**President of Venezuelan National Elections Board, Jorge Rodriguez, announces that Gilat is among the companies chosen to take part in project for the transmission of data via satellite during upcoming Presidential referendum in August 2004**  
**Subject to contract signature, Gilat would provide a hub and 5,000-site satellite-based VSAT network to transfer data for fingerprint-based voter identification system**

June 30, 2004 The President of the Venezuelan National Elections Board, Jorge Rodriguez, announced in an official statement on June 29, that Gilat is among several companies chosen to partake in a large-scale project for identifying voters and keeping track of voter registry in the upcoming referendum for the continuation of the term of Venezuelan President Hugo Chavez, to be held on August 15, 2004. An agreement is expected to be signed between the Venezuelan National Elections Board and Gilat.

The National Elections Board statement said that the objectives of the project were to prevent election fraud of people voting twice and to authorize and keep track of the voter registry. According to the statement, the National Elections Board decided to go with Gilat's satellite-based network which will allow the placement of wireless data hubs at each voting center, so that by satellite, the Board can stay on-line during the entire voting process.

The Venezuelan National Elections Board has announced that it will hire Gilat to provide a satellite-based VSAT network to transfer voter identification data from fingerprints at polling stations. The network, based on Gilat's Skystar 360E platform, would include a hub in Caracas and 5,000 remote terminals at polling stations throughout the country.

According to the National Elections Board statement, the American/Chinese firm Cogent Systems would provide a fingerprinting system to scan and compare fingerprints. The data would be transferred to a central database via the Gilat VSAT and then checked to verify that the voter has not already voted in another location, and that the fingerprints sent from the specific location are indeed unique. Authorization of the voter following this check would be transferred back immediately to the polling station via the VSAT.

## **About Gilat Satellite Networks Ltd.**

Gilat Satellite Networks Ltd., with its global subsidiaries Spacenet Inc., Gilat Latin America and rStar Corporation, is a leading provider of telecommunications solutions based on Very Small Aperture Terminal (VSAT) satellite network technology with close to 500,000 VSATs shipped worldwide. **Gilat's Spacenet subsidiary appoints Christina Clifton Executive Vice President, Sales & Marketing  
Clifton will oversee the sales and marketing efforts of Spacenet's custom enterprise networking solutions, Connexstar broadband networking services and new product/service development throughout North America.**

Petah Tikva, Israel, June 30, 2004 Gilat Satellite Networks Ltd. (Nasdaq: GILTF) today announced that its U.S. subsidiary, Spacenet Inc., has named Christina Clifton as Executive Vice President, Sales & Marketing. Clifton will oversee the sales and marketing efforts of Spacenet's custom enterprise networking solutions, Connexstar broadband networking services and new product/service development throughout North America.

Prior to joining Spacenet, Clifton held a wide range of senior sales and marketing positions in the telecommunications industry, including: Executive Vice President of Sales & Marketing for Iridium Satellite LLC, a global wireless network provider of voice and data services; Senior Vice President, Global Sales & Business Development of Astrolink International; Executive Vice President at World Access, Inc./Facilicom International; and positions at Digital Technics Inc., SkyTel, and Bell Atlantic Corp. She earned a BBA and MBA from George Washington University.

Christina has a strong record of achievement in market expansion, business development, and the design and implementation of sales distribution strategies for a wide range of telecommunications companies, said Spacenet Chief Executive Officer Bill Gerety. We believe her expertise and leadership will help Spacenet continue its rapid growth by bringing innovative networking solutions to large, multi-site enterprises.

**About Spacenet**

Spacenet Inc. provides two-way broadband networking solutions throughout North America under the Connexstar brand, and has nearly 20 years experience in providing connectivity, provisioning, operations and maintenance to enterprise and government customers, including some of the largest satellite-based networks in the world. Spacenet is based in McLean, Virginia, and is a wholly owned subsidiary of Gilat Satellite Networks, Ltd. Visit Spacenet at [www.spacenet.com](http://www.spacenet.com).
