CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report and other documents we file with the SEC contain forward-looking statements that are based on current expectations, estimates, forecasts and projections about us, our future performance, our financial condition, our products, our business strategy, our beliefs and our management's assumptions. In addition, we, or others on our behalf, may make forward-looking statements in press releases or written statements, or in our communications and discussions with investors and analysts in the normal course of business through meetings, webcasts, phone calls and conference calls. These forward-looking statements can be identified by the use of words like "anticipates," "estimates," "projects," "expects," "plans," "believes," "intends," "will," "could," "may," "assumes" and other words of similar meaning. These statements are based on management's beliefs, assumptions, estimates and observations of future events based on information available to our management at the time the statements are made and include any statements that do not relate to any historical or current fact. These statements are not guarantees of future performance and they involve certain risks, uncertainties and assumptions that are difficult to predict. Actual outcomes and results may differ materially from what is expressed, implied or forecast by our forward-looking statements due in part to the risks, uncertainties and assumptions set forth below in Part I, Item 1A, Risk Factors of this report, as well as those discussed elsewhere in this report and other factors described from time to time in our filings with the SEC. Reference is made in particular to forward-looking statements regarding the success of our corporate relocation, the timing and success of our direct-store-delivery restructuring plan, our success in consummating acquisitions and integrating acquired businesses, the adequacy and availability of capital resources to fund our existing and planned business operations and

our capital expenditure requirements, product sales, expenses, earnings per share (EPS), and liquidity and capital resources. We intend these forward-looking statements to speak only at the date of this report and do not undertake to update or revise these statements, whether as a result of new information, future events, changes in assumptions or otherwise, except as required under federal securities laws and the rules and regulations of the SEC.

PART I

Item 1. Business

Overview

Farmer Bros. Co., a Delaware corporation (including its consolidated subsidiaries unless the context otherwise requires, the “Company,” “we,” “us,” “our” or “Farmer Bros.”), is a national coffee roaster, wholesaler and distributor of coffee, tea and culinary products. We serve a wide variety of customers, from small independent restaurants and foodservice operators to large institutional buyers like restaurant and convenience store chains, hotels, casinos, healthcare facilities, and gourmet coffee houses, as well as grocery chains with private brand and consumer-branded coffee and tea products. With a robust product line, including organic, Direct Trade, Direct Trade Verified Sustainable coffees or DTVS and other sustainably-produced coffees, iced and hot teas, cappuccino, spices, and baking/biscuit mixes, among others, we offer a comprehensive approach to our customers by providing not only a breadth of high-quality products, but also value-added services such as market insight, beverage planning, and equipment placement and service. We were founded in 1912, incorporated in California in 1923, and reincorporated in Delaware in 2004. We operate in one business segment.

Corporate Relocation

In fiscal 2015 we began the process of relocating our corporate headquarters, product development lab, and manufacturing and distribution operations from Torrance, California to a new facility housing these operations in Northlake, Texas (the “New Facility”) (the “Corporate Relocation Plan”). In order to focus on our core product offerings, in the second quarter of fiscal 2016, we sold certain assets associated with our manufacture, processing and distribution of raw, processed and blended spices and certain other culinary products (collectively, the “Spice Assets”) to Harris Spice Company Inc. (“Harris”). In fiscal 2017, we completed the construction of, and exercised the purchase option to acquire, the New Facility, relocated our Torrance operations to the New Facility, and sold our facility in Torrance, California (the “Torrance Facility”). We commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. We completed the Corporate Relocation Plan in the fourth quarter of fiscal 2017. We began roasting coffee in the New Facility in the fourth quarter of fiscal 2017.

Recent Developments

Acquisitions

In fiscal 2017, we completed two acquisitions. On October 11, 2016, we acquired substantially all of the assets and certain specified liabilities of China Mist Brands, Inc. dba China Mist Tea Company (“China Mist”), a provider of flavored iced teas and iced green teas, and on February 7, 2017, we acquired substantially all of the assets and certain specified liabilities of West Coast Coffee Company, Inc. (“West Coast Coffee”), a coffee roaster and distributor with a focus on the convenience store, grocery and foodservice channels. The China Mist acquisition is expected to extend our tea product offerings and give us a greater presence in the high-growth premium tea industry, while the West Coast Coffee acquisition is expected to broaden our reach in the Northwestern United States.

On August 18, 2017, we entered into an agreement to acquire substantially all of the assets of Boyd Coffee Company (“Boyd’s”), a privately-held coffee roaster and distributor with a focus on restaurants, hotels and convenience stores on the West Coast of the United States, with a combination of cash and stock. Boyd’s business model is expected to be complementary to the Company across customer channels, product portfolios and distribution networks, including a high-touch service model of direct-store-delivery. The transaction is expected to close in the second quarter of fiscal 2018, subject to certain closing conditions.

DSD Restructuring Plan

As a result of an ongoing operational review of various initiatives within our direct-store-delivery or DSD selling organization, in the third quarter of fiscal 2017, we commenced a restructuring plan to reorganize our DSD operations in an effort to realign functions into a channel-based selling organization, streamline operations, acquire certain channel specific expertise, and improve selling effectiveness and financial results (the “DSD Restructuring Plan”).

Products

We are a national coffee roaster, wholesaler and distributor of coffee, tea and culinary products manufactured under supply agreements, under our owned brands, as well as under private labels on behalf of certain customers. Our product categories consist of the following:

- a robust line of roast and ground coffee, including organic, Direct Trade, DTVS and other sustainably-produced offerings;
- frozen liquid coffee;
- flavored and unflavored iced and hot teas;
- culinary products including gelatins and puddings, soup bases, dressings, gravy and sauce mixes, pancake and biscuit mixes, jellies and preserves, and coffee-related products such as coffee filters, sugar and creamers;
- spices; and
- other beverages including cappuccino, cocoa, granitas, and ready-to-drink iced coffee.

Our owned brand products are sold primarily into the foodservice channel. Our primary brands include Farmer Brothers™, Artisan Collection by Farmer Brothers™, Superior Metropolitan™ and China Mist™. Our Artisan coffee products include Direct Trade, Fair Trade Certified™, Rainforest Alliance Certified™, organic and proprietary blends. In addition, we sell whole bean and roast and ground flavored and unflavored coffee products under the Un Momento®, Collaborative Coffee™, Cain's™ and McGarvey™ brands and iced and hot teas under the China Mist® brand at retail. Our roast and ground coffee products are sold in traditional packaging, including bags and fractional packages, as well as single-serve packaging. Our China Mist tea products are sold in traditional tea bags and sachets, as well as single-serve tea pods and capsules. For a description of the amount of net sales attributed to each of our product categories in fiscal 2017, 2016 and 2015, see Management's Discussion and Analysis of Financial Conditions and Results of Operations—Results of Operations included in Part II, Item 7 of this report.

Business Strategy

Overview

We develop great tasting products delivered with concierge service with the goal of a positive impact on our customers and the planet. Through our sustainability, stewardship, environmental efforts, and leadership we are not only committed to serving the finest products available, considering the cost needs of the customer, but also insist on their sustainable cultivation, manufacture and distribution whenever possible.

In order to achieve our mission, we have had to grow existing capabilities and develop new ones over the years. More recently, we have undertaken initiatives such as, but not limited to, the following:

- develop new products in response to demographic and other trends to better compete in areas such as premium coffees and teas;
- grow through acquisitions to broaden our geographic reach and to increase our presence in the high-growth premium tea industry;
- implement a channel-based selling strategy to better address the unique needs of each customer channel, more quickly respond to industry trends, and improve sales growth while maintaining the value-add provided by the DSD delivery and service model;
- rethink aspects of our Company culture to improve productivity and employee engagement and to attract and retain talent;
- embrace sustainability across our operations, in the quality of our products, as well as, how we treat our coffee growers; and

ensure our systems and processes provide the highest quality products at a competitive cost, protection against cyber threats, and a safe environment for our employees and partners.

We differentiate ourselves in the marketplace through our product offerings and through our customer service model, with quality and sustainability as the underpinning, which includes:

- a wide variety of coffee product offerings and packaging options across numerous brands and three quality tiers-value, premium and specialty;

- consumer-branded coffee and tea products;

- beverage equipment placement and service;

- hassle-free inventory and product procurement management;

- DSD service;

- merchandising support;

- product and menu insights; and

- a robust approach to social, environmental and economic sustainability throughout our business.

Our services provided to DSD customers are conducted primarily in person through Route Sales Representatives, or RSRs, who develop personal relationships with chefs, restaurant owners and food buyers at their delivery locations.

We also provide comprehensive coffee programs to our national account customers, including private brand development, green coffee procurement, hedging, category management, sustainable sourcing and supply chain management. Through China Mist Tea-Loving Care[®], we offer our customers an iced tea service that includes a diverse offering of on-trend products, brewing equipment expertly calibrated for extracting optimal flavor from our tea blends, specialized distribution, training and incentives, professional service, quality assurance, and strategic marketing support.

We distribute our owned brands primarily through our DSD network, and, in some cases, through third-party distributors, while continuing to support and grow our private label and other national account business. We also sell coffee and tea products directly to consumers through our website and China Mist's website, respectively, and sell certain products such as Un Momento[®], Collaborative Coffee[™], Cain's[™] and McGarvey[®] coffees and China Mist[®] teas at retail.

Strategic Initiatives

We are focused on the following strategies to reduce costs, streamline our supply chain, expand the breadth of products and services we provide to our customers, broaden our geographic reach, increase our presence in high growth industries and product categories, and better position the Company to attract new customers:

Reduce Costs to Compete More Effectively

- **New Facility.** In fiscal 2017, we completed construction of and relocation to our state-of-the-art facility in Northlake, Texas. We undertook this endeavor, in part, to pursue improved production efficiency to allow us to provide a more cost-competitive offering of high-quality products. We believe the ongoing improvements in production efficiency will allow us to operate at a lower cost, generally.

DSD Restructuring Plan. As a result of an ongoing operational review of various initiatives within our DSD selling organization, in the third quarter of fiscal 2017, we commenced the DSD Restructuring Plan to reorganize our DSD operations in an effort to realign functions into a channel-based selling organization, streamline operations, acquire certain channel specific expertise, and improve selling effectiveness and financial results. We began recognizing cost benefits associated with the restructuring in the fourth quarter of fiscal 2017 and we anticipate annualized savings from the restructuring plan beginning in the second quarter of fiscal 2018. We expect to complete the DSD Restructuring Plan by the end of the second quarter of fiscal 2018. We continue to analyze our DSD organization and evaluate other potential restructuring opportunities in light of our strategic priorities.

Third-Party Logistics. During the second half of fiscal 2016, we replaced our long-haul fleet operations with third-party logistics ("3PL"). In fiscal 2017, we experienced a reduction in our fuel consumption and empty

trailer miles, while improving our intermodal and trailer cube utilization as compared to the prior fiscal year. Aligning with our 3PL partner has allowed us to more efficiently manage routing thereby reducing diesel pollution in support of our sustainability efforts. Dynamic routing is expected to allow for further reduction of our carbon emissions in fiscal 2018.

Vendor Managed Inventory. During the second half of fiscal 2016, we entered into a third-party vendor managed inventory arrangement. The use of vendor managed inventory arrangements has begun to yield benefits in fiscal 2017 by enabling us to reconfigure our packaging methodology, eliminating duplication but resulting in the same strength packaging with less material, thereby reducing waste and contributing to our sustainability efforts.

Warehouse Management. In the first quarter of fiscal 2017, we entered into an agreement with a third party to provide warehouse management services for our New Facility. We expect the warehouse management services to facilitate cost savings by leveraging the third party's expertise in opening new facilities, implementing lean management practices, improving performance on certain key performance metrics, and standardizing best practices.

Optimize Sales, Pricing and Portfolio of Products

Pricing and Products. In fiscal 2016, we built capability to more strategically optimize our pricing strategy across product, channel, customer and geographic segments, which we continued in fiscal 2017. This process is designed to improve our average margins as well as retention rates. In addition, in fiscal 2017, we continued our prior work optimizing SKU count and identifying opportunities to consolidate suppliers to improve costs and supply chain efficiency.

Channel-Based Selling Organization. Changing from a geographic to a channel-based selling strategy as part of the DSD Restructuring Plan is expected to allow us to better serve our customers and improve sales growth while maintaining the value-add provided by the DSD delivery and service model. We believe this new, channel-based sales strategy will empower our sales organization to better address the unique needs of each customer channel thereby deepening our customer relationships, allow us to create a more comprehensive customer support structure, enhance our marketing efforts, and allow us to respond more quickly to industry trends.

Strategic Investment in Assets and Evaluation of Cost Structure

Acquisitions. One of our investment priorities is exploring acquisitions that we believe will enhance long-term stockholder value and complement or enhance our product, equipment, service and/or distribution offerings to existing and new customer bases. For example, in fiscal 2017, we completed the China Mist acquisition to extend our tea product offerings and give us a greater presence in the high-growth premium tea industry, and the West Coast Coffee acquisition to broaden our reach in the Northwestern United States. Additionally, on August 18, 2017, we entered into an agreement to acquire Boyd Coffee Company. The Boyd Coffee Company acquisition is expected to add to our product portfolio, improve our growth potential, broaden our distribution footprint with a deeper penetration on the West Coast of the United States, and increase our capacity utilization at our production facilities. The transaction is expected to close in the second quarter of fiscal 2018, subject to certain closing conditions. See [Note 3](#), Acquisitions, and [Note 26](#), Subsequent Events—Boyd's Purchase Agreement, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Asset Utilization. We continue to look for ways to deploy our personnel, systems, assets and infrastructure to create or enhance stockholder value. Areas of focus have included corporate staffing and structure, methods of procurement, logistics, inventory management, supporting technology, and real estate assets.

Branch Consolidation and Property Sales. In an effort to streamline our branch operations, in the fourth quarter of fiscal 2016, we sold two Northern California branch properties, with a third Northern California property under contract for sale, and we acquired a new branch facility in Hayward, California. The third Northern California property was sold in fiscal 2017. We evaluate our branch operation structure on an ongoing basis to identify opportunities to streamline the supply chain and reduce costs.

Corporate Capabilities and Alignment to Create Stockholder Value

Investment in Human Resources. In February 2017, we hired David G. Robson as our Treasurer and Chief Financial Officer and Ellen D. Iobst as our Chief Operations Officer. We also promoted Scott Siers to our

executive management team as Senior Vice President and General Manager—Direct Ship. Each of these individuals brings a proven track record of strategic and operational leadership capabilities in finance and/or manufacturing operations at large consumer goods organizations.

Commitment to Employee Wellness. We are committed to creating a healthier and happier workforce which we believe contributes to our success. We have received certifications as a Fit-Friendly Worksite and a Blue Zone Workplace based on the activities and environment created in our workplace to support healthy living and promote wellness of our associates.

Employee Development. We have invested in a Learning Management System to enable training facilitation and tracking of training modules to support the development of employees at all levels and functions within the organization. We recently completed a Talent Planning Process of all exempt level employees across the organization. We calibrated the assessment of talent and created succession charts for all critical roles to ensure we have the right talent and capabilities to support the business today and in the future.

Performance Driven Culture

In fiscal 2017, we continued to emphasize greater alignment of employee individual goals with Company goals under our compensation plans in order to focus the entire organization on the effort to create value for our stockholders.

Drive High-Growth Product Categories and Address Broader Customer Needs

Introduction of Collaborative Coffee™ and Redesign of Un Momento® Branded Retail Products. In an effort to address what we believe to be unmet consumer needs and improve margin within the retail grocery environment, in fiscal 2016 we launched the Collaborative Coffee™ brand into the retail grocery channel and completed a packaging redesign and product portfolio optimization of our Un Momento® retail branded product line. Collaborative Coffee™ offers coffee enthusiasts a super-premium, verified direct trade coffee at an approachable price. Un Momento® delivers Millennial Hispanic consumers appealing flavor variety and premium coffee at an exceptional value.

Growth in Premium Tea Industry. In fiscal 2017, we increased our presence in the high-growth premium tea industry through the China Mist acquisition. In fiscal 2017, we introduced a new retail line of China Mist naturally flavored iced teas which are naturally gluten-free and blended with all-natural flavorings, and a new line of Artisan hot teas.

Product Development Lab. In fiscal 2017, we opened our product development lab at the New Facility where we are focused on developing innovative products in response to industry trends and customer needs. In fiscal 2017, we developed new products including Artisan Cold Brew Coffee and Artisan Direct Trade Coffee.

SQF Certification. We are committed to the highest standards in food quality and safety. We have obtained the Safety Quality Food (“SQF”) certification under the Global Food Safety Initiative in our Portland and Houston facilities and are in the process of obtaining the SQF certification for the New Facility.

Expand Sustainability Leadership

Sustainability. We believe that our collective efforts in measuring our social and environmental impact, creating programs for waste, water and energy reduction, promoting partnerships in our supply chain that aim at supply chain stability and food security, and focusing on employee engagement place us in a unique position to help retailers and foodservice operators create differentiated coffee and tea programs that can include sustainable supply chains, direct trade purchasing, training and technical assistance, recycling and composting networks, and packaging material reductions. During fiscal 2017, we submitted our third third-party verified Carbon Disclosure Project survey for Scope 1, 2 and 3 emissions (direct emissions, indirect emissions from consumption of purchased electricity, heat or steam and other indirect emissions). Further, we published sustainability reports based on the Global Reporting Initiative’s core compliance standard in fiscal 2017 and 2016 relating to our fiscal 2016 and 2015 operations, respectively. In addition, China Mist is a member of the Ethical Tea Partnership (the “ETP”), a non-profit organization that works to improve the sustainability of the tea sector, the lives of tea

workers and farmers, and the environment in which tea is produced. As a member of the ETP, China Mist sources all its tea from tea plantations that are certified, monitored, and regularly audited by the ETP.

LEED® Certified Facilities. Our Portland production and distribution facility was one of the first in the Northwest to achieve LEED® Silver Certification. We anticipate that our corporate offices at the New Facility will also be LEED® certified.

Expansion of DTVS Program. In fiscal 2017, we completed our second third-party audit and verification of our DTVS program for sourcing green coffee. DTVS is an impact-based product or raw material sourcing framework that utilizes data-based sustainability metrics to influence an inclusive, collaborative approach to sustainability along the supply chain. To evaluate whether coffee is DTVS, we follow an outcome-based evaluation framework. The outcome of this evaluation weighs on where we invest our resources within our supply chain and has led to an increased level of transparency for us. DTVS represents a growing part of our coffee portfolio.

Green Coffee Traceability. We are committed to the inclusion of more sustainably-sourced coffees in our supply chain. Regulatory and reputational risks can increase when customers, roasters and suppliers cannot see back into their supply chain. To address these concerns, as well as to deepen our commitment to the longevity of the coffee industry, in fiscal 2017 we began tracking traceability levels from all green coffee suppliers on a per contract basis.

Supplier Sustainability. We are committed to working with suppliers who share our social, environmental and economic sustainability goals. Regulatory and reputational risks can increase when suppliers are not held to the same strict standards to which we hold ourselves. To address this concern, in fiscal 2017, we surveyed all green coffee suppliers along with our top non-raw coffee suppliers to assess their social, environmental, and economic sustainability practices and alignment with the United Nations Global Compact, a United Nations initiative to encourage businesses worldwide to adopt sustainable and socially responsible policies.

Charitable Activities

We view charitable involvement as a part of our corporate responsibility and sustainability model: Social, Environmental, and Economic Development, or SEED. We endorse and support communities where our customers, employees, businesses, and suppliers are located, and who have enthusiastically supported us over the past 100 years. Our objective is to provide support toward a mission of supply chain stability with a focus on food security.

Recipient organizations include those with strong local and regional networks that ensure that families have access to nutritious food. Donations may take the form of corporate cash contributions, product donations, employee volunteerism, and workplace giving (with or without matching contributions).

Recipient organizations include Feeding America, Ronald McDonald House, and local food banks.

We support industry organizations such as World Coffee Research, which commits to grow, protect, and enhance supplies of quality coffee while improving the livelihoods of the families who produce it, and the Specialty Coffee Association (“SCA”) Sustainability Council and the Coalition for Coffee Communities, which are focused on sustainability in coffee growing regions.

Our employee-driven CAFÉ Crew organizes employee involvement at local charities and fund raisers, including running in the Chicago Marathon in support of Team Ronald McDonald House, riding in the Ride Against Hunger supported by Tarrant Area Food Bank, supporting delivery for Meals on Wheels, and hosting local food drives.

All of our usable and near expiring products or products with damaged packaging are donated to Feeding America affiliated food banks nationwide, in an effort to fully eliminate edible food waste from the landfill.

Industry and Market Leadership

We have made the following investments in an effort to ensure we are well-positioned within the industry to take advantage of category trends, industry insights, and general coffee and tea knowledge to grow our business:

Coffee Industry Leadership. Through our dedication to the craft of sourcing, blending and roasting coffee, and our participation and/or leadership positions with the SCA, National Coffee Association, Coalition for Coffee Communities, International Women's Coffee Alliance, International Foodservice Manufacturers Association, Pacific Coast Coffee Association, Roasters Guild and World Coffee Research, we work to help shape the future of the coffee industry. We believe that due to our commitment to the industry, large retail and foodservice operators are drawn to working with us. We were among the first coffee roasters in the nation to receive SCA certification of a state-of-the-art coffee lab and operate Public Domain®, a specialty coffeehouse in Portland, Oregon. We plan to submit our product development lab at the New Facility for SCA certification.

Market Insight and Consumer Research. We have developed a market insight capability internally that reinforces our business-to-business positioning as a thought leader in the coffee and tea industries. We provide trend insights that help our customers create winning products and integrated marketing strategies. Within this, we are focused on understanding key demographic groups such as Millennials and Hispanics, and key channel trends.

Raw Materials and Supplies

Our primary raw material is green coffee, an agricultural commodity traded on the Commodities and Futures Exchange that is subject to price fluctuations. Over the past five years, coffee “C” market price per pound ranged from approximately \$1.02 to \$2.22. The coffee “C” market price as of June 30, 2017 and 2016 was \$1.26 and \$1.46 per pound, respectively. Our principal packaging materials include cartonboard, corrugated and plastic. We also use a significant amount of electricity, natural gas, and other energy sources to operate our production and distribution facilities.

We purchase green coffee beans from multiple coffee regions around the world. Coffee “C” market prices in fiscal 2017 traded in a 60 cent range during the year, but averaged near the historical average for the past five years. There can be no assurance that green coffee prices will remain at these levels in the future. Some of the Arabica coffee beans we purchase do not trade directly on the commodity markets. Rather, we purchase these coffee beans on a negotiated basis from coffee brokers, exporters and growers, including Direct Trade, DTVS and Fair Trade Certified™ sources and Rainforest Alliance Certified™ farms. Fair Trade Certified™ provides an assurance that farmer groups are receiving the Fair Trade minimum price and an additional premium for certified organic products through arrangements with cooperatives. Direct Trade and DTVS products provide similar assurance except that the arrangements are provided directly to farmers instead of through brokers in an effort to promote investment in better and more sustainable farming practices as well as to ensure a fairer price. Rainforest Alliance Certified™ coffee is grown using methods that help promote and preserve biodiversity, conserve scarce natural resources, and help farmers build sustainable lives. Our business model strives to reduce the impact of green coffee price fluctuations on our financial results and to protect and stabilize our margins, principally through customer arrangements and derivative instruments, as further explained in Note 8, Derivative Instruments, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Intellectual Property

We own a number of United States trademarks and service marks that have been registered with the United States Patent and Trademark Office. We also own other trademarks and service marks for which we have filed applications for U.S. registration. We have licenses to use certain trademarks outside of the United States and to certain product formulas, all subject to the terms of the agreements under which such licenses are granted. We believe our trademarks and service marks are integral to customer identification of our products. It is not possible to assess the impact of the loss of such identification. Depending on the jurisdiction, trademarks are generally valid as long as they are in use and/or their registrations are properly maintained and they have not been found to have become generic. Registrations of trademarks can also generally be renewed indefinitely as long as the trademarks are in use. In addition, we own numerous copyrights, registered and unregistered, registered domain names, and proprietary trade secrets, technology, know-how processes and other proprietary rights that are not registered.

Seasonality

We experience some seasonal influences. The winter months are generally the strongest sales months. However, our product line and geographic diversity provide some sales stability during the warmer months when coffee consumption ordinarily decreases. Additionally, we usually experience an increase in sales during the summer and

early fall months from seasonal businesses located in vacation areas and from grocery retailers ramping up inventory for the winter selling season.

7

Because of the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for the full fiscal year.

Distribution

We operate production facilities in Northlake, Texas; Houston, Texas; Portland, Oregon; Hillsboro, Oregon; and Scottsdale, Arizona. Distribution takes place out of the New Facility, the Portland, Hillsboro and Scottsdale facilities, as well as separate distribution centers in Northlake, Illinois; and Moonachie, New Jersey. We commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. We began roasting coffee in the New Facility in the fourth quarter of fiscal 2017. Our products reach our customers primarily in two ways: through our nationwide DSD network of 450 delivery routes and 114 branch warehouses as of June 30, 2017, or direct-shipped via common carriers or third-party distributors. DSD sales are made “off-truck” to our customers at their places of business by our RSRs who generally are responsible for soliciting, selling and collecting from and otherwise maintaining our customer accounts. Our DSD business includes office coffee services whereby we provide office coffee and tea products, including a variety of coffee brands and blends, brewing and beverage equipment, and foodservice supplies directly to offices. We operate a large fleet of trucks and other vehicles to distribute and deliver our products, and we rely on 3PL service providers for our long-haul distribution. We maintain inventory levels at each branch warehouse to promote minimal interruption in supply. We also sell coffee and tea products directly to consumers through our website and China Mist's website, respectively.

Customers

We serve a wide variety of customers, from small independent restaurants and foodservice operators to large institutional buyers like restaurant and convenience store chains, hotels, casinos, healthcare facilities, and gourmet coffee houses, as well as grocery chains with private brand and consumer-branded coffee and tea products. Although no single customer accounted for 10% or more of our net sales in any of the last three fiscal years, we have several large national account customers, the loss of or reduction in sales to one or more of which would be likely to have a material adverse effect on our results of operations. During fiscal 2017, our top five customers accounted for approximately 21% of our net sales.

Most of our customers rely on us for distribution; however, some of our customers use third-party distribution or conduct their own distribution. Some of our customers are “price” buyers, seeking the low-cost provider with little concern about service, while others find great value in the service programs we provide. We offer a full return policy to ensure satisfaction and extended terms for those customers who qualify. Historically, our product returns have not been significant.

Competition

The coffee industry is highly competitive, including with respect to price, product quality, service, convenience and innovation, and competition could become increasingly more intense due to the relatively low barriers to entry. We face competition from many sources, including the institutional foodservice divisions of multi-national manufacturers of retail products many of which have greater financial and other resources than we do, such as The J.M. Smucker Company (Folgers Coffee), Dunkin' Brands Group, Inc., The Kraft Heinz Company (Maxwell House Coffee) and Massimo Zanetti Beverage, wholesale foodservice distributors such as Sysco Corporation and US Foods, regional coffee roasters such as S&D Coffee & Tea (Cott Corporation) and Boyd Coffee Company, specialty coffee suppliers such as Keurig Green Mountain, Inc., Rogers Family Company, Distant Lands Coffee, Mother Parkers Tea & Coffee Inc., Starbucks Corporation and Peet's Coffee & Tea, and retail brand beverage manufacturers. As many of our customers are small foodservice operators, we also compete with cash and carry and club stores (physical and on-line) such as Costco, Sam's Club and Restaurant Depot and on-line retailers such as Amazon. We also face competition from growth in the single-serve, ready-to-drink coffee beverage and cold-brewed coffee channels, as well as competition from other beverages, such as soft drinks (including highly caffeinated energy drinks), juices, bottled water, teas and other beverages.

We believe our longevity, product quality and offerings, national distribution network, industry and sustainability leadership, market insight, comprehensive approach to customer relationship management, and superior customer service are the major factors that differentiate us from our competitors. We compete well when these factors are

valued by our customers, and we are less effective when only price matters. Our customer base is price sensitive, and we are often faced with price competition.

8

Working Capital

We finance our operations internally and through borrowings under our existing credit facility. For a description of our liquidity and capital resources, see Results of Operations and Liquidity, Capital Resources and Financial Condition included in Part II, Item 7 of this report and Note 19, Other Current Liabilities, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report. Our working capital needs are greater in the months leading up to our peak sales period during the winter months, which we typically finance with cash flows from operations. In anticipation of our peak sales period, we typically increase inventory in the first quarter of the fiscal year. We use various techniques including demand forecasting and planning to determine appropriate inventory levels for seasonal demand.

Regulatory Environment

The conduct of our businesses, including, among other things, the production, storage, distribution, sale, labeling, quality and safety of our products, and occupational safety and health practices, are subject to various laws and regulations administered by federal, state and local governmental agencies in the United States. Our facilities are subject to various laws and regulations regarding the release of material into the environment and the protection of the environment in other ways. We are not a party to any material legal proceedings arising under these regulations except as described in Note 23, Commitments and Contingencies, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Employees

On June 30, 2017, we employed approximately 1,610 employees, 442 of whom are subject to collective bargaining agreements.

Other

The nature of our business does not provide for maintenance of or reliance upon a sales backlog. None of our business is subject to renegotiation of profits or termination of contracts or subcontracts at the election of the government. We have no material revenues from foreign operations or long-lived assets located in foreign countries.

Available Information

Our Internet website address is <http://www.farmerbros.com> (the website address is not intended to function as a hyperlink, and the information contained in our website is not intended to be part of this filing), where we make available, free of charge, through a link maintained on our website under the heading “Investor Relations—SEC Filings,” copies of our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, including amendments thereto, as soon as reasonably practicable after filing such material electronically or otherwise furnishing it to the SEC. Copies of our Corporate Governance Guidelines, the Charters of the Audit, Compensation, and Nominating and Corporate Governance Committees of the Board of Directors, and our Code of Conduct and Ethics can also be found on our website.

Item 1A. Risk Factors

You should carefully consider each of the following factors, as well as the other information in this report, in evaluating our business and prospects. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently consider immaterial may also negatively affect our business operations. If any of the following risks actually occurs, our business, financial condition and results of operations could be harmed. In that case, the trading price of our common stock could decline. Our DSD Restructuring Plan may be unsuccessful or less successful than we presently anticipate, which may adversely affect our business, operating results and financial condition.

On February 21, 2017, we announced the DSD Restructuring Plan in an effort to realign functions into a channel-based selling organization, streamline operations, acquire certain channel specific expertise, and improve selling effectiveness and financial results. We cannot guarantee that we will be successful in implementing the DSD Restructuring Plan in a timely manner or at all, or that such efforts will not interfere with our ability to achieve our business objectives. The DSD Restructuring Plan costs may be greater than anticipated which could cause us to incur indebtedness in amounts in excess of expectations. We may be unable to realize the contemplated benefits in connection with the reduction in workforce and other potential restructuring activities, which may have an adverse impact on our performance. Moreover, reductions in force can be difficult to manage, may cause concerns from current and potential customers, suppliers and other third parties with whom we do business which may cause them to delay or curtail doing business with us, may increase the likelihood of key employees leaving the Company or may make it more difficult to recruit new employees, and may have an adverse impact on our business. If we fail to achieve our objectives of the DSD Restructuring Plan, further restructuring may be necessary. Management continues to analyze the Company's DSD organization and evaluate other potential restructuring opportunities in light of the Company's strategic priorities which could result in additional restructuring charges the amount of which could be material. If we are unable to realize the anticipated benefits from our restructuring activities, we could be cost disadvantaged in the marketplace, and our competitiveness and our profitability could decrease.

Increases in the cost of green coffee could reduce our gross margin and profit.

Our primary raw material is green coffee, an agricultural commodity traded on the Commodities and Futures Exchange that is subject to price fluctuations. Although coffee "C" market prices in fiscal 2017 averaged near the historical average for the past five years, there can be no assurance that green coffee prices will remain at these levels in the future. The supply and price of green coffee may be impacted by, among other things, weather, natural disasters, real or perceived supply shortages, crop disease (such as coffee rust) and pests, general increase in farm inputs and costs of production, political and economic conditions, labor actions, foreign currency fluctuations, armed conflict in coffee producing nations, acts of terrorism, government actions and trade barriers, and the actions of producer organizations that have historically attempted to influence green coffee prices through agreements establishing export quotas or by restricting coffee supplies. Speculative trading in coffee commodities can also influence coffee prices. Additionally, specialty green coffees tend to trade on a negotiated basis at a premium above the "C" market price which premium, depending on the supply and demand at the time of purchase, may be significant. Increases in the "C" market price may also impact our ability to enter into green coffee purchase commitments at a fixed price or at a price to be fixed whereby the price at which the base "C" market price will be fixed has not yet been established. There can be no assurance that our purchasing practices and hedging activities will mitigate future price risk. As a result, increases in the cost of green coffee could have an adverse impact on our profitability.

Our efforts to secure an adequate supply of quality coffees and other raw materials may be unsuccessful and impact our ability to supply our customers or expose us to commodity price risk.

Maintaining a steady supply of green coffee is essential to keeping inventory levels low while securing sufficient stock to meet customer needs. We rely upon our ongoing relationships with our key suppliers to support our operations. Some of the Arabica coffee beans we purchase do not trade directly on the commodity markets. Rather, we purchase these coffee beans on a negotiated basis from coffee brokers, exporters and growers. If any of these supply relationships deteriorate or we are unable to renegotiate contracts with suppliers (with similar or more favorable terms) or find alternative sources for supply, we may be unable to procure a sufficient quantity of high quality coffee beans and other raw materials at prices acceptable to us or at all which could negatively affect our results of

operations. Further, non-performance by

10

suppliers could expose us to credit and supply risk under coffee purchase commitments for delivery in the future. In addition, the political situation in many of the Arabica coffee growing regions, including Africa, Indonesia, and Central and South America, can be unstable, and such instability could affect our ability to purchase coffee from those regions. If green coffee beans from a region become unavailable or prohibitively expensive, we could be forced to use alternative coffee beans or discontinue certain blends, which could adversely impact our sales. A raw material shortage could result in disruptions in our ability to deliver products to our customers, a deterioration of our relationship with our customers, decreased revenues or could impair our ability to expand our business. Changes in green coffee commodity prices may not be immediately reflected in our cost of goods sold and may increase volatility in our results.

We purchase over-the-counter coffee derivative instruments to enable us to lock in the price of green coffee commodity purchases on our behalf or at the direction of our customers under commodity-based pricing arrangements. Although we account for certain coffee-related derivative instruments as accounting hedges, the portion of open hedging contracts that are not 100% effective as cash flow hedges and those that are not designated as accounting hedges are marked to period-end market price and unrealized gains or losses based on whether the period-end market price was higher or lower than the price we locked-in are recognized in our financial results at the end of each reporting period. If the period-end green coffee commodity prices decline below our locked in price for these derivative instruments, we will be required to recognize the resulting losses in our results of operations. Further, changes in commodity prices and the number of coffee-related derivative instruments held could have a significant impact on cash deposit requirements under our broker and counterparty agreements. Such transactions could cause volatility in our results because the recognition of losses and the offsetting gains may occur in different fiscal periods. Rapid, sharp decreases in the cost of green coffee could also force us to lower sales prices before realizing cost reductions in our green coffee inventory.

Our business and results of operations are highly dependent upon sales of roast and ground coffee products. Any decrease in the demand for coffee could materially adversely affect our business and financial results.

Sales of roast and ground coffee represented approximately 63%, 61% and 61% of our net sales in the fiscal years ended June 30, 2017, 2016 and 2015, respectively. Demand for our products is affected by, among other things, consumer tastes and preferences, global economic conditions, demographic trends and competing products. Any decrease in demand for our roast and ground coffee products would cause our sales and profitability to decline.

If we are unable to respond successfully to changing consumer preferences and trends related to our products, we may not be able to maintain or increase our revenues and profits.

Consumer preferences may change due to a variety of factors, including changes in consumer demographics, increasing awareness of the environmental and social effects of product production, social trends, negative publicity, economic downturn or other factors. Demand for our products depends on our ability to identify and offer products that appeal to these shifting preferences. If we fail to anticipate accurately and respond to trends and shifts in consumer preferences by adjusting the mix of existing product offerings and developing new products and categories, our business and results of operations could be negatively affected. We may not be successful in responding to changing consumer preferences, and some of our competitors may be better able to respond to these changes, either of which could negatively affect our business and financial performance.

Price increases may not be sufficient to offset cost increases or may result in volume declines which could adversely impact our revenues and gross margin.

Customers generally pay for our products based either on an announced price schedule or under commodity-based pricing arrangements whereby the changes in green coffee commodity and other input costs are passed through to the customer. The pricing schedule is generally subject to adjustment, either on contractual terms or in accordance with periodic product price adjustments, which may result in a lag in our ability to correlate the changes in our prices with fluctuations in the cost of raw materials and other inputs. Depending on contractual restrictions, we may be unable to pass some or all of these cost increases to our customers by increasing the selling prices of our products. If we are not successful in increasing selling prices sufficiently to offset increased raw material and other input costs, including packaging, direct labor and other overhead, or if our sales volume decreases significantly as a result of price increases, our results of operations and financial condition may be adversely affected.

We rely on co-packers to provide our supply of tea, spice and culinary products. Any failure by co-packers to fulfill their obligations or any termination or renegotiation of our co-pack agreements could adversely affect our results of operations.

We have a number of supply agreements with co-packers that require them to provide us with specific finished goods, including tea, spice and culinary products. For some of our products we essentially rely upon a single co-packer as our sole-source for the product. The failure for any reason of any such sole-source or other co-packer to fulfill its obligations under the applicable agreements with us, including the failure by our co-packers to comply with food safety, environmental, or other laws and regulations, or the termination or renegotiation of any such co-pack agreement could result in disruptions to our supply of finished goods, cause damage to our reputation and brands, and have an adverse effect on our results of operations. Additionally, our co-packers are subject to risk, including labor disputes, union organizing activities, financial liquidity, inclement weather, natural disasters, supply constraints, and general economic and political conditions that could limit their ability to timely provide us with acceptable products, which could disrupt our supply of finished goods, or require that we incur additional expense by providing financial accommodations to the co-packer or taking other steps to seek to minimize or avoid supply disruption, such as establishing a new co-pack arrangement with another provider. A new co-pack arrangement may not be available on terms as favorable to us as our existing co-pack arrangements, or at all.

Competition in the coffee industry and beverage category could impact our profitability.

The coffee industry is highly competitive, including with respect to price, product quality, service, convenience and innovation, and competition could become increasingly more intense due to the relatively low barriers to entry. We face competition from many sources, including the institutional foodservice divisions of multi-national manufacturers of retail products many of which have greater financial and other resources than we do, wholesale foodservice distributors, regional coffee roasters, specialty coffee suppliers, and retail brand beverage manufacturers. As many of our customers are small foodservice operators, we also compete with cash and carry and club stores and on-line retailers. If we do not succeed in differentiating ourselves through, among other things, our product and service offerings, then our competitive position may be weakened and our sales and profitability may be materially adversely affected. If, due to competitive pressures or contractual restrictions, we are required to reduce prices to attract market share or we are unable to increase prices in response to commodity and other cost increases, our results of operations could be adversely affected if we are not able to increase sales volumes to offset the margin declines. If our retail customers do not allocate adequate shelf space for the beverages we supply, we could experience a decline in our product volumes. Increased competition in the single-serve, ready-to-drink coffee beverage and cold-brewed coffee channels, as well as competition from other beverages, such as soft drinks (including highly caffeinated energy drinks), juices, bottled water, teas and other beverages, may also have an adverse impact on sales of our coffee products.

We face exposure to other commodity cost fluctuations, which could impact our margins and profitability.

In addition to green coffee, we are exposed to cost fluctuations in other commodities under supply arrangements, including raw materials, tea, spices, and packaging materials such as cartonboard, corrugated and plastic. We purchase certain ingredients, finished goods and packaging materials under cost-plus supply arrangements whereby our cost may increase based on an increase in the underlying commodity price or changes in production costs. The cost of these commodities depend on various factors beyond our control, including economic and political conditions, foreign currency fluctuations, and global weather patterns. The changes in the prices we pay may take place on a monthly, quarterly or annual basis depending on the product and supplier. Unlike green coffee, we do not purchase any derivative instruments to hedge cost fluctuations in these other commodities. As a result, to the extent we are unable to pass along such costs to our customers through price increases, our margins and profitability will decrease.

Increase in the cost, disruption of supply or shortage of energy or fuel could affect our profitability.

We operate a large fleet of trucks and other vehicles to distribute and deliver our products, and we rely on 3PL service providers for our long-haul distribution. Certain products are also distributed by third parties or direct shipped via common carrier. In addition, we use a significant amount of electricity, natural gas and other energy sources to operate our production and distribution facilities. An increase in the price, disruption of supply or shortage of fuel and other energy sources that may be caused by increasing demand or by events such as natural disasters, power outages, or the

like, could lead to higher electricity, transportation and other commodity costs, including the pass-through of such costs under our agreements with 3PL service providers and other suppliers, that could negatively impact our profitability.

12

Loss of business from one or more of our large national account customers and efforts by these customers to improve their profitability could have a material adverse effect on our operations.

We have several large national account customers, the loss of or reduction in sales to one or more of which is likely to have a material adverse effect on our results of operations. During fiscal 2017, our top five customers accounted for approximately 21% of our net sales. We generally do not have long-term contracts with our customers. Accordingly, our customers can stop purchasing our products at any time without penalty and are free to purchase products from our competitors. There can be no assurance that our customers will continue to purchase our products in the same quantities as they have in the past. In addition, because of the competitive environment facing many of our customers and industry consolidation which has produced large customers with increased buying power and negotiating strength, our customers have increasingly sought to improve their profitability through pricing concessions and more favorable trade terms. To the extent we provide pricing concessions or favorable trade terms, our margins would be reduced. If we are unable to continue to offer terms that are acceptable to our customers, they may reduce purchases of our products which would adversely affect our financial performance. Requirements that may be imposed on us by our customers, such as sustainability, inventory management or product specification requirements, may have an adverse effect on our results of operations. Additionally, our customers may face financial difficulties, bankruptcy or other business disruptions that may impact their operations and their purchases from us and may affect their ability to pay us for products which could adversely affect our sales and profitability.

We rely on information technology and are dependent on enterprise resource planning software in our operations. Any material failure, inadequacy, interruption or security failure of that technology could affect our ability to effectively operate our business.

Our ability to effectively manage our business, maintain financial accuracy and efficiency, comply with regulatory, financial reporting, legal and tax requirements, and coordinate the production, distribution and sale of our products depends significantly on the reliability, capacity and integrity of information technology systems on which we rely. We are also dependent on enterprise resource planning software for some of our information technology systems and support. The failure of these systems to operate effectively and continuously, due to, among other things, natural disasters, terrorist attacks, software, equipment or telecommunications failures, issues with performance by third-party providers, processing errors, computer viruses, hackers, cyberattack or other security issues, supplier defects, power outages, inadequate or ineffective redundancy, or problems with transitioning to upgraded or replacement systems, could result in delays in processing replenishment orders from our branch warehouses, an inability to record input costs or product sales accurately or at all, an impaired understanding of our operations and results, an increase in operating expenses, reduced operational efficiency, loss of customers or other business disruptions, all of which could negatively affect our business and results of operations. Security, backup and disaster recovery measures may not be adequate or implemented properly to avoid such disruptions or failures. Failure to effectively allocate and manage our resources to support our information technology infrastructure could result in transaction errors, processing inefficiencies, the loss of customers, business disruptions, or the loss of sensitive or confidential data through security breach or otherwise. Significant capital investments could be required to remediate any potential problems or to otherwise protect against security breaches or to address problems caused by breaches.

If we are unable to securely maintain confidential information relating to our customers, suppliers, employees or our Company, we could be subject to negative publicity, costly government enforcement actions or private litigation, which could damage our business reputation and negatively affect our results of operations.

The protection of our customer, supplier, employee, and Company data is critical. If we experience a data security breach of any kind, we may experience a loss of critical data, suffer financial or reputational damage or penalties, or face exposure to negative publicity, government enforcement actions, private litigation or costly response measures. In addition, our reputation within the business community and with our customers and suppliers may be affected, which could result in our customers and suppliers ceasing to do business with us which could adversely affect our business and results of operations. Our insurance policies do not cover losses caused by security breaches.

Interruption of our supply chain, including a disruption in operations at any of our production and distribution facilities, could affect our ability to manufacture or distribute products and could adversely affect our business and sales.

We rely on a limited number of production and distribution facilities. A disruption in operations at any of these facilities or any other disruption in our supply chain relating to green coffee supply, service by our 3PL service providers or common carriers, supply of raw materials and finished goods under co-pack or vendor-managed inventory arrangements, or otherwise, whether as a result of casualty, natural disaster, power loss, telecommunications failure, terrorism, labor shortages, contractual disputes, weather, environmental incident, pandemic, strikes, the financial or operational instability of key suppliers, distributors and transportation providers, or other causes, could significantly impair our ability to operate our business and adversely affect our relationship with our customers. In such event, we may also be forced to contract with alternative, and possibly more expensive, suppliers or service providers, which would adversely affect our profitability. Alternative facilities with sufficient capacity or capabilities may not be available, may cost substantially more or may take a significant time to start production, each of which could negatively impact our business and results of operations. Additionally, the majority of our green coffee comes through the Ports of Houston and Seattle. Any interruption to port operations, highway arteries, gas mains or electrical service in the areas where we operate or obtain products or inventory could restrict our ability to manufacture and distribute our products for sale and would adversely impact our business.

Our failure to accurately forecast demand for our products or quickly respond to forecast changes could have an adverse effect on our sales.

Based upon our forecasts of customer demand, we set target levels for the manufacture of our products and for the purchase of green coffee in advance of customer orders. If our forecasts exceed demand, we could experience excess inventory and manufacturing capacity and/or price decreases or we could be required to write-down expired or obsolete inventory, which could adversely impact our financial performance. Alternatively, if demand for our products increases more than we currently forecast and we are unable to satisfy increases in demand through our current manufacturing capacity or appropriate third-party providers, or we are unable to obtain sufficient raw materials inventories under vendor-managed inventory arrangements or otherwise, we may not be able to satisfy customer demand for our products which could have an adverse impact on our sales and reputation.

We depend on the expertise of key personnel. The unexpected loss of one or more of these key employees or difficulty recruiting and retaining qualified personnel could have a material adverse effect on our operations and competitive position.

Our success largely depends on the efforts and abilities of our executive officers and other key personnel. There is limited management depth in certain key positions throughout the Company. We must continue to recruit, retain, motivate and develop management and other employees sufficiently to maintain our current business and support our projected growth and strategic initiatives. This may require significant investments in training, coaching and other career development and retention activities. Activities related to identifying, recruiting, hiring and integrating qualified individuals require significant time and attention. We may also need to invest significant amounts of cash and equity to attract talented new employees, and we may never realize returns on these investments. Competition for talent is intense, and we might not be able to identify and hire the personnel we need to continue to evolve and grow our business. If we are not able to effectively retain and grow our talent, our ability to achieve our strategic objectives will be adversely affected, which may impact our financial condition and results of operations. Further, any unplanned turnover or failure to develop or implement an adequate succession plan for our CEO, CFO, senior management and other key employees, could deplete our institutional knowledge base, erode our competitive advantage, and negatively affect our business, financial condition and results of operations. We do not maintain key person life insurance policies on any of our executive officers.

Investment in acquisitions could disrupt our ongoing business, not result in the anticipated benefits and present risks not originally contemplated.

We have invested and in the future may invest in acquisitions which may involve risks and uncertainties, including the risks involved with entering new product categories or geographic regions, contingent risks associated with the past operations of or other unanticipated problems arising in any acquired business, limited warranties and indemnities

from the sellers of acquired businesses, the challenges of achieving strategic objectives and other benefits expected from acquisitions, failure to implement our business plan for the combined business, the diversion of our attention and resources from our operations and other initiatives, the potential impairment of acquired assets and liabilities, the performance of underlying

14

products, capabilities or technologies, inconsistencies in standards, controls, procedures, policies and compensation structures of the acquired businesses and our business, the potential loss of key personnel, customers and suppliers of the acquired businesses, and other unanticipated issues, expenses and liabilities. The success of any such acquisitions will depend, in part, on our ability to realize all or some of the anticipated benefits from integrating the acquired businesses with our existing businesses, and to achieve revenue and cost synergies. The integration process may be complex, time consuming, costly, and subject to uncertainties and contingencies many of which may be beyond our control and difficult to predict, including issues in integrating financial, manufacturing, logistics, information, communications and other systems. Additionally, any such acquisitions may result in potentially dilutive issuances of our equity securities, the incurrence of additional debt, restructuring charges and the recognition of significant charges for depreciation and amortization related to intangible assets.

There can be no assurance that any such acquisitions will be identified or that we will be able to consummate any such acquisitions on terms favorable to us or at all, or that we will be able to maintain the levels of revenue, earnings or operating efficiencies expected. Furthermore, there can be no assurance that the synergies from any such acquisitions will be achieved within the anticipated time frame or at all, or that such synergies will not be offset by costs incurred in consummating such acquisitions or in integrating the acquired businesses, increases in expenses, operating losses or adverse business results. In addition, actual results may differ from pro forma financial information of the combined companies due to changes in the fair value of assets acquired and liabilities assumed, changes in assumptions used to form estimates, differences in accounting policies between the companies, and completion of purchase accounting. If any such acquisitions are not successful, our business and results of operations could be adversely affected.

We may devote a significant amount of our management's attention and resources to our ongoing review of strategic opportunities, and we may not be able to fully realize the potential benefit of any such opportunities that we pursue.

We may from time to time be engaged in evaluating strategic opportunities to complement our growth strategy, and we may engage in discussions that may result in one or more transactions. Although there would be uncertainty that any of these discussions would result in definitive agreements or the completion of any transaction, we may devote a significant amount of our management's attention and resources to evaluating and pursuing a transaction or opportunity, which could negatively affect our operations. In addition, we may incur significant costs in connection with evaluating and pursuing strategic opportunities, regardless of whether any transaction is completed. We may not fully realize the potential benefits of any transactions that we may pursue.

Increased severe weather patterns may increase commodity costs, damage our facilities and disrupt our production capabilities and supply chain.

There is increasing concern that a gradual increase in global average temperatures due to increased concentration of carbon dioxide and other greenhouse gases in the atmosphere have caused and will continue to cause significant changes in weather patterns around the globe and an increase in the frequency and severity of extreme weather events. Major weather phenomena like El Niño and La Niña are dramatically affecting coffee growing countries. The wet and dry seasons are becoming unpredictable in timing and duration, causing improper development of the coffee cherries. A large portion of the global coffee supply comes from Brazil and so the climate and growing conditions in that country carry heightened importance. Decreased agricultural productivity in certain regions as a result of changing weather patterns may affect the quality, limit the availability or increase the cost of key agricultural commodities, such as green coffee and tea, which are important ingredients for our products. We have experienced storm-related damages and disruptions to our operations in the recent past related to both winter storms as well as heavy rainfall and flooding. Increased frequency or duration of extreme weather conditions could also damage our facilities, impair production capabilities, disrupt our supply chain or impact demand for our products. As a result, the effects of climate change could have a long-term adverse impact on our business and results of operations.

Volatility in the equity markets or interest rate fluctuations could substantially increase our pension funding requirements and negatively impact our financial position.

At June 30, 2017, the projected benefit obligation under our single employer defined benefit pension plans exceeded the fair value of plan assets. The difference between the projected benefit obligation and the fair value of plan assets, or the funded status of the plans, significantly affects the net periodic benefit cost and ongoing funding requirements of those plans. Among other factors, changes in interest rates, mortality rates, early retirement rates, mix of plan asset

investments,

15

investment returns and the market value of plan assets can affect the level of plan funding, cause volatility in the net periodic benefit cost, increase our future funding requirements and require payments to the Pension Benefit Guaranty Corporation. In addition, facility closings may trigger cash payments or previously unrecognized obligations under our defined benefit pension plans, and the cost of such liabilities may be significant or may compromise our ability to close facilities or otherwise conduct cost reduction initiatives on time and within budget. A significant increase in future funding requirements could have a negative impact on our financial condition and results of operations.

Our sales and distribution network is costly to maintain.

Our sales and distribution network requires a large investment to maintain and operate. Costs include the fluctuating cost of gasoline, diesel and oil, costs associated with managing, purchasing, leasing, maintaining and insuring a fleet of delivery vehicles, the cost of maintaining distribution centers and branch warehouses throughout the country, the cost of our long-haul distribution and 3PL service providers, and the cost of hiring, training and managing our sales force. Many of these costs are beyond our control, and many are fixed rather than variable. Some competitors use alternate methods of distribution that fix, control, reduce or eliminate many of the costs associated with our method of distribution.

We are self-insured and our reserves may not be sufficient to cover future claims.

We are self-insured for many risks up to significant deductible amounts. The premiums associated with our insurance continue to increase. General liability, fire, workers' compensation, directors and officers liability, life, employee medical, dental and vision, and automobile risks present a large potential liability. While we accrue for this liability based on historical claims experience, future claims may exceed claims we have incurred in the past. Should a different number of claims occur compared to what was estimated or the cost of the claims increase beyond what was anticipated, reserves recorded may not be sufficient and the accruals may need to be adjusted accordingly in future periods.

Competitors may be able to duplicate our roasting and blending methods, which could harm our competitive position. We consider our roasting and blending methods essential to the flavor and richness of our coffees and, therefore, essential to our brand. Because our roasting methods cannot be patented, we would be unable to prevent competitors from copying these methods if such methods became known. If our competitors copy our roasts or blends, the value of our brand may be diminished, and we may lose customers to our competitors. In addition, competitors may be able to develop roasting or blending methods that are more advanced than our production methods, which may also harm our competitive position.

Failure to protect our intellectual property may adversely affect our competitive position.

We possess intellectual property that is important to our business. This intellectual property includes brand names, trademarks, trade names, service marks, copyrights, recipes, product formulas, business processes and other trade secrets. Our success depends, in part, on our ability to protect our intellectual property. We cannot be certain that the steps we take to protect our rights will be sufficient or that others will not infringe or misappropriate our rights. If we come into conflict with third parties over intellectual property rights it may disrupt our business, divert management attention from business operations and consume significant resources. If we are found to infringe on the intellectual property rights of others, we could incur significant damages, be enjoined from continuing to manufacture, market or use the affected product, or be required to obtain a license to continue manufacturing or using the affected product. Changing products or processes to avoid infringing the rights of others may be costly or impracticable, and a license may be unavailable on reasonable terms, if at all.

Employee strikes and other labor-related disruptions may adversely affect our operations.

We have union contracts relating to a significant portion of our workforce. Although we believe union relations have been amicable in the past, there is no assurance that this will continue in the future or that we will not be subject to future union organizing activity. There are potential adverse effects of labor disputes with our own employees or by others who provide warehousing, transportation (lines, truck drivers, 3PL service providers) or cargo handling (longshoremen), both domestic and foreign, of our raw materials or other products. Strikes or work stoppages or other business interruptions could occur if we are unable to renew collective bargaining agreements on satisfactory terms or enter into new agreements on satisfactory terms, which could impair manufacturing and distribution of our products or result in a loss of sales, which could adversely impact our business, financial condition or results of operations. The

terms and conditions of existing,

16

renegotiated or new collective bargaining agreements could also increase our costs or otherwise affect our ability to fully implement future operational changes to enhance our efficiency or to adapt to changing business needs or strategy.

We could face significant withdrawal liability if we withdraw from participation in the multiemployer pension plans in which we participate.

We participate in two multiemployer defined benefit pension plans and one multiemployer defined contribution pension plan for certain union employees. We make periodic contributions to these plans to allow them to meet their pension benefit obligations to their participants. Our required contributions to these plans could increase due to a number of factors, including the funded status of the plans and the level of our ongoing participation in these plans. Our risk of such increased payments may be greater if any of the participating employers in these underfunded plans withdraws from the plan due to insolvency and is not able to contribute an amount sufficient to fund the unfunded liabilities associated with its participants in the plan. In the event we withdraw from participation in one or more of these plans, we could be required to make an additional lump-sum contribution to the plan. Our withdrawal liability for any multiemployer pension plan would depend on the extent of the plan's funding of vested benefits. On July 13, 2017, we received correspondence from the Western Conference of Teamsters Pension Trust (the "WCT Pension Trust") stating that we had liability for a share of the Western Conference of Teamsters Pension Plan ("WCTPP") unfunded vested benefits based on the WCT Pension Trust's claim that certain of our employment actions resulting from the Corporate Relocation Plan amounted to a partial withdrawal from the WCTPP. See [Note 26](#), Subsequent Events--Western Conference of Teamsters Pension Trust, of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this report. The amount of any potential withdrawal liability associated with the WCTPP or any other multiemployer pension plan in which we participate could be material to our results of operations and cash flows.

Restrictive covenants in our credit facility may limit our ability to make investments or otherwise restrict our ability to pursue our business strategies.

Our credit facility contains various covenants that limit our ability to, among other things, make investments; incur additional indebtedness; create, incur, assume or permit any liens on our property; pay dividends under certain circumstances; and consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. Our credit facility also contains financial covenants relating to the maintenance of a fixed charge coverage ratio in certain circumstances. Our ability to meet those covenants may be affected by events beyond our control, and there can be no assurance that we will meet those covenants. The breach of any of these covenants could result in a default under the credit facility.

Future impairment charges could adversely affect our operating results.

At June 30, 2017, we had \$18.6 million in long-lived intangible assets, including recipes, non-compete agreements, customer relationships, trade names, trademarks and a brand name, and goodwill of \$11.0 million, associated with completed acquisitions. Acquisitions are based on certain target analysis and due diligence procedures designed to achieve a desired return or strategic objective. These procedures often involve certain assumptions and judgment in determining the acquisition price. After consummation of an acquisition, unforeseen issues could arise that adversely affect anticipated returns or that are otherwise not recoverable as an adjustment to the purchase price. Even after careful integration efforts, actual operating results may vary significantly from initial estimates. We perform an asset impairment analysis on an annual basis or whenever events occur that may indicate possible existence of impairment. Failure to achieve forecasted operating results, due to weakness in the economic environment or other factors, changes in market conditions, loss of or significant decline in sales to customers included in the intangible asset, changes in our imputed cost of capital, and declines in our market capitalization, among other things, could result in impairment of our intangible assets and goodwill and adversely affect our operating results.

We rely on independent certification for a number of our coffee products. Loss of certification could harm our business.

A number of our Artisan coffee products are independently certified as "Rainforest Alliance," "Organic" and "Fair Trade." We must comply with the requirements of independent organizations and certification authorities in order to label our products as certified. The loss of any independent certifications could adversely affect our reputation and competitive

position, which could harm our business.

17

Possible legislation or regulation intended to address concerns about climate change could adversely affect our results of operations, cash flows and financial condition.

Governmental agencies are evaluating changes in laws to address concerns about the possible effects of greenhouse gas emissions on climate. Increased public awareness and concern over climate change may increase the likelihood of more proposals to reduce or mitigate the emission of greenhouse gases. Laws enacted that directly or indirectly affect our suppliers (through an increase in the cost of production or their ability to produce satisfactory products) or our business (through an impact on our inventory availability, cost of goods sold, operations or demand for the products we sell) could adversely affect our business, financial condition, results of operations and cash flows. Compliance with any new or more stringent laws or regulations, or stricter interpretations of existing laws, including increased government regulations to limit carbon dioxide and other greenhouse gas emissions as a result of concern over climate change, could require us to reduce emissions and to incur compliance costs which could affect our profitability or impede the production or distribution of our products, which could affect our results of operations, cash flows and financial condition. In addition, public expectations for reductions in greenhouse gas emissions could result in increased energy, transportation and raw material costs and may require us to make additional investments in facilities and equipment.

Our operating results may have significant fluctuations from period to period which could have a negative effect on our stock price.

Our operating results may fluctuate from period to period as a result of a number of factors, including fluctuations in the price and supply of green coffee, fluctuations in the selling prices of our products, the success of our hedging strategy, changes in financial estimates by analysts or our inability to meet those financial estimates, changes in conditions or trends in our industry, geographies, or customers, activism by any large stockholder or group of stockholders, speculation by the investment community regarding our business, actual or anticipated growth rates relative to our competitors, terrorist acts, natural disasters, perceptions of the investment opportunity associated with our common stock relative to other investment alternatives, competition, changes in consumer preferences, seasonality, our ability to retain and attract customers, our ability to manage inventory and fulfillment operations and maintain gross margin, and period and year-end LIFO inventory adjustments. Fluctuations in our operating results due to these factors or for any other reason could cause our stock price to decline. In addition, the stock markets have experienced price and volume fluctuations that have affected and continue to affect the market price of equity securities issued by many companies. In the past, some companies that have had volatile market prices for their securities have been subject to class action or derivative lawsuits. The filing of a lawsuit against us, regardless of the outcome, could have a negative effect on our business, financial condition and results of operations, as it could result in substantial legal costs and a diversion of management's attention and resources. Accordingly, we believe that period-to-period comparisons of our operating results are not necessarily meaningful, and such comparisons should not be relied upon as indicators of future performance.

An increase in our debt leverage could adversely affect our liquidity and results of operations.

As of June 30, 2017 and 2016, we had outstanding borrowings under our credit facility of \$27.6 million and \$0.1 million, respectively, with excess availability of \$27.9 million and \$46.6 million, respectively. We may incur significant indebtedness in the future, including through additional borrowings under the credit facility, exercise of the accordion feature under the credit facility to increase the revolving commitment by up to an additional \$50.0 million, or otherwise. Our present indebtedness and any future borrowings could have adverse consequences, including:

- requiring a substantial portion of our cash flow from operations to make payments on our indebtedness;
- reducing the cash flow available or limiting our ability to borrow additional funds, to pay dividends, to fund capital expenditures and other corporate purposes and to pursue our business strategies;
- limiting our flexibility in planning for, or reacting to, changes in our businesses and the industries in which we operate;
- increasing our vulnerability to general adverse economic and industry conditions; and
- placing us at a competitive disadvantage compared to our competitors that have less debt.

To the extent we become more leveraged, we face an increased likelihood that one or more of the risks described above would materialize. In addition, if we are unable to make payments as they come due or comply with the

restrictions and covenants under the credit facility or any other agreements governing our indebtedness, there could be a default under

18

the terms of such agreements. In such event, or if we are otherwise in default under the credit facility or any such other agreements, the lenders could terminate their commitments to lend and/or accelerate the loans and declare all amounts borrowed due and payable. Furthermore, our lenders under the credit facility could foreclose on their security interests in our assets. If any of those events occur, our assets might not be sufficient to repay in full all of our outstanding indebtedness and we may be unable to find alternative financing on acceptable terms or at all. Failure to maintain existing or secure new financing could have a material adverse effect on our liquidity and financial position.

Borrowings under our credit facility bear interest at a variable rate exposing us to interest rate risk.

Our credit facility subjects us to interest rate risk. The rate at which we pay interest on outstanding amounts under the credit facility fluctuates with changes in interest rates and availability levels. As a result, we are exposed to changes in interest rates with respect to any amounts from time to time outstanding under our credit facility. If we are unable to adequately manage our debt structure in response to changes in the market, our interest expense could increase, which would negatively affect our financial condition and results of operations.

We may need additional financing in the future, and we may be unable to obtain that financing.

Our cash requirements in the future may be greater than expected. Should we experience a deterioration in operating performance, we will have less cash inflows from operations available to meet our financial obligations or to fund our other liquidity needs. In addition, if such deterioration were to lead to the closure of leased facilities, we would need to fund the costs of terminating those leases. If we are unable to generate sufficient cash flows from operations in the future to satisfy these financial obligations, we may be required to, among other things:

- seek additional financing in the debt or equity markets;

- refinance or restructure all or a portion of our indebtedness;

- sell selected assets; or

- reduce or delay planned capital or operating expenditures, strategic acquisitions or investments.

Such measures might not be sufficient to enable us to satisfy our financial obligations or to fund our other liquidity needs, and could impede the implementation of our business strategy, prevent us from entering into transactions that would otherwise benefit our business and/or have a material adverse effect on our financial condition and results of operations. In addition, any such financing, refinancing or sale of assets might not be available on economically favorable terms or at all. Our future operating performance and our ability to service or refinance our indebtedness will be subject to future economic conditions and to financial, business and other factors, many of which are beyond our control.

Stockholders may experience future dilution as a result of future equity offerings.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock which would result in those newly issued shares being dilutive. In addition, investors purchasing shares or other securities in the future could have rights superior to existing stockholders, which could dilute the value of outstanding shares. The price per share at which we sell additional shares of our common stock, or securities convertible or exchangeable into common stock, in future transactions may be higher or lower than the price per share paid by existing stockholders for their shares.

Customer quality control problems may adversely affect our brands thereby negatively impacting our sales.

Our success depends on our ability to provide customers with high-quality products and service. Although we take measures to ensure that we sell only fresh products, we have no control over our products once they are purchased by our customers. Accordingly, customers may prepare our products inconsistent with our standards, or store our products for longer periods of time, potentially affecting product quality. Clean water is critical to the preparation of coffee, tea and other beverages. We have no ability to ensure that our customers use a clean water supply to prepare these beverages. If consumers do not perceive our products and service to be of high quality, then the value of our brands may be diminished and, consequently, our operating results and sales may be adversely affected.

Adverse public or medical opinions about caffeine may harm our business and reduce our sales.

Coffee contains caffeine and other active compounds, the health effects of some of which are not fully understood. A number of research studies conclude or suggest that excessive consumption of caffeine may lead to increased adverse health effects. An unfavorable report or other negative publicity or litigation on the health effects of caffeine or other compounds present in coffee could significantly reduce the demand for coffee which could harm our business and reduce our sales. In addition, we could be subject to litigation relating to the existence of such compounds in our coffee which could be costly and adversely affect our business.

Instances or reports linking us to food safety issues could harm our business and lead to potential product recalls or product liability claims.

Selling products for human consumption involves inherent legal risks. Instances or reports of food safety issues involving our products, whether or not accurate, such as unclean water supply, food or beverage-borne illnesses, tampering, contamination, mislabeling, or other food or beverage safety issues, including due to the failure of our third-party co-packers to maintain the quality of our products and to comply with our product specifications, could damage the value of our brands, negatively impact sales of our products, and potentially lead to product recalls, production interruptions, product liability claims, litigation or damages. A significant product liability claim against us, whether or not successful, or a widespread product recall may reduce our sales and harm our business.

Government regulations affecting the conduct of our business could increase our operating costs, reduce demand for our products or result in litigation.

The conduct of our business is subject to various laws and regulations including those relating to food safety, ingredients, manufacturing, processing, packaging, storage, marketing, advertising, labeling, quality and distribution of our products, as well as environmental laws and those relating to worker health and workplace safety. These laws and regulations and interpretations thereof are subject to change as a result of political, economic or social events. Such changes may include changes in: food and drug laws, including the Food Safety Modernization Act of 2011 which requires, among other things, that food facilities conduct contamination hazard analyses, implement risk-based preventive controls and develop track-and-trace capabilities; laws relating to product labeling, advertising and marketing practices; accounting standards and taxation requirements; competition laws; environmental laws; laws regarding ingredients used in our products; and increased regulatory scrutiny of, and increased litigation involving, product claims and concerns regarding the effects on health of ingredients in, or attributes of, our products. In addition, our product advertising could make us the target of claims relating to false or deceptive advertising under U.S. federal and state laws, including the consumer protection statutes of some states. Any new laws and regulations or changes in government policy, existing laws and regulations or the interpretations thereof could require us to change certain of our operational processes and procedures, or implement new ones, and may increase our operating and compliance costs, which could adversely affect our results of operations. In some cases, increased regulatory scrutiny could interrupt distribution of our products or force changes in our production processes or procedures (or force us to implement new processes or procedures). If we fail to comply with applicable laws and regulations, we may be subject to civil remedies, including fines, injunctions, recalls or seizures, as well as potential criminal sanctions, which could have a material adverse effect on our results of operations and adversely affect our reputation and brand image. In addition, claims or liabilities of this sort may not be covered by insurance or by any rights of indemnity or contribution that we may have against others.

Members of the U.S. Congress and the new presidential administration have announced plans to repeal and replace the Patient Protection and Affordable Care Act and the Health Care Education Reconciliation Act of 2010. It is currently unclear how a repeal or replacement of these programs might affect healthcare costs. Government regulations affecting taxes, healthcare costs, energy usage, immigration and other labor issues may have a direct or indirect effect on our business or those of our customers or suppliers.

Significant additional labeling or warning requirements may increase our costs and adversely affect sales of the affected products.

Various jurisdictions may seek to adopt significant additional product labeling (such as requiring labeling of products that contain genetically modified organisms) or warning requirements or limitations on the availability of our products relating to the content or perceived adverse health consequences of certain of our products. If these types of requirements become applicable to one or more of our products, they may inhibit sales of such products. In addition, for example, we are subject to the California Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”), a law which requires that a specific warning appear on any product sold in California that contains a substance listed by that State as having been found to cause cancer or birth defects. The Council for Education and Research on Toxics (“CERT”) has filed suit against a number of companies as defendants, including our subsidiary, Coffee Bean International, Inc., which sell coffee in California for allegedly failing to issue clear and reasonable warnings in accordance with Proposition 65 that the coffee they produce, distribute and sell contains acrylamide. Any action under Proposition 65 would likely seek statutory penalties and costs of enforcement, as well as a requirement to provide warnings and other notices to customers or remove acrylamide from finished products (which may be impossible). If we were required to add warning labels to any of our products or place warnings in certain locations where our products are sold, sales of those products could suffer not only in those locations but elsewhere. Any change in labeling requirements for our products also may lead to an increase in packaging costs or interruptions or delays in packaging deliveries.

Litigation pending against us could expose us to significant liabilities and damage our reputation.

We are currently party to various legal and other proceedings, and additional claims may arise in the future. See Note 23, Commitments and Contingencies, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report. Regardless of the merit of particular claims, litigation may be expensive, time-consuming, operationally disruptive and distracting to management, and could negatively affect our brand name and image and subject us to statutory penalties and costs of enforcement. We can provide no assurances as to the outcome of any litigation or the resolution of any other claims against us. An adverse outcome of any litigation or other claim could negatively affect our financial condition, results of operations or liquidity.

Compliance with regulations affecting publicly traded companies has resulted in increased costs and may continue to result in increased costs in the future.

As a publicly traded company, we are subject to laws, accounting and reporting requirements, tax rules and other regulations and requirements, including those imposed by the SEC and NASDAQ. Our efforts to comply with these requirements and regulations have resulted in, and are likely to continue to result in, increased expenses and a diversion of substantial management time and attention from revenue-generating activities to compliance activities. Because these laws and regulations are subject to varying interpretations, their application in practice may evolve over time as new guidance becomes available. This evolution may result in continuing uncertainty regarding compliance matters and additional costs necessitated by ongoing revisions to our disclosure and governance practices. Failure to comply with such regulations could have a material adverse effect on our business and stock price.

Concentration of ownership among our principal stockholders may dissuade potential investors from purchasing our stock, may prevent new investors from influencing significant corporate decisions and may result in a lower trading price for our stock than if ownership of our stock was less concentrated.

As of September 15, 2017, members of the Farmer family or entities controlled by the Farmer family (including trusts) beneficially owned approximately 27.9% of our outstanding common stock. As a result, these stockholders, acting together, may be able to influence the outcome of stockholder votes, including votes concerning the election and removal of directors, the amendment of our charter documents, and approval of significant corporate transactions. This level of concentrated ownership may have the effect of delaying or preventing a change in the management or voting control of the Company. In addition, this significant concentration of share ownership may adversely affect the trading price of our common stock if investors perceive disadvantages in owning stock in a company with such concentrated ownership.

Future sales of shares by existing stockholders could cause our stock price to decline.

All of our outstanding shares are eligible for sale in the public market, subject in certain cases to limitations under Rule 144 of the Securities Act of 1933, as amended (the “Securities Act”). Also, shares subject to outstanding options and restricted stock under our long-term incentive plan are eligible for sale in the public market to the extent permitted by the provisions of various vesting agreements, our stock ownership guidelines, and Rule 144 under the Securities Act. If these shares are sold, or if it is perceived that they will be sold in the public market, the trading price of our common stock could decline.

Anti-takeover provisions could make it more difficult for a third party to acquire us.

Our Board of Directors has the authority to issue up to 500,000 shares of preferred stock and to determine the price, rights, preferences, privileges and restrictions, including voting rights, of those shares without any further vote or action by stockholders. The rights of the holders of our common stock may be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued in the future. The issuance of preferred stock may have the effect of delaying, deterring or preventing a change in control of the Company without further action by stockholders and may adversely affect the voting and other rights of the holders of our common stock. Further, certain provisions of our charter documents, including a classified board of directors, provisions eliminating the ability of stockholders to take action by written consent, and provisions limiting the ability of stockholders to raise matters at a meeting of stockholders without giving advance notice, may have the effect of delaying or preventing changes in control or management of the Company, which could have an adverse effect on the market price of our stock. In addition, our charter documents do not permit cumulative voting, which may make it more difficult for a third party to gain control of our Board of Directors. Further, we are subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law, which will prohibit us from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, even if such combination is favored by a majority of stockholders, unless the business combination is approved in a prescribed manner. The application of Section 203 also could have the effect of delaying or preventing a change in control or management.

Item 1.B. Unresolved Staff Comments

None.

Item 2. Properties

Our current production and distribution facilities are as follows:

Location	Approximate Area (Square Feet)	Purpose	Status
Northlake, TX	538,000	Corporate headquarters, manufacturing, distribution, warehouse, product development lab	Owned
Houston, TX	330,877	Manufacturing and warehouse	Owned
Portland, OR	114,000	Manufacturing and distribution	Leased
Northlake, IL	89,837	Distribution and warehouse	Leased
Moonachie, NY	41,404	Distribution and warehouse	Leased
Hillsboro, OR	20,400	Manufacturing, distribution and warehouse	Leased
Scottsdale, AZ	17,400	Manufacturing, distribution and warehouse	Leased

As part of the China Mist transaction, we assumed the lease on China Mist’s existing 17,400 square foot production, distribution and warehouse facility in Scottsdale, Arizona which is terminable upon twelve months’ notice. As part of the West Coast Coffee transaction, we entered into a three-year lease on West Coast Coffee’s existing 20,400 square foot

production, distribution and warehouse facility in Hillsboro, Oregon, which expires January 31, 2020, and assumed leases on six branch warehouses consisting of an aggregate of 24,150 square feet in Oregon, California and Nevada, expiring on various dates through November 2020. Our owned facility in Oklahoma City, Oklahoma, consisting of approximately 142,100 square feet, served as a distribution facility through the third quarter of fiscal 2017, when distribution operations were transitioned to the New Facility, and continues to serve as a warehouse facility and service center.

As of June 30, 2017, we stage our products in 114 branch warehouses throughout the contiguous United States. These branch warehouses and our distribution centers, taken together, represent a vital part of our business, but no individual branch warehouse is material to the business as a whole. Our branch warehouses vary in size from approximately 1,000 to 50,000 square feet.

Approximately 55% of our facilities are leased with a variety of expiration dates through 2021. The lease on the Portland facility expires in 2018 and has options to renew up to an additional 10 years.

We calculate our utilization for all of our coffee roasting facilities on an aggregate basis based on the number of product pounds manufactured during the actual number of production shifts worked during an average week, compared to the number of product pounds that could be manufactured based on the maximum number of production shifts that could be operated during the week (assuming three shifts per day, five days per week), in each case, based on our current product mix. Utilization rates for our coffee roasting facilities were approximately 93%, 90% and 66% during the fiscal years ended June 30, 2017, 2016 and 2015, respectively. The utilization rate in fiscal 2017 excludes the New Facility where we began roasting coffee in the fourth quarter of fiscal 2017. The utilization rate in fiscal 2016 excludes the Torrance Facility due to the transition of coffee processing and packaging to our Houston and Portland production facilities in the fourth quarter of fiscal 2015.

We believe that our existing facilities provide adequate capacity for our current operations.

Item 3. Legal Proceedings

For information regarding legal proceedings in which we are involved, see Note 23, Commitments and Contingencies, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Our common stock trades on the NASDAQ Global Select Market under the symbol "FARM." The following table sets forth the quarterly high and low sales prices of our common stock as reported by NASDAQ for each quarter during the last two fiscal years.

	Year Ended June 30, 2017		Year Ended June 30, 2016	
	High	Low	High	Low
1st Quarter	\$ 36.96	\$ 29.16	\$ 28.16	\$ 20.90
2nd Quarter	\$ 37.55	\$ 30.05	\$ 32.94	\$ 26.99
3rd Quarter	\$ 37.15	\$ 31.25	\$ 31.63	\$ 24.04
4th Quarter	\$ 37.35	\$ 29.30	\$ 32.50	\$ 26.69

On September 27, 2017, the last sale price reported on NASDAQ for our common stock was \$30.30 per share. Holders

As of September 27, 2017, there were approximately 2,200 holders of record. Determination of holders of record is based upon the number of record holders and individual participants in security position listings. This does not include persons whose stock is in nominee or "street name" accounts through brokers.

Dividends

The Company's Board of Directors has omitted the payment of a quarterly dividend since the third quarter of fiscal 2011. The amount, if any, of dividends to be paid in the future will depend upon the Company's then available cash, anticipated cash needs, overall financial condition, credit agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors. For a description of the credit agreement restrictions on the payment of dividends, see Liquidity, Capital Resources and Financial Condition included in Part II, Item 7 of this report, and Note 16, Bank Loan, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Equity Compensation Plan Information

This information appears in Equity Compensation Plan Information included in Part III, Item 12 of this report.

Performance Graph

The following graph depicts a comparison of the total cumulative stockholder return on our common stock for each of the last five fiscal years relative to the performance of the Russell 2000 Index, the Value Line Food Processing Index and a peer group index. The graph assumes an initial investment of \$100.00 at the beginning of the five year period and that all dividends paid by companies included in these indices have been reinvested.

Because no published peer group is similar to the Company's portfolio of business, the Company created a peer group index that includes the following companies: B&G Foods, Inc., Boulder Brands, Inc., Coffee Holding Co. Inc., Dunkin' Brands Group, Inc., National Beverage Corp., SpartanNash Company, Inventure Foods, Inc. and Treehouse Foods, Inc. The companies in the peer group index are in the same industry as Farmer Bros. Co. with product offerings that overlap with the Company's product offerings. Boulder Brands, Inc. is no longer a public company and has been excluded from the peer group index in fiscal 2017 and 2016.

The historical stock price performance of the Company's common stock shown in the performance graph below is not necessarily indicative of future stock price performance. The Russell 2000 Index, the Value Line Food Processing Index and the peer group index are included for comparative purposes only. They do not necessarily reflect management's opinion that such indices are an appropriate measure for the relative performance of the stock involved, and they are not intended to forecast or be indicative of possible future performance of our common stock.

Comparison of Five-Year Cumulative Total Return

Farmer Bros. Co., Russell 2000 Index, Value Line Food Processing Index and Peer Group Index
(Performance Results Through June 30, 2017)

	2012	2013	2014	2015	2016	2017
Farmer Bros. Co.	\$100.00	\$176.63	\$271.48	\$295.23	\$402.76	\$380.03
Russell 2000 Index	\$100.00	\$124.21	\$153.57	\$164.02	\$153.90	\$195.20
Value Line Food Processing Index	\$100.00	\$119.96	\$146.81	\$156.96	\$185.97	\$198.18
Peer Group Index	\$100.00	\$120.41	\$133.80	\$152.14	\$186.31	\$191.75

Item 6. Selected Financial Data

The following selected consolidated financial data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, Risk Factors, and our consolidated financial statements and the notes thereto included elsewhere in this report. The historical results do not necessarily indicate results expected for any future period.

(In thousands, except per share data)	Year Ended June 30,				
	2017(1)	2016	2015	2014	2013
Consolidated Statement of Operations Data:					
Net sales	\$541,500	\$544,382	\$545,882	\$528,380	\$513,869
Cost of goods sold	\$327,765	\$335,907	\$348,846	\$332,466	\$328,693
Restructuring and other transition expenses(2)	\$11,016	\$16,533	\$10,432	\$—	\$—
Net gain from sale of Torrance Facility (3)	\$(37,449)	\$—	\$—	\$—	\$—
Net gains from sale of Spice Assets(4)	\$(919)	\$(5,603)	\$—	\$—	\$—
Net (gains) losses from sales of other assets	\$(1,210)	\$(2,802)	\$394	\$(3,814)	\$(4,467)
Impairment losses on intangible assets	\$—	\$—	\$—	\$—	\$92
Income from operations	\$42,166	\$8,179	\$3,284	\$8,916	\$372
Income from operations per common share—diluted	\$2.51	\$0.49	\$0.20	\$0.56	\$0.02
Income tax expense (benefit)(5)	\$15,954	\$(79,997)	\$402	\$705	\$(825)
Net income (loss)(6)	\$24,400	\$89,918	\$652	\$12,132	\$(8,462)

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors. The results of operations for the fiscal years ended June 30, 2017, 2016 and 2015 are not necessarily indicative of the results that may be expected for any future period. The following discussion should be read in combination with the consolidated financial statements and the notes thereto included in Part II, Item 8 of this report and with the Risk Factors described in Part I, Item 1A of this report.

Overview

We are a national coffee roaster, wholesaler and distributor of coffee, tea and culinary products manufactured under supply agreements, under our owned brands, as well as under private labels on behalf of certain customers. We were founded in 1912, incorporated in California in 1923, and reincorporated in Delaware in 2004. We operate in one business segment.

We serve a wide variety of customers, from small independent restaurants and foodservice operators to large institutional buyers like restaurants and convenience store chains, hotels, casinos, healthcare facilities, and gourmet coffee houses, as well as grocery chains with private brand and consumer-branded coffee and tea products. Through our sustainability, stewardship, environmental efforts, and leadership we are not only committed to serving the finest products available, considering the cost needs of the customer, but also insist on their sustainable cultivation, manufacture and distribution whenever possible. Our product categories consist of a robust line of roast and ground coffee, including organic, Direct Trade, DTVS and sustainably-produced offerings; frozen liquid coffee; flavored and unflavored iced and hot teas; culinary products including gelatins and puddings, soup bases, dressings, gravy and sauce mixes, pancake and biscuit mixes, jellies and preserves, and coffee-related products such as coffee filters, sugar and creamers; spices; and other beverages including cappuccino, cocoa, granitas, and ready-to-drink iced coffee. We offer a comprehensive approach to our customers by providing not only a breadth of high-quality products, but also value-added services such as market insight, beverage planning, and equipment placement and service.

We operate production facilities in Northlake, Texas; Houston, Texas; Portland, Oregon; Hillsboro, Oregon; and Scottsdale, Arizona. Distribution takes place out of the New Facility, the Portland, Hillsboro and Scottsdale facilities, as well as separate distribution centers in Northlake, Illinois; and Moonachie, New Jersey. We commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. We began roasting coffee in the New Facility in the fourth quarter of fiscal 2017. Our products reach our customers primarily in two ways: through our nationwide DSD network of 450 delivery routes and 114 branch warehouses as of June 30, 2017, or direct-shipped via common carriers or third-party distributors. DSD sales are made "off-truck" to our customers at their places of business. We operate a large fleet of trucks and other vehicles to distribute and deliver our products, and we rely on 3PL service providers for our long-haul distribution.

Corporate Relocation

In an effort to make the Company more competitive and better positioned to capitalize on growth opportunities, in fiscal 2015 we began the process of relocating our corporate headquarters, product development lab, and manufacturing and distribution operations from Torrance, California to the New Facility. Approximately 350 positions were impacted as a result of the Torrance Facility closure.

The significant milestones associated with our Corporate Relocation Plan are as follows:

Event	Date
Announced Corporate Relocation Plan	Q3 fiscal 2015
Transitioned coffee processing and packaging from Torrance production facility and consolidated them with Houston and Portland production facilities	Q4 fiscal 2015
Moved Houston distribution operations to Oklahoma City distribution center	Q4 fiscal 2015
Entered into lease agreement and development management agreement for New Facility	Q1 fiscal 2016
Commenced construction of New Facility	Q1 fiscal 2016
Transitioned primary administrative offices from Torrance to temporary leased offices in Fort Worth, Texas	Q1-Q2 fiscal 2016
Sold Spice Assets to Harris	Q2 fiscal 2016
Principal design work completed on New Facility	Q3 fiscal 2016
Completed transition services to Harris and ceased spice processing and packaging at Torrance Facility	Q4 fiscal 2016
Entered into purchase and sale agreement to sell Torrance Facility	Q4 fiscal 2016
Exercised purchase option on New Facility	Q4 fiscal 2016
Closed sale of Torrance Facility	Q1 fiscal 2017
Closed purchase option for New Facility	Q1 fiscal 2017
Entered into amended building contract with The Haskell Company	Q1 fiscal 2017
Exited from Torrance Facility	Q2 fiscal 2017
Commenced distribution from New Facility	Q2 fiscal 2017
Substantial completion of construction and relocation to New Facility	Q3 fiscal 2017
Transitioned Oklahoma City distribution operations to New Facility	Q3 fiscal 2017
Coffee roasting commenced in New Facility	Q4 fiscal 2017
Completed Corporate Relocation Plan	Q4 fiscal 2017

See [Liquidity, Capital Resources and Financial Condition](#) below for further details of the impact of these activities on our financial condition and liquidity.

Recent Developments

Acquisitions

In fiscal 2017, we completed two acquisitions. On October 11, 2016, we acquired substantially all of the assets and certain specified liabilities of China Mist, a provider of flavored iced teas and iced green teas, and on February 7, 2017, we acquired substantially all of the assets and certain specified liabilities of West Coast Coffee, a coffee roaster and distributor with a focus on the convenience store, grocery and foodservice channels. The China Mist acquisition is expected to extend our tea product offerings and give us a greater presence in the high-growth premium tea industry, while the West Coast Coffee acquisition is expected to broaden our reach in the Northwestern United States. See [Liquidity, Capital Resources and Financial Condition—Liquidity—Acquisitions](#) below, and Note 3, Acquisitions, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

On August 18, 2017, we entered into an agreement to acquire substantially all of the assets of Boyd's, a privately-held coffee roaster and distributor with a focus on restaurants, hotels and convenience stores on the West Coast of the United States, with a combination of cash and stock. Boyd's business model is expected to be complementary to the Company across customer channels, product portfolios and distribution networks, including a high-touch service model of direct-store-delivery. The Boyd's acquisition is expected to add to our product portfolio, improve our growth potential, broaden our distribution footprint with a deeper penetration on the West Coast of the United States, and increase our capacity utilization at our production facilities. The transaction is expected to close in the second quarter of fiscal 2018, subject to certain

closing conditions. See Note 26, Subsequent Events—Boyd’s Purchase Agreement, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

DSD Restructuring Plan

As a result of an ongoing operational review of various initiatives within our DSD selling organization, in the third quarter of fiscal 2017, we commenced the DSD Restructuring Plan to reorganize our DSD operations in an effort to realign functions into a channel-based selling organization, streamline operations, acquire certain channel specific expertise, and improve selling effectiveness and financial results. See Liquidity, Capital Resources and Financial Condition—Liquidity—DSD Restructuring Plan, below, and Note 4, Restructuring Plans—DSD Restructuring Plan, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Important Factors Affecting Our Results of Operations

We have identified factors that affect our industry and business which we expect to also play an important role in our future growth and profitability. Some of these factors include:

Demographic and Channel Trends. Our success is dependent upon our ability to develop new products in response to demographic and other trends to better compete in areas such as premium coffee and tea, including expansion of our product portfolio by investing resources in what we believe to be key growth categories, including the launch of our Metropolitan™ single cup coffee, expanded seasonal coffee and specialty beverages, new shelf-stable coffee products, new hot teas, the introduction of Collaborative Coffee™ branded products into the retail grocery channel, and the packaging redesign and product portfolio optimization of our Un Momento® retail branded product line.

Fluctuations in Green Coffee Prices. Our primary raw material is green coffee, an agricultural commodity traded on the Commodities and Futures Exchange that is subject to price fluctuations. Over the past five years, coffee “C” market price per pound ranged from approximately \$1.02 to \$2.22. The coffee “C” market price as of June 30, 2017 and 2016 was \$1.26 and \$1.46 per pound, respectively. The price and availability of green coffee directly impacts our results of operations. For additional details, see Risk Factors in Part I, Item 1A of this report.

Hedging Strategy. We are exposed to market risk of losses due to changes in coffee commodity prices. Our business model strives to reduce the impact of green coffee price fluctuations on our financial results and to protect and stabilize our margins, principally through customer arrangements and derivative instruments, as further explained in Note 7, Derivative Instruments, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Sustainability. With an increasing focus on sustainability across the coffee and foodservice industry, and particularly from the customers we serve, it is important for us to embrace sustainability across our operations, in the quality of our products, as well as, how we treat our coffee growers. We believe that our collective efforts in measuring our social and environmental impact, creating programs for waste, water and energy reduction, promoting partnerships in our supply chain that aim at supply chain stability and food security, and focusing on employee engagement place us in a unique position to help retailers and foodservice operators create differentiated coffee programs that can include sustainable supply chains, direct trade purchasing, training and technical assistance, recycling and composting networks, and packaging material reductions.

Supply Chain Efficiencies and Competition. In order to compete effectively and capitalize on growth opportunities, we must continue to evaluate and undertake initiatives to reduce costs and streamline our supply chain. We undertook the Corporate Relocation Plan, in part, to pursue improved production efficiency to allow us to provide a more cost-competitive offering of high-quality products. We continue to look for ways to deploy our personnel, systems, assets and infrastructure to create or enhance stockholder value. Areas of focus have included corporate staffing and structure, methods of procurement, logistics, inventory management, supporting technology, and real estate assets.

Market Opportunities. We have invested and in the future may invest in acquisitions that we believe will enhance long-term stockholder value and complement or enhance our product, equipment, service and/or distribution offerings to existing and new customer bases. For example, in fiscal 2017, we completed the China

Mist acquisition to extend our tea product offerings and give us a greater presence in the high-growth premium tea industry, and the West Coast Coffee acquisition to broaden our reach in the Northwestern United States. Additionally, on August 18, 2017, we entered into an agreement to acquire Boyd's. The Boyd's acquisition is expected to add to our product portfolio, improve our growth potential, broaden our distribution footprint with a deeper penetration on the West Coast of the United States, and increase our capacity utilization at our production facilities. The transaction is expected to close in the second quarter of fiscal 2018, subject to certain closing conditions. Additionally, in the first quarter of fiscal 2015, we acquired substantially all of the assets of Rae' Launo Corporation ("RLC") relating to its DSD and in-room distribution business in the Southeastern United States. For additional information on these acquisitions, see [Note 3](#), Acquisitions, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Capacity Utilization. We calculate our utilization for all of our coffee roasting facilities on an aggregate basis based on the number of product pounds manufactured during the actual number of production shifts worked during an average week, compared to the number of product pounds that could be manufactured based on the maximum number of production shifts that could be operated during the week (assuming three shifts per day, five days per week), in each case, based on our current product mix. Utilization rates for our coffee roasting facilities were approximately 93%, 90% and 66% during the fiscal years ended June 30, 2017, 2016 and 2015, respectively. The utilization rate in fiscal 2017 excludes the New Facility where we began roasting coffee in the fourth quarter of fiscal 2017. The utilization rate in fiscal 2016 excludes the Torrance Facility due to the transition of coffee processing and packaging to our Houston and Portland production facilities in the fourth quarter of fiscal 2015.

Results of Operations

Fiscal Years Ended June 30, 2017 and 2016

Financial Highlights

Volume of green coffee pounds processed and sold increased 5.3% in fiscal 2017 as compared to fiscal 2016.

Gross profit increased 2.5% to \$213.7 million in fiscal 2017 from \$208.5 million in fiscal 2016.

Gross margin increased to 39.5% in fiscal 2017 from 38.3% in fiscal 2016.

Income from operations increased 415.5% to \$42.2 million in fiscal 2017 from \$8.2 million in fiscal 2016. Income from operations included a \$37.4 million net gain from the sale of the Torrance Facility in fiscal 2017 and net gains of \$5.6 million from the sale of Spice Assets in fiscal 2016.

Net income was \$24.4 million, or \$1.45 per common share—diluted, in fiscal 2017, primarily due to \$37.4 million in net gain from the sale of the Torrance Facility and non-cash income tax expense of \$16.0 million, compared to net income of \$89.9 million, or \$5.41 per common share—diluted, in fiscal 2016, primarily due to non-cash income tax benefit of \$80.3 million from the release of valuation allowance on deferred tax assets.

EBITDA increased 110.5% to \$65.5 million and EBITDA Margin was 12.1% in fiscal 2017, as compared to EBITDA of \$31.1 million and EBITDA Margin of 5.7% in fiscal 2016.*

Adjusted EBITDA increased 11.1% to \$46.0 million and Adjusted EBITDA Margin was 8.5% in fiscal 2017, as compared to Adjusted EBITDA of \$41.4 million and Adjusted EBITDA Margin of 7.6% in fiscal 2016.*

(* EBITDA, EBITDA Margin, Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP financial measures. See [Non-GAAP Financial Measures](#) in Part II, Item 7 of this report for a reconciliation of these non-GAAP measures to their corresponding GAAP measures.)

Fiscal 2017 Strategic Initiatives

In fiscal 2017, we undertook initiatives to reduce costs, streamline our supply chain, improve the breadth of products and services we provide to our customers, and better position the Company to attract new customers. These initiatives included the following:

Corporate Relocation Plan. We completed the Corporate Relocation Plan that was initiated in the third quarter of fiscal 2015 by executing on the milestones described above under Corporate Relocation. We commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. We began roasting coffee in the New Facility in the fourth quarter of fiscal 2017. The roasting facility in the New Facility has increased our capacity to support existing and future customers and accommodate volume growth. We are in the process of obtaining SQF certification under the Global Food Safety Initiative for the New Facility.

Acquisition of China Mist and West Coast Coffee. In fiscal 2017, we completed the China Mist acquisition to extend our tea product offerings and give us a greater presence in the high-growth premium tea industry, and the West Coast Coffee acquisition to broaden our reach in the Northwestern United States.

DSD Restructuring Plan. In the third quarter of fiscal 2017, we commenced the DSD Restructuring Plan. The strategic decision to undertake the DSD Restructuring Plan resulted from an ongoing operational review of various initiatives within the DSD selling organization. We began recognizing cost benefits associated with the restructuring in the fourth quarter of fiscal 2017 and we anticipate annualized savings from the restructuring plan beginning in the second quarter of fiscal 2018. We expect to complete the DSD Restructuring Plan by the end of the second quarter of fiscal 2018.

Third-Party Logistics. During the second half of fiscal 2016, we replaced our long-haul fleet operations with 3PL. In fiscal 2017, we experienced a reduction in our fuel consumption and empty trailer miles, while improving our intermodal and trailer cube utilization as compared to the prior fiscal year. Aligning with our 3PL partner has allowed us to more efficiently manage routing thereby reducing diesel pollution in support of our sustainability efforts. Dynamic routing is expected to allow for further reduction of our carbon emissions in fiscal 2018.

Vendor Managed Inventory. During the second half of fiscal 2016, we entered into a third-party vendor managed inventory arrangement. The use of vendor managed inventory arrangements has begun to yield benefits in fiscal 2017 by enabling us to reconfigure our packaging methodology, eliminating duplication but resulting in the same strength packaging with less material, thereby reducing waste and contributing to our sustainability efforts.

Warehouse Management. In the first quarter of fiscal 2017, we entered into an agreement with a third party to provide warehouse management services for our New Facility. We expect the warehouse management services to facilitate cost savings by leveraging the third party's expertise in opening new facilities, implementing lean management practices, improving performance on certain key performance metrics, and standardizing best practices.

Product Development and Expansion. In fiscal 2017, we opened our product development lab at the New Facility where we are focused on developing innovative products in response to industry trends and customer needs. In fiscal 2017, we introduced a new retail line of China Mist naturally flavored iced teas, a new line of Artisan hot teas, an Artisan Cold Brew Coffee and an Artisan Direct Trade Coffee.

Net Sales

Net sales in fiscal 2017 decreased \$(2.9) million, or (0.5)%, to \$541.5 million from \$544.4 million in fiscal 2016. A \$6.8 million increase in net sales from roast and ground coffee, a \$4.2 million increase in net sales from tea products primarily from the addition of China Mist net sales from the date of its acquisition and a \$1.6 million increase in net sales from culinary products were offset by a \$(10.9) million decrease in net sales of spice products resulting from the sale of our institutional spice assets, a \$(3.1) million decrease in net sales of coffee (frozen liquid) products, primarily from the loss of a large casino customer, and a \$(1.0) million decrease in net sales of other beverages. Net sales in fiscal 2017 included \$(3.2) million in price decreases to customers utilizing commodity-based pricing arrangements, where the changes in the

green coffee commodity costs are passed on to the customer, as compared to \$(9.7) million in price decreases to customers utilizing such arrangements in fiscal 2016. In each of fiscal 2017 and 2016, a lower percentage of our roast and ground coffee volume was based on a price schedule and a higher percentage was sold to customers under commodity-based pricing arrangements as compared to fiscal 2015.

The change in net sales in fiscal 2017 compared to fiscal 2016 was due to the following:

(In millions)	Year Ended June 30, 2017 vs. 2016	
Effect of change in unit sales	\$	(7.4)
Effect of pricing and product mix changes	4.5	
Total decrease in net sales	\$	(2.9)

Unit sales decreased (1.3)% in fiscal 2017 as compared to fiscal 2016, but average unit price increased by 0.9% resulting in a decrease in net sales of (0.5)%. The decrease in unit sales was primarily due to a (81.3)% decrease in unit sales of spice products which accounted for approximately 5% of our total net sales, due to the sale of our institutional spice assets, partially offset by a 5.3% increase in unit sales of roast and ground coffee products, which accounted for approximately 63% of our total net sales. Average unit price decreased primarily due to the lower average unit price of roast and ground coffee products primarily driven by the pass-through of lower green coffee commodity hedged costs to our customers. In fiscal 2017, we processed and sold approximately 95.5 million pounds of green coffee as compared to approximately 90.7 million pounds of green coffee processed and sold in fiscal 2016. There were no new product category introductions in fiscal 2017 or 2016 which had a material impact on our net sales.

The following table presents net sales aggregated by product category for the respective periods indicated:

(In thousands)	Year Ended June 30,			
	2017		2016	
	\$	% of total	\$	% of total
Net Sales by Product Category:				
Coffee (Roast & Ground)	\$339,358	63 %	\$332,533	61 %
Coffee (Frozen Liquid)	32,827	6 %	35,933	7 %
Tea (Iced & Hot)	29,256	5 %	25,096	4 %
Culinary	55,592	10 %	54,036	10 %
Spice(1)	24,895	5 %	35,789	6 %
Other beverages(2)	56,653	10 %	57,690	11 %
Net sales by product category	538,581	99 %	541,077	99 %
Fuel surcharge	2,919	1 %	3,305	1 %
Net sales	\$541,500	100%	\$544,382	100%

(1) Spice product net sales in fiscal 2016 included \$3.2 million in sale of inventory to Harris at cost upon conclusion of the transition services provided by the Company in connection with the sale of Spice Assets.

(2) Includes all beverages other than coffee and tea.

Cost of Goods Sold

Cost of goods sold in fiscal 2017 decreased \$(8.1) million, or (2.4)%, to \$327.8 million, or 60.5% of net sales, from \$335.9 million, or 61.7% of net sales, in fiscal 2016. The decrease in cost of goods sold as a percentage of net sales in fiscal 2017 was primarily due to lower conversion costs from supply chain improvements and lower hedged cost of green coffee as compared to the same period in the prior fiscal year, partially offset by startup costs associated with the production operations in the New Facility and higher depreciation expense for the New Facility. The average

Arabica “C” market price of green coffee increased 16.3% in fiscal 2017.

Inventories were higher at the end of fiscal 2017 due to the commencement of the New Facility's manufacturing operations and incremental inventory from China Mist and West Coast Coffee as compared to lower levels of inventory at

the Torrance Facility at the end of fiscal 2016 due to its anticipated closing. Notwithstanding this increase in total inventories at the end of fiscal 2017 compared to fiscal 2016 levels, inventories of manufactured spice products decreased at the end of fiscal 2017 compared to fiscal 2016 levels, primarily due to the liquidation of spice inventories in connection with the sale of the Spice Assets. As a result, we recorded \$3.4 million in beneficial effect of the liquidation of LIFO inventory quantities in cost of goods sold in fiscal 2017, which increased income before taxes in fiscal 2017 by \$3.4 million. In fiscal 2016, a beneficial effect of liquidation of LIFO inventory quantities in the amount of \$4.2 million was recorded.

Gross Profit

Gross profit in fiscal 2017 increased \$5.2 million, or 2.5%, to \$213.7 million from \$208.5 million in fiscal 2016 and gross margin increased to 39.5% in fiscal 2017 from 38.3% in fiscal 2016. This increase in gross profit was primarily due to lower conversion costs and lower hedged cost of green coffee partially offset by the decrease in net sales, startup costs associated with the production operations in the New Facility and higher depreciation expense for the New Facility. Gross profit in fiscal 2017 and 2016 included \$3.4 million and \$4.2 million, respectively, in beneficial effect of the liquidation of LIFO inventory quantities.

Operating Expenses

In fiscal 2017, operating expenses decreased \$(28.7) million, or (14.3)%, to \$171.6 million, or 31.7% of net sales from \$200.3 million, or 36.8%, of net sales in fiscal 2016, primarily due to the recognition of \$37.4 million in net gain from the sale of the Torrance Facility and lower restructuring and other transition expenses associated with the Corporate Relocation Plan, partially offset by lower net gains from the sale of Spice Assets and other assets, the addition of restructuring and other transition expenses associated with the DSD Restructuring Plan and an increase in selling expenses and general and administrative expenses.

Restructuring and other transition expenses decreased \$(5.5) million in fiscal 2017, as compared to fiscal 2016 because most of the planned expenses related to our Corporate Relocation Plan had already been recognized in prior periods. Restructuring and other transition expenses in fiscal 2017 included \$2.4 million in costs associated with the DSD Restructuring Plan.

In fiscal 2017, selling expenses and general and administrative expenses increased \$7.0 million and \$1.0 million, respectively. The increase in selling expenses in fiscal 2017 as compared to fiscal 2016 was primarily due to operations-related consulting expenses, sales training expenses and the addition of China Mist and West Coast Coffee, partially offset by lower workers' compensation expense, savings from utilizing 3PL for our long-haul distribution and the absence of expenses related to the institutional spice assets.

The increase in general and administrative expenses in fiscal 2017 was primarily due to non-recurring 2016 proxy contest expenses, acquisition-related expenses and higher depreciation expense, partially offset by lower workers' compensation expense, lower accruals for incentive compensation to eligible employees and lower retiree and employee medical expenses. In fiscal 2017, we incurred \$5.2 million, or \$0.31 per share, in expenses successfully defending against the 2016 proxy contest including non-recurring legal fees, financial advisory fees, proxy solicitor fees, mailing and printing costs of proxy solicitation materials and other costs and \$1.7 million in acquisition-related expenses, including, legal fees and consulting costs. General and administrative expenses in fiscal 2017 also included \$0.5 million in expenses related to the special stockholders' meeting held in June 2017.

The increase in selling expenses and general and administrative expenses was fully offset by the \$37.4 million in net gain from the sale of the Torrance Facility, \$(5.5) million decrease in restructuring and other transition expenses, \$1.2 million in net gains from sales of other assets, primarily our Northern California branch property, and \$0.9 million in earnout from the sale of Spice Assets, as compared to \$5.6 million in net gains from the sale of Spice Assets and \$2.8 million in net gains from sales of other assets, primarily real estate and equipment, in fiscal 2016.

Income from Operations

Income from operations in fiscal 2017 was \$42.2 million as compared to \$8.2 million in fiscal 2016 primarily due to net gains from the sales of the Torrance Facility and other real estate, lower restructuring and other transition expenses associated with the Corporate Relocation Plan and higher gross profit, partially offset by higher selling expenses, higher general and administrative expenses and lower net gains from the sale of Spice Assets.

Total Other (Expense) Income

Total other expense in fiscal 2017 was \$(1.8) million as compared to total other income of \$1.7 million in fiscal 2016. Total other expense in fiscal 2017 was primarily due to higher interest expense of \$(2.2) million and higher net losses on derivative instruments and investments \$(1.5) million, as compared to interest expense of \$(0.4) million and net gains on derivative instruments and investments of \$0.3 million in fiscal 2016. The net losses on derivative instruments and investments in fiscal 2017 and fiscal 2016, were primarily due to mark-to-market net gains and net losses on coffee-related derivative instruments not designated as accounting hedges. In fiscal 2017 and 2016, we recognized \$(0.5) million and \$(0.6) million in net losses on coffee-related derivative instruments designated as cash flow hedges due to ineffectiveness.

Interest expense in fiscal 2017 was \$2.2 million as compared to \$0.4 million in fiscal 2016. The higher interest expense in fiscal 2017 was primarily due to higher loan balance and non-recurring and non-cash interest expense related to the sale-leaseback of the Torrance Facility in the amount of \$(0.7) million. We expect interest expense to increase in fiscal 2018 as compared to fiscal 2017 due to higher loan balance and additional borrowing under our credit facility for the anticipated acquisition of substantially all of the assets of Boyd Coffee Company, which transaction is expected to close in the second quarter of fiscal 2018.

Income Taxes

In fiscal 2017, we recorded income tax expense of \$16.0 million compared to a tax benefit of \$(80.0) million in fiscal 2016. In fiscal 2017, total deferred tax assets decreased by \$6.2 million primarily due to a reduction in accrued liabilities and gains related to our defined benefit pension plans which were recorded in OCI. Total deferred tax liabilities decreased by \$11.5 million primarily due to the deferral of gain from the sale of our Torrance Facility. In fiscal 2016, we released \$80.3 million of the valuation allowance on deferred tax assets, resulting in unreserved deferred tax assets of \$90.2 million at June 30, 2016 and a non-cash reduction in income tax expense, or a tax benefit of \$80.0 million in fiscal 2016. In fiscal 2016, total deferred tax assets were largely unchanged because deferred tax assets related to our defined benefit pension plans and retiree medical plan increased due to losses recorded in OCI, and net operating loss related to deferred tax assets declined as losses were used to offset current income.

We cannot conclude that certain state net operating loss carryforwards and tax credit carryovers will be utilized before expiration. Accordingly, we will maintain a valuation allowance of \$1.6 million to offset these deferred tax assets. We will continue to monitor all available evidence, both positive and negative, in determining whether it is more likely than not that we will realize our remaining deferred tax assets.

The Internal Revenue Service completed its examination of our tax years ended June 30, 2013 and 2014 and accepted the returns as filed for those years.

Net Income

As a result of the foregoing factors, net income was \$24.4 million, or \$1.45 per common share—diluted in fiscal 2017, as compared to \$89.9 million, or \$5.41 per common share—diluted, in fiscal 2016.

Fiscal Years Ended June 30, 2016 and 2015

Financial Highlights

☛ Gross profit increased 5.8% to \$208.5 million in fiscal 2016 from \$197.0 million in fiscal 2015.

☛ Gross margin increased to 38.3% in fiscal 2016 from 36.1% in fiscal 2015.

Income from operations increased 149.1% to \$8.2 million in fiscal 2016 from \$3.3 million in fiscal 2015.

Net income was \$89.9 million, or \$5.41 per diluted common share, in fiscal 2016, primarily due to non-cash income tax benefit of \$80.3 million from the release of valuation allowance on deferred tax assets, compared to \$0.7 million, or \$0.04 per diluted common share, in fiscal 2015.

Fiscal 2016 Strategic Initiatives

In fiscal 2016, we undertook initiatives to reduce costs, streamline our supply chain, improve the breadth of products and services we provide to our customers, and better position the Company to attract new customers. These initiatives included the following:

Corporate Relocation Plan. We continued to execute on the Corporate Relocation Plan that we initiated in the third quarter of fiscal 2015 by executing on the milestones described above under Corporate Relocation.

Third-Party Logistics. During the second half of fiscal 2016, we replaced our long-haul fleet operations with 3PL. We expect that this transportation arrangement will reduce our fuel consumption and empty trailer miles, while improving our intermodal and trailer cube utilization.

Vendor Managed Inventory. During the second half of fiscal 2016, we entered into a vendor managed inventory arrangement with a third party. We anticipate that the use of vendor managed inventory arrangements will result in a reduction in raw material, finished goods and logistics costs, while improving packaging innovation and fulfillment.

DSD Reorganization. In fiscal 2016, we continued our efforts to improve efficiencies in our sales and product offerings. During the second half of fiscal 2016, we began to realign our DSD organization by undertaking initiatives intended to streamline communication and decision making, enhance branch organizational structure, and improve customer focus, including toward a comprehensive training program for all DSD team members to strengthen customer engagement. In fiscal 2016, we executed a regional test of our first advertising and lead generation campaign designed to improve our new customer acquisition rate within our DSD network.

Branch Consolidation and Property Sales. In an effort to streamline our branch operations, in the fourth quarter of fiscal 2016 we sold two Northern California branch properties, with a third Northern California property under contract for sale, and we acquired a new branch facility in Hayward, California.

Introduction of Collaborative Coffee™ and Redesign of Un Momento® Branded Retail Products. In an effort to address what we believe to be unmet consumer needs and improve margin within the retail grocery environment, in fiscal 2016, we launched Collaborative Coffee™, a new brand of ethically sourced, whole bean direct trade coffees into the retail grocery channel. In addition, we completed a packaging redesign and product portfolio optimization of our Un Momento® retail branded product line.

Net Sales

Net sales in fiscal 2016 decreased \$1.5 million, or 0.3%, to \$544.4 million from \$545.9 million in fiscal 2015 primarily due to a decrease in net sales of coffee and tea products, partially offset by an increase in net sales of spice products and other beverages. Net sales in fiscal 2016 included \$9.7 million in price decreases to customers utilizing commodity-based pricing arrangements, where the changes in the green coffee commodity costs are passed on to the customer, as compared to \$9.7 million in price increases to customers utilizing such arrangements in fiscal 2015.

The change in net sales in fiscal 2016 compared to fiscal 2015 was due to the following:

	Year Ended June 30, 2016
(In millions)	vs. 2015
Effect of change in unit sales	\$14.4
Effect of pricing and product mix changes	(15.9)
Total decrease in net sales	\$(1.5)

Unit sales increased 3.6% in fiscal 2016 as compared to fiscal 2015, but average unit price decreased by 3.8% resulting in a decrease in net sales of 0.3%. The increase in unit sales was primarily due to a 3.4% increase in unit sales of roast and ground coffee products, which accounted for approximately 61% of our total net sales, while the decrease in average unit price was primarily due to the lower average unit price of roast and ground coffee products primarily driven by the pass-through of lower green coffee commodity purchase costs to our customers. In fiscal 2016, we processed and sold approximately 90.7 million pounds of green coffee as compared to 87.7 million pounds of green coffee processed and sold in fiscal 2015. There were no new product category introductions in fiscal 2016 or 2015 which had a material impact on our net sales.

The following table presents net sales aggregated by product category for the respective periods indicated:

(In thousands)	Year Ended June 30,			
	2016	2015		
	\$	% of total	\$	% of total
Net Sales by Product Category:				
Coffee (Roast & Ground)	\$332,533	61 %	\$336,129	60 %
Coffee (Frozen Liquid)	35,933	7 %	37,428	7 %
Tea (Iced & Hot)	25,096	4 %	27,172	5 %
Culinary	54,036	10 %	54,208	11 %
Spice(1)	35,789	6 %	32,336	6 %
Other beverages(2)	57,690	11 %	54,933	10 %
Net sales by product category	541,077	99 %	542,206	99 %
Fuel surcharge	3,305	1 %	3,676	1 %
Net sales	\$544,382	100 %	\$545,882	100 %

(1) Spice product net sales included \$3.2 million in sale of inventory to Harris at cost in fiscal 2016 upon conclusion of the transition services provided by the Company in connection with the sale of Spice Assets.

(2) Includes all beverages other than coffee and tea.

Cost of Goods Sold

Cost of goods sold in fiscal 2016 decreased \$12.9 million, or 3.7%, to \$335.9 million, or 61.7% of net sales, from \$348.8 million, or 63.9% of net sales, in fiscal 2015. The decrease in cost of goods sold as a percentage of net sales in fiscal 2016 was primarily due to lower coffee commodity costs compared to the same period in the prior fiscal year, supply chain efficiencies realized primarily through the consolidation of our former Torrance coffee production volumes into our Houston manufacturing facility, and other supply chain improvements. The average Arabica "C" market price of green coffee decreased 24.8% in fiscal 2016. Inventories decreased at the end of fiscal 2016 compared to fiscal 2015 primarily due to production consolidation and the sale of processed and unprocessed inventories to Harris at cost upon conclusion of the transition services provided by the Company in connection with the sale of Spice Assets. As a result, a beneficial effect of liquidation of LIFO inventory quantities in the amount of \$4.2 million was recorded in cost of goods sold in fiscal 2016 reducing cost of goods sold by the same amount. In fiscal 2015 \$4.9 million in beneficial effect of liquidation of LIFO inventory quantities was recorded.

Gross Profit

Gross profit in fiscal 2016 increased \$11.4 million, or 5.8%, to \$208.5 million from \$197.0 million in the prior fiscal year and gross margin increased to 38.3% in fiscal 2016 from 36.1% in the prior fiscal year. The increase in gross profit was primarily due to lower coffee commodity costs compared to the same period in the prior fiscal year, supply chain efficiencies realized primarily through the consolidation of our former Torrance coffee production volumes into our Houston manufacturing facility and other supply chain improvements. Gross profit in fiscal 2016 and 2015 included the beneficial effect of the liquidation of LIFO inventory quantities in the amount of \$4.2 million and \$4.9 million, respectively.

Operating Expenses

In fiscal 2016, operating expenses increased \$6.5 million, or 3.4%, to \$200.3 million or 36.8% of net sales, from \$193.8 million, or 35.5% of net sales, in fiscal 2015, primarily due to higher general and administrative expenses and restructuring and other transition expenses associated with the Corporate Relocation Plan as compared to the prior fiscal year. General and administrative expenses and restructuring and other transition expenses increased \$10.8 million and \$6.1 million, respectively, in fiscal 2016, as compared to the prior fiscal year, partially offset by a \$1.6 million decrease in selling expenses. The increase in general and administrative expenses in fiscal 2016 as compared to fiscal 2015 was primarily due to higher accruals for incentive compensation to eligible employees as compared to a reduction in accrual for incentive compensation to eligible employees in the prior fiscal year, an increase in employee and retiree medical costs, workers' compensation expense and the write-off of a long-term loan receivable that was deemed uncollectible. The increase in general and administrative expenses was partially offset by \$5.6 million in net gains from sale of Spice Assets and \$2.8 million in net gains from sales of assets, primarily real estate, as compared to \$(0.4) million in net losses from sales of assets, primarily vehicles, in fiscal 2015. The decrease in selling expenses in fiscal 2016 as compared to fiscal 2015 was primarily due to lower depreciation and amortization expense and lower vehicle, fuel and freight expenses, partially offset by higher accruals for incentive compensation for eligible employees as compared to a reduction in accrual for incentive compensation to eligible employees in the prior fiscal year.

Income from Operations

Income from operations in fiscal 2016 was \$8.2 million as compared to \$3.3 million in fiscal 2015 primarily due to higher gross profit, net gains from the sale of Spice Assets and certain real estate assets and lower selling expenses, partially offset by higher restructuring and other transition expenses associated with the Corporate Relocation Plan and general and administrative expenses.

Total Other Income (Expense)

Total other income in fiscal 2016 was \$1.7 million compared to total other expense of \$(2.2) million in fiscal 2015, primarily due to net gains on derivative instruments and investments of \$0.3 million in fiscal 2016 compared to net losses on derivative instruments and investments of \$(3.3) million in fiscal 2015. The net gains and net losses on derivative instruments and investments in fiscal 2016 and fiscal 2015, respectively, were primarily due to mark-to-market net gains and net losses on coffee-related derivative instruments not designated as accounting hedges. Net gains on such coffee-related derivative instruments in fiscal 2016 were \$0.3 million compared to net losses of \$(3.0) million in fiscal 2015. In fiscal 2016 and 2015, we recognized \$(0.6) million and \$(0.3) million in net losses on coffee-related derivative instruments designated as cash flow hedges due to ineffectiveness.

Income Taxes

In fiscal 2016, we released \$80.3 million of the valuation allowance on deferred tax assets, resulting in unreserved deferred tax assets of \$90.2 million at June 30, 2016 and a non-cash reduction in income tax expense, or a tax benefit of \$80.0 million in fiscal 2016 as compared to income tax expense of \$(0.4) million in fiscal 2015. In fiscal 2016, total deferred tax assets were largely unchanged. Deferred tax assets related to our defined benefit pension plans and retiree medical plan increased due to losses recorded in OCI, and net operating loss related to deferred tax assets declined as losses were used to offset current income. In fiscal 2015, deferred tax assets increased primarily due to losses recorded in Other comprehensive income (loss) ("OCI") related to coffee-related derivative instruments, our defined benefit pension plans and retiree medical plan.

Since 2009, a full valuation allowance has been maintained to offset our deferred tax assets. In the fourth quarter of fiscal 2016, after analyzing the available positive and negative evidence, we concluded that it is more likely than not that we will utilize a portion of our tax loss carryforwards. In this analysis, we considered the following items of positive evidence: twelve quarters of our cumulative gain position and our forecasted future earnings; completion of parts of our restructuring plan which significantly reduced costs; and sale of our Torrance Facility which is expected to result in a significant gain in the first quarter of fiscal 2017. We also considered the following items of negative evidence: large pension related OCI losses that we recorded in the prior twelve quarters and potential expiration of certain state unused net operating loss carryforwards and credits.

We cannot conclude that certain state net operating loss carryforwards and tax credit carryovers will be utilized before expiration. Accordingly, we will maintain a valuation allowance of \$1.6 million to offset these deferred tax assets. We

will

38

continue to monitor all available evidence, both positive and negative, in determining whether it is more likely than not that the Company will realize its remaining deferred tax assets.

Net Income

As a result of the foregoing factors, net income was \$89.9 million, or \$5.41 per diluted common share, in fiscal 2016 as compared to \$0.7 million, or \$0.04 per diluted common share, in fiscal 2015.

Non-GAAP Financial Measures

In addition to net income determined in accordance with U.S. generally accepted accounting principles (“GAAP”), we use the following non-GAAP financial measures in assessing our operating performance:

“Non-GAAP net income” is defined as net income excluding the impact of:

- restructuring and other transition expenses;
 - net gains and losses from sales of assets;
 - non-cash income tax expense (benefit), including the release of valuation allowance on deferred tax assets;
 - non-recurring 2016 proxy contest-related expenses;
 - non-cash interest expense accrued on the Torrance Facility sale-leaseback financing obligation;
 - acquisition and integration costs;
- and including the impact of:
- income taxes on non-GAAP adjustments.

“Non-GAAP net income per diluted common share” is defined as Non-GAAP net income divided by the weighted-average number of common shares outstanding, inclusive of the dilutive effect of common equivalent shares outstanding during the period.

“EBITDA” is defined as net income excluding the impact of:

- income taxes;
- interest expense; and
- depreciation and amortization expense.

“EBITDA Margin” is defined as EBITDA expressed as a percentage of net sales.

“Adjusted EBITDA” is defined as net income excluding the impact of:

- income taxes;
- interest expense;
- income from short-term investments;
- depreciation and amortization expense;
- ESOP and share-based compensation expense;
- non-cash impairment losses;
- non-cash pension withdrawal expense;
- other similar non-cash expenses;
- restructuring and other transition expenses;
- net gains and losses from sales of assets;
- non-recurring 2016 proxy contest-related expenses; and
- acquisition and integration costs.

“Adjusted EBITDA Margin” is defined as Adjusted EBITDA expressed as a percentage of net sales.

Restructuring and other transition expenses are expenses that are directly attributable to (i) the Corporate Relocation Plan, consisting primarily of employee retention and separation benefits, facility-related costs and other related costs such as travel, legal, consulting and other professional services; and (ii) beginning in the third quarter of fiscal 2017, the DSD Restructuring Plan, consisting primarily of severance, prorated bonuses for bonus eligible employees, contractual termination payments and outplacement services, and other related costs, including legal, recruiting, consulting, other professional services, and travel.

In the first quarter of fiscal 2017, we modified the calculation of Non-GAAP net income and Non-GAAP net income per diluted common share (i) to exclude non-recurring expenses for legal and other professional services incurred in connection with the 2016 proxy contest that were in excess of the level of expenses normally incurred for an annual meeting of stockholders (“2016 proxy contest-related expenses”) and non-cash interest expense accrued on the Torrance Facility sale-leaseback financing obligation which has been included in the computation of the gain on sale upon conclusion of the leaseback arrangement, and (ii) to include income tax expense (benefit) on the non-GAAP adjustments based on the Company’s marginal tax rate of 39.0%. There was no similar adjustment for non-cash income tax expense in the comparable period of the prior fiscal year due to the valuation allowance recorded against the Company’s deferred tax assets. We also modified Adjusted EBITDA and Adjusted EBITDA Margin to exclude 2016 proxy contest-related expenses. These modifications to our non-GAAP financial measures were made because such expenses are not reflective of our ongoing operating results and adjusting for them will help investors with comparability of our results. The historical presentation of the non-GAAP financial measures was not affected by these modifications.

Beginning in the third quarter of fiscal 2017 and for all periods presented, we include EBITDA in our non-GAAP financial measures. We believe that EBITDA facilitates operating performance comparisons from period to period by isolating the effects of certain items that vary from period to period without any correlation to core operating performance or that vary widely among similar companies. These potential differences may be caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses) and the age and book depreciation of facilities and equipment (affecting relative depreciation expense). We also present EBITDA and EBITDA Margin because (i) we believe that these measures are frequently used by securities analysts, investors and other interested parties to evaluate companies in our industry, (ii) we believe that investors will find these measures useful in assessing our ability to service or incur indebtedness, and (iii) we use these measures internally as benchmarks to compare our performance to that of our competitors.

Beginning in the third quarter of fiscal 2017, we modified the calculation of Adjusted EBITDA and Adjusted EBITDA Margin to exclude income from our short-term investments because we believe excluding income generated from our investment portfolio is a measure more reflective of our operating results. The historical presentation of Adjusted EBITDA and Adjusted EBITDA Margin was recast to be comparable to the current period presentation. Beginning in the fourth quarter of fiscal 2017, we modified the calculation of Non-GAAP net income, Non-GAAP net income per diluted common share, Adjusted EBITDA and Adjusted EBITDA Margin to exclude acquisition and integration costs. Acquisition and integration costs include legal expenses, consulting expenses and internal costs associated with acquisitions and integration of those acquisitions. In the fourth quarter of fiscal 2017 acquisition and integration costs were significant and, we believe, excluding them will help investors to better understand our operating results and more accurately compare them across periods. We have not adjusted the historical presentation of Non-GAAP net income, Non-GAAP net income per diluted common share, Adjusted EBITDA and Adjusted EBITDA Margin because acquisition and integration costs in prior periods were not material to the Company’s results of operations.

We believe these non-GAAP financial measures provide a useful measure of the Company’s operating results, a meaningful comparison with historical results and with the results of other companies, and insight into the Company’s ongoing operating performance. Further, management utilizes these measures, in addition to GAAP measures, when evaluating and comparing the Company’s operating performance against internal financial forecasts and budgets. Non-GAAP net income, Non-GAAP net income per diluted common share, EBITDA, EBITDA Margin, Adjusted EBITDA and Adjusted EBITDA Margin, as defined by us, may not be comparable to similarly titled measures

reported by other companies. We do not intend for non-GAAP financial measures to be considered in isolation or as a substitute for other measures prepared in accordance with GAAP.

Set forth below is a reconciliation of reported net income to Non-GAAP net income and reported net income per common share-diluted to Non-GAAP net income per diluted common share (unaudited):

(In thousands)	Year Ended June 30,

In the interim disclosures, while the Boyd Coffee Company transaction remained confidential, the expenses incurred in the third quarter were included in operating expenses and described as consulting expenses. Acquisition and integration costs incurred in prior periods were not material to the Company's results of operations.

Liquidity, Capital Resources and Financial Condition

Credit Facility

We maintain a senior secured revolving credit facility (the "Revolving Facility") with JPMorgan Chase Bank, N.A. and SunTrust Bank (collectively, the "Lenders"), with revolving commitments of \$75.0 million as of June 30, 2017 and a sublimit on letters of credit and swingline loans of \$30.0 million and \$15.0 million, respectively. The Revolving Facility includes an accordion feature whereby we may increase the Revolving Commitment by up to an additional \$50.0 million,

subject to certain conditions. Advances are based on our eligible accounts receivable, eligible inventory, and the value of certain real property and trademarks, less required reserves. As of June 30, 2017, the commitment fee ranges from 0.25% to 0.375% per annum based on average revolver usage. Outstanding obligations are collateralized by all of our assets, excluding certain real property not included in the borrowing base, machinery and equipment (other than inventory), and our preferred stock portfolio. Borrowings under the Revolving Facility bear interest based on average historical excess availability levels with a range of PRIME - 0.25% to PRIME + 0.50% or Adjusted LIBO Rate + 1.25% to Adjusted LIBO Rate + 2.00%. We are subject to a variety of affirmative and negative covenants of types customary in an asset-based lending facility, including financial covenants relating to the maintenance of a fixed charge coverage ratio in certain circumstances, and the right of the Lenders to establish reserve requirements, which may reduce the amount of credit otherwise available to us. We are allowed to pay dividends, provided, among other things, certain excess availability requirements are met, and no event of default exists or has occurred and is continuing as of the date of any such payment and after giving effect thereto.

On August 25, 2017, we amended the Revolving Facility (the "Amended Credit Agreement") to, among other things: increase the aggregate commitments thereunder to \$125.0 million; increase the advance rate on eligible accounts receivable and the amount of eligible real property which can be included in the borrowing base; increase the margin of 0.375% per annum up to an amount equal to the value of eligible real property in the borrowing base; reduce the commitment fee to a flat fee of 0.25% per annum irrespective of average revolver usage, and extend the maturity date of the Revolving Facility from March 2, 2020 to August 25, 2022. See [Note 26](#), Subsequent Events—Amendment to Revolving Facility, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

At June 30, 2017, we were eligible to borrow up to a total of \$55.6 million under the Revolving Facility and had outstanding borrowings of \$27.6 million, utilized \$0.1 million of the letters of credit sublimit, and had excess availability under the Revolving Facility of \$27.9 million. At June 30, 2017, the weighted average interest rate on our outstanding borrowings under the Revolving Facility was 3.02%. At June 30, 2017, we were in compliance with all of the restrictive covenants under the Revolving Facility.

At August 31, 2017, we had estimated outstanding borrowings of \$27.5 million, utilized \$1.1 million of the letters of credit sublimit, and had excess availability under the Revolving Facility of \$72.4 million pursuant to the Amended Credit Agreement. See [Note 26](#), Subsequent Events—Amendment to Revolving Facility, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report. At August 31, 2017, the weighted average interest rate on our outstanding borrowings under the Revolving Facility was 3.36%.

Liquidity

We generally finance our operations through cash flows from operations and borrowings under our Revolving Facility described above. At June 30, 2017, we had \$6.2 million in cash and cash equivalents and \$0.4 million in short-term investments. We believe our Revolving Facility, as amended, to the extent available, with its \$50.0 million accordion feature, in addition to our cash flows from operations and other liquid assets, will be sufficient to fund our working capital and capital expenditure requirements for the next 12 to 18 months.

Changes in Cash Flows

We generate cash from operating activities primarily from cash collections related to the sale of our products. Net cash provided by operating activities was \$42.1 million in fiscal 2017 compared to \$27.6 million in fiscal 2016 and \$26.9 million in fiscal 2015. The higher level of net cash provided by operating activities in fiscal 2017 was primarily due to the increase in deferred tax liabilities from non-cash income tax expense recorded in fiscal 2017 and cash inflows from the sale of substantially all of our preferred stock portfolio, net of purchases, to fund expenditures associated with our New Facility in Northlake, Texas. Decreases in derivative assets, increases in derivative liabilities, and increases in accounts payable balances also contributed to the cash inflows in fiscal 2017. Cash inflows from operating activities were partially offset by cash outflows from increases in inventories, reduction in other long-term liabilities, payments of accrued payroll expenses and reduction in postretirement benefit liability. Inventories were higher at the end of fiscal 2017 due to the commencement of the New Facility's manufacturing operations and incremental inventory from China Mist and West Coast Coffee as compared to lower levels of inventory at the Torrance Facility at the end of fiscal 2016 due to its anticipated closing.

In fiscal 2016, the higher level of net cash provided by operating activities compared to fiscal 2015 was primarily due to higher net income and a higher level of cash inflows from operating activities. The increase in net income was

43

primarily due to non-cash income tax benefit resulting from the release of valuation allowance on deferred tax assets. The higher level of cash inflows from operating activities was primarily due to higher proceeds from sales of short-term investments, accruals for incentive compensation payments to eligible employees and a decrease in inventory balances, partially offset by higher cash outflows from increases in derivative assets and accounts receivable balances, purchases of short-term investments and payments for restructuring and other transition expenses. Inventories decreased at the end of fiscal 2016 compared to fiscal 2015 primarily due to production consolidation, and the sale of processed and unprocessed inventories to Harris at cost upon conclusion of the transition services provided by the Company in connection with the sale of Spice Assets. At June 30, 2016, we had a net gain position in our margin accounts for coffee-related derivative instruments resulting in the release of restriction of the use of \$1.0 million of cash in these accounts, which contributed to higher cash inflows in fiscal 2016.

In fiscal 2015, the lower level of net cash provided by operating activities as compared to the prior fiscal year was due to lower net income and a higher level of cash outflows from operating activities. Cash outflows were primarily from payments of accounts payable balances including the payment of expenses associated with the Corporate Relocation Plan, payroll expenses including accrued bonuses and restriction of cash held in margin accounts for coffee-related derivative instruments. Cash outflows were partially offset by cash inflows from a decrease in inventory balances. Inventory balances decreased in fiscal 2015 compared to the prior fiscal year primarily due to the consolidation of coffee production from the Torrance production facility with the Houston and Portland production facilities pursuant to our Corporate Relocation Plan. At June 30, 2015, we had a net loss position in our margin accounts for coffee-related derivative instruments resulting in restriction of the use of \$1.0 million of cash in these accounts, which contributed to lower cash inflows in fiscal 2015.

Net cash used in investing activities was \$106.7 million in fiscal 2017 as compared to \$39.5 million in fiscal 2016 and \$20.1 million in fiscal 2015. In fiscal 2017, net cash used in investing activities included \$25.9 million for the acquisitions of China Mist and West Coast Coffee, \$45.2 million for purchases of property, plant and equipment including \$25.9 million for the New Facility and \$39.8 million for purchases of construction-in-progress assets in connection with the construction of the New Facility as the deemed owner under the lease arrangement, partially offset by proceeds from the sale of property, plant and equipment of \$4.1 million, primarily real estate. In fiscal 2016, net cash used in investing activities included \$31.1 million for purchases of property, plant and equipment including \$4.4 million in machinery and equipment for the New Facility and \$19.4 million in purchases of construction-in-progress assets in connection with the construction of the New Facility as the deemed owner under the lease arrangement, partially offset by \$10.9 million in proceeds from sales of assets, primarily spice assets and real estate. In fiscal 2015, net cash used in investing activities included \$1.2 million in payments in connection with the RLC Acquisition and \$19.2 million for purchases of property, plant and equipment, partially offset by proceeds from sales of assets, primarily vehicles, of \$0.3 million.

Net cash provided by financing activities in fiscal 2017 was \$49.8 million as compared to \$17.8 million in fiscal 2016 and net cash used in financing activities of \$3.6 million in fiscal 2015. Net cash provided by financing activities in fiscal 2017 included proceeds from sale-leaseback financing of \$42.5 million, net borrowings of \$27.5 million, \$16.3 million in proceeds from lease financing in connection with the construction of the New Facility as the deemed owner under the lease arrangement and \$0.7 million in proceeds from stock option exercises, partially offset by repayments of sale-leaseback financing of \$35.8 million, \$1.4 million used to pay capital lease obligations and \$38,000 in tax withholding payments related to net share settlement of equity awards.

Net cash provided by financing activities in fiscal 2016 included \$19.4 million in proceeds from lease financing in connection with the construction of the New Facility as the deemed owner under the lease arrangement and \$1.7 million in proceeds from stock option exercises, partially offset by \$3.1 million used to pay capital lease obligations, \$0.2 million in tax withholding payments related to net share settlement of equity awards and net repayments on our credit facility of \$31,000. Net cash used in financing activities in fiscal 2015 included \$3.9 million used to pay capital lease obligations, \$0.6 million in net repayments on our credit facility, \$0.6 million in deferred financing costs for the Revolving Facility and \$0.1 million in tax withholding payments related to net share settlement of equity awards, partially offset by \$1.5 million in proceeds from stock option exercises.

Sale of Spice Assets

In order to focus on our core product offerings, in the second quarter of fiscal 2016, we completed the sale of certain assets associated with our manufacture, processing and distribution of raw, processed and blended spices and certain other culinary products to Harris. See Note 6, Sales of Assets—Sale of Spice Assets, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Sale of Torrance Facility

On July 15, 2016, we completed the sale of the Torrance Facility consisting of approximately 665,000 square feet of buildings located on approximately 20.33 acres of land, for an aggregate cash sale price of \$43.0 million, which sale price was subject to customary adjustments for closing costs and documentary transfer taxes. Cash proceeds from the sale of the Torrance Facility were \$42.5 million. Following the closing of the sale, we leased back the Torrance Facility on a triple net basis through October 31, 2016 at zero base rent, and exercised two one-month extensions at a base rent of \$100,000 per month. We vacated the Torrance Facility in December 2016 and concluded the leaseback transaction. Accordingly, in the fiscal year ended June 30, 2017, we recognized a net gain from the sale of the Torrance Facility in the amount of \$37.4 million, including non-cash interest expense of \$0.7 million and non-cash rent expense of \$1.4 million, representing the rent for the zero base rent period previously recorded in “Other current liabilities” and removed the amounts recorded in “Assets Held for Sale” and the “Sale-leaseback financing obligation” on our consolidated balance sheet. See Note 6, Sale of Assets—Sale of Torrance Facility, and Note 7, Assets Held for Sale, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Acquisitions

On October 11, 2016, we acquired substantially all of the assets and certain specified liabilities of China Mist for aggregate purchase consideration of \$12.2 million consisting of \$11.2 million in cash paid at closing, including estimated working capital adjustments of \$0.4 million, post-closing final working capital adjustments of \$0.6 million and up to \$0.5 million in contingent consideration to be paid as earnout if certain sales levels are achieved in the calendar years of 2017 or 2018. On February 7, 2017, we acquired substantially all of the assets and certain specified liabilities of West Coast Coffee for aggregate purchase consideration of \$15.7 million, which included \$14.7 million in cash paid at closing including working capital adjustments of \$1.2 million and up to \$1.0 million in contingent consideration to be paid as earnout if certain sales levels are achieved in the twenty-four months following the closing. We funded the purchase price for these acquisitions with proceeds under our Revolving Facility and cash flows from operations. See Note 3, Acquisitions, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

DSD Restructuring Plan

On February 21, 2017, we announced the DSD Restructuring Plan. We estimate that we will recognize approximately \$3.7 million to \$4.9 million of pre-tax restructuring charges by the end of the second quarter of fiscal 2018 consisting of approximately \$1.9 million to \$2.7 million in employee-related costs, including severance, prorated bonuses for bonus eligible employees, contractual termination payments and outplacement services, and \$1.8 million to \$2.2 million in other related costs, including legal, recruiting, consulting, other professional services, and travel. Expenses related to the DSD Restructuring Plan in the fiscal year ended June 30, 2017 consisted of \$1.1 million in employee-related costs and \$1.3 million in other related costs. As of June 30, 2017, we had paid a total of \$1.7 million of these costs and had a balance of \$0.7 million in DSD Restructuring Plan-related liabilities on our consolidated balance sheet. We may also incur other charges not currently contemplated due to events that may occur as a result of, or associated with, the DSD Restructuring Plan. We expect to complete the DSD Restructuring Plan by the end of the second quarter of fiscal 2018. See Note 4, Restructuring Plans—DSD Restructuring Plan, of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this report.

Corporate Relocation Plan

We estimated that we would incur approximately \$31 million in cash costs in connection with the Corporate Relocation Plan consisting of \$18 million in employee retention and separation benefits, \$5 million in facility-related costs and \$8 million in other related costs. Since the adoption of the Corporate Relocation Plan through June 30, 2017, we have

recognized a total of \$31.5 million in aggregate cash costs including \$17.1 million in employee retention and separation benefits, \$7.0 million in facility-related costs related to the temporary office space, costs associated with the move of the Company's headquarters, relocation of our Torrance operations and certain distribution operations and \$7.4 million in other related costs recorded in "Restructuring and other transition expenses" in our consolidated statements of operations. We completed the Corporate Relocation Plan in the fourth quarter of fiscal 2017 and have \$0.3 million in accrued costs remaining to be paid in fiscal 2018. We also recognized from inception through June 30, 2017 non-cash depreciation expense of \$2.3 million associated with the Torrance production facility resulting from the consolidation of coffee production operations with the Houston and Portland production facilities and \$1.4 million in non-cash rent expense recognized in the sale-leaseback of the Torrance Facility. On July 13, 2017, we received correspondence from the WCT Pension Trust stating that we had liability for a share of the WCTPP unfunded vested benefits based on the WCT Pension Trust's claim that certain of our employment actions resulting from the Corporate Relocation Plan amounted to a partial withdrawal from the WCTPP. See Note 4, Restructuring Plans—Corporate Relocation Plan, and Note 26, Subsequent Events—Western Conference of Teamsters Pension Trust, of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this report.

Purchase Option Exercise

On September 15, 2016, we closed the purchase option and acquired the land and the partially constructed New Facility located thereon for an aggregate purchase price of \$42.5 million, consisting of the purchase option price of \$42.0 million based on actual construction costs incurred for the partially constructed New Facility as of the Purchase Option Closing Date, plus the option exercise fee, plus amounts paid in respect of real estate commissions, title insurance, and recording fees. The Purchase Price was paid in cash from proceeds received from the sale of the Torrance Facility. Upon closing of the purchase option, we recorded the aggregate purchase price of the New Facility in "Property, plant and equipment, net" on our consolidated balance sheet. The asset related to the New Facility lease obligation included in "Property, plant and equipment, net," the offsetting liability for the lease obligation included in "Other long-term liabilities" and the rent expense related to the land were reversed. See Note 5, New Facility—Lease Agreement and Purchase Option Exercise, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

Amended Building Contract

On September 17, 2016, we and The Haskell Company ("Builder") entered into a Change Order, which, among other things, amended the building contract previously entered into between us and Builder to provide a guaranteed maximum price and the basis for the price and the scope of Builder's services in connection with the construction of the New Facility (the "Amended Building Contract"). Pursuant to the Amended Building Contract, we will pay Builder up to \$21.9 million for Builder's services in connection with the pre-construction and construction services, including specialized industrial design and construction work in connection with Builder's construction of certain production equipment that will be installed in portions of the New Facility. In April 2017, we entered into a change order to change the scope of work which added \$0.6 million to the Amended Building Contract. Builder's work has been completed as of June 30, 2017. See Note 5, New Facility—Amended Building Contract, and Note 23, Commitments and Contingencies of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

New Facility Costs

We estimated that the total construction costs including the cost of the land for the New Facility would be approximately \$60 million. As of June 30, 2017, we have incurred an aggregate of \$60.8 million and have outstanding contractual obligations of \$1.6 million. In addition to the costs to complete the construction of the New Facility, we estimated that we would incur approximately \$35 million to \$39 million for machinery and equipment, furniture and fixtures, and related expenditures of which we have incurred an aggregate of \$33.2 million as of June 30, 2017, including \$20.3 million under the Amended Building Contract, and have outstanding contractual obligations of \$2.8 million as of June 30, 2017. See Note 5, New Facility, and Note 23, Commitments and Contingencies, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report. The majority of the capital expenditures associated with machinery and equipment, furniture and fixtures and related expenditures for the New Facility were incurred in the first three quarters of fiscal 2017. We commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017.

We began roasting coffee in the New Facility in the fourth quarter of fiscal 2017.

46

The following table summarizes the expenditures incurred for the New Facility as of June 30, 2017 as compared to the final budget:

(In thousands)	Expenditures Incurred			Budget	
	Fiscal Year Ended June 30, 2017	Through Fiscal Year Ended June 30, 2016	Total	Lower bound	Upper bound
Building and facilities, including land	\$32,660	\$28,110	\$60,770	\$55,000	\$60,000
Machinery and equipment; furniture and fixtures	28,798	4,443	\$33,241	35,000	39,000
Total	\$61,458	\$32,553	\$94,011	\$90,000	\$99,000

Capital Expenditures

For the fiscal years ended June 30, 2017, 2016 and 2015, our capital expenditures paid were as follows:

(In thousands)	June 30,		
	2017	2016	2015
Coffee brewing equipment	\$10,758	\$8,375	\$10,709
Building and facilities	345	3,354	1,460
Vehicles, machinery and equipment	7,445	10,254	6,079
Software, office furniture and equipment	698	3,165	946
Land	—	1,458	—
Capital expenditures, excluding New Facility	\$19,246	\$26,606	\$19,194
New Facility:			
Building and facilities, including land(1)	\$39,754	\$19,426	\$—
Machinery and equipment	20,089	4,443	22
Software, office furniture and equipment	5,860	—	—
Capital expenditures, New Facility	\$65,703	\$23,869	\$22
Total capital expenditures(1)	\$84,949	\$50,475	\$19,216

(1) Includes \$19.4 million in purchase of construction-in-progress assets for New Facility in fiscal 2016.

In fiscal 2018, we anticipate paying between \$4.5 million to \$5.5 million in capital expenditures for machinery and equipment, furniture and fixtures and related expenditures budgeted for the New Facility, and approximately \$20 million to \$22 million in expenditures to replace normal wear and tear of coffee brewing equipment, vehicles, machinery and equipment and mobile sales solution hardware.

Depreciation and amortization expense was \$23.0 million, \$20.8 million and \$24.2 million in fiscal 2017, 2016 and 2015, respectively. We anticipate our depreciation and amortization expense will be approximately \$8.0 million to \$8.5 million per quarter in fiscal 2018 based on our existing fixed asset commitments and the useful lives of our intangible assets.

Working Capital

At June 30, 2017 and 2016, our working capital was composed of the following:

	June 30,	
(In thousands)	2017	2016
Current assets	\$ 117,164	\$ 153,365
Current liabilities	97,267	56,837
Working capital	\$ 19,897	\$ 96,528

Contractual Obligations

The following table contains information regarding total contractual obligations as of June 30, 2017, including capital leases:

(In thousands)	Payment due by period				
	Total	Less Than One Year	1-3 Years	3-5 Years	More Than 5 Years
Contractual obligations:					
Operating lease obligations	\$ 12,009	\$ 4,907	\$ 6,147	\$ 955	\$ —
New Facility construction and equipment contracts(1)	4,439	4,439	—	—	—
Capital lease obligations(2)	1,235	994	237	4	—
Pension plan obligations(3)	92,677	14,097	16,390	17,320	44,870
Postretirement benefits other than pension plans(4)	15,801	5,880	1,960	2,131	5,830
Revolving credit facility	27,621	27,621	—	—	—
Purchase commitments(5)	76,359	76,359	—	—	—
Total contractual obligations	\$ 230,141	\$ 134,297	\$ 24,734	\$ 20,410	\$ 50,700

(1) Includes \$1.6 million in outstanding contractual obligations for the construction of the New Facility and \$2.8 million in outstanding contractual obligations for the purchase of machinery and equipment for the New Facility, including \$2.2 million under the Amended Building Contract. See Note 5, New Facility, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

(2) Includes imputed interest of \$40,000.

(3) Includes \$86.5 million in estimated future benefit payments on single employer pension plan obligations, \$4.0 million in estimated payments in fiscal 2018 towards settlement of withdrawal liability associated with the Company's withdrawal from the Local 807 Labor Management Pension Plan and \$2.2 million in estimated fiscal 2018 contributions to multiemployer pension plans. See Note 15, Employee Benefit Plans, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

(4) Includes \$10.8 million in estimated future benefit payments on single employer postretirement plan obligations and \$5.0 million in estimated 2018 contributions to multiemployer plans other than pension plans. See Note 15, Employee Benefit Plans, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

(5) Purchase commitments include commitments under coffee purchase contracts for which all delivery terms have been finalized but the related coffee has not been received as of June 30, 2017. Amounts shown in the table above: (a) include all coffee purchase contracts that the Company considers to be from normal purchases; and (b) do not include amounts related to derivative instruments that are recorded at fair value on the Company's consolidated balance sheets.

As of June 30, 2017, we had committed to purchase green coffee inventory totaling \$66.7 million under fixed-price contracts, \$3.5 million in equipment for the New Facility and \$6.1 million in other purchases under non-cancelable purchase orders.

Certain of our business acquisitions involve the payment of contingent consideration. Certain of these payments are based on achievement of certain sales levels during the earn-out period and, consequently, we cannot currently determine the total payments. However, we have developed an estimate of the maximum potential contingent consideration for each of our acquisitions with an outstanding earn-out obligation. The estimated maximum fair value of future contingent consideration that we could be required to pay associated with our business acquisitions is \$1.2 million recorded in “Other current liabilities” and “Other long-term liabilities” on our consolidated balance sheet at June 30, 2017 (see Note 19, Other Current Liabilities and Note 20, Other Long-Term Liabilities, of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this report. Subject to achievement of certain milestones, the contingent consideration is estimated to be paid before the end of calendar 2019. Since it is not possible to estimate when, or even if, the acquired companies will reach their performance milestones or the amount of contingent consideration payable based on future sales, the maximum contingent consideration has not been included in the table above.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies and Estimates

Management’s discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. Our significant accounting policies are discussed in Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements, included in Part II, Item 8 of this report. The preparation of these financial statements requires us to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to inventory valuation, including LIFO reserves, valuation of goodwill and intangible assets, deferred tax assets, liabilities relating to retirement benefits, liabilities resulting from self-insurance, tax liabilities and litigation. We base our estimates, judgments and assumptions on historical experience and other relevant factors that are believed to be reasonable based on information available to us at the time these estimates are made.

While we believe that the historical experience and other factors considered provide a meaningful basis for the accounting policies applied in the preparation of the consolidated financial statements, actual results may differ from these estimates, which could require us to make adjustments to these estimates in future periods.

We believe that the estimates, judgments and assumptions involved in the accounting policies described below require the most subjective judgment and have the greatest potential impact on our financial statements, so we consider these to be our critical accounting policies. Our senior management has reviewed the development and selection of these critical accounting policies and estimates, and their related disclosure in this report, with the Audit Committee of our Board of Directors.

Exposure to Commodity Price Fluctuations and Derivative Instruments

We are exposed to commodity price risk arising from changes in the market price of green coffee. In general, increases in the price of green coffee could cause our cost of goods sold to increase and, if not offset by product price increases, could negatively affect our financial condition and results of operations. As a result, our business model strives to reduce the impact of green coffee price fluctuations on our financial results and to protect and stabilize our margins, principally through customer arrangements and derivative instruments.

Customers generally pay for our products based either on an announced price schedule or under commodity-based pricing arrangements whereby the changes in green coffee commodity and other input costs are passed through to the customer. The pricing schedule is generally subject to adjustment, either on contractual terms or in accordance with periodic product price adjustments, typically monthly, resulting in, at the least, a 30-day lag in our ability to correlate the changes in our prices with fluctuations in the cost of raw materials and other inputs.

In addition to our customer arrangements, we utilize derivative instruments to reduce further the impact of changing green coffee commodity prices. We purchase over-the-counter coffee derivative instruments to enable us to lock in the price of green coffee commodity purchases. These derivative instruments may be entered into at the direction of the customer under commodity-based pricing arrangements to effectively lock in the purchase price of green coffee under such customer

arrangements, in certain cases up to 18 months or longer in the future. Notwithstanding this customer direction, pursuant to Accounting Standards Codification (“ASC”) 815, “Derivatives and Hedging,” we are considered the owner of these derivative instruments and, therefore, we are required to account for them as such. In the event the customer fails to purchase the products associated with the underlying derivative instruments for which the price has been locked-in on behalf of the customer, we expect that such derivative instruments will be assigned to, and assumed by, the customer in accordance with contractual terms or, in the absence of such terms, in accordance with standard industry custom and practice. In the event the customer fails to assume such derivative instruments, we will remain obligated on the derivative instruments at settlement. We generally settle derivative instruments to coincide with the receipt of the purchased green coffee or apply the derivative instruments to purchase orders effectively fixing the cost of in-bound green coffee purchases. As of June 30, 2017 and 2016, we had 35.2 million and 34.0 million pounds of green coffee covered under coffee-related derivative instruments, respectively. We do not purchase any derivative instruments to hedge cost fluctuations of any commodities other than green coffee.

The fair value of derivative instruments is based upon broker quotes. We account for certain coffee-related derivative instruments as accounting hedges in order to minimize the volatility created in our quarterly results from utilizing these derivative contracts and to improve comparability between reporting periods. The effective portion of the change in fair value of the derivative is reported in accumulated other comprehensive income (loss) (“AOCI”) on our consolidated balance sheet and subsequently reclassified into cost of goods sold in the period or periods when the hedged transaction affects earnings. At June 30, 2017, approximately 94% of our outstanding coffee-related derivative instruments, representing 33.0 million pounds of forecasted green coffee purchases, were designated as cash flow hedges. At June 30, 2016, approximately 96% of our outstanding coffee-related derivative instruments, representing 32.6 million pounds of forecasted green coffee purchases, were designated as cash flow hedges. The portion of open hedging contracts that are not 100% effective as cash flow hedges and those that are not designated as accounting hedges are marked to period-end market price and unrealized gains or losses based on whether the period-end market price was higher or lower than the price we locked-in are recognized in our financial results.

Our risk management practices reduce but do not eliminate our exposure to changing green coffee prices. While we have limited our exposure to unfavorable green coffee price changes, we have also limited our ability to benefit from favorable price changes. Further, our counterparty may require that we post cash collateral if the fair value of our derivative liabilities exceed the amount of credit granted by such counterparty, thereby reducing our liquidity. At June 30, 2017 and 2016, because we had a net gain position in our coffee-related derivative margin accounts, none of the cash in these accounts was restricted. Changes in commodity prices and the number of coffee-related derivative instruments held could have a significant impact on cash deposit requirements under our broker and counterparty agreements.

Inventories

Inventories are valued at the lower of cost or market. We account for coffee, tea and culinary products on the last in, first out (“LIFO”) basis, and coffee brewing equipment parts on the first in, first out (“FIFO”) basis. We regularly evaluate these inventories to determine the provision for obsolete and slow-moving inventory. Inventory reserves are based on inventory obsolescence trends, historical experience and application of specific identification. At the end of each quarter, we record the expected effect of the liquidation of LIFO inventory quantities, if any, and record the actual impact at fiscal year-end. An actual valuation of inventory under the LIFO method is made only at the end of each fiscal year based on the inventory levels and costs at that time. If inventory quantities decline at the end of the fiscal year compared to the beginning of the fiscal year, the reduction results in the liquidation of LIFO inventory quantities carried at the cost prevailing in prior years. This LIFO inventory liquidation may result in a decrease or increase in cost of goods sold depending on whether the cost prevailing in prior years was lower or higher, respectively, than the current year cost. As these estimates are subject to many forces beyond management's control, interim results are subject to the final fiscal year-end LIFO inventory valuation.

Impairment of Goodwill and Indefinite-lived Intangible Assets

We account for our goodwill and indefinite-lived intangible assets in accordance with Accounting Standards Codification (“ASC”) 350, “Intangibles-Goodwill and Other” (“ASC 350”). Goodwill and other indefinite-lived intangible assets are not amortized but instead are reviewed for impairment annually, or more frequently if an event occurs or

circumstances change which indicate that an asset might be impaired. We perform a qualitative assessment of goodwill and indefinite-lived intangible assets on our consolidated balance sheets, to determine if there is a more likely than not

50

indication that our goodwill and indefinite-lived intangible assets are impaired as of June 30. If the indicators of impairment are present, we perform a quantitative test to determine the impairment of these assets as of the measurement date.

Testing for impairment of goodwill is a two-step process. The first step requires us to compare the fair value of our reporting units to the carrying value of the reporting units, including goodwill. If the fair value of a reporting unit is less than its carrying value, goodwill of the reporting unit is potentially impaired and we then complete step two to measure the impairment loss, if any. The second step requires the calculation of the implied fair value of goodwill, which is the residual fair value remaining after deducting the fair value of all tangible and intangible net assets of the reporting unit from the fair value of the reporting unit. If the implied fair value of goodwill is less than the carrying amount of goodwill, an impairment loss is recognized equal to the difference.

Indefinite-lived intangible assets are tested for impairment by comparing their fair values to their carrying values. An impairment charge is recorded if the estimated fair value of such assets has decreased below their carrying value.

Other Intangible Assets

Other intangible assets consist of finite-lived intangible assets including acquired recipes, non-compete agreements, customer relationships, trade names, trademarks and a brand name. These assets are amortized over their estimated useful lives and are tested for impairment by grouping them with other assets at the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities. The estimated future cash flows are based upon, among other things, assumptions about expected future operating performance and may differ from actual cash flows. If the sum of the projected undiscounted cash flows (excluding interest) is less than the carrying value of the assets, the assets will be written down to the estimated fair value in the period in which the determination is made. We review the recoverability of our long-lived assets whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable.

Self-Insurance

We use a combination of insurance and self-insurance mechanisms to provide for the potential liability of certain risks including workers' compensation, health care benefits, general liability, product liability, property insurance and director and officers' liability insurance. Liabilities associated with risks retained by us are not discounted and are estimated by considering historical claims experience, demographics, exposure and severity factors and other actuarial assumptions.

Our self-insurance for workers' compensation liability includes estimated outstanding losses of unpaid claims and allocated loss adjustment expenses ("ALAE"), case reserves, the development of known claims and incurred but not reported claims. ALAE are the direct expenses for settling specific claims. The amounts reflect per occurrence and annual aggregate limits maintained by the Company. The estimated liability analysis does not include estimating a provision for unallocated loss adjustment expenses. We believe that the amount recorded at June 30, 2017 is adequate to cover all known workers' compensation claims at June 30, 2017. If the actual costs of such claims and related expenses exceed the amount estimated, additional reserves may be required which could have a material negative effect on operating results.

The estimated liability related to our self-insured group medical insurance is recorded on an incurred but not reported basis, within deductible limits, based on actual claims and the average lag time between the date insurance claims are filed and the date those claims are paid. The cost of general liability, product liability and commercial auto liability is accrued based on estimates of the aggregate liability claims incurred using certain actuarial assumptions and historical claims experience.

Employee Benefit Plans

We provide benefit plans for most full-time employees, including 401(k), health and other welfare benefit plans and, in certain circumstances, pension benefits. Generally the plans provide benefits based on years of service and/or a combination of years of service and earnings. In addition, we contribute to two multiemployer defined benefit pension plans, one multiemployer defined contribution pension plan and ten multiemployer defined contribution plans other than pension plans that provide medical, vision, dental and disability benefits for active, union-represented employees subject to collective bargaining agreements. In addition, we sponsor a postretirement defined benefit plan that covers qualified non-union retirees and certain qualified union retirees and provides retiree medical coverage and, depending

on the age of the retiree, dental and vision coverage. We also provide a postretirement death benefit to certain of our employees and retirees.

51

We are required to recognize the funded status of a benefit plan in our consolidated balance sheet. We are also required to recognize in OCI certain gains and losses that arise during the period but are deferred under pension accounting rules.

Single Employer Pension Plans

We have a defined benefit pension plan, the Farmer Bros. Co. Pension Plan for Salaried Employees (the “Farmer Bros. Plan”), for our employees hired prior to January 1, 2010 who are not covered under a collective bargaining agreement. We amended the Farmer Bros. Plan, freezing the benefit for all participants effective June 30, 2011. After the plan freeze, participants do not accrue any benefits under the Farmer Bros. Plan, and new hires are not eligible to participate in the Farmer Bros. Plan. As all plan participants became inactive following this pension curtailment, net (gain) loss is now amortized based on the remaining life expectancy of these participants instead of the remaining service period of these participants.

We also have two defined benefit pension plans for certain hourly employees covered under collective bargaining agreements (the “Brewmatic Plan” and the “Hourly Employees’ Plan”). Effective October 1, 2016, the Company froze benefit accruals and participation in the Hourly Employees’ Plan. After the plan freeze, participants do not accrue any benefits under the plan, and new hires are not eligible to participate in the plan. After the freeze the participants in the plan are eligible to receive the Company’s matching contributions to their 401(k).

We obtain actuarial valuations for our single employer defined benefit pension plans. In fiscal 2017 we discounted the pension obligations using a 3.55% discount rate and 7.75% expected long-term rate of return on plan assets. The performance of the stock market and other investments as well as the overall health of the economy can have a material effect on pension investment returns and these assumptions. A change in these assumptions could affect our operating results.

At June 30, 2017, the projected benefit obligation under our single employer defined benefit pension plans was \$154.7 million and the fair value of plan assets was \$103.4 million. The difference between the projected benefit obligation and the fair value of plan assets is recognized as a decrease in OCI and an increase in pension liability and deferred tax assets. The difference between plan obligations and assets, or the funded status of the plans, significantly affects the net periodic benefit cost and ongoing funding requirements of those plans. Among other factors, changes in interest rates, mortality rates, early retirement rates, mix of plan asset investments, investment returns and the market value of plan assets can affect the level of plan funding, cause volatility in the net periodic benefit cost, increase our future funding requirements and require premium payments to the Pension Benefit Guaranty Corporation. For the fiscal year ended June 30, 2017, we made \$2.4 million in contributions to our single employer defined benefit pension plans and recorded pension expense of \$1.3 million. We expect to make approximately \$3.1 million in contributions to our single employer defined benefit pension plans in fiscal 2018 and accrue pension expense of approximately \$1.6 million per year beginning in fiscal 2018. These pension contributions are expected to increase for several years and we may be required to make larger contributions in the future.

The following chart quantifies the effect on the projected benefit obligation and the net periodic benefit cost of a change in the discount rate assumption and the impact on the net periodic benefit cost of a change in the assumed rate of return on plan assets under our single employer defined benefit pension plans for fiscal 2018:

(\$ in thousands)

Farmer Bros. Plan Discount Rate	3.3%	Actual 3.80%	4.3%
Net periodic benefit cost	\$5,638	\$ 1,515	\$4,495
Projected benefit obligation	\$155,829	\$ 146,291	\$137,686
Farmer Bros. Plan Rate of Return	6.3%	Actual 6.75%	7.3%
Net periodic benefit cost	\$1,991	\$ 1,515	\$1,040
Brewmatic Plan Discount Rate	3.3%	Actual 3.80%	4.3%
Net periodic benefit cost	\$36	\$ 68	\$46
Projected benefit obligation	\$4,320	\$ 4,080	\$3,863
Brewmatic Plan Rate of Return	6.3%	Actual 6.75%	7.3%
Net periodic benefit cost	\$83	\$ 68	\$53
Hourly Employees' Plan Discount Rate	3.3%	Actual 3.80%	4.3%
Net periodic benefit cost	\$37	\$ (4)	\$ (3)
Projected benefit obligation	\$4,704	\$ 4,329	\$3,996
Hourly Employees' Plan Rate of Return	6.3%	Actual 6.75%	7.3%
Net periodic benefit cost	\$11	\$ (4)	\$ (20)

Multiemployer Pension Plans

We participate in two multiemployer defined benefit pension plans that are union sponsored and collectively bargained for the benefit of certain employees subject to collective bargaining agreements. We make contributions to these plans generally based on the number of hours worked by the participants in accordance with the provisions of negotiated labor contracts.

The risks of participating in multiemployer pension plans are different from single-employer plans in that: (i) assets contributed to a multiemployer plan by one employer may be used to provide benefits to employees of other participating employers; (ii) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and (iii) if we stop participating in the multiemployer plan, we may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

Postretirement Benefits

We sponsor a postretirement defined benefit plan that covers qualified non-union retirees and certain qualified union retirees. The plan provides medical, dental and vision coverage for retirees under age 65 and medical coverage only for retirees age 65 and above. Under this postretirement plan, our contributions toward premiums for retiree medical, dental and vision coverage for participants and dependents are scaled based on length of service, with greater Company contributions for retirees with greater length of service, subject to a maximum monthly Company contribution. Our retiree medical, dental and vision plan is unfunded, and its liability was calculated using an assumed discount rate of 4.1% at June 30, 2017. We project an initial medical trend rate of 8.6% in fiscal 2018, ultimately reducing to 4.5% in 10 years.

We also provide a postretirement death benefit to certain of our employees and retirees, subject, in the case of current employees, to continued employment with the Company until retirement, and certain other conditions related to the manner of employment termination and manner of death. We record the actuarially determined liability for the present value of the postretirement death benefit using a discount rate of 4.1%. We have purchased life insurance policies to fund the

postretirement death benefit wherein we own the policy but the postretirement death benefit is paid to the employee's or retiree's beneficiary. We record an asset for the fair value of the life insurance policies which equates to the cash surrender value of the policies.

Share-based Compensation

We measure all share-based compensation cost at the grant date, based on the fair values of the awards that are ultimately expected to vest, and recognize that cost on a straight line basis in our consolidated statements of operations over the requisite service period. Fair value of restricted stock is the closing price of the Company's common stock on the date of grant. We estimate the fair value of stock option awards on the date of grant using the Black-Scholes valuation model which requires that we make certain assumptions regarding: (i) the expected volatility in the market price of our common stock; (ii) dividend yield; (iii) risk-free interest rate; and (iv) the period of time employees are expected to hold the award prior to exercise (referred to as the expected term).

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. Because our stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimates, in management's opinion, the existing models may not necessarily provide a reliable single measure of the fair value of our stock options. Although the fair value of stock options is determined using an option valuation model, that value may not be indicative of the fair value observed in a willing buyer/willing seller market transaction.

In addition, we estimate the expected impact of forfeited awards and recognize share-based compensation cost only for those awards ultimately expected to vest. If actual forfeiture rates differ materially from our estimates, share-based compensation expense could differ significantly from the amounts we have recorded in the current period. We will periodically review actual forfeiture experience and revise our estimates, as necessary. We will recognize as compensation cost the cumulative effect of the change in estimated forfeiture rates on current and prior periods in earnings of the period of revision. As a result, if we revise our assumptions and estimates, our share-based compensation expense could change materially in the future. In each of fiscal 2017 and 2016, we used an estimated annual forfeiture rate of 4.8% to calculate share-based compensation expense based on actual forfeiture experience. We have outstanding share-based awards that have performance-based vesting conditions in addition to time-based vesting. Awards with performance-based vesting conditions require the achievement of certain financial and other performance criteria as a condition to the vesting. We recognize the estimated fair value of performance-based awards, net of estimated forfeitures, as share-based compensation expense over the performance period based upon our determination of whether it is probable that the performance targets will be achieved. At each reporting period, we reassess the probability of achieving the performance criteria and the performance period required to meet those targets. Determining whether the performance criteria will be achieved involves judgment, and the estimate of share-based compensation expense may be revised periodically based on changes in the probability of achieving the performance criteria. Revisions are reflected in the period in which the estimate is changed. If performance goals are not met, no share-based compensation expense is recognized for the cancelled shares, and, to the extent share-based compensation expense was previously recognized for those cancelled shares, such share-based compensation expense is reversed.

Income Taxes

Deferred income taxes are determined based on the temporary differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Estimating our tax liabilities involves judgments related to uncertainties in the application of complex tax regulations. We make certain estimates and judgments to determine tax expense for financial statement purposes as we evaluate the effect of tax credits, tax benefits and deductions, some of which result from differences in the timing of recognition of revenue or expense for tax and financial statement purposes. Changes to these estimates may result in significant changes to our tax provision in future periods. Each fiscal quarter we re-evaluate our tax provision and reconsider our estimates and assumptions related to specific tax assets and liabilities, making adjustments as circumstances change.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We are exposed to market value risk arising from changes in interest rates on our securities portfolio. Our portfolio of preferred securities has sometimes included investments in derivative instruments that provide a natural economic hedge of interest rate risk. We review the interest rate sensitivity of these securities and may enter into “short positions” in futures contracts on U.S. Treasury securities or hold put options on such futures contracts to reduce the impact of certain interest rate changes. Specifically, we attempt to manage the risk arising from changes in the general level of interest rates. We do not transact in futures contracts or put options for speculative purposes. The number and type of futures and options contracts entered into depends on, among other items, the specific maturity and issuer redemption provisions for each preferred stock held, the slope of the U.S. Treasury yield curve, the expected volatility of U.S. Treasury yields, and the costs of using futures and/or options.

The following table demonstrates the impact of varying interest rate changes based on our preferred securities holdings and market yield and price relationships at June 30, 2017. This table is predicated on an “instantaneous” change in the general level of interest rates and assumes predictable relationships between the prices of our preferred securities holdings and the yields on U.S. Treasury securities. At June 30, 2017, we had no futures contracts or put options with respect to our preferred securities portfolio designated as interest rate risk hedges.

(\$ in thousands)	Market Value of Preferred Securities		Change in Market Value
	June 30, 2017	Value	
Interest Rate Changes			
-150 basis points	\$ 367.5	\$ (0.2)
-100 basis points	\$ 367.6	\$ (0.1)
Unchanged	\$ 367.7	\$ —	
+100 basis points	\$ 367.6	\$ (0.1)
+150 basis points	\$ 367.6	\$ (0.1)

Borrowings under our Revolving Facility bear interest based on average historical excess availability levels with a range of PRIME - 0.25% to PRIME + 0.50% or Adjusted LIBO Rate + 1.25% to Adjusted LIBO Rate + 2.00%. At June 30, 2017, we had outstanding borrowings of \$27.6 million, utilized \$0.1 million of the letters of credit sublimit, and had excess availability under the Revolving Facility of \$27.9 million. The weighted average interest rate on our outstanding borrowings under the Revolving Facility at June 30, 2017 was 3.02%.

The following table demonstrates the impact of interest rate changes on our annual interest expense on outstanding borrowings under the Revolving Facility, excluding interest on letters of credit, based on the weighted average interest rate on the outstanding borrowings as of June 30, 2017:

(\$ in thousands)	Principal	Interest Rate	Annual Interest Expense
-150 basis points	\$27,621	1.52 %	\$ 420
-100 basis points	\$27,621	2.02 %	\$ 558
Unchanged	\$27,621	3.02 %	\$ 834
+100 basis points	\$27,621	4.02 %	\$ 1,110
+150 basis points	\$27,621	4.52 %	\$ 1,248

Commodity Price Risk

We are exposed to commodity price risk arising from changes in the market price of green coffee. We value green coffee inventory on the LIFO basis. In the normal course of business we hold a large green coffee inventory and enter into forward commodity purchase agreements with suppliers. We are subject to price risk resulting from the volatility

of green

55

coffee prices. Due to competition and market conditions, volatile price increases cannot always be passed on to our customers.

We purchase over-the-counter coffee derivative instruments to enable us to lock in the price of green coffee commodity purchases. These derivative instruments also may be entered into at the direction of the customer under commodity-based pricing arrangements to effectively lock in the purchase price of green coffee under such customer arrangements, in certain cases up to 18 months or longer in the future. We account for certain coffee-related derivative instruments as accounting hedges in order to minimize the volatility created in our quarterly results from utilizing these derivative contracts and to improve comparability between reporting periods.

When we designate coffee-related derivative instruments as cash flow hedges, we formally document the hedging instruments and hedged items, and measure at each balance sheet date the effectiveness of our hedges. The effective portion of the change in fair value of the derivative is reported in AOCI and subsequently reclassified into cost of goods sold in the period or periods when the hedged transaction affects earnings. For the fiscal years ended June 30, 2017, 2016 and 2015, we reclassified \$1.7 million in net gains, \$(13.2) million in net losses and \$4.2 million in net gains, respectively, into cost of goods sold from AOCI. Any ineffective portion of the derivative's change in fair value is recognized currently in "Other, net." Gains or losses deferred in AOCI associated with terminated derivative instruments, derivative instruments that cease to be highly effective hedges, derivative instruments for which the forecasted transaction is reasonably possible but no longer probable of occurring, and cash flow hedges that have been otherwise discontinued remain in AOCI until the hedged item affects earnings. If it becomes probable that the forecasted transaction designated as the hedged item in a cash flow hedge will not occur, we recognize any gain or loss deferred in AOCI in "Other, net" at that time. For the fiscal years ended June 30, 2017, 2016 and 2015, we recognized in "Other, net" \$(0.5) million, \$(0.6) million and \$(0.3) million, respectively, in net losses on coffee-related derivative instruments designated as cash flow hedges due to ineffectiveness.

For derivative instruments that are not designated in a hedging relationship, and for which the normal purchases and normal sales exception has not been elected, the changes in fair value are reported in "Other, net."

For the fiscal years ended June 30, 2017, 2016 and 2015, we recorded in "Other, net" net (losses) gains on coffee-related derivative instruments not designated as accounting hedges in the amounts of \$(1.8) million, \$(0.3) million and \$(3.0) million, respectively.

The following table summarizes the potential impact as of June 30, 2017 to net income and AOCI from a hypothetical 10% change in coffee commodity prices. The information provided below relates only to the coffee-related derivative instruments and does not include, when applicable, the corresponding changes in the underlying hedged items:

	Increase (Decrease) to Net Income		Increase (Decrease) to AOCI	
	10% Increase in Underlying Rate	10% Decrease in Underlying Rate	10% Increase in Underlying Rate	10% Decrease in Underlying Rate
(In thousands)				
Coffee-related derivative instruments(1)	\$ 274	\$ (274)	\$ 4,474	\$ (4,474)

(1) The Company's purchase contracts that qualify as normal purchases include green coffee purchase commitments for which the price has been locked in as of June 30, 2017. These contracts are not included in the sensitivity analysis above as the underlying price has been fixed.

Item 8. Financial Statements and Supplementary Data
Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Farmer Bros. Co.
Northlake, Texas

We have audited the accompanying consolidated balance sheets of Farmer Bros. Co. and subsidiaries (the "Company") as of June 30, 2017 and 2016 and the related consolidated statements of operations, comprehensive income (loss), cash flows, and stockholders' equity for each of the three years in the period ended June 30, 2017. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Farmer Bros. Co. and subsidiaries as of June 30, 2017 and 2016, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2017, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of June 30, 2017, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated September 28, 2017 expressed an unqualified opinion on the Company's internal control over financial reporting.

FARMER BROS. CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Introduction and Basis of Presentation

Overview

Farmer Bros. Co., a Delaware corporation (including its consolidated subsidiaries unless the context otherwise requires, the “Company,” or “Farmer Bros.”), is a national coffee roaster, wholesaler and distributor of coffee, tea and culinary products. The Company serves a wide variety of customers, from small independent restaurants and foodservice operators to large institutional buyers like restaurant and convenience store chains, hotels, casinos, healthcare facilities, and gourmet coffee houses, as well as grocery chains with private brand and consumer-branded coffee and tea products. The Company’s product categories consist of roast and ground coffee, frozen liquid coffee; flavored and unflavored iced and hot teas; culinary products; spices; and other beverages including cappuccino, cocoa, granitas, and ready-to-drink iced coffee. The Company was founded in 1912, incorporated in California in 1923, and reincorporated in Delaware in 2004. The Company operates in one business segment.

In fiscal 2015 the Company began the process of relocating its corporate headquarters, product development lab, and manufacturing and distribution operations from Torrance, California to a new facility housing these operations in Northlake, Texas (the “New Facility”) (the “Corporate Relocation Plan”). In order to focus on the Company’s core product offerings, in the second quarter of fiscal 2016, the Company sold certain assets associated with its manufacture, processing and distribution of raw, processed and blended spices and certain other culinary products (collectively, the “Spice Assets”) to Harris Spice Company Inc. (“Harris”). In fiscal 2017, the Company completed the construction of and exercised the purchase option to acquire the New Facility, relocated its Torrance operations to the New Facility, and sold its facility in Torrance, California (the “Torrance Facility”). The Company commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. The Company began roasting coffee in the New Facility in the fourth quarter of fiscal 2017. The Company completed the Corporate Relocation Plan in the fourth quarter of fiscal 2017.

In fiscal 2017, the Company completed the following acquisitions. On October 11, 2016, the Company acquired substantially all of the assets and certain specified liabilities of China Mist Brands, Inc. dba China Mist Tea Company (“China Mist”), a provider of flavored iced teas and iced green teas, and on February 7, 2017, the Company acquired substantially all of the assets and certain specified liabilities of West Coast Coffee Company, Inc. (“West Coast Coffee”), a coffee roaster and distributor with a focus on the convenience store, grocery and foodservice channels.

In the third quarter of fiscal 2017, the Company commenced a restructuring plan to reorganize its direct-store-delivery, or DSD, operations in an effort to realign functions into a channel-based selling organization, streamline operations, acquire certain channel specific expertise, and improve selling effectiveness and financial results (the “DSD Restructuring Plan”). The Company expects to complete the DSD Restructuring Plan by the end of the second quarter of fiscal 2018.

The Company operates production facilities in Northlake, Texas; Houston, Texas; Portland, Oregon; Hillsboro, Oregon; and Scottsdale, Arizona. Distribution takes place out of the New Facility, the Portland, Hillsboro and Scottsdale facilities, as well as separate distribution centers in Northlake, Illinois; and Moonachie, New Jersey. The Company commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. The Company began roasting coffee in the New Facility in the fourth quarter of fiscal 2017.

The Company’s products reach its customers primarily in the following ways: through the Company’s nationwide direct-store-delivery, or DSD, network of 450 delivery routes and 114 branch warehouses as of June 30, 2017, or direct-shipped via common carriers or third-party distributors. The Company operates a large fleet of trucks and other vehicles to distribute and deliver its products, and relies on third-party logistic (“3PL”) service providers for its long-haul distribution. DSD sales are made “off-truck” by the Company to its customers at their places of business.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its direct and indirect wholly owned subsidiaries. All inter-company balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The Company reviews its estimates on an ongoing basis using currently available information. Changes in facts and circumstances may result in revised estimates and actual results may differ from those estimates.

Note 2. Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid investments with original maturity dates of 90 days or less to be cash equivalents. Fair values of cash equivalents approximate cost due to the short period of time to maturity.

Investments

The Company’s investments, from time to time, consist of money market instruments, marketable debt, equity and hybrid securities. Investments are held for trading purposes and stated at fair value. The cost of investments sold is determined on the specific identification method. Dividend and interest income are accrued as earned. See [Note 9](#).

Fair Value Measurements

The Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1—Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2—Valuation is based upon inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted prices for similar instruments in active and non-active markets. Level 2 includes those financial instruments that are valued with industry standard valuation models that incorporate inputs that are observable in the marketplace throughout the full term of the instrument, or can otherwise be derived from or supported by observable market data in the marketplace. Level 2 inputs may also include insignificant adjustments to market observable inputs.
- Level 3—Valuation is based upon one or more unobservable inputs that are significant in establishing a fair value estimate. These unobservable inputs are used to the extent relevant observable inputs are not available and are developed based on the best information available. These inputs may be used with internally developed methodologies that result in management’s best estimate of fair value.

Securities with quotes that are based on actual trades or actionable bids and offers with a sufficient level of activity on or near the measurement date are classified as Level 1. Securities that are priced using quotes derived from implied values, indicative bids and offers, or a limited number of actual trades, or the same information for securities that are similar in many respects to those being valued, are classified as Level 2. If market information is not available for securities being valued, or materially-comparable securities, then those securities are classified as Level 3. In considering market information, management evaluates changes in liquidity, willingness of a broker to execute at the quoted price, the depth and consistency of prices from pricing services, and the existence of observable trades in the market (see [Note 10](#)).

Derivative Instruments

The Company purchases various derivative instruments to create economic hedges of its commodity price risk. These derivative instruments consist primarily of forward and option contracts. The Company reports the fair value of derivative instruments on its consolidated balance sheets in “Short-term derivative assets,” “Other assets,” “Short-term derivative liabilities,” or “Other long-term liabilities.” The Company determines the current and noncurrent classification based on the

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

timing of expected future cash flows of individual trades and reports these amounts on a gross basis. Additionally, the Company reports cash held on deposit in margin accounts for coffee-related derivative instruments on a gross basis on its consolidated balance sheet in "Restricted cash" if restricted from withdrawal due to a net loss position in such margin accounts.

The accounting for the changes in fair value of the Company's derivative instruments can be summarized as follows:

Derivative Treatment	Accounting Method
Normal purchases and normal sales exception	Accrual accounting
Designated in a qualifying hedging relationship	Hedge accounting
All other derivative instruments	Mark-to-market accounting

The Company enters into green coffee purchase commitments at a fixed price or at a price to be fixed ("PTF"). PTF contracts are purchase commitments whereby the quality, quantity, delivery period, price differential to the coffee "C" market price and other negotiated terms are agreed upon, but the date, and therefore the price at which the base "C" market price will be fixed has not yet been established. The coffee "C" market price is fixed at some point after the purchase contract date and before the futures market closes for the delivery month and may be fixed either at the direction of the Company to the vendor, or by the application of a derivative that was separately purchased as a hedge. For both fixed-price and PTF contracts, the Company expects to take delivery of and to utilize the coffee in a reasonable period of time and in the conduct of normal business. Accordingly, these purchase commitments qualify as normal purchases and are not recorded at fair value on the Company's consolidated balance sheets.

The Company follows the guidelines of Accounting Standards Codification ("ASC") 815, "Derivatives and Hedging" ("ASC 815"), to account for certain coffee-related derivative instruments as accounting hedges in order to minimize the volatility created in the Company's quarterly results from utilizing these derivative contracts and to improve comparability between reporting periods. For a derivative to qualify for designation in a hedging relationship, it must meet specific criteria and the Company must maintain appropriate documentation. The Company establishes hedging relationships pursuant to its risk management policies. The hedging relationships are evaluated at inception and on an ongoing basis to determine whether the hedging relationship is, and is expected to remain, highly effective in achieving offsetting changes in fair value or cash flows attributable to the underlying risk being hedged. The Company also regularly assesses whether the hedged forecasted transaction is probable of occurring. If a derivative ceases to be or is no longer expected to be highly effective, or if the Company believes the likelihood of occurrence of the hedged forecasted transaction is no longer probable, hedge accounting is discontinued for that derivative, and future changes in the fair value of that derivative are recognized in "Other, net."

For coffee-related derivative instruments designated as cash flow hedges, the effective portion of the change in fair value of the derivative is reported as accumulated other comprehensive income (loss) ("AOCI") and subsequently reclassified into cost of goods sold in the period or periods when the hedged transaction affects earnings. Any ineffective portion of the derivative instrument's change in fair value is recognized currently in "Other, net." Gains or losses deferred in AOCI associated with terminated derivative instruments, derivative instruments that cease to be highly effective hedges, derivative instruments for which the forecasted transaction is reasonably possible but no longer probable of occurring, and cash flow hedges that have been otherwise discontinued remain in AOCI until the hedged item affects earnings. If it becomes probable that the forecasted transaction designated as the hedged item in a cash flow hedge will not occur, any gain or loss deferred in AOCI is recognized in "Other, net" at that time. For derivative instruments that are not designated in a hedging relationship, and for which the normal purchases and normal sales exception has not been elected, the changes in fair value are reported in "Other, net."

The following gains and losses on derivative instruments are netted together and reported in "Other, net" in the Company's consolidated statements of operations:

- Gains and losses on all derivative instruments that are not designated as cash flow hedges and for which the normal purchases and normal sales exception has not been elected; and

-

The ineffective portion of unrealized gains and losses on derivative instruments that are designated as cash flow hedges.

The fair value of derivative instruments is based upon broker quotes. At June 30, 2017 and 2016 approximately 94% and 96%, respectively, of the Company's outstanding coffee-related derivative instruments were designated as cash flow hedges. See Note 8.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Concentration of Credit Risk

At June 30, 2017, the financial instruments which potentially expose the Company to concentration of credit risk consist of cash in financial institutions (in excess of federally insured limits), short-term investments, investments in the preferred stocks of other companies, derivative instruments and trade receivables. Cash equivalents and short-term investments are not concentrated by issuer, industry or geographic area. Maturities are generally shorter than 180 days. Investments in the preferred stocks of other companies are limited to high quality issuers and are not concentrated by geographic area or issuer.

The Company does not have any credit-risk related contingent features that would require it to post additional collateral in support of its net derivative liability positions. At June 30, 2017 and 2016, because the Company had a net gain position in its coffee-related derivative margin accounts, none of the cash in these accounts was restricted. Changes in commodity prices and the number of coffee-related derivative instruments held could have a significant impact on cash deposit requirements under the Company's broker and counterparty agreements.

Concentration of credit risk with respect to trade receivables for the Company is limited due to the large number of customers comprising the Company's customer base and their dispersion across many different geographic areas. The trade receivables are generally short-term and all probable bad debt losses have been appropriately considered in establishing the allowance for doubtful accounts. In fiscal 2017 and 2016, the Company increased the allowance for doubtful accounts by \$7,000 and \$71,000, respectively. In fiscal 2015, the Company decreased the allowance for doubtful accounts by \$8,000.

Inventories

Inventories are valued at the lower of cost or market. The Company accounts for coffee, tea and culinary products on a last in, first out ("LIFO") basis, and coffee brewing equipment parts on a first in, first out ("FIFO") basis. The Company regularly evaluates these inventories to determine the provision for obsolete and slow-moving inventory. Inventory reserves are based on inventory obsolescence trends, historical experience and application of specific identification. At the end of each quarter, the Company records the expected effect of the liquidation of LIFO inventory quantities, if any, and records the actual impact at fiscal year-end. An actual valuation of inventory under the LIFO method is made only at the end of each fiscal year based on the inventory levels and costs at that time. If inventory quantities decline at the end of the fiscal year compared to the beginning of the fiscal year, the reduction results in the liquidation of LIFO inventory quantities carried at the cost prevailing in prior years. This LIFO inventory liquidation may result in a decrease or increase in cost of goods sold depending on whether the cost prevailing in prior years was lower or higher, respectively, than the current year cost. As these estimates are subject to many forces beyond management's control, interim results are subject to the final fiscal year-end LIFO inventory valuation. See [Note 12](#).

Property, Plant and Equipment

Property, plant and equipment is carried at cost, less accumulated depreciation. Depreciation is computed using the straight-line method. The following useful lives are used:

Buildings and facilities	10 to 30 years
Machinery and equipment	3 to 10 years
Equipment under capital leases	Shorter of term of lease or estimated useful life
Office furniture and equipment	5 to 7 years
Capitalized software	3 to 5 years

Leasehold improvements are depreciated on a straight-line basis over the lesser of the estimated useful life of the asset or the remaining lease term. When assets are sold or retired, the asset and related accumulated depreciation are removed from the respective account balances and any gain or loss on disposal is included in operations. Maintenance and repairs are charged to expense, and enhancements are capitalized. See [Note 13](#).

Assets to be disposed of by sale are recorded as held for sale at the lower of carrying value or estimated net realizable value. The Company considers properties to be assets held for sale when (1) management commits to a plan to sell the

property; (2) it is unlikely that the disposal plan will be significantly modified or discontinued; (3) the property is available for immediate

67

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

sale in its present condition; (4) actions required to complete the sale of the property have been initiated; (5) sale of the property is probable and the Company expects the completed sale will occur within one year; and (6) the property is actively being marketed for sale at a price that is reasonable given the Company's estimate of current market value. Upon designation of a property as an asset held for sale, the Company records the property's value at the lower of its carrying value or its estimated fair value less estimated costs to sell and ceases depreciation. See [Note 7](#).

Coffee Brewing Equipment and Service

The Company classifies certain expenses related to coffee brewing equipment provided to customers as cost of goods sold. These costs include the cost of the equipment as well as the cost of servicing that equipment (including service employees' salaries, cost of transportation and the cost of supplies and parts) and are considered directly attributable to the generation of revenues from its customers. Accordingly, such costs included in cost of goods sold in the accompanying consolidated financial statements for the years ended June 30, 2017, 2016 and 2015 are \$26.3 million, \$27.0 million and \$26.6 million, respectively.

The Company capitalizes coffee brewing equipment and depreciates it over five years and reports the depreciation expense in cost of goods sold. Such depreciation expense related to capitalized coffee brewing equipment reported in cost of goods sold in the fiscal years ended June 30, 2017, 2016 and 2015 was \$9.1 million, \$9.8 million and \$10.4 million, respectively. The Company capitalized coffee brewing equipment (included in machinery and equipment) in the amounts of \$10.8 million and \$8.4 million in fiscal 2017 and 2016, respectively.

Leases

Leases are categorized as either operating or capital leases at inception. Operating lease costs are recognized on a straight-line basis over the term of the lease. An asset and a corresponding liability for the capital lease obligation are established for the cost of a capital lease. Capital lease obligations are amortized over the life of the lease.

For build-to-suit leases, the Company establishes an asset and liability for the estimated construction costs incurred to the extent that it is involved in the construction of structural improvements or takes construction risk prior to the commencement of the lease. A portion of the lease arrangement is allocated to the land for which the Company accrues rent expense during the construction period. The amount of rent expense to be accrued is determined using the fair value of the leased land at construction commencement and the Company's incremental borrowing rate, and recognized on a straight-line basis. Upon exercise of the purchase option on a build-to-suit lease, the Company records an asset equal to the value of the option price that includes the value of the land and reverses the rent expense and the asset and liability established to record the construction costs incurred through the date of option exercise. See [Note 5](#).

Income Taxes

Deferred income taxes are determined based on the temporary differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which differences are expected to reverse. Estimating the Company's tax liabilities involves judgments related to uncertainties in the application of complex tax regulations. The Company makes certain estimates and judgments to determine tax expense for financial statement purposes as it evaluates the effect of tax credits, tax benefits and deductions, some of which result from differences in the timing of recognition of revenue or expense for tax and financial statement purposes. Changes to these estimates may result in significant changes to the Company's tax provision in future periods. Each fiscal quarter the Company re-evaluates its tax provision and reconsiders its estimates and assumptions related to specific tax assets and liabilities, making adjustments as circumstances change.

See [Note 21](#).

Deferred Tax Asset Valuation Allowance

The Company evaluates its deferred tax assets quarterly to determine if a valuation allowance is required and considers whether a valuation allowance should be recorded against deferred tax assets based on the likelihood that the benefits of the deferred tax assets will or will not ultimately be realized in future periods. In making this assessment, significant weight is given to evidence that can be objectively verified, such as recent operating results, and less consideration is given to less objective indicators, such as future income projections. After consideration of

positive and negative evidence, including the recent history of income, if the Company determines that it is more likely than not that it will generate future income sufficient to realize its deferred tax assets, the Company will record a reduction in the valuation allowance. See Note 21.

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

Revenue Recognition

The Company recognizes sales revenue when all of the following have occurred: (1) delivery; (2) persuasive evidence of an agreement exists; (3) pricing is fixed or determinable; and (4) collection is reasonably assured. When product sales are made “off-truck” to the Company’s customers at their places of business or products are shipped by third-party delivery “FOB Destination,” title passes and revenue is recognized upon delivery. When customers pick up products at the Company’s distribution centers, title passes and revenue is recognized upon product pick up.

Net Income Per Common Share

Net income per share (“EPS”) represents net income attributable to common stockholders divided by the weighted-average number of common shares outstanding for the period, excluding unallocated shares held by the Company’s Employee Stock Ownership Plan (“ESOP”). See [Note 17](#). Diluted EPS represents net income attributable to common stockholders divided by the weighted-average number of common shares outstanding, inclusive of the dilutive impact of common equivalent shares outstanding during the period. However, nonvested restricted stock awards (referred to as participating securities) are excluded from the dilutive impact of common equivalent shares outstanding in accordance with authoritative guidance under the two-class method. The nonvested restricted stockholders are entitled to participate in dividends declared on common stock as if the shares were fully vested and hence are deemed to be participating securities. Under the two-class method, net income attributable to nonvested restricted stockholders is excluded from net income attributable to common stockholders for purposes of calculating basic and diluted EPS. Computation of EPS for the years ended June 30, 2017, 2016 and 2015 includes the dilutive effect of 117,007, 124,879 and 139,524 shares, respectively, issuable under stock options with exercise prices below the closing price of the Company’s common stock on the last trading day of the applicable period, but excludes the dilutive effect of 24,671, 30,931 and 10,455 shares, respectively, issuable under stock options with exercise prices above the closing price of the Company’s common stock on the last trading day of the applicable period because their inclusion would be anti-dilutive. See [Note 22](#).

Employee Stock Ownership Plan

Compensation cost for the ESOP is based on the fair market value of shares released or deemed to be released to employees in the period in which they are committed. Dividends on allocated shares retain the character of true dividends, but dividends on unallocated shares are considered compensation cost. As a leveraged ESOP with the Company as lender, a contra equity account is established to offset the Company’s note receivable. The contra account will change as compensation expense is recognized. See [Note 17](#). The cost of shares purchased by the ESOP which have not been committed to be released or allocated to participants are shown as a contra-equity account “Unearned ESOP Shares” and are excluded from earnings per share calculations.

Share-based Compensation

The Company measures all share-based compensation cost at the grant date, based on the fair values of the awards that are ultimately expected to vest, and recognizes that cost as an expense on a straight line-basis in its consolidated statements of operations over the requisite service period. Fair value of restricted stock is the closing price of the Company’s common stock on the date of grant. The Company estimates the fair value of option awards using the Black-Scholes option valuation model, which requires management to make certain assumptions for estimating the fair value of stock options at the date of grant. The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. Because the Company’s stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimates, in management’s opinion, the existing models may not necessarily provide a reliable single measure of the fair value of the Company’s stock options.

Although the fair value of stock options is determined using an option valuation model, that value may not be indicative of the fair value observed in a willing buyer/willing seller market transaction.

In addition, the Company estimates the expected impact of forfeited awards and recognizes share-based compensation cost only for those awards ultimately expected to vest. If actual forfeiture rates differ materially from the Company’s

estimates, share-based compensation expense could differ significantly from the amounts the Company has recorded in the current period. The Company periodically reviews actual forfeiture experience and will revise its estimates, as necessary. The Company will recognize as compensation cost the cumulative effect of the change in estimated forfeiture rates on current and prior periods in earnings of the period of revision. As a result, if the Company revises its assumptions and estimates, the Company's share-based compensation expense could change materially in the future.

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

The Company has outstanding share-based awards that have performance-based vesting conditions in addition to time-based vesting. Awards with performance-based vesting conditions require the achievement of certain financial and other performance criteria as a condition to the vesting. The Company recognizes the estimated fair value of performance-based awards, net of estimated forfeitures, as share-based compensation expense over the performance period based upon the Company's determination of whether it is probable that the performance targets will be achieved. At each reporting period, the Company reassesses the probability of achieving the performance criteria and the performance period required to meet those targets. Determining whether the performance criteria will be achieved involves judgment, and the estimate of share-based compensation expense may be revised periodically based on changes in the probability of achieving the performance criteria. Revisions are reflected in the period in which the estimate is changed. If performance goals are not met, no share-based compensation expense is recognized for the cancelled shares, and, to the extent share-based compensation expense was previously recognized for those cancelled shares, such share-based compensation expense is reversed. See [Note 18](#).

Impairment of Goodwill and Indefinite-lived Intangible Assets

The Company accounts for its goodwill and indefinite-lived intangible assets in accordance with ASC 350, "Intangibles-Goodwill and Other" ("ASC 350"). Goodwill and other indefinite-lived intangible assets are not amortized but instead are reviewed for impairment annually, or more frequently if an event occurs or circumstances change which indicate that an asset might be impaired. Pursuant to ASC 350, the Company performs a qualitative assessment of goodwill and indefinite-lived intangible assets on its consolidated balance sheets, to determine if there is a more likely than not indication that its goodwill and indefinite-lived intangible assets are impaired as of June 30. If the indicators of impairment are present, the Company performs a quantitative assessment to determine the impairment of these assets as of the measurement date.

Testing for impairment of goodwill is a two-step process. The first step requires the Company to compare the fair value of its reporting units to the carrying value of the reporting units, including goodwill. If the fair value of a reporting unit is less than its carrying value, goodwill of the reporting unit is potentially impaired and the Company then completes step two to measure the impairment loss, if any. The second step requires the calculation of the implied fair value of goodwill, which is the residual fair value remaining after deducting the fair value of all tangible and intangible net assets of the reporting unit from the fair value of the reporting unit. If the implied fair value of goodwill is less than the carrying amount of goodwill, an impairment loss is recognized equal to the difference. Indefinite-lived intangible assets are tested for impairment by comparing their fair values to their carrying values. An impairment charge is recorded if the estimated fair value of such assets has decreased below their carrying values. There were no intangible asset or goodwill impairment charges recorded in the fiscal years ended June 30, 2017, 2016 and 2015.

Other Intangible Assets

Other intangible assets consist of finite-lived intangible assets including acquired recipes, non-compete agreements, customer relationships, trade names, trademarks and a brand name. These assets are amortized over their estimated useful lives and are tested for impairment by grouping them with other assets at the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities. The estimated future cash flows are based upon, among other things, assumptions about expected future operating performance, and may differ from actual cash flows. If the sum of the projected undiscounted cash flows (excluding interest) is less than the carrying value of the assets, the assets will be written down to the estimated fair value in the period in which the determination is made. The Company reviews the recoverability of its long-lived assets whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. There were no other intangible asset impairment charges recorded in the fiscal years ended June 30, 2017 and 2016.

Shipping and Handling Costs

Shipping and handling costs incurred through outside carriers are recorded as a component of the Company's selling expenses and were \$23.5 million, \$13.3 million and \$8.3 million, respectively, in the fiscal years ended June 30, 2017,

2016 and 2015. The Company moved to 3PL for its long-haul distribution in the third quarter of fiscal 2016. As a result, payroll, benefits, vehicle costs and other costs associated with the Company's internal operation of its long-haul distribution included elsewhere in selling expenses in the fiscal years ended June 30, 2016 and 2015, are represented in outsourced shipping and handling costs beginning in the third quarter of fiscal 2016. The amount associated with outside carriers for the Company's long-haul distribution recorded in shipping and handling costs in the fourth quarter of fiscal 2016 and in fiscal 2017 was less than the comparable aggregate operating costs associated with internally managing the Company's long-haul distribution in the respective prior-year periods.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Collective Bargaining Agreements

Certain Company employees are subject to collective bargaining agreements. The duration of these agreements extend to 2020. At June 30, 2017, approximately 27% of the Company's workforce was covered by such agreements.

Self-Insurance

The Company uses a combination of insurance and self-insurance mechanisms to provide for the potential liability of certain risks including workers' compensation, health care benefits, general liability, product liability, property insurance and director and officers' liability insurance. Liabilities associated with risks retained by the Company are not discounted and are estimated by considering historical claims experience, demographics, exposure and severity factors and other actuarial assumptions.

The Company's self-insurance for workers' compensation liability includes estimated outstanding losses of unpaid claims, and allocated loss adjustment expenses ("ALAE"), case reserves, the development of known claims and incurred but not reported claims. ALAE are the direct expenses for settling specific claims. The amounts reflect per occurrence and annual aggregate limits maintained by the Company. The estimated liability analysis does not include estimating a provision for unallocated loss adjustment expenses.

The estimated gross undiscounted workers' compensation liability relating to such claims was \$9.4 million and \$14.7 million respectively, and the estimated recovery from reinsurance was \$1.5 million and \$2.4 million, respectively, as of June 30, 2017 and 2016. The short-term and long-term accrued liabilities for workers' compensation claims are presented on the Company's consolidated balance sheets in "Other current liabilities" and in "Accrued workers' compensation liabilities," respectively. The estimated insurance receivable is included in "Other assets" on the Company's consolidated balance sheets.

At June 30, 2016, the Company had posted a \$7.4 million letter of credit, as a security deposit with the State of California Department of Industrial Relations Self-Insurance Plans for participation in the alternative security program for California self-insurers for workers' compensation liability in California. The State of California notified the Company on December 13, 2016 that it had released and authorized the cancellation of the letter of credit. At June 30, 2017 and 2016, the Company had also posted \$3.4 million in cash and a \$4.3 million letter of credit, respectively, as a security deposit for self-insuring workers' compensation, general liability and auto insurance coverages outside of California.

The estimated liability related to the Company's self-insured group medical insurance at June 30, 2017 and 2016 was \$2.5 million and \$1.3 million, respectively, recorded on an incurred but not reported basis, within deductible limits, based on actual claims and the average lag time between the date insurance claims are filed and the date those claims are paid.

The Company is self-insured for general liability, product liability and commercial auto liability and accrues the cost of the insurance based on estimates of the aggregate liability claims incurred using certain actuarial assumptions and historical claims experience.

The Company's liability reserve for such claims was \$0.9 million at June 30, 2017 and 2016.

The estimated liability related to the Company's self-insured group medical insurance, general liability, product liability and commercial auto liability is included on the Company's consolidated balance sheets in "Other current liabilities."

Pension Plans

The Company's pension plans are not admitting new participants, therefore, changes to pension liabilities are primarily due to market fluctuations of investments for existing participants and changes in interest rates. All plans are accounted for using the guidance of ASC 710, "Compensation—General" and ASC 715 "Compensation-Retirement Benefits" and are measured as of the end of the fiscal year.

The Company recognizes the overfunded or underfunded status of a defined benefit pension or postretirement plan as an asset or liability on its consolidated balance sheets. Changes in the funded status are recognized through AOCI, in the year in which the changes occur. See [Note 15](#).

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Business Combinations

The Company accounts for business combinations under the acquisition method of accounting. The purchase price of each business acquired is allocated to the tangible and intangible assets acquired and the liabilities assumed based on information regarding their respective fair values on the date of acquisition. Any excess of the purchase price over the fair value of the separately identifiable assets acquired and the liabilities assumed is allocated to goodwill.

Management determines the fair values used in purchase price allocations for intangible assets based on historical data, estimated discounted future cash flows, and expected royalty rates for trademarks and trade names, as well as certain other information. The valuation of assets acquired and liabilities assumed requires a number of judgments and is subject to revision as additional information about the fair value of assets and liabilities becomes available.

Additional information, which existed as of the acquisition date but unknown to the Company at that time, may become known during the remainder of the measurement period, a period not to exceed twelve months from the acquisition date. Adjustments in the purchase price allocation may require a recasting of the amounts allocated to goodwill and intangible assets. If such an adjustment is required, the Company will recognize a measurement-period adjustment during the period in which it determines the amount of the adjustment, including the effect on earnings of any amounts it would have recorded in previous periods if the accounting had been completed at the acquisition date. Transaction costs, including legal and accounting expenses, are expensed as incurred and are included in general and administrative expenses in the Company's consolidated statements of operations. Contingent consideration, such as earnout, is deferred as a short-term or long-term liability based on an estimate of the timing of the future payment. These contingent consideration liabilities are recorded at fair value on the acquisition date and are re-measured quarterly based on the then assessed fair value and adjusted if necessary. The results of operations of businesses acquired are included in the Company's consolidated financial statements from their dates of acquisition. See [Note 3](#).

Restructuring Plans

The Company accounts for exit or disposal of activities in accordance with ASC 420, "Exit or Disposal Cost Obligations." The Company defines a business restructuring as an exit or disposal activity that includes but is not limited to a program which is planned and controlled by management and materially changes either the scope of a business or the manner in which that business is conducted. Business restructuring charges may include (i) one-time termination benefits related to employee separations, (ii) contract termination costs and (iii) other related costs associated with exit or disposal activities.

A liability is recognized and measured at its fair value for one-time termination benefits once the plan of termination is communicated to affected employees and it meets all of the following criteria: (i) management commits to a plan of termination, (ii) the plan identifies the number of employees to be terminated and their job classifications or functions, locations and the expected completion date, (iii) the plan establishes the terms of the benefit arrangement and (iv) it is unlikely that significant changes to the plan will be made or the plan will be withdrawn. Contract termination costs include costs to terminate a contract or costs that will continue to be incurred under the contract without benefit to the Company. A liability is recognized and measured at its fair value when the Company either terminates the contract or ceases using the rights conveyed by the contract.

Recently Adopted Accounting Standards

In December 2016, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2016-19, "Technical Corrections and Improvements" ("ASU 2016-19"). The amendments cover a wide range of topics in the FASB Accounting Standards Codification. The amendments represent changes to make corrections or improvements to the Accounting Standards Codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. ASU 2016-19 is effective for the Company immediately. Adoption of ASU 2016-19 did not have a material effect on the results of operations, financial position or cash flows of the Company.

In September 2015, the FASB issued ASU No. 2015-16, "Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments" ("ASU 2015-16"). ASU 2015-16 eliminates the requirement that an

acquirer in a business combination account for measurement-period adjustments retrospectively. Instead, an acquirer will recognize a measurement-period adjustment during the period in which it determines the amount of the adjustment, including the effect on earnings of any amounts it would have recorded in previous periods if the accounting had been completed at the acquisition date. The Company adopted ASU 2015-16 beginning July 1, 2016. Adoption of ASU 2015-16 did not have a material effect on the results of operations, financial position or cash flows of the Company.

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

In July 2015, the FASB issued ASU No. 2015-12, “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965), (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient” (“ASU 2015-12”). ASU 2015-12 eliminates requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts (“FBRICs”) and provide the related fair value disclosures. As a result, FBRICs are measured, presented and disclosed only at contract value. Also, plans will be required to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes, and self-directed brokerage accounts are one general type. Plans no longer have to disclose the net appreciation/depreciation in fair value of investments by general type or individual investments equal to or greater than 5% of net assets available for benefits. In addition, a plan with a fiscal year end that does not coincide with the end of a calendar month is allowed to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The new guidance for FBRICs and plan investment disclosures should be applied retrospectively. The measurement date practical expedient should be applied prospectively. The guidance is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Company adopted ASU 2015-12 beginning July 1, 2016. Adoption of ASU 2015-12 did not have a material effect on the results of operations, financial position or cash flows of the Company.

In May 2015, the FASB issued ASU No. 2015-07, “Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)” (“ASU 2015-07”). ASU 2015-07 removes the requirement to categorize investments for which the fair values are measured using the net asset value per share practical expedient within the fair value hierarchy. It also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. ASU 2015-07 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015, with early adoption permitted. The Company adopted ASU 2015-07 beginning July 1, 2016. Adoption of ASU 2015-07 did not have a material effect on the results of operations, financial position or cash flows of the Company.

In August 2014, the FASB issued ASU No. 2014-15, “Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern” (“ASU 2014-15”). ASU 2014-15 amended ASC 205-40-Presentation of Financial Statements-Going Concern and requires management to evaluate whether there are conditions and events that raise substantial doubt about an entity's ability to continue as a going concern within one year after the financial statements are available to be issued and provide related disclosures of such conditions and events. The amendments in ASU 2014-15 apply to all entities and are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. The Company adopted ASU 2014-15 beginning July 1, 2016. Adoption of ASU 2014-15 did not have a material effect on the Company's results of operations, financial position and cash flows.

New Accounting Pronouncements

In March 2017, the FASB issued ASU No. 2017-07, “Compensation—Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost” (“ASU 2017-07”). ASU 2017-07 amends the requirements in GAAP related to the income statement presentation of the components of net periodic benefit cost for an entity's sponsored defined benefit pension and other postretirement plans. The guidance in ASU 2017-07 is effective for annual periods beginning after December 15, 2017, including interim periods within those fiscal years, and is effective for the Company beginning July 1, 2018. The Company is evaluating the impact this guidance will have on its consolidated financial statements and expects the adoption will not have a significant impact on the results of operations, financial position or cash flows of the Company.

In January 2017, the FASB issued ASU No. 2017-04, “Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment” (“ASU 2017-04”). The amendments in ASU 2017-04 address concerns regarding the cost and complexity of the two-step goodwill impairment test, and remove the second step of the test. An entity will apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying

amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. ASU 2017-04 does not amend the optional qualitative assessment of goodwill impairment. The guidance in ASU 2017-04 is effective for annual and interim goodwill impairment tests in fiscal years beginning after December 15, 2019, and is effective for the Company beginning July 1, 2020. Adoption of ASU 2017-04 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

In January 2017, the FASB issued ASU No. 2017-01, “Business Combinations (Topic 805): Clarifying the Definition of a Business” (“ASU 2017-01”). The amendments in ASU 2017-01 clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of businesses and provide a screen to determine when an integrated set of assets and activities (collectively referred to as a “set”) is not a business. If the screen is not met, the amendments (1) require that to be considered a business, a set must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output and (2) remove the evaluation of whether a market participant could replace the missing elements. The guidance in ASU 2017-01 is effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. Early application is permitted in certain circumstances. ASU 2017-01 is effective for the Company beginning July 1, 2018. Adoption of ASU 2017-01 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

In November 2016, the FASB issued ASU No. 2016-18, “Statement of Cash Flows (Topic 230): Restricted Cash” (“ASU 2016-18”). The amendments require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. As a result, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments do not provide a definition of restricted cash or restricted cash equivalents. The guidance in ASU 2016-18 is effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. Early application is permitted in certain circumstances. ASU 2016-18 is effective for the Company beginning July 1, 2018. Adoption of ASU 2016-18 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

In August 2016, the FASB issued ASU No. 2016-15, “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force)” (“ASU 2016-15”). ASU 2016-15 addresses certain issues where diversity in practice was identified in classifying certain cash receipts and cash payments based on the guidance in ASC 230. ASC 230 is principles based and often requires judgment to determine the appropriate classification of cash flows as operating, investing or financing activities. The application of judgment has resulted in diversity in how certain cash receipts and cash payments are classified. Certain cash receipts and cash payments may have aspects of more than one class of cash flows. ASU 2016-15 clarifies that an entity will first apply any relevant guidance in ASC 230 and in other applicable topics. If there is no guidance that addresses those cash receipts and cash payments, an entity will determine each separately identifiable source or use and classify the receipt or payment based on the nature of the cash flow. If a receipt or payment has aspects of more than one class of cash flows and cannot be separated, classification will depend on the predominant source or use. The guidance in ASU 2016-15 is effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. Early application is permitted in certain circumstances. ASU 2016-15 is effective for the Company beginning July 1, 2018. Adoption of ASU 2016-15 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

In March 2016, the FASB issued ASU No. 2016-09, “Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting” (“ASU 2016-09”). ASU 2016-09 is being issued as part of the FASB's Simplification Initiative. The areas for simplification in ASU 2016-09 involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The guidance in ASU 2016-09 is effective for public business entities for annual periods beginning after December 15, 2016, including interim periods within those annual reporting periods. ASU 2016-09 is effective for the Company beginning July 1, 2017. Adoption of ASU 2016-09 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Topic 842)” (“ASU 2016-02”), which introduces a new lessee model that brings substantially all leases onto the balance sheet. Under the new guidance, lessees are required

to recognize a lease liability, which represents the discounted obligation to make future minimum lease payments and a related right-of-use asset. For public business entities, ASU 2016-02 is effective for financial statements issued for annual periods beginning after December 15, 2018, and interim periods within those annual periods. Early application is permitted. ASU 2016-02 is effective for the Company beginning July 1, 2019. The Company is evaluating the impact this guidance will have on its consolidated financial statements and expects the adoption will have a significant impact on the Company's financial position resulting from the increase in assets and liabilities.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

In January 2016, the FASB issued ASU No. 2016-01, “Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities” (“ASU 2016-01”). ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) at fair value, with changes in fair value recognized in net income. Under ASU 2016-01, entities will no longer be able to recognize unrealized holding gains and losses on available-for-sale equity securities in other comprehensive income, and they will no longer be able to use the cost method of accounting for equity securities that do not have readily determinable fair values. The guidance to classify equity securities with readily determinable fair values into different categories (that is trading or available for sale) is no longer required. ASU 2016-01 eliminates certain disclosure requirements related to financial instruments measured at amortized cost and adds disclosures related to the measurement categories of financial assets and financial liabilities. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. ASU 2016-01 is effective for the Company beginning July 1, 2018. Adoption of ASU 2016-01 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

In July 2015, the FASB issued ASU No. 2015-11, “Inventory (Topic 330): Simplifying the Measurement of Inventory” (“ASU 2015-11”). ASU 2015-11 simplifies the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. Entities will continue to apply their existing impairment models to inventories that are accounted for using last-in first-out or LIFO and the retail inventory method or RIM. Under current guidance, net realizable value is one of several calculations an entity needs to make to measure inventory at the lower of cost or market. ASU 2015-11 is effective for public business entities for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted, and the guidance must be applied prospectively after the date of adoption. ASU 2015-11 is effective for the Company beginning July 1, 2017. Adoption of ASU 2015-11 is not expected to have a material effect on the results of operations, financial position or cash flows of the Company.

In May 2014, the FASB issued accounting guidance which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers under ASU No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 will replace most existing revenue recognition guidance in GAAP when it becomes effective. On August 12, 2015, the FASB issued ASU No. 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date,” which defers the effective date of ASU 2014-09 by one year allowing early adoption as of the original effective date of January 1, 2017. The deferral results in the new accounting standard being effective for public business entities for annual reporting periods beginning after December 31, 2017, including interim periods within those fiscal years. ASU 2014-09 is effective for the Company beginning July 1, 2018. The Company is currently evaluating the impact of ASU 2014-09 along with the related amendments and interpretations issued under ASU 2016-08, ASU 2016-10, ASU 2016-12 and ASU 2016-20 on its results of operations, financial position and cash flows.

Note 3. Acquisitions

China Mist Brands, Inc.

On October 11, 2016, the Company, through a wholly owned subsidiary, acquired substantially all of the assets and certain specified liabilities of China Mist, a provider of flavored iced teas and iced green teas. As part of the transaction, the Company assumed the lease on China Mist’s existing 17,400 square foot production, distribution and warehouse facility in Scottsdale, Arizona which is terminable upon twelve months’ notice.

The Company acquired China Mist for aggregate purchase consideration of \$12.2 million consisting of \$11.2 million in cash paid at closing, including estimated working capital adjustments of \$0.4 million, post-closing final working capital adjustments of \$0.6 million and up to \$0.5 million in contingent consideration to be paid as earnout if certain sales levels are achieved in the calendar years of 2017 or 2018. This contingent earnout liability is currently estimated

to have a fair value of \$0.5 million and is recorded in other long-term liabilities on the Company's consolidated balance sheet at June 30, 2017. The earnout is estimated to be paid in calendar 2019.

In fiscal 2017, the Company incurred \$0.2 million in transaction costs related to the China Mist acquisition, consisting primarily of legal and accounting expenses, which are included in general and administrative expenses in the Company's consolidated statements of operations for the fiscal year ended June 30, 2017.

The financial effect of this acquisition was not material to the Company's consolidated financial statements. The Company has not presented pro forma results of operations for the acquisition because it is not significant to the Company's consolidated results of operations.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The acquisition was accounted for as a business combination. The fair value of consideration transferred was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values on the acquisition date, with the remaining unallocated amount recorded as goodwill. The purchase price allocation is final. The following table summarizes the final allocation of consideration transferred as of the acquisition date:

(In thousands)	Fair Value	Estimated Useful Life (years)
Cash paid, net of cash acquired	\$11,183	
Post-closing final working capital adjustments	553	
Contingent consideration	500	
Total consideration	\$12,236	
Accounts receivable	\$811	
Inventory	544	
Prepaid assets	48	
Property, plant and equipment	189	
Goodwill	2,927	
Intangible assets:		
Recipes	930	7
Non-compete agreement	100	5
Customer relationships	2,000	10
Trade name/Trademark—indefinite-lived	5,070	
Accounts payable	(383)	
Total consideration, net of cash acquired	\$12,236	

In connection with this acquisition, the Company recorded goodwill of \$2.9 million, which is deductible for tax purposes. The Company also recorded \$3.0 million in finite-lived intangible assets that included recipes, a non-compete agreement and customer relationships and \$5.1 million in indefinite-lived trade name/trademark. The weighted average amortization period for the finite-lived intangible assets is 8.9 years.

The determination of the fair value of intangible assets acquired was primarily based on significant inputs not observable in an active market and thus represent Level 3 fair value measurements as defined under GAAP.

The fair value assigned to the recipes was determined utilizing the replacement cost method, which captures the direct cost of the development effort plus lost profits over the time to re-create the recipes.

The fair value assigned to the non-compete agreement was determined utilizing the with and without method. Under the with and without method, the fair value of the intangible asset is estimated based on the difference in projected earnings with the agreement in place versus projected earnings based on starting with no agreement in place. Revenue and earnings projections were significant inputs into estimating the value of China Mist's non-compete agreement.

The fair value assigned to the customer relationships was determined based on management's estimate of the retention rate and utilizing certain benchmarks. Revenue and earnings projections were also significant inputs into estimating the value of customer relationships.

The fair value assigned to the trade name/trademark was determined utilizing a multi-period excess earnings approach. Under the multi-period excess earnings approach, the fair value of the intangible asset is estimated to be the present value of future earnings attributable to the asset and this method utilizes revenue and cost projections including an assumed contributory asset charge.

West Coast Coffee Company, Inc.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

On February 7, 2017, the Company acquired substantially all of the assets and certain specified liabilities of West Coast Coffee, a coffee roaster and distributor with a focus on the convenience store, grocery and foodservice channels. As part of the transaction, the Company entered into a three-year lease on West Coast Coffee's existing 20,400 square foot production, distribution and warehouse facility in Hillsboro, Oregon, which expires January 31, 2020, and assumed leases on six branch warehouses consisting of an aggregate of 24,150 square feet in Oregon, California and Nevada, expiring on various dates through November 2020. The Company acquired West Coast Coffee for aggregate purchase consideration of \$15.7 million, which included \$14.7 million in cash paid at closing including working capital adjustments of \$1.2 million, and up to \$1.0 million in contingent consideration to be paid as earnout if certain sales levels are achieved in the twenty-four months following the closing. This contingent earnout liability is currently estimated to have a fair value of \$0.6 million and is recorded in other long-term liabilities on the Company's consolidated balance sheet at June 30, 2017. The earnout is estimated to be paid within the next twenty-four months. In fiscal 2017, the Company incurred \$0.3 million in transaction costs related to the West Coast Coffee acquisition, consisting primarily of legal and accounting expenses, which are included in general and administrative expenses in the Company's consolidated statements of operations for the fiscal year ended June 30, 2017.

The financial effect of this acquisition was not material to the Company's consolidated financial statements. The Company has not presented pro forma results of operations for the acquisition because it is not significant to the Company's consolidated results of operations.

The acquisition was accounted for as a business combination. The fair value of consideration transferred was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values on the acquisition date, with the remaining unallocated amount recorded as goodwill. The purchase price allocation is preliminary as the Company is in the process of finalizing the valuation.

The following table summarizes the preliminary allocation of consideration transferred as of the acquisition date:

(In thousands)	Fair Value	Estimated Useful Life (years)
Cash paid, net of cash acquired	\$14,671	
Contingent consideration	600	
Total consideration	\$15,271	
Accounts receivable	\$955	
Inventory	939	
Prepaid assets	20	
Property, plant and equipment	1,546	
Goodwill	7,797	
Intangible assets:		
Non-compete agreements	100	5
Customer relationships	4,400	10
Trade name—finite-lived	260	7
Brand name—finite-lived	250	1.7
Accounts payable	(814)	
Other liabilities	(182)	
Total consideration, net of cash acquired	\$15,271	

The preliminary purchase price allocation is subject to change based on numerous factors, including the final adjusted purchase price and the final estimated fair value of the assets acquired and liabilities assumed.

In connection with this acquisition, the Company recorded goodwill of \$7.8 million, which is deductible for tax purposes. The Company also recorded \$5.0 million in finite-lived intangible assets that included non-compete

agreements,

77

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

customer relationships, a trade name and a brand name. The weighted average amortization period for the finite-lived intangible assets is 9.3 years.

The determination of the fair value of intangible assets acquired was primarily based on significant inputs not observable in an active market and thus represent Level 3 fair value measurements as defined under GAAP.

The fair value assigned to the non-compete agreements was determined utilizing the with and without method. Under the with and without method, the fair value of the intangible asset is estimated based on the difference in projected earnings with the agreements in place versus projected earnings based on starting with no agreements in place. Revenue and earnings projections were significant inputs into estimating the value of West Coast Coffee's non-compete agreements.

The fair value assigned to the customer relationships was determined utilizing a multi-period excess earnings approach. Under the multi-period excess earnings approach, the fair value of the intangible asset is estimated to be the present value of future earnings attributable to the asset and this method utilizes revenue and cost projections including an assumed contributory asset charge.

The fair values assigned to the trade name and the brand name were determined utilizing the relief from royalty method. The relief from royalty method is based on the premise that the intangible asset owner would be willing to pay a royalty rate to license the subject asset. The analysis involves forecasting revenue over the life of the asset, applying a royalty rate and a tax rate, and then discounting the savings back to present value at an appropriate discount rate.

Rae' Launo Corporation

On January 12, 2015, the Company acquired substantially all of the assets of Rae' Launo Corporation ("RLC") relating to its DSD and in-room distribution business in the Southeastern United States (the "RLC Acquisition"). The purchase price was \$1.5 million, consisting of \$1.2 million in cash paid at closing and annual earnout payments of \$0.1 million each year over a three-year period based on achievement of certain milestones.

The following table summarizes the estimated fair values of the assets acquired at the date of acquisition, based on the final purchase price allocation:

Fair Values of Assets Acquired (In thousands)	Estimated Useful Life (years)	
Property, plant and equipment	\$338	
Intangible assets:		
Non-compete agreement	20	3.0
Customer relationships	870	4.5
Total finite-lived intangible assets	890	
Goodwill	272	
Total assets acquired	\$1,500	

Definite-lived intangible assets consist of a non-compete agreement and customer relationships. Total net carrying value of definite-lived intangible assets as of June 30, 2017 and 2016 was \$0.4 million and \$0.6 million, respectively, and accumulated amortization as of June 30, 2017 and 2016 was \$0.5 million and \$0.3 million, respectively.

Estimated aggregate amortization of definite-lived intangible assets, calculated on a straight-line basis and based on estimated fair values is \$0.2 million in each of the next two fiscal years.

Note 4. Restructuring Plans

Corporate Relocation Plan

On February 5, 2015, the Company announced the Corporate Relocation Plan to close its Torrance, California facility and relocate its corporate headquarters, product development lab, and manufacturing and distribution operations from Torrance, California to the New Facility in Northlake, Texas. Approximately 350 positions were impacted as a result of the

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Torrance Facility closure. The Company's decision resulted from a comprehensive review of alternatives designed to make the Company more competitive and better positioned to capitalize on growth opportunities.

Expenses related to the Corporate Relocation Plan in fiscal 2017 consisted of \$1.1 million in employee retention and separation benefits, \$6.2 million in facility-related costs including lease of temporary office space, costs associated with the move of the Company's headquarters and the relocation of certain distribution operations and \$1.3 million in other related costs including travel, legal, consulting and other professional services. Facility-related costs in fiscal 2017 also included \$2.5 million in non-cash charges, including \$1.1 million in depreciation expense associated with the Torrance production facility resulting from the consolidation of coffee production operations with the Houston and Portland production facilities and \$1.4 million in non-cash rent expense recognized in the sale-leaseback of the Torrance Facility.

The following table sets forth the activity in liabilities associated with the Corporate Relocation Plan for the fiscal year ended June 30, 2017:

(In thousands)	Balances, June 30, 2016	Additions	Payments	Non-Cash Settled(2)	Adjustments	Balances, June 30, 2017(1)
Employee-related costs(1)	\$ 2,342	\$ 1,109	\$ 3,150	\$ —	\$ —	—\$ 301
Facility-related costs	—	6,187	3,712	2,475	—	—
Other	200	1,294	1,494	—	—	—
Total	\$ 2,542	\$ 8,590	\$ 8,356	\$ 2,475	\$ —	—\$ 301
Current portion	\$ 2,542					\$ 301
Non-current portion	\$ —					\$ —
Total	\$ 2,542					\$ 301

(1) Included in "Accrued payroll expenses" on the Company's consolidated balance sheets.

(2) Non-cash settled facility-related costs represent (a) depreciation expense associated with the Torrance production facility resulting from the consolidation of coffee production operations with the Houston and Portland production facilities and included in "Property, plant and equipment, net" on the Company's consolidated balance sheets, and (b) non-cash rent expense recognized in the sale-leaseback of the Torrance Facility.

The Company estimated that it would incur approximately \$31 million in cash costs in connection with the Corporate Relocation Plan consisting of \$18 million in employee retention and separation benefits, \$5 million in facility-related costs and \$8 million in other related costs. Since the adoption of the Corporate Relocation Plan through June 30, 2017, the Company has recognized a total of \$31.5 million in aggregate cash costs including \$17.1 million in employee retention and separation benefits, \$7.0 million in facility-related costs related to the temporary office space, costs associated with the move of the Company's headquarters, relocation of the Company's Torrance operations and certain distribution operations and \$7.4 million in other related costs. The Company completed the Corporate Relocation Plan in the fourth quarter of fiscal 2017 and had \$0.3 million in accrued costs remaining to be paid in fiscal 2018. The Company also recognized from inception through June 30, 2017 non-cash depreciation expense of \$2.3 million associated with the Torrance production facility resulting from the consolidation of coffee production operations with the Houston and Portland production facilities and \$1.4 million in non-cash rent expense recognized in the sale-leaseback of the Torrance Facility. On July 13, 2017, the Company received correspondence from the WCT Pension Trust stating that it had liability for a share of the WCTPP unfunded vested benefits based on the WCT Pension Trust's claim that certain of our employment actions resulting from the Corporate Relocation Plan amounted to a partial withdrawal from the WCTPP. See [Note 26](#).

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The following table sets forth the activity in liabilities associated with the Corporate Relocation Plan from the time of adoption of the Corporate Relocation Plan through the fiscal year ended June 30, 2017:

(In thousands)	Balances, June 30, 2014	Additions	Payments	Non-Cash Settled	Adjustments	Balances, June 30, 2017
Employee-related costs(1)	\$ —	\$ 17,352	\$ 17,051	\$ —	\$ —	—\$ 301
Facility-related costs(2)	—	10,779	7,048	3,731	—	—
Other	—	7,424	7,424	—	—	—
Total(2)	\$ —	—\$ 35,555	\$ 31,523	\$ 3,731	\$ —	—\$ 301

(1) Included in “Accrued payroll expenses” on the Company's consolidated balance sheets.

(2) Non-cash settled facility-related costs represent (a) depreciation expense associated with the Torrance production facility resulting from the consolidation of coffee production operations with the Houston and Portland production facilities and included in “Property, plant and equipment, net” on the Company's consolidated balance sheets and (b) non-cash rent expense recognized in the sale-leaseback of the Torrance Facility.

DSD Restructuring Plan

On February 21, 2017, the Company announced the DSD Restructuring Plan to reorganize its DSD operations in an effort to realign functions into a channel-based selling organization, streamline operations, acquire certain channel specific expertise, and improve selling effectiveness and financial results. The strategic decision to undertake the DSD Restructuring Plan resulted from an ongoing operational review of various initiatives within the DSD selling organization. The Company expects to complete the DSD Restructuring Plan by the end of the second quarter of fiscal 2018.

The Company estimates that it will recognize approximately \$3.7 million to \$4.9 million of pre-tax restructuring charges by the end of the second quarter of fiscal 2018 consisting of approximately \$1.9 million to \$2.7 million in employee-related costs, including severance, prorated bonuses for bonus eligible employees, contractual termination payments and outplacement services, and \$1.8 million to \$2.2 million in other related costs, including legal, recruiting, consulting, other professional services, and travel. The Company may also incur other charges not currently contemplated due to events that may occur as a result of, or associated with, the DSD Restructuring Plan.

Expenses related to the DSD Restructuring Plan in fiscal 2017 consisted of \$1.1 million in employee-related costs and \$1.3 million in other related costs. As of June 30, 2017, the Company had paid a total of \$1.7 million of these costs and had a balance of \$0.7 million in DSD Restructuring Plan-related liabilities on the Company's consolidated balance sheet.

Note 5. New Facility

Lease Agreement and Purchase Option Exercise

On June 15, 2016, the Company exercised the purchase option to purchase the land and the partially constructed New Facility located thereon pursuant to the terms of the lease agreement dated as of July 17, 2015, as amended (the “Lease Agreement”). On September 15, 2016 (“Purchase Option Closing Date”), the Company closed the purchase option and acquired the land and the partially constructed New Facility located thereon for an aggregate purchase price of \$42.5 million (the “Purchase Price”), consisting of the purchase option price of \$42.0 million based on actual construction costs incurred as of the Purchase Option Closing Date plus the option exercise fee, plus amounts paid in respect of real estate commissions, title insurance, and recording fees. Upon closing of the purchase option, the Company recorded the aggregate purchase price of the New Facility in “Property, plant and equipment, net” on its consolidated balance sheet. The asset related to the New Facility lease obligation included in “Property, plant and equipment, net,” the offsetting liability for the lease obligation included in “Other long-term liabilities” and the rent expense related to the land were reversed. Concurrent with the purchase option closing, on September 15, 2016, the

Company terminated the Lease Agreement. The Company did not pay any early termination penalties in connection with the termination of the Lease Agreement.

80

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Development Management Agreement

In conjunction with the Lease Agreement, the Company also entered into a Development Management Agreement with an affiliate of Stream Realty Partners (the “DMA”) to manage, coordinate, represent, assist and advise the Company on matters from the pre-development through construction of the New Facility. Pursuant to the DMA, the Company will pay the developer a development fee, an oversight fee and a development services fee the amounts of which are included in the construction costs incurred-to-date. As of June 30, 2017, the DMA has concluded and the Company had incurred \$4.0 million under this agreement which amount is included in “Building and Facilities—New Facility” (see Note 13) of which \$0.4 million remains to be paid which is included in Accounts payable on the Company's consolidated balance sheet at June 30, 2017.

Amended Building Contract

On September 17, 2016, the Company and The Haskell Company (“Builder”) entered into a Change Order, which, among other things, amended the building contract previously entered into between the Company and Builder to provide a guaranteed maximum price and the basis for the price and the scope of Builder's services in connection with the construction of the New Facility (the “Amended Building Contract”).

Pursuant to the Amended Building Contract, Builder will provide pre-construction and construction services, including specialized industrial design and construction work in connection with Builder's construction of certain production equipment that will be installed in portions of the New Facility (the “Project”). The Company engaged other designers and builders to provide traditional construction work on the Project site, including for the foundation, building envelope and roof of the New Facility. Pursuant to the Amended Building Contract, the Company will pay Builder up to \$21.9 million for Builder's services in connection with the Project. This amount is a guaranteed maximum price and is subject to adjustment in accordance with the terms of the Amended Building Contract. The Amended Building Contract includes an “IDB Work Contract Schedule,” which sets forth interim milestones, durations and material dates in relation to the performance and timing of Builder's work. The Amended Building Contract includes remedies for the Company in the event agreed milestone dates relating to Builder's services are not met. The Amended Building Contract is subject to customary undertakings, covenants, obligations, rights and conditions. In April 2017, the Company and Builder entered into a change order to change the scope of work which added \$0.6 million to the Amended Building Contract. Builder's work on the Project has been completed as of June 30, 2017. As of June 30, 2017, the Company has paid \$20.3 million under this agreement, with a remaining \$2.2 million to be paid which amount is included in “Building and Facilities—New Facility.” See Note 13.

New Facility Costs

The Company estimated that the total construction costs including the cost of land for the New Facility would be approximately \$60 million. As of June 30, 2017, the Company has incurred an aggregate of \$60.8 million and has outstanding contractual obligations of \$1.6 million, which amounts are included in “Building and Facilities-New Facility.” See Notes 13 and 23. In addition to the costs to complete the construction of the New Facility, the Company estimated that it would incur approximately \$35 million to \$39 million for machinery and equipment, furniture and fixtures and related expenditures of which the Company has incurred an aggregate of \$33.2 million as of June 30, 2017, including \$20.3 million under the Amended Building Contract, and has outstanding contractual obligations of \$2.8 million. See Note 23. The majority of the capital expenditures associated with machinery and equipment, furniture and fixtures, and related expenditures for the New Facility were incurred in the first three quarters of fiscal 2017. The Company commenced distribution activities at the New Facility during the second quarter of fiscal 2017 and initial production activities late in the third quarter of fiscal 2017. The Company began roasting coffee in the New Facility in the fourth quarter of fiscal 2017.

Note 6. Sales of Assets Sale of Spice Assets

In order to focus on its core products, on December 8, 2015, the Company completed the sale of the Spice Assets to Harris. Harris acquired substantially all of the Company's personal property used exclusively in connection with the

81

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

manufacture, processing and distribution of raw, processed and blended spices and certain other culinary products (collectively, the “Spice Assets”), including certain equipment; trademarks, trade names and other intellectual property assets; contract rights under sales and purchase orders and certain other agreements; and a list of certain customers, other than the Company’s DSD customers, and assumed certain liabilities relating to the Spice Assets. The Company received \$6.0 million in cash at closing, and is eligible to receive an earnout amount of up to \$5.0 million over a three year period based upon a percentage of certain institutional spice sales by Harris following the closing. Gain from the earnout on the sale is recognized when earned and when realization is assured beyond a reasonable doubt. The Company recognized \$1.0 million and \$0.5 million in earnout during the fiscal years ended June 30, 2017 and 2016, respectively, a portion of which is included in “Net gains from sale of Spice Assets” in the Company’s consolidated statements of operations. The sale of the Spice Assets does not represent a strategic shift for the Company and is not expected to have a material impact on the Company’s results of operations because the Company will continue to sell a complete portfolio of spice and other culinary products purchased from Harris under a supply agreement to its DSD customers.

Sale of Torrance Facility

On July 15, 2016, the Company completed the sale of the Torrance Facility, consisting of approximately 665,000 square feet of buildings located on approximately 20.3 acres of land, for an aggregate cash sale price of \$43.0 million, which sale price was subject to customary adjustments for closing costs and documentary transfer taxes. Cash proceeds from the sale of the Torrance Facility were \$42.5 million.

Following the closing of the sale, the Company leased back the Torrance Facility on a triple net basis through October 31, 2016 at zero base rent, and exercised two one-month extensions at a base rent of \$100,000 per month. In accordance with ASC 840, “Leases,” due to the Company’s continuing involvement with the property, the Company accounted for the transaction as a financing transaction, deferred the gain on sale of the Torrance Facility and recorded the net sale proceeds of \$42.5 million and accrued non-cash interest expense on the financing transaction in “Sale-leaseback financing obligation” on the Company’s consolidated balance sheet at September 30, 2016. The Company vacated the Torrance Facility in December 2016 and concluded the leaseback transaction. See [Note 7](#). As a result, at December 31, 2016, the financing transaction qualified for sales recognition under ASC 840. Accordingly, in the fiscal year ended June 30, 2017, the Company recognized the net gain from sale of the Torrance Facility in the amount of \$37.4 million, including non-cash interest expense of \$0.7 million and non-cash rent expense of \$1.4 million, representing the rent for the zero base rent period previously recorded in “Other current liabilities” and removed the amounts recorded in “Assets held for sale” and the “Sale-leaseback financing obligation” on its consolidated balance sheet.

Sale of Northern California Branch Property

On September 30, 2016, the Company completed the sale of its branch property in Northern California for a sale price of \$2.2 million and leased it back through March 31, 2017, at a base rent of \$10,000 per month. The Company recognized a net gain on sale of the Northern California property in the fiscal year ended June 30, 2017 in the amount of \$2.0 million.

Note 7. Assets Held for Sale

The Company had designated its Torrance Facility and one of its branch properties in Northern California as assets held for sale and recorded the carrying values of these properties in the aggregate amount of \$7.2 million as “Assets held for sale” on the Company’s consolidated balance sheet at June 30, 2016. As of June 30, 2017, these assets were sold. See [Note 6](#).

Note 8. Derivative Instruments

Derivative Instruments Held

Coffee-Related Derivative Instruments

The Company is exposed to commodity price risk associated with its PTF green coffee purchase contracts, which are described further in Note 2. The Company utilizes forward and option contracts to manage exposure to the variability in expected future cash flows from forecasted purchases of green coffee attributable to commodity price risk. Certain of these

82

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

coffee-related derivative instruments utilized for risk management purposes have been designated as cash flow hedges, while other coffee-related derivative instruments have not been designated as cash flow hedges or do not qualify for hedge accounting despite hedging the Company's future cash flows on an economic basis. The following table summarizes the notional volumes for the coffee-related derivative instruments held by the Company at June 30, 2017 and 2016:

(In thousands)	June 30,	
	2017	2016
Derivative instruments designated as cash flow hedges:		
Long coffee pounds	33,038	32,550
Derivative instruments not designated as cash flow hedges:		
Long coffee pounds	2,121	1,618
Less: Short coffee pounds	—	(188)
Total	35,159	33,980

Coffee-related derivative instruments designated as cash flow hedges outstanding as of June 30, 2017 will expire within 18 months.

Effect of Derivative Instruments on the Financial Statements

Balance Sheets

Fair values of derivative instruments on the Company's consolidated balance sheets:

(In thousands)	Derivative Instruments Designated as Cash Flow Hedges		Derivative Instruments Not Designated as Accounting Hedges	
	June 30, 2017	2016	June 30, 2017	2016
Financial Statement Location:				
Short-term derivative assets:				
Coffee-related derivative instruments(1)	\$66	\$3,771	\$—	\$183
Long-term derivative assets:				
Coffee-related derivative instruments(2)	\$66	\$2,575	\$—	\$57
Short-term derivative liabilities:				
Coffee-related derivative instruments	\$1,733	\$—	\$190	\$—
Long-term derivative liabilities:				
Coffee-related derivative instruments(2)	\$446	\$—	\$—	\$—

(1) Included in "Short-term derivative liabilities" on the Company's consolidated balance sheet at June 30, 2017.

(2) Included in "Other long-term liabilities" on the Company's consolidated balance sheet at June 30, 2017.

Statements of Operations

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The following table presents pretax net gains and losses for the Company's coffee-related derivative instruments designated as cash flow hedges, as recognized in "AOCI," "Cost of goods sold" and "Other, net":

(In thousands)	Year Ended June 30,			Financial Statement Classification
	2017	2016	2015	
Net (losses) gains recognized in AOCI (effective portion)	\$ (4,705)	\$ 303	\$ (14,295)	AOCI
Net gains (losses) recognized in earnings (effective portion)	\$ 1,732	\$ (13,184)	\$ 4,211	Costs of goods sold
Net losses recognized in earnings (ineffective portion)	\$ (456)	\$ (575)	\$ (325)	Other, net

For the fiscal years ended June 30, 2017, 2016 and 2015, there were no gains or losses recognized in earnings as a result of excluding amounts from the assessment of hedge effectiveness or as a result of reclassifications to earnings following the discontinuance of any cash flow hedges.

Net losses (gains) on derivative instruments in the Company's consolidated statements of cash flows also includes net losses (gains) on coffee-related derivative instruments designated as cash flow hedges reclassified to cost of goods sold from AOCI in the fiscal years ended June 30, 2017, 2016 and 2015. Gains and losses on derivative instruments not designated as accounting hedges are included in "Other, net" in the Company's consolidated statements of operations and in "Net losses (gains) on derivative instruments and investments" in the Company's consolidated statements of cash flows.

Net gains and losses recorded in "Other, net" are as follows:

(In thousands)	Year Ended June 30,		
	2017	2016	2015
Net losses on coffee-related derivative instruments	\$ (1,812)	\$ (298)	\$ (2,992)
Net gains (losses) on investments	286	611	(270)
Net (losses) gains on derivative instruments and investments(1)	(1,526)	313	(3,262)
Other gains, net	325	243	248
Other, net	\$ (1,201)	\$ 556	\$ (3,014)

(1) Excludes net losses and net gains on coffee-related derivative instruments designated as cash flow hedges recorded in cost of goods sold in the fiscal years ended June 30, 2017, 2016 and 2015.

Offsetting of Derivative Assets and Liabilities

The Company has agreements in place that allow for the financial right of offset for derivative assets and liabilities at settlement or in the event of default under the agreements. Additionally, the Company maintains accounts with its brokers to facilitate financial derivative transactions in support of its risk management activities. Based on the value of the Company's positions in these accounts and the associated margin requirements, the Company may be required to deposit cash into these broker accounts.

The following table presents the Company's net exposure from its offsetting derivative asset and liability positions, as well as cash collateral on deposit with its counterparty as of the reporting dates indicated:

(In thousands)	Gross Amount Reported on Balance Sheet	Netting Adjustments	Cash Collateral Posted	Net Exposure
June 30, 2017	Derivative Assets	\$ 132	\$ (132)	\$ —

Edgar Filing: FARMER BROTHERS CO - Form 10-K

	Derivative Liabilities	\$ 2,369	\$ (132)	\$	—\$ 2,237
June 30, 2016	Derivative Assets	\$ 6,586	\$ —		\$	—\$ 6,586

84

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Cash Flow Hedges

Changes in the fair value of the Company's coffee-related derivative instruments designated as cash flow hedges, to the extent effective, are deferred in AOCI and reclassified into cost of goods sold in the same period or periods in which the hedged forecasted purchases affect earnings, or when it is probable that the hedged forecasted transaction will not occur by the end of the originally specified time period. Based on recorded values at June 30, 2017, \$(1.6) million of net losses on coffee-related derivative instruments designated as cash flow hedges are expected to be reclassified into cost of goods sold within the next twelve months. These recorded values are based on market prices of the commodities as of June 30, 2017. Due to the volatile nature of commodity prices, actual gains or losses realized within the next twelve months will likely differ from these values.

Note 9. Investments

In fiscal 2017, the Company liquidated substantially all of its trading securities to fund expenditures associated with its New Facility in Northlake, Texas. The Company had \$0.4 million and \$25.6 million in short-term investments at June 30, 2017 and 2016, respectively. The following table shows gains and losses on trading securities by the Company:

(In thousands)	Year Ended June 30,		
	2017	2016	2015
Total gains (losses) recognized from trading securities	\$286	\$611	\$(270)
Less: Realized gains from sales of trading securities	1,909	29	89
Unrealized (losses) gains from trading securities	\$(1,623)	\$582	\$(359)

Note 10. Fair Value Measurements

Assets and liabilities measured and recorded at fair value on a recurring basis were as follows:

(In thousands)	Total	Level 1	Level 2	Level 3
June 30, 2017				
Preferred stock(1)	\$368	\$—	\$368	\$—
Derivative instruments designated as cash flow hedges:				
Coffee-related derivative assets(2)	\$132	\$—	\$132	\$—
Coffee-related derivative liabilities(2)	\$2,179	\$—	\$2,179	\$—
Derivative instruments not designated as accounting hedges:				
Coffee-related derivative liabilities(2)	\$190	\$—	\$190	\$—
June 30, 2016				
Preferred stock(1)	\$25,591	\$21,976	\$3,615	\$—
Derivative instruments designated as cash flow hedges:				
Coffee-related derivative assets(2)	\$6,346	\$—	\$6,346	\$—
Derivative instruments not designated as accounting hedges:				
Coffee-related derivative assets(2)	\$240	\$—	\$240	\$—

(1)Included in "Short-term investments" on the Company's consolidated balance sheets.

(2)The Company's coffee derivative instruments are traded over-the-counter and, therefore, classified as Level 2. During the fiscal years ended June 30, 2017 and 2016, there were no transfers between the levels.

Note 12. Inventories

	June 30,	
(In thousands)	2017	2016
Coffee		
Processed	\$14,085	\$12,362
Unprocessed	17,083	13,534
Total	\$31,168	\$25,896
Tea and culinary products		
Processed	\$20,741	\$15,384
Unprocessed	74	377
Total	\$20,815	\$15,761
Coffee brewing equipment parts	\$4,268	\$4,721
Total inventories	\$56,251	\$46,378

In addition to product cost, inventory costs include expenditures such as direct labor and certain supply and overhead expenses incurred in bringing the inventory to its existing condition and location. The “Unprocessed” inventory values as stated in the above table represent the value of raw materials and the “Processed” inventory values represent all other products consisting primarily of finished goods.

Inventories were higher at the end of fiscal 2017 due to the commencement of the New Facility's manufacturing operations and incremental inventory from China Mist and West Coast Coffee as compared to lower levels of inventory at the Torrance Facility at the end of fiscal 2016 due to its anticipated closing. Notwithstanding this increase in total inventories at the end of fiscal 2017 compared to fiscal 2016 levels, inventories of manufactured spice

products decreased at the end of fiscal 2017 compared to fiscal 2016 levels, primarily due to the liquidation of spice inventories in connection with the sale of the

86

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

Spice Assets. As a result, the Company recorded \$3.4 million in beneficial effect of the liquidation of LIFO inventory quantities in cost of goods sold in fiscal 2017, which increased income before taxes in fiscal 2017 by \$3.4 million. Inventories decreased at the end of fiscal 2016 compared to fiscal 2015, primarily due to production consolidation and the sale of certain processed and unprocessed inventories to Harris at cost upon conclusion of the transition services provided by the Company in connection with the sale of the Spice Assets. Inventories decreased at the end of fiscal 2015 compared to fiscal 2014, primarily due to the consolidation and the sale of certain manufactured inventories to Harris. As a result, the Company recorded in cost of goods sold \$4.2 million and \$4.9 million in beneficial effect of liquidation of LIFO inventory quantities in the fiscal years ended June 30, 2016 and 2015, respectively, which increased income before taxes in fiscal 2016 and 2015 by \$4.2 million and \$4.9 million, respectively.

Current cost of coffee, tea and culinary product inventories exceeds the LIFO cost by:

	June 30,	
(In thousands)	2017	2016
Coffee	\$ 13,351	\$ 14,462
Tea and culinary products	4,043	7,139
Total	\$ 17,394	\$ 21,601

Note 13. Property, Plant and Equipment

	June 30,	
(In thousands)	2017	2016
Buildings and facilities	\$ 108,682	\$ 82,878
Machinery and equipment	201,236	182,227
Equipment under capital leases	7,540	11,982
Capitalized software	21,794	21,545
Office furniture and equipment	12,758	16,077
	\$ 352,010	\$ 314,709
Accumulated depreciation	(192,280)	(206,162)
Land	16,336	9,869
Property, plant and equipment, net	\$ 176,066	\$ 118,416

Capital leases consisted mainly of vehicle leases at June 30, 2017 and 2016. Depreciation and amortization expense includes amortization expense for assets recorded under capitalized leases.

The Company capitalized coffee brewing equipment (included in machinery and equipment) in the amounts of \$10.8 million and \$8.4 million in fiscal 2017 and 2016, respectively. Depreciation expense related to the capitalized coffee brewing equipment reported as cost of goods sold was \$9.1 million, \$9.8 million and \$10.4 million in fiscal 2017, 2016 and 2015, respectively.

Maintenance and repairs to property, plant and equipment charged to expense for the years ended June 30, 2017, 2016, and 2015 were \$8.0 million, \$7.7 million and \$8.2 million, respectively.

Note 15. Employee Benefit Plans

The Company provides benefit plans for most full-time employees, including 401(k), health and other welfare benefit plans and, in certain circumstances, pension benefits. Generally the plans provide benefits based on years of service and/or a combination of years of service and earnings. In addition, the Company contributes to two multiemployer defined benefit pension plans, one multiemployer defined contribution pension plan and ten multiemployer defined contribution plans other than pension plans that provide medical, vision, dental and disability benefits for active, union-represented employees subject to collective bargaining agreements. In addition, the Company sponsors a postretirement defined benefit plan that covers qualified non-union retirees and certain qualified union retirees and provides retiree medical coverage and, depending on the age of the retiree, dental and vision coverage. The Company also provides a postretirement death benefit to certain of its employees and retirees.

The Company is required to recognize the funded status of a benefit plan in its consolidated balance sheets. The Company is also required to recognize in other comprehensive income (loss) (“OCI”) certain gains and losses that arise during the period but are deferred under pension accounting rules.

Single Employer Pension Plans

The Company has a defined benefit pension plan, the Farmer Bros. Co. Pension Plan for Salaried Employees (the “Farmer Bros. Plan”), for Company employees hired prior to January 1, 2010, who are not covered under a collective bargaining agreement. The Company amended the Farmer Bros. Plan, freezing the benefit for all participants effective June 30, 2011. After the plan freeze, participants do not accrue any benefits under the Farmer Bros. Plan, and new hires are not eligible to participate in the Farmer Bros. Plan. As all plan participants became inactive following this pension curtailment, net (gain) loss is now amortized based on the remaining life expectancy of these participants instead of the remaining service period of these participants.

The Company also has two defined benefit pension plans for certain hourly employees covered under collective bargaining agreements (the “Brewmatic Plan” and the “Hourly Employees' Plan”). Effective October 1, 2016, the Company froze benefit accruals and participation in the Hourly Employees' Plan. After the plan freeze, participants do

not accrue any benefits under the plan, and new hires are not eligible to participate in the plan. After the freeze the participants in the plan are eligible to receive the Company's matching contributions to their 401(k).

Basis Used to Determine Expected Long-term Return on Plan Assets

The expected long-term return on plan assets assumption was developed as a weighted average rate based on the target asset allocation of the plan and the Long-Term Capital Market Assumptions (CMA) 2014. The capital market assumptions were developed with a primary focus on forward-looking valuation models and market indicators. The key fundamental economic inputs for these models are future inflation, economic growth, and interest rate environment. Due to the long-term nature of the pension obligations, the investment horizon for the CMA 2014 is 20 to 30 years. In addition to forward-looking models, historical analysis of market data and trends was reflected, as well as the outlook of recognized economists, organizations and consensus CMA from other credible studies.

Description of Investment Policy

The Company's investment strategy is to build an efficient, well-diversified portfolio based on a long-term, strategic outlook of the investment markets. The investment markets outlook utilizes both the historical-based and forward-looking return forecasts to establish future return expectations for various asset classes. These return expectations are used to develop a core asset allocation based on the specific needs of each plan. The core asset allocation utilizes investment portfolios of various asset classes and multiple investment managers in order to maximize the plan's return while providing multiple layers of diversification to help minimize risk.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Estimated Amounts in OCI Expected To Be Recognized

In fiscal 2018, the Company expects to recognize net periodic benefit cost of \$1.5 million for the Farmer Bros. Plan and \$68,000 for the Brewmatic Plan, and a net periodic benefit credit of \$(4,000) for the Hourly Employees' Plan.

Estimated Future Contributions and Refunds

In fiscal 2018, the Company expects to contribute \$2.6 million to the Farmer Bros. Plan, \$0.1 million to the Brewmatic Plan, and \$0.4 million to the Hourly Employees' Plan. The Company is not aware of any refunds expected from single employer pension plans.

Estimated Future Benefit Payments

The following benefit payments are expected to be paid over the next 10 fiscal years:

(In thousands)	Farmer Bros. Plan	Brewmatic Plan	Hourly Employees' Plan
Year Ending:			
June 30, 2018	\$7,490	\$ 310	\$ 100
June 30, 2019	\$7,650	\$ 290	\$ 110
June 30, 2020	\$7,930	\$ 280	\$ 130
June 30, 2021	\$8,130	\$ 280	\$ 150
June 30, 2022	\$8,330	\$ 270	\$ 160
June 30, 2023 to June 30, 2027	\$42,660	\$ 1,220	\$ 990

These amounts are based on current data and assumptions and reflect expected future service, as appropriate.

Multiemployer Pension Plans

The Company participates in two multiemployer defined benefit pension plans that are union sponsored and collectively bargained for the benefit of certain employees subject to collective bargaining agreements, of which the WCTPP is individually significant. The Company makes contributions to these plans generally based on the number of hours worked by the participants in accordance with the provisions of negotiated labor contracts.

The risks of participating in multiemployer pension plans are different from single-employer plans in that: (i) assets contributed to a multiemployer plan by one employer may be used to provide benefits to employees of other participating employers; (ii) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and (iii) if the Company stops participating in the multiemployer plan, the Company may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The Company's participation in WCTPP is outlined in the table below. The Pension Protection Act ("PPA") Zone Status available in the Company's fiscal year 2017 and fiscal year 2016 is for the plan's year ended December 31, 2016 and December 31, 2015, respectively. The zone status is based on information obtained from WCTPP and is certified by WCTPP's actuary. Among other factors, plans in the green zone are generally more than 80% funded. Based on WCTPP's 2016 Annual Funding Notice, WCTPP was 91.7% and 91.8% funded for its plan year beginning January 1, 2016 and 2015, respectively, and is expected to be 90.0% funded for its plan year beginning January 1, 2017. The "FIP/RP Status Pending/Implemented" column indicates if a funding improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Pension Plan	Employer Identification Number	Pension Plan Number	PPA Zone July 1, 2016	Status July 1, 2015	FIP/RP Status Pending/ Implemented	Surcharge Imposed	Expiration Date of Collective Bargaining Agreements January 31, 2020
Western Conference of Teamsters Pension Plan	91-6145047	001	Green	Green	No	No	

Based upon the most recent information available from the trustees managing WCTPP, the Company's share of the unfunded vested benefit liability for the plan was estimated to be approximately \$7.0 million if the withdrawal had occurred in the plan year ending December 31, 2016. These estimates were calculated by the trustees managing WCTPP. Although the Company believes the most recent plan data available from WCTPP was used in computing this 2016 estimate, the actual withdrawal liability amount is subject to change based on, among other things, the plan's investment returns and benefit levels, interest rates, financial difficulty of other participating employers in the plan such as bankruptcy, and continued participation by the Company and other employers in the plan, each of which could impact the ultimate withdrawal liability.

If withdrawal liability were to be triggered, the withdrawal liability assessment can be paid in a lump sum or on a monthly basis. The amount of the monthly payment is determined as follows: Average number of hours reported to the pension plan trust during the three consecutive years with highest number of hours in the 10-year period prior to the withdrawal is multiplied by the highest hourly contribution rate during the 10-year period ending with the plan year in which the withdrawal occurred to determine the amount of withdrawal liability that has to be paid annually. The annual amount is divided by 12 to arrive at the monthly payment due. If monthly payments are elected, interest is assessed on the unpaid balance after 12 months at the rate of 7% per annum.

On July 13, 2017, the Company received correspondence from the Western Conference of Teamsters Pension Trust (the "WCT Pension Trust") stating that the Company had liability for a share of the WCTPP unfunded vested benefits based on the WCT Pension Trust's claim that certain of the Company's employment actions resulting from the Corporate Relocation Plan amounted to a partial withdrawal from the WCTPP. See [Note 26](#).

In fiscal 2012, the Company withdrew from the Local 807 Labor-Management Pension Fund ("Pension Fund") and recorded a charge of \$4.3 million associated with withdrawal from this plan, representing the present value of the estimated withdrawal liability expected to be paid in quarterly installments of \$0.1 million over 80 quarters. On November 18, 2014, the Pension Fund sent the Company a notice of assessment of withdrawal liability in the amount of \$4.4 million, which the Pension Fund adjusted to \$4.9 million on January 5, 2015. The Company is in the process of negotiating a reduced liability amount. The Company has commenced quarterly installment payments to the Pension Fund of \$91,000 pending the final settlement of the liability. The present value of the total estimated withdrawal liability of \$4.0 million and \$3.8 million, respectively, is reflected in the Company's consolidated balance sheets at June 30, 2017 and June 30, 2016, with the short-term and long-term portions reflected in current and long-term liabilities, respectively. At June 30, 2017, the Company has classified the present value of the total estimated withdrawal liability as short-term with the expectation of paying off the liability in fiscal 2018. See [Note 23](#). Future collective bargaining negotiations may result in the Company withdrawing from the remaining multiemployer pension plans in which it participates and, if successful, the Company may incur a withdrawal liability, the amount of which could be material to the Company's results of operations and cash flows.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Company contributions to the multiemployer pension plans:

	All	Other
(In thousands)	WCTPP(1)(2)(3)	Plans(4)
Year Ended:		
June 30, 2017	\$ 2,114	\$ 39
June 30, 2016	\$ 2,587	\$ 39
June 30, 2015	\$ 3,593	\$ 41

(1) Individually significant plan.

(2) Less than 5% of total contribution to WCTPP based on WCTPP's FASB Disclosure Statement for the calendar year ended December 31, 2016.

(3) The Company guarantees that one hundred seventy-three (173) hours will be contributed upon for all employees who are compensated for all available straight time hours for each calendar month. An additional 6.5% of the basic contribution must be paid for PEER or the Program for Enhanced Early Retirement.

(4) Includes one plan that is not individually significant.

The Company's contribution to multiemployer plans decreased in fiscal 2017 as compared to fiscal 2016 and 2015, as a result of reduction in employees due to the Corporate Relocation Plan. The Company expects to contribute an aggregate of \$2.2 million towards multiemployer pension plans in fiscal 2018.

Multiemployer Plans Other Than Pension Plans

The Company participates in ten multiemployer defined contribution plans other than pension plans that provide medical, vision, dental and disability benefits for active, union-represented employees subject to collective bargaining agreements. The plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, and provide that participating employers make monthly contributions to the plans in an amount as specified in the collective bargaining agreements. Also, the plans provide that participants make self-payments to the plans, the amounts of which are negotiated through the collective bargaining process. The Company's participation in these plans is governed by collective bargaining agreements which expire on or before July 31, 2020. The Company's aggregate contributions to multiemployer plans other than pension plans in the fiscal years ended June 30, 2017, 2016 and 2015 were \$5.3 million, \$6.3 million and \$6.9 million, respectively. The Company expects to contribute an aggregate of \$5.0 million towards multiemployer plans other than pension plans in fiscal 2018.

401(k) Plan

The Company's 401(k) Plan is available to all eligible employees who have worked more than 1,000 hours during a calendar year and were employed at the end of the calendar year. Participants in the 401(k) Plan may choose to contribute a percentage of their annual pay subject to the maximum contribution allowed by the Internal Revenue Service. The Company's matching contribution is discretionary, based on approval by the Company's Board of Directors. For the calendar years 2017, 2016 and 2015, the Company's Board of Directors approved a Company matching contribution of 50% of an employee's annual contribution to the 401(k) Plan, up to 6% of the employee's eligible income. The matching contributions (and any earnings thereon) vest at the rate of 20% for each of the participant's first 5 years of vesting service, so that a participant is fully vested in his or her matching contribution account after 5 years of vesting service, subject to accelerated vesting under certain circumstances in connection with the Corporate Relocation Plan due to the closure of the Company's Torrance Facility or a reduction-in-force at another Company facility designated by the Administrative Committee of the Farmer Bros. Co. Qualified Employee Retirement Plans. A participant is automatically vested in the event of death, disability or attainment of age 65 while employed by the Company. Employees are 100% vested in their contributions. For employees subject to a collective bargaining agreement, the match is only available if so provided in the labor agreement.

The Company recorded matching contributions of \$1.6 million, \$1.6 million and \$1.4 million in operating expenses for the fiscal years ended June 30, 2017, 2016 and 2015, respectively.

Postretirement Benefits

The Company sponsors a postretirement defined benefit plan that covers qualified non-union retirees and certain qualified union retirees (“Retiree Medical Plan”). The plan provides medical, dental and vision coverage for retirees under age 65 and

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

medical coverage only for retirees age 65 and above. Under this postretirement plan, the Company's contributions toward premiums for retiree medical, dental and vision coverage for participants and dependents are scaled based on length of service, with greater Company contributions for retirees with greater length of service, subject to a maximum monthly Company contribution. The Company's retiree medical, dental and vision plan is unfunded, and its liability was calculated using an assumed discount rate of 4.1% at June 30, 2017. The Company projects an initial medical trend rate of 8.6% in fiscal 2018, ultimately reducing to 4.5% in 10 years.

The Company also provides a postretirement death benefit ("Death Benefit") to certain of its employees and retirees, subject, in the case of current employees, to continued employment with the Company until retirement and certain other conditions related to the manner of employment termination and manner of death. The Company records the actuarially determined liability for the present value of the postretirement death benefit. The Company has purchased life insurance policies to fund the postretirement death benefit wherein the Company owns the policy but the postretirement death benefit is paid to the employee's or retiree's beneficiary. The Company records an asset for the fair value of the life insurance policies which equates to the cash surrender value of the policies. In fiscal 2016, the Company actuarially determined that no postretirement benefit costs related to the Corporate Relocation Plan were required to be recognized.

Retiree Medical Plan and Death Benefit

The following table shows the components of net periodic postretirement benefit cost for the Retiree Medical Plan and Death Benefit for the fiscal years ended June 30, 2017, 2016 and 2015. Net periodic postretirement benefit cost for fiscal 2017 was based on employee census information as of June 30, 2017.

(In thousands)	Year Ended June 30,		
	2017	2016	2015
Components of Net Periodic Postretirement Benefit Cost (Credit):			
Service cost	\$760	\$1,388	\$1,195
Interest cost	829	1,194	943
Amortization of net gain	(630)	(196)	(500)
Amortization of prior service credit	(1,757)	(1,757)	(1,757)
Net periodic postretirement benefit (credit) cost	\$(798)	\$629	\$(119)

The difference between the assets and the Accumulated Postretirement Benefit Obligation (APBO) at the adoption of ASC 715-60 was established as a transition (asset) obligation and is amortized over the average expected future service for active employees as measured at the date of adoption. Any plan amendments that retroactively increase benefits create prior service cost. The increase in the APBO due to any plan amendment is established as a base and amortized over the average remaining years of service to the full eligibility date of active participants who are not yet fully eligible for benefits at the plan amendment date. Gains and losses due to experience different than that assumed or from changes in actuarial assumptions are not immediately recognized. The tables below show the remaining bases for the transition (asset) obligation, prior service cost (credit), and the calculation of the amortizable gain or loss.

Amortization Schedule

Transition (Asset)

Obligation: The transition (asset) obligations have been fully amortized.

	Increase	Decrease
Effect on total of service and interest cost components	\$96	\$(92)
Effect on accumulated postretirement benefit obligation	\$983	\$(963)

Note 16. Bank Loan

The Company maintains a senior secured revolving credit facility (“Revolving Facility”) with JPMorgan Chase Bank, N.A. and SunTrust Bank (collectively, the “Lenders”), with revolving commitments of \$75.0 million as of June 30, 2017, and a sublimit on letters of credit and swingline loans of \$30.0 million and \$15.0 million, respectively. The Revolving Facility includes an accordion feature whereby the Company may increase the Revolving Commitment by up to an additional \$50.0 million, subject to certain conditions. Advances are based on the Company’s eligible accounts receivable, eligible inventory, and the value of certain real property and trademarks, less required reserves. As of June 30, 2017, the commitment fee ranges from 0.25% to 0.375% per annum based on average revolver usage. Outstanding obligations are collateralized by all of the Company’s assets, excluding certain real property not included in the borrowing base, machinery and equipment (other than inventory), and the Company’s preferred stock portfolio. Borrowings under the Revolving Facility bear interest based on average historical excess availability levels with a range of PRIME - 0.25% to PRIME + 0.50% or Adjusted LIBO Rate + 1.25% to Adjusted LIBO Rate + 2.00%. The Company is subject to a variety of affirmative and negative covenants of types customary in an asset-based lending

facility, including financial covenants relating to the maintenance of a fixed charge coverage ratio in certain circumstances, and the right of the Lenders to establish reserve requirements, which may reduce the amount of credit otherwise available to the Company. The Company is allowed to pay dividends, provided, among other things, certain excess availability requirements are met, and no event of default exists or has occurred and is continuing as of the date

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

of any such payment and after giving effect thereto. The Revolving Facility expires on March 2, 2020. Subsequent to the year ended June 30, 2017, the Company, together with its wholly owned subsidiaries and its Lenders, amended the credit facility to provide additional borrowing capacity and extended the term of the Revolving Facility. See Note 26. Subsequent Events.

At June 30, 2017, the Company was eligible to borrow up to a total of \$55.6 million under the Revolving Facility and had outstanding borrowings of \$27.6 million, utilized \$0.1 million of the letters of credit sublimit, and had excess availability under the Revolving Facility of \$27.9 million. Fair value of the loan approximates carrying value. At June 30, 2017, the weighted average interest rate on the Company's outstanding borrowings under the Revolving Facility was 3.02% and the Company was in compliance with all of the restrictive covenants under the Revolving Facility.

Note 17. Employee Stock Ownership Plan

The Company's ESOP was established in 2000. The plan is a leveraged ESOP in which the Company is the lender. One of the two loans established to fund the ESOP matured in fiscal 2016 and the remaining loan is scheduled to mature in December 2018. The loan is repaid from the Company's discretionary plan contributions over the original 15 year term with a variable rate of interest. The annual interest rate was 2.50% at June 30, 2017, which is updated on a quarterly basis.

As of and for the years
ended June 30,
2017 2016 2015

Loan amount (in thousands) \$4,289 \$6,434 \$11,234

Shares are held by the plan trustee for allocation among participants as the loan is repaid. The unencumbered shares are allocated to participants using a compensation-based formula. Subject to vesting requirements, allocated shares are owned by participants and shares are held by the plan trustee until the participant retires.

Historically, the Company used the dividends, if any, on ESOP shares to pay down the loans, and allocated to the ESOP participants shares equivalent to the fair market value of the dividends they would have received. No dividends were paid in fiscal 2017, 2016 or 2015.

During the fiscal years ended June 30, 2017, 2016 and 2015, the Company charged \$2.5 million, \$3.4 million and \$4.4 million, respectively, to compensation expense related to the ESOP. The decrease in ESOP expense in fiscal 2017 and 2016 was primarily due to the reduction in the number of shares being allocated to participant accounts as a result of paying down the loan amount. The difference between cost and fair market value of committed to be released shares, which was \$0.5 million, \$36,000 and \$1.0 million for the fiscal years ended June 30, 2017, 2016 and 2015, respectively, is recorded as additional paid-in capital.

	June 30,	
	2017	2016
Allocated shares	1,717,608	1,941,934
Committed to be released shares	74,983	169,603

Note 18. Share-based Compensation

Farmer Bros. Co. 2017 Long-Term Incentive Plan

On June 20, 2017 (the "Effective Date"), the Company's stockholders approved the Farmer Bros. Co. 2017 Long-Term Incentive Plan (the "2017 Plan"). The 2017 Plan succeeded the Company's prior long-term incentive plans, the Farmer

Bros. Co. Amended and Restated 2007 Long-Term Incentive Plan (the "Amended Equity Plan") and the Farmer Bros. Co. 2007

99

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Omnibus Plan (collectively, the “Prior Plans”). On the Effective Date, the Company ceased granting awards under the Prior Plans; however, awards outstanding under the Prior Plans will remain subject to the terms of the applicable Prior Plan.

The 2017 Plan provides for the grant of stock options (including incentive stock options and non-qualified stock options), stock appreciation rights, restricted stock, restricted stock units, dividend equivalents, performance shares and other stock- or cash-based awards to eligible participants. The 2017 Plan also authorizes the grant of awards that are intended to qualify as “qualified performance-based compensation” within the meaning of Section 162(m) of the Internal Revenue Code (the “Code”). Non-employee directors of the Company and employees of the Company or any of its subsidiaries are eligible to receive awards under the 2017 Plan. The 2017 Plan authorizes the issuance of (i) 900,000 shares of common stock plus (ii) the number of shares of common stock subject to awards under the Company’s Prior Plans that are outstanding as of the Effective Date and that expire or are forfeited, cancelled or similarly lapse following the Effective Date. Subject to certain limitations, shares of common stock covered by awards granted under the 2017 Plan that are forfeited, expire or lapse, or are repurchased for or paid in cash, may be used again for new grants under the 2017 Plan. Shares of common stock granted under the 2017 Plan may be authorized but unissued shares, shares purchased on the open market or treasury shares. In no event will more than 900,000 shares of common stock be issuable pursuant to the exercise of incentive stock options under the 2017 Plan.

The 2017 Plan is administered by the Board or another Board committee or subcommittee, as may be determined by the Board from time to time (subject to limitations that may be imposed under Section 162(m) of the Code, Section 16 of the Securities Exchange Act of 1934, as amended, and/or stock exchange rules, as applicable). The administrator of the 2017 Plan (the “Administrator”) or its delegatee will have the authority to determine which eligible persons receive awards and to set the terms and conditions applicable to awards within the confines of the 2017 Plan’s terms. The Administrator will have the authority to make all determinations and interpretations under, and adopt rules and guidelines for the administration of, the 2017 Plan. In addition, the Administrator (which, for purposes of any such awards will be a Board committee comprised solely of two or more directors, each of whom is intended to be an “outside director” within the meaning of Section 162(m) of the Code) will determine whether specific awards are intended to constitute “qualified performance-based compensation,” within the meaning of Section 162(m) of the Code. The 2017 Plan includes annual limits on certain awards that may be granted to any individual participant. The maximum aggregate number of shares of common stock with respect to all stock options and stock appreciation rights that may be granted to any one person during any calendar year is 250,000 shares. The maximum number of shares of common stock with respect to all awards of restricted stock, restricted stock units, performance shares and other stock- or cash-based awards that are intended to qualify as “qualified performance-based compensation” within the meaning of Section 162(m) of the Code that may be granted to any one person during any calendar year is 250,000 shares. The 2017 Plan also includes limits on the maximum aggregate amount that may become payable pursuant to all performance bonus awards that may be granted to any one person during any calendar year and the maximum amount that may become payable pursuant to all cash-based awards granted under the 2017 Plan and the aggregate grant date fair value of all equity-based awards granted under the 2017 Plan to any non-employee director during any calendar year for services as a member of the Board.

The 2017 Plan contains a minimum vesting requirement, subject to limited exceptions, that awards made under the 2017 Plan may not vest earlier than the date that is one year following the grant date of the award. The 2017 Plan also contains provisions with respect to payment of exercise or purchase prices, vesting and expiration of awards, adjustments and treatment of awards upon certain corporate transactions, including stock splits, recapitalizations and mergers, transferability of awards and tax withholding requirements.

The 2017 Plan may be amended or terminated by the Board at any time, subject to certain limitations requiring stockholder consent or the consent of the applicable participant. In addition, the Administrator may not, without the approval of the Company’s stockholders, authorize certain re-pricings of any outstanding stock options or stock appreciation rights granted under the 2017 Plan. The 2017 Plan will expire on June 20, 2027.

As of June 30, 2017, no awards have been granted under the 2017 Plan.

100

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Non-qualified stock options with time-based vesting (“NQOs”)

In fiscal 2017, the Company granted no shares issuable upon the exercise of NQOs. In fiscal 2016 and 2015, the Company granted 21,595 and 25,703 shares, respectively, issuable upon the exercise of NQOs with a weighted average exercise price of \$29.48 and \$23.91 per share, respectively, to eligible employees under the Amended Equity Plan which vest ratably over a three-year period. Following are the assumptions used in the Black-Scholes valuation model for NQOs granted during the fiscal years ended June 30, 2016 and 2015:

	Year Ended			
	June 30,		2015	
	2016	2015		
Weighted average fair value of NQOs	\$ 12.63	\$ 10.38		
Risk-free interest rate	1.6 %	1.5 %		
Dividend yield	—	—		
Average expected term (years)	5.1	5.1		
Expected stock price volatility	47.1 %	47.9 %		

The Company’s assumption regarding expected stock price volatility is based on the historical volatility of the Company’s stock price. The risk-free interest rate is based on U.S. Treasury zero-coupon issues at the date of grant with a remaining term equal to the expected life of the stock options. The average expected term is based on historical weighted time outstanding and the expected weighted time outstanding calculated by assuming the settlement of outstanding awards at the midpoint between the vesting date and the end of the contractual term of the award. Currently, management estimates an annual forfeiture rate of 4.8% based on actual forfeiture experience. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

The following table summarizes NQO activity for the three most recent fiscal years:

Outstanding NQOs:	Number of NQOs	Weighted Average Exercise Price (\$)	Weighted Average Grant Date Fair Value (\$)	Weighted Average Remaining Life (Years)	Aggregate Intrinsic Value (\$ in thousands)
Outstanding at June 30, 2014	412,454	12.44	5.30	4.4	3,782
Granted	25,703	23.91	10.38	6.8	—
Exercised	(95,723)	16.17	5.86	—	747
Cancelled/Forfeited	(13,134)	11.26	5.00	—	—
Outstanding at June 30, 2015	329,300	12.30	5.54	3.9	3,700
Granted	21,595	29.48	12.63	6.4	—
Exercised	(112,895)	12.35	5.37	—	1,853
Cancelled/Forfeited	(18,371)	13.45	6.17	—	—
Outstanding at June 30, 2016	219,629	13.87	6.28	3.7	3,995
Granted	—	—	—	—	—
Exercised(1)	(67,482)	12.38	5.57	—	1,407
Cancelled/Forfeited	(18,683)	25.13	10.90	—	—
Outstanding at June 30, 2017	133,464	13.05	5.99	2.6	2,299
Vested and exercisable at June 30, 2017	125,376	12.13	5.64	2.5	2,274
Vested and expected to vest at June 30, 2017	133,073	13.00	5.97	2.6	2,298

(1) Includes 11,147 shares that were withheld to cover option cost and meet the employees' minimum statutory tax withholding and retired.

The aggregate intrinsic values outstanding at the end of each fiscal period in the table above represent the total pretax intrinsic value, based on the Company's closing stock price of \$30.25 at June 30, 2017, \$32.06 at June 30, 2016 and \$23.50 at

101

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

June 30, 2015, representing the last trading day of the respective fiscal years, which would have been received by NQO holders had all award holders exercised their NQOs that were in-the-money as of those dates. The aggregate intrinsic value of NQO exercises in each fiscal period above represents the difference between the exercise price and the value of the Company's common stock at the time of exercise. NQOs outstanding that are expected to vest are net of estimated forfeitures.

Total fair value of NQOs vested during fiscal 2017, 2016, and 2015 was \$0.2 million, \$0.3 million and \$0.5 million, respectively. The Company received \$0.5 million, \$1.4 million and \$1.5 million in proceeds from exercises of vested NQOs in fiscal 2017, 2016 and 2015, respectively.

The following table summarizes nonvested NQO activity for the three most recent fiscal years:

Nonvested NQOs:	Number of NQOs	Weighted Average Exercise Price (\$)	Weighted Average Grant Date Fair Value (\$)	Weighted Average Remaining Life (Years)
Outstanding at June 30, 2014	167,798	10.65	5.06	5.3
Granted	25,703	23.91	10.38	6.8
Vested	(101,172)	9.87	4.72	—
Forfeited	(12,134)	10.31	4.91	—
Outstanding at June 30, 2015	80,195	15.94	7.21	5.2
Granted	21,595	29.48	12.63	6.4
Vested	(47,418)	14.05	6.44	—
Forfeited	(15,641)	12.95	6.09	—
Outstanding at June 30, 2016	38,731	27.02	11.63	6.1
Vested	(15,765)	26.45	11.41	—
Forfeited	(14,878)	27.44	11.96	—
Outstanding at June 30, 2017	8,088	27.33	11.47	5.3

As of June 30, 2017 and 2016, respectively, there was \$80,000 and \$0.4 million of unrecognized compensation cost related to NQOs. The unrecognized compensation cost related to NQOs at June 30, 2017 is expected to be recognized over the weighted average period of 1.3 years. Total compensation expense for NQOs was \$0.1 million, \$0.2 million and \$0.4 million in fiscal 2017, 2016 and 2015, respectively.

Non-qualified stock options with performance-based and time-based vesting ("PNQs")

In the fiscal year ended June 30, 2017, the Company granted 149,223 shares issuable upon the exercise of PNQs to eligible employees under the Amended Equity Plan, with 20% of each such grant subject to forfeiture if a target modified net income goal for fiscal 2017 ("Fiscal 2017 Target") is not attained. For this purpose, "Modified Net Income" is defined as net income (GAAP) before taxes and excluding any gains or losses from sales of assets, and excluding the effect of restructuring and other transition expenses related to the relocation of the Company's corporate headquarters to Northlake, Texas. These PNQs have an exercise price of \$32.85 per share which was the closing price of the Company's common stock as reported on the NASDAQ Global Select Market on the date of grant. One-third of the total number of shares subject to each such stock option vest ratably on each of the first three anniversaries of the grant date, contingent on continued employment, and subject to accelerated vesting in certain circumstances.

In the fiscal year ended June 30, 2016, the Company granted 143,466 shares issuable upon the exercise of PNQs with an exercise price of \$29.48 per share to eligible employees under the Amended Equity Plan. With the exception of a portion of the award to the Company's President and Chief Executive Officer as described below, these PNQs vest over a three-year period with one-third of the total number of shares subject to each such PNQ becoming exercisable each year on the anniversary of the grant date, based on the Company's achievement of modified net income targets for fiscal 2016 ("Fiscal 2016 Target") as approved by the Compensation Committee, subject to the participant's employment by the Company or service on the Board of Directors of the Company on the applicable vesting date and the

acceleration provisions contained in the Amended Equity Plan and the applicable award agreement. But if actual modified net income for fiscal 2016 is less than the Fiscal 2016 Target, then only 80% of the total shares issuable under such grant will vest subject to continued employment with the Company on the relevant vesting dates.

102

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

On June 3, 2016, the Compensation Committee of the Board of Directors of the Company determined that a portion of the performance non-qualified stock option granted to Michael H. Keown, the Company's President and Chief Executive Officer, on December 3, 2015 (the "Original Option") was invalid because such portion caused the total number of option shares granted to Mr. Keown in calendar year 2015 to exceed the limit of 75,000 shares that may be granted to a participant in a single calendar year under the Amended Equity Plan by 22,862 shares. Therefore, the Compensation Committee reduced the total number of shares of common stock issuable under the Original Option by 22,862 shares. The reduction of the 22,862 excess option shares brought the total number of option shares granted to Mr. Keown in calendar 2015 within the limitation of the Amended Equity Plan.

In addition, on June 3, 2016, the Compensation Committee, in accordance with the provisions of the Amended Equity Plan, granted Mr. Keown a performance non-qualified stock option to purchase 22,862 shares of the Company's common stock (the "New Option") with an exercise price of \$29.48 per share, which was the greater of the exercise price of the Original Option and the closing price of the Company's common stock as reported on the NASDAQ Global Select Market on June 3, 2016, the date of grant. The New Option is subject to the same terms and conditions of the Original Option including an expiration date of December 3, 2022, and the three-year vesting schedule, except that to comply with the Amended Equity Plan's minimum vesting schedule of one year from the grant date, one-third of shares issuable under the New Option will vest on June 3, 2017, and the remainder of the New Option shares will vest one-third each on the second and third anniversaries of the grant date of the Original Option, based on the Company's achievement of the same performance goals as the Original Option, subject to Mr. Keown's continued employment on the applicable vesting date.

In the fiscal year ended June 30, 2015, the Company granted 121,024 shares issuable upon the exercise of PNQs with an exercise price of \$23.44 per share to eligible employees under the Amended Equity Plan. These PNQs vest over a three-year period with one-third of the total number of shares subject to each such PNQ becoming exercisable each year on the anniversary of the grant date, based on the Company's achievement of modified net income targets for fiscal years within the performance period as approved by the Compensation Committee, subject to catch-up vesting of previously unvested shares in a subsequent year within the three year period in which a cumulative modified net income target as approved by the Compensation Committee is achieved, in each case, subject to the participant's employment by the Company or service on the Board of Directors of the Company on the applicable vesting date and the acceleration provisions contained in the Amended Equity Plan and the applicable award agreement.

Following are the assumptions used in the Black-Scholes valuation model for PNQs granted during the fiscal years ended June 30, 2017, 2016 and 2015:

	Year Ended June 30,		
	2017	2016	2015
Weighted average fair value of PNQs	\$11.42	\$11.38	\$10.16
Risk-free interest rate	1.5 %	1.6 %	1.5 %
Dividend yield	—	—	—
Average expected term (years)	4.9	4.9	5.0
Expected stock price volatility	37.7 %	42.5 %	47.9 %

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The following table summarizes PNQ activity for the three most recent fiscal years:

Outstanding PNQs:	Number of PNQs	Weighted Average Exercise Price (\$)	Weighted Average Grant Date Fair Value (\$)	Weighted Average Remaining Life (Years)	Aggregate Intrinsic Value (\$ in thousands)
Outstanding at June 30, 2014	112,442	21.27	10.49	6.5	38
Granted	121,024	23.44	10.16	6.6	—
Cancelled/Forfeited	(9,399)	21.33	10.52	—	—
Outstanding at June 30, 2015	224,067	22.44	10.31	6.0	237
Granted	143,466	29.48	11.38	6.2	—
Exercised	(14,144)	21.20	10.45	—	107
Cancelled/Forfeited	(64,790)	23.20	10.37	—	—
Outstanding at June 30, 2016	288,599	25.83	10.82	5.7	1,798
Granted	149,223	32.85	11.42	4.6	—
Exercised(1)	(15,321)	26.26	10.98	—	109
Cancelled/Forfeited	(63,715)	31.39	11.39	—	—
Outstanding at June 30, 2017	358,786	27.75	10.96	5.2	1,181
Vested and exercisable at June 30, 2017	150,761	23.97	10.58	4.3	947
Vested and expected to vest at June 30, 2017	347,766	27.64	10.95	5.2	1,173

(1) Includes 6,326 shares that were withheld to cover option cost and meet the employees' minimum statutory tax withholding and retired.

The aggregate intrinsic values outstanding at the end of each fiscal period in the table above represent the total pretax intrinsic values, based on the Company's closing stock price of \$30.25 at June 30, 2017, \$32.06 at June 30, 2016 and \$23.50 at June 30, 2015 representing the last trading day of the respective fiscal years, which would have been received by PNQ holders had all award holders exercised their PNQs that were in-the-money as of those dates. The aggregate intrinsic value of PNQ exercises in each fiscal period represents the difference between the exercise price and the value of the Company's common stock at the time of exercise. PNQs outstanding that are expected to vest are net of estimated forfeitures.

Total fair value of PNQs vested during the fiscal years ended June 30, 2017, 2016 and 2015 was \$1.3 million, \$0.3 million and \$0.4 million, respectively. The Company received \$0.2 million and \$0.3 million in proceeds from exercises of vested PNQs in fiscal 2017 and 2016, respectively. No PNQs were exercised during the fiscal year ended June 30, 2015.

As of June 30, 2017, the Company met the performance targets for the fiscal 2016 PNQ awards and the first two tranches of the fiscal 2015 PNQ awards. The Company expects to meet the performance targets for the remainder of the fiscal 2015 and fiscal 2016 awards, and for the fiscal 2017 awards.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The following table summarizes nonvested PNQ activity for the three most recent fiscal years:

Nonvested PNQs:	Number of PNQs	Weighted Average Exercise Price (\$)	Weighted Average Grant Date Fair Value (\$)	Weighted Average Remaining Life (Years)
Outstanding at June 30, 2014	112,442	21.27	10.49	6.5
Granted	121,024	23.44	10.16	6.6
Vested	(34,959)	21.27	10.49	—
Forfeited	(9,399)	21.33	10.52	—
Outstanding at June 30, 2015	189,108	22.66	10.28	6.2
Granted	143,466	29.48	11.38	6.2
Vested	(27,317)	10.16	23.44	—
Forfeited	(64,790)	23.20	10.37	—
Outstanding at June 30, 2016	240,467	26.49	10.92	5.9
Granted	149,223	32.85	11.42	4.6
Vested	(119,403)	24.91	10.75	—
Forfeited	(62,262)	31.39	11.39	—
Outstanding at June 30, 2017	208,025	30.48	11.24	5.8

As of June 30, 2017 and 2016, there was \$1.8 million and \$1.9 million, respectively, of unrecognized compensation cost related to PNQs. The unrecognized compensation cost related to PNQs at June 30, 2017 is expected to be recognized over the weighted average period of 1.3 years. Total compensation expense related to PNQs in fiscal 2017, 2016 and 2015 was \$1.1 million, \$0.5 million and \$0.5 million, respectively.

Restricted Stock

During fiscal 2017, 2016 and 2015 the Company granted 5,106 shares, 10,170 shares and 13,256 shares of restricted stock under the Amended Equity Plan, respectively, with a weighted average grant date fair value of \$35.25, \$29.99 and \$23.64 per share, respectively, to eligible employees and directors. Shares of restricted stock generally vest at the end of three years for eligible employees. Unlike prior-year awards to non-employee directors, which vest ratably over a period of three years, the fiscal 2017 restricted stock awards cliff vest on the first anniversary of the date of grant subject to continued service to the Company through the vesting date and the acceleration provisions of the LTIP and restricted stock agreement. During the fiscal year ended June 30, 2017, 7,458 shares of restricted stock vested and were released.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The following table summarizes restricted stock activity for the three most recent fiscal years:

Outstanding and Nonvested Restricted Stock Awards:	Shares Awarded	Weighted Average Grant Date Fair Value (\$)	Weighted Average Remaining Life (Years)	Aggregate Intrinsic Value (\$ in thousands)
Outstanding at June 30, 2014	96,212	10.27	1.5	2,079
Granted	13,256	23.64	—	313
Exercised/Released(1)	(53,402)	8.43	—	1,377
Cancelled/Forfeited	(8,984)	8.36	—	—
Outstanding at June 30, 2015	47,082	16.48	1.2	1,106
Granted	10,170	29.99	—	305
Exercised/Released(2)	(24,841)	14.08	—	747
Cancelled/Forfeited	(8,619)	13.06	—	—
Outstanding at June 30, 2016	23,792	26.00	1.8	763
Granted	5,106	35.25	—	180
Exercised/Released	(7,458)	24.16	—	253
Cancelled/Forfeited	(5,995)	26.41	—	—
Outstanding at June 30, 2017	15,445	29.79	0.9	467
Expected to vest at June 30, 2017	14,989	29.79	0.9	453

(1) Includes 4,297 shares that were withheld to meet the employees' minimum statutory tax withholding and retired.

(2) Includes 5,177 shares that were withheld to meet the employees' minimum statutory tax withholding and retired.

The aggregate intrinsic value of shares outstanding at the end of each fiscal period in the table above represent the total pretax intrinsic values, based on the Company's closing stock price of \$30.25 at June 30, 2017, \$32.06 at June 30, 2016 and \$23.50 at June 30, 2015, representing the last trading day of the respective fiscal years. Restricted stock that is expected to vest is net of estimated forfeitures.

As of June 30, 2017 and 2016, there was \$0.3 million and \$0.5 million of unrecognized compensation cost related to restricted stock. The unrecognized compensation cost related to restricted stock at June 30, 2017 is expected to be recognized over the weighted average period of 1.0 year. Total compensation expense for restricted stock was \$0.2 million, \$0.2 million, and \$0.3 million, for the fiscal years ended June 30, 2017, 2016 and 2015, respectively.

Note 19. Other Current Liabilities

Other current liabilities consist of the following:

(In thousands)	June 30,	
	2017	2016
Accrued postretirement benefits	\$893	\$1,060
Accrued workers' compensation liabilities	1,885	3,225
Short-term pension liabilities	3,956	347
Earnout payable—RLC acquisition	100	100
Other (including net taxes payable)	2,868	2,214
Other current liabilities	\$9,702	\$6,946

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Note 20. Other Long-Term Liabilities

Other long-term liabilities include the following:

	June 30,	
(In thousands)	2017	2016
New Facility lease obligation(1)	\$—	\$28,110
Earnout payable(2)	1,100	100
Derivative liabilities—noncurrent	380	—
Other long-term liabilities	\$1,480	\$28,210

(1) Lease obligation associated with construction of the New Facility. The lease obligation was reversed upon termination of the Lease Agreement concurrent with the closing of the purchase option on September 15, 2016. See [Note 5](#).

(2) Includes in fiscal 2017, \$0.5 million and \$0.6 million in earnout payable in connection with the Company's acquisition of substantially all of the assets of China Mist completed on October 11, 2016 and the Company's acquisition of West Coast Coffee completed on February 7, 2017, respectively; includes in fiscal 2016 \$0.1 million in earnout payable in connection with the Company's acquisition of substantially all of the assets of RLC in fiscal 2016. See [Note 3](#).

Note 21. Income Taxes

The current and deferred components of the provision for income taxes consist of the following:

	June 30,		
(In thousands)	2017	2016	2015
Current:			
Federal	\$132	\$214	\$(30)
State	340	103	309
Total current income tax expense	472	317	279
Deferred:			
Federal	13,110	(66,648)	106
State	2,372	(13,666)	17
Total deferred income tax expense (benefit)	15,482	(80,314)	123
Income tax expense (benefit)	\$15,954	\$(79,997)	\$402

A reconciliation of income tax expense (benefit) to the federal statutory tax rate is as follows:

	June 30,		
(In thousands)	2017	2016	2015
Statutory tax rate	35	% 35	% 34
Income tax expense at statutory rate	\$14,121	\$3,472	\$358
State income tax expense, net of federal tax benefit	1,819	557	260
Dividend income exclusion	(134)	(140)	(54)
Valuation allowance	(13)	(83,230)	(185)
Change in tax rate	—	(1,061)	—
Retiree life insurance	(69)	135	—
Change in contingency reserve (net)	1	—	—
Other (net)	229	270	23
Income tax expense (benefit)	\$15,954	\$(79,997)	\$402

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

The primary components of the temporary differences which give rise to the Company's net deferred tax assets (liabilities) are as follows:

(In thousands)	June 30,		
	2017	2016	2015
Deferred tax assets:			
Postretirement benefits	\$30,253	\$33,273	\$31,100
Accrued liabilities	7,885	11,760	10,091
Net operating loss carryforwards	38,985	38,196	41,544
Intangible assets	—	71	594
Other	6,824	6,881	6,794
Total deferred tax assets	83,947	90,181	90,123
Deferred tax liabilities:			
Unrealized gain on investments	—	(609)	(2,242)
Fixed assets	(17,096)	(5,370)	(2,647)
Other	(2,181)	(1,789)	(1,943)
Total deferred tax liabilities	(19,277)	(7,768)	(6,832)
Valuation allowance	(1,615)	(1,627)	(84,857)
Net deferred tax assets (liabilities)	\$63,055	\$80,786	\$(1,566)

At June 30, 2017, the Company had approximately \$101.8 million in federal and \$97.7 million in state net operating loss carryforwards that will begin to expire in the years ending June 30, 2030 and June 30, 2017, respectively.

Additionally, at June 30, 2017, the Company had \$0.8 million of federal business tax credits that begin to expire in June 30, 2025 and approximately \$1.7 million of federal alternative minimum tax credits that do not expire.

The Company recognizes windfall tax benefits associated with the exercise of share-based compensation directly to stockholders' equity only when realized. Accordingly deferred tax assets are not recognized for net operating loss carryforwards resulting from windfall tax benefits occurring from July 1, 2006 onward. At June 30, 2017, deferred tax assets do not include \$1.6 million in excess tax benefits from stock compensation. As discussed in Note 2, the Company will adopt ASU 2016-09 beginning July 1, 2017. Upon adoption the excess tax benefits of \$1.6 million will be recorded as an increase to deferred tax assets and a corresponding increase to retained earnings.

At June 30, 2017, the Company had total deferred tax assets of \$83.9 million and net deferred tax assets before valuation allowance of \$64.7 million. The Company considered whether a valuation allowance should be recorded against deferred tax assets based on the likelihood that the benefits of the deferred tax assets would or would not ultimately be realized in future periods. In making such assessment, significant weight was given to evidence that could be objectively verified such as recent operating results and less consideration was given to less objective indicators such as future income projections.

After consideration of positive and negative evidence, including the recent history of income, the Company concluded that it is more likely than not that the Company will generate future income sufficient to realize the majority of the Company's deferred tax assets as of June 30, 2017. As of June 30, 2017, the Company cannot conclude that certain state net operating loss carry forwards and tax credit carryovers will be utilized before expiration. Accordingly, the Company will maintain a valuation allowance of \$1.6 million to offset this deferred tax asset. There was no change to the valuation allowance in fiscal 2017. The valuation allowance decreased \$83.2 million and increased \$12.3 million, in fiscal 2016 and 2015, respectively.

Total unrecognized tax benefits attributable to uncertain tax positions taken in tax returns in each of fiscal 2017, 2016 and 2015 were zero and at June 30, 2017 and 2016, the Company had no unrecognized tax benefits.

The Company files income tax returns in the U.S. and in various state jurisdictions with varying statutes of limitations. The Company is no longer subject to U.S. income tax examinations for the fiscal years prior to June 30, 2013. The

Internal Revenue Service completed its examination of the Company's tax years ended June 30, 2013 and 2014 and accepted the returns as filed.

The Company's policy is to recognize interest expense and penalties related to income tax matters as a component of income tax expense. In each of the fiscal years ended June 30, 2017 and 2016, the Company recorded \$0 in accrued interest and

108

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

penalties associated with uncertain tax positions. Additionally, the Company recorded income of \$0 related to interest and penalties on uncertain tax positions in the fiscal years ended June 30, 2017, 2016 and 2015, respectively.

Note 22. Net Income Per Common Share

(In thousands, except share and per share amounts)	Year Ended June 30,		
	2017	2016	2015
Net income attributable to common stockholders—basic	\$24,370	\$ 89,812	\$ 651
Net income attributable to nonvested restricted stockholders	30	106	1
Net income	\$24,400	\$ 89,918	\$ 652
Weighted average common shares outstanding—basic	16,668,746	16,502,523	16,127,610
Effect of dilutive securities:			
Shares issuable under stock options	117,007	124,879	139,524
Weighted average common shares outstanding—diluted	16,785,753	16,627,402	16,267,134
Net income per common share—basic	\$1.46	\$ 5.45	\$ 0.04
Net income per common share—diluted	\$1.45	\$ 5.41	\$ 0.04

Note 23. Commitments and Contingencies

Leases

As part of the China Mist transaction, the Company assumed the lease on China Mist's existing 17,400 square foot production, distribution and warehouse facility in Scottsdale, Arizona which is terminable upon twelve months' notice. As part of the West Coast Coffee transaction, the Company entered into a three-year lease on West Coast Coffee's existing production, distribution and warehouse facility in Hillsboro, Oregon, which expires January 31, 2020, and assumed leases on six branch warehouses in Oregon, California and Nevada, expiring on various dates through November 2020. See [Note 3](#).

The Company is also obligated under operating leases for branch warehouses, distribution centers and its production facility in Portland, Oregon. Some operating leases have renewal options that allow the Company, as lessee, to extend the leases. Rent expenses paid for the fiscal years ended June 30, 2017, 2016 and 2015 were \$5.1 million, \$4.5 million and \$3.8 million, respectively.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Contractual obligations for future fiscal years are as follows:

(In thousands)	Contractual Obligations						
	Capital Lease Obligations	Operating Lease Obligations	New Facility Construction and Equipment Contracts (1)	Pension Plan Obligations (2)	Postretirement Benefits Other Than Pension Plans (3)	Revolving Credit Facility	Purchase Commitments (4)
Year Ended June 30,							
2018	\$994	\$ 4,907	\$ 4,439	\$ 14,097	\$ 5,880	\$ 27,621	\$ 76,359
2019	\$186	\$ 3,996	\$ —	\$ 8,050	\$ 956	\$ —	\$ —
2020	\$51	\$ 2,151	\$ —	\$ 8,340	\$ 1,004	\$ —	\$ —
2021	\$4	\$ 769	\$ —	\$ 8,560	\$ 1,049	\$ —	\$ —
2022	\$—	\$ 186	\$ —	\$ 8,760	\$ 1,082	\$ —	\$ —
Thereafter	\$—	\$ —	\$ —	\$ 44,870	\$ 5,830	\$ —	\$ —
		\$ 12,009	\$ 4,439	\$ 92,677	\$ 15,801	\$ 27,621	\$ 76,359
Total minimum lease payments	\$1,235						
Less: imputed interest (0.82% to 10.66%)	\$(40)						
Present value of future minimum lease payments	\$1,195						
Less: current portion	\$958						
Long-term capital lease obligations	\$237						

(1) Includes \$1.6 million in outstanding contractual obligations for the construction of the New Facility including \$0.4 million outstanding under the DMA (see [Note 5](#)) and \$2.8 million in outstanding contractual obligations for the purchase of machinery and equipment for the New Facility, including \$2.2 million under the Amended Building Contract. See [Note 5](#).

(2) Includes \$86.5 million in estimated future benefit payments on single employer pension plan obligations, \$4.0 million in estimated payments in fiscal 2018 towards settlement of withdrawal liability associated with the Company's withdrawal from the Local 807 Labor Management Pension Plan and \$2.2 million in estimated fiscal 2018 contributions to the multiemployer pension plans. See [Note 15](#).

(3) Includes \$10.8 million in estimated future benefit payments on postretirement benefit plan obligations and \$5.0 million in estimated 2018 contributions to multiemployer plans other than pension plans. See [Note 15](#).

(4) Purchase commitments include commitments under coffee purchase contracts for which all delivery terms have been finalized but the related coffee has not been received as of June 30, 2017. Amounts shown in the table above: (a) include all coffee purchase contracts that the Company considers to be from normal purchases; and (b) do not include amounts related to derivative instruments that are recorded at fair value on the Company's consolidated balance sheets.

Earn-Out Obligations

Certain of the Company's business acquisitions involve the payment of contingent consideration. Certain of these payments are based on achievement of certain sales levels during the earn-out period and, consequently, the Company cannot currently determine the total payments. However, the Company have developed an estimate of the maximum potential contingent consideration for each of its acquisitions with an outstanding earn-out obligation. The estimated maximum fair value of future contingent consideration that the Company could be required to pay associated with its

business acquisitions is \$1.2 million recorded in “Other current liabilities“ and “Other long-term liabilities” on the

110

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

Company's consolidated balance sheet at June 30, 2017 (see Note 19 and Note 20). Subject to achievement of certain milestones, the contingent consideration is estimated to be paid before the end of calendar 2019. Since it is not possible to estimate when, or even if, the acquired companies will reach their performance milestones or the amount of contingent consideration payable based on future sales, the maximum contingent consideration has not been included in the table above.

Self-Insurance

At June 30, 2016, the Company had posted a \$7.4 million letter of credit as a security deposit with the State of California Department of Industrial Relations Self-Insurance Plans for participation in the alternative security program for California self-insurers for workers' compensation liability in California. The State of California notified the Company on December 13, 2016 that it had released and authorized the cancellation of the letter of credit. At June 30, 2017 and 2016, the Company had also posted \$3.4 million in cash and a \$4.3 million letter of credit, respectively, as a security deposit for self-insuring workers' compensation, general liability and auto insurance coverages outside of California.

Non-cancelable Purchase Orders

As of June 30, 2017, the Company had committed to purchase green coffee inventory totaling \$66.7 million under fixed-price contracts, equipment for the New Facility totaling \$3.5 million and other purchases totaling \$6.1 million under non-cancelable purchase orders.

Legal Proceedings

Council for Education and Research on Toxics ("CERT") v. Brad Berry Company Ltd., et al., Superior Court of the State of California, County of Los Angeles

On August 31, 2012, CERT filed an amendment to a private enforcement action adding a number of companies as defendants, including CBI, which sell coffee in California. The suit alleges that the defendants have failed to issue clear and reasonable warnings in accordance with Proposition 65 that the coffee they produce, distribute and sell contains acrylamide. This lawsuit was filed in Los Angeles Superior Court (the "Court"). CERT has demanded that the alleged violators remove acrylamide from their coffee or provide Proposition 65 warnings on their products and pay \$2,500 per day for each and every violation while they are in violation of Proposition 65.

Acrylamide is produced naturally in connection with the heating of many foods, especially starchy foods, and is believed to be caused by the Maillard reaction, though it has also been found in unheated foods such as olives. With respect to coffee, acrylamide is produced when coffee beans are heated during the roasting process-it is the roasting itself that produces the acrylamide. While there has been a significant amount of research concerning proposals for treatments and other processes aimed at reducing acrylamide content of different types of foods, to our knowledge there is currently no known strategy for reducing acrylamide in coffee without negatively impacting the sensorial properties of the product.

The Company has joined a Joint Defense Group, or JDG, and, along with the other co-defendants, has answered the complaint, denying, generally, the allegations of the complaint, including the claimed violation of Proposition 65 and further denying CERT's right to any relief or damages, including the right to require a warning on products. The Joint Defense Group contends that based on proper scientific analysis and proper application of the standards set forth in Proposition 65, exposures to acrylamide from the coffee products pose no significant risk of cancer and, thus, these exposures are exempt from Proposition 65's warning requirement.

To date, the pleadings stage of the case has been completed. The Court has phased trial so that the "no significant risk level" defense, the First Amendment defense, and the preemption defense will be tried first. Fact discovery and expert discovery on these "Phase 1" defenses have been completed, and the parties filed trial briefs. Trial commenced on September 8, 2014, and testimony completed on November 4, 2014, for the three Phase 1 defenses.

Following final trial briefing, the Court heard, on April 9, 2015, final arguments on the Phase 1 issues. On September 1, 2015, the Court ruled against the JDG on the Phase 1 affirmative defenses. The JDG received permission to file an interlocutory appeal, which was filed by writ petition on October 14, 2015. On January 14, 2016, the Court of Appeals

denied the JDG's writ petition thereby denying the interlocutory appeal so that the case stays with the trial court.

111

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

On February 16, 2016, the Plaintiff filed a motion for summary adjudication arguing that based upon facts that had been stipulated by the JDG, the Plaintiff had proven its prima facie case and all that remains is a determination of whether any affirmative defenses are available to Defendants. On March 16, 2016, the Court reinstated the stay on discovery for all parties except for the four largest defendants. Following a hearing on April 20, 2016, the Court granted Plaintiff's motion for summary adjudication on its prima facie case. Plaintiff filed its motion for summary adjudication of affirmative defenses on May 16, 2016. At the August 19, 2016 hearing on Plaintiff's motion for summary adjudication (and the JDG's opposition), the Court denied Plaintiff's motion, thus maintaining the ability of the JDG to defend the issues at trial. On October 7, 2016, the Court continued the Plaintiff's motion for preliminary injunction until the trial for Phase 2.

In November 2016, the parties pursued mediation, but were not able to resolve the dispute.

In December 2016, discovery resumed for all defendants. Depositions of "person most knowledgeable" witnesses for each defendant in the JDG commenced in late December and proceeded through early 2017, followed by new interrogatories served upon the defendants. The Court set a fact and discovery cutoff of May 31, 2017 and an expert discovery cutoff of August 4, 2017. Depositions of expert witnesses were completed by the end of July. On July 6, 2017, the Court held hearings on a number of discovery motions and denied Plaintiff's motion for sanctions as to all the defendants.

All pre-trial motions and briefs have been filed with the Court. There was a final case management conference on August 21, 2017 at which the Court set August 31, 2017 as the new trial date for Phase 2, though later changed the starting date for trial to September 5, 2017. Phase 2 will focus on remedies and the plain meaning of "alternative significant risk level." Trial is currently ongoing at this time.

At this time, the Company is not able to predict the probability of the outcome or estimate of loss, if any, related to this matter.

The Company is a party to various other pending legal and administrative proceedings. It is management's opinion that the outcome of such proceedings will not have a material impact on the Company's financial position, results of operations, or cash flows.

Note 24. Unusual and Infrequent Expenses

The Company incurred expenses of \$5.2 million, or \$0.31 per diluted common share, during the fiscal year ended June 30, 2017 which were unusual in nature and infrequent in occurrence. These expenses incurred for successfully defending against the 2016 proxy contest included non-recurring legal fees, financial advisory fees, proxy solicitor fees, mailing and printing costs of proxy solicitation materials and other costs.

Note 25. Selected Quarterly Financial Data (Unaudited)

The following tables set forth certain unaudited quarterly information for each of the eight fiscal quarters in the two year period ended June 30, 2017. This quarterly information has been prepared on a consistent basis with the audited consolidated financial statements and, in the opinion of management, includes all adjustments which management believes are necessary for a fair presentation of the information for the periods presented.

The Company's quarterly operating results may fluctuate significantly as a result of a variety of factors, and operating results for any fiscal quarter are not necessarily indicative of results for a full fiscal year or future fiscal quarters.

In the fourth quarter of fiscal 2016, the Company concluded that it is more likely than not that the Company will generate future earnings sufficient to realize the majority of the Company's deferred tax assets as of June 30, 2016. Accordingly, the Company recorded a reduction in its valuation allowance in the fourth quarter of fiscal 2016 in the amount of \$83.2 million. See [Note 21](#).

In the second quarter of fiscal 2017, the Company completed the sale of the Torrance Facility, and recognized a net gain from sale in the amount of \$37.4 million, including non-cash interest expense of \$0.7 million and non-cash rent expense of \$1.4 million. See [Note 6](#).

Note 26. Subsequent Events

Boyd Coffee Company Purchase Agreement

On August 18, 2017, the Company and its wholly-owned subsidiary Boyd Assets Co., a Delaware corporation ("Buyer"), entered into an Asset Purchase Agreement (the "Purchase Agreement") with Boyd Coffee Company ("Seller"), and each of the parties set forth on Exhibit A to the Purchase Agreement (collectively with Seller, the "Seller Parties"). Under the terms of the Purchase Agreement, Seller will sell and Buyer will purchase substantially all of the assets of Seller (the "Transaction") in consideration of cash and preferred stock.

Each share of Preferred Stock will have a purchase price and an initial stated value of \$1,000.00 ("Stated Value"). Each holder of Preferred Stock will be entitled to receive dividends, when and if declared by the Company's Board of Directors, equal to 3.5% per annum of the Stated Value of such share in effect on the applicable regular dividend record date ("Regular Dividends"). Regular Dividends on each share of Preferred Stock will begin to accrue from, and including, the closing date; and if not declared and paid, will be cumulative.

Each share of Preferred Stock may be converted at the election of the holder thereof (i) upon a change of control of the Company or (ii) as follows: of the initial 21,000 shares of Preferred Stock, (x) 4,200 shares may be converted beginning one year after the closing date, (y) 6,300 additional shares may be converted beginning two years after the closing date, and (z) the remaining 10,500 shares may be converted beginning three years after the closing date. In addition, the Company will have the right, at any time on or after the first anniversary of the closing date, to cause all, but not less than all, of the outstanding shares of Preferred Stock to automatically convert, based on certain market conditions.

Farmer Bros. Co.
Notes to Consolidated Financial Statements (continued)

In the event of any liquidation, dissolution or winding up of the affairs of the Company, the holder(s) of Preferred Stock will be entitled to receive, per share of Preferred Stock, out of the assets of the Company or proceeds thereof legally available for distribution to the Company's stockholders, before any distribution of such assets or proceeds is made or set aside for the holders of junior stock, an amount equal to the Preferred Stock liquidation preference. The liquidation preference will be the greater of the (x) the Stated Value, plus accrued and unpaid Regular Dividends, per share of Preferred Stock as of the date the liquidation preference is paid, and (x) the amount, per share of Preferred Stock, that the holder thereof would have received if such holder had converted such share into the Company's common stock immediately before such liquidation, dissolution or winding up.

Except as otherwise required by applicable law, each share of Preferred Stock outstanding will entitle the holder(s) thereof to vote together with the holders of the Company's common stock on all matters submitted for a vote of, or consent by, holders of the Company's common stock. For these purposes, each holder will be deemed to be the holder of record of a number of shares of the Company's common stock equal to the quotient (rounded down to the nearest whole number) obtained by dividing (i) the aggregate Stated Value of the shares of Preferred Stock held by such holder on such record date by (ii) the Conversion Price in effect on such record date.

The Purchase Agreement contains representations, warranties, and indemnification provisions of the parties customary for transactions of this type. The Purchase Agreement contains specified termination rights for the parties, including a mutual termination right in the event the closing has not occurred on or prior to November 30, 2017. Subject to the satisfaction or waiver of the foregoing conditions and the other terms and conditions contained in the Purchase Agreement, the Transaction is expected to close in the Company's second quarter of fiscal 2018.

Amendment to Revolving Facility

On August 25, 2017, the Company and China Mist Brands, Inc., a Delaware corporation, (together with the Company, the "Borrowers"), together with the Company's wholly owned subsidiaries, as additional Loan Parties and as Guarantors, entered into that certain First Amendment to Credit Agreement and First Amendment to Pledge and Security Agreement (the "Amendment") with JPMorgan Chase Bank, N.A. ("Chase"), as Administrative Agent, and the financial institutions party thereto as lenders (the "Lenders"). The Amendment amends (i) the Company's original Credit Agreement dated as of March 2, 2015 (the "Original Credit Agreement"), entered into by the Borrowers, the guarantor subsidiaries party thereto, the Administrative Agent and the financial institutions party thereto as lenders (the Original Credit Agreement as amended by the Amendment, the "Amended Credit Agreement"), and (ii) the Company's original Pledge and Security Agreement dated as of March 2, 2015 (the "Original Pledge and Security Agreement"). Capitalized terms used without definition below are defined in the Amended Credit Agreement.

The Amended Credit Agreement increases the aggregate commitments ("Revolving Commitment") of the Revolving Facility from \$75.0 million to 125.0 million. Chase agreed to provide \$75.0 million of the Revolving Commitment and SunTrust Bank agreed to provide \$50.0 million of the Revolving Commitment. The Amended Credit Agreement also includes an accordion feature whereby the Company may increase the Revolving Commitment by an aggregate amount not to exceed \$50.0 million, subject to certain conditions.

The Amended Credit Agreement increases (i) the advance rate on Borrowers' eligible accounts receivable that are with investment grade customers from 85% to 90% and (ii) the amount of Borrowers' eligible real property which can be included in the Borrowing Base from the lesser of \$25.0 million and 75% of the fair market value of such eligible real property, to the lesser of \$60.0 million and 75% of the fair market value of such eligible real property, subject to certain limitations.

The Amended Credit Agreement provides for an increase to the margin of 0.375% per annum on any drawn loans under the Revolving Facility up to an amount equal to the value of eligible real property in the Borrowing Base. The interest rates are otherwise unchanged in the Amended Credit Agreement and continue to be based on Average Historical Excess Availability levels with a range of PRIME - 0.25% to PRIME + 0.50% or Adjusted LIBO Rate + 1.25% to Adjusted LIBO Rate + 2.00%. The Amended Credit Agreement reduces the commitment fee from a range of between 0.25% to 0.375% per annum based on Average Revolver Usage, to a flat fee of 0.25% per annum irrespective

of Average Revolver Usage. The Amended Credit Agreement also extends the maturity date of the Revolving Facility from March 2, 2020 to August 25, 2022.

The Amended Credit Agreement contains a variety of affirmative and negative covenants of types customary in an

114

Farmer Bros. Co.

Notes to Consolidated Financial Statements (continued)

asset-based lending facility, including financial covenants relating to the maintenance of a fixed charge coverage ratio in certain circumstances. The Amended Credit Agreement also allows the Lenders to establish reserve requirements, which may reduce the amount of credit otherwise available to the Borrowers, and provides for customary Events of Default.

Western Conference of Teamsters Pension Trust

On July 13, 2017, the Company received correspondence (the “WCT Letter”) from the Western Conference of Teamsters Pension Trust (the “WCT Pension Trust”) stating that the Company had liability for a share of the Western Conference of Teamsters Pension Plan (the “Plan”) unfunded vested benefits based on the WCT Pension Trust’s claim that certain of the Company’s employment actions resulting from the Corporate Relocation Plan amounted to a partial withdrawal from the Plan. The Company has not yet decided whether it will submit a request for review to the WCT Pension Trust with respect to the asserted liability or take any other action.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure
None.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act, are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures. As of June 30, 2017, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(e) promulgated under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2017, our disclosure controls and procedures are effective.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Internal control over financial reporting refers to the process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer, and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions or that the degree of compliance with policies or procedures may deteriorate.

With the participation of the Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in the 2013 "Internal Control—Integrated Framework," issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our internal control over financial reporting was effective as of June 30, 2017.

The effectiveness of our internal control over financial reporting has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act) during our fiscal quarter ended June 30, 2017, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Farmer Bros. Co.
Northlake, Texas

We have audited the internal control over financial reporting of Farmer Bros. Co. and subsidiaries (the "Company") as of June 30, 2017, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2017, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended June 30, 2017 of the Company and our report dated September 28, 2017 expressed an unqualified opinion on those financial statements.

/s/ DELOITTE & TOUCHE LLP

Dallas, Texas
September 28, 2017

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item will be set forth in the Proxy Statement and is incorporated in this report by reference.

Code of Conduct and Ethics

We maintain a written Code of Conduct and Ethics for all employees, officers and directors, including our principal executive officer, principal financial officer, principal accounting officer or controller, and other persons performing similar functions. To view this Code of Conduct and Ethics free of charge, please visit our website at www.farmerbros.com (this website address is not intended to function as a hyperlink, and the information contained in our website is not intended to be a part of this filing). We intend to satisfy the disclosure requirements under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of this Code of Conduct and Ethics, if any, by posting such information on our website as set forth above.

Compliance with Section 16(a) of the Exchange Act

To the Company's knowledge, based solely on a review of the copies of such reports furnished to the Company and written representations from certain reporting persons that no other reports were required during the fiscal year ended June 30, 2017, its officers, directors and ten percent stockholders complied with all applicable Section 16(a) filing requirements, with the exception of the members of a "group" for the purposes of Section 13(d)(3) of the Securities Exchange Act of 1934, as amended, identified in a Schedule 13D/A (Amendment No. 3) filed with the SEC on August 29, 2017 and a Schedule 13D/A (Amendment No. 4) filed with the SEC on September 8, 2016 (collectively, the "Waite Group Schedule 13D/A"), including Carol Farmer Waite, as trustee, co-trustee, and/or sole beneficiary of certain family trusts named in the Waite Group Schedule 13D/A; Jonathan Michael Waite, as trustee and sole beneficiary of the 2012 Waite Irrevocable Trust; and individuals Suzanna Waite, Austin Waite, Emily Waite, Scott Grossman, Brett Grossman, Brynn Grossman, Tom Mortensen, John Samore, Jr. and Jennifer Gonzalez-Yousef (Mr. Samore and Ms. Gonzalez-Yousef each signed the Waite Group Schedule 13D/A but reported that they beneficially owned no shares of the Company's common stock), who did not timely file or failed to file such reports upon becoming members of the identified Section 13(d)(3) group. The foregoing is in addition to any filings that may be listed in the Company's Proxy Statement expected to be dated and filed with the SEC not later than 120 days after the conclusion of the Company's fiscal year ended June 30, 2017.

Item 11. Executive Compensation

The information required by this item will be set forth in the Proxy Statement and is incorporated in this report by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item will be set forth in the Proxy Statement and is incorporated in this report by reference.

Equity Compensation Plan Information

Information about our equity compensation plans at June 30, 2017 that were either approved or not approved by our stockholders was as follows:

Plan Category	Number of Shares to be Issued Upon Exercise of Outstanding Options	Weighted Average Exercise Price of Outstanding Options	Number of Shares Remaining Available for Future Issuance ⁽³⁾
Equity compensation plans approved by stockholders ⁽¹⁾	492,250	\$23.76	—
Equity compensation plans approved by stockholders ⁽²⁾	—	—	900,000
Equity compensation plans not approved by stockholders	—	—	—
Total	492,250	\$23.76	900,000

(1) Includes shares issued under the Prior Plans.

(2) Includes shares available for issuance under the 2017 Plan

The 2017 Plan succeeded the Prior Plans. On the Effective Date of the 2017 Plan, the Company ceased granting awards under the Prior Plans; however, awards outstanding under the Prior Plans will remain subject to the terms of the applicable Prior Plan. The 2017 Plan authorizes the issuance of (i) 900,000 shares of common stock plus (ii) the number of shares of common stock subject to awards under the Company's Prior Plans that are outstanding as of the Effective Date and that expire or are forfeited, cancelled or similarly lapse following the Effective Date.

Subject to certain limitations, shares of common stock covered by awards granted under the 2017 Plan that are forfeited, expire or lapse, or are repurchased for or paid in cash, may be used again for new grants under the 2017 Plan. Shares of common stock granted under the 2017 Plan may be authorized but unissued shares, shares

(3) purchased on the open market or treasury shares. In no event will more than 900,000 shares of common stock be issuable pursuant to the exercise of incentive stock options under the 2017 Plan. The 2017 Plan provides for the grant of stock options (including incentive stock options and non-qualified stock options), stock appreciation rights, restricted stock, restricted stock units, dividend equivalents, performance shares and other stock- or cash-based awards to eligible participants. The 2017 Plan also authorizes the grant of awards that are intended to qualify as "qualified performance-based compensation" within the meaning of Section 162(m) of the Internal Revenue Code (the "Code"). Non-employee directors of the Company and employees of the Company or any of its subsidiaries are eligible to receive awards under the 2017 Plan.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item will be set forth in the Proxy Statement and is incorporated in this report by reference.

Item 14. Principal Accountant Fees and Services

The information required by this item will be set forth in the Proxy Statement and is incorporated in this report by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a) List of Financial Statements and Financial Statement Schedules:

1. Financial Statements included in Part II, Item 8 of this report:

Consolidated Balance Sheets as of June 30, 2017 and 2016

Consolidated Statements of Operations for the Years Ended June 30, 2017, 2016 and 2015

Consolidated Statements of Comprehensive Income (Loss) for the Years Ended June 30, 2017, 2016 and 2015

Consolidated Statements of Cash Flows for the Years Ended June 30, 2017, 2016 and 2015

Consolidated Statements of Stockholders' Equity for the Years Ended June 30, 2017, 2016 and 2015

Notes to Consolidated Financial Statements

2. Financial Statement Schedules: Financial Statement Schedules are omitted as they are not applicable, or the required information is given in the consolidated financial statements and notes thereto.

3. The exhibits to this Annual Report on Form 10-K are listed on the accompanying index to exhibits and are incorporated herein by reference or are filed as part of the Annual Report on Form 10-K. Each management contract or compensation plan required to be filed as an exhibit is identified by an asterisk (*).

(b) Exhibits: See Exhibit Index.

Item 16. Form 10-K Summary

None.
