2 Certain statements contained in this presentation are “forward - looking statements” within the meaning of the protections of Section 27 A of the Securities Act of 1933 , as amended, and Section 21 E of the Securities Exchange Act of 1934 , as amended . These forward - looking statements are covered by the safe harbor provisions for forward - looking statements contained in the Private Securities Litigation Reform Act of 1995 , and we are including this statement for purposes of invoking these safe harbor provisions . Forward - looking statements are made based on our management’s expectations and beliefs concerning future events impacting our company and are subject to uncertainties and factors relating to our operations and economic environment, all of which are difficult to predict and many of which are beyond our control . You can identify these statements from our use of the words “estimate,” “project,” “believe,” “intend,” “anticipate,” “expect,” “target,” “may” and similar expressions . These forward - looking statements may include, among other things : statements relating to projected growth, anticipated improvements in earnings, earnings per share , asset quality, and other financial performance measures, and management’s long - term performance goals ; statements relating to the anticipated effects on results of operations or our financial condition from expected developments or events ; statements relating to our business and growth strategies ; and any other statements which are not historical facts . Forward - looking statements involve known and unknown risks, uncertainties and other important factors that could cause our actual results, performance or achievements to differ materially from our expectations of future results, performance or achievements, or industry results, expressed or implied by these forward - looking statements . These forward - looking statements may not be realized due to a variety of factors, including without limitation : the effects of future economic, business and market conditions ; changes in interest rates ; governmental monetary and fiscal policies ; changes in prices and values of real estate ; legislative and regulatory changes, including changes in banking, securities and tax laws and regulations and their application by our regulators, including changes in the cost and scope of FDIC insurance ; the failure of assumptions regarding the levels of non - performing assets and the adequacy of the allowance for loan losses ; weaker than anticipated market conditions in our primary market areas ; the effects of competition in our market areas ; liquidity risks through an inability to raise funds through deposits, borrowings or other sources, or to maintain sufficient liquidity at the Company separate from the Bank’s liquidity ; volatility in the capital and credit markets ; and the other risk factors discussed from time to time in the periodic reports that we file with the SEC, including our Annual Report on Form 10 - K for the year ended December 31 , 2013 . You should not place undue reliance on any forward - looking statement . Forward - looking statements speak only as of the date made . We undertake no obligation to update any forward - looking statement to reflect events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events .

NOTE REGARDING NON - GAAP FINANCIAL MEASURES This presentation contains financial information determined by methods other than those prescribed by accounting principles generally accepted in the United States of America ("GAAP") . These non - GAAP financial measures include the following : efficiency ratio, tangible common equity, tangible book value per common share, tangible common equity to tangible assets and tangible equity to tangible assets . Management uses these non - GAAP financial measures because it believes that they are useful for evaluating our operations and performance over periods of time, as well as in managing and evaluating our business and in discussions about our operations and performance . Management believes these non - GAAP financial measures provide users of our financial information with meaningful measures for assessing our financial results, as well as comparison to financial results for prior periods . These non - GAAP financial measures should not be considered as a substitute for financial measures determined in accordance with GAAP and may not be comparable to other similarly titled financial measures used by other companies . For a reconciliation of the differences between our non - GAAP financial measures and the most comparable GAAP measures, please refer to the Appendix of this presentation .

27 Non - GAAP Reconciliation Tangible Book Value Per Share & Tangible Common Equity / Tangible Assets
 “Tangible book value per share” is defined as tangible stockholders’ equity less preferred equity and intangible assets divided by total common shares outstanding. We believe that this measure is important to many investors in the marketplace who are interested in changes from period to period in book value per common share exclusive of changes in intangible assets. 28 Non - GAAP Reconciliation Efficiency Ratio “Efficiency ratio” is defined as recurring non - interest expense less foreclosed real estate (OREO) expenses and valuation allowances, less amortization of intangible assets divided by operating revenue. Operating revenue is equal to net interest income plus non - interest income excluding gains and losses on securities and foreclosed real estate. In our judgment, the adjustments made to non - interest expense and operating revenue allow investors and analysts to better assess our operating expenses in relation to our core operating revenue by removing the volatility that is associated with certain one - time items and other discrete items that are unrelated to our core business.
