Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three and nine months ended September 30, 2007 and 2006 (unaudited)

### 1.

#### **Basis of presentation:**

The accompanying interim unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by the United States generally accepted accounting principles for a complete set of annual consolidated financial statements.

In the opinion of management, all adjustments (consisting solely of normally recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine month period ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007 or for any other period.

For further information, refer to the consolidated financial statements and footnotes thereto included in Unity Wireless Corporation's (the Corporation) annual report on Form 10-KSB for the year ended December 31, 2006. Except as indicated in note 2(c), the accounting policies applied in the preparation of these interim consolidated financial statements are consistent with those applied in the consolidated financial statements filed with the Corporation's annual report.

These financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been significantly financed by short-term and long-term debt and equity transactions. At September 30, 2007, the Corporation requires additional financing to continue to operate at current levels through the next year. Accordingly, the Corporation's future operations are dependent upon the identification and successful completion of additional long-term or permanent debt and equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that the Corporation will be successful. If it is not, the Corporation will be required to reduce operations or liquidate assets. The Corporation will continue to evaluate its projected expenditures relative to its available cash and to seek additional means of financing in order to satisfy its working capital and other cash requirements. The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Corporation be unable to continue as a going concern.

**Significant accounting policies:**

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America using the same accounting policies and methods of application as those disclosed in the Corporation's financial statements for the year ended December 31, 2006.

(a) Use of estimates:

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, particularly the recoverability of inventory, equipment, intangible assets and goodwill, and liabilities (particularly product warranty) and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(b) Comparative figures:

Certain comparative figures have been reclassified to conform to the presentation adopted in the current year.

(c) Shipping and handling costs:

The Corporation's costs associated with shipping and handling engineering product items to the Corporation's customers are included in the research and development expenses.

(d)

Recent accounting pronouncement:

Effective January 1, 2007, the Company adopted FASB Interpretation No. 48 (FIN 48) entitled "Accounting for Uncertainty in Income Taxes - An interpretation of FASB Statement No. 109". This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company evaluated

all the tax positions in accordance with FIN 48 and determined that there is no impact to our financial statements. The Corporation's policy is to recognize interest and penalties expense as a component of interest expense in the statement of operations. As of the date of adoption of FIN 48, the Corporation did not have any penalties or tax-related interest, and there was no tax-related interest or penalties recognized during the nine months ended September 30, 2007.

Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three and nine months ended September 30, 2007 and 2006 (unaudited)

(d)

Recent accounting pronouncement (continued):

As a result of the implementation of FIN 48, the Corporation performed a review of its uncertain tax positions in accordance with recognition standards established by FIN 48. Based on its review, the Corporation concluded that there are no significant unrecognized tax positions requiring recognition in the Corporation's financial statements. The Corporation does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

We conduct business globally and, as a result, file one or more income tax returns in the U.S. federal jurisdiction and various state and non-U.S. jurisdictions. In the normal course of business we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as Canada, Israel and the United States. The open tax years for these jurisdictions include 2002 to 2006. While it is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position, the Corporation does not believe that the resolution of any such issue would have a material effect on the Corporation's financial position. The resolution of any matter would be recognized as an adjustment to its provision for income taxes in the period of resolution.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FAS 115" ("SFAS No. 159"). SFAS No. 159 allows companies to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007 and will be applied prospectively. The Corporation is currently evaluating the impact of adopting SFAS No. 159 on its consolidated balance sheet, result of operations and cash flows.

a) On June 8, 2006, the Corporation through its wholly owned subsidiary, Unity Wireless Microwave Systems Ltd. ( UW Microwave ) acquired Avantry Ltd. ( Avantry ). Avantry specializes in offering a comprehensive transmission product line of integrated microwave radio and optical transport systems for carrying flexible combinations of voice and data traffic.

Under the terms of the Merger Agreement, the Corporation acquired the net assets of Avantry in exchange for \$1,750,000 of convertible promissory notes that are convertible into common stock at \$0.25 per share and warrants to purchase an aggregate of 600,000 shares of common stock at an exercise price of \$0.40. The convertible promissory notes and related warrants have been valued at their fair value of \$1,755,147.

The transaction has been accounted for as a business combination by the purchase method, with Unity Wireless Corporation identified as the acquirer. The Corporation's consolidated statements of operations and comprehensive loss include the operating results of Avantry Ltd. from June 8, 2006, the date of acquisition.

b) On July 3, 2006, the Corporation through its wholly owned subsidiary, Unity Wireless Acquisition Corporation ( UW Acquisition ) acquired Celerica Inc. ( Celerica ). Celerica specializes in extending RF coverage and optimizing network capacity distribution of mobile communications in urban, suburban and rural areas, using optical wireless, fiber optics and microwave technology.

Under the terms of the merger agreement, the Corporation acquired the net assets of Celerica in exchange for 20,000 shares of Series A convertible non-redeemable preferred shares. The preferred shares have been valued at a fair value of \$2,000,000 based on multiplying the Corporation's common shares market price as of the closing date of the acquisition by the number of common stock issuable upon conversion. On April 25, 2007, the Series A convertible non-redeemable preferred shares were converted into 20,000,000 common shares.

The transaction has been accounted for as a business combination by the purchase method, with Unity Wireless Corporation identified as the acquirer. The Corporation's consolidated statements of operations and comprehensive loss include the operating results of Celerica Inc. from July 3, 2006, the date of acquisition.

c)

On August 17, 2006, the Corporation acquired Celletra Ltd. ( Celletra ). Celletra specializes in technology that provides wireless operators with solutions to achieve

optimal coverage and to improve coverage and capacity of existing cells

Under the terms of the purchase agreement, the Corporation acquired the net assets of Celletra in exchange for 70,000 shares of Series B convertible non-redeemable preferred shares and contingent consideration of 20,000 shares of Series B convertible non-redeemable preferred shares and warrants to purchase 40,000,000 shares of common stock at a prices between \$0.20 and \$0.30 expiring August 17, 2009 (or 40,000 shares of Series B Convertible Shares should there not be sufficient authorized shares of common stock). The contingency was met in 2006 and the contingent consideration was issued in 2006.

The 90,000 preferred shares have been valued at a fair value of \$9,000,000 based on multiplying the Corporation's common share market price as of the closing date of the acquisition by the number of common stock into which the preferred stock is convertible. The warrants have been valued at a fair value of \$2,026,533 calculated using the Black-Scholes option-pricing model with the following weighted-average assumptions: no dividend yield; volatility of 108%; a risk-free interest rate of 4.01% and expected term of 3 years.

The transaction has been accounted for as a business combination by the purchase method, with Unity Wireless Corporation identified as the acquirer. The Corporation's consolidated statements of operations and comprehensive loss include the operating results of Celletra Ltd. from August 17, 2006, the date of acquisition.

	\$	11,055,262

The goodwill allocated on the acquisition will not be deductible for tax purposes.

The Company finalized the purchase price allocation in the third quarter of 2007 resulting in no change from the preliminary allocation.

At the request of the Celletra shareholders 5% of the total preferred share consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of Unity common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If the target share price is met, the shares would be distributed. If this milestone is not achieved the shares will be returned back to the selling

shareholders of Celletra. These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%) shareholders of Unity. In accordance with FAS 123(R), the Corporation has calculated the fair value of compensation relating to these shares that may be issued to current and former employees, to be \$450,000 and has amortized the amount on a straight line basis over one year.

**10. Employee s rights upon retirement:**

Under Israeli law and labor agreements, the Corporation s Israel subsidiaries are required to pay severance benefits to its dismissed employees and employees leaving its employment under certain circumstances. The liability for severance benefits is covered mainly by deposits with insurance companies in the name of the employee and / or by purchase of insurance policies. The liability is calculated on the basis of the latest salary of the employee multiplied by the number of years of employment as of the balance sheet date. The provision for employee severance benefits included in the balance sheet represents the total liabilities for such severance benefits, while the amounts funded for severance benefits included as an asset in the balance sheet represents the Corporation s Israeli subsidiaries contributions to severance pay funds and to insurance policies.

Severance expense for the nine-month period ended September 30, 2007 was \$19,000 (2006 - \$31,000).

**Contingent liabilities:**

(a)

The Corporation is currently a party to three actions in the Supreme Court of British Columbia, Vancouver Registry, brought by three different suppliers of the Corporation for approximately \$620,000 in total.

The Corporation provides for costs related to contingencies when a loss is probable and the amount is reasonably determinable. It is the opinion of management, based in part on advice of legal counsel, that the ultimate resolution of these contingencies, to the extent not previously provided for, will not have a material adverse effect on the financial condition of the Corporation.

(b)

Contingent liability on sale of products:

(i)

Under a license agreement, the Corporation is committed to make royalty payments based on the sales of products using certain technologies. Royalties are calculated based on 5% to 6% of sales of licensed products sold integrating the XNN Technology into various products to a minimum of \$150,000 within twelve months subsequent to the first commercial sales of the integrated product. No such sales have occurred to September 30, 2007.

(ii)

Under an agreement with the Government's National Research Council Canada IRAP ( IRAP ) program, the Corporation received conditionally repayable government assistance amounting to \$480,990 (CDN\$483,491) to support the development of a multi-carrier linear power amplifier. Under the terms of the agreement, an amount up to a maximum of \$721,485 (CDN\$725,236) is to be repaid at a rate of 1.5% of quarterly gross revenue commencing on September 1, 2003, on a quarterly basis. For the nine-month period ended September 30, 2007, the Corporation recorded \$31,082 (CDN\$33,966) as royalties expense and \$58,386 (CDN\$66,545) in 2006.

(iii)

Under an agreement with the Canada Israel Industrial Research & Development Foundation, the Corporation is eligible to receive conditionally repayable government assistance amounting to \$348,189 (CDN\$350,000) to support the development of a multi-carrier linear power amplifier. As at December 31, 2005, the Corporation had received the entire assistance which had been recorded as government grant income as a reduction of expenses incurred. Under the terms of the agreement, commencing with the first commercial transaction, the assistance is repayable to the extent of 2.5% of yearly gross sales until 100% of the grant has been repaid. As of September 30, 2007, the Corporation has not yet commenced the commercialization of such product, and thus no repayment is required.

Contingent liability on sale of products (continued):

(iv)

The Corporate Israeli s subsidiaries were granted by Canada Israel Industrial Research & Development Foundation ( CIIRDF ) and by the Office of the Chief Scientist of the Israeli Ministry of Industry and Trade (the OCS ) approval for CIIRDF grants and OCS participation in the cost of several research programs. In return, the Corporate Israeli s subsidiaries are committed to pay royalties at a rate of 3% to 5% of the sales of the approved products, up to 100% of the amount of the grants received, with the addition of interest at LIBOR. Under certain conditions, the Corporate Israeli s subsidiaries commitment to pay royalties at the rates mentioned above and the total obligation for royalties shall increase. The Corporate Israeli s subsidiaries are committed to pay increased royalties for income derived from the above mentioned sale of rights.

The grants are deducted from research and development expenses. The Corporate Israeli s subsidiaries are entitled to the grants only upon incurring research and development expenditures. The Corporate Israeli s subsidiaries are not obliged to repay any amount received from the OCS if the research effort is unsuccessful or if no products are sold. However, under certain limited circumstances, the OCS may withdraw its approval of a research program or amend the terms of its approval. Upon withdrawal of approval, the Corporate Israeli s subsidiaries may be required to refund the grants, in whole or in part, with or without interest, as the OCS determines.

The maximum amount that could be repaid under this program for royalties, based on royalty-bearing government participation, totaled approximately \$17,300,000 as of September 30, 2007. For the nine-month period ended September 30, 2007, the Corporation recorded \$284,000 (2006 19,001) as royalty expense in its statement of operations.

Such amount excludes potential increase resulting from the above mentioned sale of rights.

Contingent liability on sale of products (continued):

(v) Avantry received government grants from the Fund for the Encouragement of Marketing Activities Abroad ( The Fund ) as participation in the funding of an approved marketing plan for 2002. Avantry is committed to pay royalties to the Israeli Government at a rate of 4% of the increase in sales per year up to 100% of the amount of the grants received, with the addition of interest at LIBOR, computed on the increase in export sales beginning with the end of the first year after the year of the approved plan. These payments will continue until the grants are fully repaid.

Under certain limited circumstances, the Fund may withdraw its approval of the marketing plan. Upon withdrawal of approval, Avantry may be required to refund the grants, in whole or in part, with or without interest, as the Fund determines.

The aggregate potential liability in respect of the said grants on September 30, 2007 amounts to \$72,000.

(c)

Product warranties:

The Corporation provides for estimated warranty costs at the time of product sale. Warranty expense accruals are based on best estimate with reference to historical claims experience. Since warranty estimates are based on forecasts, actual claim costs may differ from amounts provided. An analysis of changes in liability for product warranties follows:

## **Item 2. Management's Discussion and Analysis or Plan of Operation**

The following discussion of the financial condition, changes in financial condition, and results of operations of Unity Wireless Corporation should be read in conjunction with our most recent financial statements and notes appearing: (1) in this Form 10-QSB; and (2) the Form 10-KSB for the year ended December 31, 2006 filed on April 17, 2007.

The financial statements have been prepared on the going concern basis under which an entity is assumed to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been primarily financed by borrowing and equity transactions. Our future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that we will be successful. If we are not, we will be required to reduce operations or liquidate assets. We will continue to evaluate our projected expenditures relative to our available cash and to seek additional means of financing in order to satisfy our working capital and other cash requirements. The auditors' report on the audited consolidated financial statements for the fiscal year ended December 31, 2006 contained in the 10-KSB filed on April 17, 2007, includes an explanatory paragraph that states that as we have suffered recurring losses from operations, substantial doubt exists about our ability to continue as a going concern. The audited consolidated financial statements or the interim quarterly unaudited consolidated financial statements included with this quarterly report do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

### ***Forward-Looking Statements***

This quarterly report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "CDN\$" refer to Canadian dollars and all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our", and "Unity" mean Unity Wireless Corporation, unless otherwise indicated.

*Results of Operations*

**Three-month period ended September 30, 2007 and 2006:**

**Sales and Cost of Goods Sold**

Sales for the three-month period ended September 30, 2007 were \$1,074,690, a decrease of 29% or \$443,167, from \$1,517,857 for the three-month period ended September 30, 2006. In both our historical product lines and new product lines obtained through acquisitions, we have seen a greater diversification in our customer base and geographical areas where the company is now selling its expanded product offerings. However, in this specific quarter, the decrease was primarily due to fluctuations in the delivery of our production volume projects to our customers.

Cost of goods sold during the three-month period ended September 30, 2007 was \$886,358 resulting in a gross margin of \$188,332 or 18% of sales, compared to \$1,098,499 for the three-month period ended September 30, 2006 resulting in a gross margin of \$419,358 or 28% of sales.

The decrease in gross margin is largely attributed to lower revenue levels resulting in less bill of material margin generated and available to cover fixed production related costs.

To the extent that costs are incurred in manufacturing products and have been determined by management to be due to engineering issues these costs have been charged to research and development expenses.

**Operating Expenses**

***Research and Development***

Research and development expenses for the three-month period ended September 30, 2007 were \$1,455,765, an increase of \$731,830 or 101%, from \$723,935 for the three-month period ended September 30, 2006. This increase was primarily the result of:

-

Additional research and development expenses from the three acquired companies (Avantry, Celerica, & Celletra) which had only become part of the group as of the comparative prior period:

-

Product material costs, of approximately \$625,000, required to manufacture products where the engineering process of the products was being done parallel to the production in order to fulfill certain customers expedited orders for specific equipments in both India and Russia. It is anticipated that there will be an ongoing order stream from these new, large, key accounts, including Motorola, Nokia and Ericsson.

-

Recording \$235,293 as a write-down of raw materials to be used in research and development due to obsolete inventory during the three-month period ended September 30, 2007.

***Sales and Marketing***

Sales and marketing expenses for the three-month period ended September 30, 2007 were \$277,600, a decrease of \$266,431, or 49%, from \$544,031 for the three-month period ended September 30, 2006. This decrease was primarily the result of the completion of restructuring in 2006 which reduced the number of employees in the sales and marketing department.

***Royalty payments for government grants***

Royalty payments for government grants for the three-month period ended September 30, 2007 were \$30,389, a decrease of \$785, from \$31,174 for the three-month period ended September 30, 2006. This decrease was primarily the result of the decrease in the sales volume.

***Depreciation and Amortization***

Depreciation and amortization expenses for the three-month period ended September 30, 2007 were \$836,426, an increase of \$416,982, from \$419,444 for the three-month period ended September 30, 2006. This increase was primarily the result of the amortization of the intangible assets recorded relating to the acquired companies in 2006. During the three-month period ended September 30, 2007, the Corporation recorded \$738,910 as the amortization of the intangibles.

***Foreign exchange Loss***

Foreign exchange loss for the three-month period ended September 30, 2007 was \$89,476, an increase of \$83,956, from \$5,520 for the three-month period ended September 30, 2006 due to fluctuations in the currency exchange rate between the U.S. and Canada.

***Interest Expense***

Interest expense for the three-month period ended September 30, 2007 increased by \$192,952 to \$377,124 from \$184,172 for the three-month period ended September 30, 2006. This increase was primarily the result of the increase in interest expense from the issuance of convertible debentures in February and December of 2006.

***General and Administrative***

General and administrative expenses for the three-month period ended September 30, 2007 increased by 4% to \$818,552, an increase of \$68,844, from \$749,708 for the three-month period ended September 30, 2006. The change was primarily the result of a reduced headcount due to the restructuring completed in December 2006 offset by an increase in the investors relations activities during the three-month period ended September 30, 2007.

***Share compensation expense***

Celletra's share compensation expenses were \$56,250 for the three-month period ended September 30, 2007. At the request of the Celletra shareholders 5% of the total consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of the Company's common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If this target share price is met, the shares are to be distributed. If this milestone is not achieved the shares will be returned back to the selling shareholders of Celletra. These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%) shareholders of the Company. In accordance with FAS 123(R), the Company has calculated the fair value of compensation relating to these shares that may be issued to current and former employees, to be \$450,000 and has amortized the amount on a straight line basis over one year. The amortization for the three months ended September 30, 2007 was \$56,250. The full amount has been amortized as of September 30, 2007.

**Other Expenses**

***Accretion of Interest and Loss on Debt Settlement***

Accretion of interest and loss on debt settlement for the three-month period ended September 30, 2007 was \$48,031, a decrease of \$14,798, compared to \$62,829 for the three-month period ended September 30, 2006. This decrease was primarily the result of the debt modifications of the convertible notes issued in August 2004, February 2005 and February 2006 which resulted in losses on debt settlements recorded in 2006. The Corporation recorded an amortization of the premium on the convertible notes for \$27,696 against the accretion of interest in the three-month period ended September 30, 2007.

**Loss for the Quarter Ended September 30, 2007**

Loss for the three-month period ended September 30, 2007 increased by 64%, or \$1,497,037, to \$3,846,132, from \$2,349,095 for the three-month period ended September 30, 2006. This increase was primarily the result of the increase in amortization of intangible assets and the additional research and development expenses relating to the acquired companies.

**Nine-month period ended September 30, 2007 and 2006:**

**Sales and Cost of Goods Sold**

Sales for the nine-month period ended September 30, 2007 were \$5,868,115, an increase of 26% or \$1,210,231, from \$4,657,884 for the nine-month period ended September 30, 2006. In both our historical product lines and new product lines obtained through acquisitions we have seen a greater diversification in our customer base and geographical areas where the company is now selling its expanded product offerings.

Cost of goods sold during the nine-month period ended September 30, 2007 was \$4,506,244 resulting in a gross margin of \$1,361,871 or 23% of sales, compared to \$3,577,474 for the nine-month period ended September 30, 2006 resulting in a gross margin of \$1,080,410 or 23% of sales.

The Corporation has been experiencing improved gross margins on mature product lines largely attributed to:

-

Increase in sales, resulting in increased component requirements and the company has been able to negotiate better pricing from its outsourced manufacturer due to the higher purchased volumes;

-

Efficiencies and cost savings have been obtained by centralizing our manufacturing and procurement largely with one outsourced manufacturer;

-

Efficiencies and cost savings have been obtained by centralizing our final testing of products in our China facility where the Company has also been able to benefit from lower payroll costs.

However, on recently introduced product lines the manufacturing efficiencies have not been achieved yet due to set up costs amortized over smaller production runs and lower purchasing power due to purchasing of fewer components.

As a result, the Corporation has realized lower gross margins and a greater amount of costs related to these products has been charged to research and development.

As a result, on average, between the effects of the mature and recently introduced product lines the gross margins have remained constant.

To the extent that costs are incurred in manufacturing products and have been determined by management to be due to engineering issues these costs have been charged to research and development expenses.

### **Operating Expenses**

#### ***Research and Development***

Research and development expenses for the nine-month period ended September 30, 2007 were \$3,537,491, an increase of \$1,921,923 or 119%, from \$1,615,568 for the nine-month period ended September 30, 2006. This increase was primarily the result of:

-

Additional research and development expenses from the three acquired companies (Avantry, Celerica, & Celletra) which had only become part of the group as of the last year comparative period:

-

Product material costs, of approximately \$1,100,000, required to manufacture products where the engineering process of the products was being done parallel to the production in order to fulfill certain customers' expedited orders for specific equipment in both India and Russia. It is anticipated that there will be an ongoing order stream from these new, large, key accounts, including Motorola, Nokia and Ericsson. Such additional costs incurred in manufacturing products due to engineering issues have been charged to research and development.

-

Recording \$423,293 as a write-down of raw materials to be used in research and development due to obsolete inventory during the nine-month period ended September 30, 2007.

### ***Sales and Marketing***

With the additional two new major product lines, and entering into new major markets such as India, Russia, and South East Asia, through the 2006 acquisition processes, our sales and marketing expenses for the nine-month period ended September 30, 2007 were \$1,047,153, an increase of \$48,055, or 5%, from \$999,098 for the nine-month period ended September 30, 2006. This increase was primarily the result of the additional sales initiatives that include additional sales personnel on staff, and additional expenses relating to the acquired businesses also caused the increase in sales and marketing expenses.

### ***Royalty payments for government grants***

Royalty payments for government grants for the nine-month period ended September 30, 2007 were \$315,082, an increase of \$237,695, from \$77,387 for the nine-month period ended September 30, 2007. This increase was primarily the result of the increase in sales during the nine-month period ended September 30, 2007.

### ***Depreciation and Amortization***

Depreciation and amortization expenses for the nine-month period ended September 30, 2007 were \$2,552,126, an increase of \$1,979,081, from \$573,045 for the nine-month period ended September 30, 2006. This increase was primarily the result of the amortization of the intangible assets recorded relating to the acquired companies in 2006. During the nine-month period ended September 30, 2007, the Corporation recorded \$2,216,730 as the amortization of the intangibles.

### ***Foreign exchange Loss***

Foreign exchange loss for the nine-month period ended September 30, 2007 was \$121,658, an increase of \$66,612, from \$55,046 for the nine-month period ended September 30, 2006 due to fluctuations in the currency exchange rate between the U.S. and Canada.

### ***Interest Expense***

Interest expense for the nine-month period ended September 30, 2007 increased by \$419,282 to \$804,567 from \$385,285 for the nine-month period ended September 30, 2006. This increase was primarily the result of the increase in interest expense from the issuance of the convertible debentures in February of 2006 and December of 2006.

### ***General and Administrative***

General and administrative expenses for the nine-month period ended September 30, 2007 rose 30% to \$2,136,983, an increase of \$497,067, from \$1,639,916 for the nine-month period ended September 30, 2006. The change was primarily the result of reduced headcount costs due to the restructuring completed in December 2006 offset by an increase in the investors relations activities during the nine-month period ended September 30, 2007.

***Share compensation expense***

Celletra's share compensation expenses were \$281,250 for the nine-month period ended of September 30, 2007. At the request of the Celletra shareholders 5% of the total consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of the Company's common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If this target share price is met, the shares are to be distributed. If this milestone is not achieved the shares will be returned back to the selling shareholders of Celletra. These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%) shareholders of the Company. In accordance with FAS 123(R), the Company has calculated the fair value of compensation relating to these shares that may be issued to current and former employees, to be \$450,000 and have amortized the amount on a straight line basis over one year. The amortization for the nine months ended September 30, 2007 was \$281,250. The full amount has been amortized as of September 30, 2007.

**Other Expenses**

***Accretion of Interest and Loss on Debt Settlement***

Accretion of interest and loss on debt settlement for the nine-month period ended September 30, 2007 was \$237,049, a decrease of \$1,444,129, compared to \$1,681,178 for the nine-month period ended September 30, 2006. During the three month period ended March 31, 2006, the Corporation entered to an agreement of the modification of the terms of the debentures which were issued in August 2004 and February 2005 which resulted in a total loss on debt settlement of \$1,452,722. No modification of debentures or warrants was made for the nine-month period ended September 30, 2007.

During the nine-month period ended September 30, 2007, the Corporation also recorded \$63,094 as debt conversion inducements related \$81,370 debentures converted to common shares at a conversion ratio of \$0.09 per common share instead of the contractual rate.

**Loss for the nine-month period ended September 30, 2007**

Loss for the nine-month period ended September 30, 2007 increased by 81%, or \$4,330,830, to \$9,678,869, from \$5,348,039 for the nine-month period ended September 30, 2006. This increase was primarily the result of the increase in amortization of intangible assets and the additional research and development expenses relating to the acquired companies.

***Liquidity and Capital Resources***

Since our inception, we have been dependent on investment capital and debt financing as our primary sources of liquidity. We had an accumulated deficit at September 30, 2007 of \$51,786,256. During the nine-month period ended September 30, 2007, we incurred a net loss of \$9,678,869.

During the nine-month period ended September 30, 2007, our cash position was decreased to \$353,977. This decrease was primarily due to the payment of trade payables and the short-term loan.

During the nine-month period ended September 30, 2007, the Corporation issued common shares as follows:

i.

Issue of 7,630,704 common shares on settlement of \$778,164 of accounts payable.

ii.

Issue of 27,839,558 and 5,545,454 units of common shares at a price of \$0.09 and \$0.11, respectively, per unit for gross proceeds of \$3,115,560.

iii.

Issue of 7,360,145 common shares on conversion of \$662,413 convertible notes.

iv.

Issue of 20,000,000 common shares on conversion of \$2,000,000 Series A preferred shares.

During the nine-month period ended September 30, 2007, we purchased \$10,000 in equipment and disposed of \$45,482 of equipment.

Other than leases for premises, leased vehicles and equipment commitments for an aggregate of \$585,221 through 2009, we have no material commitments outstanding at September 30, 2007.

During the nine months ended September 30, 2007 convertible notes amounting to \$1,978,594 and promissory notes amounting to \$274,000 came due. The notes have not been repaid and the Company is currently negotiating new terms with the note holders. The Company is also negotiating new terms with the note holders of promissory notes, amounting to \$460,000, which came due in December 2006. None of the note or debenture holders have demanded repayment at this time.

Subsequent to September 30, 2007, the Corporation obtained an additional revolving line of credit of a maximum of \$2,000,000, which bears interest at LIBOR + 3.0% and is secured by a general floating lien on all of Celletra's assets.

Our capital requirements may increase in light of our current strategy to expand our customer base and to develop new products and technologies. Our operations to date have been primarily financed by sales of our equity securities and debt financing, and, the company's assets are pledged to secure convertible notes that we issued in August 2004, February 2005, March 2005, February 2006 and December 2006. For any additional financing that may be required in the near term, we may be required to obtain the consent of certain of our investors prior to the issuance of our

common stock or common stock equivalents and prior to entering into an agreement to assume certain liabilities.

While convertible notes and warrant purchase Agreements dated August 31, 2004, February 11, 2005, March 24, 2005, February 28, 2006 and December 13, 2006 are outstanding, we cannot declare dividends on our common shares. As of September 30, 2007, we had working capital deficit of \$9,827,060 our operations presently have net cash outflow of \$4,384,837 for the nine-month period ended September 30, 2007. Our ability to continue as a going concern may be dependent upon one or more factors, that may include: our ability obtaining further financing; an increased rate of market acceptance of our current products and any new product offerings that we may introduce; the continuing successful development of our products and related technologies; and achieving a profitable level of operations. Moving forward, although the issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders, obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitment.

Our Auditors' report on our 2006 consolidated financial statements includes an additional explanatory paragraph that states that our recurring losses from operations raise substantial doubt about our ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

### ***Inflation***

We do not believe that inflation has had a significant impact on our consolidated results of operations or financial condition.

### **Item 3. Controls and Procedures**

An evaluation has been carried out under the supervision and with the participation of our management, including our Chief Executive Officer, of the effectiveness of the design and the operation of our "disclosure controls and procedures" (as such term is defined in Rules 13a-15(e) under the Securities Exchange Act of 1934) as of September 30, 2007 ( Evaluation Date ). Based on such evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that, as of the Evaluation Date, the disclosure controls and procedures are reasonably designed and effective to ensure that (i) information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We have identified conditions as of September 30, 2007 that we believe are material weaknesses in internal controls due to a lack of segregation of duties in accounting and financial reporting activities as a result of the limited number of Company employees engaged in the authorization, recording, processing and reporting of transactions. Due to these deficiencies, the Chief Executive Officer performs frequent reviews of financial information to ensure that transactions are properly recorded. There was no change in the Company's internal control over financial reporting during the period ended September 30, 2007, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II - OTHER INFORMATION**

**Items 3, 4, & 5 are not applicable and have been omitted.**

### **Item 1. Legal Proceedings**

Other than as set forth below, we know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

We have been sued in the Supreme Court of British Columbia, Canada, by Getec North America and Getec Industrial Limited ( Getec). The lawsuit was commenced on March 30, 2006. Getec alleges that services provided to Unity Wireless Systems Inc. have not been paid and claim in total \$106,420. We dispute the allegations and are defending the claim and filed a counterclaim. No trial date has been set. The matter is at a very preliminary stage. We do not expect the proceeding to have any material adverse effect on us.

We have been sued in the Supreme Court of British Columbia, Canada, by TRS-Rentelco ( TRS ). The lawsuit was commenced on October 27 2006. TRS alleges that equipment rentals provided to Unity Wireless Systems Inc. have not been paid and claim in total approximately \$450,000. We dispute the allegations and are defending the claim and are planning to file a counterclaim. No trial date has been set. The matter is at a very preliminary stage. We do not expect the proceeding to have any material adverse effect on us.

We have been sued in the Supreme Court of British Columbia, Canada, by Hency Transportation (Canada) Limited ( Hency ). The lawsuit was commenced on June 15, 2007. Hency alleges that services provided to Unity Wireless Systems Inc. have not been paid and claim in total approximately \$70,000. We dispute the allegations and are defending the claim and filed a counterclaim. No trial date has been set. The matter is at a very preliminary stage. We do not expect the proceeding to have any material adverse effect on us.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the nine-month period ended September 30, 2007, the Corporation issued 7,630,704 common shares in settlement of \$778,164 of accounts payable.

During the nine-month period ended September 30, 2007, the Corporation issued 33,385,012 common shares to private investors, in the aggregate principal amount of \$3,115,560, and warrants to purchase 50,077,518 shares of common stock at \$0.10 per share.

In connection with the financing, the Company also issued, as investment banking fees, to Meitav Underwriting Ltd., warrants purchasing 1,413,336 shares of common stock at an exercise price of \$0.10 per share and in the form of the Warrants.

The securities were offered and sold pursuant to the provisions of Regulation S under the U.S. *Securities Act of 1933*.

Subsequent to September 30, 2007, in connection with the establishment of a revolving line of credit, the Company issued 5,555,555 warrants at a price of \$0.09 and an expiry date of five years from the date of issuance.
