2 Wells Fargo Advantage Multi-Sector Income Fund

Letter to Shareholders

Karla M. Rabusch,

President

Wells Fargo Advantage Funds

Improving fundamentals, including strong corporate earnings, remained the core drivers of returns across the equity markets for much of the period.

Dear Valued Shareholder,

We are pleased to provide you with this annual report for the *Wells Fargo Advantage Multi-Sector Income Fund* for the 12-month period that ended October 31, 2011. After establishing solid momentum entering 2011, the financial markets met some resistance during the early months of the year, which kept many markets from advancing steadily during the first eight months of 2011. Headwinds emerged in the form of political unrest in the Middle East and North Africa, the devastating earthquake and tsunami in Japan, and renewed sovereign debt concerns affecting several eurozone countries. These challenges, coupled with mixed economic data, debt-ceiling debates, and the long-term debt credit downgrade within the U.S., further increased investor anxiety. Despite these headwinds, many areas of the financial markets showed a degree of resilience, underscoring the need for a sound, well-diversified¹ investment strategy. As always, we believe that such a strategy may enable investors to balance risk and opportunity as they pursue long-term financial goals in a dynamic financial environment.

The U.S. economic recovery moved toward expansion.

The U.S. economic recovery that began in mid-2009 and gained further momentum throughout 2010, particularly during the fourth quarter, failed to maintain that level of growth through the first 10 months of 2011. For example, gross domestic product (GDP), the broadest measure of economic activity, grew at an annualized rate of 3.1% in the fourth quarter of 2010, only to slow dramatically during the first and second quarters of 2011 to annualized rates of 0.4% and 1.3%, respectively. While still positive, these readings showed a much slower pace of growth than experienced in the second half of 2010 and were lower than consensus forecasts had predicted. Nevertheless, the advance estimate of third-quarter 2011 GDP growth (which was released on October 27) was 2.5%, suggesting that the U.S. economy continues to expand, though at a slow and uneven pace relative to past economic recoveries.

Persistent weakness in jobs and housing slowed economic growth.

By the end of the reporting period, the U.S. unemployment rate for October 2011 stood at 9.0%, down from 9.6% a year earlier but still notably higher than historical averages. Unfortunately, the drop may be more attributable to a decline in the labor force than to a meaningful uptick in hiring. While the rate of job creation has remained positive throughout 2011, it remains far below the historical average of 1.4 million jobs created each year over the past 80 years, suggesting that the improving economy has yet to translate into widespread hiring. Meanwhile, the beleaguered housing market was an ongoing source of concern, despite an extraordinarily low interest-rate environment. Since many observers consider labor and housing activities to be key to long-term economic growth, the persistent weakness in both markets bears close watching in the months ahead.

Other economic data in the U.S. was more encouraging, reflecting greater confidence in the sustainability of the expansion on the part of both consumers and businesses. Retail sales came in strong at certain points during the period,

1. Diversification does not assure or guarantee better performance and cannot eliminate the risk of investment losses.

Letter to Shareholders

Wells Fargo Advantage Multi-Sector Income Fund 3

including the critical holiday shopping season during the fourth quarter of 2010. Industrial production and durable goods orders have also picked up in 2011, and the level of corporate profits continues to grow. Although still reluctant to hire, businesses have gradually increased spending in other areas, such as equipment and information technology. Core inflation, which excludes volatile food and energy prices, remained benign.

The Federal Reserve announced that it will target current low rates until 2013.

With inflation subdued, the Federal Open Market Committee (FOMC) held its target range for the federal funds rate a proxy for short-term interest rates steady at 0.00% to 0.25%. At its meeting on August 9, 2011 responding in part to the volatility and uncertainty facing the financial markets and global economies, the Federal Reserve (Fed) established a timetable for its commitment to lower rates. In that meeting's statement, the FOMC explained that economic conditions including low rates of resource utilization and a subdued outlook for inflation over the medium run are likely to warrant exceptionally low levels for the federal funds rate at least through mid-2013. At its September 21, 2011, meeting, the Fed introduced Operation Twist, where it outlined its focus on buying long-term Treasury securities, specifically those with maturities of six years or longer, while selling an equivalent amount of Treasury notes within six years of maturity. The objective is to help ensure that intermediate- and long-term Treasury yields remain low, which, in turn, should provide ongoing support for further economic growth.

The debt-ceiling debate became the focus of the summer.

During the second half of the reporting period, both bonds and equities experienced an unusually high level of volatility, especially during the final months of the summer season when many traders on Wall Street and politicians in Washington, D.C., typically focus on vacation and other activities. Instead, due to the debt-ceiling impasse, many market participants and politicians were forced to stay on the job until a solution was reached. As the estimated debt-ceiling deadline loomed, rating agencies began to voice concerns over the possibility of the U.S. government running short on funds to pay its bills. While the U.S. Congress was able to address the debt-ceiling issue in time, Standard & Poor's, one of the major credit rating agencies, lowered its rating of long-term U.S. debt from AAA to AA+². While this did not seem to diminish the role U.S. Treasuries play as the primary source of liquidity and safety in the global markets, it did briefly roil the markets.

Eurozone sovereign debt concerns returned to the forefront in the third quarter of 2011.

The markets were further rattled during the period by sovereign debt concerns within the eurozone. The financial solvency of Greece and its ability to service its

2. The ratings indicated are from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit Quality Ratings: Credit quality ratings apply to underlying holdings of the Fund and not the Fund itself. Standard & Poor's rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Moody's rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest).

Letter to Shareholders

The market momentum carried into the spring but sharply reversed course in early summer amid mounting evidence that the U.S. economic recovery had entered a soft patch, coupled with rising fears about the eurozone sovereign debt crisis.

sovereign debt were focuses of the markets in early 2010. After the European Union and the International Monetary Fund developed a plan to support Greece, many market participants thought the situation was at a manageable point. Unfortunately, one year later Greece's financial problems returned to the forefront of investors' minds, as the country failed to make significant progress in addressing its financial condition. As a result, fear spread and market volatility spiked during the third quarter, with investors becoming more concerned about the negative impact of a Greek default on the eurozone periphery and those developed countries with large exposures to Greece, such as France.

The equity markets became a rollercoaster toward the end of the period.

Improving fundamentals, including strong corporate earnings, remained the core driver of returns across the equity markets for much of the period. Further supporting equities was the second round of quantitative easing (QE2), which was enacted by the Fed in late 2010. While there were bouts of volatility along the way, the markets demonstrated surprising resilience in the face of numerous global challenges, with many equity markets posting positive returns in the first quarter.

The market momentum carried into the spring but sharply reversed course in early summer amid mounting evidence that the U.S. economic recovery had entered a soft patch, coupled with rising fears about the eurozone sovereign debt crisis. The final three months of the period were a rollercoaster for the equity markets, both domestically and internationally, due to the U.S. debt-ceiling impasse and the renewed fears that Greece would default on its sovereign debt, dragging down many of the other eurozone economies. After selling off dramatically during the weeks surrounding the debt-ceiling impasse, many areas of the equity markets gained back some of those losses but finished the period significantly lower than where they began.

After the S&P 500 Index³ and the Dow Jones Industrial Average⁴ rose 6.0% and 8.6%, respectively, during the first half of 2011, the worry-driven sell-off throughout the third quarter pushed the major indexes into negative territory for 2011. However, during the final month of the reporting period the markets showed resilience, as both indexes posted total returns of more than 9.0%. On a year-to-date basis, the S&P 500 Index posted a modestly positive total return of 1.3% through October 31.

A steep yield curve continued to define bond market performance.

Most sectors of the bond market performed well during 2010 and continued to post positive total returns in 2011, with interest income rather than price gains accounting for the bulk of those returns. This part of the investment cycle is known as the income phase and is typically characterized by relatively stable short-term rates and relatively small movements in bond yields. The current market environment is certainly holding true to a typical income phase, especially considering that the Fed is maintaining an extraordinarily accommodative monetary policy. U.S. Treasuries continued to rally for much of the period, even

Letter to Shareholders

Wells Fargo Advantage Multi-Sector Income Fund 5

after Standard & Poor's lowered its credit rating on long-term U.S. debt, pulling yields lower in nearly all corners of the fixed-income markets, including municipal bonds.

The extraordinarily steep yield curve remained the most defining, perhaps most influential, characteristic of the fixed-income markets during the majority of the reporting period. Considering the shape of the curve, the best-performing maturities across most segments of the fixed-income markets were longer-dated bonds. For example, for the 12-month period that ended October 31, 2011, the 20 to 30-year range of the Treasury market posted a total return of 19.38%, while the one- to five-year maturities returned 1.93%. The municipal market and the investment-grade corporate market exhibited similar return profiles within the period.

In typical fashion, the high-yield fixed-income market moved in the same direction as equities throughout the reporting period. As a result, high yield was among the strongest-performing bond sectors through the first nine months of the reporting period, bolstered by improving corporate fundamentals and by less risk aversion from investors. However, as the debt-ceiling debate and the Greek debt crisis became the focus of the marketplace, many investors reduced their exposure to riskier assets, including high-yield bonds. As a result, the high-yield markets significantly underperformed almost every bond sector during the third quarter. The high-yield market began the fourth quarter of 2011 with relatively strong performance, as it seemed that investors took advantage of the lower valuation that resulted from the third-quarter sell-off to capture the extra yield being offered by these lower-quality credits. As of October 31, the high-yield index recorded a year-to-date total return of 4.52%, while recording a 12-month total return of 5.17%. By comparison, the U.S. Treasury index returned 7.96% and 5.27% on a year-to-date and one-year basis, respectively.

A long-term perspective is key.

The market's rebound over the past two years from the severe downturn of 2008 and 2009, coupled with the bouts of volatility, underscores the importance of maintaining a disciplined and balanced long-term investment strategy through changing market cycles. By staying focused on your long-term goals, you may be better positioned to both navigate falling markets and participate in rising markets.

Thank you for choosing to invest with *Wells Fargo Advantage Funds*. We appreciate your confidence in us and remain committed to helping you meet your financial needs. 6 Wells Fargo Advantage Multi-Sector Income Fund

Letter to Shareholders

Notice to Shareholders

On November 17, 2011, the *Wells Fargo Advantage Multi-Sector Income Fund* (the *Fund*) announced several changes to the investment guidelines and strategies of each of its investment allocations or sleeves and the Fund as a whole. These changes were approved after the Fund's fiscal year end at October 31, 2011 and are therefore not reflected in this annual report to shareholders. The Fund's portfolio will begin to reflect these changes over the coming months.

High-yield bond sleeve:

The percentage of the Fund's assets to be allocated to this sleeve is changing from a range of 20%-60% of the Fund's total assets to a range of 30%-70%.

International bond sleeve:

This sleeve is being renamed the *International/Emerging Markets* sleeve, and is now permitted to invest in emerging market debt securities.

The percentage of the Fund's assets to be allocated to this sleeve is changing from a range of 20%-60% of the Fund's total assets to a range of 10%-40%.

Adjustable-rate agency mortgage securities sleeve:

This sleeve is being renamed the *Mortgage/Corporate* sleeve, and is now permitted to invest in fixed-rate mortgages including mortgage-backed securities, asset-backed securities, and collateralized mortgage obligations and investment-grade corporate bonds. The mortgage securities can consist of both nonagency mortgage securities and securities issued or guaranteed by the U.S. government, its agencies, or its instrumentalities.

n The percentage of the Fund's assets to be allocated to this sleeve is changing from a range of 20%-60% of the Fund's total assets to a range of 10%-30%.

n The weighted average credit quality of this sleeve is expected to be investment-grade (BBB-/Baa3 or better), as opposed to AAA/Aaa*.

n The investment guideline that required that the weighted average life of this sleeve be 1 year to 6 years has been eliminated.

n The investment guideline that required that the average duration of this sleeve be between 0.5 years and 1.5 years has been eliminated.

In addition to the sleeve-specific changes described above:

n The Fund will no longer seek to maintain an average maturity of the Fund's portfolio of between 5 years and 7 years.

n The Fund will no longer seek to maintain an overall credit quality of the Fund's portfolio of BBB- or better.

n The Fund may now purchase illiquid securities, which the Fund defines as securities that cannot be disposed of within seven days in the ordinary course of business at approximately the value at which the Fund has valued the securities. Previously, the Fund was permitted to continue to hold securities after they became illiquid (but not to purchase illiquid securities).

These revised investment guidelines and strategies permit the Fund to invest in a broader range of security types and adjust the percentage of the Fund's assets that can be allocated to each specific sleeve. While these changes may increase the overall income generated by the Fund's portfolio, they also are expected to result in an increase in the overall risk profile of the Fund's portfolio.

* The ratings indicated are from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit Quality Ratings: Credit quality ratings apply to underlying holdings of the Fund and not the Fund itself. Standard & Poor's rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Moody's rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest).

Letter to Shareholders

Wells Fargo Advantage Multi-Sector Income Fund 7

Notice to Shareholders (continued)**About investment risks**

The Fund has leverage through borrowings. The use of leverage results in certain risks, including, among others, the likelihood of greater volatility of net asset value (NAV) and the market price of common shares. Foreign investments may contain more risk due to the inherent risks associated with changing political climates, foreign market instability, and foreign currency fluctuations. Derivatives involve additional risks, including interest rate risk, credit risk, the risk of improper valuation, and the risk of non-correlation to the relevant instruments they are designed to hedge or to closely track. Below-investment-grade securities are commonly referred to as junk bonds and are considered speculative with respect to the issuer's capacity to pay interest and principal. They involve greater risk of loss, are subject to greater price volatility, and are less liquid especially during periods of economic uncertainty or change than higher-rated debt securities. Generally, the value of fixed-income securities rises when prevailing interest rates fall and falls when interest rates rise. U.S. government guarantees apply only to certain securities held in the Fund's portfolio and not to the Fund's shares. The Fund is also exposed to mortgage and asset-backed securities risk. Illiquid securities may be subject to wide fluctuations in market value. The Fund may be subject to significant delays in disposing of illiquid securities. Accordingly, the Fund may be forced to sell these securities at less than fair market value or may not be able to sell them when the adviser or sub-adviser believes that it is desirable to do so.

In addition, the changes to the investment guidelines and strategies described above expose the Fund's portfolio to emerging market risk. Emerging market securities typically present even greater exposure to the risks of investment in foreign securities issued in developed markets and may be particularly sensitive to certain economic changes. For example, emerging market countries are typically more dependent on exports and are therefore more vulnerable to recessions in other countries. Emerging markets may be undercapitalized and have less developed legal and financial systems than markets in the developed world. Additionally, emerging markets may have volatile currencies and may be more sensitive than more mature markets to a variety of economic factors. Emerging market securities also may be less liquid than securities of more developed countries and could be difficult to sell,

particularly during
a market downturn.

1. The ratings indicated are from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit Quality Ratings: Credit quality ratings apply to underlying holdings of the Fund and not the Fund itself. Standard and Poor's rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Moody's rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of three rating agencies, the lower rating was utilized and if rated by one of the agencies that rating was utilized.

1. Calculated based upon average common shares outstanding during the period.

2. Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges. Returns for periods of less than one year are not annualized.

3. Interest expense ratio relates to interest associated with borrowings and/or leverage transactions.

4. The net investment income ratio includes any distributions paid to preferred shareholders.

The accompanying notes are an integral part of these financial statements.

Table of Contents

Notes to Financial Statements

Wells Fargo Advantage Multi-Sector Income Fund 31

1. ORGANIZATION

Wells Fargo Advantage Multi-Sector Income Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on April 10, 2003 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income consistent with limiting its overall exposure to domestic interest-rate risk.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

Certain fixed income securities with maturities exceeding 60 days are valued based on available evaluated prices received from an independent pricing service approved by the Fund's Board of Trustees which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market data. If valuations are not available from the pricing service or values received are deemed not representative of market value, values will be obtained from a third party broker-dealer or determined based on the Fund's Fair Value Procedures.

Investments in securities are valued each business day as of the close of regular trading on the New York Stock Exchange, which is usually 4:00 p.m. (Eastern Time). Securities which are traded on a national or foreign securities exchange are valued at the last reported sales price, except that securities listed on The Nasdaq Stock Market, Inc. (Nasdaq) are valued at the Nasdaq Official Closing Price (NOCP), and if no NOCP is available, then at the last reported sales price. If no sales price is shown on the Nasdaq, the bid price will be used. In the absence of any sale of securities listed on the Nasdaq (and in the case of other securities, including U.S. Government obligations, but excluding debt securities maturing in 60 days or less) the price will be deemed stale and the valuations will be determined in accordance with the Fund's Fair Value Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the closing rates of exchange in effect on the day of valuation.

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign investments are traded but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of the investments, then those investments are fair valued following procedures approved by the Board of Trustees. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the closing price or latest quoted bid price.

Debt securities of sufficient credit quality with original maturities of 60 days or less generally are valued at amortized cost which approximates fair value. The amortized cost method involves valuing a security at its cost, plus accretion of discount or minus amortization of premium over the period until maturity.

Investments in open-end mutual funds and non-registered investment companies are generally valued at net asset value.

Certain investments which are not valued using any of the methods discussed above, are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the prevailing rates of exchange at the date of valuation. Purchases and sales of securities, and income

and expenses are translated at the prevailing rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions,

Table of Contents

32 Wells Fargo Advantage Multi-Sector Income Fund

Notes to Financial Statements

and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are recorded with net realized and unrealized gains or losses from investments. Gains and losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

Reverse repurchase agreements

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the adviser to be creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

Forward foreign currency contracts

The Fund may be subject to foreign currency exchange rate risk in the normal course of pursuing its investment objectives. A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on forward foreign currency related transactions. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably. The Fund's maximum risk of loss from counterparty credit risk is the unrealized gains or losses on the contracts. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets to cover its obligation by confirming the availability of qualifying assets having a value sufficient to make payment for the securities purchased. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Term loans

The Fund may invest in term loans. The loans are marked-to-market daily and the Fund begins earning interest when the loans are funded. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. The Fund assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower.

Credit default swaps

The Fund may be subject to credit risk in the normal course of pursuing its investment objectives. The Fund may enter into credit default swap contracts for hedging or speculative purposes to provide or receive a measure of protection against default on a referenced entity, obligation or index or for investment gains. Credit default swaps involve an exchange of a stream of payments for protection against the loss in value of an underlying security or index. Under the terms of the swap, one party acts as a guarantor (referred to as the seller of protection) and receives a periodic stream of payments, provided that there is no credit event, from another party (referred to as the buyer of protection) that is a fixed percentage applied to a notional principal amount over the term of the swap. An index credit default swap references all the names in the index, and if a credit event is triggered, the credit event is settled based on that name's weight in the index. A credit event includes bankruptcy, failure to pay, obligation default, obligation acceleration, repudiation/ moratorium, and restructuring. The Fund may enter into credit default swaps as either the seller of protection or the buyer of protection. As the seller of protection, the Fund is subject to investment exposure on the notional amount of the swap and has assumed the risk of default of the underlying security or index. As the buyer of protection, the Fund could

Table of Contents

Notes to Financial Statements

Wells Fargo Advantage Multi-Sector Income Fund 33

be exposed to risks if the seller of the protection defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates. The maximum potential amount of future payments (undiscounted) that the Fund as the seller of protection could be required to make under the credit default swap contract would be an amount equal to the notional amount of the swap contract. The Fund's maximum risk of loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

If the Fund is the seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will pay to the buyer of protection the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index. If the Fund is the buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will receive from the seller of protection the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index.

Any premiums paid or received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The value of the swap contract is marked-to-market daily based on quotations from an independent pricing service or market makers and any change in value is recorded as an unrealized gain or loss. Periodic payments made or received are recorded as realized gains or losses. In addition, payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses.

Certain credit default swap contracts entered into by the Fund provide for conditions that result in events of default or termination that enable the counterparty to the agreement to cause an early termination of the transactions under those agreements. Any election by the counterparty to terminate early may impact the amounts reported on the financial statements.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are reported on the basis of identified cost of securities delivered.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily based on the effective interest method. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Dividend income is recognized on the ex-dividend date. Income from foreign securities is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Distributions to shareholders

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

The timing and character of distributions made during the period from net investment income or net realized gains may differ from their ultimate characterization for federal income tax purposes. To the extent that these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment. Temporary differences do not require reclassifications. The primary permanent differences causing such reclassifications are due to foreign currency transactions, bond premium, paydown losses, certain distributions paid, consent fees and corporate actions. At October 31, 2011, as a result of permanent book-to-tax differences, the following reclassification adjustments were made on the Statement of Assets and Liabilities:

Overdistributed	Accumulated	Paid-in
Net Investment	Net Realized	Capital

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

Income	Losses on Investments	
\$7,166,585	\$(1,310,470)	\$(5,856,115)

Table of Contents

34 Wells Fargo Advantage Multi-Sector Income Fund
Federal and other taxes

Notes to Financial Statements

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities.

As of October 31, 2011, the Fund had estimated net capital loss carryforwards, which are available to offset future net realized capital gains, in the amount of \$110,049,569 with \$20,598,096 expiring in 2016 and \$89,451,473 expiring in 2017.

Under the recently enacted *Regulated Investment Company Modernization Act of 2010*, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- n Level 1 quoted prices in active markets for identical securities

- n Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

- n Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Table of Contents

Notes to Financial Statements

Wells Fargo Advantage Multi-Sector Income Fund 35

As of October 31, 2011, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

Investments in Securities	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Equity securities				
Common stocks	\$ 378,274	\$ 0	\$ 0	\$ 378,274

As of October 31, 2011, the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

Other financial instruments	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Forward foreign currency contracts+	\$ 0	\$ (1,940,780)	\$ 0	\$ (1,940,780)

+ Forward foreign currency contracts are presented at the unrealized gains or losses on the instrument.

Transfers in and transfers out are recognized at the end of the reporting period. For the year ended October 31, 2011, the Fund did not have any significant transfers into/out of Level 1 and Level 2.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Corporate bonds and notes	Foreign corporate bonds	Term loans	Yankee corporate bonds and notes	Total
Balance as of October 31, 2010	\$ 5,753,667	\$ 560,823	\$ 0	\$ 191	\$ 6,314,681
Accrued discounts (premiums)	2,387	0	705	0	3,092
Realized gains (losses)	(3,980)	(109,434)	33	0	(113,381)
Change in unrealized gains (losses)	(353,724)	139	(10,155)	0	(363,740)
Purchases	0	0	942,875	0	942,875
Sales	(154,590)	(451,528)	(4,750)	0	(610,868)
Transfers into Level 3	0	0	3,042,608	0	3,042,608
Transfers out of Level 3	0	0	0	0	0
Balance as of October 31, 2011	\$ 5,243,760	\$ 0	\$ 3,971,316	\$ 191	\$ 9,215,267
Change in unrealized gains (losses) relating to securities still held at October 31, 2011	(\$ 349,202)	\$ 0	(\$ 10,155)	\$ 0	(\$ 359,357)

Notes to Financial Statements

4. TRANSACTIONS WITH AFFILIATES AND OTHER EXPENSES**Advisory Fee**

Wells Fargo Funds Management, LLC (Funds Management), an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo) is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.55% of the Fund's average daily total assets. Total assets consist of net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets.

Funds Management has retained the services of certain sub-advisers to provide daily portfolio management to the Fund. The fees related to sub-advisory services are borne directly by Funds Management and do not increase the overall fees paid by the Fund to the adviser. Wells Capital Management Incorporated, an affiliate of Funds Management, is a sub-adviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.30% of the Fund's average daily total assets. First International Advisors, LLC, an affiliate of Funds Management and an indirect, wholly-owned subsidiary of Wells Fargo, is also a sub-adviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.10% of the Fund's average daily total assets.

Administration fee

Funds Management also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. Funds Management is entitled to receive an annual administration fee of 0.05% of the Fund's average daily total assets.

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the year ended October 31, 2011 and the year ended October 31, 2010, the Fund did not issue any common shares.

The Fund no longer has any Auction Market Preferred Shares (Preferred Shares) outstanding.

6. BORROWINGS AND LEVERAGE TRANSACTIONS

The Fund has borrowed \$130 million through a secured debt financing agreement administered by a major financial institution (the Facility). The Facility has a commitment amount of \$130 million which expires on February 28, 2012, at which point it may be renegotiated and potentially renewed for another term. At October 31, 2011, the Fund had secured borrowings outstanding in the amount of \$130,139,837 (including accrued interest and liquidity and program fees payable).

The Fund's borrowing under the Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued to fund the Fund's borrowings or at the London Interbank Offered Rate (LIBOR) plus 1.0%. During the year ended October 31, 2011, an effective interest rate of 0.24% was incurred on the borrowings. Interest expense of \$317,451, representing 0.05% of the Fund's average daily net assets, was incurred during the year ended October 31, 2011.

The Fund has pledged all of its assets to secure the borrowings and currently pays, on a monthly basis, a liquidity fee at an annual rate of 0.50% of the daily average outstanding principal amount of borrowings and a program fee at an annual rate of 0.50% of the product of (i) the daily average outstanding principal amount of borrowings and (ii) 1.02. Prior to April 26, 2011, both the liquidity fee and program fee were charged at an annual rate of 0.60%. The secured borrowing fees on the Statement of Operations of \$1,418,196 represents structuring fees, liquidity fees and program fees. For the year ended October 31, 2011, the Fund paid structuring fees in the amount of \$32,589.

During the year ended October 31, 2011, the Fund entered into reverse repurchase agreements that had an average daily balance outstanding of \$99,966,624 with an effective annual interest rate of 0.30% and paid interest of \$298,109 representing 0.04% of the Fund's average daily net assets. The maximum amount outstanding under reverse repurchase agreements during the year ended October 31, 2011 was \$100,365,125 (including accrued interest). At October 31, 2011, reverse repurchase agreements outstanding were as follows:

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

Repurchase Amount	Counterparty	Interest Rate	Maturity Date
\$32,762,169	Credit Suisse	0.26%	11/18/2011
33,885,378	Goldman Sachs	0.23%	11/18/2011
32,914,274	Morgan Stanley	0.25%	11/18/2011

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

The Fund had average contract amounts of \$125,572,011 and \$24,280,558 in forward foreign currency contracts to buy and forward foreign currency contracts to sell, respectively, during the year ended October 31, 2011.

The fair value, realized gains or losses and change in unrealized gains or losses on derivative instruments are reflected in the appropriate financial statements.

Table of Contents

38 Wells Fargo Advantage Multi-Sector Income Fund

Notes to Financial Statements

9. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid was \$51,862,226 and \$55,310,837 of ordinary income for the years ended October 31, 2011 and October 31, 2010, respectively.

As of October 31, 2011, the components of distributable earnings on a tax basis were as follows:

Unrealized Gains (Losses)	Capital Loss Carryforward
\$19,366,249	\$(110,049,569)

10. INDEMNIFICATION

Under the Fund's organizational documents, the officers and directors are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

11. NEW ACCOUNTING PRONOUNCEMENTS

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 amends FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP. The ASU is effective prospectively for interim and annual periods beginning after December 15, 2011.

In April 2011, FASB issued ASU No. 2011-03 *Reconsideration of Effective Control for Repurchase Agreements*. ASU No. 2011-03 amends FASB ASC Topic 860, *Transfers and Servicing*, specifically the criteria required to determine whether a repurchase agreement (repo) and similar agreements should be accounted for as sales of financial assets or secured borrowings with commitments. ASU No. 2011-03 changes the assessment of effective control by focusing on the transferor's contractual rights and obligations and removing the criterion to assess its ability to exercise those rights or honor those obligations. This could result in changes to the way entities account for certain transactions including repurchase agreements, mortgage dollar rolls and reverse repurchase agreements. The ASU will become effective on a prospective basis for new transfers and modifications to existing transactions as of the beginning of the first interim or annual period beginning on or after December 15, 2011.

As of October 31, 2011, management of the Fund is currently assessing the potential impact, in addition to expanded financial statement disclosure, that may result from adopting these ASUs.

12. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Net Investment Income
October 21, 2011	November 16, 2011	December 1, 2011	\$0.1000
November 16, 2011	December 14, 2011	January 3, 2012	\$0.1000
December 16, 2011	January 18, 2012	February 1, 2012	\$0.1000

These distributions are not reflected in the accompanying financial statements.

Report of Independent Registered Public Accounting Firm

Wells Fargo Advantage Multi-Sector Income Fund 39

BOARD OF TRUSTEES AND SHAREHOLDERS OF WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of the Wells Fargo Advantage Multi-Sector Income Fund (the Fund), as of October 31, 2011, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, the statement of cash flows for the year then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2011, by correspondence with the custodian and brokers, or other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Wells Fargo Advantage Multi-Sector Income Fund as of October 31, 2011, the results of its operations for the year then ended, changes in its net assets for each of the years in the two-year period then ended, its cash flows for the year then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

BOARD OF TRUSTEES

The following table provides basic information about the Board of Trustees (the Trustees) and Officers of the Fund. Each of the Trustees and Officers listed below acts in identical capacities for the Wells Fargo Advantage family of funds, which consists of 138 funds comprising the Wells Fargo Funds Trust, Wells Fargo Variable Trust, Wells Fargo Master Trust, and four closed-end funds, including the Fund (collectively the Fund Complex). All of the Trustees are also Members of the Audit and Governance Committees of each Trust in the Fund Complex. The mailing address of each Trustee and Officer is 525 Market Street, 12th Floor, San Francisco, CA 94105. The Board of Trustees is classified into three classes of which one is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Officer serves an indefinite term.

Automatic Dividend Reinvestment Plan

Wells Fargo Advantage Multi-Sector Income Fund 43

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

ITEM 2. CODE OF ETHICS

As of the end of the period, October 31, 2011, Wells Fargo Advantage Multi-Sector Income Fund has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its President and Treasurer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The Board of Trustees of Wells Fargo Advantage Multi-Sector Income Fund has determined that Judith Johnson is an audit committee financial expert, as defined in Item 3 of Form N-CSR. Mrs. Johnson is independent for purposes of Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a)

Audit Fees Provided below are the aggregate fees billed for the fiscal years ended October 31, 2010 and October 31, 2011 for professional services rendered by the principal accountant for the audit of the Registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements.

For the fiscal years ended October 31, 2010 and October 31, 2011, the Audit Fees were \$44,500 and \$54,500, respectively.

(b)

Audit-Related Fees There were no audit-related fees incurred for the fiscal years ended October 31, 2010 and October 31, 2011 for assurance and related services by the principal accountant for the Registrant.

(c)

Tax Fees Provided below are the aggregate fees billed for the fiscal years ended October 31, 2010 and October 31, 2011 for professional services rendered by the principal accountant for the Registrant for tax compliance, tax advice, and tax planning.

For the fiscal years ended October 31, 2010 and October 31, 2011, the Tax Fees were \$1,620 and \$1,660, respectively. The incurred Tax Fees are comprised of excise tax review services.

For the fiscal years ended October 31, 2010 and October 31, 2011, the Tax Fees were \$1,890 and \$1,940, respectively. The incurred Tax Fees are comprised of tax preparation and consulting services.

(d)

All Other Fees There were no other fees incurred for the fiscal years ended October 31, 2010 and October 31, 2011.

(e)(1)

The Chairman of the Audit Committees is authorized to pre-approve: (1) audit services to Wells Fargo Advantage Multi-Sector Income Fund; (2) non-audit tax or compliance consulting or training services provided to the Fund by the independent auditors (Auditors) if the fees for any particular engagement are not anticipated to exceed \$50,000; and (3) non-audit tax or compliance consulting or training services provided by the Auditors to the Fund's investment adviser and its controlling entities (where pre-approval is required because the engagement relates directly to the operations and financial reporting of the Fund) if the fee to the Auditors for any particular engagement is not anticipated to exceed \$50,000. For any such pre-approval sought from the Chairman, Management shall prepare a brief description of the proposed services. If the Chairman approves of such service, he or she shall sign the statement prepared by Management. Such written statement shall be presented to the full Committees at their next regularly scheduled meetings.

Table of Contents

(e)(2)

Not Applicable.

(f)

Not Applicable.

(g)

Non-Audit Fees There were no non-audit fees billed for the fiscal years ended October 31, 2010 and October 31, 2011, by the principal accountant for services rendered to the Registrant, and rendered to the Registrant's investment adviser, and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the Registrant.

(h)

The Registrant's audit committee of the board of directors has determined that non-audit services rendered to the registrant's investment adviser, that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of the Regulation S-X, does not compromise the independence of the principal accountant.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

Not applicable.

ITEMS 6. SCHEDULE OF INVESTMENTS

The Schedule of Investments is included as part of the report to shareholders filed under Item 1 of this Form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PROXY VOTING POLICIES AND PROCEDURES

REVISED AS OF AUGUST 25, 2010

1. Scope of Policies and Procedures. These Policies and Procedures (Procedures) are used to determine how to vote proxies relating to portfolio securities held by the series of Wells Fargo Funds Trust, Wells Fargo Master Trust, Wells Fargo Variable Trust, Asset Allocation Trust, Wells Fargo Advantage Global Dividend Opportunity Fund, Wells Fargo Advantage Income Opportunities Fund, Wells Fargo Advantage Multi-Sector Income Fund, and Wells Fargo Advantage Multi-Sector Income Fund (the Trusts) except for those series that exclusively hold non-voting securities (hereafter, all such series, and all such Trusts not having separate series, holding voting securities are referred to as the Funds).

2. Voting Philosophy. The Funds and Wells Fargo Funds Management, LLC (Funds Management) have adopted these Procedures to ensure that proxies are voted in the best interests of Fund shareholders, without regard to any relationship that any affiliated person of the Fund (or an affiliated person of such affiliated person) may have with the issuer. Funds Management exercises its voting responsibility, as a fiduciary, with the goal of maximizing value to shareholders consistent with governing laws and the investment policies of each Fund. While securities are not purchased to exercise control or to seek to effect corporate change through share ownership, the Funds support sound corporate governance practices within companies in which they invest.

3. Responsibilities

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

(a) Board of Trustees. The Board of Trustees of each Trust (the Board) has delegated the responsibility for voting proxies relating to the Funds portfolio securities to Funds Management. The Board retains the authority to make or ratify any voting decisions or approve any changes to these Procedures as the Board deems appropriate. Funds

Table of Contents

Management will provide reports to the Board regarding voting matters when and as reasonably requested by the Board. The Board shall review these Procedures as often as it deems appropriate to consider whether any revisions are warranted. On an annual basis, the Board shall receive and review a report from Funds Management on the proxy voting process.

(b) Funds Management Proxy Committee

(i) Responsibilities. The Funds Management Proxy Voting Committee (the Proxy Committee) shall be responsible for overseeing the proxy voting process to ensure its implementation in conformance with these Procedures. The Proxy Committee shall monitor Risk Metrics Group (Risk Metrics), the proxy voting agent for Funds Management, to determine that Risk Metrics is accurately applying the Procedures as set forth herein. The Proxy Committee shall review the continuing appropriateness of the Procedures set forth herein, recommend revisions to the Board as necessary and provide an annual update to the Board on the proxy voting process.

(ii) Voting Guidelines. Appendix A hereto sets forth guidelines regarding how proxies will be voted on the issues specified. Risk Metrics will vote proxies for or against as directed by the guidelines. Where the guidelines specify a case-by-case determination for a particular issue, Risk Metrics will forward the proxy to the Proxy Committee for a vote determination by the Proxy Committee. Finally, with respect to issues for which a vote for or against is specified by the Procedures, the Proxy Committee shall have the authority to direct Risk Metrics to forward the proxy to the Proxy Committee for a discretionary vote by the Proxy Committee if the Proxy Committee determines that a case-by-case review of such matter is warranted. The Proxy Committee may also consult Fund sub-advisers on certain proxy voting issues on a case-by-case basis as the Proxy Committee deems appropriate or to the extent that a sub-adviser of a Fund makes a recommendation regarding a proxy voting issue. As a general matter, however, proxies are voted consistently on the same matter when securities of an issuer are held by multiple Funds.

(iii) Proxy Committee. In all cases, the Proxy Committee will exercise its voting discretion in accordance with the voting philosophy of the Funds. In cases where a proxy is forwarded by Risk Metrics to the Proxy Committee, the Proxy Committee may be assisted in its voting decision through receipt of: (i) independent research and voting recommendations provided by Risk Metrics or other independent sources; (ii) input from the investment sub-adviser responsible for purchasing the security; and (iii) information provided by company management and shareholder groups.

Voting decisions made by the Proxy Committee will be reported to Risk Metrics to ensure that the vote is registered in a timely manner and included in Form N-PX reporting.

(iv) Securities on Loan. As a general matter, securities on loan will not be recalled to facilitate proxy voting (in which case the borrower of the security shall be entitled to vote the proxy). However, if the Proxy Committee is aware of an item in time to recall the security and has determined in good faith that the importance of the matter to be voted upon outweighs the loss in lending revenue that would result from recalling the security (i.e., if there is a controversial upcoming merger or acquisition, or some other significant matter), the security will be recalled for voting.

(v) Practical Limitations to Proxy Voting. While Funds Management uses its best efforts to vote proxies, in certain circumstances it may be impractical or impossible for Funds Management to vote proxies (e.g., limited value or unjustifiable costs). For example, in accordance with local law or business practices, many foreign companies prevent the sales of shares that have been voted for a certain period beginning prior to the shareholder meeting and ending on the day following the meeting (share blocking). Due to these restrictions, Funds Management must balance the benefits to its clients of voting proxies against the potentially serious portfolio management consequences of a reduced flexibility to sell the underlying shares at the most advantageous time. As a result, Funds Management will generally not vote those proxies in the absence of an unusual, significant vote or compelling economic importance. Additionally, Funds Management may not be able to vote proxies for certain foreign securities if Funds Management does not receive the proxy statement in time to vote the proxies due to custodial processing delays.

Table of Contents

(vi) Conflicts of Interest. Funds Management may have a conflict of interest regarding a proxy to be voted upon if, for example, Funds Management or its affiliates have other relationships with the issuer of the proxy. In most instances, conflicts of interest are avoided through a strict and objective application of the voting guidelines attached hereto. However, when the Proxy Committee is aware of a material conflict of interest regarding a matter that would otherwise require a vote by the Proxy Committee, the Proxy Committee shall address the material conflict by using any of the following methods: (1) instructing Risk Metrics to vote in accordance with the recommendation Risk Metrics makes to its clients; (2) disclosing the conflict to the Board and obtaining their consent before voting; (3) submitting the matter to the Board to exercise its authority to vote on such matter; (4) engaging an independent fiduciary who will direct the Proxy Committee on voting instructions for the proxy; (5) consulting with outside legal counsel for guidance on resolution of the conflict of interest; (6) erecting information barriers around the person or persons making voting decisions; (7) voting in proportion to other shareholders (mirror voting); or (8) voting in other ways that are consistent with each Fund's obligation to vote in the best interests of its shareholders. Additionally, the Proxy Committee will not permit its votes to be influenced by any conflict of interest that exists for any other affiliated person of the Fund (such as a sub-adviser or principal underwriter) or any affiliated persons of such affiliated persons and the Proxy Committee will vote all such matters without regard to the conflict.

(vii) Meetings. The Proxy Committee shall convene as needed and when discretionary voting determinations need to be considered, and shall have the authority to act by vote of a majority of the Proxy Committee members available at that time. The Proxy Committee shall also meet at least semi-annually to review the Procedures and the performance of Risk Metrics in exercising its proxy voting responsibilities.

(viii) Membership. The voting members of the Proxy Committee shall be Tom Biwer, Travis Keshemberg, Patrick McGuinnis and Erik Sens. Andrew Owen shall be a non-voting member and serve in an advisory capacity on the Proxy Committee. Changes to the membership of the Proxy Committee will be made only with Board approval. Upon departure from Funds Management, a member's position on the Proxy Committee will automatically terminate.

4. Disclosure of Policies and Procedures. Each Fund shall disclose in its statement of additional information a description of the policies and procedures it uses to determine how to vote proxies relating to securities held in its portfolio. In addition, each Fund shall disclose in its semi-annual reports that a description of its proxy voting policies and procedures is available without charge, upon request, by calling 1-800-222-8222, on the Fund's web site at www.wellsfargo.com/advantagefunds and on the Securities and Exchange Commission's website at <http://www.sec.gov>.

5. Disclosure of Proxy Voting Record. Each Trust shall file with the Commission an annual report on Form N-PX not later than August 31 of each year (beginning August 31, 2004), containing the Trust's proxy voting record for the most recent twelve-month period ended June 30.

Each Fund shall disclose in its statement of additional information and semi- and annual reports that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Funds' web site at www.wellsfargo.com/advantagefunds or by accessing the Commission's web site at www.sec.gov.

Each Fund shall disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any shareholder meeting held during the period covered by the report and with respect to which the Fund was entitled to vote:

The name of the issuer of the portfolio security;

The exchange ticker symbol of the portfolio security;

The Council of Uniform Securities Identification Procedures (CUSIP) number for the portfolio security (unless the CUSIP is not available through reasonably practicable means, in which case it will be omitted);

The shareholder meeting date;

A brief identification of the matter voted on;

Whether the matter was proposed by the issuer or by a security holder;

Whether the Fund cast its vote on the matter;

How the Fund cast its vote (e.g. for or against a proposal, or abstain; for or withhold regarding election of directors); and

Table of Contents

Whether the Fund cast its vote for or against management.
Form N-PX shall be made available to Fund shareholders through the SEC web site.

APPENDIX A

TO

PROXY VOTING POLICIES AND PROCEDURES

Funds Management will vote proxies relating to portfolio securities held by the Trusts in accordance with the following proxy voting guidelines. To the extent the specific guidelines below do not address a proxy voting proposal, Funds Management will vote pursuant to Risk Metrics current U.S. and International proxy voting guidelines. Proxies for securities held by the Wells Fargo Advantage Social Awareness Fund related to social and environmental proposals will be voted pursuant to Risk Metrics current SRI Proxy Voting Guidelines. In addition, proxies related to issues not addressed by the specific guidelines below or by Risk Metrics current U.S. and International proxy voting guidelines will be forwarded to the Proxy Committee for a vote determination by the Proxy Committee.

Uncontested Election of Directors or Trustees

THE FUNDS will generally vote for all uncontested director or trustee nominees. The Nominating Committee is in the best position to select nominees who are available and capable of working well together to oversee management of the company. THE FUNDS will not require a performance test for directors. FOR

THE FUNDS will generally vote for reasonably crafted shareholder proposals calling for directors to be elected with an affirmative majority of votes cast and/or the elimination of the plurality standard for electing directors, unless the company has adopted formal corporate governance principles that present a meaningful alternative to the majority voting standard. FOR

THE FUNDS will withhold votes for a director if the nominee fails to attend at least 75% of the board and committee meetings without a valid excuse. WITHHOLD

THE FUNDS will vote against routine election of directors if any of the following apply: company fails to disclose adequate information in a timely manner, serious issues with the finances, questionable transactions, conflicts of interest, record of abuses against minority shareholder interests, bundling of director elections, and/or egregious governance practices. AGAINST

THE FUNDS will withhold votes from the entire board (except for new nominees) where the director(s) receive more than 50% withhold votes out of those cast and the issue that was the underlying cause of the high level of withhold votes has not been addressed. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee and/or the full board if poor accounting practices, which rise to a level of serious concern, such as: fraud; misapplication of GAAP; and material weaknesses identified in Section 404 disclosures, are identified. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee if the company receives an adverse opinion on the company's financial statements from its auditor. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee if there is persuasive evidence that the audit committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm. WITHHOLD

Ratification of Auditors

THE FUNDS will vote against auditors and withhold votes from audit committee members if non-audit fees are greater than audit fees, audit-related fees, and permitted tax fees, combined. THE FUNDS will follow the disclosure categories being proposed by the SEC in applying the above formula. AGAINST/
WITHHOLD

Table of Contents

With the above exception, THE FUNDS will generally vote for proposals to ratify auditors unless:	FOR
an auditor has a financial interest in or association with the company, and is therefore not independent, or	AGAINST
there is reason to believe that the independent auditor has rendered an opinion that is neither accurate nor indicative of the company's financial position.	AGAINST
THE FUNDS will vote against proposals that require auditors to attend annual meetings as auditors are regularly reviewed by the board audit committee, and such attendance is unnecessary.	AGAINST
THE FUNDS will consider shareholder proposals requiring companies to prohibit their auditors from engaging in non-audit services on a case-by-case basis (or cap level of non-audit services).	CASE-BY-CASE
THE FUNDS will vote for shareholder proposals requesting a shareholder vote for audit firm ratification.	FOR
THE FUNDS will vote against shareholder proposals asking for audit firm rotation. This practice is viewed as too disruptive and too costly to implement for the benefit achieved.	AGAINST

Company Name Change/Purpose

THE FUNDS will vote for proposals to change the company name as management and the board is best suited to determine if such change in company name is necessary.	FOR
However, where the name change is requested in connection with a reorganization of the company, the vote will be based on the merits of the reorganization.	CASE-BY-CASE
In addition, THE FUNDS will generally vote for proposals to amend the purpose of the company. Management is in the best position to know whether the description of what the company does is accurate, or whether it needs to be updated by deleting, adding or revising language.	FOR

Employee Stock Purchase Plans/401(k) Employee Benefit Plans

THE FUNDS will vote for proposals to adopt, amend or increase authorized shares for employee stock purchase plans and 401(k) plans for employees as properly structured plans enable employees to purchase common stock at a slight discount and thus own a beneficial interest in the company, provided that the total cost of the company's plan is not above the allowable cap for the company.	FOR
Similarly, THE FUNDS will generally vote for proposals to adopt or amend thrift and savings plans, retirement plans, pension plans and profit plans.	FOR

Approve Other Business

THE FUNDS will generally vote for proposals to approve other business. This transfer of authority allows the corporation to take certain ministerial steps that may arise at the annual or special meeting.	FOR
However, THE FUNDS retains the discretion to vote against such proposals if adequate information is not provided in the proxy statement, or the measures are significant and no further approval from shareholders is sought.	AGAINST

Independent Board of Directors/Board Committees

THE FUNDS will vote for proposals requiring that two-thirds of the board be independent directors. An independent board faces fewer conflicts and is best prepared to protect stockholders' interests.	FOR
THE FUNDS will withhold votes from insiders and affiliated outsiders on boards that are not at least majority independent.	WITHHOLD
THE FUNDS will withhold votes from compensation committee members where there is a pay-for-performance disconnect (for Russell 3000 companies).	WITHHOLD

Table of Contents

THE FUNDS will vote for proposals requesting that the board audit, compensation and/or nominating committees be composed of independent directors, only. Committees should be composed entirely of independent directors in order to avoid conflicts of interest.	FOR
THE FUNDS will withhold votes from any insiders or affiliated outsiders on audit, compensation or nominating committees. THE FUNDS will withhold votes from any insiders or affiliated outsiders on the board if any of these key committees has not been established.	WITHHOLD
THE FUNDS will vote against proposals from shareholders requesting an independent compensation consultant.	AGAINST
Minimum Stock Requirements by Directors	
THE FUNDS will vote against proposals requiring directors to own a minimum number of shares of company stock in order to qualify as a director, or to remain on the board. Minimum stock ownership requirements can impose an across-the-board requirement that could prevent qualified individuals from serving as directors.	AGAINST
Indemnification and Liability Provisions for Directors and Officers	
THE FUNDS will vote for proposals to allow indemnification of directors and officers, when the actions taken were on behalf of the company and no criminal violations occurred. THE FUNDS will also vote in favor of proposals to purchase liability insurance covering liability in connection with those actions. Not allowing companies to indemnify directors and officers to the degree possible under the law would limit the ability of the company to attract qualified individuals.	FOR
Alternatively, THE FUNDS will vote against indemnity proposals that are overly broad. For example, THE FUNDS will oppose proposals to indemnify directors for acts going beyond mere carelessness, such as gross negligence, acts taken in bad faith, acts not otherwise allowed by state law or more serious violations of fiduciary obligations.	AGAINST
Nominee Statement in the Proxy	
THE FUNDS will vote against proposals that require board nominees to have a statement of candidacy in the proxy, since the proxy statement already provides adequate information pertaining to the election of directors.	AGAINST
Limitation on Number of Boards a Director May Sit On	
THE FUNDS will withhold votes from directors who sit on more than six boards.	WITHHOLD
THE FUNDS will withhold votes from CEO directors who sit on more than two outside boards besides their own.	WITHHOLD
Director Tenure/Retirement Age	
THE FUNDS will vote against proposals to limit the tenure of directors as such limitations based on an arbitrary number could prevent qualified individuals from serving as directors. However, THE FUNDS is in favor of inserting cautionary language when the average director tenure on the board exceeds 15 years for the entire board.	AGAINST
The Funds will vote for proposals to establish a mandatory retirement age for directors provided that such retirement age is not less than 65.	FOR
Board Powers/Procedures/Qualifications	
THE FUNDS will consider on a case-by-case basis proposals to amend the corporation's By-laws so that the Board of Directors shall have the power, without the assent or vote of the shareholders, to make, alter, amend, or rescind the By-laws, fix the amount to be reserved as working capital, and fix the number of directors and what number shall constitute a quorum of the Board. In determining these issues, THE FUNDS will rely on the proxy voting Guidelines.	CASE-BY-CASE

Table of Contents

Loans to Officers

THE FUNDS will consider on a case-by-case basis proposals to authorize the corporation to make loans or to guarantee the obligations of officers of the corporation or any of its affiliates. CASE-BY-CASE

Adjourn Meeting to Solicit Additional Votes

THE FUNDS will examine proposals to adjourn the meeting to solicit additional votes on a case-by-case basis. As additional solicitation may be costly and could result in coercive pressure on shareholders, THE FUNDS will consider the nature of the proposal and its vote recommendations for the scheduled meeting. CASE-BY-CASE

THE FUNDS will vote for this item when:

THE FUNDS is supportive of the underlying merger proposal; the company provides a sufficient, compelling reason to support the adjournment proposal; and the authority is limited to adjournment proposals requesting the authority to adjourn solely to solicit proxies to approve a transaction THE FUNDS supports. FOR

Contested Election of Directors or Trustees

Reimbursement of Solicitation Expenses

THE FUNDS will consider contested elections on a case-by-case basis, considering the following factors: long-term financial performance of the target company relative to its industry; management's track record; background of the proxy contest; qualifications of director or trustee nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions. CASE-BY-CASE

In addition, decisions to provide reimbursement for dissidents waging a proxy contest are made on a case-by-case basis as proxy contests are governed by a mix of federal regulation, state law, and corporate charter and bylaw provisions. CASE-BY-CASE

Board Structure: Staggered vs. Annual Elections

THE FUNDS will consider the issue of classified boards on a case-by-case basis. In some cases, the division of the board into classes, elected for staggered terms, can entrench the incumbent management and make them less responsive to shareholder concerns. On the other hand, in some cases, staggered elections may provide for the continuity of experienced directors on the Board. CASE-BY-CASE

Removal of Directors

THE FUNDS will consider on a case-by-case basis proposals to eliminate shareholders' rights to remove directors with or without cause or only with approval of two-thirds or more of the shares entitled to vote. CASE-BY-CASE

However, a requirement that a 75% or greater vote be obtained for removal of directors is abusive and will warrant a vote against the proposal. AGAINST

Board Vacancies

THE FUNDS will vote against proposals that allow the board to fill vacancies without shareholder approval as these authorizations run contrary to basic shareholders' rights. AGAINST

Alternatively, THE FUNDS will vote for proposals that permit shareholders to elect directors to fill board vacancies. FOR

Cumulative Voting

THE FUNDS will vote on proposals to permit or eliminate cumulative voting on a case-by-case basis based upon the existence of a counter balancing governance structure and company performance, in accordance with its proxy voting guideline philosophy. However, if the board is elected annually we will not support cumulative voting. CASE-BY-CASE

Table of Contents

Shareholders Right To Call A Special Meeting

Shareholder Ability to Act by Written Consent

Proposals providing that stockholder action may be taken only at an annual or special meeting of stockholder and not by written consent, or increasing the shareholder vote necessary to call a special meeting, will be voted on a case by case basis in accordance with the proxy voting guidelines. CASE-BY-CASE

Board Size

THE FUNDS will vote for proposals that seek to fix the size of the board, as the ability for management to increase or decrease the size of the board in the face of a proxy contest may be used as a takeover defense. FOR

However, if the company has cumulative voting, downsizing the board may decrease a minority shareholder's chances of electing a director.

By increasing the size of the board, management can make it more difficult for dissidents to gain control of the board. Fixing the size of the board also prevents a reduction in the board size as a means to oust independent directors or those who cause friction within an otherwise homogenous board.

Shareholder Rights Plan (Poison Pills)

THE FUNDS will generally vote for proposals that request a company to submit its poison pill for shareholder ratification. FOR

THE FUNDS will withhold votes from all directors (except for new nominees) if the company has adopted or renewed a poison pill without shareholder approval since the company's last annual meeting, does not put the pill to a vote at the current annual meeting, and does not have a requirement or does not commit to put the pill to shareholder vote within 12 months. In addition, THE FUNDS will withhold votes on all directors at any company that responds to the majority of the shareholders voting by putting the poison pill to a shareholder vote with a recommendation other than to eliminate the pill. WITHHOLD

Alternatively, THE FUNDS will analyze proposals to redeem a company's poison pill, or requesting the ratification of a poison pill on a case-by-case basis. CASE-BY-CASE

Poison pills are one of the most potent anti-takeover measures and are generally adopted by boards without shareholder approval. These plans harm shareholder value and entrench management by deterring stock acquisition offers that are not favored by the board.

Fair Price Provisions

THE FUNDS will consider fair price provisions on a case-by-case basis, evaluating factors such as the vote required to approve the proposed mechanism, the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price. CASE-BY-CASE

THE FUNDS will vote against fair price provisions with shareholder vote requirements of 75% or more of disinterested shares. AGAINST

Greenmail

THE FUNDS will generally vote in favor of proposals limiting the corporation's authority to purchase shares of common stock (or other outstanding securities) from a holder of a stated interest (5% or more) at a premium unless the same offer is made to all shareholders. These are known as anti-greenmail provisions. Greenmail discriminates against rank-and-file shareholders and may have an adverse effect on corporate image. FOR

If the proposal is bundled with other charter or bylaw amendments, THE FUNDS will analyze such proposals on a case-by-case basis. In addition, THE FUNDS will analyze restructurings that involve the payment of pale greenmail on a case-by-case basis. CASE-BY-CASE

Voting Rights

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

THE FUNDS will vote for proposals that seek to maintain or convert to a one-share, one-vote capital structure as such a principle ensures that management is accountable to all the company's owners. FOR

Table of Contents

Alternatively, THE FUNDS will vote against any proposals to cap the number of votes a shareholder is entitled to. Any measure that places a ceiling on voting may entrench management and lessen its interest in maximizing shareholder value. AGAINST

Dual Class/Multiple-Voting Stock

THE FUNDS will vote against proposals that authorize, amend or increase dual class or multiple-voting stock which may be used in exchanges or recapitalizations. Dual class or multiple-voting stock carry unequal voting rights, which differ from those of the broadly traded class of common stock. AGAINST

Alternatively, THE FUNDS will vote for the elimination of dual class or multiple-voting stock, which carry different rights than the common stock. FOR

Supermajority Vote Provisions

THE FUNDS will generally consider on a case-by-case basis proposals to increase the shareholder vote necessary to approve mergers, acquisitions, sales of assets etc. and to amend the corporation's charter or by-laws. The factors considered are those specified in the proxy guidelines. CASE-BY-CASE

However, a supermajority requirement of 75% or more is abusive and THE FUNDS will vote against proposals that provide for them. AGAINST

Supermajority vote provisions require voting approval in excess of a simple majority of the outstanding shares for a proposal. Companies may include supermajority lock-in provisions, which occur when changes are made to a corporation's governing documents, and once approved, a supermajority vote is required to amend or repeal the changes.

Confidential Voting

THE FUNDS will vote for proposals to adopt confidential voting. FOR

Vote Tabulations

THE FUNDS will vote against proposals asking corporations to refrain from counting abstentions and broker non-votes in their vote tabulations and to eliminate the company's discretion to vote unmarked proxy ballots. Vote counting procedures are determined by a number of different standards, including state law, the federal proxy rules, internal corporate policies, and mandates of the various stock exchanges. AGAINST

Equal Access to the Proxy

THE FUNDS will evaluate Shareholder proposals requiring companies to give shareholders access to the proxy ballot for the purpose of nominating board members, on a case-by-case basis taking into account the ownership threshold proposed in the resolution and the proponent's rationale for the proposal at the targeted company in terms of board and director conduct. CASE-BY-CASE

Disclosure of Information

THE FUNDS will vote against shareholder proposals requesting fuller disclosure of company policies, plans, or business practices. Such proposals rarely enhance shareholder return and in many cases would require disclosure of confidential business information. AGAINST

Annual Meetings

THE FUNDS will vote for proposals to amend procedures or change date or location of the annual meeting. Decisions as to procedures, dates or locations of meetings are best placed with management. FOR

Alternatively, THE FUNDS will vote against proposals from shareholders calling for a change in the location or date of annual meetings as no date or location proposed will be acceptable to all shareholders. AGAINST

FOR

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

THE FUNDS will generally vote in favor of proposals to reduce the quorum necessary for shareholders' meetings, subject to a minimum of a simple majority of the company's outstanding voting shares.

Table of Contents

Shareholder Advisory Committees/Independent Inspectors

THE FUNDS will vote against proposals seeking to establish shareholder advisory committees or independent inspectors. AGAINST
The existence of such bodies dilutes the responsibility of the board for managing the affairs of the corporation.

Technical Amendments to the Charter of Bylaws

THE FUNDS will generally vote in favor of charter and bylaw amendments proposed solely to conform to modern FOR
business practices, for simplification, or to comply with what management's counsel interprets as applicable law.

However, amendments that have a material effect on shareholder's rights will be considered on a case-by-case basis. CASE-BY-CASE

Bundled Proposals

THE FUNDS will vote for bundled or conditional proxy proposals on a case-by-case basis, as THE FUNDS will examine CASE-BY-CASE
the benefits and costs of the packaged items, and determine if the effect of the conditioned items are in the best interests of shareholders.

Common Stock Authorizations/Reverse Stock Splits/Forward Stock Splits

THE FUNDS will follow the Risk Metrics capital structure model in evaluating requested increases in authorized common CASE-BY-CASE
stock. In addition, even if capital requests of less than or equal to 300% of outstanding shares fail the calculated allowable cap, THE FUNDS will evaluate the request on a case-by-case basis, potentially voting for the proposal based on the company's performance and whether the company's ongoing use of shares has shown prudence. Further, the company should identify what the stock increases are to be used for, i.e. a proposed stock split, issuance of shares for acquisitions, or for general business purposes.

Also to be considered is whether the purpose of the proposed increase is to strengthen takeover defenses, in which case AGAINST
THE FUNDS will vote against the proposal. Such increases give management too much power and are beyond what a company would normally need during the course of a year. They may also allow management to freely place the shares with an allied institution or set the terms and prices of the new shares.

For reverse stock splits, THE FUNDS will generally vote for proposals to implement the split provided the number of FOR
authorized common shares is reduced to a level that does not represent an unreasonably large increase in authorized but unissued shares. The failure to reduce authorized shares proportionally to any reverse split has potential adverse anti-takeover consequences. However, such circumstances may be warranted if delisting of the company's stock is imminent and would result in greater harm to shareholders than the excessive share authorization.

THE FUNDS will evaluate Going Dark transactions, which allow listed companies to de-list and terminate the registration CASE-BY-CASE
of their common stock on a case-by-case basis, determining whether the transaction enhances shareholder value.

THE FUNDS will generally vote in favor of forward stock splits. FOR

Dividends

THE FUNDS will vote for proposals to allocate income and set dividends. FOR

THE FUNDS will also vote for proposals that authorize a dividend reinvestment program as it allows investors to receive FOR
additional stock in lieu of a cash dividend.

However, if a proposal for a special bonus dividend is made that specifically rewards a certain class of shareholders over AGAINST
another, THE FUNDS will vote against the proposal.

THE FUNDS will also vote against proposals from shareholders requesting management to redistribute profits or AGAINST
restructure investments. Management is best placed to determine how to allocate corporate earnings or set dividends.

In addition, THE FUNDS will vote for proposals to set director fees. FOR

Table of Contents

Reduce the Par Value of the Common Stock

THE FUNDS will vote for proposals to reduce the par value of common stock. FOR

Preferred Stock Authorization

THE FUNDS will generally vote for proposals to create preferred stock in cases where the company expressly states that the stock will not be used as a takeover defense or carry superior voting rights, or where the stock may be used to consummate beneficial acquisitions, combinations or financings. FOR

Alternatively, THE FUNDS will vote against proposals to authorize or issue preferred stock if the board has asked for the unlimited right to set the terms and conditions for the stock and may issue it for anti-takeover purposes without shareholder approval (blank check preferred stock). AGAINST

In addition, THE FUNDS will vote against proposals to issue preferred stock if the shares to be used have voting rights greater than those available to other shareholders. AGAINST

THE FUNDS will vote for proposals to require shareholder approval of blank check preferred stock issues for other than general corporate purposes (white squire placements). FOR

Finally, THE FUNDS will consider on a case-by-case basis proposals to modify the rights of preferred shareholders and to increase or decrease the dividend rate of preferred stock. CASE-BY-CASE

Reclassification of Shares

THE FUNDS will consider proposals to reclassify a specified class or series of shares on a case-by-case basis. CASE-BY-CASE

Preemptive Rights

THE FUNDS will generally vote for proposals to eliminate preemptive rights. Preemptive rights are unnecessary to protect shareholder interests due to the size of most modern companies, the number of investors and the liquidity of trading. FOR

Share Repurchase Plans

THE FUNDS will vote for share repurchase plans, unless: FOR

there is clear evidence of past abuse of the authority; or AGAINST

the plan contains no safeguards against selective buy-backs. AGAINST

Corporate stock repurchases are a legitimate use of corporate funds and can add to long-term shareholder returns.

Executive and Director Compensation Plans

THE FUNDS will analyze on a case-by-case basis proposals on executive or director compensation plans, with the view that viable compensation programs reward the creation of stockholder wealth by having high payout sensitivity to increases in shareholder value. Such proposals may seek shareholder approval to adopt a new plan, or to increase shares reserved for an existing plan. CASE-BY-CASE

THE FUNDS will review the potential cost and dilutive effect of the plan. After determining how much the plan will cost, Risk Metrics evaluates whether the cost is reasonable by comparing the cost to an allowable cap. The allowable cap is industry-specific, market cap-base, and pegged to the average amount paid by companies performing in the top quartile of their peer groups. If the proposed cost is below the allowable cap, THE FUNDS will vote for the plan. Risk Metrics will also apply a pay for performance overlay in assessing equity-based compensation plans for Russell 3000 companies. FOR

If the proposed cost is above the allowable cap, THE FUNDS will vote against the plan. AGAINST

Among the plan features that may result in a vote against the plan are: AGAINST

plan administrators are given the authority to reprice or replace underwater options; repricing guidelines will conform to changes in the NYSE and NASDAQ listing rules.

Table of Contents

THE FUNDS will vote against equity plans that have high average three-year burn rate. (The burn rate is calculated as the total number of stock awards and stock options granted any given year divided by the number of common shares outstanding.) THE FUNDS will define a high average three-year burn rate as the following: The company's most recent three-year burn rate exceeds one standard deviation of its four-digit GICS peer group segmented by Russell 3000 index and non-Russell 3000 index; and the company's most recent three-year burn rate exceeds 2% of common shares outstanding. For companies that grant both full value awards and stock options to their employees, THE FUNDS shall apply a premium on full value awards for the past three fiscal years.	AGAINST
Even if the equity plan fails the above burn rate, THE FUNDS will vote for the plan if the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation. If the company fails to fulfill its burn rate commitment, THE FUNDS will consider withholding from the members of the compensation committee.	FOR
THE FUNDS will calculate a higher award value for awards that have Dividend Equivalent Rights (DERs) associated with them.	CASE-BY-CASE
THE FUNDS will generally vote for shareholder proposals requiring performance-based stock options unless the proposal is overly restrictive or the company demonstrates that it is using a substantial portion of performance-based awards for its top executives.	FOR
THE FUNDS will vote for shareholder proposals asking the company to expense stock options, as a result of the FASB final rule on expensing stock options.	FOR
THE FUNDS will generally vote for shareholder proposals to exclude pension fund income in the calculation of earnings used in determining executive bonuses/compensation.	FOR
THE FUNDS will withhold votes from compensation committee members if they fail to submit one-time transferable stock options (TSOs) to shareholders for approval.	WITHHOLD
THE FUNDS will generally vote for TSO awards within a new equity plan if the total cost of the equity plan is less than the company's allowable cap.	FOR
THE FUNDS will generally vote against shareholder proposals to ban future stock option grants to executives. This may be supportable in extreme cases where a company is a serial repriker, has a huge overhang, or has highly dilutive, broad-based (non-approved) plans and is not acting to correct the situation.	AGAINST
THE FUNDS will evaluate shareholder proposals asking companies to adopt holding periods for their executives on a case-by-case basis taking into consideration the company's current holding period or officer share ownership requirements, as well as actual officer stock ownership in the company.	CASE-BY-CASE
For certain OBRA-related proposals, THE FUNDS will vote for plan provisions that (a) place a cap on annual grants or amend administrative features, and (b) add performance criteria to existing compensation plans to comply with the provisions of Section 162(m) of the Internal Revenue Code.	FOR
In addition, director compensation plans may also include stock plans that provide directors with the option of taking all or a portion of their cash compensation in the form of stock. THE FUNDS will consider these plans based on their voting power dilution.	CASE-BY-CASE
THE FUNDS will generally vote for retirement plans for directors.	FOR
THE FUNDS will evaluate compensation proposals (Tax Havens) requesting share option schemes or amending an existing share option scheme on a case-by-case basis.	CASE-BY-CASE
Stock options align management interests with those of shareholders by motivating executives to maintain stock price appreciation. Stock options, however, may harm shareholders by diluting each owner's interest. In addition, exercising options can shift the balance of voting power by increasing executive ownership.	

Table of Contents

Bonus Plans

THE FUNDS will vote for proposals to adopt annual or long-term cash or cash-and-stock bonus plans on a case-by-case basis. These plans enable companies qualify for a tax deduction under the provisions of Section 162(m) of the IRC. Payouts under these plans may either be in cash or stock and are usually tied to the attainment of certain financial or other performance goals. THE FUNDS will consider whether the plan is comparable to plans adopted by companies of similar size in the company's industry and whether it is justified by the company's performance. CASE-BY-CASE

Deferred Compensation Plans

THE FUNDS will generally vote for proposals to adopt or amend deferred compensation plans as they allow the compensation committee to tailor the plan to the needs of the executives or board of directors, unless FOR
 the proposal is embedded in an executive or director compensation plan that is contrary to guidelines AGAINST

Disclosure on Executive or Director Compensation

Cap or Restrict Executive or Director Compensation

THE FUNDS will generally vote for shareholder proposals requiring companies to report on their executive retirement benefits (deferred compensation, split-dollar life insurance, SERPs, and pension benefits). FOR

THE FUNDS will generally vote for shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote, unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans. FOR

THE FUNDS will generally vote against proposals that seek to limit executive and director pay. AGAINST

Golden and Tin Parachutes

THE FUNDS will vote for proposals that seek shareholder ratification of golden or tin parachutes as shareholders should have the opportunity to approve or disapprove of these severance agreements. FOR

Alternatively, THE FUNDS will examine on a case-by-case basis proposals that seek to ratify or cancel golden or tin parachutes. Effective parachutes may encourage management to consider takeover bids more fully and may also enhance employee morale and productivity. Among the arrangements that will be considered on their merits are: CASE-BY-CASE

arrangements guaranteeing key employees continuation of base salary for more than three years or lump sum payment of more than three times base salary plus retirement benefits;

guarantees of benefits if a key employee voluntarily terminates;

guarantees of benefits to employees lower than very senior management; and

indemnification of liability for excise taxes.

By contrast, THE FUNDS will vote against proposals that would guarantee benefits in a management-led buyout. AGAINST

Reincorporation

CASE-BY-CASE

THE FUNDS will evaluate a change in a company's state of incorporation on a case-by-case basis. THE FUNDS will analyze the valid reasons for the proposed move, including restructuring efforts, merger agreements, and tax or incorporation fee savings. THE FUNDS will also analyze proposed changes to the company charter and differences between the states' corporate governance laws.

Table of Contents

States have adopted various statutes intended to encourage companies to incorporate in the state. These may include state takeover statutes, control share acquisition statutes, control share cash-out statutes, freezeout provisions, fair price provisions, and disgorgement provisions. THE FUNDS will examine reincorporations on a case-by-case in light of these statutes and in light of the corporate governance features the company has adopted to determine whether the reincorporation is in shareholders' best interests.	CASE-BY-CASE
In addition, THE FUNDS will also examine poison pill endorsements, severance pay and labor contract provisions, and anti-greenmail provisions in the context of a state's corporate governance laws on a case-by-case basis.	CASE-BY-CASE
THE FUNDS will evaluate shareholder proposals requiring offshore companies to reincorporate into the United States on a case-by-case basis.	CASE-BY-CASE
Reincorporation proposals may have considerable implications for shareholders, affecting the company's takeover defenses and possibly its corporate structure and rules of governance.	

Stakeholder Laws

THE FUNDS will vote against resolutions that would allow the Board to consider stakeholder interests (local communities, employees, suppliers, creditors, etc.) when faced with a takeover offer.	AGAINST
Similarly, THE FUNDS will vote for proposals to opt out of stakeholder laws, which permit directors, when taking action, to weight the interests of constituencies other than shareholders in the process of corporate decision-making. Such laws allow directors to consider nearly any factor they deem relevant in discharging their duties.	FOR

Mergers/Acquisitions and Corporate Restructurings

THE FUNDS will consider proposals on mergers and acquisitions on a case-by-case basis. THE FUNDS will determine if the transaction is in the best economic interests of the shareholders. THE FUNDS will take into account the following factors:	CASE-BY-CASE
anticipated financial and operating benefits;	
offer price (cost versus premium);	
prospects for the combined companies;	
how the deal was negotiated;	
changes in corporate governance and their impact on shareholder rights.	

In addition, THE FUNDS will also consider whether current shareholders would control a minority of the combined company's outstanding voting power, and whether a reputable financial advisor was retained in order to ensure the protection of shareholders' interests.	CASE-BY-CASE
On all other business transactions, i.e. corporate restructuring, spin-offs, asset sales, liquidations, and restructurings, THE FUNDS will analyze such proposals on a case-by-case basis and utilize the majority of the above factors in determining what is in the best interests of shareholders. Specifically, for liquidations, the cost versus premium factor may not be applicable, but THE FUNDS may also review the compensation plan for executives managing the liquidation,	CASE-BY-CASE

Appraisal Rights

THE FUNDS will vote for proposals to restore, or provide shareholders with rights of appraisal.

FOR

Rights of appraisal provide shareholders who are not satisfied with the terms of certain corporate transactions (such as mergers) the right to demand a judicial review in order to determine the fair value of their shares.

Mutual Fund Proxies

THE FUNDS will vote mutual fund proxies on a case-by-case basis.

CASE-BY-CASE

Table of Contents

Proposals may include, and are not limited to, the following issues:

eliminating the need for annual meetings of mutual fund shareholders;

entering into or extending investment advisory agreements and management contracts;

permitting securities lending and participation in repurchase agreements;

changing fees and expenses; and

changing investment policies.

An investment advisory agreement is an agreement between a mutual fund and its financial advisor under which the financial advisor provides investment advice to the fund in return for a fee based on the fund's net asset size. Most agreements require that the particular fund pay the advisor a fee constituting a small percentage of the fund's average net daily assets. In exchange for this consideration, the investment advisor manages the fund's account, furnishes investment advice, and provides office space and facilities to the fund. A new investment advisory agreement may be necessitated by the merger of the advisor or the advisor's corporate parent.

Fundamental investment restrictions are limitations within a fund's articles of incorporation that limit the investment practices of the particular fund. As fundamental, such restrictions may only be amended or eliminated with shareholder approval. Non-fundamental investment restrictions may be altered by action of the board of trustees.

Distribution agreements are agreements authorized by guidelines established under the Investment Company Act of 1940 and, in particular, Rule 12b-1 thereunder, between a fund and its distributor, which provide that the distributor is paid a monthly fee to promote the sale of the fund's shares.

Reorganizations of funds may include the issuance of shares for an acquisition of a fund, or the merger of one fund into another for purposes of consolidation.

The mutual fund industry is one of the most highly regulated industries, as it is subject to: individual state law under which the company is formed; the federal Securities Act of 1933; the federal Securities Exchange Act of 1934; and the federal Investment Company Act of 1940.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES PORTFOLIO MANAGERS

Niklas Nordenfelt, CFA

Mr. Nordenfelt is jointly responsible for managing the Fund, which he has managed since 2010. Mr. Nordenfelt joined Wells Capital Management in 2003, where he is a senior portfolio manager and co-manager of the Sutter High Yield Fixed Income team. Education: B.S., Economics, University of California, Berkeley.

Philip Susser,

Mr. Susser is jointly responsible for managing the Fund, which he has managed since 2010. Mr. Susser joined Wells Capital Management in 2001, where he is a senior portfolio manager and co-manager of the Sutter High Yield Fixed Income team. Education: B.A., Economics, University of Pennsylvania; J.D., University of Michigan.

Michael J. Bray, CFA,

Mr. Bray is jointly responsible for managing the Fund, which he has managed since 2011. Mr. Bray joined Wells Capital Management in 2005 as a portfolio manager on the Customized Fixed Income Team specializing in government, agency and interest rate derivative instruments. Prior to joining Wells Capital Management, Mr. Bray was a principal responsible for multi-currency yield curve arbitrage business at Windward Capital, LLC from 2004 to 2005. From 1996 to 2004, he was the managing director at State Street Research and Management, focusing on mutual fund and institutional account management. Education: B.S., Math and Actuarial Science, University of Connecticut, Storrs; M.B.A., Pennsylvania State University.

Christopher Kauffman, CFA,

Mr. Kauffman is jointly responsible for managing Fund, which he has managed since 2008. Mr. Kauffman has been with Wells Capital Management or an affiliate firm since 2003, where he is a senior portfolio manager with Wells Fargo affiliate Tattersall Advisory Group (TAG). Education: B.A., Finance and Economics, Master s, Business Administration with an emphasis in finance, Washington University in St. Louis, MO.

Table of Contents

Tony Norris,

Mr. Norris is jointly responsible for managing Fund, which he has managed since 2003. Mr. Norris is Managing Director, Chief Investment Officer, and Senior Portfolio Manager with First International Advisors. He has been with Wells Capital or one of its affiliate firms since 1990.

Peter Wilson,

Mr. Wilson is jointly responsible for managing the Fund, which he has managed since 2003. Mr. Wilson is Managing Director, Chief Operating Officer, and Senior Portfolio Manager with First International Advisors in London. Mr. Wilson has been with Wells Capital or one of its affiliate firms since 1989. He was educated in Canada, Hong Kong and England.

OTHER FUNDS AND ACCOUNTS MANAGED

The following table provides information about the registered investment companies and other pooled investment vehicles and accounts managed by the portfolio manager of the Fund as of the Fund's most recent period ended October 31, 2011.

MATERIAL CONFLICTS OF INTEREST

The Portfolio Managers face inherent conflicts of interest in their day-to-day management of the Funds and other accounts because the Funds may have different investment objectives, strategies and risk profiles than the other accounts managed by the Portfolio Managers. For instance, to the extent that the Portfolio Managers manage accounts with different investment strategies than the Funds, they may from time to time be inclined to purchase securities, including initial public offerings, for one account but not for a Fund. Additionally, some of the accounts managed by the Portfolio Managers may have different fee structures, including performance fees, which are or have the potential to be higher or lower, in some cases significantly higher or lower, than the fees paid by the Funds. The differences in fee structures may provide an incentive to the Portfolio Managers to allocate more favorable trades to the higher-paying accounts.

To minimize the effects of these inherent conflicts of interest, the Sub-Advisers have adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, that they believe address the potential conflicts associated with managing portfolios for multiple clients and ensure that all clients are treated fairly and equitably. Additionally, some of the Sub-Advisers minimize inherent conflicts of interest by assigning the Portfolio Managers to accounts having similar objectives. Accordingly, security block purchases are allocated to all accounts with similar objectives in proportionate weightings. Furthermore, the Sub-Advisers have adopted a Code of Ethics under Rule 17j-1 of the 1940 Act and Rule 204A-1 under the Investment Advisers Act of 1940 (the Advisers Act) to address potential conflicts associated with managing the Funds and any personal accounts the Portfolio Managers may maintain.

First International Advisors

First International Advisors Portfolio Managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, First International Advisors has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

Wells Capital Management

Wells Capital Management s Portfolio Managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, Wells Capital Management has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

Table of Contents

COMPENSATION

The Portfolio Managers were compensated by their employing sub-adviser from the fees the Adviser paid the Sub-Adviser using the following compensation structure:

First International Advisors Compensation. The compensation structure for First International Advisors’s Portfolio Managers includes a competitive fixed base salary plus variable incentives (First International Advisors utilizes investment management compensation surveys as confirmation). Incentive bonuses are typically tied to pretax relative investment performance of all accounts under his or her management within acceptable risk parameters. Relative investment performance is generally evaluated for 1, 3, and 5 year performance results, with a predominant weighting on the 3- and 5- year time periods, versus the relevant benchmarks and/or peer groups consistent with the investment style. This evaluation takes into account relative performance of the accounts to each account’s individual benchmark and/or the relative composite performance of all accounts to one or more relevant benchmarks consistent with the overall investment style. In the case of each Fund, the benchmark(s) against which the performance of the Fund’s portfolio may be compared for these purposes generally are indicated in the Performance sections of the Prospectuses.

Wells Capital Management Compensation. The compensation structure for Wells Capital Management’s Portfolio Managers includes a competitive fixed base salary plus variable incentives (Wells Capital Management utilizes investment management compensation surveys as confirmation). Incentive bonuses are typically tied to pretax relative investment performance of all accounts under his or her management within acceptable risk parameters. Relative investment performance is generally evaluated for 1, 3, and 5 year performance results, with a predominant weighting on the 3- and 5- year time periods, versus the relevant benchmarks and/or peer groups consistent with the investment style. This evaluation takes into account relative performance of the accounts to each account’s individual benchmark and/or the relative composite performance of all accounts to one or more relevant benchmarks consistent with the overall investment style. In the case of each Fund, the benchmark(s) against which the performance of the Fund’s portfolio may be compared for these purposes generally are indicated in the Performance sections of the Prospectuses.

BENEFICIAL OWNERSHIP OF THE FUND

The following table shows for each Portfolio Manager the dollar value of the Fund beneficially owned by the Portfolio Manager as of October 31, 2011:

Wells Fargo Advantage Multi-Sector Income Fund

Niklas Nordenfelt	none
Phil Susser	none
Michael J. Bray	none
Christopher Kauffman	none
Tony Norris	none
Peter Wilson	none

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASES

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Governance Committee (the Committee) of the Board of Trustees of the registrant (the Trust) has adopted procedures by which a shareholder of any series of the Trust may submit properly a nominee recommendation for the Committee’s consideration.

The shareholder must submit any such recommendation (a Shareholder Recommendation) in writing to the Trust, to the attention of the Trust’s Secretary, at the address of the principal executive offices of the Trust.

Edgar Filing: WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND - Form N-CSR

The Shareholder Recommendation must be delivered to, or mailed and received at, the principal executive offices of the Trust not less than forty-five (45) calendar days nor more than seventy-five (75) calendar days prior to the date of the Committee meeting at which the nominee would be considered.

The Shareholder Recommendation must include: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person recommended by the shareholder (the candidate); (B) the series (and, if applicable, class) and number of all shares of the Trust owned of record or beneficially by the candidate, as reported to such shareholder by the candidate; (C) any other information regarding

Table of Contents

the candidate called for with respect to director nominees by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended (the Exchange Act), adopted by the Securities and Exchange Commission (or the corresponding provisions of any regulation or rule subsequently adopted by the Securities and Exchange Commission or any successor agency applicable to the Trust); (D) any other information regarding the candidate that would be required to be disclosed if the candidate were a nominee in a proxy statement or other filing required to be made in connection with solicitation of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder; and (E) whether the recommending shareholder believes that the candidate is or will be an interested person of the Trust (as defined in the Investment Company Act of 1940, as amended) and, if not an interested person, information regarding the candidate that will be sufficient for the Trust to make such determination; (ii) the written and signed consent of the candidate to be named as a nominee and to serve as a Trustee if elected; (iii) the recommending shareholder's name as it appears on the Trust's books; (iv) the series (and, if applicable, class) and number of all shares of the Trust owned beneficially and of record by the recommending shareholder; and (v) a description of all arrangements or understandings between the recommending shareholder and the candidate and any other person or persons (including their names) pursuant to which the recommendation is being made by the recommending shareholder. In addition, the Committee may require the candidate to interview in person and furnish such other information as it may reasonably require or deem necessary to determine the eligibility of such candidate to serve as a Trustee of the Trust.

ITEM 11. CONTROLS AND PROCEDURES

(a) The President and Treasurer have concluded that the Wells Fargo Advantage Multi-Sector Income Fund (the Trust) disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) provide reasonable assurances that material information relating to the Trust is made known to them by the appropriate persons based on their evaluation of these controls and procedures as of a date within 90 days of the filing of this report.

(b) There were no significant changes in the Trust's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second quarter of the period covered by this report that materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) Code of Ethics pursuant to Item 2 of Form N-CSR is filed and attached hereto as Exhibit 10a.

(a)(2) Certification pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is filed and attached hereto as Exhibit 99.CERT.

(a)(3) Not applicable.

(b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) is filed and attached hereto as Exhibit 99.906CERT.
