Report of Independent Accountants

To the Board of Directors of  
Ford Motor Company

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Ford Motor Company Savings and Stock Investment Plan (the "Plan") at December 30, 2000 and 1999, and the changes in net assets available for benefits for the year ended December 30, 2000, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the

# Edgar Filing: FORD MOTOR CO - Form 11-K

responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of Assets Held for Investment Purposes and Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Ford Motor Company Savings and Stock  
Investment Plan for Salaried Employees  
Notes to Financial Statements  
-----

1. Description of the Plan

The following description of the Ford Motor Company Savings and Stock Investment Plan for Salaried Employees (the "Plan") provides only general information. The Plan was established effective February 1, 1956. The provisions of the Plan are governed in all respects by the detailed terms and conditions contained in the plan agreement. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Type and purpose of the plan

The Plan is a defined contribution plan established to encourage and facilitate systematic savings and investment by eligible salaried employees of Ford Motor Company (the "Company") and to provide them with an opportunity to become stockholders of the Company. The Plan includes provisions for voting shares of Company stock. It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") applicable to defined contribution pension plans.

Eligibility

With certain exceptions, regular full-time salaried employees are eligible to participate in the Plan twelve months after their original date of hire. Certain other part-time and temporary employees also may be eligible to participate in the Plan. Participation in the Plan is voluntary.

Contributions

The Plan has both a Pre-Tax Program and an After-Tax Program. Under the Plan and subject to limits required to be imposed by the Internal Revenue Code, participants may elect a reduction in their pre-tax base salary up to 15%. Participants may also elect reductions in their distributions under the Company's Performance Bonus Plan and Flexible Compensation Account program. A contribution in an amount corresponding to each reduction is made by the Company on their behalf to the Plan. Such contributions are excluded from the participants' taxable income and are classified as Company contributions on behalf of employees. Subject to limitations imposed by the Internal Revenue Code, participants may also contribute up to 10% of their base monthly salaries to the Plan on an after-tax basis. These after-tax contributions are classified as employee contributions. The investment programs are the same for all savings contributions.

The Company matches at the rate of \$.60 for each dollar of contributions up to 10% of participants' base salaries. All Company matching contributions are invested in the Ford Stock Fund. Contributions to the Pre-Tax Program from the Performance Bonus Plan and Flexible Compensation Account Program are not eligible for the Company match.

## Edgar Filing: FORD MOTOR CO - Form 11-K

### Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. Plan administrative expenses are paid by the Company and not charged to participants' accounts. Per the plan agreement, certain fund options charge redemption fees on transfers of funds which are paid by the participants. These redemption fees are charged to the individual participant account fund assets. The fees totaled approximately \$386,000 and \$173,000 for the years ended December 31, 2000 and 1999, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4

### Ford Motor Company Savings and Stock Investment Plan for Salaried Employees Notes to Financial Statements

---

#### 1. Description of the Plan (continued)

##### Vesting and distributions

Pre-Tax Program assets, After-Tax Program assets and assets resulting from Company matching contributions (Ford Stock Fund) are accounted for separately.

Company matching contributions vest five years after the original date of hire. At that time, all assets attributable to Company matching contributions held in participants' accounts become vested, and all future contributions vest when they are made.

Pre-Tax Program assets may not be withdrawn by participants until the termination of their employment or until they reach age 59-1/2, except in the case of personal financial hardship.

##### Investment options and participation

Participant contributions are invested in accordance with the participant's election in one or more of several investment options. The types of investment options, and the number of participants in each option at December 30, 2000, are as follows:

	Participants
Ford Stock Fund	64,765
Interest Income Fund	29,658
Common Stock Fund	17,223
Other	169,624

The Ford Stock Fund is an investment in Ford common stock with a portion of the Fund's assets being invested in short-term investments.

The Interest Income Fund is a broadly diversified, stable value investment fund. The Interest Income Fund invests in a diversified portfolio of fixed income securities, including investment contracts with insurance companies and other organizations. During 2000 and 1999, the Plan entered into five benefit-responsive investment contracts with various companies. The contracts are included in the financial statements at their contract values as reported to the Plan by the companies. There is no immediate recognition of investment gains and losses on the fixed

## Edgar Filing: FORD MOTOR CO - Form 11-K

income securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the contracts.

There were no reserves against contract value for credit risk of the contract issuer or otherwise during 2000 or 1999. The average yield and crediting interest rates were approximately 6.16% for 2000 and 5.73% for 1999. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on an annual basis for resetting.

The Common Stock Fund is a broadly diversified, passively managed equity fund administered by Comerica Bank. Fund assets are invested in stocks through a series of Comerica Bank commingled pools.

Details of investments held as of December 30, 2000 are set forth in Schedule I - Schedule of Assets Held for Investment Purposes.

5

Ford Motor Company Savings and Stock  
Investment Plan for Salaried Employees  
Notes to Financial Statements  
-----

### 1. Description of the Plan (continued)

#### Transfer of assets

The Plan permits the transfer of assets among investment options, with certain restrictions related to transfers from the Stable Value Income Fund.

#### Loans

The Plan permits loans to participants from both their Pre-Tax and After-Tax Program accounts with certain restrictions related to loans from the Stable Value Income Fund. Monthly loan interest rates are based on the prime rate published in The Wall Street Journal.

#### Forfeitures and plan administration expenses

The Plan permits the Company to use assets forfeited by participants to pay plan administrative expenses and, to the extent not used to pay such expenses, to reduce the Company's future contributions to the Plan. To the extent that forfeited assets are not available to pay certain administrative expenses, the Company pays such expenses directly. Plan administration expenses amounted to approximately \$1,933,000 and \$1,960,000 for the years ended December 30, 2000 and 1999, respectively, of which approximately \$1,371,000 and \$1,430,000, respectively, was paid with participant forfeitures.

#### Employee stock ownership plan

The Plan operates, in part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975 (e) (7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan purchased Company common shares using the proceeds of loans from the Company and held the shares in an ESOP trust account established under the Plan. The borrowings are to be repaid quarterly over the period ended December 3, 2001.

## Edgar Filing: FORD MOTOR CO - Form 11-K

As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employee accounts. The shares vest fully upon allocation. The borrowings are collateralized by the unallocated shares of stock.

### 2. Summary of Significant Accounting Policies

#### Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

#### Investments

The investment in the Ford Stock Fund and the investments in all other funds except the Stable Value Income Fund are valued on the basis of established year-end market prices. Investments in the Stable Value Income Fund, primarily fixed rate insurance contracts, are stated at contract value, which approximates fair value.

#### Contributions

Contributions to the Plan from employees and from the Company and participating subsidiaries (as defined in the Plan) are recorded in the period that payroll deductions are made from plan participants.

6

Ford Motor Company Savings and Stock  
Investment Plan for Salaried Employees  
Notes to Financial Statements

---

### 2. Summary of Significant Accounting Policies (continued)

#### Payment of benefits

Benefits are recorded when paid.

#### Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### Risks and uncertainties

The Plan's invested assets ultimately consist of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

#### Other

Purchases and sales of investments are reflected on a trade-date basis. Realized gains and losses on sales of investments are determined using specific identification.

Dividend income is recorded on the ex-dividend date. Income from other

## Edgar Filing: FORD MOTOR CO - Form 11-K

investments is recorded as earned on an accrual basis.

### 3. Investments

The following present investments that represent 5% or more of the Plan's net assets:

	2000	1999
Interest Income Fund	\$1,676,659,606	\$1,872,912,595
Ford Stock Fund	6,314,479,062	7,969,359,481
Common Stock Fund	1,166,378,566	1,430,806,664

The Plan presents in the statement of changes in net assets available for Plan benefits the net appreciation (depreciation) in the fair value of its investments which consists of the Plan's realized gains or losses and the unrealized appreciation (depreciation) on those investments. During 2000, the Plan's investments depreciated in value by \$2,577,463,879 as follows:

Mutal Funds	\$ 797,800,949
Common stock	1,625,582,857
Common and comingled trust fund	154,080,073
	-----
	\$2,577,463,879
	-----

7

Ford Motor Company Savings and Stock  
Investment Plan for Salaried Employees  
Notes to Financial Statements

### 4. Plan Amendment

During 1999, the Plan was amended to reduce the participation waiting period from twelve months after the original date of hire to the first day of the second month following the date of hire, effective January 1, 2000. The Company matching contributions, however, will continue to be provided after twelve months of service. The Plan was also amended to permit participants to contribute up to 25% of salary on either or both a pre-tax or after-tax basis, effective April 1, 2000.

### 5. Employee Stock Ownership Plan

Effective January 1, 1989, the Company, by action of the Board of Directors, established within the Plan an ESOP. All shares of Company stock in the Plan at any time, including all shares allocated to participants' accounts and shares held in an ESOP suspense account, and forfeited shares are included in the ESOP, along with other assets attributable to post-1988 contributions to the Plan.

The Plan obtained loans from the Company to purchase shares of company stock for quarterly allocation. The following summarizes the loans taken out by the Plan:

Original	Total	Number of	Date of
----------	-------	-----------	---------

# Edgar Filing: FORD MOTOR CO - Form 11-K

Date of loan	principle balance	Interest rate	quarterly payments	quarterly payments	first payment
6/7/00	\$ 54,700,000	6.52%	\$ 55,333,061	1	8/10/00
6/28/00	221,200,000	6.54%	5,489,358	7	8/10/00
8/31/00	407,490,000	7.04%	72,592,927	6	9/1/00
12/17/99	505,649,084	6.52%	67,817,343	8	03/01/00
11/25/98	26,403,776	5.00%	5,418,883	5	12/01/98
08/27/98	107,797,613	5.72%	18,629,451	6	09/01/98
12/30/97	293,053,220	8.50%	39,999,202	8	03/02/98

All loans were either paid off or matured prior to December 31, 2000, except the June 28, 2000 and August 31, 2000 loans which both mature December 3, 2001.

The Company shares are held in a suspense account within the Plan until quarterly loan payments are made. A percentage of shares equivalent to the percentage of principal and interest paid down by the quarterly payment are released for distribution when each quarterly dividend payment is made. The trustee purchases additional shares to the extent that shares released from the suspense account are not adequate to satisfy the requirement for dividend shares allocated to participants' accounts. As of December 30, 2000 and 1999, the share activity is as follows:

	2000		1999	
	Allocated	Unallocated	Allocated	Unallocated
Ford Motor Company common shares				
Number of shares	27,842,832	11,700,442	5,338,419	
Cost	\$ 961,755,288	\$ 278,510,030	\$ 246,807,955	\$

8

## Ford Motor Company Savings and Stock Investment Plan for Salaried Employees Notes to Financial Statements

### 5. Employee Stock Ownership Plan (continued)

Cash dividends earned on Company stock held in the Plan generally are used to make quarterly loan payments. If cash is not available to make the full payment, the trustee may sell shares held in the suspense account or the Company, at its option, may elect to make additional contributions to the Plan. If cash exceeds the loan payment amounts, the cash is used to reduce the Company's contribution for additional share requirements.

The following highlights certain ESOP activity:

	2000 loan activity
Shares purchased with loan cash	39,543,274
Cost of shares purchased with loan cash	\$ 1,240,265,318
Loan principal paid	890,144,371

## Edgar Filing: FORD MOTOR CO - Form 11-K

Loan interest paid

26,495,157

### 6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated December 13, 1995, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan has since been amended, however, the Plan sponsor has applied for an updated IRS letter. The Plan is currently designed and being operated in compliance with the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

### 7. Plan Termination

The Company, by action of the Board of Directors, may terminate the Plan at any time. Termination of the Plan would not affect the rights of a participant as to (a) the continuance of investment, distribution or withdrawal of the securities, cash and cash value of the Ford Stock Fund units in the account of the participant as of the effective date of such termination, or (b) continuance of vesting of such securities and cash attributable to Company matching contributions or earnings thereon. There are currently no plans to terminate the Plan.

### 8. Other

To conform the financial statements to the accrual basis of accounting, the plan administrator made adjustments resulting in differences between the data shown on page 2 of this report and the 1999 Form 5500 filed with the Department of Labor.

On August 7, 2000, the Company announced the final results of its recapitalization, known as the Value Enhancement Plan ("VEP"). Under the VEP, Ford shareholders exchanged each of their old Ford Common or Class B shares for one new Ford Common or Class B share, as the case may be, plus at their election, either \$20 in cash, 0.748 additional new Ford Common shares, or a combination of \$5.17 in cash and 0.555 additional new Ford Common shares. As a result of the elections made by shareholders under the VEP, the total cash elected was \$5.7 billion and the total number of new Ford Common and Class B shares that became issued and outstanding was 1.893 billion.

9

Ford Motor Company Savings and Stock  
Investment Plan for Salaried Employees  
Notes to Financial Statements

---

### 8. Other (continued)

On June 28, 2000, Ford distributed 130 million shares of Visteon Corporation ("Visteon"), which represented its 100% ownership interest, by means of a tax-free spin-off in the form of a dividend on Ford Common and Class B Stock.

Holders of Ford Common and Class B Stock on the record date received 0.130933 shares of Visteon common stock for each share of Ford stock, and participants in U.S. employee savings plans on the record date received \$1.72 in cash per share of Ford stock, based on the volume-weighted

## Edgar Filing: FORD MOTOR CO - Form 11-K

average price of Visteon stock of \$13.1326 per share on June 28, 2000.  
The total value of the distribution (including the \$365 million cash dividend) was \$2.1 billion, or \$1.72 per diluted share of Ford stock.
