Item 7.01 Regulation FD Disclosure

Oklahoma Natural Gas, a division of ONE Gas, Inc., received approval today from the Oklahoma Corporation Commission (OCC) to change its rates.

The OCC approved a joint stipulation and settlement agreement which was signed by all parties to the rate case and recommended by the administrative law judge to allow an increase in base revenue of \$29,995,000. The agreement set Oklahoma Natural Gas' authorized return on equity at 9.5 percent, which represents the midpoint of the allowed range of 9.0 to 10.0 percent. The agreement includes the continuation, with certain modifications, of the Performance Based Rate Change tariff that was established in 2009.

The settlement agreement approved by the OCC was agreed to by Oklahoma Natural Gas, the Staff of the Public Utility Division of the OCC, the Oklahoma Attorney General and an intervenor group called the Oklahoma Industrial Energy Consumers.

The company estimates that a typical residential consumer will pay \$2.96 per month more for the utility's natural gas delivery service. However, declining natural gas costs potentially could offset some or all of this increase. Low-income customers (those who qualify for federal energy assistance as administered by the Oklahoma Department of Human Services) will experience no increase. The new rates are effective beginning January 6, 2016.

Residential customers who are on Plan B will pay a fixed charge of \$33.57 per month for Oklahoma Natural's delivery service, plus the cost of the natural gas, taxes and certain other fees.

Customers on Plan A will pay a fixed charge of \$16.43 per month and \$4.1143 per dekatherm for delivery, in addition to the cost of the natural gas, taxes and certain other fees.

Oklahoma Natural Gas is the state's largest natural gas utility, serving more than 850,000 customers across the state of Oklahoma.
