Item 2.06 - Material Impairments.

As a result of mark-to-market accounting rules, Republic Bancorp, Inc. (“Republic” or the “Company”) expects to record a material, non-cash Other-Than-Temporary-Impairment (“OTTI”) charge during the fourth quarter of 2008 related to four of its non-agency mortgage backed securities. All of these securities were originally rated AAA by Standard and Poor’s (“S&P”) at the time of purchase and have since been downgraded. Based on October 31, 2008 market values, the after-tax OTTI charge would be approximately \$2.8 million or \$0.13 per diluted Class A Common share. The Company will finalize the amounts of these impairment charges in connection with the preparation of its fourth quarter 2008 financial statements.

For the first nine months of 2008, Republic reported net income of \$33.0 million, representing a \$14.5 million, or 79%, increase over the first nine months of 2007. The Company also reported diluted earnings per Class A Common share of \$1.59 for the first nine months of 2008, an 81% increase over the first nine months of 2007. Giving consideration to the expected OTTI charge based on October 31, 2008 market values, the Company and the Bank continue to exceed all regulatory capital requirements necessary to qualify as well capitalized. In addition, if the entire remaining non agency mortgage backed and mortgage related security portfolio was written down to a value of zero dollars, the Company and the Bank would continue to exceed all regulatory capital requirements necessary to qualify as well capitalized.

The following table presents Republic Bank & Trust Company’s “well-capitalized” regulatory capital position relative to its respective requirements at September 30, 2008 on a historical and pro-forma basis giving effect for the expected OTTI charge based on October 31, 2008 market values. In addition, the Company has set forth below a pro-forma capital ratio illustration as of September 30, 2008, assuming the entire non-agency mortgage backed and mortgage related portfolio was written down to a value of zero dollars:

	As Reported 09/30/08	Pro Forma 09/30/08 with OTTI Charge	Pro Forma 09/30/08 Assuming Zero Value	Minimum Regulatory Threshold to be Well Capitalized
Tier 1 Leverage Ratio	9.02%	8.92%	8.62%	5%
Tier 1 Risk-Based Ratio	13.74%	13.61%	13.15%	6%
Total Risk-Based Ratio	15.66%	15.53%	15.07%	10%
