Young Soo Kwon, CEO of LG Display, said, "Last quarter was a notable quarter for us. Our performance was encouraging despite the seasonally slow market condition. In addition, we have changed our corporate name from LG.Philips LCD Co., Ltd. to LG Display Co., Ltd. and transit into a single Representative Director's organization at the Annual General Meeting according to the change in corporate governance following the reduction of Philips' equity. The new name reflects our intention to expand our business scope and diversify the business model for sustainable growth in the future. While there were changes in our corporate governance, we remain committed to maintain our integrity, being transparent and consistent, accompanied by our competent Directors in the Board.

As part of our ongoing efforts to enhance our strength and to successfully implement a profitable growth strategy in this dynamic industry, we have been seeking various possibilities for forming strategic alliances, which are gradually bearing fruits. For instance, we have recently signed a cross license agreement with Kodak for AMOLED business. Also, Skyworth agreed to invest in our Guangzhou module plant. Furthermore, we have a plan to set up an R&D Joint Venture with Skyworth for developing LCD TV especially for Chinese customers. Going forward, we remain committed to achieve sustainable growth by emphasizing collaboration with our customers and investing in technology leadership, ultimately generating greater shareholder value. Mr. Kwon concluded.

First Quarter Financial Review

Overall, the Company shipped a total of 3.2 million square meters of net display area in the first quarter of 2008, a decrease of 7% quarter-on-quarter. Total debt was KRW 4,015 billion (USD 4,061 million), and the net debt-to-equity ratio was 12% as of March 31, 2008, compared to 17% as of December 31, 2007.

Capacity

Total production input capacity on an area basis decreased approximately 1% in the first quarter. It was mainly due to retooling and bottlenecking activities we conducted throughout our fabs in order to maximize our input capacity and shipment.

Outlook

The following expectations are based on information as of April 10, 2008. The Company does not expect to update its expectations until next quarter's earnings announcement. However, the Company reserves the right to update its full business outlook, or any portion thereof, at any time and for any reason.

James Jeong, the newly appointed CFO of LG Display, commented,

Generally, our performance in the first quarter of 2008 came in better than the guidance provided last quarter, which has proven that we have become a more value driven company.

Looking ahead, we expect our total shipments to increase by a mid teens percentage with a mid single digit declining average ASP per square meter. Our COGS reduction per square meter basis is expected to decrease by a low single digit percentage in the second quarter. Our CAPEX for this year remains at 3 trillion Korean Won which will be utilized mainly for Gen 8 facilities and production efficiency enhancement for existing facilities. Mr. Jeong concluded.
