4. Profit on disposal of joint venture

The Group made no disposals during the year ended 30 June 2009 and no profit or loss on disposal was realised. In the year ended 30 June 2008, the Group sold its 100% stake in BSKyB Nature Limited, the investment holding company for the Group’s 50% interest in the NGC-UK Partnership. As consideration for the disposal, the Group received 21%

interests in both NGC Network International LLC and NGC Network Latin America LLC (in effect, 21% of National Geographic Channel's television operations outside of the United States of America). This was a non-cash transaction and realised a profit on disposal of £67 million.

5. Impairment of available-for-sale investment

The Group's investment in ITV is carried at fair value. The fair value of ITV is determined with reference to its equity share price at the balance sheet date. An impairment was first recorded following a review of the carrying value of the investment in ITV at 31 December 2007, due to the significant and prolonged decline in the equity share price. In accordance with IFRS, the Group has continued to review that carrying value throughout fiscal 2008 and fiscal 2009 and has recognised an impairment loss of £191 million in the current year (2008: £616 million). The impairment loss for the year was determined with reference to ITV's closing equity share price of 20.0 pence at 27 March 2009, the last trading day of the Group's third fiscal quarter. In line with IFRS, all subsequent increases in the fair value of the ITV investment above the impaired value have been recorded in the available-for-sale reserve. At 26 June 2009, the last trading day of the Group's financial year, ITV's closing equity share price was 33.8 pence.

In accordance with IAS 39, the effect of any further decline in the value of the equity share price of ITV below the price of 20.0 pence as at 27 March 2009 will be recognised in the income statement at the relevant future balance sheet date. On 29 July 2009, the equity share price of ITV was 40.8 pence.

6. Taxation

Taxation recognised in the income statement

	2009	2008
	£m	£m
Current tax expense		
Current year	191	172
Adjustment in respect of prior years	10	7
Total current tax charge	201	179
Deferred tax expense		
Origination and reversal of temporary differences	6	5
Adjustment in respect of prior years	(10)	3
Total deferred tax (credit) charge	(4)	8
Taxation	197	187

Taxation relates to a £190 million UK corporation tax charge (2008: £179 million) and a £7 million tax charge (2008: £8 million charge) in respect of the utilisation of previously recognised Luxembourg trading losses.

The tax expense for the year is higher (2008: higher) than the expense that would have been charged using the standard rate of corporation tax in the UK (28%) applied to profit before tax. The applicable enacted or substantially enacted rate of UK corporation tax for the year was 28% (2008: 29.5%).

7. Earnings per share

The weighted average number of shares for the year was:

	2009	2008
	Millions of shares	Millions of shares
Ordinary shares	1,753	1,753
ESOP trust ordinary shares	(13)	(5)
Basic shares	1,740	1,748
Dilutive ordinary shares from share options	13	-
Diluted shares	1,753	1,748

The calculation of diluted earnings (loss) per share excludes 21 million share options (2008: 32 million), which could potentially dilute earnings per share in the future, but which have been excluded from the calculation of diluted earnings (loss) per share as they are anti-dilutive in the year.

Basic and diluted earnings (loss) per share are calculated by dividing the profit or loss for the year into the weighted average number of shares for the year.

	2009	2008
	pence	pence
Earnings (loss) per share from profit (loss) for the year		
Basic	14.9	(7.3)
Diluted	14.8	(7.3)

2008 Interim dividend paid: 7.125p per ordinary share	-	124
2008 Final dividend paid: 9.625p per ordinary share	167	-
2009 Interim dividend paid: 7.50p per ordinary share	131	-
	298	280

The 2009 final dividend proposed is 10.10 pence per ordinary share being £176 million. The dividend was proposed after the balance sheet date and is therefore not recognised as a liability as at 30 June 2009.

During the year a review of the Group's intangible asset categories was undertaken. A decision was made to further improve the presentation of the Group's intangible assets by disaggregating "software development (external)" and "software licenses" from the "other intangible assets" category. The prior year comparatives have been re-presented accordingly.

On 17 November 2006, the Group acquired 696 million shares in ITV, at a price of 135 pence per share, representing 17.9% of the issued capital of ITV, for a total consideration of £946 million including fees and taxes. The Group's investment in ITV is carried at fair value. The fair value of ITV is determined with reference to its equity share price at the balance sheet date. An impairment was first recorded following a review of the carrying value of the investment in ITV at 31 December 2007, due to the significant and prolonged decline in the equity share price. In accordance with IFRS, the Group has continued to review that carrying value throughout fiscal 2008 and fiscal 2009 and has recognised an impairment loss of £191 million in the current year (2008: £616 million). The impairment loss for the year was determined with reference to ITV's closing equity share price of 20.0 pence at 27 March 2009, the last trading day of the Group's third fiscal quarter. In line with IFRS, all subsequent increases in the fair value of the ITV investment above this impaired value have been recorded in the available-for-sale reserve. At 26 June 2009, the last trading day of the Group's financial year, ITV's closing equity share price was 33.8 pence.

Any disposal of the investment, assuming certain other factors remain consistent with those existing at the balance sheet date, would be exempt from tax under the provisions of the Substantial Shareholding Exemption (SSE). As such, the SSE provisions would prevent any capital loss arising for tax purposes.

The Group holds certain unquoted equity investments that are carried at cost less impairment. The fair value of these investments is not considered to differ significantly from the carrying value.
