Consolidated Operating Costs

The Cost of Services Provided, General & Administrative Expenses and Selling Expenses, excluding Gains on disposal of PP&E, totaled P\$4,965 million in 1Q13, an increase of P\$867 million, or +21% vs. 1Q12. The increase is a consequence of higher commercial costs, higher taxes related to the increase in sales, the inflationary effects in the general cost structure, and greater expenses related to the intense competition.

The cost breakdown is as follows:

- Employee benefit expenses and severance payments totaled P\$868 million (+28% vs. 1Q12), mainly affected by increases in salaries granted to the unionized employees, increases to non-unionized workforce, to an increase in the number of unionized headcount and to the increase in the number of employees in the mobile business. Total headcount at the end of the period totaled 16,752 employees (+1% vs. 1Q12) (including temporary employees), where 287 employees were incorporated in the mobile business while 123 employees were dismissed in the fixed services, when compared to 1Q12.

- Taxes and fees with regulatory authorities reached P\$602 million (+30% vs.

1Q12), impacted mainly by a higher volume of revenues, a higher incidence in turnover taxes derived from increases in municipal jurisdictions, higher bank debit and credit taxes and higher taxes with the regulatory authority.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

- Interconnection costs and other telecommunication charges (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$484 million, +P\$76 million or +19% vs. 1Q12. This increase resulted from higher roaming charges due to a higher volume of traffic of minutes, partially compensated by savings arising *on-net* traffic stimulation, as well as higher Data and SMS roaming costs.

- Commissions (Commissions paid to Agents, prepaid card commissions and others) totaled P\$502 million (+12% vs. 1Q12), mainly due to the increase in

Table of Contents

commissions paid to commercial agents associated with higher costs and collection volume. Agent commissions capitalized as SAC amounted to P\$103 million (+36% vs. 1Q12)

- Advertising amounted to P\$154 million (-6% vs. 1Q12), mainly explained by minor commercial expenses and campaigns in comparison to 1Q12 when Mobile Number Portability was introduced.

- Cost of handsets sold totaled P\$558 million (+28% vs. 1Q12), due to an increase in high-end handsets sales at higher unit prices but with more functionalities, following the strategy of stimulating VAS usage, partially compensated by a lower quantity of handset sales. Deferred costs from SAC amounted to P\$103 million (-3% vs. 1Q12).

- Fees for services, maintenance and materials amounted to \$556 million (+17% vs. 1Q12), principally due to increases in the maintenance of radiobases and systems in the mobile business and higher costs associated to suppliers.

- Depreciations and Amortizations reached P\$691 million (+12% vs. 1Q12). PP&E depreciation amounted to P\$467 million (+10% vs. 1Q12); SAC and services connection costs amortization totaled P\$219 million (+20% vs. 1Q12); and other intangible assets amortization reached P\$5 million (-17% vs. 1Q12).

- Other Costs totaled P\$550 million (+34% vs. 1Q12). This increase was mainly due to costs of VAS with an increase of 118% vs. 1Q12, related to those sales especially in the mobile business. Bad debt expenses reached P\$93 million (+35% vs. 1Q12) representing 1.9% of consolidated costs, while provisions expenses remained stable totalizing P\$40 million in 1Q13.

Consolidated Financial Results

Financial Results resulted in a gain of P\$135 million, an increase of P\$74 million or +121% vs. 1Q12. This was mainly due to a gain in net financial interest of P\$116 million in 1Q13 (+P\$47 million vs. 1Q12) based on a healthy financial position and to gains for FX results of P\$13 million in 1Q13 (vs. losses of P\$7 million in 1Q12).

Consolidated Net Financial Position

As of March 31, 2013, Net Financial Position (Cash, Cash Equivalents and financial Investments minus Loans) totaled P\$4,020 million in cash, an improvement of P\$1,038 million vs. Net Financial Position as of March 31, 2012, thanks to the cash generation of the Group.
