Board of Directors Proposals to be submitted to the Stockholders of Banco Bradesco S.A., in occasion of the Special Stockholders Meeting to be held on December 17, 2003.

1. In order to:

- adjust the stock unit price to a more adequate level, from the market point of view, given that a quotation expressed in currency full unit provides greater visibility when compared to a quotation per thousand stocks;
- standardize the stock quotation basis both in the domestic and the international markets, since stocks are currently quoted per thousand stocks in the Domestic Market BOVESPA, and, in the International Market, per five thousand stocks for each ADR - American Depositary Receipt (NYSE) and per thousand stocks for each GDR - Global Depositary Receipt (Latibex);
- reduce operating costs and increase the efficiency of the stockholders information registering system;

We propose to group the 1,585,879,423,300 book-entry registered stocks, with no par value, of which 798,940,057,872 are common stocks and 786,939,365,428 are preferred stocks, the latter with no voting rights, representing the Capital Stock, in the proportion of 10,000 (ten thousand) stocks for 1 (one) stock of the respective type, converting them into 158,587,941 book-entry registered stocks, with no par value, being 79,894,005 common stocks and 78,693,936 preferred stocks, the latter with no voting rights, as stated in Article # 12 of the Law 6,404/76.

Upon the approval of the above mentioned transaction by the Central Bank of Brazil, the Company shall publish a Notice to the Market establishing a term not shorter than 60 (sixty) days as from the date of its publication, for stockholders to be able to, at their own discretion, adjust their stock positions, by type, in multiple of 10,000 (ten thousand) stock lots, through a trade at BOVESPA.

Stockholders may adjust their stock position through Brokerage Houses of their own choice.

The transactions performed through Bradesco S.A. Corretora de Títulos e Valores Mobiliários, and exclusively over the necessary quantity for reaching the superior multiples of 10,000 stocks, will be exempt from paying brokerage and other related fees. Stockholders shall go to any branch of Bradesco's Network to perform this transaction.

Upon the termination of the established term for stockholders to adjust their stock positions, eventual fractional stocks will be separated, grouped in whole numbers, and sold in an Auction to be held at the São Paulo Stock Exchange, being the respective amounts deposited into the banking accounts of holders of fractional stocks.

For stockholders whose accounts are inactive or whose registering information is not updated, the amount resulting from the sale of fractional stocks will be maintained available at the Company.

Simultaneously to the transaction made in the Brazilian Market, and also observing the term to be established, the following procedures will be performed in the International Market:

- US Market (NYSE) ADRs will be grouped in the proportion of 2 (two) ADRs for 1 (one) ADR;
- European Market (Latibex) GDRs will be grouped in the proportion of 10 (ten) GDRs for 1 (one) GDR;
- Resulting fractional stocks, just as occurred in the Brazilian transaction, will be separated, grouped in whole numbers and sold in the respective Stock Exchanges, being the amounts resulting from the sale credited to the their holders;
- Upon the completion of the transaction, the DRs Depositary Receipts will be traded at the proportion of 1 (one) stock for 1 (one) DR, in respective Markets.

If this proposal is approved, the wording of the caput of Article # 6 of the Bylaws will be changed in the Special Stockholders Meeting, to be held after the approval of the process by the Central Bank of Brazil.

2. In a search for best Corporate Governance practices:

a. aiming to align major and minor stockholders' interests:

- to add, to the existing preferred stock privileges, the right to be offered in an eventual public sale of the Company's stock control (tag along), entitling their holders to receive a price equal to 80% (eighty per cent) of the price paid for common stock that is part of the controlling capital;
- to set at 100% (one hundred per cent) of the price paid per common stock that is part of the controlling capital, the percentage to be paid to the holders of other common stocks, in an eventual public sale of the Company's stock control;
