Table of Contents***AMERICAN COMMUNITY BANCSHARES, INC.******Notes to Consolidated Financial Statements*****NOTE A - BASIS OF PRESENTATION**

In management's opinion, the financial information, which is unaudited, reflects all adjustments (consisting solely of normal recurring adjustments) necessary for a fair presentation of the financial information as of and for the three months ended March 31, 2005 and 2004, in conformity with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of American Community Bancshares, Inc. (the Company) and its wholly owned subsidiaries, American Community Bank (ACB) and First National Bank of the Carolinas (FNB) collectively. All significant inter-company transactions and balances are eliminated in consolidation. Operating results for the three months ended March 31, 2005 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2005.

The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the consolidated financial statements filed as part of the Company's 2004 annual report on Form 10-KSB. This quarterly report should be read in conjunction with such annual report.

NOTE B - COMMITMENTS

At March 31, 2005, loan commitments are as follows:

Undisbursed lines of credit	\$ 62,490,686
Stand-by letters of credit	3,185,514
Loan commitments	6,070,905

NOTE C - PER SHARE RESULTS

Basic earnings per share represents income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the company relate solely to outstanding stock options and warrants and are determined using the treasury stock method.

Effective of dilutive stock options and warrants	457,295	319,123
	<hr/>	<hr/>
Weighted average number of common shares and dilutive potential common shares used in computing diluted net income per share	4,055,590	3,145,162
	<hr/>	<hr/>

For the quarter ended March 31, 2005, there were no options or warrants that were antidilutive.

Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE D COMPREHENSIVE INCOME**

Total comprehensive income, consisting of net income and unrealized gains and losses on available for sale securities, net of taxes, was \$596,000 and \$583,000 for the three months ended March 31, 2005 and 2004.

NOTE E STOCK COMPENSATION PLAN

Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, encourages all entities to adopt a fair value based method of accounting for employee stock compensation plans, whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. However, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, whereby compensation cost is the excess, if any, of the quoted market price of the stock at the grant date (or other measurement date) over the amount an employee must pay to acquire the stock. Stock options issued under the company's stock option plans have no intrinsic value at the grant date and, under Opinion No. 25, no compensation cost is recognized for them. The Company has elected to continue with the accounting methodology in Opinion No. 25. Presented below are the pro forma disclosures of net income and earnings per share and other disclosures as if the fair value based method of accounting had been applied.

	Three months ended March 31,	
	2005	2004
Net income:		
As reported	\$ 1,048,000	\$ 475,000
Deduct: Total stock-based employee compensation expense determined under fair value method for all awards, net of related tax effects	(15,100)	(17,300)

Proforma	0.26	0.16
Diluted net income per share		
As reported	0.29	0.15
Proforma	0.25	0.15

In December 2004, the FASB issued SFAS No. 123(R), Accounting for Stock-Based Compensation. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123(R) requires that the fair value of such equity instruments be recognized as an expense in the financial statements as services are performed. The provisions of this

Edgar Filing: AMERICAN COMMUNITY BANCSHARES INC - Form 10-Q

Statement are effective for the first interim reporting period that begins after June 15, 2005. Accordingly, we will adopt SFAS No. 123(R) commencing with the quarter ending September 30, 2005. If we had included the cost of employee stock option compensation in the consolidated financial statements, our net income for the quarters ended March 31, 2005 and 2004 would have decreased by approximately \$15,100 and \$17,300, respectively.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q may contain certain forward-looking statements consisting of estimates with respect to the financial condition, results of operations and business of the Company that are subject to various factors which could cause actual results to differ materially from these estimates. These factors include, but are not limited to, general economic conditions, changes in interest rates, deposit flows, loan demand, real estate values, and competition; changes in accounting principles, policies, or guidelines; changes in legislation or regulation; and other economic, competitive, governmental, regulatory, and technological factors affecting the Company's operations, pricing, products, and services. There are no pending legal proceedings other than those incurred in the normal course of business to which the Company or subsidiaries are a party, or of which any of their property is the subject.

COMPARISON OF FINANCIAL CONDITION AT MARCH 31, 2005 AND DECEMBER 31, 2004

Total assets at March 31, 2005 increased by \$2.6 million or 0.65% to \$402.1 million compared to \$399.5 million at December 31, 2004. The Company had earning assets of \$370.6 million at month-end March 31, 2005 consisting of \$313.0 million in gross loans, \$51.8 million in investment securities and other non-marketable equity securities and \$5.8 million in overnight investments. Total deposits as of March 31, 2005 increased by \$7.8 million or 2.5% to \$314.5 million compared to \$306.7 million at December 31, 2004. Total borrowed money as of March 31, 2005 decreased \$7.7 million or 14.2% to \$46.5 million compared to \$54.2 million at December 31, 2004. Stockholders' equity was \$39.5 million at March 31, 2005 compared to \$37.0 million at December 31, 2004 for an increase of \$2.5 million or 6.8%. The increase resulted from net income of \$1,048,000, the exercise of stock options and warrants which provided net proceeds of \$2.1 million, offset by other comprehensive loss of \$452,000 and the payment of a cash dividend in the amount of \$180,000.

The Company recorded a \$109,000 provision for loan losses for the quarter ended March 31, 2005, representing a decrease of \$9,000 or 7.6% from the \$118,000 provision for the quarter ended March 31, 2004. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company has continued to provide provisions for loan losses principally as a result of the continued growth in the loan portfolio. Total loans receivable increased by \$5.0 million during the quarter ended March 31, 2005. The allowance for loan losses at March 31, 2005 of \$3.6 million equaled 1.14% of total loans outstanding and 469% of non-performing loans, which totaled \$759,000. The allowance for loan losses at December 31, 2004 of \$3.5 million equaled 1.13% of total loans outstanding and 396% of non-performing loans which totaled \$881,000.

The Company had investment securities available for sale of \$47.5 million at March 31, 2005. The portfolio decreased by \$4.3 million or 8.3% from the \$51.8 million balance at December 31, 2004 as the Company sold two available for sale securities resulting in a gain of \$10,000. In addition the Company had investment securities held to maturity of \$2.2 million at March 31, 2005 and December 31, 2004.

Interest-earning deposits with banks at March 31, 2005 decreased by \$700,000 or 10.8% to \$5.8 million compared to \$6.5 million at December 31, 2004. This decrease was primarily a result of the increase in cash and due from banks. The Company holds funds in interest-earning deposits with banks to provide liquidity for future loan demand and to satisfy fluctuations in deposit levels.

Non interest-earning assets at March 31, 2005 increased by \$2.6 million or 8.0% to \$35.0 million compared to \$32.4 million at December 31, 2004. The increase is primarily attributable to an increase of \$2.0 million to \$11.5 million in the cash and due from banks category. This primarily represents customer deposits that are in the process of collection and not available for overnight investment combined with cash on hand in the branches. Accrued interest receivable increased \$145,000 to \$1.8 million at March 31, 2005 as a result of the timing in the collection of interest income and the growth in the loan portfolio. Bank premises and equipment was \$9.2 million at March 31, 2005, an increase of

Table of Contents

\$430,000 from December 31, 2004. The net increase resulted from purchases of \$67,000 and \$558,000 in construction costs to date on two new branches offset by depreciation of \$195,000. Foreclosed real estate decreased by \$90,000 as a result of the sale of a 1-4 family property resulting in a gain of \$11,000. Other assets increased by \$212,000 at March 31, 2005 to \$2.5 million primarily as a result of an increase in other receivables.

Total deposits increased \$7.8 million or 2.5% from \$306.7 million at December 31, 2004 to \$314.5 million at March 31, 2005. The composition of the deposit base, by category, at March 31, 2005 is as follows: 15% non-interest bearing demand deposits, 4% savings deposits, 22% money market and interest bearing demand deposits and 59% time deposits. All categories experienced increases over the three-month period. Dollar and percentage increases were as follows: non-interest bearing demand deposits, \$619,000 or 1.4%; savings deposits, \$1.3 million or 11.6%; money market, \$1.5 million or 2.2%, and time deposits, \$4.4 million or 2.4%. Time deposits of \$100,000 or more totaled \$105.9 million, or 34% of total deposits at March 31, 2005. The composition of deposits at December 31, 2004 was 15% non-interest bearing demand deposits, 4% savings deposits, 22% money market and interest bearing demand deposits and 59% time deposits.

The Company had advances from the Federal Home Loan Bank of Atlanta at March 31, 2005 of \$12.6 million with maturity dates ranging from October 2005 through February 2013. The balance of Federal Home Loan Bank advances at December 31, 2004 was \$12.8 million with maturity dates ranging from October 2005 through February 2013. These advances are secured by a blanket lien on 1-4 family real estate loans, certain commercial real property and certain securities available for sale. Total securities sold under agreement to repurchase, secured by certain of the Company's investment securities, decreased \$14.5 million or 29.0% from \$25.8 million at December 31, 2004 to \$11.3 million at March 31, 2005. Commercial repurchase agreements totaling \$15.0 million were paid off to reduce the Company's exposure to rising short-term rates. The Company borrowed \$7.0 million in federal funds purchased to fund short-term liquidity needs during the quarter. The Company also maintained the capital lease for its main office. The recorded obligation under this capital lease at March 31, 2005 was \$1.7 million. In addition, the Company carried subordinated debentures in the amount of \$13.9 million. Maturity dates of the subordinated debentures range from March 2032 to December 2033 and are redeemable March 2007 to December 2008.

Other liabilities decreased \$26,000 or 1.6% to \$1.6 million at March 31, 2005 from \$1.7 million at December 31, 2004.

Comparison of Results of Operations for the Three Months Ended March 31, 2005 and 2004

Net Income The Company generated net income for the three months ended March 31, 2005 of \$1,048,000 compared to a profit for the three months ended March 31, 2004 of \$475,000. On a fully diluted per share basis earnings were \$.26 for 2005 compared to \$.15 for 2004. Return on average assets was 1.05% and 0.69% and return on average equity was 11.11% and 7.84% for the three months ended March 31, 2005 and 2004, respectively. Earnings for the three months ended March 31, 2005 were positively impacted by strong growth in average earning assets and by increases in net interest income and non-interest income. The April 15, 2004 FNB acquisition contributed \$256,000 to the increase in net income.

Net Interest Income. Net interest income increased \$1.5 million from \$2.2 million for the three months ended March 31, 2004 to \$3.7 million for the three months ended March 31, 2005. Total interest income benefited from growth in average earning assets combined with the FNB acquisition which contributed \$828,000 to the increase.

Total average earning assets increased \$105.9 million or 40.3% from an average of \$263.0 million during the first quarter of 2004 to an average of \$371.9 million during the first quarter of 2005. The Company experienced strong loan growth with average loan balances increasing by \$98.7 million. The

Table of Contents

acquisition of FNB added approximately \$58.3 million of the \$98.7 million increase in average loans. The increase in average balances for investment securities and interest-earning deposits was \$7.2 million. Average interest-bearing liabilities increased by \$96.5 million during the first quarter of 2005 of which \$91.5 million was attributable to deposits while borrowings increased \$5.0 million. The acquisition of FNB contributed \$60.1 million in average deposits and \$4.6 million in average borrowings.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the quarter ended March 31, 2005 was 4.03% compared to 3.38% for the same quarter in 2004. The increase in net interest margin resulted primarily from the re-pricing of the Company's prime rate based loan portfolio due to seven increases in short-term rates by the Federal Open Market Committee since the first quarter of 2004. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, increased 78 basis points from 2.84% in the quarter ended March 31, 2004 to 3.62% for the same quarter in 2005.

Provision for Loan Losses. The Company's provision for loan losses for the quarter ended March 31, 2005 was \$109,000, representing a \$9,000 or 7.6% decrease from the \$118,000 recorded for the quarter ended March 31, 2004. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management.

Non-interest Income. Non-interest income increased by \$45,000 or 6.4% to \$747,000 for the three months ended March 31, 2005 compared with \$702,000 for the same period in the prior year. The acquisition of FNB contributed \$134,000 to the increase in non-interest income. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 16.8% for the three months ended March 31, 2005 from 24.3% for the same period in the prior year primarily as a result of the increase in the Company's net interest margin from 3.38% to 4.03%. The largest components of non-interest income were service charges on deposit accounts of \$513,000 for the quarter ended March 31, 2005 as compared to \$465,000 for the same period in 2004 or a 10.3% increase and fees from mortgage banking operations of \$88,000 in 2005 as compared to \$66,000 in 2004 or a 33.3% increase.

Non-interest Expense. Total non-interest expense increased from \$2.0 million for the three months ended March 31, 2004 to \$2.6 million for the same period in 2005. This 31.5% increase was primarily due to increased expenses associated with the acquisition of FNB, which accounted for \$542,000 of the \$634,000 increase and increased expenses related to the anticipated opening of two new branches in the second quarter of 2005.

Provision for Income Taxes. The Company's provision for income taxes, as a percentage of income before income taxes, was 37.7% and 37.3% for the three months ended March 31, 2005 and 2004, respectively.

Liquidity and Capital Resources

Maintaining adequate liquidity while managing interest rate risk is the primary goal of the Company's asset and liability management strategy. Liquidity is the ability to fund the needs of the Company's borrowers and depositors, pay operating expenses, and meet regulatory liquidity requirements. Maturing investments, loan and mortgage-backed security principal repayments, deposit growth and borrowings from the Federal Home Loan Bank are presently the main sources of the Company's liquidity. The Company's primary uses of liquidity are to fund loans, operating expenses, deposit withdrawals, repay borrowings and to make investments.

Edgar Filing: AMERICAN COMMUNITY BANCSHARES INC - Form 10-Q

As of March 31, 2005, liquid assets (cash and due from banks, interest-earning deposits with banks, and investment securities available for sale) were approximately \$64.8 million, which represents 16.1% of total assets and 18.0% of total deposits and borrowings. Supplementing this liquidity, the Company

has available lines of credit from correspondent banks of approximately \$20.0 million and an additional line of credit with the FHLB equal to 15% of assets (subject to available qualified collateral, with borrowings of \$12.6 million outstanding from the FHLB at March 31, 2005). At March 31, 2005, outstanding commitments to extend credit were \$6.1 million and available line of credit balances totaled \$62.5 million. Management believes that the combined aggregate liquidity position of the Company is sufficient to meet the funding requirements of loan demand and deposit maturities and withdrawals in the near term.

Certificates of deposit represented 58.8% of the Company's total deposits at March 31, 2005, and 58.9% at December 31, 2004. The Company's growth strategy will include efforts focused at increasing the relative volume of transaction deposit accounts. Certificates of deposit of \$100,000 or more represented 34% of the Company's total deposits at March 31, 2005. These deposits are generally considered rate sensitive, but management believes most of them are relationship-oriented. While the Company will need to pay competitive rates to retain these deposits at maturity, there are other subjective factors that will determine the Company's continued retention of those deposits.

Banks and bank holding companies, as regulated institutions, must meet required levels of capital. The FDIC and the Federal Reserve, the primary regulators of the Bank and Bancshares, respectively, have adopted minimum capital regulations or guidelines that categorize components and the level of risk associated with various types of assets. Financial institutions are expected to maintain a level of capital commensurate with the risk profile assigned to its assets in accordance with these guidelines. At March 31, 2005, the Company maintained capital levels exceeding the minimum levels for well capitalized bank holding companies and banks.

Table of Contents

Asset Quality

No material changes have occurred in the Company's asset quality since December 31, 2004.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk reflects the risk of economic loss resulting from adverse changes in market price and interest rates. This risk of loss can be reflected in diminished current market values and/or reduced potential net interest income in future periods.

The Company's market risk arises primarily from interest rate risk inherent in its lending and deposit-taking activities. The structure of the Company's loan and deposit portfolios is such that a significant decline in interest rates may adversely impact net market values and net interest income. The Company does not maintain a trading account nor is the Company subject to currency exchange risk or commodity price risk. Interest rate risk is monitored as part of the Company's asset/liability management function, which is discussed above in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations under the heading Liquidity and Capital Resources.

Management does not believe there has been any significant change in the overall analysis of financial instruments considered market risk sensitive since December 31, 2004.

Item 4. Controls and Procedures

The Company maintains a system of internal controls and procedures designed to provide reasonable assurance as to the reliability of the consolidated financial statements and other disclosures included in this report. The Company's Board of Directors, operating through its audit committee which is composed entirely of independent outside directors, provides oversight to the Company's financial reporting process.

The Company's management, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively), have concluded based on their evaluation as of the end of the period covered by this quarterly report that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and the Chief Financial Officer of the Company, as appropriate to allow timely decisions regarding required disclosure.

There were no significant changes in the Company's internal controls during the Company's last fiscal quarter that could significantly affect the Company's internal control over financial reporting.
