

LG.Philips LCD Co., Ltd.
Form 6-K
April 11, 2006

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 6-K

REPORT OF FOREIGN PRIVATE ISSUER

PURSUANT TO RULE 13a-16 OR 15d-16 UNDER

THE SECURITIES EXCHANGE ACT OF 1934

For the month of April 2006

LG.Philips LCD Co., Ltd.

(Translation of Registrant's name into English)

20 Yoido-dong, Youngdungpo-gu, Seoul 150-721, The Republic of Korea

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submission to furnish a report or other document that the registration foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

LG.PHILIPS LCD REPORTS FIRST QUARTER 2006 RESULTS

SEOUL, Korea April 11, 2006 LG.Philips LCD [NYSE: LPL, KRX: 034220], one of the world's leading TFT-LCD manufacturers, today reported unaudited earnings results based on consolidated Korean GAAP for the three month period ended March 31, 2006. Amounts in Korean Won (KRW) are translated into US dollars (USD) at the noon buying rate in effect on March 31, 2006, which was KRW 971.4 per US dollar.

Sales in the first quarter of 2006 decreased by 17% to KRW 2,471 billion (USD 2,544 million) from sales of KRW 2,963 billion (USD 3,050 million) in the fourth quarter of 2005 and increased 20% compared to KRW 2,064 billion (USD 2,125 million) in the first quarter of 2005. The sequential decline in sales in this year's first quarter was the result of a greater than expected decline in demand and the average selling price in both the notebook and monitor panel segments.

Operating profit in the first quarter of 2006 decreased to KRW 52 billion (USD 54 million) from KRW 334 billion (USD 344 million) in the fourth quarter of 2005, and increased compared to an operating loss of KRW 135 billion (USD 139 million) in the first quarter of 2005.

EBITDA in the first quarter of 2006 decreased by 19% to KRW 670 billion (USD 690 million) from KRW 824 billion (USD 848 million) in the fourth quarter of 2005. EBITDA increased by 149% from KRW 269 billion (USD 277 million) in the first quarter of 2005.

Net income in the first quarter of 2006 decreased to KRW 48 billion (USD 49 million) from KRW 328 billion (USD 338 million) in the fourth quarter of 2005, and increased compared to a loss of KRW 79 billion (USD 81 million) in the first quarter of 2005.

We began 2006 with the ramp up of P7, the world's largestth generation facility. P7 will further strengthen our position in the TFT-LCD market, especially in the large panel LCD TV segment. P7 is optimized for the production of 42- and 47-inch LCD TV panels in full HD, where we are driving increased market demand, said Bon Joon Koo, Vice Chairman and CEO of LG.Philips LCD. In addition, we achieved a significant milestone with the creation of the world's largest LCD panel this quarter. The technology involved in creating a 100-inch LCD TV panel will be a catalyst for further TV innovation as we continue to meet the high demand for better picture quality and larger sizes.

Mr. Koo continued, "P7 adds to our scale and capacity advantage, which is key to expanding our product offering. This allows us to meet the needs of our customers, particularly in the fast-growing LCD TV segment."

First Quarter Financial Review

Revenue and Cost

Revenue in the three-month period ended March 31, 2006 increased by 20% to KRW 2,471 billion (USD 2,544 million) from KRW 2,064 billion (USD 2,125 million) in the corresponding period in 2005, mainly due to increased demand for LCD TVs. TFT-LCD panels for TVs, desktop monitors, notebook computers and other applications accounted for 45%, 30%, 20% and 5%, respectively, on a revenue basis, in the first quarter of 2006, compared to 34%, 38%, 24% and 4%, respectively, on a revenue basis, in the fourth quarter of 2005.

Overall, the Company shipped a total of 1,274,000 square meters of net display area in the first quarter of 2006, a 5% sequential quarterly decrease, with an average selling price per square meter of USD 1,953. This represents a decrease in the average selling price per square meter of net display area of approximately 10% compared to the end of the fourth quarter of 2005 and an average decrease of 8% from the fourth quarter of 2005.

The total cost of goods sold decreased 7% quarter-on-quarter to KRW 2,294 billion (USD 2,362 million), and increased 9% year-on-year. The sequential decrease is primarily due to lower shipments and better than expected cost reduction at the Company's facilities. The cost of goods sold per square meter of net display area shipped was KRW 1,800,000 (USD 1,853) for the first quarter of 2006, down 2% from the fourth quarter of 2005.

We continue to focus on profitability. Our EBITDA margin was better than expected, boosted by the operational efficiencies from the launch of P7, said Ron Wirahadiraksa, President and CFO of LG.Philips LCD. We believe that our launch of P7 earlier in the year was well timed to take advantage of the growing LCD TV market, particularly in light of the seasonal weakness in notebook and monitor panels.

Mr. Wirahadiraksa continued, "An important element in our strategy to drive growth is our commitment to cost reduction, which includes process innovation and raw material cost reduction efforts."

Liquidity

As of March 31, 2006, LG.Philips LCD had KRW 1,060 billion (USD 1,091 million) of cash and cash equivalents. Total debt was KRW 3,616 billion (USD 3,722 million), and the net-debt-to-equity ratio was 33% as of March 31, 2006, compared to 26% as of December 31, 2005.

Capital Spending

Capital expenditures in the first quarter of 2006 increased to KRW 845 billion (USD 870 million) from KRW 453 billion (USD 466 million) in the first quarter of 2005, and were mainly used for the P7 and P8 facilities.

Utilization and Capacity

Total input capacity on an area basis increased approximately 7% in the first quarter compared to the fourth quarter of 2005, mainly due to the ramp up of P7, which has reached an average of 16,000 input sheets per month.

Outlook

The following expectations are based on current information as of April 11, 2006. The Company does not expect to update its expectations until next quarter's earnings announcement. However, the Company may update its full business outlook, or any portion thereof, at any time for any reason.

For the second quarter of 2006, we anticipate that our area shipments will increase quarter-on-quarter by a mid-to-high twenties percentage, driven by continued growth in the expanding LCD TV segment and progress at our P7 facility, said Mr. Wirahadiraksa. We expect our average selling price per square meter of net display area shipped at the end of the second quarter of 2006 to decrease by a mid-to-high single digit percentage, as compared to the end of the first quarter of 2006, largely due to continued weakness in monitor and notebook pricing. Our EBITDA margin for the second quarter is expected to be approximately 20%.

Our capital expenditure guidance for 2006 remains unchanged from the fourth quarter of 2005 and is KRW 4.2 trillion, concluded Mr. Wirahadiraksa.

Earnings Conference and Conference Call

LG.Philips LCD will hold a Korean language earnings conference on April 11, 2006 at 4:30 p.m. Korea Standard Time on the 21st floor, in the International Conference Room of the Korea Exchange Building (KRX). An English language conference call will follow at 9:00 p.m. Korea Standard Time, 8:00 a.m. EDT and 1:00 p.m. GMT. The call-in number is 031-810-3001 for callers in Korea and +82-2-6677-2256 for callers outside of Korea. The confirmation number is 3777. Corresponding slides will be available at the Investor Relations section of the LG.Philips LCD web site: <http://www.lgphilips-lcd.com>

Investors can listen to the conference call via the Internet at <http://www.lgphilips-lcd.com>. To listen to the live call, please go to the Investor Relations section of the web site at least 15 minutes prior to the call to register and install any necessary audio software.

For those who are unable to participate in the call, a replay will be available for 30 days after the call. The call-in number is 1566-2258 for callers in Korea and +82-31-810-3100 for callers outside of Korea. The confirmation number for the replay is 50619#.

About LG.Philips LCD

LG.Philips LCD [NYSE: LPL, KRX: 034220] is a leading manufacturer and supplier of thin film transistor liquid crystal display (TFT-LCD) panels. The Company manufactures TFT-LCD panels in a wide range of sizes and specifications primarily for use in notebook computers, desktop monitors and televisions. Headquartered in Seoul, South Korea, LG.Philips LCD currently operates seven fabrication facilities in Korea and has approximately 21,000 employees in locations around the world.

Disclaimer

Disclaimer

This presentation contains forward-looking statements. We may also make written or oral forward-looking statements in our periodic reports to the United States Securities and Exchange Commission and the Korean Financial Supervisory Service, in our annual report to shareholders, in our proxy statements, in our offering circulars and prospectuses, in press releases and other written materials and in oral statements made by our

officers, directors or employees to third parties. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. These statements are based on current plans, estimates and projections, and therefore you should not place undue reliance on them. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties. We caution you that a number of

important factors could cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, but are not limited to: our highly competitive environment; the cyclical nature of our industry; our ability to introduce new products on a timely basis; our dependence on growth in the demand for our products; our ability to successfully execute our expansion strategy; our dependence on key personnel; and general economic and political conditions, including those related to the TFT-LCD industry; possible disruptions in business activities caused by natural and human-induced disasters, including terrorist activity and armed conflict; and fluctuations in foreign currency exchange rates. Additional information as to these and other factors that may cause actual results to differ materially from our forward-looking statements can be found in our filings with the Securities and Exchange Commission.

This presentation also includes information regarding our historical financial performance through March 31, 2006, and our expectations regarding future performance as reflected in certain non-GAAP financial measures as defined by US Securities and Exchange Commission rules. As required by such rules, we have provided a reconciliation of those measures to the most directly comparable GAAP measures, which is available on our investor relations website at <http://www.lgphilips-lcd.com> under the file name Q106 Earnings Presentation.

EBITDA Reconciliation (Continued)

EBITDA Reconciliation (Continued)

EBITDA is defined as net income (loss) plus: interest income (expense); provision (benefit) for income taxes; depreciation of property, plant and equipment; amortization of intangible assets; and amortization of debt issuance cost. EBITDA is a key financial measure used by our senior management to internally evaluate the performance of our business and for other required or discretionary purposes. Specifically, our significant capital

assets are in different stages of depreciation, and because we do not have separate operating divisions, our senior management uses EBITDA internally to measure the performance of these assets on a comparable basis. We also believe that the presentation of EBITDA will enhance an investor's understanding of our operating performance as we believe it is commonly reported and widely used by analysts and investors in our industry. It also provides useful information for comparison on a more comparable basis of our operating performance and those of our competitors, who follow different accounting policies. For example, depreciation on most of our equipment is made based on a four-year useful life while most of our competitors use different depreciation schedules from our own. EBITDA is not a measure determined in accordance with U.S. GAAP. EBITDA should not be considered as an alternative to operating income, cash flows from operating activities or net income, as determined in accordance with U.S. GAAP. Our calculation of EBITDA may not be comparable to similarly titled measures reported by other companies.
