Issuance of Additional Notes

On June 26, 2018, the Company issued an additional \$35 million of 0% convertible senior notes due 2023 (the "Notes") to Merrill Lynch, Pierce, Fenner & Smith Incorporated (the "Initial Purchaser") for resale in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"). The issuance was pursuant to the Initial Purchaser's partial exercise of its over-allotment option granted in the original offering of \$300 million of Notes. The newly issued Notes have the identical terms as the original \$300 million of Notes and are governed by the same Indenture as described in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission (the "SEC") on June 19, 2018.

Additional Convertible Note Hedge and Warrant Transactions

On June 22, 2018, in connection with the partial exercise of the over-allotment option described above, the Company entered into additional convertible note hedge transactions with respect to its common stock (the "Purchased Options"), as well as additional warrant transactions (the "Warrants"), each on the same terms and with the same counterparties as the transactions previously entered into in connection with the original offering of the Notes. The form of the confirmations relating to the Purchased Options and Warrants were attached as Exhibits 10.1 and 10.2, respectively, to the Company's previous Current Report on Form 8-K filed with the SEC on June 19, 2018 and are each incorporated herein by reference.

The Company paid an aggregate amount of approximately \$9.6 million for the Purchased Options. The Purchased Options cover, subject to anti-dilution adjustments that are intended to be substantially identical to those in the Notes, 180,740 shares of the Company's common stock at a strike price that corresponds to the initial conversion price of the Notes, also subject to adjustment, and are exercisable upon conversion of the Notes. The Purchased Options are intended to reduce the potential dilution impact resulting upon conversion of the Notes in the event that the market value per share of the Company's common stock, as measured under the Notes, at the time of exercise is greater than the conversion price of the Notes.

The Purchased Options are separate transactions, entered into by the Company with the counterparties, and are not part of the terms of the Notes. Holders of the Notes will not have any rights with respect to the Purchased Options.

The Warrants are initially exercisable for 180,740 shares of the Company's common stock at a strike price of \$309.84 per share, also subject to adjustment. The Company received aggregate proceeds of approximately \$5.3 million from the sale of the Warrants. If the market value per share of the Company's common stock, as measured under the Warrants, exceeds the strike price of the Warrants, the Warrants will have a dilutive effect on the Company's earnings per share.

The Warrants were sold in private placements to the counterparties pursuant to the exemptions from the registration requirements of the Securities Act afforded by Section 4(a)(2) of the Securities Act. The Warrants are separate transactions, entered into by the Company with the counterparties, and are not part of the terms of the Notes. Holders of the Notes will not have any rights with respect to the Warrants.
