**Item 8.01 Other Events**

On August 12, 2005, Blast Energy entered into a settlement agreement with Charles Steinberger, a former CEO of the company. The settlement involves neither admitting nor denying liability as well as the reinstatement of 900,000 stock options at a price of \$0.10 per share and the creation of a Promissory Note by Blast Energy for \$500,000. The Note becomes due June 30, 2007 and carries no interest. Mr. Steinberger may exercise up to 300,000 options until July 1, 2006, but if he does, we may credit the Note with the amount of the net proceeds he receives. Blast Energy also has the option to pay the Note early and, in the event that the price of our common stock trades on average greater than \$2.00 per share for the 20 trading days prior to the due date, the Note will no longer be payable. Since the Company had reserved the full amount of the disputed options, this agreement will result in an approximately 700,000 reduction in the amount of shares reserved for unexercised option or warrant agreements.
