WINMARK CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

1. Management s Interim Financial Statement Representation:

The accompanying consolidated condensed financial statements have been prepared by Winmark Corporation and subsidiaries (the Company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The Company has a 52/53 week year which ends on the last Saturday in December. The information in the consolidated condensed financial statements includes normal recurring adjustments and reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of such financial statements. The consolidated condensed financial statements and notes are presented in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions for Form 10-Q, and therefore do not contain certain information included in the Company s annual consolidated financial statements and notes. This report should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company s latest Annual Report on Form 10-K.

Revenues and operating results for the six months ended June 27, 2015 are not necessarily indicative of the results to be expected for the full year.

2. Organization and Business:

The Company offers licenses to operate franchises using the service marks Plato s Closet®, Once Upon A Child®, Play It Again Sports®, Music Go Round® and Style Encore®. The Company also operates both middle market and small-ticket equipment leasing businesses under the Winmark Capital® and Wirth Business Credit® marks.

3. Fair Value Measurements:

The Company defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company uses three levels of inputs to measure fair value:

- Level 1 quoted prices in active markets for identical assets and liabilities.
- Level 2 observable inputs other than quoted prices in active markets for identical assets and liabilities.

Total net investment in leasing operations	38,710,500	\$ 44,020,500

Table of Contents

As of June 27, 2015, the \$38.7 million total net investment in leases consists of \$18.7 million classified as current and \$20.0 million classified as long-term. As of December 27, 2014, the \$44.0 million total net investment in leases consists of \$19.8 million classified as current and \$24.2 million classified as long-term.

As of June 27, 2015, leased assets with three customers approximated 17%, 15% and 13%, respectively, of the Company s total assets.

Future minimum lease payments receivable under lease contracts and the amortization of unearned lease income, net of initial direct costs deferred, is as follows for the remainder of fiscal 2015 and the full fiscal years thereafter as of June 27, 2015:

		Direct Financing and	Operating Leases			
	Min	imum Lease	Income	Minimum Lease		
	Payme	ents Receivable	Amortization	Payments Receivable		
2015	\$	12,289,800	\$ 2,310,300	\$	18,900	
2016		17,926,500	2,419,800			
2017		8,765,100	610,700

2019		2,100				
Thereafter						
	\$	39,912,800	\$ 5,357,100	\$	18,900	

The activity in the allowance for credit losses for leasing operations during the first six months of 2015 and 2014, respectively, is as follows:

	Ju	me 27, 2015	June 28, 2014
Balance at beginning of period	\$	386,000 \$	822,700
Provisions charged to expense		(162,200)	27,800
Recoveries		630,300	88,800
Deductions for amounts written-off		(9,300)	
Balance at end of period	\$	844,800 \$	939,300

The Company s investment in direct financing and sales-type leases (Investment In Leases) and allowance for credit losses by loss evaluation methodology are as follows:

		June 2	December 27, 2014					
	Investment In Leases		Allowance for Credit Losses		Investment In Leases		Allowance for Credit Losses	
Collectively evaluated for loss potential	\$	39,418,500	\$	844,800	\$	44,136,800	\$	386,000
Individually evaluated for loss potential								
Total	\$	39,418,500	\$	844,800	\$	44,136,800	\$	386,000

The Company s key credit quality indicator for its investment in direct financing and sales-type leases is the status of the lease, defined as accruing or non-accrual. Leases that are accruing income are considered to have a lower risk of loss. Non-accrual leases are those that the

Company believes have a higher risk of loss. The following table sets forth information regarding the Company s accruing and non-accrual leases. Delinquent balances are determined based on the contractual terms of the lease.

	0-60 Days Delinquent and Accruing	61-90 Days Delinquent and Accruing	June 27, 2015 Over 90 Days Delinquent and Accruing	Non-Accrual	Total

6. Recent Accounting Pronouncements:

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*, which provides guidance for revenue recognition that supersedes existing revenue recognition guidance (but does not apply to nor supersede accounting guidance for lease contracts). The ASU s core principle is that an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires more detailed disclosures to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The ASU is effective for reporting periods beginning after December 15, 2016, and should be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the ASU recognized at the date of initial application. In July 2015, the FASB affirmed its proposal to defer the effective date by one year. The new standard will become effective for the Company beginning with the first quarter of fiscal 2018. The Company is currently in the process of evaluating the impact of the adoption of this ASU on the Company s consolidated results.

In April 2015, the FASB issued ASU 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, which amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of a deferred charge (as an asset). The ASU is effective for reporting periods beginning after December 15, 2015, but early adoption is permitted. The Company early adopted the ASU for the fiscal year ending December 26, 2015, and applied its provision retrospectively. The adoption of this ASU resulted in the classification of \$111,000 of unamortized debt issuance costs related to Notes Payable as long-term debt within the Company s Consolidated Condensed Balance Sheet as of June 27, 2015. As the ASU is only applicable to debt issuance costs incurred by the Company for its Note Payable in the second quarter of fiscal 2015, no prior period information has been retrospectively adjusted. Other than this classification, the adoption of this ASU did not have an impact on the Company s consolidated financial statements.

7. Earnings Per Share:

The following table sets forth the presentation of shares outstanding used in the calculation of basic and diluted earnings per share (EPS):

8. Shareholders Equity (Deficit):

Dividends

On January 28, 2015, the Company s Board of Directors approved the payment of a \$0.06 per share quarterly cash dividend to shareholders of record at the close of business on February 11, 2015, which was paid on March 2, 2015.

On April 29, 2015, the Company s Board of Directors approved the payment of a \$0.07 per share quarterly cash dividend to shareholders of record at the close of business on May 13, 2015, which was paid on June 1, 2015.

Repurchase of Common Stock

In April 2015, the Company s Board of Directors authorized the repurchase of up to 875,000 shares of our common stock for a price of \$84.72 per share through a tender offer (the Tender Offer). The Tender Offer began on the date of the announcement, April 15, 2015 and expired on May 13, 2015. Upon expiration, the Company accepted for payment 875,000 shares for a total purchase price of approximately \$74.3 million, including fees and expenses related to the Tender Offer.

Under a previous Board of Directors authorization, as of June 27, 2015, the Company has the ability to repurchase an additional 166,700 shares of its common stock. Repurchases may be made from time to time at prevailing prices, subject to certain restrictions on volume, pricing and timing.

Stock Option Plans and Stock-Based Compensation

The Company had authorized up to 750,000 shares of common stock be reserved for granting either nonqualified or incentive stock options to officers and key employees under the Company s 2001 Stock Option Plan (the 2001 Plan). The 2001 Plan expired on February 20, 2011. The Company has authorized up to 500,000 shares of common stock to be reserved for granting either nonqualified or incentive stock options to officers and key employees under the Company s 2010 Stock Option Plan (the 2010 Plan).

The Company also sponsors a Stock Option Plan for Nonemployee Directors (the Nonemployee Directors Plan) and has reserved a total of 350,000 shares for issuance to directors of the Company who are not employees.

Stock option activity under the 2001 Plan, 2010 Plan and Nonemployee Directors Plan (collectively, the Option Plans) as of June 27, 2015 was as follows:

Expected volatility		30.8%		34.1%				
Dividend yield		1.34%		1.80%				
Option fair value	\$	25.48	\$	19.23				

During the six months ended June 27, 2015, option holders surrendered 587 shares of previously owned common stock as payment for option shares exercised as provided for by the Option Plans. All unexercised options at June 27, 2015 have an exercise price equal to the fair market value on the date of the grant.

Compensation expense of \$820,400 and \$670,000 relating to the vested portion of the fair value of stock options granted was expensed to Selling, General and Administrative Expenses in the first six months of 2015 and 2014, respectively. As of June 27, 2015, the Company had \$4.0 million of total unrecognized compensation expense related to stock options that is expected to be recognized over the remaining weighted average vesting period of approximately 2.6 years.

A reconciliation of common shares outstanding and total equity (deficit) from December 27, 2014 to June 27, 2015 is as follows:

	Common Shares	Total Equity (Deficit)

Line of Credit

In April 2015, the Company s Line of Credit with the PrivateBank and Trust Company and BMO Harris Bank N.A. was amended to, among other things:

- Provide the consent of the lenders for the Tender Offer;
- Increase the aggregate commitments from \$35.0 million to \$60.0 million to partially fund the Tender Offer;
- Extend the termination date from February 28, 2018 to May 14, 2019;
- Amend the tangible net worth covenant calculation to remove the effect of the Tender Offer and amend the leverage ratio to allow for an increase in the maximum of such ratio for a period of approximately two years from the effective date of the amendment;
- Provide for a change in the applicable margin on the interest rate options based upon the leverage ratio;
- Provide for additional LIBOR interest periods of six months and twelve months and remove the fixed rate interest options; and
- Permit the Company to sell up to \$30 million in term notes to Prudential Investment Management, Inc., its affiliates and managed accounts (Prudential) to partially fund the Tender Offer.

During the first six months of 2015, the Line of Credit was used to finance in part the Tender Offer and has been and will continue to be used for general corporate purposes. The Line of Credit is secured by a lien against substantially all of the Company s assets, contains customary financial conditions and covenants, and requires maintenance of minimum levels of debt service coverage and tangible net worth and maximum levels of leverage (all as defined within the Line of Credit). As of June 27, 2015, the Company was in compliance with all of its financial covenants. There were \$49.1 million in borrowings outstanding under the line of credit bearing interest ranging from 2.44% to 3.25%, leaving \$10.9 million available for additional borrowings.

Notes Payable

In May 2015, the Company entered into a \$25.0 million Note Agreement (the Note Agreement) with Prudential. Proceeds from the Note Agreement of \$25.0 million were used to fund in part the Tender Offer.

The final maturity of the notes is 10 years. Interest at a rate of 5.50% per annum on the outstanding principal balance is payable quarterly, along with required prepayments of the principal of \$500,000 quarterly for the first five years, and \$750,000 quarterly thereafter until the principal is paid in full. The notes may be prepaid, at the option of the Company, in whole or in part (in a minimum amount of \$1.0 million), but prepayments require payment of a Yield Maintenance Amount, as defined in the Note Agreement.

The Company s obligations under the Note Agreement are secured by a lien against substantially all of the Company s assets (as the notes rank *pari passu* with the Line of Credit), and the Note Agreement contains customary financial conditions and covenants, and requires maintenance of minimum levels of fixed charge coverage and tangible net worth and maximum levels of leverage (all as defined within the Note Agreement).

In connection with the Note Agreement, the Company incurred \$112,800 in debt issuance costs, of which unamortized amounts are presented as a direct deduction from the carrying amount of the related liability.

10. Discounted Lease Rentals:

The Company utilized certain lease receivables and underlying equipment as collateral to borrow from financial institutions at a weighted average interest rate of 3.26% at June 27, 2015 on a non-recourse basis.

11. Segment Reporting:

The Company currently has two reportable business segments, franchising and leasing. The franchising segment franchises value-oriented retail store concepts that buy, sell, trade and consign merchandise. The leasing segment includes (i) Winmark Capital Corporation, a middle-market equipment leasing business and (ii) Wirth Business Credit, Inc., a small ticket financing business. Segment reporting is intended to give financial statement users a better view of how the Company manages and evaluates its businesses. The Company s internal management reporting is the basis for the information disclosed for its business segments and includes allocation of shared-service costs. Segment assets are those that are directly used in or identified with segment operations, including cash, accounts receivable, prepaids, inventory, property and equipment and investment in leasing operations. Unallocated assets include corporate cash and cash equivalents, marketable securities, current and deferred tax amounts and other corporate assets. Inter-segment balances and transactions have been eliminated. The following tables summarize financial information by segment and provide a reconciliation of segment contribution to operating income:

ITEM 2: Management s Discussion and Analysis of Financial Condition and Results of Operations.

Overview

As of June 27, 2015, we had 1,116 franchises operating under the Plato s Closet, Once Upon A Child, Play it Again Sports, Music Go Round and Style Encore brands and had a leasing portfolio of \$38.7 million. Management closely tracks the following financial criteria to evaluate current business operations and future prospects: royalties, leasing activity, and selling, general and administrative expenses.

Our most profitable source of franchising revenue is royalties received from our franchise partners. During the first six months of 2015, our royalties increased \$1.9 million or 10.7% compared to the first six months of 2014.

During the first six months of 2015, we purchased \$11.4 million in equipment for lease customers compared to \$15.2 million in the first six months of 2014. Overall, our leasing portfolio (net investment in leases—current and long-term) decreased to \$38.7 million at June 27, 2015 from \$44.0 million at December 27, 2014. Leasing income net of leasing expense during the first six months of 2015 was \$8.9 million compared to \$7.1 million in the same period last year. Fluctuations in period-to-period leasing income and leasing expense result primarily from the manner and timing in which leasing income and leasing expense is recognized over the term of each particular lease in accordance with accounting guidance applicable to leasing. For this reason, we believe that more meaningful levels of leasing activity are the purchases of equipment for lease customers and the medium- to long-term trend in the size of the leasing portfolio.

Management continually monitors the level and timing of selling, general and administrative expenses. The major components of selling, general and administrative expenses include salaries, wages and benefits, advertising, travel, occupancy, legal and professional fees. During the first six months of 2015, selling, general and administrative expense increased \$0.3 million, or 2.4%, compared to the first six months of 2014.

Management also monitors several nonfinancial factors in evaluating the current business operations and future prospects including franchise openings and closings and franchise renewals. The following is a summary of our franchising activity for the first six months ended June 27, 2015:

					SIX MONTH AVAILABLE	IS ENDED 6/27/15

Table of Contents

Renewal activity is a key focus area for management. Our franchisees sign 10-year agreements with us. The renewal of existing franchise agreements as they approach their expiration is an indicator that management monitors to determine the health of our business and the preservation of future royalties. During the first six months of 2015, we renewed 41 of the 42 franchise agreements available for renewal.

Our ability to grow our operating income is dependent on our ability to: (i) effectively support our franchise partners so that they produce higher revenues, (ii) open new franchises, (iii) increase lease originations and minimize write-offs in our leasing portfolio, and (iv) control our selling, general and administrative expenses.

Comparison of Three Months Ended June 27, 2015 to Three Months Ended June 28, 2014

Revenue

Revenues for the quarter ended June 27, 2015 totaled \$15.5 million compared to \$14.0 million for the comparable period in 2014.

<u>Table of Contents</u>
Royalties and Franchise Fees
Royalties increased to \$10.2 million for the second quarter of 2015 from \$9.2 million for the second quarter of 2014, an 11.0% increase. The increase was primarily due to higher Plato s Closet and Once Upon A Child royalties of \$0.4 million and \$0.3 million, respectively. The increase in royalties for these brands is primarily from having 28 additional Plato s Closet and 23 additional Once Upon A Child franchise stores in the second quarter of 2015 compared to the same period last year as well as higher franchisee retail sales.
Franchise fees decreased to \$475,900 for the second quarter of 2015 compared to \$607,500 for the second quarter of 2014, primarily as a result of opening 10 fewer franchises in the 2015 period compared to the same period in 2014.
Leasing Income
Leasing income increased to \$3.7 million for the second quarter of 2015 compared to \$3.2 million for the same period in 2014. The increase is primarily due to a higher level of equipment sales to customers.
Merchandise Sales
Merchandise sales include the sale of product to franchisees either through our Computer Support Center or through the Play It Again Sports buying group (together, Direct Franchisee Sales). Direct Franchisee Sales increased to \$686,300 for the second quarter of 2015 compared to \$685,800 in the same period of 2014.
Cost of Merchandise Sold
Cost of merchandise sold includes in-bound freight and the cost of merchandise associated with Direct Franchisee Sales. Cost of merchandise sold decreased to \$645,800 for the second quarter of 2015 compared to \$659,300 in the same period of 2014. Cost of merchandise sold as a percentage of Direct Franchisee Sales for the second quarter of 2015 and 2014 was 94.1% and 96.1%, respectively.
Leasing Expense
Leasing expense increased to \$0.5 million for the second quarter of 2015 compared to \$0.1 million for the second quarter of 2014. The increase is primarily due to an increase in the associated cost of equipment sales to customers discussed above.

Provision for Credit Losses

Provision for credit losses was \$(93,100) for the second quarter of 2015 compared to \$(11,100) for the second quarter of 2014. The decrease in provision for credit losses is primarily due to a smaller lease portfolio in 2015 compared to 2014.

17

Table of Contents
Selling, General and Administrative
Selling, general and administrative expenses increased 2.4% to \$6.3 million in the second quarter of 2015 from \$6.2 million in the same period of 2014. The increase was primarily due to an increase in compensation and benefits expenses.
Interest Expense
Interest expense increased to \$369,500 for the second quarter of 2015 compared to \$144,100 for the second quarter of 2014. The increase is primarily due to higher average corporate borrowings when compared to the same period last year.
Interest and Other Income
During the second quarter of 2015, we had interest and other income of \$9,700 compared to \$900 of interest and other income in the second quarter of 2014.
Income Taxes
The provision for income taxes was calculated at an effective rate of 38.5% and 38.4% for the second quarter of 2015 and 2014, respectively.
Comparison of Six Months Ended June 27, 2015 to Six Months Ended June 28, 2014
Revenue
Revenues for the first six months of 2015 totaled \$36.5 million compared to \$28.6 million for the comparable period in 2014.
Royalties and Franchise Fees

Royalties increased to \$19.9 million for the first six months of 2015 from \$18.0 million for the first six months of 2014, a 10.7% increase. The increase was due to higher Plato s Closet and Once Upon A Child royalties of \$0.9 million and \$0.6 million, respectively. The increase in royalties for these brands is primarily from having 28 additional Plato s Closet and 23 additional Once Upon A Child franchise stores in the first six months of 2015 compared to the same period last year as well as higher franchisee retail sales.

Franchise fees decreased to \$770,300 for the first six months of 2015 compared to \$956,500 for the first six months of 2014, primarily as a result of opening 15 fewer franchises in the 2015 period compared to the same period in 2014.

Table of Contents
Leasing Income
Leasing income increased to \$13.7 million for the first six months of 2015 compared to \$7.5 million for the same period in 2014. The increase is primarily due to a higher level of equipment sales to customers.
Merchandise Sales
Merchandise sales include the sale of product to franchisees either through our Computer Support Center or through the Play It Again Sports buying group (together, Direct Franchisee Sales). Direct Franchisee Sales decreased to \$1.4 million for the first six months of 2015 compared to \$1.5 million in the same period of 2014. The decrease is primarily due to a decrease in technology purchases by our franchisees.
Cost of Merchandise Sold
Cost of merchandise sold includes in-bound freight and the cost of merchandise associated with Direct Franchisee Sales. Cost of merchandise sold decreased to \$1.3 million for the first six months of 2015 compared to \$1.4 million in the same period of 2014. The decrease was due to a decrease in Direct Franchisee Sales discussed above. Cost of merchandise sold as a percentage of Direct Franchisee Sales for the first six months of 2015 and 2014 was 94.6% and 95.9%, respectively.
Leasing Expense
Leasing expense increased to \$4.8 million for the first six months of 2015 compared to \$0.4 million for the first six months of 2014. The increase is primarily due to an increase in the associated cost of equipment sales to customers discussed above.
Provision for Credit Losses
Provision for credit losses was \$(162,200) for the first six months of 2015 compared to \$27,800 for the first six months of 2014. The provision level for the first six months of 2015 was impacted by net recoveries in the leasing portfolio. During the first six months of 2015, we had total net recoveries of \$621,000 compared to \$88,800 in the first six months of 2014.
Selling, General and Administrative

Selling, general and administrative expenses increased 2.4% to \$12.5 million in the first six months of 2015 from \$12.2 million in the same period of 2014. The increase was primarily due to an increase in compensation and benefits expenses.

Interest Expense

Interest expense increased to \$455,200 for the first six months of 2015 compared to \$206,200 for the first six months of 2014. The increase is primarily due to higher average corporate borrowings when compared to the same period last year.

Interest and Other Income (Expense)
During the first six months of 2015, we had interest and other income (expense) of \$(49,400) compared to \$1,000 of interest and other income in the first six months of 2014. Interest and other income (expense) during the first six months of 2015 included losses on sales of marketable securities while interest and other income during the first six months of 2014 included gains on sales of marketable securities. (See Note 4 Investments).
Income Taxes
The provision for income taxes was calculated at an effective rate of 38.4% and 38.3% for the first six months of 2015 and 2014, respectively.
Segment Comparison of Three Months Ended June 27, 2015 to Three Months Ended June 28, 2014
Franchising Segment Operating Income
The franchising segment s operating income for the second quarter of 2015 increased by \$0.9 million to \$6.2 million from \$5.3 million for the second quarter of 2014. The increase in segment contribution was primarily due to increased royalty revenue.
Leasing Segment Operating Income
The leasing segment s operating income for the second quarter of 2015 increased by \$0.1 million to \$1.9 million from \$1.8 million for the second quarter of 2014. The increase in segment contribution was primarily due to an increase in leasing income net of leasing expense.
Segment Comparison of Six Months Ended June 27, 2015 to Six Months Ended June 28, 2014
Franchising Segment Operating Income

The franchising segment s operating income for the first six months of 2015 increased by \$1.8 million to \$11.8 million from \$10.0 million for the

first six months of 2014. The increase in segment contribution was primarily due to increased royalty revenue.

Leasing Segment Operating Income

The leasing segment s operating income for the first six months of 2015 increased by \$1.7 million to \$6.2 million from \$4.5 million for the first six months of 2014. The increase in segment contribution was primarily due to an increase in leasing income net of leasing expense.

Liquidity and Capital Resources

Our primary sources of liquidity have historically been cash flow from operations and borrowings. The components of the consolidated condensed statements of operations that reduce our net income but do not affect our liquidity include non-cash items for depreciation and compensation expense related to stock options.

We ended the second quarter of 2015 with \$1.1 million in cash and cash equivalents compared to \$2.1 million in cash and cash equivalents at the end of the second quarter of 2014.

Table of Contents

Operating activities provided \$12.8 million of cash during the first six months of 2015 compared to \$7.6 million provided during the same period last year. The increase in cash provided by operating activities in the first six months of 2015 compared to 2014 was primarily due to the increase in net income and a decrease in cash paid for income taxes.

Investing activities provided \$5.4 million of cash during the first six months of 2015. The 2015 activities consisted primarily of the purchase of equipment for lease customers of \$11.4 million and principal collections on lease receivables of \$16.6 million.

Financing activities used \$19.1 million of cash during the first six months of 2015. Our most significant financing activities during the first six months of 2015 consisted of \$74.3 million to repurchase 875,000 shares of our common stock in the Tender Offer (including fees and expenses), \$0.7 million for the payment of dividends and net borrowings on our line of credit and notes payable of \$55.6 million with such borrowings incurred primarily to fund in part the Tender Offer. (See Note 8 Shareholders Equity and Note 9 Debt).

As of June 27, 2015, we had no off balance sheet arrangements.

In April 2015, our Line of Credit with the PrivateBank and Trust Company and BMO Harris Bank N.A. was amended to, among other things:

- Provide the consent of the lenders for the Tender Offer;
- Increase the aggregate commitments from \$35.0 million to \$60.0 million to partially fund the Tender Offer;
- Extend the termination date from February 28, 2018 to May 14, 2019;
- Amend the tangible net worth covenant calculation to remove the effect of the Tender Offer and amend the leverage ratio to allow for an increase in the maximum of such ratio for a period of approximately two years from the effective date of the amendment;
- Provide for a change in the applicable margin on the interest rate options based upon the leverage ratio;
- Provide for additional LIBOR interest periods of six months and twelve months and remove the fixed rate interest options; and
- Permit us to sell up to \$30 million in term notes to Prudential Investment Management, Inc., its affiliates and managed accounts (Prudential) to partially fund the Tender Offer.

During the first six months of 2015, the Line of Credit was used to finance in part the Tender Offer and has been and will continue to be used for general corporate purposes. The Line of Credit is secured by a lien against substantially all of our assets, contains customary financial conditions and covenants, and requires maintenance of minimum levels of debt service coverage and tangible net worth and maximum levels of leverage (all as defined within the Line of Credit). There were \$49.1 million in borrowings outstanding under the line of credit bearing interest

ranging from 2.44% to 3.25%, leaving \$10.9 million available for additional borrowings.

In May 2015, we entered into a \$25.0 million Note Agreement (the Note Agreement) with Prudential. Proceeds from the Note Agreement of \$25.0 million were used to fund in part the Tender Offer.

Table of Contents

The final maturity of the notes is 10 years. Interest at a rate of 5.50% per annum on the outstanding principal balance is payable quarterly, along with required prepayments of the principal of \$500,000 quarterly for the first five years, and \$750,000 quarterly thereafter until the principal is paid in full. The notes may be prepaid, at our option, in whole or in part (in a minimum amount of \$1.0 million), but prepayments require payment of a Yield Maintenance Amount, as defined in the Note Agreement.

Our obligations under the Note Agreement are secured by a lien against substantially all of our assets, and the Note Agreement contains customary financial conditions and covenants, and requires maintenance of minimum levels of fixed charge coverage and tangible net worth and maximum levels of leverage (all as defined within the Note Agreement).

As of June 27, 2015, we were in compliance with all of the financial covenants under the Line of Credit and Note Agreement.

We incurred increased indebtedness in connection with the purchase of shares in the Tender Offer and, as a result, are more leveraged. We expect to generate the cash necessary to pay our expenses, finance our leasing business and to pay the principal and interest on all of our outstanding debt from cash flows provided by operating activities and by opportunistically using other means to repay or refinance our obligations as we determine appropriate. Our ability to pay our expenses, finance our leasing business and meet our debt service obligations depends on our future performance, which may be affected by financial, business, economic, and other factors including the risk factors described under Item 1A of our Form 10-K for the fiscal year ended December 27, 2014. If we do not have enough money to pay our debt service obligations, we may be required to refinance all or part of our existing debt, sell assets, borrow more money or raise equity. In such an event, we may not be able to refinance our debt, sell assets, borrow more money or raise equity on terms acceptable to us or at all. Also, our ability to carry out any of these activities on favorable terms, if at all, may be further impacted by any financial or credit crisis which may limit access to the credit markets and increase our cost of capital.

We may utilize discounted lease financing to provide funds for a portion of our leasing activities. Rates for discounted lease financing reflect prevailing market interest rates and the credit standing of the lessees for which the payment stream of the leases are discounted. We believe that discounted lease financing will continue to be available to us at competitive rates of interest through the relationships we have established with financial institutions.

We believe that the combination of our cash on hand, the cash generated from our franchising business, cash generated from discounting sources and our Line of Credit will be adequate to fund our planned operations through 2016.

Critical Accounting Policies

The Company prepares the consolidated condensed financial statements of Winmark Corporation and Subsidiaries in conformity with accounting principles generally accepted in the United States of America. As such, the Company is required to make certain estimates, judgments and assumptions that it believes are reasonable based on information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. There can be no assurance that actual results will not differ from these estimates. The critical accounting policies that the Company believes are most important to aid in fully understanding and evaluating the reported financial results include the following:

7D 1	1			_			
Tal	٦I	е	Λt	('	Λn	tei	1tc

Revenue Recognition Royalty Revenue and Franchise Fees

The Company collects royalties from each retail franchise based on a percentage of retail store gross sales. The Company recognizes royalties as revenue when earned. At the end of each accounting period, estimates of royalty amounts due are made based on applying historical weekly sales information to the number of weeks of unreported franchisee sales. If there are significant changes in the actual performance of franchisees versus the Company s estimates, its royalty revenue would be impacted. During the first six months of 2015, the Company collected \$12,100 more than it estimated at December 27, 2014. As of June 27, 2015, the Company s royalty receivable was \$1,106,000.

The Company collects initial franchise fees when franchise agreements are signed and recognizes the initial franchise fees as revenue when the franchise is opened, which is when the Company has performed substantially all initial services required by the franchise agreement. Franchise fees collected from franchisees but not yet recognized as income are recorded as deferred revenue in the liability section of the consolidated condensed balance sheet. As of June 27, 2015, deferred franchise fees were \$2,066,800.

Leasing Income Recognition

Leasing income for direct financing leases is recognized under the effective interest method. The effective interest method of income recognition applies a constant rate of interest equal to the internal rate of return on the lease. Generally, when a lease is more than 90 days delinquent (where more than three monthly payments are owed), the lease is classified as being on non-accrual and the Company stops recognizing leasing income on that date. Payments received on leases in non-accrual status generally reduce the lease receivable. Leases on non-accrual status remain classified as such until there is sustained payment performance that, in the Company s judgment, would indicate that all contractual amounts will be collected in full.

In certain circumstances, the Company may re-lease equipment in its existing portfolio. As this equipment may have a fair value greater than its carrying amount when re-leased, the Company may be required to account for the lease as a sales-type lease. At inception of a sales-type lease, revenue is recorded that consists of the present value of the future minimum lease payments discounted at the rate implicit in the lease. In subsequent periods, the recording of income is consistent with the accounting for a direct financing lease.

For leases that are accounted for as operating leases, income is recognized on a straight-line basis when payments under the lease contract are due.

Allowances for Credit Losses

The Company maintains an allowance for credit losses at an amount that it believes to be sufficient to absorb losses inherent in its existing lease portfolio as of the reporting dates. Leases are collectively evaluated for potential loss. The Company s methodology for determining the allowance for credit losses includes consideration of the level of delinquencies and non-accrual leases,

historical net charge-off amounts and review of any significant concentrations.

A provision is charged against earnings to maintain the allowance for credit losses at the appropriate level. If the actual results are different from the Company s estimates, results could be different. The Company s policy is to charge-off against the allowance the estimated unrecoverable portion of accounts once they reach 121 days delinquent. (See Note 5 Investment in Leasing Operations).

Stock-Based Compensation

The Company currently uses the Black-Scholes option pricing model to determine the fair value of stock options. The determination of the fair value of the awards on the date of grant using an option-pricing model is affected by stock price as well as assumptions regarding a number of complex and subjective variables. These variables include implied volatility over the term of the awards, actual and projected employee stock option exercise behaviors, risk-free interest rate and expected dividends.

The Company evaluates the assumptions used to value awards on an annual basis. If factors change and the Company employs different assumptions for estimating stock-based compensation expense in future periods or if the Company decides to use a different valuation model, the future periods may differ significantly from what it has recorded in the current period and could materially affect operating income, net income and earnings per share.

Forward Looking Statements

The statements contained in this Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations that are not strictly historical fact, including without limitation, the Company s belief that it will have adequate capital and reserves to meet its current and contingent obligations and operating needs, as well as its disclosures regarding market rate risk are forward looking statements made under the safe harbor provision of the Private Securities Litigation Reform Act. Such statements are based on management s current expectations as of the date of this Report, but involve risks, uncertainties and other factors that may cause actual results to differ materially from those contemplated by such forward looking statements. Investors are cautioned to consider these forward looking statements in light of important factors which may result in material variations between results contemplated by such forward looking statements and actual results and conditions. See the section appearing in our Annual Report on Form 10-K for the fiscal year ended December 27, 2014 entitled Risk Factors and Part II, Item 1A in this Report for a more complete discussion of certain factors that may cause the Company s actual results to differ from those in its forward looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date they were made. The Company undertakes no obligation to revise or update publicly any forward-looking statements for any reason.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

The Company incurs financial market risk in the form of interest rate risk. Risk can be quantified by measuring the financial impact of a near-term adverse increase in short-term interest rates. At June 27, 2015, the Company had available a \$60.0 million line of credit with The PrivateBank and Trust Company and BMO Harris Bank, N.A. The interest rates applicable to this agreement are based on either the bank s base rate or LIBOR for short-term borrowings (twelve months or less). The Company had \$49.1 million of debt outstanding at June 27, 2015 under this line of credit, all of which was in the form of short-term borrowings subject to daily changes in the bank s base rate or LIBOR. The Company s earnings would be affected by changes in these short-term interest rates. With the Company s borrowings at June 27, 2015, a one percent increase in short-term rates would reduce annual pretax earnings by \$491,000. The Company had no interest rate derivatives in place at June 27, 2015.

None of the Company s cash and cash equivalents at June 27, 2015 was invested in money market mutual funds, which are subject to the effects of market fluctuations in interest rates. The Company s portfolio of marketable securities is subject to customary equity market risk.

Although the Company conducts business in foreign countries, international operations are not material to its consolidated financial position, results of operations or cash flows. Additionally, foreign currency transaction gains and losses were not material to the Company s results of operations for the six months

ended June 27, 2015. Accordingly, the Company is not currently subject to material foreign currency exchange rate risks from the effects that exchange rate movements of foreign currencies would have on its future costs or on future cash flows it would receive from its foreign activity. To date, the Company has not entered into any foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

ITEM 4: Controls and Procedures

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of its disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act). Based upon, and as of the date of that evaluation, the principal executive officer and principal financial officer concluded that the Company s disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to the Company s management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. There was no change in the Company s internal control over financial reporting during its most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1: Legal Proceedings

We are not a party to any material litigation and are not aware of any threatened litigation that would have a material adverse effect on our business.

ITEM 1A: Risk Factors

In addition to the other information set forth in this report, including the important information in Forward-Looking Statements, you should carefully consider the Risk Factors discussed in the Company's Annual Report on Form 10-K for the year ended December 27, 2014. If any of those factors were to occur, they could materially adversely affect the Company's financial condition or future results, and could cause its actual results to differ materially from those expressed in its forward-looking statements in this report. The Company is aware of no material changes to the Risk Factors discussed in the Company's Annual Report on Form 10-K for the year ended December 27, 2014, other than the following:

We incurred increased indebtedness in connection with the purchase of shares in the Tender Offer (see Note 8 Shareholders Equity and Note 9 Debt) and, as a result, are more leveraged. We expect to generate the cash necessary to pay our expenses, finance our leasing business and to pay the principal and interest on all of our outstanding debt from cash flows provided by operating activities and by opportunistically using other means to repay or refinance our obligations as we determine appropriate. Our ability to pay our expenses, finance our leasing business and meet our debt service obligations depends on our future performance, which may be affected by financial, business, economic, and other factors including the risk factors described under Item 1A of our Form 10-K for the fiscal year ended December 27, 2014. If we do not have enough money to pay our debt service obligations, we may be required to refinance all or part of our existing debt, sell assets, borrow more money or raise equity. In such an event, we may not be able to refinance our debt, sell assets, borrow more money or raise equity on terms acceptable to us or at all. Also, our ability to carry out any of these activities on favorable terms, if at all, may be further impacted by any financial or credit crisis which may limit access to the credit markets and increase our cost of capital.

ITEM 2: Unregistered Sales of Equity Securities and Use of Proceeds

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

On April 15, 2015, the Company announced a self-tender (the Tender Offer) to purchase up to 875,000 shares of its outstanding common stock for a price of \$84.72 per share. The Tender Offer expired on May 13, 2015, and upon expiration, the Company accepted for purchase a total of 875,000 shares for a total purchase price of \$74.3 million, including fees and expenses.

The following table summarized the Company s common stock repurchase during the second quarter of 2015. No shares were purchased during the quarter other than through the Tender Offer described above.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan(1)	Maximum Number of Shares that may yet be Purchased Under the Plan
March 29, 2015 to May 2, 2015		\$		166,700
May 3, 2015 to May 30, 2015	875,000	\$ 84.72	875,000	166,700
May 31, 2015 to June 27, 2015		\$		166,700

The Board of Directors authorization for the repurchase of shares of the Company s common stock was originally approved in 1995 with no expiration date. The total shares approved for repurchase has been increased by additional Board of Directors approvals and is currently limited to 5,000,000 shares, of which 166,700 may still be repurchased

ITEM 3: Defaults Upon Senior Securities

None.

ITEM 4: Mine Safety Disclosures

Not applicable.

ITEM 5: Other Information

All information required to be reported in a report on Form 8-K during the period covered by this Form 10-Q has been reported.
