NOTES TO CONDENSED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The financial statements included herein as of and for the three and six months ended June 30, 2006 and June 30, 2005, and the period from inception (April 15, 2004) to June 30, 2006, have been prepared by St. Bernard Software, Inc. (formerly known as Sand Hill IT Security Acquisition Corp.) (the "Company") without audit pursuant to the rules and regulations of the United States Securities and Exchange Commission ("SEC") and include the accounts of the Company and its subsidiary, Sand Hill Merger Corp. Accordingly, these statements reflect all adjustments (consisting only of normal recurring entries), which are, in the opinion of the Company, necessary for a fair presentation of the financial results for the interim periods. Certain information and notes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full fiscal year. These financial statements should be read in conjunction with the financial statements that were included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2005.

2. ORGANIZATION, BUSINESS OPERATIONS

Sand Hill IT Security Acquisition Corp. was incorporated in Delaware on April 15, 2004 as a blank check company whose objective was to merge with or acquire an operating business in the IT security industry. The Company's initial stockholders' purchased 1,000,000 shares of common stock, \$0.01 par value, for \$25,000 on April 20, 2004.

The registration statement for the Company's initial public offering (the "Offering") was declared effective on July 26, 2004. The Company consummated the Offering on July 30, 2004 and received proceeds, net of the underwriters' discount of \$22,022,462. Subsequently, the underwriters exercised their over allotment option and the Company received an additional \$2,861,100 in proceeds, net of the underwriters' discount. The Company's management has broad discretion with respect to the specific application of the net proceeds of the Offering, although substantially all of the net proceeds of the Offering are intended to be generally applied toward consummating a merger with or acquisition of an operating business in the IT security industry ("Business Combination"). An amount equal to \$20,961,000 was placed in an interest bearing trust account (the "Trust Fund") until the earlier of (i) the consummation of its first Business Combination or (ii) liquidation of the Company. Under the agreement governing the Trust Fund, funds may only be invested in United States government securities with a maturity of 180 days or less. The remaining proceeds of the Offering may be used to pay for business, legal and accounting due diligence on prospective mergers or acquisitions and continuing general and administrative expenses. On July 27, 2006, the Company consummated a business combination (See Note 10).

3. PUBLIC OFFERING

On July 30, 2004, the Company sold 3,600,000 units (“Units”) in a public offering, which included granting the underwriters’ an over-allotment option to purchase up to an additional 540,000 Units. Subsequently, the underwriters exercised their over-allotment option and purchased an additional 510,000 units. Each Unit consists of one share of the Company’s common stock, \$0.01 par value, and two Redeemable common stock Purchase Warrants (“Warrants”). Each Warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the later of the completion of a Business Combination or July 25, 2005 and expiring July 25, 2009. The Warrants are redeemable by the Company at a price of \$0.01 per Warrant upon 30 days’ notice after the Warrants become exercisable, only in the event that the last sale price of the common stock is at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third day prior to the date on which notice of the redemption is given. In connection with the Offering, the Company issued an option for \$100 to the underwriters’ to purchase 270,000 Units at an exercise price of \$7.50 per Unit. The Units issuable upon exercise of this option are identical to those included in the Offering except that the exercise price of the Warrants included in the Units will be \$6.65 per share.

Under EITF No. 00-19, “*Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company’s Own Stock*” (“EITF No. 00-19”), the fair value of the warrants issued as part of the Units have been reported as a liability. The warrant agreement provides for the Company to register the shares underlying the warrants and is silent as to the penalty to be incurred in the absence of the Company’s ability to deliver registered shares to the warrant holders upon warrant exercise. Under EITF No. 00-19, the Company is required to assume that the warrants could give rise to it ultimately having to net-cash settle the warrants, thereby necessitating the treatment of the warrants as a liability. Further, EITF No. 00-19 requires the Company to record the warrant liability at each reporting date at its then estimated fair value, with any changes being recorded through the Company’s statement of operations as other income/expense. The warrants will continue to be reported as a liability until such time that they are exercised, expire, or the Company is otherwise able to modify the registration rights agreement to remove the provisions which require this treatment. As a result, the Company could experience volatility in its net income due to changes that occur in the value of the warrant liability at each reporting date.

The Company had previously issued financial statements which accounted for the warrants as stockholders’ equity. The accompanying financial statements have been restated to correct this error. The impact of the correction of this error in previously reported financial statements is as follows (in thousands except per share amounts):

Item 2. Management's Discussion and Analysis or Plan of Operation

The following discussion should be read in conjunction with the financial statements and footnotes thereto incorporated by reference in this report.

Forward Looking Statements

Certain statements contained in this interim report that are not historical facts, including, but not limited to, statements that can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "predict," "believe," "p," "estimate" or "continue" or the negative thereof or other variations thereon or comparable terminology, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, and involve a number of risks and uncertainties. The actual results of the future events described in such forward-looking statements in this interim report could differ materially from those stated in such forward-looking statements due to various factors, including but not limited to, our being a development stage company with no operating history, our dependence on key personnel some of whom may join us following a business combination, our personnel allocating their time to other businesses and potentially having conflicts of interest with our business, our potentially being unable to obtain additional financing to complete a business combination, the ownership of our securities being concentrated, risks associated with the IT security industry and those other risks and uncertainties detailed in the Company's filings with the Securities and Exchange Commission, including our Registration Statement on Form S-1 that was declared effective July 26, 2004 and the definitive Prospectus thereunder, our annual report on Form 10-KSB filed with the Securities and Exchange Commission on March 31, 2006, our Registration Statement on Form S-4 (No. 333-130412) that was declared effective on June 23, 2006 and the joint proxy statement/prospectus thereunder, and the uncertainties set forth from time to time in the Company's filings and other public statements. The following discussion should be read in conjunction with our Financial Statements and related Notes thereto included elsewhere in this report.

Plan of Operation

We were formed on April 15, 2004, to serve as a vehicle to effect a merger, capital stock exchange, asset acquisition or other similar business combination with an operating business in the IT security industry. We intend to utilize cash derived from the proceeds of the Offering, our capital stock, debt or a combination of cash, capital stock and debt, in effecting a business combination. We consummated the Offering on July 30, 2004. Our activities to date have been comprised solely of organizational activities, preparing for and consummating the Offering, and efforts associated with identifying a target for a business combination.

The net proceeds from the Offering and the capital contributed by our Initial Stockholders amounted to approximately \$22.02 million. As of June 30, 2006, we had cash of \$423, and treasury securities in our trust account (at cost) of \$22,211,003; a total of approximately \$22.6 million. The difference between the sum of our initial capital plus the net proceeds of the Offering reduced by our cash and amount we placed in trust is approximately \$140,000. Through June 30, 2006, we have used \$1,832,836 of the net proceeds that were not deposited into the trust fund to pay general and administrative expenses. The net proceeds deposited into the trust fund remain on deposit in the trust fund and have earned \$1,250,002 in interest and \$10,949 on money market accounts through June 30, 2006.

For the three months ended June 30, 2006, we recorded interest income from the accretion in value of our trust account of \$258,137. We had operating income of \$799,137 for that same period. Our expenses consist primarily of professional fees, rents, fees and taxes, insurance, travel and other certain other expenses associated with being a public company.

Over the 24-month period subsequent to the consummation of the Offering, the Company had anticipated approximately \$250,000 of expenses for legal, accounting and other expenses related to the due diligence investigations, and structuring and negotiating of a business combination, \$180,000 for the administrative fee payable to Sand Hill Security, LLC (\$7,500 per month for two years), \$100,000 of expenses for the due diligence and investigation of a target business, \$75,000 of expenses in legal and accounting fees relating to our SEC reporting obligations and \$475,000 for general working capital to be used for miscellaneous expenses and reserves, including approximately \$180,000 for director and officer liability insurance premiums, inclusive of the amounts set out in the preceding paragraph. We do not believe that the Company has sufficient available cash resources outside of the trust fund to operate until the merger is consummated, without accruing for certain professional expenses, such as legal and accounting costs. Anticipating closure of the merger by July 27, 2006, Sand Hill estimates total costs to consummation of approximately \$15,000 for the administrative fee payable to Sand Hill Security LLC, \$10,000 for accounting fees relating to quarterly SEC reporting obligations, \$40,000 for legal costs related to the joint proxy statement/prospectus and registration statement on Form S-4, \$25,000 in printing costs for the joint proxy statement/prospectus and registration statement on Form S-4, plus an additional \$30,000 in travel costs, investor relations costs and general corporate working capital requirements. This is a total estimate of \$120,000 to operate until the consummation of a business combination. To the extent that these costs exceed amounts available outside the trust fund, trust fund assets will be used to fund the excess costs of the merger.

We are obligated, commencing July 26, 2004, to pay to Sand Hill Security, LLC, an affiliate of our directors and executive officers, a monthly fee of \$7,500 for general and administrative services. During the quarterly period ended March 31, 2006 certain affiliates of the Company advanced an aggregate of \$45,000 to the Company to cover expenses related to the merger described below. The Broomfield Family Trust advanced \$25,000 to the Company and Sand Hill Security, LLC advanced \$20,000 to the Company. The Company entered into unsecured promissory notes in connection with the loans. The loans accrue interest at a rate of ten percent per annum and are payable on the earlier of the consummation of the merger.

The Company's Registration Statement on Form S-4 and the underlying joint proxy statement/prospectus regarding the merger of the Company's wholly-owned subsidiary Sand Hill Merger Corp., a Delaware corporation ("Merger Sub") with and into St. Bernard Software, Inc. ("St. Bernard") in an all-stock transaction (the "Merger") was declared effective on June 23, 2006. On July 27, 2006, the Merger was approved by a majority of the stockholders of the Company at a special meeting. On July 27, 2006, the Company consummated the Merger. At the effective time of the Merger, St. Bernard was the surviving corporation and became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company changed its name to St. Bernard Software, Inc.

Item 3. Controls and Procedures

An evaluation of the effectiveness of our disclosure controls and procedures as of June 30, 2006 was made under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer. Based on that evaluation, they concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures. During the most recently completed fiscal quarter, there has been no significant change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION
