensation Plan Risk Assessment

Our Chief Risk Officer reviewed incentive programs in which employees who are not executive officers participate, with the Compensation Committee. It was concluded that none of these programs presented any material threat to our capital or earnings, encouraged taking undue or excessive risks, or encouraged manipulation of financial data in order to increase the size of an award. The following incentive compensation plans were reviewed:

- Three producer incentive plans were reviewed: Community Banking, C&I Lending and Commercial Real Estate Lending. Under these plans, certain employees are compensated with cash incentives calculated as a specific percentage of salary or of qualifying loans, deposits and other business they produce. A portion of the potential compensation under these plans is tied to individual and/or team performance and paid on an annual basis. There are also components, such as the collection of loan fees and the expansion of existing, or the establishing of new, customer deposit accounts, that are paid quarterly. We believe intrinsic features of these plans protect us against unnecessary risk taking, including: (i) the plan modifier that reduces or eliminates incentive payouts when asset quality measures decline or fall below minimum acceptable levels; (ii) having the individual production payout paid on an annual basis, which allows us to modify incentive payouts at the end of the year in light of asset quality issues or other adverse developments; and (iii) a cap of 40% on the annual individual producer portion of the plans, which is reasonable relative to market.
- Bank to Business Management Incentive Plan. This plan rewards the management of this department providing it meets established departmental production goals. Department managers can earn 10% to 20% of their salary based on goal achievement, to be paid on an annual basis. We believe this range of opportunity is reasonable and there are sufficient checks and balances within this separate department regarding underwriting these loans, either credit scored or adhering to established loan policy guidelines, restricting the ability of individual lenders to take unnecessary or excessive risks.
- SBA Lender Incentive Plan. This plan rewards departmental personnel with a percentage of the net premium income received by the Bank and provides additional incentive for achieving premium income goals. Intrinsic features of this plan, such as reducing incentive payments when asset quality measures decline or fall below minimum acceptable levels and when there are critical documentation exceptions, protect us against unnecessary risk taking.

- Residential Mortgage Loan Officers are generally paid compensation based on loan production. There are separate agreements with each mortgage loan officer outlining their individual compensation package. There is also an incentive program for loan processors, loan closers, and underwriters in the Residential Lending department. Loan processors and loan closers are paid for each loan closed provided he or she reaches an established minimum number for each month. Underwriters are paid for each loan dispositioned, regardless of the decision made, providing he or she reaches an established minimum number handled per month. There is also an incentive plan for the Residential Lending management (non-producing) that provides incentive based on average per loan profit.

Table of Contents

Clawback provisions are included in all incentive compensation plans. All of our incentive plans call for the employee to be in good standing with no adverse written performance documentation. Once an employee receives adverse written documentation for performance, the employee is ineligible to receive incentive payments for a minimum of 90 days.

Please refer to the discussion under the caption Supplemental Executive Retirement Plan in the Compensation Disclosure and Analysis for additional information concerning this award.

During 2013, the Company did not maintain any nonqualified deferred compensation programs or arrangements.

Prior to 2013, the Company did not maintain any defined benefit retirement plans. In February 2013, the Bank adopted a Supplemental Executive Retirement and Death Benefit program (the SERP) for eight senior executives, including all of the named executive officers other than Mr. Paul. Under the SERP, upon an executive's retirement, the Bank will pay a stated monthly payment for the executive's lifetime. The retirement benefit is tied to a percentage of the executive's projected average base salary over the five years preceding retirement, assuming retirement at age 67. The SERP provides that (a) the benefits vest ratably over six years of service to the Bank, with the executive receiving credit for years of service prior to entering into the SERP, (b) death, disability and change-in-control will be deemed to be retirement resulting in immediate vesting, and (c) the monthly amount will be reduced if retirement occurs earlier than age 67 for any reason other than death, disability or change-in-control. The SERP further provides for a death benefit in the event the executive has not received at least 180 monthly installments of supplemental retirement benefits; the death benefit will be based upon an election by the executive for either a lump sum payment or continued monthly installment payments, such that the executive and the executive's beneficiary have received payment(s) sufficient to equate to a cumulative 180 monthly installments. The benefits to the named executive officers are as set forth in the following table:

Name	Title	Percentage Projected of Salary
James H. Langmead	EVP and CFO Company and Bank	30%
Antonio F. Marquez	EVP and CLO Commercial Real Estate Bank	25%
Susan G. Riel	EVP Company; SEVP and COO Bank	35%
Janice L. Williams	EVP and CCO Bank	30%

The SERP Agreements are unfunded arrangements maintained primarily to provide supplemental retirement benefits and comply with Section 409A of the Internal Revenue Code. The Bank has elected to finance the retirement benefits by purchasing annuities that have been designed to provide a future source of funds for the lifetime retirement benefits of the SERP Agreements. The primary impetus for utilizing annuities is a substantial savings in compensation expense for the Bank as opposed to a traditional SERP. For additional information regarding the SERP, please refer to the table and discussion under the caption Pension Plan.

Employment Agreements

The Company and Mr. Paul are parties to an employment agreement governing his service and compensation as President and Chief Executive Officer of the Company. The current term of Mr. Paul's employment agreement expires on December 31, 2015. On each December 31, the term of the agreement automatically extends for one additional year, unless Mr. Paul has given notice of his intention not to renew the term. Under his agreement, Mr. Paul is entitled to receive a current annual base salary for 2014 of \$807,070, subject to periodic increase. Mr. Paul may

receive grants of options or restricted stock, and may also receive a bonus, in the discretion of the Board of Directors. The compensation under Mr. Paul's employment agreement is in lieu of all other cash fees for service on the Boards of Directors or any committees of the Company and the Bank. In the event of termination of Mr. Paul's employment for any reason other than for cause (as defined), Mr. Paul (or his estate), is entitled to receive an amount in cash equal to 2.99 times his then current base salary, subject to certain limitations

in the event that his termination occurs in connection with a change in control (as defined) of the Company or the Bank. In addition, subject to the effect of such provisions, all of Mr. Paul's options and restricted stock will immediately vest upon any termination.

Each of the four other named executive officers has an employment agreement with the Bank. Each of the agreements expires August 31, 2014. The other named executive officers have current base salaries as follows: Mr. Langmead \$334,457; Mr. Marquez \$290,954; Ms. Riel \$430,194; Ms. Williams \$321,376. Each of these officers is also entitled to participation in all other health, welfare, benefit, stock, option and bonus plans, if any, generally available to all officers and employees of the Bank or the Company. Under each agreement if the officer's employment is terminated without cause for reasons other than death, disability or in connection with a change of control (as defined), he/she would be entitled to receive continued payment of base salary for one year following termination, plus payment of health insurance premiums under COBRA for one year, subject to his/her compliance with the noncompete and nondisturbance provisions of the agreement.

The noncompete and nondisturbance provisions of the agreements provide that: (i) for 180 days after termination, or until the end of the original term of the agreement, whichever is earlier, the officer will not in any capacity render any services to a bank or savings and loan or a holding company of a bank or savings and loan, or to any person or entity that is attempting to form a bank, with respect to any office, branch or other facility that is (or is proposed to be) located within a thirty-five (35) mile radius of the location of the Company's headquarters; and (ii) for twelve (12) months after the last date of employment, the officer will not, directly or indirectly, induce or attempt to induce any customers, suppliers, officers, employees, contractors, consultants, agents or representatives of, or any other person that has a business relationship with, the Company or any of its parent, subsidiaries and affiliates to discontinue, terminate or reduce the extent of their relationship with the Company and/or any such parent, subsidiary or affiliate or to take any action that would disrupt or otherwise be disadvantageous to any such relationship, or otherwise solicit any customer or employee of the Company.

The table below sets forth the base salary as of December 31, 2013, amount of Bank paid life insurance (at standard rates), and annual car allowance to which the named executive officers are entitled. The amount to which each of the named executive officers would be entitled to if he/she were terminated, other than for cause or in connection with a change in control, as of December 31, 2013 is set forth in the fifth column of the table below.

In the event of termination of the other named executive officer's respective employment, or reduction in his/her compensation or position or responsibilities within 120 days before or after a change in control, or the voluntary termination of employment within the 30 day period following 120 days after a change in control, each of the other named executive officers would be entitled to receive a lump sum payment, equal to 2.99 times his/her base salary in the case of Mr. Langmead, Ms. Riel and Ms. Williams, and equal to 1.99 times his base salary in the case of Mr. Marquez, subject to adjustment to avoid adverse tax consequences resulting from characterization of such payment for tax purposes as an excess parachute payment, and all unvested stock options, SARs and restricted stock awards would immediately vest and become exercisable. The estimated amount of the cash payment which each of the other named executive officers would be entitled to receive if the change in control termination benefits were paid as of December 31, 2013 (without adjustment for other amounts which might be payable as a result of the change in control) is set forth in column 6 of the table below, the value of the accelerated equity awards is set forth in column 7 of the table below, the value of the accelerated vesting of benefits under the SERP is in column 8 and the sum of these three amounts is set forth in column 9.

Grants of Plan-Based Awards

The following table presents information regarding awards made during 2013 to named executive officers under the Company's 2006 Stock Plan and SEIP. The payouts under Estimated Future Payouts Under Non-Equity Incentive Plan Awards reflected in the table represent the amount of formula payment which the named executive officer could have earned with respect to 2013 performance under the SEIP if each of the performance targets established by the Compensation Committee were achieved. The amounts reflected under All Other Stock Awards and Grant Date Fair Value of Stock and Option Awards reflect the shares of restricted stock issued in 2013 in respect of 2012 performance under the SEIP and discretionary grants under the 2006 Stock Plan.

(1) Includes 275,000 shares of restricted stock awarded to Mr. Paul in lieu of his participation in the SERP adopted during 2013. Please refer to the discussion under the caption Supplemental Executive Retirement Plan in the Compensation Disclosure and Analysis for additional information regarding this award.

Under the 2006 Stock Plan, the Company can make awards of stock options, stock appreciation rights (SARs), and restricted stock to employees of the Company and Bank, including all of the named executive officers. The payouts under Estimated Future Payouts Under Non-Equity Incentive Plan Awards reflected in the table represent the amount of formula payment which the named executive officer could have earned with respect to 2013 performance under the SEIP if each of the performance targets established by the Compensation Committee were achieved. The aggregate amount which could be earned by the named executive officers, at the target level, represented 35% - 50% of salary in 2013. A portion of the aggregate amount is subject to the achievement of designated Company or individual performance targets. No amounts are payable if the Company does not achieve at least 85% of the net income goal. If at least the threshold performance metric is met, proportional payouts are made if performance is between payout levels. The targets were established with the expectation that the goals

Table of Contents

were stretch goals, representing performance standards in excess of expected results. The attainment of target-plus levels poses highly challenging goals to performance achievement and represents a substantial percentage return on incentive costs. The amounts paid in 2013 pursuant to the SEIP for 2012 performance, excluding discretionary payments, represented from 33% to 110% of base salary for the named executive officers. The actual amounts earned with respect to 2013 performance, which reflect payments for achievement of results in certain categories in excess of target levels, are reflected in the Summary Compensation Table for 2013 in the column labeled Nonequity Incentive Plan Compensation.

The value of the restricted stock awards reflected in the table, other than Mr. Paul's award in lieu of participation in the SERP, is included in 2012 compensation in the Summary Compensation Table in the column labeled Stock Awards. Mr. Paul's award in lieu of participation in the SERP is included in 2013 in the Summary Compensation Table in the column labeled Stock Awards. The foregoing table does not reflect rights to purchase shares of common stock at a discount to the market price granted to or exercised by named executive officers during 2013 under the Company's 2011 Employee Stock Purchase Plan, which is generally available to substantially all employees.

Certain Relationships and Related Transactions

The Bank has had, and expects to have in the future, banking transactions in the ordinary course of business with some of the Company's directors, executive officers, and employees and their associates. In the past, all of such transactions have been on substantially the same terms, including interest rates, maturities and collateral requirements as those prevailing at the time for comparable transactions with non-affiliated persons and did not involve more than the normal risk of collectability or present other unfavorable features. Loans to insiders require approval by the Board of Directors, with any interested director not participating. The Company also applies the same standards to any other transaction with an insider. Additionally, loans and other related party transactions involving Company directors must be reviewed and approved by the Audit Committee.

The maximum aggregate amount of loans (including lines of credit) to officers, directors and affiliates of the Company during the year ended December 31, 2013 amounted to \$34.9 million, representing approximately 8.9% of the Company's total shareholders' equity at December 31, 2013 and approximately 10.3% of common shareholders' equity at that date. In the opinion of the Board of Directors, the terms of these loans are no less favorable to the Bank than terms of the loans from the Bank to unaffiliated parties. On December 31, 2013, \$30.1 million of loans were outstanding to individuals who, during 2013, were officers, directors or affiliates of the Company. At the time each loan was made, management believed that these loans involved no more than the normal risk of collectability and did not present other unfavorable features. None of such loans were classified as Substandard, Doubtful or Loss.

The Bank leases certain office space from limited liability companies in which a trust for the benefit of Mr. Paul's children has an 85% interest in one instance and a 51% interest in another. During 2013, the Bank paid an aggregate of \$822,333 in rent in respect of these properties, excluding certain pass through expenses. The Company sublet a portion of this space to a third party, for which it received \$57,000, exclusive of certain pass through expenses.

Mr. Rogers is a partner in the law firm Shulman, Rogers, Gandal, Pordy & Ecker, P.A. which has provided, and continues to provide, legal services to the Company and its subsidiaries. During 2013, the Company and its subsidiaries paid aggregate fees of \$970,840 to that firm. Under Mr. Roger s arrangement with his firm, he does not participate significantly in the profits or revenues resulting from the provision of legal services to the Company and its subsidiaries.

Jeffrey M. Fink, a brother-in-law of Mr. Paul, is employed by the Bank as a mortgage loan officer.

Table of Contents

During 2013, Mr. Fink's total compensation was \$409,869, which was primarily commission and incentive income. Mr. Fink's compensation is determined on the same basis as other comparable employees under a defined commission plan, without any participation or input by Mr. Paul.

Ryan Riel, the adult son of Ms. Riel, is employed by the Bank as a Lending Team Leader. During 2013, Mr. Riel's total compensation was \$414,273, including base salary, incentive bonus payments and awards of restricted stock. Mr. Riel's compensation is determined on the same basis as all other comparable employees, and is determined by the Compensation Committee, without any participation or input by Ms. Riel.

William Sherrill, a son-in-law of Ms. Riel, is employed by the Bank as a mortgage loan officer. During 2013, Mr. Sherrill's total compensation was \$125,522, which was primarily commission and incentive income. Mr. Sherrill's compensation is determined on the same basis as other comparable employees under a defined commission plan, without any participation or input by Ms. Riel.

Kenneth Van Valkenburgh, a brother-in-law of Mr. Paul, is employed by the Bank as a Vice President, Insurance Sales. During 2013, Mr. Van Valkenburgh's total compensation was \$147,521, including base salary, an incentive bonus payment and an award of restricted stock. Mr. Van Valkenburgh's compensation is determined on the same basis as other comparable employees, without any participation or input by Mr. Paul.

Proposal 3: Non-Binding Advisory Vote on Executive Compensation

Section 14A of the Securities Act of 1934, added as Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and the rules of the Securities and Exchange Commission adopted thereunder (Section 14A), requires that not less than once every three years, a separate, advisory, shareholder resolution to approve the compensation of executives, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, must be included in the Company's proxy materials for the annual meeting. As a result, the Company is providing shareholders with the opportunity to cast a non-binding advisory vote at the meeting to approve the compensation of the Company's executives. This proposal, commonly known as a "Say-on-Pay" proposal, gives shareholders the opportunity to endorse or not endorse our executive pay program through the following resolution:

RESOLVED, that the shareholders approve the compensation of the Company's named executive officers, as disclosed in this proxy statement for the 2014 Annual Meeting pursuant to the rules of the Securities and Exchange Commission, which disclosure includes the "Compensation Discussion and Analysis" section, the tabular disclosure regarding named executive officer compensation and the accompanying narratives.

Because this vote is advisory, it will not be binding upon the Board of Directors. However, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements. Under Section 14A, the vote may not be construed as overruling a decision by the Company or the Board of Directors, changing or implying any change in the fiduciary duties of the Company or the Board of Directors; or creating or implying any additional fiduciary duty of the Company or the Board of Directors.

Shareholders are encouraged to read the section of this proxy statement titled "Election of Directors - Compensation Discussion and Analysis" and "Executive Compensation," including the tabular disclosure regarding named executive officer compensation, together with

the accompanying narrative disclosures.

Vote Required and Board Recommendation

The affirmative vote of a majority of the votes cast at the meeting on the proposal is required for the approval of this resolution. It is expected that all of the shares of the common stock entitled to vote on the proposal over which directors of the Company exercise voting power will be voted for the proposal. We believe our compensation policies are strongly aligned with the long-term interests of the Company and its shareholders. **As such, the Board of Directors recommends that shareholders vote FOR approval of this non-binding advisory resolution.**
