**NEWS RELEASE**

July 7, 2005

National Circuit  
La Belle, Florida

**Alico, Inc. Reports Third Quarter Results**

**La Belle, Florida, July 7, 2005 - Alico, Inc., (NASDAQ: ALCO)** one of the South's best known agribusiness companies operating in Central and Southwest Florida, and with approximately 141,000 acres in real estate holdings, announced net earnings for the third quarter of fiscal 2005 of \$2.6 million, or \$0.36 per share compared with net earnings of \$2.3 million, or \$0.32 per share, during the third quarter a year ago. For the nine months ended May 31, 2005, net earnings were \$3.6 million or \$0.49 per share. This compares with \$15.1 million or \$2.10 per share, during the nine month period ended May 31, 2004.

Operating revenues during the three months ended May 31, 2005 totaled \$19.3 million, and were substantially unchanged compared with the same period a year ago. Operating revenues for the nine months ended May 31, 2005 were \$46.3 million compared with \$44.5 million for the first nine months of fiscal 2004. The increase was primarily due to higher citrus prices and the sale of plants and trees through Alico Plant World.

Stockholders' equity as of May 31, 2005 was \$151.1 million, compared with \$142.2 million at May 31, 2004.

John R. Alexander, Chairman and Chief Executive Officer noted, "The decrease in net earnings for the nine months ended May 31, 2005 was primarily due to a decrease in earnings from real estate sales, compared with the same period a year ago. In the prior year, several large real estate transactions closed, generating net earnings of \$12.6 million. No significant real estate transactions have closed during the first nine months of fiscal 2005."

Addressing the divisional results, Chairman and Chief Executive Officer John R. Alexander noted that:

\* The Citrus Division reported operating profits of \$3.6 million and \$4.9 million for the third quarter and first nine months of fiscal 2005, respectively; while during the same periods a year ago, operating profits of \$1.6 million and \$1.2 million were reported. A reduced Florida orange crop, caused by a series of hurricanes, resulted in increased citrus prices when compared with the prior year.

\* Operating profits for the Sugarcane Division were \$139 thousand and \$541 thousand for the quarter and nine months ended May 31, 2005, respectively, compared with \$527 thousand and \$2.2 million for the quarter and nine months ended May 31, 2004, respectively. Lower prices, increased costs and reduced yields combined to cause the decrease.

\* Ranch operating profits were \$1.1 million and \$1.8 million for the quarter and nine months ended May 31, 2005, respectively, compared with \$605 thousand and \$1.4 million for the quarter and nine months ended May 31, 2004, respectively. The increase was due to higher prices for beef products.

**About Alico**

Alico, Inc., an agribusiness company operating in Central and Southwest Florida, owns approximately 141,000 acres of land located in Collier, Hendry, Lee and Polk counties. The Company is involved in various operations and activities including citrus fruit production, cattle ranching, sugarcane, sod production, and forestry. The Company also leases land for farming, cattle grazing, recreation and oil exploration, and is increasingly involved in exploring real estate development in and beyond its holdings.
