Hewlett-Packard Company 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of Hewlett-Packard Company 401(k) Plan as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Hewlett-Packard Company 401(k) Plan at December 31, 2014 and 2013, and the changes in its net assets available for benefits for the year ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014, has been subjected to audit procedures performed in conjunction with the audit of Hewlett-Packard Company 401(k) Plan's financial statements. The information in the supplemental schedules is the responsibility of the Plan's management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Hewlett-Packard Company 401(k) Plan  
Notes to Financial Statements  
December 31, 2014

1. Description of the Plan

The following brief description of the Hewlett-Packard Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. General

The Plan is a defined contribution plan covering employees of Hewlett-Packard Company (the Company, Employer, or HP) and designated domestic subsidiaries who are on the U.S. payroll and who are employed as regular full-time or regular part-time or limited-term employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan's trustee is Bank of New York Mellon (BNYM) and the recordkeeper is Fidelity Workplace Services LLC (Fidelity).

On October 6, 2014, HP announced plans to separate into two independent publicly traded companies: one comprising enterprise technology infrastructure, software, services and financing businesses, which will conduct business as Hewlett Packard Enterprise and one that will comprise printing and personal systems businesses, which will conduct business as HP Inc. The separation is subject to certain conditions, including, among others, obtaining final approval from HP's Board of Directors, receipt of a favorable opinion and/or rulings with respect to the nature of the transaction for federal income tax purposes and filings with the SEC. The separation is expected to be completed before December 31, 2015. Under the separation plan, HP shareholders will own shares of both Hewlett Packard Enterprise and HP Inc. Management has not determined the impact, if any, of the separation, on the Plan.

During 2011, the Company completed its acquisition of Autonomy Corporation plc, and, indirectly, its U.S. subsidiary Microlink, LLC. The Microlink, LLC 401(k) Profit Sharing Plan & Trust (Microlink 401(k) Plan) was merged into the Plan effective December 31, 2014. Microlink 401(k) Plan's net assets totaling approximately \$6.9 million were transferred to the Plan and each participant who had an account balance under the Microlink 401(k) Plan became a participant of the Plan.

Hewlett-Packard Company 401(k) Plan  
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Investments

Assets of the Plan are invested in a five-tier investment structure. Tier 1 includes ten Birth Date Funds and the Conservative Portfolio. The Birth Date Funds' investment strategy is designed to become more conservative as participants grow older. The Conservative Portfolio's investment strategy is designed for a participant who has a low tolerance for risk and/or a shorter time horizon for investing. Tier 2 includes six actively-managed institutional funds from the main asset classes – stocks, bonds, and short-term investments. Tier 3 includes four index funds that seek to mirror a specific market index by investing in similar equities and bonds that the index fund is benchmarked against. Tier 4 includes seven funds in the secondary or specialty asset classes, such as real-return income, commodities, and real estate, including the HP Stock Fund. Tier 5 is a self-directed Mutual Fund Brokerage Window that offers more than 8,500 brand-name mutual funds through an affiliate of Fidelity. All investments are participant-directed. The Plan includes an employee stock ownership plan feature (the ESOP) within the meaning of Section 4975(e)(7) of the Internal Revenue Code of 1986, as amended (the Code). The ESOP is maintained as part of the Plan and is designed to invest primarily in the Company's common stock. The purpose of the ESOP is to permit eligible participants the option of having dividends on the Company's common stock re-invested in the Plan or paid directly to them in cash.

If a participant's account currently has more than 20% invested in the HP Stock Fund, the participant will not be forced to reduce his or her holdings; however, the investment election for ongoing contributions and loan repayments will be limited to a maximum of 20% in the HP Stock Fund, and any percentage above the 20% limit for ongoing contributions will automatically be directed to the appropriate Birth Date Fund based generally on the year the participant was born. In addition, future requested exchanges into the HP Stock Fund will be blocked if the requested change will cause the participant to exceed the 20% limit or if the participant is already at or above the 20% limit. Finally, if the participant chooses to rebalance his or her portfolio, the respective holdings in the HP Stock Fund will be limited to a maximum of 20% regardless of the current investments in the HP Stock Fund.

Contributions

As soon as administratively feasible, employees are automatically enrolled in the Plan at a 3% contribution rate in the Birth Date Fund based generally on the year the employee was born.

Participants may annually contribute, up to 50% of their eligible compensation, as defined by the Plan. Contributions are subject to annual limits specified under the Code. The annual limit was \$17,500 for 2014. Participants who are age 50 or older by the end of the plan year can contribute an additional \$5,500 above the annual limit. Contributions can be made as whole or fractional percentages of eligible compensation. Employees can choose pretax contributions, after-tax Roth 401(k) contributions, or a combination of the two. Both types of contributions are eligible for the Company matching contributions. Catch-up contributions are not eligible for the Company matching contributions.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The Plan also accepts rollover contributions of amounts representing distributions from other qualified defined benefit or defined contribution plans, including amounts from a Roth deferred account, as described in Section 402A(e)(1) of the Code, to the extent the rollover is permitted under Section 402(c) of the Code.

The Company matching contribution is a fixed contribution equal to 100% of the first 4% of eligible earnings a participant contributes each pay period. The Company matching contribution is funded after the end of the fiscal quarter.

In order to receive a Company matching contribution for a fiscal quarter, a participant must be employed on the last day of such fiscal quarter or have terminated employment during such fiscal quarter as a result of such participant's death, termination under a Company-approved severance program, or in connection with a sale or divestiture by the Company of the business unit in which the participant was employed. For Company matching contributions on behalf of a participant who terminated employment under the 2012 U.S. Enhanced Early Retirement Program or the 2014 U.S. Phased Retirement Program, a participant was also eligible for a Company matching contribution for the fiscal quarter in which the participant terminated.

Vesting

Participants are fully vested at all times with regard to their contributions and earnings thereon.

In general, participants are subject to a three-year cliff vesting schedule with regard to Company matching contributions, and earnings thereon, after which time they will become 100% vested in their Company matching contributions, and earnings thereon. In addition, a participant becomes 100% vested in their Company matching contributions, and earnings thereon, at attainment of age 65, death before termination of employment, or becoming eligible for disability benefits under the Company's long-term disability program. Participants are also fully vested in their Company matching contributions, and earnings thereon, if they terminate employment in connection with a sale or divestiture by the Company of the business unit in which the participant had been employed. Additionally, participants were fully vested in their Company matching contributions, and earnings thereon, if they terminated employment under the 2012 U.S. Enhanced Early Retirement Program or the 2014 U.S. Phased Retirement Program.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, applicable Company matching contributions, and plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance and share of net earnings or losses of their respective elected investment options. Allocations are determined in accordance with the provisions of the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Notes Receivable from Participants

The Plan offers two types of loans, which are general-purpose loans and primary residence loans. The repayment period for a general-purpose loan may not exceed five years, and the repayment period for a primary residence loan may not exceed 15 years.

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are secured by the participant's vested account and bear interest at a fixed rate equal to the prevailing prime rate plus 1%. Principal and interest are paid ratably through payroll deductions. Participant loans are classified as notes receivable from participants on the Statements of Net Assets Available for Benefits and are valued at their unpaid principal balance, plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Participants can continue to repay their loans post-termination, as long as they have not taken a distribution from their account.

Forfeitures

If a participant terminates employment before becoming fully vested in their Company matching contributions, the nonvested Company matching contributions (and earnings thereon) are forfeited at the earlier of the date the participant receives a distribution or incurs a five-year break-in-service. Forfeited balances are restored if the participant returns to an eligible status within five years of termination and repays any amount previously distributed. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company matching contributions, restore previously forfeited balances, or pay eligible Plan expenses.

Unallocated forfeiture balances as of December 31, 2014 and 2013, were approximately \$3 million and \$4 million, respectively, and forfeitures used to reduce Company matching contributions for 2014 were approximately \$16 million.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Payment of Benefits

On termination, death, or retirement, participants may elect to receive a lump-sum amount equal to the vested value of their accounts. Lump-sum payments may be made in cash or shares of stock for distribution from the HP Stock Fund. Hardship withdrawals and in-service withdrawals are permitted if certain criteria are met. Participants may also, at any time, withdraw all or part of their rollover accounts. Effective July 1, 2015, a separation of Hewlett Packard Enterprise from the Company will not be deemed a distributable event.

Administrative Expenses and Investment Management Fees

Certain expenses of the Plan for administrative services are paid directly by the Plan, except to the extent the Company chooses to pay such expenses. Each participant is charged a fixed amount of \$34 per year for recordkeeping services. Certain investment management fees related to investment options are paid directly to the Plan's investment managers and are reported separately on the Statement of Changes in Net Assets Available for Benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP).

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 4 for discussion on fair value measurements.

In the normal course of business, the Plan may enter into derivative contracts (derivatives). Derivatives are either exchange-traded or over-the-counter (OTC) contracts. Exchange-traded derivatives are standard contracts traded on a regulated exchange. OTC contracts are private contracts negotiated between counterparties. The Plan has entered into derivatives that include foreign currency forward contracts, option contracts, futures contracts, and interest rate and credit default swaps contracts. See Note 5 for discussion of the Plan's use of derivatives.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Securities Financing

Repurchase agreements are recorded as collateralized financing transactions. The Plan receives collateral with a market value equal to or in excess of the principal amount loaned under the resale agreements. On a daily basis, the Plan manages its risk by calculating the market value of each position and comparing it to the contract amounts, with any difference to be settled by the counterparty. Repurchase agreements are presented gross in the Plan's Statements of Net Assets Available for Benefits.

Benefit Payments

Benefit payments are recorded when paid.

## Hewlett-Packard Company 401(k) Plan

## Notes to Financial Statements (continued)

## 3. Investments

The fair value of individual investments that represent 5% or more of the fair value of the Plan's net assets were as follows:

	December 31,	
	2014	2013
(In thousands)		
Vanguard Primecap Adm Fund	\$1,100,292	\$995,731
Blackrock Russell 1000 Index Fund	1,990,206	1,814,207

For the year ended December 31, 2014, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	(In thousands)
Mutual funds	\$162,635
Common collective trust funds	281,212
Partnership interest	7,285
Exchange-traded funds	(829 )
HP Common Stock	216,550
Common and preferred stock	328,809
Corporate debt	1,585
Foreign obligations	(904 )
U.S. government securities	18,588
State and municipal bond funds	4,456
Self-directed brokerage accounts	4,623
Derivatives	(776 )
Total net realized and unrealized appreciation in the fair value of investments	\$1,023,234

Hewlett-Packard Company 401(k) Plan  
Notes to Financial Statements (continued)

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date.

Fair Value Hierarchy

Valuation techniques used by the Plan are based upon observable and unobservable inputs. Observable or market inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's assumptions about market participant assumptions based on the best information available. Assets and liabilities are classified in the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs for the asset or liability.

The fair value hierarchy gives the highest priority to observable inputs and lowest priority to unobservable inputs.

Valuation Techniques

The following is a description of the valuation techniques used to measure fair value. There were no changes in the techniques used to measure fair value during the year ended December 31, 2014.

Common collective trusts, open-ended mutual funds, money market funds, pooled separate accounts and partnership interest: Valued at the net asset value (NAV) established by the fund's sponsor on the last business day of the plan year, based on the fair value of the assets underlying the funds. There are no redemption restrictions or future commitments on these investments.

Close-ended mutual funds, exchange-traded funds, and common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate debt, U.S. government securities, and foreign obligations: Valued using quoted market prices that are traded in less active markets or quoted market prices for similar instruments.

Hewlett-Packard Company 401(k) Plan  
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Derivative instruments: Listed derivatives, such as futures and exchange-traded options, are valued at the closing prices reported on the active market on which the derivative trades. OTC derivative contracts are privately negotiated contracts with counterparties, including forwards, credit default swaps, and total return swaps. The fair value for OTC derivative contracts is estimated using industry standard valuation models. These models project future cash flows and discount the future amounts to present fair value using market-based observable inputs, including spot and forward prices for foreign currencies, commodities, equities and interest rates, volatility of the underlying credit spreads, interest rate curves and the credit risk of the Plan and the counterparty.

Repurchase agreements: Valued at contract value plus accrued interest, as specified in the respective agreements. The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation techniques are appropriate and consistent with other market participants, the use of different techniques or assumptions to estimate fair value could result in a different fair value measurement at the reporting date.

The Plan does not hold any assets or liabilities classified as Level 3 as of December 31, 2014 and 2013. The Plan does not hold any assets or liabilities that are measured on a nonrecurring basis as of December 31, 2014 and 2013.

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)", which amends ASC 820, Fair Value Measurement. This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-07 is effective for interim and annual reporting periods beginning after December 15, 2015, and will be applied retrospectively to all periods presented. Plan management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

## Hewlett-Packard Company 401(k) Plan

## Notes to Financial Statements (continued)

## 4. Fair Value Measurements (continued)

The following tables set forth the Plan's assets and liabilities at fair value as of December 31, 2014 and 2013, by level, within the fair value hierarchy:

Hewlett-Packard Company 401(k) Plan  
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of assets and liabilities within the fair value hierarchy. Changes in economic conditions, changes in observability of significant inputs, or changes in model-based valuation techniques may require the transfer of an asset or liability between levels of the fair value hierarchy. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2014, there were no transfers between levels.

5. Derivative Financial Instruments

The Plan may enter into derivatives to implement the Plan's asset allocation and investment strategies. All derivatives are included in investments on the Statements of Net Assets Available for Benefits. Certain risks may arise upon entering into a derivative, including, but not limited to, the risk of nonperformance by the Plan or the counterparty. If the derivatives are used to hedge a position, or exposure of the Plan, while the derivative is outstanding, the Plan gives up a portion of the opportunity to profit from favorable market movements in the hedged item or limits a portion of the exposure to losses from unfavorable market movements in the underlying. In the Statements of Net Assets Available for Benefits, the Plan does not offset derivative assets against liabilities where the Plan has a legal right of setoff under a master netting agreement nor does it offset investments at fair value, or other payables for collateral deposits recognized upon payment or receipt of cash collateral against the fair value of the related derivative instruments.

Foreign currency forward contracts may be utilized to hedge a portion of the currency exposure resulting from investments denominated in foreign currencies.

Futures contracts may be used to increase or decrease the exposure to a position.

Swap agreements may be used to exchange or swap investment cash flows, assets, or market-linked returns at specified future intervals with counterparties. Interest rate and credit default swap agreements may be used to manage exposure to interest rate risk and credit risk.

Option contracts may be utilized to hedge exposure to interest rate or market risks.

Hewlett-Packard Company 401(k) Plan  
 Notes to Financial Statements (continued)

5. Derivative Financial Instruments (continued)

The fair value and gross notional amounts of derivative instruments included in the Statements of Net Assets Available for Benefits were as follows:

	December 31, 2014		
	Assets	Liabilities	Notional
	(In thousands)		
Forward contracts	\$6,648	\$ 2,495	\$541,210
Futures contracts	207	489	661,000
Interest rate swaps	3,685	1,517	116,889
Credit default swaps	677	108	51,975
Option contracts	222	388	64,500
	\$11,439	\$ 4,997	\$1,435,574

	December 31, 2013

	(In thousands)		
Forward contracts	\$2,438	\$ 1,570	\$438,282
Futures contracts	1,510	2,282	1,661,300
Interest rate swaps	430	-	15,115
Credit default swaps	171	1,038	22,793
Option contracts	30	470	1,375,800
	\$4,579	\$ 5,360	\$3,513,290

## Hewlett-Packard Company 401(k) Plan

## Notes to Financial Statements (continued)

**5. Derivative Financial Instruments (continued)**

The effects of derivatives on the net realized and unrealized appreciation (depreciation) for the year ended December 31, 2014, presented in thousands, were as follows:

Futures contracts	\$(1,939)
Options contracts	56
Forward contracts	(286 )
Interest rate and credit default swaps	1,393
 Total	 \$(776 )

**6. Master Netting Agreements**

The Plan has executed master netting agreements to mitigate credit exposure to counterparties by permitting the Plan to net certain amounts due from the Plan to a counterparty against amounts due to the Plan from the same counterparty under certain conditions.

As of December 31, 2014 and 2013, information related to the potential effect of the Plan's master netting agreements, included in the Statements of Net Assets Available for Benefits, presented in thousands, was as follows:

(In thousands)	Gross Amounts					
	Gross	Gross	Not Offset			
			Amount	Amount	Financial	Net
December 31, 2014	Recognized	Offset	Presented	Instrument	M&Lateral	Amount
Derivative assets	\$ 11,439	\$ -	\$ 11,439	\$ 3,599	\$ 1,420	\$ 6,420

Repurchase agreements	50,700	-	50,700	-	-	50,700

Hewlett-Packard Company 401(k) Plan

Notes to Financial Statements (continued)

7. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service (IRS) dated November 26, 2014, stating that the Plan is qualified under Section 401(a) of the Code, and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. The Plan is required to operate in conformity with the Code to maintain its qualified status. The plan sponsor has indicated that it will take the necessary steps, if any, to maintain the tax qualified status of the Plan.

Plan management evaluates any uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Related-Party Transactions

The Plan engages in certain transactions involving the Company, BNYM (the trustee), and affiliates of Fidelity, which are parties-in-interest under the provisions of ERISA. These transactions involve the purchase and sale of the Company's common stock and debt, the payment of trustee fees to BNYM, and investments in money market and mutual funds and a self-directed brokerage feature managed by affiliates of Fidelity.

At December 31, 2014 and 2013, the Plan held approximately 17 and 19 million shares, respectively, of common stock of the Company, with fair values of approximately \$684.2 and \$523.8 million, respectively. During 2014, the Plan made purchases of \$17.1 million and sales of \$73.2 million of the Company's common stock. During the year ended December 31, 2014, the Plan recorded dividend income of \$10.6 million from the Company's common stock. Additionally, at December 31, 2014 and 2013, the Plan held \$0 and approximately \$3.7 million, respectively, of the Company's corporate debt.

Trustee and recordkeeping fees paid to BNYM and affiliates of Fidelity were not significant for the year ended December 31, 2014. As of December 31, 2014 and 2013, the Plan held investments issued by affiliates of Fidelity totaling \$178.3 and \$145.7 million, respectively.

## Hewlett-Packard Company 401(k) Plan

## Notes to Financial Statements (continued)

## 9. Risk and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market risks, and credit risks. Due to the level of risk associated with certain investment securities held by the Plan, it is at least reasonably possible that changes in fair value may occur and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

## 10. Reconciliation of Financial Statements to the Form 5500

A reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2014 and 2013, was as follows:

	December 31, 2014	2013
	(In thousands)	
Net assets available for benefits per the financial statements	\$17,608,547	\$16,828,903
Benefits payable to participants at year-end	(5,770 )	(4,422 )
Net assets available for benefits per Form 5500	\$17,602,777	\$16,824,481
Benefits paid to participants per financial statements	\$1,421,739	
Add: Benefits payable to participants at December 31, 2014	5,770	
Less: Benefits payable to participants at December 31, 2013	(4,422 )	
Total benefits paid to participants per the Form 5500	\$1,423,087	

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit payments that have been processed and approved for payment prior to year-end, but not paid as of that date.
