GENERAL

This Proxy Statement is furnished to the stockholders of Boston Private Financial Holdings, Inc., a Massachusetts corporation (the **Company**), in connection with the solicitation of proxies by the Board of Directors of the Company (the **Board of Directors**) from holders of the outstanding shares of the Common Stock, par value \$1.00 per share (the **Common Stock**), of the Company for use at the Annual Meeting of Stockholders (the **Meeting**) of the Company to be held on Wednesday, April 25, 2007 at 10:00 a.m. Boston time, at Ten Post Office Square, 2nd Floor, Boston, Massachusetts 02109 and at any adjournment or postponement thereof, for the purposes set forth herein.

The Notice of Annual Meeting of Stockholders, this Proxy Statement and the accompanying proxy are first being sent to stockholders on or about March 9, 2007.

The shares represented by the enclosed proxy will be voted as specified therein if the proxy is properly executed and received prior to the Meeting and not properly revoked. If a properly executed proxy is submitted and no instructions are given, the proxy will be voted FOR the proposals contained in the proxy, including the nominees for election to the Board of Directors. In accordance with Securities and Exchange Commission (the **Commission**) rules, boxes and instructions are provided on the enclosed proxy card for stockholders to mark if they wish either to vote for or to withhold authority to vote for one or more of the Company's nominees for Directors. It is not anticipated that any matters other than those set forth in this Proxy Statement will be presented at the Meeting. If other matters are presented, proxies will be voted in accordance with the discretion of the proxy holders.

A stockholder of record may revoke a proxy by (i) filing an instrument of revocation with the Company at Ten Post Office Square, Boston, Massachusetts 02109, Attention: Secretary, (ii) filing a duly executed proxy bearing a later date, or (iii) appearing in person at the Meeting and withdrawing the proxy.

The holders of each share of Common Stock outstanding as of the close of business on the Record Date shall be entitled to notice of, and to vote at, the Meeting and any adjournment or postponement thereof. Abstentions and broker non-votes (that is, shares represented at the meeting which are held by a broker or nominee and as to which (i) instructions have not been received from the beneficial owner or the person entitled to vote and (ii) the broker or nominee does not have discretionary voting power) shall be treated as shares that are present and entitled to vote with respect to such matters for purposes of determining whether a quorum is present. With respect to the election of directors, such election shall be determined by a plurality of votes cast by stockholders. Shares represented by a proxy that withholds authority to vote for a particular nominee or nominees and broker non-votes will be disregarded in determining the votes cast for the election of directors and will not affect the election of the nominees.

PROPOSAL 1.

ELECTION OF DIRECTORS

The Board of Directors of the Company consists of eleven members divided into three classes, with each class elected for a three-year term. One class of Directors is elected by the Company's stockholders at each annual meeting of stockholders. All four of the nominees are currently serving on the Board of Directors. The Board of Directors has nominated Eugene S. Colangelo, Allen L. Sinai, Timothy L. Vaill, and Stephen M. Waters for re-election as Class I Directors.

Each nominee has agreed to continue to serve as a Director if re-elected. If any nominee shall become unavailable for any reason, all proxies will be voted FOR the election of such other person as the Board of Directors may recommend.

Unless otherwise instructed, the persons named in the proxy will vote the shares to which the proxy relates **FOR** the election of the nominees to the Board of Directors.

Under the NASDAQ Rules, a director is considered independent only if the director is not an executive officer or employee of the Company and the Board affirmatively determines that the director does not have a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making its determinations, the Board considered the following factors including, but not limited to, any compensation received from the Company, other than director's fees, in excess of \$120,000 during the last three years, whether the Director or any member of their family was employed as an executive officer of the Company during the last three years, and whether the Director or any member of their family is or was a partner of the Company's independent registered public accounting firm or worked on the Company's audit as a partner or employee of the Company's independent registered public accounting firm during the last three years.

Board of Directors Meetings

The Board of Directors held five meetings of the full Board during 2006. Each incumbent Director attended at least 75% of the aggregate number of meetings of the Board of Directors and the committees of which he or she was a member in 2006.

Director Nominations

Directors of the Company are nominated in accordance with the Company's by-laws, which provide that directors may be nominated (i) by a majority of the Board of Directors or (ii) by any holder of record of any shares of the capital stock of the Company entitled to vote at the annual meeting of stockholders. Any stockholder who seeks to make such a nomination for the 2008 annual meeting must be present in person at such Annual Meeting and must comply with the notice provisions set forth below under *Submission of Stockholder Proposals for 2008 Annual Meeting*.

Committees of the Board of Directors

The standing committees of the Board of Directors include, among others, the Audit and Risk Management Committee, the Governance Committee, and the Compensation Committee. Current copies of the charters of these Committees are available on the Company's website at www.bostonprivate.com under the tab *Investor Relations/Corporate Governance*.

The Audit and Risk Management Committee

The Audit and Risk Management Committee (hereinafter referred to as the *Audit Committee*) consists of four members of the Board, each of whom is independent in accordance with the definition of independence in the NASDAQ Rules. The Board of Directors has determined that Herbert S. Alexander and William J. Shea are *audit committee financial experts* in accordance with Commission regulations. The present members of the Audit Committee are Herbert S. Alexander, Chair, Kathleen M. Graveline, Vice Chair, William J. Shea and Stephen M. Waters. The Audit Committee held nine meetings in 2006.

The Governance Committee

The Governance Committee periodically reviews the arrangements for the overall governance of the organization by the Board of Directors and committees, assists the Board of Directors by evaluating the performance of the Board and its committees, identifies individuals qualified to become members of the Board, recommends the slate of candidates to be nominated for election, recommends the members and the Chairs of the committees of the Board, and reviews and assesses the charters of all of the Committees of the Board. The present members of the Governance Committee are Kathleen M. Graveline, Chair, Richard I. Morris, Jr., Vice Chair, Peter C. Bennett, and Eugene S. Colangelo. Of those current members, Ms. Graveline joined the Committee as of April 26, 2006. Prior to that date Mrs. Lynn Thompson Hoffman was a member of the Committee. Each member of the Governance Committee meets the independence requirements set forth in NASDAQ Rules. The Governance Committee held four meetings in 2006.

Historically, the Company has not received any proposals from stockholders recommending director candidates to be nominated for membership on the Board of the Company. Consequently, the Board of Directors has not viewed the development of a formal policy regarding the consideration of any director candidates recommended by stockholders to be appropriate, and the Governance Committee does not have such a formal policy. A stockholder wishing to nominate a director separately from the slate of directors nominated by the Company for the 2008 annual meeting should follow the procedures described in this Proxy under the heading *Submission of Stockholder Proposals for 2008 Annual Meeting*.

The Governance Committee has not established any specific, minimum qualifications that it believes must be met by an individual in order to be considered for nomination by the Committee to the Company's Board of Directors, nor has the Governance Committee identified any specific qualities or skills that it believes are necessary for one or more of the Company's directors to possess. In identifying potential candidates for the Board, the Governance Committee considers a broad range of qualitative factors including, but not limited to, an evaluation of the existing make-up of the Company's Board of Directors, specialized skills that may be needed, diversity, knowledge, expertise, business contacts and relationships and the ability to commit appropriate time to the duties of a director, in order to address the perceived needs of the overall Board of Directors. In identifying nominees for election at the Annual Meeting, the Governance Committee reviews those members of the Board whose terms are expiring, discusses in detail the skill sets of each member, reviews the particular contributions made over the potential nominee's most recent term, reviews any changes to the member's circumstances (such as employment changes, re-location, etc.), reviews attendance records and reaches a conclusion as to whether such person should be nominated to stand for re-election or election, as the case may be.

All nominees included in this Proxy are directors standing for re-election. While the Company has not typically retained third-party search firms to identify and evaluate potential nominees, it did hire such a firm in 2006 in connection with filling one vacancy on the Board.

The Compensation Committee

The Compensation Committee provides guidance to management and the Board of Directors on matters of executive and director compensation and related benefits, and makes recommendations to the Board of Directors where necessary on certain matters, including, but not limited to, changes to compensation plans and the adoption of new plans, changes to the CEO's and other executive officers' compensation and changes to Board compensation programs of the Company. The present members of the Compensation Committee are Lynn Thompson Hoffman, Chair, Eugene S. Colangelo, Vice Chair, and Peter C. Bennett. John A. Straus served on the Committee from January until his resignation in October 2006. Each member of the Compensation Committee meets the independence requirements set forth in the NASDAQ Rules. The Compensation Committee held nine meetings in 2006.

For additional information on the Compensation Committee's process for the consideration and determination of the executive and director compensation, please see the Compensation Discussion and Analysis.

Stockholders Communications with the Board of Directors

Stockholders wishing to communicate with the Company's Board of Directors should address their communications to the Company's investor relations department by email at *investor-relations@bostonprivate.com*, by phone at 617-912-1900, or by mail sent to the Company's main address at Ten Post Office Square, Boston, Massachusetts 02109, Attention: Investor Relations. Except for resumes, sales and marketing communications or notices regarding seminars or conferences, summaries of all stockholder communications will be provided to the Board.

Directors Attendance at Annual Meetings

The Company does not have a policy of requiring Directors to attend the annual meeting of stockholders. The Company does, however, schedule a meeting of its Board of Directors on the same day as the annual meeting of stockholders to facilitate each Director's attendance at the annual meeting of stockholders. All of the members of the Company's Board of Directors at that time attended the Company's annual meeting of stockholders held April 26, 2006.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Discussion and Analysis (CD&A) provides a narrative overview of the Company's executive compensation philosophy, programs and policies. It is intended to highlight for investors material information relating to the Company's executive compensation programs and includes analysis on the compensation earned by its Named Executive Officers (NEOs) as detailed in the executive compensation tables. The NEOs include individuals who served as the Company's Chief Executive Officer (CEO), Chief Financial Officer (CFO), as well as the other three most highly compensated executive officers of the Company, who served in such capacities during the 2006 fiscal year.

Role of the Compensation Committee and Executive Officers in Compensation Decisions

The Compensation Committee of the Board of Directors (the Compensation Committee) operates pursuant to a charter which gives the Compensation Committee responsibility on matters of executive and director compensation and related benefits. The Compensation Committee publishes a formal calendar each year with official meeting dates and matters to be considered at each meeting including all required authorizations and approvals of CEO and NEO compensation actions. The Compensation Committee meets in executive sessions when discussing CEO performance and specific actions related to CEO compensation.

The Compensation Committee relies on management and outside advisers for staff work and technical guidance in conducting its affairs. The Compensation Committee retains full authority to engage independent third party advisers. For the past several years the Compensation Committee has retained W. T. Haigh & Company, a compensation consulting firm in Cambridge, Massachusetts, to conduct independent studies and provide objective advice on executive and director compensation. W.T. Haigh & Company attends meetings and conducts its work on an as requested basis by the Compensation Committee. The Company also retains Goodwin Procter LLP for legal and advisory services on executive compensation matters, including the drafting of legal plan documents, and Towers Perrin for all actuarial work related to the CEO Supplemental Executive Retirement Plan (SERP). The Company may use other firms from time to time in the normal course of business.

The CEO and the Senior Vice President of Human Resources attend most meetings. In addition, other members of management may attend as requested by the Compensation Committee. The Senior Vice President of Human Resources, working closely with the Compensation Committee Chair, is responsible for the administrative aspects of all meetings including taking the official meeting minutes and preparing the meeting agendas. The Compensation Committee approves all compensation actions with respect to the Company's CEO and, based on the recommendations by the CEO, all of the Company's other Executive Officers.

Executive Compensation Philosophy

The Company's executive compensation philosophy is to pay what is necessary to attract, motivate, engage and retain executive talent for the long term so that its executives can stay focused on the Company's mission of building a highly successful, diversified wealth management firm on a national scale. As a firm committed to long-term relationships, the Company strives to create an entrepreneurial environment where its employees feel valued and rewarded for their contributions to the Company's sustainable growth plan. The long-term goal is that high-performing individuals remain with the Company.

The Company has evolved over the years from a small private banking organization to a growth-oriented, diversified wealth management firm with 13 affiliated companies. The Company has embraced the principle of establishing aggressive but achievable goals as a key part of its compensation philosophy as it continues to grow and diversify. Selecting appropriate goals and performance measures for inclusion in its compensation programs requires constant assessment and re-evaluation by the Compensation Committee, with input from management and outside advisers, to reflect market dynamics, changing business and strategic priorities and the Company's growth phase. Key to this approach is retaining flexibility and exercising sound judgment to ensure that the programs appropriately motivate executives to manage the Company at all levels in the organization for long-term growth and viability and to increase value for its shareholders.

Program Objectives

The Company's executive compensation programs are designed around four key objectives:

1. Aligning executive interests with shareholder interests through strong performance-oriented incentive programs.
2. Motivating and rewarding the achievement of annual and long-term growth goals.
3. Attracting, retaining and engaging individuals critical to the long-term success of the Company.
4. Reinforcing an entrepreneurial, success-sharing culture.

In support of these objectives, the Company believes that executive compensation should be linked to overall Company performance, reflect each executive's role and individual performance, and include a sizable equity component.

Principles for Setting Compensation Levels

The factors considered by the Company in setting executive compensation levels are:

1. Performance (short-term and long-term results against pre-set targets/goals).
2. Overall cost (relative to budget and what the Company can afford).
3. Internal relationships/relative value of positions.
4. Market competitiveness (market benchmarking against diversified financial peer group and general industry).

Performance and overall cost considerations are reviewed as part of the Company's annual executive compensation cycle. The Compensation Committee considers the overall financial performance of the Company, as well as individual performance and contributions, and uses a disciplined review process to assess the performance of its executives and overall results.

Compensation actions are also reviewed in the context of tax and regulatory considerations, the overall budget and, most recently, relative to industry costs. The Compensation Committee reviews the cost of its executive programs for reasonableness both in terms of absolute dollars and relative to performance. In addition, the Compensation Committee has begun to look at internal ratios across executive positions (for example, the President's total compensation as a percentage of the CEO's total compensation) to ensure that the Compensation Committee remains comfortable with the internal executive pay progression. Lastly, the Compensation

Committee looks at market competitiveness as a key influencer (how much it pays for its executives relative to how much the market pays for similar positions). The process for conducting market benchmarking and determining market competitiveness is described in more detail below.

The Compensation Committee believes that the aggregate total compensation as reported in the Summary Compensation Table (SCT) for its NEOs is reasonable and fair from a performance, cost, internal equity and market competitiveness standpoint. Specifically:

NEO compensation is tied to, and varies with, the overall performance of the Company.

NEO compensation is within the Company's established financial plan.

CEO total direct compensation (*i.e.*, base salary, annual incentive and long-term incentive) is at a ratio of 2.4 times the average for all other NEOs, and well within a reasonable ratio when considering relative role and internal value.

Total direct compensation is within the targeted competitive market range for all NEO positions, consistent with the Company's stated compensation philosophy.

Executive perquisite offerings are kept to a minimum and are within competitive norms for the diversified financial services industry, and the general industry more broadly.

Total Compensation Market Benchmarking and Peer Group

As the Company grows, diversifies and becomes more complex, defining a peer group for the market benchmarking of executive compensation is increasingly challenging. In particular, there are few publicly traded companies exactly like Boston Private of a similar size. As a result, the Company relies on the following criteria to aid in the selection of a relevant compensation peer group:

Competitors for executive talent in the wealth management industry.

United States public companies (to be able to access data).

Growth-oriented companies, typically with positive revenues and earnings growth over prior three years.

Companies that are effective competitors in business segments that overlap with that of the Company.

Inclusion of financial holding companies, wherever possible.

The Company's peer group covers a broad size range (based on revenue and market capitalization). For compensation comparison purposes, the data compiled from the peer group is adjusted for size and validated against broader financial services and general industry data.

Based on these factors the Company currently uses a peer group consisting of the following companies:

Affiliated Managers Group
AllianceBernstein Holding LP
Bryn Mawr Bank Corporation
City National Corporation
CoBiz Inc.
Cullen/Frost
Eaton Vance
First Republic Bank
Janus Capital Group Inc.
Legg Mason, Inc.
Mellon Financial Group

Northern Trust Corporation
PrivateBancorp
Southwest Bancorp
S.Y. Bancorp, Inc.
Synovus
T. Rowe Price Group, Inc.
Waddell & Reed Financial Inc.
Washington Trust
Wilmington Trust
Wintrust Financial

The Company's peer group was last reviewed in 2006. At the time of the review, the Company was below the median of the peer group in terms of size (revenue and market capitalization) but above the median for performance metrics such as revenue growth, net income growth and total shareholder return. The Company will continue to review its peer group (at least annually) for relevancy and overall fit with Boston Private.

The Company's peer group for compensation benchmarking is different from the peer group used in the Company's stock performance graph in the Company's Form 10-K because the stock performance graph peer group relies on readily available, consistent indices/composites such as the NASDAQ composite and the SNL index, both relevant for purposes of comparing the Company's total shareholder return. The peer group detailed above has evolved as the Company's mix of business has evolved. As a result, the peer group has been used more as an internal management tool for performance and executive compensation benchmarking than as a formal reporting tool for stock performance comparison purposes for the Company's public filings. In addition to the peer group, the Company considers proxy information of more comparably sized organizations across the financial services and general industry groups as additional market inputs for total compensation comparisons.

The Company relies on qualified third-party advisers for the development of competitive market ranges for its executive positions after consideration of all relevant data sources and factors (such as adjusting for the size of the peer group organizations). Judgment is exercised in developing the competitive market ranges for each position (rather than a formulaic approach) and to the extent possible, consistent peer group criteria and approach to market analysis is used. The Company conducts periodic competitive market reviews approximately every two years.

Total Compensation Positioning versus Market

The Company targets total direct pay for executives in the 50th - 75th percentile of the competitive market range as determined by the total compensation market benchmarking and peer group analysis described above. Actual compensation positioning versus market will vary year-to-year based on Company and individual performance and overall cost considerations. Based upon the last competitive market review (2006), direct pay for the Company's NEOs was positioned within the 50th - 75th percentile of the competitive market range.

Program Components and Policies

Compensation Elements and Targeted Mix

The compensation elements used for the Company's executives include the following:

Direct Compensation

- Base salary
- Annual incentive bonus
- Long-term equity incentive

A substantial portion of total direct compensation is allocated to variable, performance-based annual and long-term incentives. This is done to link executive compensation closely to the achievement of targeted results and performance as measured over a one-year and three-year period. The incentive components are intended to reinforce the larger scope of responsibilities, higher degree of decision-making and the potential impact of each executive's performance. As a result of this emphasis on performance-based incentives, it is expected that there will be variability in executive pay year to year.

The direct compensation mix for the NEOs as a group (including the CEO) is targeted to deliver approximately one third of compensation through base salary, one third through the annual incentive bonus, and one third through the long-term equity incentive, with some variation across positions.

Indirect Compensation

- Benefits
- Perquisites

The Company's executives participate in Company-sponsored benefit programs available to all employees. In addition, the Company maintains certain executive benefit and perquisite programs consistent with market practice and does not intend for the value from these programs to make up a significant percentage of total executive compensation (with the exception of the CEO SERP which is described below). In 2006, the compensation value from executive perquisites for the CEO was 2.9% of total reported compensation as reported in the SCT. For other NEOs on average as a group, the value of executive benefits and perquisites was less than 2.0% of total reported compensation.

Base Salary

The purpose of base salary is to attract and retain key executives by providing a basic level of income comparable to that of executives in similar positions at other companies, taking into account the individual's performance and experience. Normal cost of living and appropriate merit and promotional adjustments are made periodically in line with the salary guidelines used for all of the Company's employees.

The Compensation Committee reviews the salaries of its NEOs annually. The amount of salary increases is generally based on each executive's performance within specific areas of accountability as measured against achievement and satisfaction of quantitative and qualitative objectives. The Company's general philosophy is to pay NEO base salaries relatively close to the median of the competitive market range with the incentive components driving an executive's ability to achieve a higher total compensation positioning within the competitive market range.

Based upon a comprehensive review in 2006, NEO salaries are positioned between the 50th and the 75th percentile of the competitive market. As a result, the Compensation Committee is being more conservative with NEO base salary increases effective January 2007 to align with the philosophy of paying closer to the median.

Base salaries were increased by 1.2%, on average, for the NEO group in 2007. This compares to an average increase of 6.5% for the NEO group in 2006. The following table itemizes base salary increases by position (annualized salaries as of December 31 of each year):

Executive				2006	2007
	2005 Actual	2006 Actual	2007 Projected	% Increase	% Increase
T. Vaill	\$ 585,000	\$ 620,000	\$ 620,000	6.0%	0.0%
R. Whelan (1)	\$ 240,000	\$ 275,000	\$ 300,000	14.6%	9.1%
W. Pressey	\$ 400,000	\$ 450,000	\$ 450,000	12.5%	0.0%
J. Cromarty	\$ 325,000	\$ 350,000	\$ 350,000	7.7%	0.0%
J. Parker (2)	\$ 345,000	\$ 360,000	\$ 360,000	4.3%	0.0%
Average	\$ 379,000	\$ 411,000	\$ 416,000	8.4%	1.2%

(1) Mr. Whelan was hired in December of 2004.

(2) Mr. Parker's actual salary rate will be 90% of the above amount for 2007 and in 2005 and 2006 was 80% of the above amounts.

Salary increases in 2006, for the most part, reflected increases in job scope and responsibility for most NEO positions as the Company continued to grow, diversify and expand its core businesses. In particular, Mr. Pressey's increase reflected his expanded role as President and increasing focus on the Company's acquisition strategy.

The Company did not increase NEO salaries in 2007 with the exception of Mr. Whelan's salary, which was adjusted to be more in line with the relative positioning of other executive salaries after consideration of market data for Chief Financial Officers within the financial services industry. The Company believes that NEO salaries are fair and within a reasonable market range reflecting each executive's role, experience, tenure with the Company and sustained performance over time.

Annual Incentive

The purpose of annual incentives is to motivate and reward executives for the achievement of the Company's financial targets and individual performance goals.

Annual Incentives for the CEO and President

Annual incentives for the CEO and President are administered under the Company's Annual Executive Incentive Plan (the "Plan") adopted by the Board and approved by shareholders in 2004. This plan enables incentive payments to qualify as "performance-based compensation" under Section 162(m) of the Code. Under the Plan, the Compensation Committee utilizes a performance-based incentive framework to calculate individual incentive awards based on the attainment of pre-established objectives.

Each year, the Compensation Committee conducts a detailed performance-based review taking into account specific financial and non-financial performance categories linked to the Company's strategic plan. Although complex to administer, the Compensation Committee selects a number of key metrics to ensure a balanced performance focus in support of the Company's long-term strategy. Both short-term and long-term financial measures are included, as well as other factors to reinforce the emphasis on attaining goals described in the Company's growth and strategic plan, ensuring the effective use of the Company's capital, infrastructure building and overall leadership of the enterprise. The Company believes in using a holistic, long-term approach to performance, as ultimately the Company's success depends on sustained performance across multiple financial and non-financial measurement categories to grow value for its shareholders over the long term.

The 2006 performance categories and targets for the CEO were:

Short-term financial results (40% weighting) including a revenue target of \$347.4 million, operating income target of \$56.3 million and cash earnings per share target of \$1.83 per share.

Long-term financial results (20% weighting) including 3-year rolling average earnings per share growth target of 12%, 3-year rolling average ROE target of 14% and 3-year total shareholder return versus peers (target percentile ranking between the 50th - 75th % percentile).

Operational excellence (20% weighting) based on a subjective assessment by the Compensation Committee considering such factors as infrastructure building and progress against acquisition strategy and return on invested capital.

Leadership (20% weighting) based on the results of a formal Board evaluation survey of CEO effectiveness.

The 2006 performance categories and targets for the President were essentially the same as for the CEO with some differences across the non-financial categories based on goals defined for the President in 2006.

A target annual incentive payout (125% of base salary) and range of potential payout (0%-225% of base salary) are defined with actual awards calculated based on the attainment of performance in each category. Threshold and significant overachievement performance levels are also defined in order to calibrate and calculate the final awards. The Compensation Committee approves the performance-based incentive frameworks, including target award levels, and all related performance goals and formulas within the first 90 days of each calendar year.

Annual Incentives for other NEOs

Through 2006 annual incentive awards for the Company's other NEOs have been based on the CEO's assessment of relative individual performance and results against goals established at the beginning of the year for each executive, taking into account the overall performance of the Company. In 2007, the Company is developing performance-based incentive frameworks for all of its NEOs, and modifying the performance basis and measurement categories as appropriate, with the continued goal of optimal alignment with the Company's strategic plan.

2006 Annual Incentive Awards (CEO and President)

On January 23, 2007, the Compensation Committee approved an annual incentive award (relating to the 2006 performance year) for Mr. Vaill of \$810,000, or 131% of base salary, versus a target of 125% of base salary. The Committee also approved an annual incentive award (relating to the 2006 performance year) for Mr. Pressey of \$625,500, or 139% of base salary, versus a target of 125% of base salary. The approved amounts for Mr. Vaill and Mr. Pressey represented 105% and 111% of their 2006 target awards respectively. Bonuses for 2006 for Mr. Vaill and Mr. Pressey were lower than their approved 2005 bonuses of \$934,000 and \$648,000, respectively, as a result of the Company's financial performance in 2006 relative to 2005 performance.

The following table provides a comparison of the bonuses paid to the Company's NEOs for 2006 and 2005 performance.

Executive	2006 Bonus	2005 Bonus (1)	\$ change	% change
T. Vaill	\$ 810,000	\$ 934,000	(\$124,000)	(13.3%)
R. Whelan	\$ 200,000	\$ 150,000	\$ 50,000	33.3%
W. Pressey	\$ 625,500	\$ 648,000	(\$ 22,500)	(3.5%)
J. Cromarty	\$ 360,000	\$ 300,000	\$ 60,000	20.0%
J. Parker	\$ 360,000	\$ 300,000	\$ 60,000	20.0%
Average	\$ 471,100	\$ 466,400	\$ 4,700	1.0%

- (1) Bonus amounts reflects amounts awarded to Mr. Vaill and Mr. Pressey.
- (2) Actual amounts paid to Mr. Vaill and Mr. Pressey for 2005 performance were slightly lower than the 2005 amounts approved by the Compensation Committee as Mr. Vaill and Mr. Pressey both elected to take reduced bonuses in 2005 in order to re-allocate bonus dollars to other executives.

2006 Annual Incentive Awards (Other NEOs)

Annual incentive awards for 2006 for the other NEOs were discretionary based on the CEO's assessment of each executive's performance, with final approval by the Compensation Committee. Annual incentive awards for 2006 for all other NEOs as a group represented 93% of base salary, on average.

Long-Term Equity Incentive

The Company's long-term incentive program is an equity-only program administered under the Company's 2004 Stock Option and Incentive Plan. Each year the amount of the share pool for equity grants is determined based on the Company's performance tied to three-year rolling average EPS growth and three-year rolling average ROE. A performance matrix is used as a funding guideline for purposes of determining the preliminary share pool each year. The range of the potential share pool is set at 2%-4% of the number of shares outstanding at the end of the preceding calendar year. The Compensation Committee, after consideration of the matrix calculation, exercises discretion in determining and approving the final share pool each year.

The Company currently uses restricted stock and stock options as the two primary grant forms. The Company believes both forms play an important role in attracting, retaining and motivating executives to focus on long-term value creation. The Company uses stock options because stock options, granted at fair market value (*i.e.*, not at a discount), only deliver value when the stock price goes up, and when shareholders receive value. All of the Company's stock options are granted at the fair market value (closing price) on the date of grant.

The Company also uses restricted stock because with restricted stock, executives receive full value shares and become shareholders of record at the date of grant. As a result, restricted stock provides immediate ownership while enhancing executive retention as a result of a forfeiture restriction in the event that the executives leave the Company before the end of the stated vesting period (or when the restrictions lapse). The Company uses an annual grant process for determining long-term incentive awards for its executives.

Long-Term Incentives for the CEO and President

For the CEO and President, the performance based incentive framework criteria used for the annual incentive awards are also used to determine the long-term incentive (LTI) awards with heavier weighting on long-term performance measures. The CEO LTI target is 125% of base salary with a potential award value range of 0%-200% of base salary based on performance in each category. The President LTI target is 100% of base salary with a potential award value range of 0%-160% of base salary based on performance in each category.

The LTI award value as calculated per the performance-based incentive framework is determined before the grant date and converted to restricted stock and stock options using the daily average stock price for the previous year. This is done to provide an equity award that considers the share price of the Company over the prior year performance period, as opposed to one trading day. Once the number of restricted stock and stock options are determined and approved by the Compensation Committee, they are granted at the closing price on the grant date, consistent with the Company's equity grant practices and policies. The CEO and President typically receive approximately 50% of their long-term award value in the form of restricted stock and 50% in stock options.

Long-Term Incentives for other NEOs

Through 2006 the Company's other NEOs have received discretionary long-term incentive awards and allocations across the two grant forms at the CEO's recommendation with approval by the Compensation Committee. In 2007, performance based incentive frameworks will be used to determine long-term incentive awards for all of the Company's NEOs.

NEO 2006 and 2007 Stock and Option Awards

Stock awards for 2006 and 2007 were granted in tandem with stock options to the Company's NEOs. The following table presents the grant date fair value of 2006 and 2007 stock and option awards for the Company's NEOs. The 2007 stock and option awards were approved by the Compensation Committee on February 7, 2007 with the grant date set as February 15, 2007, consistent with the Company's equity grant policy as described below. (Note: The SCT reflects actual FASB Statement No. 123 (Revised) *Share-based Payments* (FAS 123(R)) expense related to outstanding, unvested awards attributable to 2006 as opposed to the 2006 grant date fair value reported here.)

	2006 Awards Grant			Grant			2007 Awards (3)

- (1) Fair value calculated in accordance with FAS 123(R) option valuation assumptions.
- (2) Based upon the closing price on February 17, 2006 of \$29.74 for all options with the exception of Mr. Cromarty's August 16, 2006 grant which was granted at the closing price of \$25.57. Said grant represented a one-time, off cycle grant which was pre-determined as part of his new hire offer letter effective August 16, 2004.
- (3) Fair value will be calculated in accordance with FAS 123(R) option valuation assumptions and reported in the first quarter 10-Q filed with the Securities and Exchange Commission.

Factors considered in granting these awards were:

- The Company's overall share pool funding and the Company's performance in the respective years.
- Individual performance and contributions.
- Targeted total compensation level and targeted mix of equity compensation based on each executive's role.
- Market competitiveness.

Stock options vest ratably over three years beginning on the anniversary of the grant date. All stock options have a ten-year option term. Restricted stock usually vests at the end of three years, on the third anniversary of the grant date.

Equity Grant Policy

The Company adopted an Equity Grant Policy in January of 2007 to ensure that its equity granting practices are maintained in strict compliance with the Company's equity plans and policies and with all applicable laws, and to specifically prevent the backdating of any equity grant, or the manipulation of the timing of equity grants with the public release of material information with the intent of benefiting a grantee under an equity award. The policy will be effective for equity grants made after March 31, 2007. The Company's policy is that equity grants occur on a pre-established day during each calendar quarter after the Company's financial results for the prior quarter have been publicly disclosed. Accordingly, the grant date for all equity grants will generally be set on the 15th day of the month (or the last business day before the 15th day of the month) following the quarterly Board meeting. The four scheduled grant dates for each calendar are established at the beginning of each calendar year. The grant date shall not precede the date the grant was authorized by the Compensation Committee, and the grant date for any new hire shall not precede the employee's date of hire. In addition, the policy provides that all awards and award terms are approved by the Compensation Committee in advance of the grant date; Boston Private executives do not have the ability to select a grant date; and the option exercise price is the closing price of the underlying stock on the date of grant.

In prior years the Company's share pool and certain executive awards were approved annually by the Compensation Committee with a grant date set within a reasonable time period after the date of Compensation Committee approval (typically within 2-3 weeks of the Compensation Committee approval date). The grant date was always set after the date the Compensation Committee approved the awards to allow sufficient time to allocate share pools to the Company's affiliates, determine individual awards (below the NEO level) and communicate the awards and award terms to affected associates. The CEO was delegated authority for the allocation of the approved share pool and for any off-cycle grants (*i.e.*, grants that did not take place as part of the annual grant process) and all such grants were made at the closing price of the Company's stock on the date of grant.

Stock Ownership Guidelines

The Company encourages its executive officers to have a meaningful investment in the common stock of the Company. The Company has not adopted a formal share ownership policy or requirement for its executive officers, but expects its officers' ownership of Company stock to be at a level appropriate to the personal circumstances of the officer so as to align his or her individual interests with those of the stockholders. As of December 31, 2006, the CEO owned 1.31% and other NEOs as a group owned 1.00% of the Company's common stock. This includes all options, vested and unvested, granted to the NEOs.

Perquisite Program and Other Benefits

CEO

Certain perquisite benefits are provided as part of Mr. Vaill's employment agreement as follows: annual physical examination and any related medical testing, annual tax planning and tax preparation services, periodic estate planning and will preparation services and personal legal services. In addition, the Company provides

Company-paid term life insurance with a gross death benefit of no less than \$2,000,000 and a bonus, grossed up for applicable taxes, to cover the insurance premium related to a life insurance policy issued by Mass Mutual and owned by the Vaill Insurance Trust 1995 (Boston Private Bank & Trust Company, trustee). The value of all perquisites, which was \$97,163 for 2006 as detailed in footnote 5 to the SCT (excluding the 401k match and dividends paid on unvested restricted stock), is capped at \$100,000 annually. For the past three years, Mr. Vaill's actual perquisite usage has remained below the annual cap of \$100,000.

Other NEOs are entitled to a financial services benefit annually of \$20,000 for the President and \$10,000 for other NEOs. NEOs are also eligible for an annual physical exam. The full value of all perquisites is reported as income to the individuals and, accordingly, is subject to tax.

The CEO and all other NEOs are also eligible for Company-sponsored benefit programs available broadly to Boston Private employees, including healthcare and dental benefits, short-term and long-term disability, life insurance, the Company's 401(k) and Profit Sharing Plan and the Company's Employee Stock Purchase Plan.

CEO Supplemental Executive Retirement Plan (SERP)

The Company entered into a SERP Agreement in May 2001, which was subsequently amended in July 2004 as part of Mr. Vaill's employment agreement. The SERP provides Mr. Vaill with a retirement benefit and in exchange extends Mr. Vaill's full vesting in the benefit to age 70.

The Company's decision to provide the SERP was based on Mr. Vaill's long tenure and significant contributions as CEO and the desire on the part of the Company to keep Mr. Vaill employed as CEO past what is defined as the normal retirement age for purposes of the Agreement. The Company believes that the SERP benefit is reasonable in light of these factors. The Company also believes it is providing a competitive benefit based on retirement benefit offerings for CEOs at other companies.

The SERP is intended to deliver approximately 57% of final average pay, before any SERP offsets as defined in the Agreement, based on Mr. Vaill's retirement at age 70 with 19 years of service. As of December 31, 2006, Mr. Vaill had 14 years of credited service. Mr. Vaill is currently 70% vested in this retirement benefit. Mr. Vaill's SERP benefit will be paid in monthly installments commencing with the calendar month following retirement.

Executive Deferred Compensation Plan

The Company offers a deferred compensation plan that enables certain executives to defer a portion of their income. The amounts excluded are deferred from the executive's taxable income and are not deductible by the Company until paid. The executives select from a limited number of mutual funds and the deferred amounts are increased or decreased to correspond to the market value of these underlying hypothetical mutual fund investments. The increase in value is recognized as compensation expense. The Company maintains a Rabbi Trust with respect to these obligations.

Executive Severance/Change In Control Protection

The Company provides Change In Control Protection Agreements for certain key employees, including its NEOs, to minimize the potential for any significant client, leadership or management disruptions in the running of the day to day operations of the Company during, and up to a reasonable amount of time after, a Change in Control event. In exchange for such protection, the NEOs are subject to non-solicitation/non-accept and confidentiality agreements, for a 2-year period. Mr. Vaill is also subject to a non-competition agreement as part of his employment agreement. Additional information regarding the agreements for the Company's NEOs is provided under the heading Executive Agreements and Potential Payments Upon Termination or Change In Control .

Tax, Regulatory and Accounting Implications

The Company believes it is in compliance with respect to all tax, regulatory and accounting standards. Furthermore, the Compensation Committee will continue to review each element of compensation and take the appropriate steps to ensure tax deductibility if that can be accomplished without sacrificing flexibility and other important objectives of the overall compensation program for its executives.

Compensation Committee Report

The Compensation Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on this review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Company's Proxy Statement.

Executive Agreements and Potential Payments Upon Termination or Change In Control

CEO Employment Agreement

The Company entered into an Executive Employment Agreement effective January 1, 2004 (the Employment Agreement) to extend, amend and restate the terms of Mr. Vaill s then existing employment agreement, which expired in accordance with its terms on December 31, 2003. The Employment Agreement provides for a three-year term, which

expired on December 31, 2006, and is automatically extended by successive one-year terms each December 31st. The term of the Employment Agreement is automatically extended unless the Company provides thirty days prior written notice to the contrary to Mr. Vaill. Notwithstanding the foregoing, pursuant to the terms of the Employment Agreement, the Company may terminate Mr. Vaill for cause (as defined in the Employment Agreement). If the Company terminates the Employment Agreement without cause (as defined in the Employment Agreement), Mr. Vaill will be entitled to receive, among other things, an amount equal to 2.99 times his current base salary plus the average of his three most recent bonus payments in the years prior to termination and a pro-rata bonus for the year in which the termination occurs. If Mr. Vaill terminates his employment for good reason (as defined in the Employment Agreement) within three years following a change in control (as defined in the Employment Agreement), Mr. Vaill will be entitled to receive a payment equal to that which he would receive if terminated without cause. The Company will not be required to make any payment in the event of Mr. Vaill's termination to the extent such payment would constitute a parachute payment within the meaning of Section 280G(b)(2) of the Internal Revenue Code of 1986, as amended (a Parachute Payment). The Employment Agreement also provides (i) that upon any voluntary termination by Mr. Vaill of his employment (other than with good reason), he shall not be employed by any significant competitor of the Company (as defined in the Employment Agreement) for two years following such termination, and (ii) that Mr. Vaill shall not disclose any confidential information obtained by him during his employment. Mr. Vaill is also eligible to receive stock options under the 2004 Stock Option and Incentive Plan and certain incentive payments under the 2004 Annual Executive Incentive Plan.

In addition, the Company has entered into a Supplemental Executive Retirement Agreement with Mr. Vaill, which provides for payments to Mr. Vaill upon his retirement or termination of employment with the Company, other than for cause, as described above.

Change In Control Protection Agreements

The Company entered into Change in Control Protection Agreements with its NEOs effective the date of their respective agreements. The Agreements provide for certain payments and other benefits upon the occurrence of a change in control as defined in the Agreements, and including, but not limited to, the consolidation or merger of the Company or a change in the beneficial ownership of the Company as defined in the Agreements at any time during the three years after a change in control. The key provisions of the Change In Control Protection Agreements for the Company's NEOs are as follows:

- Lump-sum cash severance payment equal to 2.5-2.99 times annual compensation (sum of base salary and average bonus payments for the three most recent taxable years preceding termination).

- Pro-rata bonus (for fiscal year in which termination occurs).

- Accelerated vesting of outstanding, unvested stock option and stock awards.

Notwithstanding the foregoing, the Company will not be required to make any payment under the Agreements to the extent such payment would constitute a Parachute Payment.

The following table provides quantification of the above benefits, including benefits for Mr. Vaill as part of his Employment Agreement, assuming termination as of December 31, 2006. Estimated stock and option values calculated assuming the closing price of the Company's stock on December 31, 2006 of \$28.21.

(1) Assumes full-year bonus for 2006.

Mr. Vaill is eligible for additional three-year service credits upon a Change in Control for purposes of the SERP (for vesting purposes only). He is also eligible for the continuation of his perquisites and other employee benefits under any of the Company's plans upon the same terms as in effect on the date of termination for a period up to three years following such termination or until such earlier time as the Executive becomes eligible for equivalent coverage(s) under another group benefit plan.

All payments calculated in respect to the Company's Change In Control Protection Agreements shall be reduced to the extent needed to ensure tax deductibility by the Company thereby bringing them within the limitations of Section 280G of the Internal Revenue Code of 1986.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

Messrs. Colangelo, Bennett, and Mr. Straus (until Mr. Straus's resignation in October 2006), Ms. Graveline and Mrs. Hoffman served as members of the Compensation Committee of the Board of Directors of the Company during the fiscal year ended December 31, 2006. None of these individuals has ever been an officer or employee of the Company or any of its subsidiaries.

Compensation of Directors

Directors of the Company who are not full-time employees of the Company or any of its subsidiaries receive compensation under a compensation program which became effective May 1, 2006. The annual retainer fee for Directors of the Company who are not full-time employees of the Company is \$30,000; the lead director's retainer is \$42,000. The annual retainer fees are payable 100% in cash. In addition, Non-Employee Directors who serve as committee members receive an additional annual retainer fee, payable in cash, of \$12,000 for audit committee and \$9,000 for all other committees. Chairpersons of committees receive a higher annual retainer fee than committee members, payable in cash, of \$18,000 for audit committee and \$12,000 for all other committees to reflect the increased role and time commitment required as Chairperson. In addition to the foregoing, any non-employee director serving simultaneously as a member of the Board of Directors of the Company and the board of directors of a subsidiary may receive retainer fees for each board on which he or she serves. Directors of the Company also receive \$30,000 in shares of common stock and \$30,000 in options, both calculated based on the closing price as of May 15, on an annual basis pursuant to the 2004 Stock Option and Incentive Plan (the "2004 Plan") (See description below).

In 2004, the Company's Board of Directors and shareholders voted to approve and adopt the 2004 Plan for officers, employees, Non-Employee Directors and other key persons of the Company and its subsidiaries. The 2004 Plan replaced the Directors' Stock Option Plan (the "Directors' Plan") that was originally approved in

1993, and upon adoption of the 2004 Plan, grants are no longer made under the Directors' Plan. The 2004 Plan provides that during each fiscal year each Non-Employee Director of the Company may be granted, at the discretion of the Administrator (as defined in the 2004 Plan), Non-qualified Options to acquire up to 7,500 shares of common stock. Each Non-Qualified Option granted to a Non-Employee Director will have an exercise price equal to the fair market value of the shares of common stock of the Company on the grant date and will expire upon its tenth anniversary. Unless otherwise determined by the Administrator, these stock options will be exercisable after the first anniversary of the grant date. The Administrator may also grant shares (at no cost or for a purchase price determined by the Administrator) of common stock that are free from any restrictions under the 2004 Plan. Unrestricted stock may be granted to any participant in recognition of past services or other valid consideration, and may be issued in lieu of cash compensation due to such participant. As with the Directors' Plan, the 2004 Plan also provides that any Director who retires after serving 12 years on the Board is eligible for a one-time award of an option to purchase 10,000 shares of Common Stock.

The Audit Committee acts under a written charter which specifies the scope of the Audit Committee's responsibilities and how it carries out those responsibilities. Each member of the Audit Committee is listed below and is independent within the definition of the NASDAQ Rules.

While the Audit Committee oversees the Company's financial reporting process for the Board of Directors consistent with the Audit Committee charter, management has primary responsibility for this process, including the Company's system of internal controls, and for the preparation of the Company's consolidated financial statements in accordance with U.S. generally accepted accounting principles. In addition, the Company's independent registered public accounting firm and not the Audit Committee is responsible for auditing those financial statements.

The Audit Committee has reviewed and discussed the Company's December 31, 2006 audited financial statements with management and with KPMG LLP, the Company's independent registered public accounting firm (KPMG). The Audit Committee also has discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees) as amended by Statement on Auditing Standards No. 90 (Audit Committee Communications). In addition, the Audit Committee has also received from KPMG the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and has discussed with KPMG LLP its independence from the Company. The Audit Committee also considered whether KPMG's provision of non-audit services to the Company is compatible with its independence.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.

The Audit and Risk Management Committee of the Board:

Herbert S. Alexander, Chair

Kathleen M. Graveline, Vice Chair

William J. Shea

Stephen M. Waters
