INNOVATIVE ACQUISITIONS CORP.

(A Development Stage Company)

NOTES TO UNAUDITED FINANCIAL STATEMENTS

September 30, 2009

Note 1 – Basis of Presentation

The accompanying unaudited interim financial statements of Innovative Acquisitions Corp. (“Innovative”) have been prepared in accordance with the accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (“SEC”) and should be read in conjunction with the audited financial statements and notes thereto contained in Innovative’s Form 10-K filed with the SEC on March 30, 2009. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the period ended December 31, 2008 as reported in Form 10-K have been omitted.

Recently Issued Accounting Pronouncements

Effective for the quarter ended June 30, 2009, the Company implemented ASC 855 , Subsequent Events . This standard establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued. The adoption of ASC 855 did not impact the Company’s financial position or results of operations. The Company evaluated all events or transactions that occurred after September 30, 2009 up through November 16, 2009, the date the Company issued these financial statements. During this period, the Company had no subsequent events.

In July 2009, the FASB issued new guidance relating to the “FASB Accounting Standards Codification” at ASC 105, as the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP). The Codification is effective for interim and annual periods ending after September 15, 2009. All existing accounting standards are superseded as described in ASC 105. All other accounting literature not included in the Codification is nonauthoritative. Management is currently evaluating the impact of the adoption of ASC 105 but does not expect the adoption of ASC 105 to impact the Company’s results of operations, financial position or cash flows.

Note 2 – Going Concern

These financial statements have been prepared on a going concern basis. The Company has not generated any revenue since inception and is unlikely to generate revenue in the immediate or foreseeable future. The continuation of the Company as a going concern is dependent upon financial support from its shareholders, the ability to obtain necessary equity financing and the attainment of profitable operations. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 – Common Stock and Related Party Transactions

The Company received additional cash capital contributions from its directors during the nine months ended September 30, 2009 in the amount of \$15,750. No additional shares of common stock were issued as a result of these capital contributions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statement Notice

Certain statements made in this Quarterly Report on Form 10-Q are "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995) in regard to the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Innovative Acquisitions Corp. ("we", "us", "our" or the "Company") to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this Quarterly Report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

Description of Business

The Company was incorporated in the State of Delaware on April 27, 2007 and maintains its principal executive office at c/o Faraaz Siddiqi, 12 Georgiana Drive, Cumberland, RI 02864. Since inception, the Company has been engaged in organizational efforts and obtaining initial financing. The Company was formed as a vehicle to pursue a business combination through the acquisition of, or merger with, an operating business. The Company filed a Registration Statement on Form 10-SB with the U.S. Securities and Exchange Commission (the "SEC") on September 14, 2007, and since its effectiveness, the Company has focused its efforts to identify a possible business combination.

The Company, based on proposed business activities, is a "blank check" company. The SEC defines those companies as "any development stage company that is issuing a penny stock, within the meaning of Section 3(a)(51) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and that has no specific business plan or purpose, or has indicated that its business plan is to merge with an unidentified company or companies." Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their respective jurisdictions. The Company is also a "shell company," defined in Rule 12b-2 under the Exchange Act as a company with no or nominal assets (other than cash) and no or nominal operations. Management does not intend to undertake any efforts to cause a market to develop in our securities, either debt or equity, until we have successfully concluded a business combination. The Company intends to comply with the periodic reporting requirements of the Exchange Act for so long as we are subject to those requirements.

The Company was organized as a vehicle to investigate and, if such investigation warrants, acquire a target company or business seeking the perceived advantages of being a publicly held corporation. The Company's principal business objective for the next 12 months and beyond such time will be to achieve long-term growth potential through a combination with an operating business. The Company will not restrict its potential candidate target companies to any specific business, industry or geographical location and, thus, may acquire any type of business.

The Company currently does not engage in any business activities that provide cash flow. During the next twelve months we anticipate incurring costs related to:

- (i) filing Exchange Act reports, and
- (ii) investigating, analyzing and consummating an acquisition.

We believe we will be able to meet these costs through use of funds in our treasury, through deferral of fees by certain service providers and additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management or other investors.

The Company may consider acquiring a business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital. In the alternative, a business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital but which desires to establish a public trading market for its shares while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering.

Since our Registration Statement on Form 10-SB went effective, our management has had contact and discussions with representatives of other entities regarding a business combination with us. Any target business that is selected may be a financially unstable company or an entity in its early stages of development or growth, including entities without established records of sales or earnings. In that event, we will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. In addition, we may effect a business combination with an entity in an industry characterized by a high level of risk, and, although our management will endeavor to evaluate the risks inherent in a particular target business, there can be no assurance that we will properly ascertain or assess all significant risks.

The Company anticipates that the selection of a business combination will be complex and extremely risky. Because of general economic conditions, rapid technological advances being made in some industries and shortages of available capital, our management believes that there are numerous firms seeking even the limited additional capital which we will have and/or the perceived benefits of becoming a publicly traded corporation. Such perceived benefits of becoming a publicly traded corporation include, among other things, facilitating or improving the terms on which additional equity financing may be obtained, providing liquidity for the principals of and investors in a business, creating a means for providing incentive stock options or similar benefits to key employees, and offering greater flexibility in structuring acquisitions, joint ventures and the like through the issuance of stock. Potentially available business combinations may occur in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

Liquidity and Capital Resources

As of September 30, 2009, the Company had assets equal to \$50, comprised exclusively of cash. This compares to assets of \$73, comprised exclusively of cash, as of December 31, 2008. The Company's liabilities as of September 30, 2009 totaled \$0. This compares to liabilities of \$2,249 as of December 31, 2008 comprised exclusively of accounts payable. The Company can provide no assurance that it can continue to satisfy its cash requirements for at least the next twelve months.

The following is a summary of the Company's cash flows provided by (used in) operating, investing, and financing activities for the nine months ended September 30, 2009 and 2008 and for the cumulative period from April 27, 2007 (Inception) to September 30, 2009:

	Nine Months Ended September 30, 2009	Nine Months Ended September 30, 2008	April 27, 2007 (Inception) through September 30, 2009
Net cash used in operating activities	\$ (15,773)	\$ (9,585)	\$ (42,700)
Net cash used in investing activities	-	-	-
Net cash provided by financing activities	\$ 15,750	\$ 8,250	\$ 42,750
Net increase (decrease) in cash and cash equivalents	\$ (23)	\$ (1,335)	\$ 50

The Company has nominal assets and has generated no revenues since inception. The Company is also dependent upon the receipt of capital investment or other financing to fund its ongoing operations and to execute its business plan of seeking a combination with a private operating company. In addition, the Company is dependent upon certain related parties to provide continued funding and capital resources. If continued funding and capital resources are unavailable at reasonable terms, the Company may not be able to implement its plan of operations.

Results of Operations

The Company has not conducted any active operations since inception, except for its efforts to locate suitable acquisition candidates. No revenue has been generated by the Company from April 27, 2007 (Inception) to September 30, 2009. It is unlikely the Company will have any revenues unless it is able to effect an acquisition or merger with an operating company, of which there can be no assurance. It is management's assertion that these circumstances may hinder the Company's ability to continue as a going concern. The Company's plan of operation for the next twelve months shall be to continue its efforts to locate suitable acquisition candidates.

For the three and nine months ended September 30, 2009, the Company had a net loss of \$3,308 and \$13,524, respectively, consisting of legal, accounting, audit and other professional service fees incurred in relation to the filing of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008 in March of 2009 and the filing of the Company's Quarterly Reports on Form 10-Q for the quarter ended March 31, 2009 in May of 2009 and for the quarter ended June 30, 2009 in August of 2009.

For the three and nine months ended September 30, 2008 the Company had a net loss of \$3,968 and \$11,834, respectively, consisting of legal, accounting, audit and other professional service fees incurred in relation to the filing of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007 filed in March of 2008 and the filing of the Company's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2008 in May of 2008, June 30, 2008 filed in August of 2008 and September 30, 2008 filed in November of 2008.

For the cumulative period from April 27, 2007 (Inception) to September 30, 2009, the Company had a net loss of \$42,700, consisting of legal, accounting, audit and other professional service fees incurred in relation to the formation of the Company, the filing of the Company's Registration Statement on Form 10-SB in September of 2007, the filing of the Company's Quarterly Reports on Form 10-QSB and Form 10-Q and the filing of the Company's Annual Reports on Form 10-KSB and Form 10-K.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Contractual Obligations

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide this information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this Item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of September 30, 2009, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and our principal financial officer of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Controls

There have been no changes in our internal controls over financial reporting during the quarter ended September 30, 2009 that have materially affected or are reasonably likely to materially affect our internal controls.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

To the best knowledge of our officers and directors, the Company is not a party to any legal proceeding or litigation.

Item 1A. Risk Factors.

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

9

Item 3. Defaults Upon Senior Securities.
