NEWS RELEASE

**Alico Inc. 's Recent Acquisition, Plant World, Delivers Over  
62 Million Plants in Latest Six Months of Operation**

**LaBelle, Fla., March 3, 2005**-- Alico, Inc., (NASDAQ: ALCO) one of the South 's best known agribusiness companies operating in Central and Southwest Florida, and with approximately 141,000 acres in real estate holdings, announced today that its recent acquisition of Plant World has already exceeded management 's expectations by delivering more than 62 million plants for wholesale distribution to commercial farms in Florida.

In September 2004, Alico, Inc., through its wholly-owned subsidiary, Alico/Agri, Ltd., acquired a greenhouse operation near Labelle, Florida, known as Plant World. The business, established by a local family in the mid-70 's, today is a major supplier for commercial farming operations in Florida and also sells plants throughout the Southeastern United States. Production consists primarily of vegetable transplants such as tomatoes, bell pepper and watermelon. Annual sales volume typically ranges between 80 and 120 million plants per year.

"When we took over and renovated this operation we were confident that Alico 's management and agricultural skills would increase business efficiencies. We are extremely pleased with the current production at this facility, and expect continued production gains ahead," Alico CEO John Alexander said today.

**About Alico**

Alico, Inc., an agribusiness company operating in Central and Southwest Florida, owns approximately 141,000 acres of land located in Collier, Hendry, Lee and Polk Counties. The company is involved in various operations and activities including citrus fruit production, cattle ranching, sugarcane, sod production, and forestry. The Company also leases land for farming, cattle grazing, recreation and oil exploration, and is increasingly involved in exploring real estate development in and beyond its holdings.
