DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

**NOTE 1: CONSOLIDATED FINANCIAL STATEMENTS**

The accompanying unaudited condensed consolidated financial statements of Diebold, Incorporated and its subsidiaries (collectively, the Company) have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles (GAAP); however, such information reflects all adjustments (consisting solely of normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of the results for the interim periods.

The condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes contained in the Company's annual report on Form 10-K for the year ended December 31, 2011. In addition, some of the Company's statements in this quarterly report on Form 10-Q may involve risks and uncertainties that could significantly impact expected future results. The results of operations for the three months ended March 31, 2012 are not necessarily indicative of results to be expected for the full year.

**RECENTLY ADOPTED ACCOUNTING GUIDANCE**

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-05, Presentation of Comprehensive Income (ASU 2011-05), which eliminates the option to present components of other comprehensive income (OCI) as part of the statement of changes in stockholders' equity. The amendments in this standard require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Subsequently, in December 2011, the FASB issued ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income (ASU 2011-12), which indefinitely defers the requirement in ASU 2011-05 to present on the face of the financial statements reclassification adjustments for items that are reclassified from OCI to net income in the statement(s) where the components of net income and the components of OCI are presented. The Company has provided the required statements of comprehensive income for the three months ended March 31, 2012 and 2011.

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification 820, Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). ASU 2011-04 changes the wording used to describe many requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Disclosure requirements have been expanded to include additional information about transfers between level 1 and level 2 of the fair value hierarchy and level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. Additionally, ASU 2011-04 clarifies the FASB's intent about the application of existing fair value measurements including: (a) the application of the highest and best use valuation premise concepts; (b) measuring the fair value of an instrument classified in a reporting entity's stockholders' equity; and (c) quantitative information required for fair value measurements categorized within level 3. The adoption of this guidance did not have an impact on the Company's condensed consolidated financial statements; however, the Company provided additional disclosure as required by ASU 2011-04 in note 16.

**RECENTLY ISSUED ACCOUNTING GUIDANCE**

In December 2011, the FASB issued ASU 2011-11, Disclosures about Offsetting Assets and Liabilities, which requires certain additional disclosure requirements about financial instruments and derivatives instruments that are subject to netting arrangements. The new disclosures are required for annual reporting periods beginning on or after January 1, 2013, and interim periods within those periods. The adoption of this update will not have an impact on the

financial statements of the Company.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

## NOTE 2: EARNINGS PER SHARE

Basic earnings per share is based on the weighted-average number of common shares outstanding. Diluted earnings per share includes the dilutive effect of potential common shares outstanding. Under the two-class method of computing earnings per share, non-vested share-based payment awards that contain rights to receive non-forfeitable dividends are considered participating securities. The Company's participating securities include restricted stock units (RSUs), deferred shares and shares that were vested, but deferred by the employee. The Company calculated basic and diluted earnings per share under both the treasury stock method and the two-class method. For the three months ended March 31, 2012, there was no impact in the per share amounts calculated under the two methods. Accordingly, the treasury stock method is disclosed below.

The following represents amounts used in computing earnings per share and the effect on the weighted-average number of shares of dilutive potential common shares for the three months ended March 31:

	2012	2011
Numerator:		
Income used in basic and diluted earnings per share:		
Income from continuing operations, net of tax	\$45,163	\$2,512
Loss from discontinued operations, net of tax	—	(11 )
Net income attributable to Diebold, Incorporated	\$45,163	\$2,501
Denominator (in thousands):		
Weighted-average number of common shares used in basic earnings per share	62,725	65,762
Effect of dilutive shares	608	468
Weighted-average number of shares used in diluted earnings per share	63,333	66,230
Basic earnings per share:		
Net income from continuing operations	\$0.72	\$0.04
Loss from discontinued operations	—	—
Net income attributable to Diebold, Incorporated	\$0.72	\$0.04
Diluted earnings per share:		
Net income from continuing operations	\$0.71	\$0.04
Loss from discontinued operations	—	—
Net income attributable to Diebold, Incorporated	\$0.71	\$0.04
Anti-dilutive shares (in thousands):		
Anti-dilutive shares not used in calculating diluted weighted-average shares	1,596	2,023

(dollars in thousands, except per share amounts)

## NOTE 3: EQUITY

The following table presents changes in shareholders' equity attributable to Diebold, Incorporated and the noncontrolling interests for the three months ended March 31:

	2012	2011
Diebold, Incorporated shareholders' equity		
Balance at beginning of period	\$ 826,986	\$ 961,155
Comprehensive income attributable to Diebold, Incorporated	74,341	17,182
Common shares	686	537
Additional capital	13,013	8,257
Treasury shares	(2,885	) (21,451
Dividends declared	(18,094	) (18,650
Balance at end of period	\$ 894,047	\$ 947,030
Noncontrolling interests		
Balance at beginning of period	\$ 31,274	\$ 28,659
Comprehensive income attributable to noncontrolling interests	794	1,905
Distributions to noncontrolling interest holders	(1,112	) (310
Balance at end of period	\$ 30,956	\$ 30,254

## NOTE 4: SHARE-BASED COMPENSATION

The Company's share-based compensation payments to employees are recognized in the statement of income based on their grant-date fair values during the period in which the employee is required to provide services in exchange for the award. Share-based compensation is recognized as a component of selling and administrative expense. Total share-based compensation expense for the three months ended March 31, 2012 and 2011 was \$3,797 and \$3,435, respectively.

Options outstanding and exercisable as of March 31, 2012 under the Company's 1991 Equity and Performance Incentive Plan (as Amended and Restated as of April 13, 2009) and changes during the three months ended March 31, 2012, were as follows:

	Number of Shares  (in thousands)	Weighted- Average Exercise Price  (per share)	Weighted- Average Remaining Contractual Term  (in years)	Aggregate Intrinsic Value (1)
Outstanding at January 1, 2012	3,201	\$ 36.70		
Expired or forfeited	(400	) \$ 36.70		
Exercised	(331	) \$ 29.93		
Granted	539	\$ 34.89		
Outstanding at March 31, 2012	3,009	\$ 37.12	6	\$ 13,856
Options exercisable at March 31, 2012	1,910	\$ 39.76	4	\$ 7,265
Options vested and expected to vest (2) at March 31, 2012	2,982	\$ 37.16	6	\$ 13,697

(1)

The aggregate intrinsic value (the difference between the closing price of the Company's common shares on the last trading day of the first quarter of 2012 and the exercise price, multiplied by the number of "in-the-money" options) that would have been received by the option holders had all option holders exercised their options on March 31, 2012. The amount of aggregate intrinsic value will change based on the fair market value of the Company's common shares.

- (2) The options expected to vest are the result of applying the pre-vesting forfeiture rate assumption to total outstanding non-vested options.

Table of Contents

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

The following tables summarize information on non-vested RSUs, performance shares and deferred shares for the three months ended March 31, 2012:

	Number of Shares  (in thousands)	Weighted-Average Grant-Date Fair Value
RSUs:		
Non-Vested at January 1, 2012	717	\$ 30.69
Forfeited	(29)	) \$ 29.65
Vested	(130)	) \$ 24.91
Granted	209	\$ 34.97
Non-Vested at March 31, 2012	767	\$ 32.88
Performance Shares (1):		
Non-Vested at January 1, 2012	727	\$ 34.70
Forfeited	(207)	) \$ 30.55
Vested	(86)	) \$ 29.25
Granted	285	\$ 44.25
Non-Vested at March 31, 2012	719	\$ 40.33
Director Deferred Shares:		
Non-Vested at March 31, 2012	19	\$ 33.98
Vested at March 31, 2012	96	\$ 33.88
Outstanding at March 31, 2012	115	\$ 33.90

Non-vested performance shares are based on a maximum potential payout. Actual shares granted at the end of the (1) performance period may be less than the maximum potential payout level depending on achievement of performance share objectives.

## NOTE 5: INCOME TAXES

The effective tax rate on continuing operations for the three months ended March 31, 2012 was 22.7 percent compared to 58.8 percent for the same period of 2011. The 36.1 percentage point decrease was mainly due to 2011 losses in certain Europe, Middle East and Africa (EMEA) jurisdictions for which no tax benefit was recognized in the first-quarter 2011 effective tax rate. The impact was significant on the first-quarter 2011 effective tax rate because these operating losses were relatively large when compared to income from continuing operations before taxes for the period. Additionally, foreign income tax assessments and interest on uncertain tax positions increased the first-quarter 2011 effective tax rate.

## NOTE 6: INVESTMENTS

The Company's investments, primarily in Brazil, consist of certificates of deposit and U.S. dollar indexed bond funds, which are classified as available-for-sale and stated at fair value based upon quoted market prices and net asset values, respectively. Unrealized gains and losses are recorded in OCI. Realized gains and losses are recognized in investment income and are determined using the specific identification method. Realized gains (losses), net from the sale of securities were \$328 and \$(164) for the three months ended March 31, 2012 and 2011, respectively. Proceeds from the sale of available-for-sale securities were \$5,808 and \$7,117 during the three months ended March 31, 2012 and 2011, respectively.

## NOTE 7: ALLOWANCE FOR CREDIT LOSSES

**Trade Receivables** The Company evaluates the collectability of trade receivables based on (1) a percentage of sales related to historical loss experience and current trends and (2) periodic adjustments for known events such as specific customer circumstances and changes in the aging of accounts receivable balances. After all efforts at collection have been unsuccessful, the account is deemed uncollectible and is written off.

**Financing Receivables** The Company evaluates the collectability of notes and finance lease receivables (collectively, financing receivables) on a customer-by-customer basis and evaluates specific customer circumstances, aging of invoices, credit risk changes and payment patterns and historical loss experience. When the collectability is determined to be at risk based on the above criteria, the Company records the allowance for credit losses which represents the Company's current exposure less estimated reimbursement from insurance claims. After all efforts at collection have been unsuccessful, the account is deemed uncollectible and is written off. The following table summarizes the Company's allowance for credit losses and recorded investment in financing receivables:

	Finance Leases	Notes Receivable	Total
Allowance for credit losses			
Balance at January 1, 2012	\$210	\$2,047	\$2,257
Provision for credit losses	—	—	—
Recoveries	15	—	15
Write-offs	—	—	—
Balance at March 31, 2012	\$225	\$2,047	\$2,272
Allowance resulting from individual impairment evaluation	\$225	\$2,047	\$2,272
Allowance resulting from collective impairment evaluation	—	—	—

Edgar Filing: DIEBOLD INC - Form 10-Q

Financing receivables individually evaluated for impairment	\$ 100,819	\$ 14,134	\$ 114,953
Financing receivables collectively evaluated for impairment	—	—	—

The Company records interest income and any fees or costs related to financing receivables using the effective interest method over the term of the lease or loan. The Company reviews the aging of its financing receivables to determine past due and delinquent accounts. Credit quality is reviewed at inception and is re-evaluated as needed based on customer-specific circumstances. Receivable balances 60 days to 89 days past due are reviewed and may be placed on nonaccrual status based on customer-specific circumstances.

Table of Contents

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

Receivable balances are placed on nonaccrual status upon reaching greater than 89 days past due. Upon receipt of payment on nonaccrual financing receivables, interest income is recognized and accrual of interest is resumed once the account has been made current or the specific circumstances have been resolved.

As of March 31, 2012 and December 31, 2011, the recorded investment in past-due finance lease receivables on nonaccrual status was \$2,813 and \$1,740, respectively. The recorded investment in finance lease receivables past due 90 days or more and still accruing interest was \$0 and \$114 as of March 31, 2012 and December 31, 2011, respectively. The recorded investment in impaired notes receivable as of March 31, 2012 and December 31, 2011 was \$2,047 and \$2,047, respectively, and was fully reserved. The following table summarizes the Company's aging of past-due notes receivable balances as of March 31, 2012:

30-59 days past due	\$—
60-89 days past due	—
> 89 days past due	1,564
Total past due	\$1,564

## NOTE 8: INVENTORIES

Major classes of inventories are summarized as follows:

	March 31, 2012	December 31, 2011
Finished goods	\$217,108	\$188,571
Service parts	159,442	152,597
Raw materials and work in process	117,281	99,732
Total inventories	\$493,831	\$440,900

## NOTE 9: OTHER ASSETS

Included in other assets are net capitalized software development costs of \$51,223 and \$51,117 as of March 31, 2012 and December 31, 2011, respectively. Amortization expense on capitalized software of \$4,370 and \$4,576 was included in product cost of sales for the three months ended March 31, 2012 and 2011, respectively. Other long-term assets also consist of patents, trademarks and other intangible assets. Where applicable, other assets are stated at cost and, if applicable, are amortized ratably over the relevant contract period or the estimated life of the assets. Fees to renew or extend the term of the Company's intangible assets are expensed when incurred. Impairment of long-lived assets is recognized when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the expected future undiscounted cash flows are less than the carrying amount of the asset group, an impairment loss may be recognized at that time to reduce the asset to the lower of its fair value or its net book value. Investment in Affiliate Investment in the Company's non-consolidated affiliate is accounted for under the equity method and consists of a 50 percent ownership in Shanghai Diebold King Safe Company, Ltd. The balance of this investment as of March 31, 2012 and December 31, 2011 was \$11,708 and \$11,461 respectively, and fluctuated based on equity earnings and dividends. Equity earnings from the non-consolidated affiliate are included in miscellaneous, net in the condensed consolidated statements of income and were \$247 and \$425 for the three months ended March 31, 2012 and 2011, respectively.

## NOTE 10: DEBT

Outstanding debt balances were as follows:

	March 31, 2012	December 31, 2011
Notes payable:		
Uncommitted lines of credit	\$39,281	\$21,572
Other	144	150
	\$39,425	\$21,722
Long-term debt:		
Credit facility	\$303,000	\$291,000
Senior notes	300,000	300,000
Industrial development revenue bonds	11,900	11,900
Other	3,195	3,254
	\$618,095	\$606,154

As of March 31, 2012, the Company had various international short-term uncommitted lines of credit with borrowing limits of \$110,700. The weighted-average interest rate on outstanding borrowings on the short-term uncommitted lines of credit as of March 31, 2012 and December 31, 2011 was 2.63 percent and 4.23 percent, respectively. The decline in the weighted-average interest rate is attributable to the change in mix of borrowings in foreign entities. Short-term uncommitted lines mature in less than one year. The amount available under the short-term uncommitted lines at March 31, 2012 was \$71,419.

In June 2011, the Company entered into a five-year credit facility, which replaced its previous credit facility. As of March 31, 2012, the Company had borrowing limits under the credit facility totaling \$500,000. Under the terms of the credit facility agreement, the Company has the ability, subject to various approvals, to increase the borrowing limits by \$250,000. Up to \$50,000 of the revolving credit facility is available under a swing line subfacility. The weighted-average interest rate on outstanding credit facility borrowings as of March 31, 2012 and December 31, 2011 was 1.44 percent and 1.49 percent, respectively, which is variable based on the London Interbank Offered Rate (LIBOR). The amount available under the credit facility as of March 31, 2012 was \$197,000.

In March 2006, the Company issued senior notes in an aggregate principal amount of \$300,000 with a weighted-average fixed interest rate of 5.50 percent. The maturity dates of the senior notes are staggered, with \$75,000, \$175,000 and \$50,000 becoming due in 2013, 2016 and 2018, respectively. Additionally, the Company entered into a derivative transaction to hedge interest rate risk on \$200,000 of the senior notes, which was treated as a cash flow hedge. This reduced the effective interest rate from 5.50 percent to 5.36 percent. As of March 31, 2012, although it is due within twelve months, \$75,000 of the senior notes remain classified as long-term debt because of the Company's intent and ability to fund the repayment using amounts available under its credit facility, unless an alternative source of financing with more favorable terms is available upon maturity.

In 1997, industrial development revenue bonds were issued on behalf of the Company. The proceeds from the bond issuances were used to construct new manufacturing facilities in the United States. The Company guaranteed the payments of principal and interest on the bonds by obtaining letters of credit. The bonds were issued with a 20-year original term and are scheduled to mature in 2017. Each industrial development revenue bond carries a variable interest rate, which is reset weekly by the remarketing agents. The weighted-average interest rate on the bonds was 0.78 percent and 0.77 percent as of March 31, 2012 and December 31, 2011, respectively.

The Company's debt agreements contain various restrictive financial covenants, including net debt to capitalization and net interest coverage ratios. As of March 31, 2012, the Company was in compliance with the financial covenants

in its debt agreements.

**NOTE 11: BENEFIT PLANS**

The Company has pension plans covering certain U.S. employees that have been closed to new participants since July 1, 2003. Plans that cover certain salaried employees provide pension benefits based on the employee's compensation during the ten years before retirement. The Company's funding policy for salaried plans is to contribute annually based on actuarial projections and applicable regulations. Plans covering certain hourly employees and union members generally provide benefits of stated amounts for each year of service. The Company's funding policy for hourly plans is to make at least the minimum annual contributions

(unaudited)

(dollars in thousands, except per share amounts)

required by applicable regulations. Employees of the Company's operations in countries outside of the U.S. participate to varying degrees in local pension plans, which in the aggregate are not significant.

In addition to providing pension benefits, the Company provides healthcare and life insurance benefits (referred to as other benefits) for certain retired employees. Eligible employees may be entitled to these benefits based upon years of service with the Company, age at retirement and collective bargaining agreements. Currently, the Company has made no commitments to increase these benefits for existing retirees or for employees who may become eligible for these benefits in the future. There are no plan assets and the Company funds the benefits as the claims are paid.

The following table sets forth the net periodic benefit cost for the Company's defined benefit pension plans and other benefits for three months ended March 31:

	Pension Benefits		Other Benefits	
	2012	2011	2012	2011
Components of net periodic benefit cost				
Service cost	\$2,862	\$2,713	\$—	\$—
Interest cost	7,958	7,872	204	233
Expected return on plan assets	(10,205)	(10,183)	—	—
Amortization of prior service cost	65	65	(129)	(129)
Recognized net actuarial loss	4,211	2,406	121	97
Net periodic pension benefit cost	\$4,891	\$2,873	\$196	\$201

## Cash Flows

There have been no significant changes to the 2012 plan year contribution amounts previously disclosed. For the three months ended March 31, 2012 and 2011, contributions of \$12,864 and \$20,697, respectively, were made to the qualified and non-qualified pension plans.

## NOTE 12: GUARANTEES AND PRODUCT WARRANTIES

In 1997, industrial development revenue bonds were issued on behalf of the Company. The Company guaranteed the payments of principal and interest on the bonds (refer to note 10) by obtaining letters of credit. The carrying value of the bonds was \$11,900 as of March 31, 2012 and December 31, 2011.

The Company provides its global operations guarantees and standby letters of credit through various financial institutions to suppliers, customers, regulatory agencies and insurance providers. If the Company is not able to make payment or fulfill contractual obligations, the suppliers, customers, regulatory agencies and insurance providers may draw on the pertinent bank. At March 31, 2012, the maximum future payment obligations related to these various guarantees totaled \$77,906, of which \$23,435 represented standby letters of credit to insurance providers, and no associated liability was recorded. At December 31, 2011, the maximum future payment obligations relative to these various guarantees totaled \$71,321, of which \$22,623 represented standby letters of credit to insurance providers, and no associated liability was recorded.

The Company provides its customers a manufacturer's warranty and records, at the time of the sale, a corresponding estimated liability for potential warranty costs. Estimated future obligations due to warranty claims are based upon historical factors such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts.

Changes in the Company's warranty liability balance are illustrated in the following table:

	2012	2011
Balance at January 1	\$63,355	\$78,313
Current period accruals (a)	15,934	18,411

Current period settlements	(14,608	) (19,252	)
Balance at March 31	\$64,681	\$77,472	
(a) includes the impact of foreign exchange rate fluctuations

(unaudited)

(dollars in thousands, except per share amounts)

**NOTE 13: COMMITMENTS AND CONTINGENCIES**

At March 31, 2012, the Company was a party to several lawsuits that were incurred in the normal course of business, none of which individually or in the aggregate are considered material by management in relation to the Company's financial position or results of operations. In management's opinion, the condensed consolidated financial statements would not be materially affected by the outcome of these legal proceedings, commitments or asserted claims. In addition to these routine legal proceedings, the Company was a party to securities and shareholder actions, which are described in note 15 of the consolidated financial statements contained in the Company's annual report on Form 10-K for the year ended December 31, 2011.

During the second quarter of 2010, while conducting due diligence in connection with a potential acquisition in Russia, the Company identified certain transactions and payments by its subsidiary in Russia (primarily during 2005 to 2008) that potentially implicate the Foreign Corrupt Practices Act (FCPA), particularly the books and records provisions of the FCPA. As a result, the Company conducted a global internal review and collected information related to its global FCPA compliance. In the fourth quarter of 2010, the Company identified certain transactions within its Asia Pacific operation that occurred over the past several years that may also potentially implicate the FCPA. The Company continues to monitor its ongoing compliance with the FCPA.

The Company has voluntarily self-reported its findings to the SEC and the U.S. Department of Justice (DOJ) and is cooperating with these agencies in their review. The Company was previously informed that the SEC's inquiry had been converted to a formal, non-public investigation. The Company also received a subpoena for documents from the SEC and a voluntary request for documents from the DOJ in connection with the investigation. As of March 31, 2012, the Company's accrued estimated loss related to the potential outcome of this matter is not considered material to the condensed consolidated financial statements. Because the SEC and DOJ investigations are ongoing, there can be no assurance that their review will not find evidence of additional transactions that potentially implicate the FCPA. At this time, the Company cannot predict the results of the government investigations and future resolution of these matters with the SEC and the DOJ could result in changes in management's estimates of losses, which could be material to the Company's consolidated financial statements.

**NOTE 14: DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES**

The Company uses derivatives to mitigate the economic consequences associated with fluctuations in currencies and interest rates.

**FOREIGN EXCHANGE**

**Net Investment Hedges** The Company has international subsidiaries with net balance sheet positions that generate cumulative translation adjustments within OCI. The Company uses derivatives to manage potential changes in value of its net investments in Brazil. The Company uses the forward-to-forward method for its quarterly retrospective and prospective assessments of hedge effectiveness. No ineffectiveness results if the notional amount of the derivative matches the portion of the net investment designated as being hedged because the Company uses derivative instruments with underlying exchange rates consistent with its functional currency and the functional currency of the hedged net investment. Changes in value that are deemed effective are accumulated in OCI where they will remain until they are reclassified to income together with the gain or loss on the entire investment upon substantial liquidation of the subsidiary. The fair value of the Company's net investment hedge contracts was \$(258) and \$1,768 as of March 31, 2012 and December 31, 2011, respectively. The loss recognized in OCI on net investment hedge derivative instruments was \$2,026 in the three months ended March 31, 2012.

**Non-Designated Hedges** A substantial portion of the Company's operations and revenues are international. As a result, changes in foreign exchange rates can create substantial foreign exchange gains and losses from the revaluation of non-functional currency monetary assets and liabilities. The Company's policy allows the use of foreign exchange forward contracts with maturities of up to 24 months to mitigate the impact of currency fluctuations on those foreign currency asset and liability balances. The Company elected not to apply hedge accounting to its foreign exchange forward contracts. Thus, spot-based gains/losses offset revaluation gains/losses within foreign exchange loss, net and forward-based gains/losses represent interest expense. The fair value of the Company's non-designated foreign exchange forward contracts was \$832 and \$(1,558) as of March 31, 2012 and December 31, 2011, respectively.

Table of Contents

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

The following table summarizes the (loss) gain recognized on non-designated foreign-exchange derivative instruments for the three months ended March 31:

Income Statement Location	2012	2011
Interest expense	\$(1,391	) \$(1,849
Foreign exchange gain (loss), net	(2,434	) (6,217
	\$ (3,825	) \$(8,066

**INTEREST RATE**

**Cash Flow Hedges** The Company has variable rate debt and is subject to fluctuations in interest related cash flows due to changes in market interest rates. The Company's policy allows derivative instruments designated as cash flow hedges that fix a portion of future variable-rate interest expense. As of March 31, 2012, the Company has a pay-fixed receive-variable interest rate swap, with a total notional amount of \$25,000, to hedge against changes in the LIBOR benchmark interest rate on a portion of the Company's LIBOR-based borrowings. Changes in value that are deemed effective are accumulated in OCI and reclassified to interest expense when the hedged interest is accrued. To the extent that it becomes probable that the Company's variable rate borrowings will not occur, the gains or losses on the related cash flow hedges will be reclassified from OCI to interest expense.

In December 2005 and January 2006, the Company executed cash flow hedges by entering into receive-variable and pay-fixed interest rate swaps, with a total notional amount of \$200,000, related to the senior notes issuance in March 2006. Amounts previously recorded in OCI related to the pre-issuance cash flow hedges will continue to be reclassified on a straight-line basis through February 2016.

The fair value of the Company's interest rate contracts was \$(3,631) and \$(3,796) as of March 31, 2012 and December 31, 2011, respectively.

Gains and losses related to interest rate contracts that are reclassified from accumulated OCI are recorded in interest expense on the statement of income. The Company anticipates reclassifying \$742 from OCI to interest expense within the next 12 months.

**NOTE 15: RESTRUCTURING AND OTHER CHARGES**

The following table summarizes the impact of the Company's restructuring charges (accrual adjustments) on the condensed consolidated statements of income for three months ended March 31:

	2012	2011
Cost of sales – services	\$(669	) \$6,074
Cost of sales – products	5	123
Selling and administrative expense	2,387	5,604
Total	\$ 1,723	\$ 11,801

The following table summarizes the Company's net restructuring charges (accrual adjustments) within continuing operations for its Diebold North America (DNA) and Diebold International (DI) reporting segments for the three months ended March 31:

	2012	2011
DNA		
Severance	\$ 1,107	\$(7
DI		
Severance	128	11,605
Other (1)	488	203
Total	\$ 1,723	\$ 11,801

(1) Other costs in the DI segment include legal fees, accelerated depreciation and lease termination fees. Restructuring charges of \$1,723 for the three months ended March 31, 2012 related to the Company's global shared services plan, which entails expanding the Company's current information technology (IT) center in India, to create a global shared services center. Expanding the shared services center will require that the Company transfer global back-office work that currently resides in other geographies. Over the next two years, the Company anticipates approximately 200 IT and financial services-related jobs

Table of Contents

FORM 10-Q as of March 31, 2012

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

globally will be impacted by this decision and incurring additional restructuring costs of \$1,500 in 2012 and up to \$9,500 in future periods. As management concludes on certain aspects of the global shared services plan, the anticipated future costs related to this plan are subject to change.

Restructuring charges of \$330 and \$11,580 for the three months ended March 31, 2012 and 2011, respectively, related to the Company's plan for the EMEA reorganization, which realigns resources and leveraged the existing shared services center. As of March 31, 2012, the Company anticipates additional restructuring costs in the range of \$400 to \$1,100 to be incurred during the remainder of 2012 related to this plan.

Other net restructuring (accrual adjustments) charges were \$(330) and \$221 for the three months ended March 31, 2012 and 2011. Included in service cost of sales is a benefit of \$669 related to restructuring accrual adjustments for the three months ended March 31, 2012.

The following table summarizes the Company's cumulative total restructuring costs for the significant plans:

	EMEA Reorganization	Global Shared Services
Costs incurred to date:		
DNA	\$—	\$1,437
DI	19,780	286
Total costs incurred to date	\$19,780	\$1,723

The following table summarizes the Company's restructuring accrual balances and related activity:

Balance at January 1, 2012	\$10,136	
Liabilities incurred	1,723	
Liabilities paid	(1,945	)
Balance at March 31, 2012	\$9,914	

**Other Charges**

Other charges consist of items that the Company determines are non-routine in nature. Net non-routine expense of \$924 and \$5,771 were included in selling and administrative expense for the three months ended March 31, 2012 and 2011, respectively. Net non-routine expenses for 2012 and 2011 consisted primarily of legal and compliance costs related to the FCPA investigation.

**NOTE 16: FAIR VALUE OF ASSETS AND LIABILITIES**

The Company measures its financial assets and liabilities using one or more of the following three valuation techniques:

Market approach – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Cost approach – Amount that would be required to replace the service capacity of an asset (replacement cost).

Income approach – Techniques to convert future amounts to a single present amount based upon market expectations.

The hierarchy that prioritizes the inputs to valuation techniques used to measure fair value is divided into three levels:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets, that are observable either directly or indirectly.

Level 3 – Unobservable inputs for which there is little or no market data.

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Table of Contents

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

## Assets and Liabilities Recorded at Fair Value

Assets and liabilities subject to fair value measurement are as follows:

	March 31, 2012			December 31, 2011		
	Fair Value	Fair Value Measurements Using		Fair Value	Fair Value Measurements Using	
		Level 1	Level 2		Level 1	Level 2
<b>Assets</b>						
Short-term investments:						
Certificates of deposit	\$264,896	\$264,896	\$—	\$269,033	\$269,033	\$—
U.S. dollar indexed bond funds	35,155	—	35,155	17,820	—	17,820
Assets held in a rabbi trust	7,808	7,808	—	7,170	7,170	—
Foreign exchange forward contracts	1,156	—	1,156	2,193	—	2,193
Total	\$309,015	\$272,704	\$36,311	\$296,216	\$276,203	\$20,013
<b>Liabilities</b>						
Deferred compensation	\$7,808	\$7,808	\$—	\$7,170	\$7,170	\$—
Foreign exchange forward contracts	582	—	582	1,983	—	1,983
Interest rate swaps	3,631	—	3,631	3,796	—	3,796
Total	\$12,021	\$7,808	\$4,213	\$12,949	\$7,170	\$5,779

The Company uses the end of period when determining the timing of transfers between levels. During the three months ended March 31, 2012 and 2011, there were no transfers between levels.

**Short-Term Investments** The Company has investments in certificates of deposit that are recorded at cost, which approximates fair value. Additionally, the Company has investments in U.S. dollar indexed bond funds that are classified as available-for-sale and stated at fair value. U.S. dollar indexed bond funds are reported at net asset value, which is the practical expedient for fair value as determined by banks where funds are held.

**Assets Held in a Rabbi Trust / Deferred Compensation** The fair value of the assets held in a rabbi trust is derived from investments in a mix of money market, fixed income and equity funds managed by Vanguard. The related deferred compensation liability is recorded at fair value.

**Foreign Exchange Forward Contracts** A substantial portion of the Company's operations and revenues are international. As a result, changes in foreign exchange rates can create substantial foreign exchange gains and losses from the revaluation of non-functional currency monetary assets and liabilities. The foreign exchange contracts are valued using the market approach based on observable market transactions of forward rates.

**Interest Rate Swaps** The Company has variable rate debt and is subject to fluctuations in interest-related cash flows due to changes in market interest rates. The Company's policy allows it to periodically enter into derivative instruments designated as cash flow hedges to fix some portion of future variable rate based interest expense. The Company has a pay-fixed receive-variable interest rate swap to hedge against changes in the LIBOR benchmark interest rate on a portion of the Company's LIBOR-based borrowings. The fair value of the swap is determined using the income approach and is calculated based on LIBOR rates at the reporting date.

## Assets and Liabilities Recorded at Carrying Value

The fair value of the Company's cash and cash equivalents, trade receivables and accounts payable, approximates the carrying value due to the relative short maturity of these instruments. The fair value and carrying value of the Company's debt instruments are summarized as follows:

Edgar Filing: DIEBOLD INC - Form 10-Q

	March 31, 2012		December 31, 2011	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Notes payable	\$39,425	\$39,425	\$21,722	\$21,722

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(dollars in thousands, except per share amounts)

The fair value of the Company's industrial development revenue bonds are measured using unadjusted quoted prices in active markets for identical assets categorized as level 1 inputs. The fair value of the Company's current notes payable and credit facility debt instruments approximates the carrying value due to the relative short maturity of the revolving borrowings under these instruments. The fair values of the Company's long-term senior notes was estimated using market observable inputs for the Company's comparable peers with public debt, including quoted prices in active markets, market indices and interest rate measurements, considered level 2 inputs.

## NOTE 17: SEGMENT INFORMATION

The Company's segments are comprised of two sales channels: DNA and DI. The DNA segment sells and services financial and retail systems in the United States and Canada. The DI segment sells and services financial and retail systems over the remainder of the globe as well as voting and lottery solutions in Brazil.

The reconciliation between segment information and the condensed consolidated financial statements is disclosed. Revenue summaries by geographic area and product and service solutions are also disclosed. Certain information not routinely used in the management of the DNA and DI segments are not allocated back to the segments. Items not allocated are as follows: investment income; interest expense; equity in the net income of investees accounted for by the equity method; income tax expense or benefit; foreign exchange gains and losses; miscellaneous, net; and discontinued operations. The Company has reclassified the presentation of prior-year operating profit (loss) to conform to the current year presentation due to changes in corporate allocations.

The following table presents information regarding the Company's segment information for three months ended March 31:

	2012	2011
<b>DNA</b>		
Customer revenues	\$399,920	\$305,964

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF  
OPERATIONS

OVERVIEW

Management's discussion and analysis should be read in conjunction with the condensed consolidated financial statements and accompanying notes that appear elsewhere in this quarterly report.

Introduction

Diebold, Incorporated is a global leader in providing integrated self-service delivery and security systems and services primarily to the financial, commercial, government, and retail markets. Founded in 1859, the Company today has more than 16,000 employees with representation in nearly 90 countries worldwide.

In 2011, the Company accelerated its transformation into a world-class, software-led services provider aligned with the security, convenience and efficiency needs of its customers. Three essential pillars provide the Company a clear path toward reaching this future:

- A strategy that leverages its leadership in software-led services, attuned with the needs of the Company's core global markets for financial self-service (FSS) and security solutions.

The financial capacity to implement that strategy and fund the investments necessary to drive growth, while preserving the ability to return value to shareholders in the form of reliable, growing dividends and, as appropriate, share repurchases.

- A disciplined risk assessment process, focused on proactively identifying and mitigating potential risks to the Company's continued success.

The strategy to leverage the Company's capabilities in services, software and innovation is beginning to pay dividends and is meeting the needs of its rapidly evolving markets. The Company believes this positions it for continued momentum in 2012 using its software-led services strategy and leading edge technology.

The Company delivered record-setting first-quarter earnings per share performance, as the strength it saw in the fourth quarter of 2011 continued into 2012. The Company once again had strong performance in North America as demand for deposit automation and integrated services continues to grow. In addition, the Company's Europe, Middle East and Africa (EMEA) operation contributed to growth in earnings with a significant year-over-year reduction in first-quarter losses as it continues to benefit from the Company's restructuring efforts. Given the strong start to the year and the continued underlying strength in Diebold's markets, the Company has increased confidence in its ability to generate growth as it continues to build software-led services capabilities.

Income from continuing operations attributable to Diebold, Incorporated, net of tax, for the three months ended March 31, 2012 was \$45,163 or \$0.71 per share, an increase of \$42,651 and \$0.67 per share, respectively, from the same period in 2011. Total revenue for the three months ended March 31, 2012 was \$698,491, an increase of \$84,334 compared to the same period in 2011.

Vision and strategy

The Company's vision is to be recognized as the essential partner in creating and implementing ideas that optimize convenience, efficiency and security. This vision is the guiding principle behind the Company's transformation to becoming a more software-led services company. Services comprise more than 50 percent of the Company's revenue. The Company expects that this percentage will continue to grow over time as the Company continues to build on its strong base of maintenance and advanced services to deliver world-class integrated services.

Several years ago, the Company launched its Diebold Integrated Services® outsourcing business in North America. Initially the scale was small, generating about \$5,000 in contract value in year one. In the ensuing years, the Company has achieved substantial growth in this business. During 2011, the Company signed new integrated services contracts

exceeding \$500,000 compared with \$150,000 in 2010. During the first quarter of 2012, the Company signed integrated services contracts in North America alone of approximately \$80,000 in total contract value. For example, Denali Alaskan Federal Credit (Denali Alaskan) selected Diebold to replace the credit union's entire fleet with Opteva® ATMs, most of which include deposit automation technology. In addition, Diebold is maximizing Denali Alaskan's ATM uptime and reducing the credit union's maintenance costs by providing remote and on-site services. Another example during the quarter was Hume Building Society in Australia. The financial institution signed an integrated services agreement with Diebold to deploy OpteView® Resolve™ across its fleet of ATMs. Diebold will manage

AND RESULTS OF OPERATIONS as of March 31, 2012

DIEBOLD, INCORPORATED AND SUBSIDIARIES

(unaudited)

(dollars in thousands, except per share amounts)

Hume's fleet of new Opteva ATMs and migrate to Agilis software—lowering costs, increasing security and enhancing the consumer experience. In addition to service and integrated services, another demand driver in the global ATM marketplace continues to be deposit automation. Among the largest U.S. national banks there has been extensive deployment of deposit automation-enabled terminals. Today, approximately 25 percent of ATMs globally are configured for automated deposits. During the first quarter of 2012, the Company saw continued strong demand for deposit automation resulting in financial self-service product order growth well into the double-digit range in North America alone.

In its security business, the Company has an equal, if not greater, potential for a successful integrated services approach. Security challenges and the systems to address them have grown increasingly complex. That has created a greater appetite among financial institutions for outsourcing solutions, particularly in the areas of monitoring, services and software. Today the Company is bringing its expertise back into the financial sector with a focused effort on bank branch and large, complex and technologically demanding projects. The Company has created new customer-focused teams that possess the high levels of specialized expertise in logical and enterprise security required in this business. The Company is leveraging best practices, and some of its best talent, from its FSS integrated services business to build the foundation for a new security outsourcing business. During the first quarter of 2012, the Company signed more than \$4,000 in security integrated service contracts and the pipeline for additional integrated services opportunities continues to grow.

Moving forward, the Company intends to create shareholder value by leveraging its growing advantage in software and services capabilities, taking advantage of key market opportunities around the world and further leveraging opportunities in the security business. Many opportunities lie ahead, and the Company will continue to invest in developing new software, services and security solutions, particularly in emerging markets.

Cost savings initiatives, restructuring and other charges

Over the past several years, the Company's SmartBusiness (SB) initiatives have led to rationalization of product development, streamlined procurement, realignment of the Company's manufacturing footprint and improved logistics. Building on that success, the Company's SB 300 initiatives in 2011 shifted the focus from reducing cost of sales to lowering operating expenses and are targeted to achieve an additional \$100,000 in efficiencies by the end of 2013. The Company is committed to making the strategic decisions that not only streamline operations, but also enhance its ability to serve its customers. The Company remains confident in its ability to continue to execute on cost-reduction initiatives, deliver solutions that help improve customers' businesses and create shareholder value. During the the three months ended March 31, 2012 and 2011, the Company incurred pre-tax net restructuring charges of \$1,723 and \$11,801, respectively. Restructuring charges in 2012 and 2011 primarily related to the Company's global shared services plan and the Company's plan for the EMEA reorganization, respectively. The global shared services plan, which entails expanding the Company's current information technology center in India, to create a global shared services center. Expanding the shared services center will require that the Company transfer global back-office work that currently resides in other geographies.

Other charges consist of items that the Company determines are non-routine in nature. Net non-routine expense of \$924 and \$5,771 impacted the three months ended March 31, 2012 and 2011, respectively. Net non-routine expenses for 2012 and 2011 consisted primarily of legal and compliance costs related to the Global Foreign Corrupt Practices Act (FCPA) investigation.

Business Drivers

The business drivers of the Company's future performance include, but are not limited to:

- demand for new service offerings, including integrated services and outsourcing;
- demand for security products and services for the financial sectors;

- timing of self-service equipment upgrades and/or replacement cycles, including deposit automation in mature markets such as the United States; and
- high levels of deployment growth for new self-service products in emerging markets, such as Asia Pacific.

## RESULTS OF OPERATIONS

The following discussion of the Company's financial condition and results of operations provides information that will assist in understanding the financial statements and the changes in certain key items in those financial statements. The following discussion should be read in conjunction with the condensed consolidated financial statements and the accompanying notes that appear elsewhere in this quarterly report.

	Three Months Ended March 31, 2012		2011	
	Dollars	% of Net sales	Dollars	% of Net sales
Net sales	\$698,491	100.0	\$614,157	100.0
Gross profit	193,240	27.7	149,404	24.3
Operating expenses	138,596	19.8	140,535	22.9
Operating profit	54,644	7.8	8,869	1.4
Income from continuing operations	45,965	6.6	4,146	0.7
Loss from discontinued operations, net of tax	—	—	(11)	—
Net income attributable to noncontrolling interests	802	0.1	1,634	0.3
Net income attributable to Diebold, Incorporated	45,163	6.5	2,501	0.4

## First Quarter 2012 Comparisons to First Quarter 2011

## Net Sales

The following table represents information regarding our net sales for the three months ended March 31:

	2012	2011	\$ Change	% Change
Net sales	\$698,491	\$614,157	\$84,334	13.7

FSS sales in the first quarter of 2012 improved \$97,906 or 21.1 percent compared to the same period of 2011. The increase in FSS sales included a net unfavorable currency impact of \$10,864 or 3.0 percent, of which over 50 percent related to the Brazilian real. The following division highlights include the impact of foreign currency. Diebold North America (DNA) increased \$104,717 or 60.0 percent due to growth within the U.S. regional and national bank business. Customers in the U.S. regional bank business continue to focus on deposit automation technology and meeting regulatory requirements. Diebold International (DI) sales decreased by \$6,811 or 2.4 percent related to the following: Latin America, including Brazil, decreased \$11,275 or 8.2 percent, EMEA decreased \$6,674 or 9.4 percent and Asia Pacific increased \$11,138 or 13.8 percent. The decrease in Latin America, including Brazil, was due to lower volume across most of the geographies. The decrease in EMEA was driven by lower volume in the Middle East in comparison to the same period of the prior year. The improvement in Asia Pacific was attributable to growth throughout most of the region, particularly Thailand and China.

Security solutions sales in the first quarter of 2012 decreased by \$8,458 or 5.9 percent compared to the same period of 2011. DNA decreased \$10,761 or 8.2 percent compared to the same period of the prior year, partially offset by improvement in DI of \$2,303 or 19.6 percent. In DNA, financial security within the U.S. regional and national banks continued to be a challenging environment with lower product volumes compared to the prior year. The DI improvement was influenced by higher volume in Asia Pacific mostly from India as well as growth across a mix of countries in Latin America, including Brazil.

The Brazilian-based lottery systems sales decreased \$5,588 or 72.3 percent, a result of fewer units sold in the first quarter of 2012 compared to the same period of 2011.

Table of Contents

AND RESULTS OF OPERATIONS as of March 31, 2012

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

(unaudited)

(dollars in thousands, except per share amounts)

## Gross Profit

The following table represents information regarding our gross profit for the three months ended March 31:

	2012	2011	\$ Change	% Change
Gross profit – services	\$111,469	\$88,484	\$22,985	26.0
Gross profit – products	81,771	60,920	20,851	34.2
Total gross profit	\$193,240	\$149,404	\$43,836	29.3
Gross margin – services	28.1	% 24.3	%	
Gross margin – products	27.1	% 24.4	%	
Total gross margin	27.7	% 24.3	%	

The increase in service gross margin was driven by DNA and EMEA. The favorable margin in DNA was related to cost efficiencies in software-led and maintenance services, a result of productivity improvements related to higher installation volume and better resource leverage. The margin improvement within EMEA was influenced mostly by fewer restructuring charges in the first quarter of 2012. Total service gross margin for the first quarter of 2012 included \$669 of restructuring accrual adjustment compared to \$6,074 of charges in the same period of 2011. The majority of the restructuring charges in the first quarter of 2011 were related to the EMEA reorganization.

The increase in product gross margin was driven by DNA, particularly the U.S. regional bank business, as the FSS business continues to benefit from the higher volume. Partially offsetting the improvement, the reduction in DI was influenced by lower volume in Brazil as well as continued pricing pressure in the Asia Pacific region.

## Operating Expenses

The following table represents information regarding our operating expenses for the three months ended March 31:

	2012	2011	\$ Change	% Change
Selling and administrative expense	\$119,795	\$121,111	\$(1,316)	) (1.1)
Research, development and engineering expense	18,801	19,424	(623)	) (3.2)
Total operating expenses	\$138,596	\$140,535	\$(1,939)	) (1.4)

Selling and administrative expense decreased \$1,316 or 1.1 percent in the first quarter of 2012 compared to the same period of 2011. The improvement was due to lower non-routine expense, lower restructuring charges and \$1,718 favorable currency impact, partially offset by higher compensation and benefits and an increase in consulting expense related to strategic initiatives. Selling and administrative expense in the first quarter of 2012 and 2011 included non-routine expense of \$924 and \$5,771 respectively, of which the majority pertained to legal, consultative, audit and severance costs related to the FCPA investigation. In addition, selling and administrative expense included \$2,387 and \$5,604 of restructuring charges in the first quarter of 2012 and 2011, respectively. The majority of the first-quarter 2012 restructuring charges related to the Company's global shared services plan, which entails expanding the Company's current information technology center in India, to create a global shared services center. The first-quarter 2011 restructuring charges related mainly to the EMEA reorganization.

Research, development and engineering expense as a percent of net sales in 2012 and 2011 were 2.7 percent and 3.2 percent, respectively. The decrease as a percent of net sales was influenced by the significant growth in revenue.

Table of Contents

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS as of March 31, 2012

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

(unaudited)

(dollars in thousands, except per share amounts)

## Operating Profit

The following table represents information regarding our operating profit for the three months ended March 31:

	2012	2011	\$ Change/	% Change
Operating profit	\$54,644	\$8,869	\$45,775	516.1
Operating profit margin	7.8	% 1.4	%	

The increase in operating profit in the first quarter of 2012 compared to the same period of 2011 was influenced by significant growth in service and product revenue, improvement in both service and product gross margins which generated a better rate of return, and the reduction in operating expenses noted above. All of these items combined to produce a 6.4 percent increase in operating profit in the first quarter of 2012 compared to the same period of 2011.

## Other Income (Expense)

The following table represents information regarding our other income (expense) for the three months ended March 31:

	2012	2011	\$ Change	% Change
Investment income	\$11,955	\$10,898	\$1,057	9.7
Interest expense	(7,608)	) (8,673)	) (1,065)	) (12.3)
Foreign exchange gain (loss), net	545	(1,046)	) 1,591	N/M
Miscellaneous, net	(90)	) 23	(113)	) N/M
Other income (expense)	\$4,802	\$1,202	\$3,600	299.5

The improvement in foreign exchange was influenced by favorable currency positions mostly in EMEA, partially offset by a net reduction elsewhere. Investment income in the first quarter of 2012 was favorable compared to the same period of 2011 related to increased investments. Interest expense was favorable compared to the same period in 2011 due to lower interest rates and fees.

## Income from Continuing Operations

The following table represents information regarding our income from continuing operations for the three months ended March 31:

	2012	2011	\$ Change	% Change
Income from continuing operations	\$45,965	\$4,146	\$41,819	N/M
Percent of net sales	6.6	% 0.7	%	
Effective tax rate	22.7	% 58.8	%	

The increase in net income from continuing operations in 2012 compared to 2011 was influenced by revenue growth and cost efficiencies, which improved the operating margin paired with the other income noted above. The 36.1 percentage point decrease in the effective tax rate was mainly due to first-quarter 2011 losses in certain EMEA jurisdictions for which no tax benefit was recognized in the first-quarter 2011 effective tax rate. The impact was significant on the first-quarter 2011 effective tax rate because these operating losses were relatively large when compared to income from continuing operations before taxes for the period. Additionally, foreign income tax assessments and interest on uncertain tax positions increased the first-quarter 2011 effective tax rate.

## Segment Analysis and Operating Profit Summary

The following table represents information regarding our revenue by reporting segment for the three months ended March 31:

	2012	2011	\$ Change	% Change
DNA	\$399,920	\$305,964	\$93,956	30.7
DI	298,571	308,193	(9,622)	(3.1)
Total net sales	\$698,491	\$614,157	\$84,334	13.7

The increase in DNA net sales was driven by continued growth in the FSS business, particularly related to higher product volume in both the U.S. regional and national bank business. The higher product volume stimulated growth in installation services as well as improvement in software-led services. Partially offsetting these increases were lower volumes in Canada as well as security products in both the U.S. regional and national bank business.

The decrease in DI net sales was influenced by a net unfavorable currency impact of \$11,077, of which approximately 59 percent related to Brazil. Operationally, DI realized lower FSS and lottery systems volume in Brazil as well as a reduction in volume within EMEA. These decreases were partially offset with higher product and service volumes in Asia Pacific compared to the same period of 2011. The improvement in Asia Pacific was concentrated in Thailand, China and India.

The following table represents information regarding our operating profit (loss) by reporting segment for the three months ended March 31:

	2012	2011	\$ Change	% Change
DNA	\$55,297	\$16,152	\$39,145	242.4
DI	(653)	(7,283)	6,630	91.0
Total operating profit	\$54,644	\$8,869	\$45,775	516.1

DNA operating profit in the first quarter of 2012 increased by \$39,145 compared to the same period of 2011. The increase was driven primarily by higher FSS product volume in the U.S. regional bank business as well as cost efficiencies in software-led services and maintenance related to higher installation volume and better labor productivity. These increases were partially offset with an increase in operating expense related mostly to higher compensation and benefits.

DI operating loss in the first quarter of 2012 decreased by \$6,630 compared to the same period of 2011. The majority of the improvement was due to lower restructuring charges in EMEA related to the 2011 reorganization. Furthermore, EMEA operational performance improved in the first quarter of 2012 resulting from the restructuring efforts. Partially offsetting this improvement were lower volumes in Brazil FSS and lottery businesses in comparison to the same period of 2011.

Refer to note 17 to the condensed consolidated financial statements for further details of segment revenue and operating profit.

## LIQUIDITY AND CAPITAL RESOURCES

Capital resources are obtained from income retained in the business, borrowings under the Company's senior notes, committed and uncommitted credit facilities, long-term industrial revenue bonds, and operating and capital leasing arrangements. Management expects that the Company's capital resources will be sufficient to finance planned working capital needs, research and development activities, investments in facilities or equipment, pension contributions,

dividends and any repurchase of the Company's common shares for at least the next 12 months. As of March 31, 2012, \$601,489 or 98.4 percent of the Company's cash and cash equivalents and short-term investments reside in international tax jurisdictions. Repatriation of these funds could be negatively impacted by potential foreign and domestic taxes. Part of the Company's growth strategy is to pursue strategic acquisitions. The Company has made acquisitions in the past and intends to make acquisitions in the future. The Company intends to finance any future acquisitions with either cash and short-term investments, cash provided from operations, borrowings under available credit facilities, proceeds from debt or equity offerings and/or the issuance of common shares.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS as of March 31, 2012

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

(unaudited)

(dollars in thousands, except per share amounts)

The following table summarizes the results of our condensed consolidated statement of cash flows for the three months ended March 31:

	2012	2011
Net cash flow (used in) provided by:		
Operating activities	\$(26,021)	\$(90,151)
Investing activities	(19,783)	2,197
Financing activities	18,540	35,958
Effect of exchange rate changes on cash and cash equivalents	4,781	2,900
Net decrease in cash and cash equivalents	\$(22,483)	\$(49,096)

Net cash used in operating activities was \$26,021 for the three months ended March 31, 2012, a decrease of \$64,130 from \$90,151 for the same period in 2011. Cash flows from operating activities are generated primarily from operating income and managing the components of working capital. Cash flows from operating activities during the three months ended March 31, 2012, compared to the same period of 2011, were positively impacted by a \$41,830 increase in net income, as well as favorable changes in accounts payable, deferred revenue and certain other assets and liabilities. These changes were partially offset by unfavorable changes in trade receivables, inventories, prepaid expenses and other current assets.

Net cash used in investing activities was \$19,783 for the three months ended March 31, 2012 compared to net cash provided by investing activities of \$2,197 for the same period in 2011. The \$21,980 change was primarily due to \$a 14,921 change in net investment activity and a \$2,900 decrease in collections on purchased finance receivables, as well as increases in capital expenditures and certain other assets.

Net cash provided by financing activities was \$18,540 for the three months ended March 31, 2012, a decrease of \$17,418 from \$35,958 for the same period of 2011. The change was primarily due to a \$41,967 decrease in net borrowings, partially offset by a decrease in share repurchases of \$18,566 and an increase in the issuance of common shares of \$5,885.

As of March 31, 2012, the Company had various international short-term uncommitted lines of credit with borrowing limits of \$110,700. Short-term uncommitted lines mature in less than one year. The amount available under the short-term uncommitted lines at March 31, 2012 was \$71,419.

In June 2011, the Company entered into a five-year credit facility, which replaced its previous credit facility. As of March 31, 2012, the Company had borrowing limits under the credit facility totaling \$500,000. Under the terms of the credit facility agreement, the Company has the ability, subject to various approvals, to increase the borrowing limits by \$250,000. Up to \$50,000 of the revolving credit facility is available under a swing line subfacility. The weighted-average interest rate on outstanding credit facility borrowings as of March 31, 2012 and December 31, 2011 was 1.44 percent and 1.49 percent, respectively, which is variable based on the London Interbank Offered Rate (LIBOR). The amount available under the new credit facility as of March 31, 2012 was \$197,000.

In March 2006, the Company issued senior notes in an aggregate principal amount of \$300,000 with a weighted-average fixed interest rate of 5.50 percent. The maturity dates of the senior notes are staggered, with \$75,000, \$175,000 and \$50,000 becoming due in 2013, 2016 and 2018, respectively. Additionally, the Company entered into a derivative transaction to hedge interest rate risk on \$200,000 of the senior notes, which was treated as a cash flow hedge. This reduced the effective interest rate from 5.50 percent to 5.36 percent. As of March 31, 2012, although it is due within twelve months, \$75,000 of the senior notes remain classified as long-term debt because of the Company's intent and ability to fund the repayment using amounts available under its credit facility, unless an alternative source of financing with more favorable terms is available upon maturity.

The Company's debt agreements contain various restrictive financial covenants, including net debt to capitalization and net interest coverage ratios. As of March 31, 2012, the Company was in compliance with the financial covenants in its debt agreements.

**Dividends** The Company paid dividends of \$18,094 and \$18,650 in the three months ended March 31, 2012 and 2011, respectively. Quarterly dividends were \$0.285 and \$0.280 per share for 2012 and 2011, respectively.

All contractual cash obligations with initial and remaining terms in excess of one year and contingent liabilities remained generally unchanged at March 31, 2012 compared to December 31, 2011.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS as of March 31, 2012  
DIEBOLD, INCORPORATED AND SUBSIDIARIES  
(unaudited)  
(dollars in thousands, except per share amounts)

**Off-Balance Sheet Arrangements** The Company enters into various arrangements not recognized in the condensed consolidated balance sheets that have or could have an effect on its financial condition, results of operations, liquidity, capital expenditures or capital resources. The principal off-balance sheet arrangements that the Company enters into are guarantees and sales of finance receivables. The Company provides its global operations guarantees and standby letters of credit through various financial institutions to suppliers, regulatory agencies and insurance providers. If the Company is not able to make payment, the suppliers, regulatory agencies and insurance providers may draw on the pertinent bank. Refer to note 12 to the condensed consolidated financial statements for further details of guarantees. The Company has sold finance receivables to financial institutions while continuing to service the receivables. The Company records these sales by removing finance receivables from the condensed consolidated balance sheets and recording gains and losses in the condensed consolidated statements of income.

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's condensed consolidated financial statements. The preparation of these financial statements requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities and reported amounts of revenues and expenses. Such estimates include revenue recognition, the valuation of trade receivables, inventories, goodwill, intangible assets, other long-lived assets, legal contingencies, guarantee obligations and assumptions used in the calculation of income taxes, pension and postretirement benefits and customer incentives, among others. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors. Management monitors the economic conditions and other factors and will adjust such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates.

Management believes there have been no significant changes during the three months ended March 31, 2012 to the items that the Company disclosed as its critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's annual report on Form 10-K for the year ended December 31, 2011.

**FORWARD-LOOKING STATEMENT DISCLOSURE**

In this quarterly report on Form 10-Q, statements that are not reported financial results or other historical information are "forward-looking statements." Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. These forward-looking statements relate to, among other things, the Company's future operating performance, the Company's share of new and existing markets, the Company's short- and long-term revenue and earnings growth rates, the Company's implementation of cost-reduction initiatives and measures to improve pricing, including the optimization of the Company's manufacturing capacity. The use of the words "will," "believes," "anticipates," "plans," "projects," "expects," "intends" and similar expressions is intended to identify forward-looking statements that have been made and may in the future be made by or on behalf of the Company. Although the Company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, the economy, its knowledge of its business, and on key performance indicators that impact the Company, these forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in or implied by the forward-looking statements. The Company is not obligated to update forward-looking statements, whether as a result of new information, future events or otherwise.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Some of the risks, uncertainties and other factors that could cause actual results to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to:

- competitive pressures, including pricing pressures and technological developments;
- changes in the Company's relationships with customers, suppliers, distributors and/or partners in its business ventures;
- changes in political, economic or other factors such as currency exchange rates, inflation rates, recessionary or
- expansive trends, taxes and regulations and laws affecting the worldwide business in each of the Company's operations, including Brazil, where a significant portion of the Company's revenue is derived;
- global economic conditions, including any additional deterioration and disruptions in the financial markets, including bankruptcies, restructurings or consolidations of financial institutions, which could reduce our customer base and/or

adversely affect our customers' ability to make capital expenditures, as well as adversely impact the availability and cost of credit;

• acceptance of the Company's product and technology introductions in the marketplace;

• the Company's ability to maintain effective internal controls;

• changes in the Company's intention to repatriate cash and cash equivalents and short-term investments residing in international tax jurisdictions could negatively impact foreign and domestic taxes;

• unanticipated litigation, claims or assessments, as well as the impact of any current or pending lawsuits;

• variations in consumer demand for financial self-service technologies, products and services;

• potential security violations to the Company's information technology systems;

• the investment performance of the Company's pension plan assets, which could require the Company to increase its pension contributions, and significant changes in health care costs, including those that may result from government action;

• the amount and timing of repurchases of the Company's common shares, if any;

• the outcome of the Company's global FCPA review and any actions taken by government agencies in connection with

• the Company's self disclosure, including the pending SEC investigation; and

• the Company's ability to achieve benefits from its cost-reduction initiatives and other strategic changes, including its restructuring actions.

DIEBOLD, INCORPORATED AND SUBSIDIARIES  
FORM 10-Q as of March 31, 2012

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2011. There has been no material change in this information since December 31, 2011.

ITEM 4: CONTROLS AND PROCEDURES

This quarterly report includes the certifications of our chief executive officer (CEO) and chief financial officer (CFO) required by Rule 13a-14 of the Exchange Act. See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Based on the performance of procedures by management, designed to ensure the reliability of financial reporting, management believes that the unaudited condensed consolidated financial statements fairly present, in all material respects, the Company's financial position, results of operations and cash flows as of the dates, and for the periods presented. Refer to Note 1 in the notes to condensed consolidated financial statements.

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the CEO and CFO as appropriate, to allow timely decisions regarding required disclosures.

In connection with the preparation of this quarterly report, management, under the supervision and with the participation of the CEO and CFO, conducted an evaluation of disclosure controls and procedures. Based on this evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures were effective as of March 31, 2012.

No change was made to the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

(dollars in thousands)

At March 31, 2012, the Company was a party to several lawsuits that were incurred in the normal course of business, none of which individually or in the aggregate is considered material by management in relation to the Company's financial position or results of operations. In management's opinion, the Company's condensed consolidated financial statements would not be materially affected by the outcome of those legal proceedings, commitments, or asserted claims.

In addition to the routine legal proceedings noted above the Company was a party to the lawsuits described below at March 31, 2012:

Securities and Shareholder Actions

On June 30, 2010, a shareholder filed a putative class action complaint in the United States District Court for the Northern District of Ohio alleging violations of the federal securities laws against the Company, certain current and former officers, and the Company's independent auditors (Louisiana Municipal Police Employees Retirement System v. KPMG et al., No. 10-CV-1461). The complaint seeks unspecified compensatory damages on behalf of a class of persons who purchased the Company's stock between June 30, 2005 and January 15, 2008 and fees and expenses related to the lawsuit. The complaint generally relates to the matters set forth in the court documents filed by the SEC in June 2010 finalizing the settlement of civil charges stemming from the investigation of the Company conducted by the Division of Enforcement of the SEC (SEC Settlement).

On October 19, 2010, an alleged shareholder of the Company filed a shareholder derivative lawsuit in the Stark County, Ohio, Court of Common Pleas, alleging claims on behalf of the Company against certain current and former officers and directors of the Company for breach of fiduciary duty, unjust enrichment and corporate waste (Levine v. Geswein et al., Case No. 2010-CV-3848). The complaint generally relates to the matters set forth in the court documents filed by the SEC in June 2010 in connection with the SEC Settlement, and asserts that the defendants are liable to the Company for alleged damages associated with the SEC investigation, settlement, and related litigation. It also asserts that alleged misstatements in the Company's publicly issued financial statements caused the Company's common stock to trade at artificially inflated prices between 2004 and 2006, and that defendants harmed the Company by causing it to repurchase its common stock in the open market at inflated prices during

Table of Contents

## DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of March 31, 2012

that period. The complaint seeks an award of money damages against the defendants and in favor of the Company in an unspecified amount, as well as unspecified equitable and injunctive relief and attorneys' fees and expenses.

Management believes any possible loss or range of loss associated with the putative federal securities class action cannot be estimated. The parties to the shareholder derivative lawsuit have agreed to a settlement of that action. The settlement, which requires court approval before it will become effective, is not anticipated to have a material impact on the Company's financial position or results of operations.

**Global Foreign Corrupt Practices Act (FCPA) Review**

During the second quarter of 2010, while conducting due diligence in connection with a potential acquisition in Russia, the Company identified certain transactions and payments by its subsidiary in Russia (primarily during 2005 to 2008) that potentially implicate the FCPA, particularly the books and records provisions of the FCPA. As a result, the Company conducted a global internal review and collected information related to its global FCPA compliance. In the fourth quarter of 2010, the Company identified certain transactions within its Asia Pacific operation that occurred over the past several years that may also potentially implicate the FCPA. The Company continues to monitor its ongoing compliance with the FCPA.

The Company has voluntarily self-reported its findings to the SEC and the U.S. Department of Justice (DOJ) and is cooperating with these agencies in their review. The Company was previously informed that the SEC's inquiry had been converted to a formal, non-public investigation. The Company also received a subpoena for documents from the SEC and a voluntary request for documents from the DOJ in connection with the investigation. Because the SEC and DOJ investigations are ongoing, there can be no assurance that their review will not find evidence of additional transactions that potentially implicate the FCPA. At this time, the Company cannot predict the results of the government investigations and future resolution of these matters with the SEC and the DOJ could result in changes in management's estimates of losses, which could be material to the Company's consolidated financial statements.

**ITEM 1A: RISK FACTORS**

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2011.

**ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Information concerning the Company's share repurchases made during the first quarter of 2012:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans (2)	Maximum Number of Shares that May Yet Be Purchased Under the Plans (2)
January	806	\$30.14	—	2,426,177
February	71,460	38.44	—	2,426,177
March	3,157	35.86	—	2,426,177
Total	75,423	38.24	—	

(1) All shares were surrendered or deemed surrendered to the Company in connection with the Company's share-based compensation plans.

(2) The total number of shares repurchased as part of the publicly announced share repurchase plan since its inception was 13,450,772 as of March 31, 2012. The plan was approved by the Board of Directors in 1997. The Company may purchase shares from time to time in open market purchases or privately negotiated transactions. The Company may make all or part of the purchases pursuant to accelerated share repurchases

or Rule 10b5-1 plans. The plan has no expiration date. The following table provides a summary of Board of Directors approvals to repurchase the Company's outstanding common shares:

	Total Number of Shares Approved for Repurchase
1997	2,000,000
2004	2,000,000
2005	6,000,000
2007	2,000,000
2011	1,876,949
2012	2,000,000
	15,876,949

Table of Contents

ITEM 3: DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4: MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5: OTHER INFORMATION

On December 7, 2011, the Compensation Committee of the Company adopted a Senior Leadership Severance Policy (the Policy) for certain members of senior management, including all of the Company's named executive officers. The Policy was adopted in order to provide greater consistency for executives who are involuntarily terminated other than for cause or upon certain constructive terminations, in each case separate from a change-in-control, and also to provide a consistent approach to ensuring reinforcement of an executive's confidentiality, non-competition and non-solicitation obligations.

The Policy provides for the following:

Severance of two times base salary and target bonus for the CEO, and one and one-half times salary and target bonus for the other named executive officers, as well as a pro-rata award bonus payment, to the extent such awards are ultimately earned based on the Company's performance;

Two years of continued participation in our employee health and welfare benefit plans for our CEO, and one and one-half years of continued participation for the other named executive officers (excluding perquisites and any qualified or non-qualified pension or 401(k) plans);

Lapse of the restrictions on outstanding restricted shares;

Vesting of all outstanding non-vested options, which shall remain exercisable for three months;

Pro-rata vesting of all outstanding RSUs and performance shares (to the extent such awards are earned); and

Professional outplacement services for up to two years.

In order to accept severance benefits under the Policy, the executive is required to sign a release of claims and acknowledgment of certain restrictive covenants, including non-competition, non-solicitation and confidentiality protections for the benefit of the Company. When triggered, these restrictive covenants and other protections will be enforceable for two years for the CEO, and for one and one-half years for the other named executive officers.
