- Net Interest Income Non Interest	1,285	1,310	(25)	874	411	463
% Adjusted on Average Assets	7.8	9.3	-	8.2	7.5	-

In the comparison between **1H07** and **1H06**, the R\$798 million Adjusted Net Interest Income appreciation was due to:

- a R\$823 million increase in the result from interest income operations, mainly driven by the expansion in the volume of operations; and
- mitigated by the R\$25 million drop in non-interest income, resulting basically from higher Securities and Treasury gains in 1H07.

In the comparison between **2Q07** and **1Q07**, the R\$685 million growth was:

- basically originated from the non-interest income, with a R\$463 million increase due to higher Securities and Treasury gains; and
- due to the growth in the interest income operations, in the amount of R\$222 million, due to the growth in the volume of operations.

Fee Income

Below we show the breakdown and the variations of the fee income, in the respective periods:

	R\$ million					
	1H07	1H06	Variation %	2Q07	1Q07	Variation %
Checking Account	1,157	1,005	15.1	583	574	1.6

Total	5,168	4,131	25.1	2,609	2,559	2.0

The growth of the fee income was originated:

- by the increase in the volume of operations;
 - by the result with the segmentation process; and
 - by the consolidation of Amex Brasil as of **2H06**.
-

Personnel Expenses

We present below the breakdown and variations of personnel expenses, in the respective periods:

	R\$ million					
	1H07	1H06	Variation %	2Q07	1Q07	Variation %
Structural	2,634	2,447	7.6	1,369	1,265	8.2

Total	3,109	2,888	7.7	1,649	1,460	12.9

In the comparison between **1H07 and 1H06**, the R\$221 million variation was derived from:

- the increase in payroll coming from the 2006 collective bargaining agreement (3.5%);
- higher expenses with PLR (profit sharing) in the amount of R\$68 million;
- the consolidation of Amex Brasil and Fidelity R\$77 million; and
- mitigated by lower expenses with provisions for labor proceedings in the amount of R\$44 million.

In the comparison between **2Q07 and 1Q07**, the R\$189 million variation was derived from:

- the increase in expenses of provisions for labor proceedings R\$73 million;
- the lower vacation concentration in **2Q07** of R\$48 million; and
- higher expenses with profit sharing (PLR) R\$10 million.

Other Administrative Expenses

We show below the breakdown and the variations of other administrative expenses, in the respective periods:

	R\$ million

Up to June 2007, the client base grew by 10.9% compared to June 2006, totaling 19.198 million clients. Compared to the previous quarter, we had a 2.2% expansion.

The insurance market share is 24.5% .

Technical Provisions totaled R\$52.900 billion in June 2007, a 36.4% share of the entire Brazilian market.

In the insurance segment, according to information disclosed by Susep and ANS, Bradesco Seguros collected, up to May 2007, R\$6.6 billion in premiums and maintained the ranking leadership with a 24.5% market share. In the same period, R\$26.9 billion in premiums was collected by the insurance sector.

Bradesco Saúde

Comparing June 2007 with the same period of the previous year, Bradesco Saúde continues to maintain an outstanding position in the corporate segment (source: ANS – Brazilian Agency of Supplementary Health). More and more companies consider Health and Dental Insurance as the best alternatives for their medical, hospital and dental assistance. Currently, Bradesco Saúde has more than 2.7 million clients, and 2.4 million of which belong to the corporate segment.

The large share of corporate insurance in the total portfolio of Bradesco Saúde (89.8% in June 2007) represents the high specialization and personalization level of the Insurance Company in the assistance to the this type of insurance, which is the main competitive advantage in the current market of Supplementary Health.

More than 15 thousand companies in Brazil have insurance of Bradesco Saúde. Out of the 100 largest companies in Brazil, in sales result, 32 of them are clients of the Insurance Company. It is worth pointing out that 28% of the 50 largest companies are clients of Bradesco Saúde.

In the 1st half of 2007, the new version of SIGE Managerial Information System of the Stipulator was implemented, an important tool for the management of health and dental insurance of corporate clients of Bradesco Saúde.

Bradesco Auto/RE

Up to June 2007, Bradesco Group maintained an outstanding position among the main insurance companies of the Brazilian Insurance Market of Basic Lines, with a share in the global revenue of the market of 7.6% of the total.

The Transportation segment continues to be the main focus, with important investments for the leverage of new businesses, mainly the qualification of Transportation Product Managers, who will be based in the main economic centers of Brazil, and the creation of Bradesco Cargo System, a complete Transportation Insurance Management System on the Internet.

In the mass insurance area of Basic Lines, whose insurance is focused on individual clients, self-employed persons and small and medium-sized companies, the launch of new products and the continuous improvement of processes and systems have contributed to the growth of the client base, mainly in residential and equity insurance, such as Bradesco Seguro Residencial and Bradesco Seguro Empresarial. These products were reformulated and a new issuance system through the Internet was developed, providing more agility and efficiency in the contracting process.

In the Auto/RCF Segment, despite the strong competition, the Insurance Company has increased the client base, mainly due to the creation of products targeted at specific publics, such as: Bradesco Seguro Exclusivo Cliente Bradesco, for account holders of Banco Bradesco; Auto Mulher, for women; and Auto Corretor, for Insurance Brokers.

One of the positive factors for the second half of 2007 is the growth of sales of new vehicles, which contribute to the increase of the insurance production of this segment.

The share of Grupo Bradesco Seguros in the Auto/RCF portfolio of the market, in May 2007, was 13.3% .

Bradesco Vida e Previdência

Thanks to its solid structure, the policy of innovative products and the trust conquered in the market, Bradesco Vida e Previdência maintained the leadership in the two markets it operates, with a 38.2% share in the revenue of private pension plans and VGBL and 15.3% of the life and personal accident insurance premiums.

It is also a leader in VGBL plans, with a 41.3% share, and in PGBL plans, with a 29.1% share (sources: SUSEP Superintendence of Private Insurance and FENAPREVI Brazilian Federation of Private Pension Plans and Life, respectively Data of May 2007).

The number of clients of Bradesco Vida e Previdência reached in June 2007 a 16.2% growth compared to June 2006, exceeding 1.8 million participants of the private pension plans and VGBL and 10.1 million of life and personal accident insurance holders. This expressive growth was pushed by the strength of the Bradesco Branch and by the commercialization and management policies.

The technical provisions, in June 2007, totaled R\$45.4 billion, with a 20.9% increase compared to June 2006. The Private Pension Plan and VGBL Investment Portfolio, in May 2007, totaled R\$45.6 billion, responsible for 41.5% of the resources of the market.

Bradesco Capitalização

We highlight the material performance of social-environmental products such as Pé Quente Bradesco SOS Mata Atlântica which, in addition to allowing the formation of a financial reserve, contributes to reforestation projects of Fundação SOS Mata Atlântica, Pé Quente Bradesco GP Ayrton Senna, whose competitive advantage is the allocation of a percentage of the amount collected with the certificated savings plans to social projects of Instituto Ayrton Senna and O Câncer de Mama no Alvo da Moda. By acquiring this product, the client contributes to the development of projects of prevention, early diagnostic and treatment of the cancer in Brazil, for part of the amount collected goes to IBCC Brazilian Institute of Cancer Control.

The portfolio of active certificated savings plans increased from 13.4 million recorded in June 2006 to 14.4 million in June 2007. Out of this total, 68.9% are represented by certificated savings plans of the type assignment of draw right , such as Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa etc. Given that the purpose of this type of certificated savings plan is to add value to the product of the partner company, or even encourage the payment of its clients, the certificated savings plans have reduced effectiveness term and grace period and low unit commercialization value.

Highlights of the Market Relations Department**Investor Relations Area**

In the 2nd quarter we participated in 3 Road Shows Abroad (Chile/Argentina; Dubai/Abu Dhabi; Chicago/Montreal/Toronto); 1 Event in New York and 1 in California, in addition to the Event Bradesco Day in London.

APIMECs (meetings held by the Brazilian Association of Capital Markets Investment Analysts and Professionals) were carried out in the cities of Uberlândia, Florianópolis and Curitiba.

Social-environmental Area**3rd Bradesco Meeting of Suppliers**

In May this year, Bradesco carried out the 3rd Meeting of Suppliers, which gathered more than 100 suppliers of products and services of the most different segments: from furniture to security companies. The purpose of the event is to present to suppliers Bradesco's social-environmental guidelines, showing the actions of the Bank towards the social-environmental area and informing what the Organization expects from them concerning this aspect. Jointly with other support actions and guidance, the meeting aims to help suppliers to incorporate social-environmental responsibility to their every day work. The commitment to the adoption of social-environmental guidelines outlined by Bradesco is an important fact for the contracting of new suppliers and for the continuity of already existing contracts. New events will be carried out semiannually. Bradesco's goal is to reach, in two years, all its 1.5 thousand suppliers. The next meeting will be carried out in November 2007.

Launch of leasing for basic sanitation projects

Bradesco and Biosistemas, a company specialized in technology for the treatment of waters and industrial and urban liquid effluents, based in São Paulo, entered into a partnership to facilitate the access to new basic sanitation technologies. By the agreement, the Bank created a special leasing line, providing clients with special conditions in the financing of projects for the implementation of water (ETA) and sewerage treatment stations (ETE) in companies, residential and commercial condominiums or in other places where this environmental measure is necessary to preserve natural resources.

The line offers a term that may range from 36 to 60 months, with a grace period of up to five months for the payment of the first installment. Upon the payment, the contracting party enjoys the installed structure, becoming its definite owner at the end of the agreement period.

Other Highlights of the Quarter

Partnerships entered into in the Credit Card segment: with O Boticário, a cosmetics company with more than 2,400 stores in Brazil and Abroad, for the launch of O Boticário Visa Credit Card; and **with Drogasil**, a drugstore chain with more than 180 stores distributed in several Brazilian States, with the purpose of issuing and managing Drogasil Visa Credit Cards.

The first half of 2007 shows that the economy will continue to be strong until the end of the year
(Comments from the Economic Research and Studies Department)

The economy showed unequivocally an important recovery of the activity, businesses and investments. Families and companies, more confident in the future, provided a growth in the demand of 12.7% compared to last year (increased retail including cars) and there are not visible elements that indicate that in the second half of 2007 this growth will be interrupted. Based on this scenario, the end of the year may be innovative in terms of sales in the commerce and loans play an important role in this recent dynamism. At the end of June, the loan portfolio to individuals in Brazil had a growth of 27.7% and of 21.4% to companies, in the last 12 months. These rates should not significantly decrease until the end of the year.

The financing terms do not stop expanding. The dynamics of the job market will lead to an unemployment rate, which will be the lowest one of the last 6 years (9.6%) . Thus, total loan already represents 32.3% of the GDP and should continue to growth until the end of the year reaching 34.3% of the GDP. Thus, we work with an estimated GDP growth of 4.9% in the year.

Surprisingly, inflation is under control in this context and we should close the year with a 3.5% rate, therefore, below the government target. Expectations are also well grounded. The explanation for that is the fact that the favorable foreign sector has ensured a good contribution of the foreign exchange of imports to inflation. In addition, our researches suggest that a wide cycle of investments more and more diversified in terms of sector is in progress. Supply is expanding despite infrastructure deficiencies. The increase in productivity, jointly with the greater managerial efficiency of companies, both in the industry and in services, avoid strong pressures by recomposition of the margin of companies. We work with the expectation of the foreign exchange rate around R\$1.80/US\$ at the end of this year, due to a very significant flow of direct foreign investments which may amount to around US\$50 billion in gross terms and trade balance of around US\$42 billion.
