Q: How do I vote?

A: You may vote by any of the following methods:

In Person. Stockholders of record and beneficial stockholders with shares held in street name may vote in person at the 2017 Annual Meeting. If you hold shares in street name, you must obtain a proxy from the stockholder of record authorizing you to vote your shares and bring it to the meeting along with proof of beneficial ownership of your shares. A photo ID is required to vote in person.

By mail. If you elected to receive printed proxy materials by mail, you may vote by signing and returning the proxy card provided. Please allow sufficient time for mailing if you decide to vote by mail.

Q: How can I change or revoke my vote?

Beneficial owners of shares held in street name. You may change or revoke your voting instructions by following the specific directions provided to you by your bank or broker or other nominee.

Q: What if I do not specify a choice for a matter when returning a proxy?

A: Your proxy will be treated as follows:

Stockholders of record. If you are a stockholder of record and you sign and return a proxy card without giving specific voting instructions, then the proxy holders will vote your shares in the manner recommended by the Board on all matters presented in this proxy statement and as the proxy holders may determine in their discretion for any other matters properly presented for a vote at the meeting.

Beneficial owners of shares held in street name. If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, the organization that holds your shares may generally vote on routine matters but cannot vote on non-routine matters. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will inform the inspector of election that it does not have the authority to vote on this matter with respect to your shares. This is referred to as a broker non-vote.

Table of Contents

Q: Which ballot measures are considered routine or non-routine?

A: The Ratification of Appointment of Independent Registered Public Accounting Firm (Proposal 4) is considered to be a routine matter under applicable rules. Abstentions, if any, will have no effect on the outcome of the vote on this proposal because they are not considered to be present or entitled to vote on the proposal, and broker non-votes are not expected to occur on this proposal. The election of directors (Proposal 1), the approval of the amendment of our Amended and Restated Equity Incentive Plan (Proposal 2) and the approval of the amendment of our Employee Stock Purchase Plan (Proposal 3) are considered to be non-routine matters under applicable rules. A broker or other nominee cannot vote without instructions on non-routine matters, and therefore there may be broker non-votes on Proposals 1, 2 and 3.

Q: Could other matters be decided at the 2017 Annual Meeting?

A: As of the date of the filing of this proxy statement, we were not aware of any matters to be raised at the 2017 Annual Meeting other than those referred to in this proxy statement. If other matters are properly presented at the 2017 Annual Meeting for consideration, the proxy holders for the 2017 Annual Meeting will have the discretion to vote on those matters for stockholders who have submitted a proxy card.

Q: Who is soliciting proxies and what is the cost?

A: We are making, and will bear all expenses incurred in connection with, the solicitation of proxies. Although we do not currently contemplate doing so, we may engage a proxy solicitation firm to assist us in soliciting proxies, and if we do so we will pay the fees of any such firm. In addition to solicitation by mail, our directors, officers and employees may solicit proxies from stockholders by telephone, letter, electronic mail, facsimile or in person. Following the original mailing of the Meeting Notice, we will request brokers, custodians, nominees and other record holders to forward their own notice and, upon request, to forward copies of the proxy statement and related soliciting materials to persons for whom they hold shares of our Voting Stock and to request authority for the exercise of proxies. In such cases, upon the request of the record holders, we will reimburse such holders for their reasonable expenses.

Director Independence. Under the NASDAQ Stock Market Rules, the Board has a responsibility to make an affirmative determination that those members of its Board that serve as independent directors do not have any relationships with the Company and its businesses that would impair their independence. In connection with these determinations, the Board reviews information regarding transactions, relationships and arrangements involving the Company and its businesses and each director that it deems relevant to independence, including those required by the NASDAQ Stock Market Rules.

The Board has determined that each of Mr. Johnson, Mr. Hipp, Mr. Crowther, Mrs. Tetrault, Dr. Hannah, Mr. Robison and Mr. Murphy is independent. The Audit Committee and the Compensation Committee are each composed entirely of directors who are independent under the NASDAQ Stock Market Rules and the applicable rules of the United States Securities and Exchange Commission (the SEC).

Director Nominations. Our Board has a standing Nominating and Corporate Governance Committee (the Nominating Committee). The Nominating Committee considers and recommends candidates for election to the Board and nominees for committee memberships and committee chairs.

Director candidates are considered based upon a variety of criteria, including demonstrated business and professional skills and experiences relevant to our business and strategic direction, concern for long-term stockholder interests, personal integrity and sound business judgment. The Nominating Committee seeks men and women from diverse professional backgrounds who combine a broad spectrum of relevant industry and strategic experience and expertise that, in concert, offer us and our stockholders diversity of opinion and insight in the areas most important to us and our corporate mission. However, we do not have a formal policy concerning the diversity of the Board. All director candidates must have time available to devote to the activities of the Board. We also consider the independence of director candidates, including the appearance of any conflict in serving as a director. A director who does not meet all

of these criteria may still be considered for nomination to the Board if our independent directors believe that the candidate will make an exceptional contribution to us and our stockholders.

Table of Contents

Generally, when evaluating and recommending candidates for election to the Board, the Nominating Committee will conduct candidate interviews, evaluate biographical information and background material and assess the skills and experience of candidates in the context of the then current needs of the Company. In identifying potential director candidates, the Board may also seek input from the executive officers and may also consider recommendations by employees, community leaders, business contacts, third-party search firms and any other sources deemed appropriate by the Nominating Committee. The Nominating Committee will also consider director candidates recommended by stockholders to stand for election at the annual meeting of stockholders so long as such recommendations are submitted in accordance with the procedures described below under *Stockholder Recommendations for Board Candidates*.

Board Leadership Structure. Our Board does not have a policy on whether the offices of Chairman of the Board and Chief Executive Officer should be separate and, if they are to be separate, whether the Chairman of the Board should be selected from among the independent directors. Our Board believes that it should have the flexibility to make these determinations at any given time in the way that it believes best to provide appropriate leadership for the Company at that time. Our Board has reviewed our current Board leadership structure in light of the composition of the Board, the Company's size, the nature of the Company's business, the regulatory framework under which the Company operates, and other relevant factors. Considering these factors, the Company has determined to have the same individual, Douglas VanOort, serve as Chief Executive Officer and Chairman of the Board. The Board does not have nor have they appointed a lead independent director.

Board Role in Risk Oversight. The Board administers its risk oversight function directly and through the Audit Committee. The Board and the Audit Committee regularly discuss with management the Company's major risk exposures and their potential financial impact on the Company, and the steps taken to monitor and control those risks.

Information Regarding Meetings and Committees of the Board

The Board. The Board met four times for regular meetings during 2016. All of such meetings were regularly scheduled meetings and telephonic calls were held as needed. In addition, the Board held one special meeting via teleconference during 2016. Directors are not required to attend annual meetings of our stockholders. We held an annual meeting of stockholders in 2016, which was attended by six of the directors then serving on the Board.

The Board currently has four standing committees: the Audit Committee, the Nominating and Corporate Governance Committee, the Compensation Committee and the Compliance Committee.

Stockholder Recommendations for Board Candidates

The Board will consider qualified candidates for director that are recommended and submitted by stockholders. Submissions that meet the current criteria for board membership are forwarded to the Nominating and Corporate Governance Committee for further review and consideration. The Committee will consider a recommendation only if appropriate biographical information and background material is provided on a timely basis, accompanied by a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than five percent of our common stock for at least one year as of the date that the recommendation is made. To submit a recommendation for a nomination, a stockholder may write to the Board, at our principal executive office, Attention: Denise Pedulla, Corporate Secretary.

The Committee will evaluate any such candidates by following substantially the same process, and applying substantially the same criteria, as for candidates submitted by Board members, assuming that appropriate biographical and background material is provided for candidates recommended by stockholders and the process for submitting the recommendation is followed.

Stockholder Communications with the Board

Stockholders may, at any time, communicate with any of our directors by mailing a written communication to NeoGenomics, Inc., 12701 Commonwealth Drive, Suite 9, Fort Myers, Florida, 33913, Attention: Denise Pedulla, Corporate Secretary. The mailing envelope must contain a clear notation indicating that the enclosed letter is a Stockholder-Board Communication or Stockholder-Director Communication. All such letters must identify the author as a stockholder, provide evidence of the sender's stock ownership and clearly state whether the intended recipients are all members of the Board or a particular director or directors. The Corporate Secretary will then forward such correspondence, without editing or alteration, to the Board or to the specified director(s) on or prior to the next scheduled meeting of the Board. The Board will determine the method by which such submission will be reviewed and considered. The Board may also request the submitting stockholder to furnish additional information it may reasonably require or deem necessary to sufficiently review and consider the submission of such stockholder.

Board Recommendation

The Board unanimously recommends a vote FOR each nominee.

The nine nominees receiving the majority of votes cast FOR by stockholders in person or by proxy will be elected. This Proposal 1 is a non-discretionary or non-routine item, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, if you hold your shares in street name and fail to instruct your broker to vote your shares, your shares will not be counted as votes cast and will have no effect on the outcome of this Proposal 1.

PROPOSAL 2 AMENDMENT OF THE AMENDED AND RESTATED EQUITY INCENTIVE PLAN

The Company currently maintains the NeoGenomics, Inc. Amended and Restated Equity Incentive Plan, as most recently amended and restated effective as of October 15, 2015 (the Equity Incentive Plan). The Board believes that the Equity Incentive Plan has been effective in attracting and retaining highly-qualified employees and other key contributors to the Company's business, and that the awards granted under the Equity Incentive Plan have provided an incentive that aligns the economic interests of Plan participants with those of our stockholders. The Compensation Committee has reviewed the Equity Incentive Plan to determine whether it remains a flexible and effective source of incentive compensation in terms of the number of shares of common stock available for awards and in terms of its

design, as well as whether it generally conforms with best practices in today's business environment.

Table of Contents

As of the year ended December 31, 2016, the Equity Incentive Plan had 1,670,205 shares remaining available for future issuance. In addition, a total of 5,779,382 equity shares in aggregate were outstanding, comprised of the following:

5,586,110 stock options and warrants (weighted average exercise price of \$5.42, and weighted average remaining term of 3.42 years)

193,272 stock awards

Over the past three years, the Company has used equity shares judiciously, with a burn rate average of approximately 2.82% (of weighted average basic common shares outstanding) as compared to the Pharmaceuticals, Biotechnology & Life Sciences industry benchmark of 6.53%.

The Company has granted awards as follows:

Fiscal Year	Stock Options/Warrants	
	Granted	Stock Awards Granted
2016	2,617,526	43,332
2015	1,819,000	11,440
2014	760,500	138,500

Based on its review, to ensure the Equity Incentive Plan has an adequate number of shares available, the Compensation Committee recommended that the Equity Incentive Plan be amended to add 6,150,000 shares of the Company's common stock to the reserve available for new awards.

Accordingly, the Board of Directors approved, and is recommending that the Company's stockholders approve, the Amendment of the Equity Incentive Plan (the EIP Amendment). Upon approval of the EIP Amendment by the Company's stockholders, an additional 6,150,000 shares of the Company's common stock will be available for issuance under the Equity Incentive Plan.

As discussed below, the EIP Amendment also increases the individual annual award limits included for compliance with Section 162(m) of the Internal Revenue Code (Section 162(m)). Under Section 162(m), we are generally prohibited from deducting compensation paid to covered employees in excess of \$1 million per person in any year.

Covered employees are defined as the chief executive officer and the three other most highly compensated named executive officers (excluding the chief financial officer). Compensation that qualifies as performance-based is not subject to the \$1 million limit. In general, one of the requirements that must be satisfied to qualify as performance-based compensation is that the material terms of the performance goals under which the compensation may be paid must be disclosed to and approved by a majority vote of our stockholders, generally at least once every five years. For purposes of Section 162(m), the material terms of the performance goals generally include (a) the individuals eligible to receive compensation upon achievement of performance goals, (b) a description of the business criteria on which the performance goals may be based, and (c) the maximum amount that can be paid to an individual upon attainment of the performance goals. By approving the EIP Amendment, stockholders also will be approving the material terms of the performance goals under the Equity Incentive Plan as amended by the EIP Amendment. The material terms of the performance goals for the Equity Incentive Plan as amended by the EIP Amendment are disclosed below. Although stockholder approval of the EIP Amendment will continue to provide us with the flexibility

to grant awards under the Equity Incentive Plan that qualify as performance-based compensation under Section 162(m), we retain the ability to grant awards under the Equity Incentive Plan that do not qualify as performance-based compensation under Section 162(m).

Apart from the increase in available shares and the increase in the individual annual award limits, the EIP Amendment does not otherwise materially change the Equity Incentive Plan. If the EIP Amendment is not approved by the Company's stockholders, the Equity Incentive Plan will remain unchanged and in effect

according to its current terms and the Company may continue to grant awards under the Equity Incentive Plan until no more shares are available for issuance.

The material features of the Equity Incentive Plan, as amended by the EIP Amendment, are summarized below. The summary is qualified in its entirety by reference to the specific provisions of the Equity Incentive Plan, the full text of which is set forth as Exhibit 10.50 to the Company's Annual Report on Form 10-K for the year ended December 31, 2015, which was filed with the SEC on March 15, 2016, and by reference to the specific provisions of the EIP Amendment, the full text of which is set forth as Annex A to this proxy statement.

Corporate Governance Aspects of the Plan

The Equity Incentive Plan has been designed to include a number of provisions that promote best practices by reinforcing the alignment between equity compensation arrangements for eligible employees and non-employee directors and stockholders' interests. These provisions include, but are not limited to, the following:

Clawback Policy. In the event of a restatement of our financials due to material noncompliance with any financial reporting requirements under the law, participants will be required to reimburse us for any amounts earned or payable in connection with an award under the Equity Incentive Plan to the extent required by law and any applicable company policies.

No Evergreen Provision. The Equity Incentive Plan does not contain an evergreen feature pursuant to which the shares authorized for issuance under the Plan will be automatically replenished.

Conservative Change in Control Provision. The Equity Incentive Plan does not provide for automatic vesting of awards solely upon a change in control of the Company.

No Discounted Stock Options or Stock Appreciation Rights. Stock options and stock appreciation rights may not be granted under the Equity Incentive Plan with exercise prices lower than the market value of the underlying shares on the grant date.

No Reload Grants. Reload grants, or the granting of stock options conditioned upon delivery of shares to satisfy the exercise price and/or tax withholding obligation under another stock option, are not permitted under the Equity Incentive Plan.

No Transferability. Equity Incentive Plan awards generally may not be transferred, except by will or the laws of descent and distribution, unless approved by the Compensation Committee of the Board.

No Automatic Grants. The Equity Incentive Plan does not provide for automatic grants to any participant.

No Repricings Without Stockholder Approval. The Equity Incentive Plan prohibits the repricing of stock options and SARs without prior stockholder approval, with customary exceptions for certain changes in capitalization. This provision applies to both direct repricings (lowering the exercise price or strike price of a stock option or stock appreciation right) as well as indirect repricings (canceling an outstanding stock option or stock appreciation right and granting a replacement stock option or stock appreciation right with a lower exercise price or exchanges or other substitutions for cash or other forms of awards).

Tax Deductible Awards. The Equity Incentive Plan contains provisions that are required for future awards to certain covered employees to be eligible to be deductible under Section 162(m) of the Internal Revenue Code of 1986 (the Code) as performance-based compensation.

No Tax Gross-Ups. The Equity Incentive Plan does not provide for any tax gross-ups.

Multiple Award Types. The Equity Incentive Plan permits the issuance of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock units, restricted stock awards and other types of equity grants, subject to the share limits of the Equity Incentive Plan. This breadth of

Table of Contents

award types will enable the Compensation Committee to tailor awards in light of the accounting, tax and other standards applicable at the time of grant. Historically, these standards have changed over time.

Independent Oversight. The Equity Incentive Plan is administered by the Compensation Committee, which is comprised of independent board members.

Administration

The Equity Incentive Plan is administered by the Compensation Committee. Subject to the express provisions of the Equity Incentive Plan, the Compensation Committee has the authority, in its discretion, to interpret the Equity Incentive Plan, establish rules and regulations for the Plan's operation, select eligible individuals to receive awards and determine the form and amount and other terms and conditions of such awards.

Summary of Award Terms and Conditions

Awards under the Equity Incentive Plan may include incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock awards, stock bonus awards, deferred stock awards and other stock-based awards.

Stock Options. The Compensation Committee may grant to an Equity Incentive Plan participant options to purchase our common stock that qualify as incentive stock options for purposes of Code Section 422, options that do not qualify as incentive stock options, or a combination thereof. The terms and conditions of stock option grants, including the quantity, price, vesting periods and other conditions on exercise will be determined by the Committee and will be reflected in a written award agreement or notice.

The exercise price for stock options will be determined by the Compensation Committee in its discretion, but with respect to incentive stock options may not be less than 100% of the fair market value of one share of our common stock on the date when the stock option is granted. Additionally, in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of our stock on the date of grant, the exercise price may not be less than 110% of the fair market value of one share of common stock on the date the stock option is granted. The fair market value of our common stock as of April 19, 2017, the closest practical date preceding the mailing of this proxy statement was \$8.36 per share.

Stock options must be exercised within a period fixed by the Compensation Committee that may not exceed 10 years from the date of grant, except that in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of our stock on the date of grant, the exercise period may not exceed five years. The Equity Incentive Plan provides for earlier termination of stock options upon the participant's termination of service, unless extended by the Compensation Committee, but in no event may the options be exercised after the scheduled expiration date of the options.

At the Compensation Committee's discretion, payment for shares of common stock on the exercise of stock options may be made in cash, shares of our common stock held by the participant or in any other form of consideration acceptable to the Compensation Committee (including one or more forms of "cashless" or "net" exercise).

Stock Appreciation Rights. The Compensation Committee may grant to an Equity Incentive Plan participant an award of stock appreciation rights, which entitles the participant to receive, upon its exercise, a payment equal to (a) the excess of the fair market value of a share of common stock on the exercise date over the stock appreciation right exercise price, multiplied by (b) the number of shares of common stock with respect to which the stock appreciation right is exercised. The terms and conditions of awards of stock appreciation rights, including the quantity, price,

vesting periods and other conditions on exercise will be determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Table of Contents

The exercise price for a stock appreciation right will be determined by the Compensation Committee in its discretion, but may not be less than 100% of the fair market value of one share of our common stock on the date when the stock appreciation right is granted. Stock appreciation rights must be exercised within a period fixed by the Compensation Committee that may not exceed 10 years from the date of grant. Upon exercise of a stock appreciation right, payment may be made in cash, shares of our stock or a combination of cash and stock.

Restricted Stock. The Compensation Committee may grant to an Equity Incentive Plan participant shares of common stock subject to specified restrictions, which we refer to as restricted shares. Restricted shares are subject to forfeiture if the participant does not meet certain conditions such as continued employment over a specified forfeiture period or the attainment of specified performance targets over the forfeiture period. The terms and conditions of restricted share awards are determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Stock Bonus Awards. The Compensation Committee may grant to an Equity Incentive Plan participant shares of common stock in the form of a stock bonus award that are not subject to any restrictions or forfeiture requirements. The terms and conditions of stock bonus awards are determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Deferred Stock Awards. The Compensation Committee may grant to an Equity Incentive Plan participant deferred stock awards representing the right to receive shares of common stock (or the value of such shares) in the future subject to the achievement of one or more goals relating to the completion of service by the participant and/or the achievement of performance or other objectives. The terms and conditions of deferred stock awards are determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Other Stock-Based Awards. The Compensation Committee may grant to an Equity Incentive Plan participant equity-based or equity-related awards, referred to as other stock-based awards, other than options, stock appreciation rights, restricted shares, stock bonus awards or deferred stock awards. Such awards may include restricted stock units, stock purchase rights, phantom stock arrangements or awards valued in whole or in part by reference to our common stock. The terms and conditions of each other stock-based award will be determined by the Compensation Committee and will be reflected in a written award agreement or notice. Payment under any other stock-based awards will be made in common stock or cash, as determined by the Compensation Committee.

Performance Goals

The Equity Incentive Plan will allow the Compensation Committee to grant options, stock appreciation rights, and certain performance-based awards that should qualify as performance-based compensation under Section 162(m) of the Code. A vote in favor of approving the Equity Incentive Plan will be a vote approving all the material terms and conditions of the plan for purposes of granting awards pursuant to Section 162(m), including the performance criteria, eligibility requirements and limits on various stock awards that are described in this proposal. The Compensation Committee retains its discretion to grant awards that are not compliant with Section 162(m). In addition, given the ambiguities in how the conditions to qualifying as performance-based will be interpreted and administered under the income tax regulations, there is no certainty that elements of performance-based compensation discussed in this proposal will in fact be deductible in the future.

With respect to any awards under the Equity Incentive Plan that are intended to qualify as performance-based compensation for purposes of Code Section 162(m) (other than stock options and stock appreciation rights), the award will be subject to the attainment of one or more pre-established performance objectives that will relate to corporate, subsidiary, division, group or unit performance based on one or more of the following measures:

Gross revenue;

Earnings per share or ratios of earnings to equity or assets;

15

Table of Contents

Net profits;

Stock price;

Market share;

Sales; or

Costs.

Awards that are designed to qualify as performance-based compensation may not be adjusted upward. However, the Compensation Committee has the discretion to adjust these awards downward and may grant awards that do not qualify as performance-based compensation.

Effect of a Change in Control or Similar Corporate Transactions

In the event of a merger, reorganization or consolidation between NeoGenomics and another person or entity (other than an affiliate) resulting in our stockholders prior to the transaction holding less than a majority of the outstanding voting stock of the surviving entity immediately after the transaction, or in the event of a sale of all or substantially all of our assets, outstanding awards will be subject to the specific terms as may be set forth in the applicable award agreement, which may include assumption or substitution of such awards with equivalent awards, accelerated vesting or settlement in cash or cash equivalents. Beginning with awards granted after April 20, 2017, award agreements will include double trigger vesting conditions. Under these conditions, stock option awards that are assumed or replaced as a result of a change in control will not automatically vest upon the change in control. Accelerated vesting of awards is permitted upon a change in control (as defined in the award agreement) if an employee experiences an involuntary termination (either by the Company without cause or by the employee for good reason, as defined in the award agreement) within 12 months after the change in control transaction.

Eligibility and Limitation on Awards

The Compensation Committee may grant awards under the Equity Incentive Plan to any employee, non-employee director or consultant of ours or any of our participating subsidiaries. While the selection of Equity Incentive Plan participants is within the discretion of the Compensation Committee, it is currently expected that participants will be primarily officers and key senior level employees, as well as our non-employee directors. As of the date of the filing of this proxy statement, all of our approximately 969 employees, and each of our 8 non-employee directors, are eligible to participate in the Equity Incentive Plan.

The maximum amount of awards that can be granted under the Equity Incentive Plan to a single participant in any 12-month period in the form of stock options or stock appreciation rights is being increased by the EIP amendment from 500,000 shares to 1,000,000 shares. In addition, to the extent such awards are intended to qualify as performance-based compensation under Code Section 162(m), the maximum awards that can be granted under the Equity Incentive Plan to a single participant in any 12-month period in the form of restricted shares, stock bonus awards, deferred stock awards or other stock-based awards is being increased by the EIP amendment from 500,000 shares to 1,000,000 shares.

Shares Subject to the Equity Incentive Plan

The number of shares of our common stock reserved for issuance for awards under the Equity Incentive Plan, before the approval of the proposed EIP Amendment, was 12.5 million, of which approximately 1.4 million shares remain available for new awards. The Board has authorized pursuant to the EIP Amendment, subject to stockholder approval, an additional 6,150,000 shares of our common stock to be available for new awards under the Equity Incentive Plan, so that the aggregate number of shares reserved for issuance under the Equity Incentive Plan will be 18,650,000, with approximately 7,550,000 million shares being available for new awards. All such shares of common stock available for issuance under the Equity Incentive Plan shall be available for issuance as incentive stock options.

Table of Contents

Shares of common stock underlying awards granted under the Equity Incentive Plan that expire or are forfeited or terminated for any reason (as a result, for example, of the lapse of stock options or forfeiture of restricted shares), as well as any shares underlying an award that is settled in cash rather than stock, will be available for future grants under the Equity Incentive Plan. In addition, shares of stock that are surrendered to or withheld by us in payment or satisfaction of the exercise price of an award or any tax withholding obligation with respect to an award will be available for future grants. Shares to be issued under the Equity Incentive Plan will be authorized but unissued shares of common stock or shares of stock reacquired by us.

Anti-Dilution Protections

In the event of a change in the outstanding shares of our common stock, without the receipt by us of consideration, by reason of a stock dividend, stock split, reverse stock split or distribution, recapitalization, merger, reorganization, reclassification, consolidation, split-up, spin-off, combination of shares, exchange of shares or other similar event, the Compensation Committee will make appropriate and equitable adjustments to (a) the number and kind of shares of stock available under the Equity Incentive Plan, (b) the number and kind of shares of stock subject to outstanding Equity Incentive Plan awards, (c) the per-share exercise or other purchase price under any outstanding Equity Incentive Plan award and (d) the annual award or other maximum award limits applicable under the Equity Incentive Plan.

Clawback Provisions

The Equity Incentive Plan provides that in the event of a restatement of our financials due to material noncompliance with any financial reporting requirements under the law, a participant will be required to reimburse us for any amounts earned or payable in connection with an award under the Equity Incentive Plan to the extent required by law and any applicable company policies.

No Repricings of Options or SARs

The Equity Incentive Plan prohibits the repricing of stock options and stock appreciation rights without the approval of our stockholders. This provision applies to both direct repricings (lowering the exercise price or strike price of a stock option or stock appreciation right) as well as indirect repricings (canceling an outstanding stock option or stock appreciation right and granting a replacement stock option or stock appreciation right with a lower exercise price or strike price or exchange for cash or other forms of awards).

Amendment and Termination

The Board may suspend, terminate, modify or amend the Equity Incentive Plan, provided that any amendment that would (a) increase the aggregate number of shares of stock that may be issued under the Equity Incentive Plan, (b) change the method of determining the exercise price of option awards or (c) materially modify the eligibility requirements for the Equity Incentive Plan, will be subject to the approval of our stockholders, except for modifications or adjustments relating to the anti-dilution protection described above.

In addition, no suspension, termination, modification or amendment of the Equity Incentive Plan may terminate a participant's existing award or materially and adversely affect a participant's rights under such award without the participant's consent. However, these provisions do not limit the board's authority to amend or revise the Equity Incentive Plan to comply with applicable laws or governmental regulations.

Federal Income Tax Consequences

THE FEDERAL INCOME TAX CONSEQUENCES OF THE ISSUANCE AND EXERCISE OF AWARDS UNDER THE PLAN GENERALLY ARE AS DESCRIBED BELOW. THE FOLLOWING INFORMATION IS ONLY A SUMMARY OF THE TAX CONSEQUENCES OF THE AWARDS, AND WE

Table of Contents

ENCOURAGE PARTICIPANTS TO CONSULT WITH THEIR OWN TAX ADVISORS WITH RESPECT TO THE TAX CONSEQUENCES INHERENT IN THE OWNERSHIP OR EXERCISE OF THEIR AWARDS, AND THE OWNERSHIP AND DISPOSITION OF ANY UNDERLYING SECURITIES. TAX CONSEQUENCES FOR ANY PARTICULAR INDIVIDUAL OR UNDER STATE OR NON-U.S. TAX LAWS MAY BE DIFFERENT.

Incentive Stock Options. A participant who is granted an incentive stock option generally will not recognize any taxable income for federal income tax purposes on either the grant or exercise of the incentive stock option (except for AMT purposes, as described below). If the participant disposes of the shares purchased pursuant to the incentive stock option more than two years after the date of grant and more than one year after the exercise of the option by the participant, (a) the participant will recognize long-term capital gain or loss, as the case may be, equal to the difference between the selling price and the exercise price; and (b) we will not be entitled to a deduction with respect to the shares of stock so issued. If the two year holding period requirements are not met, any gain realized upon disposition will be taxed as ordinary income to the extent of the lesser of (1) the excess of the fair market value of the shares at the time of exercise over the exercise price, and (2) the gain on the sale. Also in that case, we will be entitled to a deduction in the year of disposition in an amount equal to the ordinary income recognized by the participant. Any additional gain will be taxed as short-term or long-term capital gain depending upon the actual holding period for the stock. A sale for less than the exercise price results in a capital loss. The excess of the fair market value of the shares on the date of exercise over the exercise price is includable in the participant's income for alternative minimum tax purposes whether or not the statutory two year holding period requirements are met.

Nonqualified Stock Options. A participant who is granted a nonqualified stock option under the Equity Incentive Plan generally will not recognize any income for federal income tax purposes on the grant of the option. Generally, on the exercise of the option, the participant will recognize taxable ordinary income equal to the excess of the fair market value of the shares on the exercise date over the option price for the shares. We generally will be entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the participant. Upon disposition of the shares purchased pursuant to the stock option, the participant will recognize long-term or short-term capital gain or loss, as the case may be, equal to the difference between the amount realized on such disposition and the basis for such shares, which basis includes the amount previously recognized by the participant as ordinary income.

Stock Appreciation Rights. A participant who is granted stock appreciation rights generally will not recognize any taxable income on the receipt of the award. Upon the exercise of a stock appreciation right, (a) the participant will recognize ordinary income equal to the amount received (the increase in the fair market value of one share of our stock from the date of grant of the award to the date of exercise multiplied by the number of shares subject to the award), and (b) we will be entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the participant.

Restricted Stock. A participant generally will not recognize any taxable income on the grant date of an award of restricted shares, but will be taxed at ordinary income rates on the fair market value of any restricted shares as of the date that the restrictions lapse, unless the participant, within 30 days after transfer of such restricted shares to the participant, elects under Code Section 83(b) to include in income the fair market value of the restricted shares as of the date of such transfer. We generally will be entitled to a corresponding deduction. Any disposition of shares after the restrictions lapse will be subject to the regular rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares at the end of the restricted period (or on the date of the transfer of the restricted shares, if the employee elects to be taxed on the fair market value upon such transfer). To the extent dividends are payable during the restricted period under the applicable award agreement, any such dividends will be taxable to the participant at ordinary income tax rates and will be deductible by us unless the participant has elected to be taxed on the fair market value of the restricted shares upon transfer, in which case they

will thereafter be taxable to the participant as dividends and will not be deductible by us.

Table of Contents

Deferred Stock Awards. A participant generally will not recognize taxable income upon grant of a deferred stock award, and we will not be entitled to a deduction until the lapse of the applicable restrictions. Upon the lapse of the restrictions and the issuance of the underlying shares or settlement of the award, the participant will recognize ordinary taxable income in an amount equal to the fair market value of the common stock or other value received, and we generally will be entitled to a deduction in the same amount. Any disposition of shares after restrictions lapse will be subject to the regular rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares at the end of the restricted period.

Stock Bonus Awards and Other Stock-Based Awards. A participant generally will not recognize taxable income upon the grant of stock bonus awards or other stock-based awards under the Equity Incentive Plan unless and until the conditions and requirements for the grants have been satisfied and the payment determined. Once subject to tax, any cash received and the fair market value of any common stock received generally will constitute ordinary income to the participant. We generally will be entitled to a deduction in the same amount.

Code Section 162(m). Because we are a public company, special rules limit the deductibility of compensation paid to our Chief Executive Officer and to each of our three most highly compensated executive officers other than our Chief Executive Officer (and not including our Chief Financial Officer) whose compensation is required to be reported annually in our proxy statement. Under Code Section 162(m), the annual compensation paid to each of these executives may not be deductible to the extent that it exceeds \$1 million. The limitation on deductions does not apply, however, to qualified performance-based compensation. Certain awards under the Equity Incentive Plan, including stock options, stock appreciation rights and stock-based performance awards, may constitute qualified performance-based compensation and, as such, would be exempt from the \$1 million limitation on deductible compensation. The Compensation Committee may choose to grant awards under the Equity Incentive Plan that are not deductible under Code Section 162(m).

New Plan Benefits

Because awards under the Equity Incentive Plan are discretionary, awards are generally not determinable at this time.

Effective Date

The EIP Amendment will be effective as of the date approved by our stockholders. The Equity Incentive Plan is scheduled to expire on October 15, 2025, unless terminated earlier by the Board.

Vote Required for Approval

The EIP Amendment will be approved if a majority of the votes cast by stockholders in person or via proxy with respect to this matter are cast in favor of the proposal. The proposal to approve the EIP Amendment is a non-discretionary or non-routine item, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, if you hold your shares in street name and fail to instruct your broker to vote your shares for the proposal, your shares will not be counted as votes cast for the proposal and will have no effect on the outcome of this Proposal 2. If the stockholders do not approve the EIP Amendment, it will not be implemented, but we reserve the right to adopt such other compensation plans and programs as we deem appropriate and in the best interests of NeoGenomics and its stockholders.

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE FOR THE EIP AMENDMENT.

PROPOSAL 3 APPROVAL OF AMENDMENT OF EMPLOYEE STOCK PURCHASE PLAN

The Company currently maintains the NeoGenomics, Inc. Amended and Restated Employee Stock Purchase Plan, as most recently amended and restated effective as of March 10, 2013 (the ESPP).

The ESPP provides employees of the Company and its subsidiaries the opportunity to acquire an ownership interest in the Company through the purchase of Company common stock at a price below current market prices. The ESPP currently provides that the purchase price is at 95% of the fair market value of the common stock on the first trading day of each ESPP offering period or on the last day of the offering period, whichever is lower i.e., a 5% discount.

In order to encourage additional participation in the ESPP, the Board of Directors approved, and is recommending that the Company's stockholders approve, the First Amendment of the ESPP (the ESPP Amendment) to increase this discount to 15%. Accordingly, if the ESPP Amendment is approved, the purchase price of the shares under the ESPP will be not less than 85% of the fair market value of the common stock on the first trading day of each ESPP offering period or on the last day of the offering period, whichever is lower.

The material features of the ESPP, as amended by the ESPP Amendment, are summarized below. The summary is qualified in its entirety by reference to the specific provisions of the ESPP, the full text of which is set forth as Appendix A to the Company's proxy statement for the 2013 Annual Meeting of Stockholders, which was filed with the SEC on May 8, 2013, and by reference to the specific provisions of the ESPP Amendment, the full text of which is set forth as Annex B to this proxy statement.

Description of the Plan

Administration of the ESPP. Our Board has authority to administer, interpret and implement the terms of the ESPP. The Board may delegate its powers under the ESPP to a committee of the Board composed of at least two members, each of whom may qualify as a non-employee director for purposes of Rule 16b-3 under the Exchange Act, and outside director in accordance with Section 162(m) of the Code. References to the Board herein will mean the committee as well. The Board will have the discretion to set the terms of each offering in accordance with the provisions of the ESPP, to designate any subsidiaries of the Company to participate in the ESPP, to make all determinations regarding the ESPP, including eligibility, and otherwise administer the ESPP.

Number of Authorized Shares. A total of 1,000,000 shares of our common stock have been reserved under the amended ESPP, of which approximately 210,646 shares are available for future purchases under the ESPP, subject to adjustment in the event of any significant change in our capitalization, such as a stock split, a combination or exchange of shares, or a stock dividend or other distribution. The ESPP Amendment makes no change to the number of shares authorized for issuance under the ESPP.

Eligibility and Participation. All of our employees generally are eligible to participate in the ESPP. However, the Board may provide with respect to any offering that employees will not be eligible to participate in the offering if they are customarily employed by us or any participating subsidiary for less than 20 hours per week or less than five months in any calendar year. As of the date of filing of this proxy statement, approximately 926 employees are eligible to participate in the ESPP. The Board also may exclude from an offering period highly-compensated employees or employees who have not satisfied a minimum period of employment with us which may not exceed a period of two years. In addition, an employee may not be granted rights to purchase stock under our ESPP if such employee would:

immediately after any grant of purchase rights, own stock possessing five or more of the total combined voting power or value of all classes of our capital stock; or

hold rights to purchase stock under all of our employee stock purchase plans that would accrue at a rate that exceeds \$25,000 worth of our stock for each calendar year.

Table of Contents

Offering Periods. The ESPP provides for offering periods as short as one month or as long as 27 months. The Board may specify a maximum number of shares of common stock that any participant may purchase during an offering period. During each offering period, participants authorize payroll deductions on an after-tax basis from the participant's base pay, subject to certain limits.

Exercise of Purchase Rights. Amounts deducted and accumulated by the participant are used to purchase shares of our common stock at the end of each offering period. If the ESPP Amendment is approved, the purchase price of the shares will not be less than 85% of the fair market value of our common stock on the first trading day of the offering period or on the last day of the offering period, whichever is lower. The fair market value of our common stock as of April 19, 2017, the closest practical date preceding the mailing of this proxy statement, was \$8.36 per share. Participants may withdraw from participation in the ESPP at any time during an offering period, and will be paid their accrued payroll deductions that have not yet been used to purchase shares of common stock. Participation ends automatically upon termination of employment with us.

Amendment and Termination. The Board in its discretion may amend, suspend or terminate the ESPP at any time. Unless sooner terminated, the Plan will terminate at the earlier of the time that all of the shares reserved under the ESPP have been issued under the terms of the ESPP or March 1, 2023, the 10th anniversary of the effective date of the 2013 amendment and restatement of the ESPP. Notwithstanding the foregoing, no amendment or termination may adversely affect any outstanding rights to purchase stock under our ESPP.

Benefits Under ESPP. Benefits to be received by participants under the ESPP, including our executive officers, are not currently determinable because participation in the ESPP is voluntary and the benefits are subject to the market price of the common stock at future dates.

Federal Income Tax Considerations

THE FOLLOWING DISCUSSION ADDRESSES ONLY THE GENERAL FEDERAL INCOME TAX CONSEQUENCES UNDER THE PLAN. IT DOES NOT ADDRESS THE IMPACT OF STATE AND LOCAL TAXES, THE FEDERAL ALTERNATIVE MINIMUM TAX OR SECURITIES LAWS RESTRICTIONS, AND IS INTENDED FOR GENERAL INFORMATION PURPOSES ONLY. IT IS NOT INTENDED AS A TAX ADVICE TO PARTICIPANTS IN THE PLAN, WHO SHOULD CONSULT THEIR OWN TAX ADVISORS.

It is the intention of the Company to have the ESPP qualify as an Employee Stock Purchase Plan under Section 423 of the Code. The provisions of the ESPP, accordingly, shall be construed so as to extend and limit participation in a manner consistent with the requirements of that Section of the Code. The Company believes that the following federal income consequences normally will apply with respect to the ESPP.

The payroll deductions withheld from a participant's pay under the ESPP will be taxable income to the participant and must be included in the participant's gross income for federal income tax purposes in the year which such amounts otherwise would have been received.

A participant will not be required to recognize any income for federal income tax purposes either at the time the participant is granted an option (which will be on the first day of the offering period) or by virtue of the exercise of the option (which will take place on the last day of such offering period). The federal income tax consequences of a sale or disposition of shares acquired under the ESPP depend in part on the length of time the shares are held by a participant before such sale or disposition. If a participant sells or otherwise disposes of shares acquired under the ESPP (other than any transfer resulting from death) within two years after the first day of the applicable offering period or one year after the shares are acquired (the Holding Period), the participant must recognize ordinary

compensation income in the year of such disposition in an amount equal to the excess of (i) the fair market value of the shares on the date such shares were acquired over (ii) the price paid for the shares by the participant. The amount of ordinary compensation income recognized by the participant will be added to the participant's basis in such shares for purposes of determining any additional gain or loss realized by the

Table of Contents

participant on the sale of the shares. Any such additional gain or loss will be taxed as capital gain or loss, long or short, depending on how long the participant held the shares.

If a participant sells shares acquired under the ESPP after the Holding Period or if the participant dies, the participant or the participant's estate must include as ordinary compensation income in the year of sale (or the taxable year ending upon death) an amount equal to the lesser of (i) the excess of the fair market value of the shares on the first day of the offering period over the option price (determined as if the option had been exercised on the first day of the offering period), or (ii) the excess of the fair market value of the shares at the time of sale of the shares or on the date of death over the price paid for the shares by the participant. Except in the case of a transfer as a result of death, the amount of ordinary income recognized by the participant will be added to the participant's basis in such shares. Any gain realized upon the sale in excess of such basis will be taxed as a long-term capital gain. Any loss realized will be treated as long-term capital loss.

The Company will not receive any income tax deduction as a result of issuing shares pursuant to the ESPP, except to the extent that a participant is required to include as ordinary income amounts arising upon the sale or disposition of such shares as discussed above.

Effective Date

The Amendment will be effective as of the date approved by our stockholders.

Vote Required for Approval

The ESPP Amendment will be approved if a majority of the votes cast by stockholders in person or via proxy with respect to this matter are cast in favor of the proposal. If the stockholders do not approve the ESPP Amendment, it will not be implemented, but the Company reserves the right to adopt such other compensation plans and programs as it deems appropriate and in the best interests of the Company and our stockholders. The proposal to approve the ESPP Amendment is a non-discretionary or non-routine item, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, if you hold your shares in street name and fail to instruct your broker to vote your shares for the proposal, your shares will not be counted as votes cast for the proposal and will have no effect on the outcome of this Proposal 3.

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE FOR THE ESPP AMENDMENT.

Compensation Discussion and Analysis

Executive Compensation Philosophy

Our compensation philosophy is to offer our executive officers compensation and benefits that are competitive and meet our goals of attracting, retaining and motivating highly skilled management, which is necessary to achieve our financial and strategic objectives and create long-term value for our stockholders. We believe the levels of compensation we provide should be competitive, reasonable and appropriate for our business needs and circumstances.

Advisory Vote on Executive Compensation

The Company provides its stockholders with the opportunity to vote on executive compensation every three years. At the 2016 Annual Meeting of Stockholders held on June 7, 2016, we sought an advisory vote from our stockholders regarding our executive compensation program and 94.2% of the votes cast were in favor of our Named Executive Officers' compensation as described in the proxy statement for that meeting. The Compensation Committee considers these results in making future compensation decisions.

The Compensation Committee determined that the Company's continued strong financial performance (details below), the executive compensation program remains appropriate and no changes to the overall program design were necessary. However, the Compensation Committee continues to review the alignment of our executive compensation program with the compensation goals set forth herein and will continue to consider the outcome of the advisory stockholder votes on executive compensation when making future decisions regarding the compensation of our executive officers.

Company Performance Highlights

The Compensation Committee considers the financial performance of the Company in making compensation decisions. The Compensation Committee believes that compensation should be tied to the performance of the Company as well as the return to stockholders. During 2016, our revenues increased by \$144 million (145%) and cash flow from operations grew by \$15 million (236%). We were able to grow our business while reducing our cost per test by 9%. In addition, we completed many of our strategic initiatives including completing the integration of Clariant.

We have presented below the cumulative total return to our stockholders of \$100 during the period from December 31, 2011 through December 31, 2016 in comparison to the cumulative return of the S&P 500 Index and a customized group of 7 publicly traded companies during that same time period. The peer group is comprised of Cancer Genetics, Inc., Enzo Biochem, Inc., Genomic Health Inc., Foundation Medicine, Laboratory Corporation of America, Myriad Genetics Inc., and Quest Diagnostics, Inc. The results assume that \$100 (with

Table of Contents

reinvestment of all dividends) was invested in our common stock, the index and in the peer group and relative performance tracked through December 31, 2016.

Process for Determining Executive Compensation

Our Compensation Committee reviews and approves the annual base compensation and other compensation of our Named Executive Officers. Our Compensation Committee also establishes and reviews the achievement of performance goals and other matters relating to the Annual Bonus Plans.

Role of Independent Compensation Consultant

As outlined in its Charter, the Compensation Committee has the authority to select, retain and/or replace, as needed, compensation and benefits consultants and other outside consultants to provide independent advice to the Committee. During 2016, the Committee retained Willis Towers Watson as an independent outside compensation consultant. Willis Towers Watson advised the Compensation Committee on market competitive compensation practices, provided comparative industry trends and peer group data regarding salary, annual incentive and long-term incentive compensation levels for our executive officers and other key executives, and reviewed recommendations from management on compensation matters. The Compensation Committee considered the six factors specified by the Securities and Exchange Commission (SEC) to monitor the independence of their compensation advisors, and determined that Willis Towers Watson's services during 2016 did not raise a conflict of interest.

Use of a Peer Group

In evaluating executive compensation, the Compensation Committee considers both performance of the Company and performance relative to an established peer group as well as the pay practices of that peer group. With input from Willis Towers Watson, the Committee reviews the previous year's peer group to ensure it remains valid for benchmarking purposes and makes adjustments as needed to reflect changes in business strategy and circumstances. Our peer group for compensation purposes is different from the group of companies with which our business competes because many of our direct competitors for business are either much larger or smaller than us in terms of size and scope. In developing an appropriate pay benchmarking peer group, the Compensation Committee considered other scoping factors such as market capitalization, revenue and employee headcount.

Table of Contents

The peer group used for purposes of 2016 executive compensation was as follows:

Affymetrix Inc. (acquired by Thermo Fischer Scientific)	Harvard Bioscience Inc.
Atri Cure Inc.	Luminex Corp.
Cambres Corp.	Natera Inc.
CTI BioPharma Corp.	New Link Genetics Corp.
Dyax Corporation (acquired by Shire PLC)	OraSure Technologies Inc.
Enzo Biochem Inc.	Pacific Biosciences of California Inc.
Fluidigm Corp.	Pernix Therapeutics Holding Inc.
Foundation Medicine Inc.	Sequenom Inc. (acquired by Lab Corp.)
Genomic Health	

Each year, the Compensation Committee assesses the total compensation of our CEO in relation to the total compensation of the CEO of our peers. The peer group used for this purpose is our compensation peer group as defined above.

The following graph shows the relationship of our CEO's total compensation as set forth in the 2015 Summary Compensation Table and the change in stock price for the three years ended December 31, 2013, 2014 and 2015 (annualized). These amounts are compared to the CEOs of the companies included in our peer group as defined above.

Table of Contents*Base Compensation*

Our base compensation philosophy is to offer our executive officers compensation and benefits that are competitive and meet our goals of attracting, retaining and motivating highly skilled management, which is necessary to achieve our financial and strategic objectives and create long-term value for our stockholders. We believe the levels of base compensation we provide should be competitive, reasonable and appropriate for our business needs and circumstances.

The base compensation of our Named Executive Officers is reviewed annually and changes to base salary are made pursuant to a review process and salary increase recommendations are made by the Chief Executive Officer and subsequently reviewed and approved by the Compensation Committee. Any changes to the Chief Executive Officer base salary are discussed and approved by the Compensation Committee. The Chief Executive Officer is not included in any discussions regarding changes to his own compensation.

Short Term Incentive Program

The Compensation Committee adopts an Annual Bonus Plan which it believes incentivizes senior management to achieve operating results that the Compensation Committee believes will benefit stockholders as well as management. The Annual Bonus Plan provides goals which the Compensation Committee believes can only be achieved through extraordinary team efforts and that are designed to incentivize senior management to operate the Company in the most efficient manner possible.

The Annual Bonus Plan is comprised of Company measures and individual measures, Company performance measures are tied to achieving our revenue and Adjusted EBITDA goals in addition to the successful completion of Company determined critical success factors. Individual performance measures are specific and may vary by executive. These measures are developed by the Chief Executive Officer, approved by the Compensation Committee, and communicated to each of our Named Executive Officers.

The Annual Bonus Plan includes incentives for both individual and company performance, the ranges for 2016 are shown below:

	CEO	Chief Medical Officer	All Other NEO s
Individual Performance	20%	60%	20-50%
Company Performance	80%	40%	50-80%

Benefits

Our policy is to provide health benefits as well as access to our 401(k) Plan to which we match any employees including our Named Executive Officers' contributions at the rate of 75% of every dollar contributed up to 4% of the respective employee's salary (3% maximum Company match). Effective, January 1, 2017 this benefit will increase to 100% of every dollar contributed up to 3% of the respective employee's compensation and an additional 50% of every dollar contributed on the next 2% of compensation (4% maximum Company match).

Compensation Mix

In 2016, approximately 71% of the CEO's total compensation and approximately 60% of other NEO's total compensation was variable and impacted by individual, operating or stock price performance as shown below:

Tax Compliance Policy

Section 162(m) of the Code generally disallows a tax deduction to public corporations for compensation in excess of \$1,000,000 paid for any fiscal year to a corporation's chief executive officer and to the three other most highly compensated executive officers in office as of the end of the fiscal year, other than the chief financial officer. The statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. However, stockholder interests may at times be best served by not restricting the Compensation Committee's discretion and flexibility in developing compensation programs, even though the programs may result in non-deductible compensation expenses. Accordingly, the Compensation Committee may from time to time approve elements of compensation for certain officers that are not fully deductible.

Consulting Agreement

During the years ended December 31, 2016, 2015 and 2014, Steven C. Jones, a director of the Company, earned approximately \$263,000, \$261,500 and \$257,500, respectively, for various consulting work performed in connection with his duties as Executive Vice President and reimbursement of incurred expenses. Mr. Jones also earned \$85,000, \$578,900 and \$177,500 as payment of bonuses for the periods indicated above. The bonus earned for the year ended December 31, 2015 was comprised of \$500,000 discretionary bonus in recognition of the consulting services provided in connection with the Company's acquisition of Clariant, Inc. and the related financing. This amount was paid to Aspen Capital Advisors, LLC (Aspen) for which Mr. Jones is a managing director, pursuant to a consulting agreement entered into between Aspen and the Company on November 11, 2015. The remaining \$78,900 was earned as part of a management incentive plan.

On April 20, 2016, the Company granted Steven C. Jones 100,000 stock options to purchase shares of its common stock. The options were granted at an exercise price of \$7.15 per share and had a weighted average fair market value of \$2.50 per option. These options were accounted for as granted to a non-employee as they relate to his services to the Company as a consultant.

On May 4, 2015, the Company granted Steven C. Jones 225,000 stock options to purchase shares of parent common stock. The options were granted at a price of \$4.78 per share and had a weighted average fair market value of \$1.80 per option. On May 3, 2010, the Company entered into a consulting agreement (the Consulting Agreement) with Steven Jones whereby Mr. Jones would continue to provide consulting services to the Company in the capacity of Executive Vice President of Finance. The Consulting Agreement had an initial term from May 3, 2010 through April 30, 2013, which initial term automatically renewed for additional one (1) year periods unless either party provided notice of termination at least three (3) months prior to the expiration of the initial term or any renewal term. In addition, the Company had the right to terminate the Consulting Agreement by giving written notice to Mr. Jones one (1) year prior to the effective date of termination. Mr. Jones had the right to terminate the Consulting Agreement by giving written notice to the Company three (3) months prior to the proposed termination date, provided, however, Mr. Jones is required to provide an additional three (3) months of transition services to the Company upon reasonable request by the Company. The Consulting Agreement specified an annual base retainer compensation of \$180,000 per year, which was subsequently increased to \$200,000 per year in February 2011 and to \$210,000 per year in April 2012. In January 2013 Mr. Jones annual retainer was increased to \$250,000 per year. The Company also agreed that it would issue to Mr. Jones a warrant to purchase 450,000 shares of the Company's common stock. The warrant has a seven year term, an exercise price of \$1.50 per share, the ability to do a cashless net exercise, and a vesting schedule as follows:

ended May 31, 2011 and continuing until the month ending March 31, 2012 and 4,699 warrant shares vested on April 30, 2012.

iii) 112,500 of such warrant shares vested based on the Company meeting certain financial goals. As of December 31, 2014, all 450,000 warrants were fully vested, the warrants were sold to a third party in September of 2016.

On November 4, 2016, the Company entered into an amended and restated consulting agreement (the Amended and Restated Consulting Agreement) with Steven Jones. The Amended and Restated Consulting Agreement has an initial term of November 4, 2016 through April 30, 2020, which initial term automatically renews for additional one year periods unless either party provides notice of termination at least three months prior to the expiration of the initial term or any renewal term. In addition, the Company has the right to terminate the Amended and Restated Consulting Agreement by giving written notice to the Consultant the year prior to the effective date of termination. The Consultant has the right to terminate the Amended and Restated Consulting Agreement by giving written notice to the Company three months prior to the proposed termination date, provided, however, the Consultant is required to provide an additional three months of transition services to the Company upon reasonable request by the Company. The Amended and Restated Consulting Agreement specifies monthly base retainer compensation of \$21,666.66 per month until April 30, 2017; \$15,000.00 per month from May 1, 2017 until April 30, 2018; \$12,500.00 per month from May 1, 2018 until April 30, 2019; and \$10,000.00 per month thereafter. The Consultant is also eligible to receive a cash bonus based on the achievement of certain performance metrics with a target of 35% of his base retainer for any given fiscal year. Such bonus is eligible to be increased to up to 150% of the target bonus in any fiscal year in which he meets certain performance thresholds established by the CEO of the Company and approved by the Board of Directors.
