LETTER TO THE SHAREHOLDERS

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

November 29, 2005

Dear Shareholder,

We are pleased to report that for the fiscal year ended October 31, 2005, The Central Europe and Russia Fund increased its net asset value per share by 48.74% in US dollar terms, while its share price rose by 80.71%. The Fund's benchmark¹ rose 37.81% during the same period. Overall, the Central European and Russian region outperformed developed markets again this year: for the same period, the Standard & Poor's (S&P) 500 Index rose 6.8%, and the Morgan Stanley Capital International (MSCI) Europe Index rose 21.5% in US dollar terms.

Over the past year, The Central Europe and Russia Fund increased its exposure to Russian equities, which had underperformed in 2004. In part due to its heavy weighting in the energy sector, the Russian market recovered this year as oil prices reached an all-time high. Within the energy sector, stock selection was a key factor in performance. In particular, the Fund's strong overweight position in Transneft helped performance, and its cautious stance on underperforming stocks Mosenergo and Surgutneftegas further bolstered performance. One of the sectors in which performance has not met our expectations is telecoms. The Fund's position in MTS detracted from performance this year. The Fund continues to diversify its holdings in Russia by adding to its positions in consumer-related stocks, which we believe will be an increasingly important sector in Russia. We believe that the Russian market will continue to be driven by oil prices, but also growing consumer demand and prospects in the banking sector will be key themes. Finally, politics will continue to be an important factor ahead of the 2008 presidential elections.

Throughout the year, one of the Fund's key themes was the banking sector in Turkey. Financial companies Finansbank, Denizbank, Garanti Bank and Isbank (along with several other banks) were among the top 10 performers in the Turkish market during the period under review. The Fund's significant position in each of these companies contributed positively to performance. However, as in Russia, the Fund's exposure to the telecom sector in Turkey did not pay off. The Fund's position in Turkcell detracted from performance, as the share price was hindered by ownership issues. We continue to take a positive stance on investment opportunities in Turkey, based on our belief that the economic outlook and earnings prospects appear favorable, aided by falling finance costs and growing consumer demand. With loans and mortgages showing strong growth, the banking industry continues to be the prime beneficiary of the improving economic environment. Furthermore, banks can benefit from falling interest rates and forthcoming legislation, aimed at increasing access to mortgages for the middle class.

After its strong performance last year, the Central Europe and Russia Fund moved to a more cautious stance on the CE-3 region this year. In particular, the Fund shifted some focus away from the Polish market during the fiscal fourth quarter, which ended October 31, 2005. Nonetheless, one of the strongest contributions to performance during the year came from the Polish real estate company Echo Investments. While the CE-3 markets continued to perform well in 2005, we believe that the risk of profit taking remains, especially given the rich valuations in some markets. (CE-3 refers to Czech Republic, Hungary, and Poland).

The Central Europe and Russia Fund's discount to net asset value averaged 7.5% during the fiscal year ended October 31, 2005, compared with 12.6% for the same period last year.

Special Considerations

The observations in this letter reflect our own opinions and are based on our own analysis, and others may have different opinions. Events may not

transpire as we or they currently expect. Also, while economic events can influence broad market trends, political, monetary and other factors are also relevant to stock performance. In any event, investment results will depend on our success in identifying individual stocks, which are influenced by many factors beyond general economic matters. We cannot predict investment results or whether they will be successful.

Investments in funds involve risks including the loss of principal.

This Fund is not diversified and may focus its investments in certain geographical regions, thereby increasing its vulnerability to developments in that region. Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes and market risks. This may result in greater share price volatility.

Shares of closed-end funds frequently trade at a discount to net asset value. The price of the Fund's shares is determined by a number of factors, several of which are beyond the control of the Fund. Therefore, the Fund cannot predict

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

whether its shares will trade at, below or above net asset value. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering, and once issued, shares of closed-end funds are sold in the open market through a stock exchange.

The Fund will seek to comply with the German tax transparency rules for the fiscal year that ends on October 31, 2005 and therefore qualify as a transparent fund within the meaning of the German fund tax law (InvStG 2004).

INTERVIEW WITH THE CHIEF INVESTMENT OFFICER

Question: Over the past three years the Fund and its benchmark have posted annual NAV returns in excess of 30%. What factors have contributed to the recent strong performance of the Fund and emerging markets in general?

Answer: We are obviously pleased that the Fund has provided investors with such positive returns. Our stock selection process was a key factor in the Fund's performance. Emerging market equities have performed well in the past several years, despite challenges along the way, indicative of the volatility of emerging markets. The generally strong performance has been the result of a variety of factors, including the global growth environment, global emerging markets sentiment, equity valuations and, more recently, commodity prices. For many Eastern European countries, EU membership also played a part in the performance of the equity markets. With growth rates exceeding the developed markets, emerging markets became an increasingly attractive investment destination. It should be noted that the higher returns in these markets also reflect the higher risk associated with them, such as those involving political, economic, currency and regulatory matters. Other factors supported continued investment in emerging markets: For example, structural improvements in emerging markets led to upgrades from the major ratings agencies for the region. In 2005, the Fund's emphasis (50.5% at 10/31/05) on Russian investments was also timely, because Russia benefited from increases in commodity prices, particularly for energy. While mindful of the continuing risks, we remain cautiously optimistic about the markets in Eastern Europe and Russia.

Question: One of the Fund's holdings is Gazprom. Recently, there has been a lot of speculation regarding the removal of Gazprom's so-called ring fence. What does this mean, and what is its significance for investors?

Answer: The Gazprom "ring fence" refers to restrictions on foreign ownership of the company. The Russian Duma, or lower house of parliament, is currently

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

reviewing legislation to remove this so-called ring fence. It is expected that this process will be completed by the end of 2005 or early 2006. The primary significance of this action is that it will increase Gazprom's free float, thereby increasing its weighting in the MSCI Emerging Markets Free Index, a major benchmark for institutional investors. This should generate demand for shares of Gazprom (or substitute Russian equities) as investors seek to reduce the underweight positions caused by the changes to the index, in order to neutralize their exposure to Russian equities.

Question: Poland recently elected a new government. What are the new government's priorities? Will the investment climate change under the new government?

Answer: Ahead of this fall's parliamentary and presidential elections, Polish equities rallied on hopes that the elections would bring a new government with an aggressive reform program. The elections turned out to be closer than expected, with the more market-friendly Civic Platform party coming in second to the Law and Justice party. In addition, hopes for a coalition government between the two parties failed to materialize. Although the final outcome of the elections is less positive than investors had hoped, we expect that the new government may undertake more-aggressive reforms than the outgoing government. The new government has stated its intention to contain the budget deficit to 3% of gross domestic product (GDP) and increase economic growth by 5% next year through increased investment and better use of European Union (EU) funds. However, the new government plans to delay the euro adoption, and privatization of several key companies is less likely to occur under the Law and Justice-led government than would have occurred under a Civic Platform government. Nonetheless, Prime Minister Marcinkiewicz has stated that the new government's priorities include implementation of businessfriendly measures such as simplifying procedures for starting new businesses, targeting corruption and improving efficiency in the courts.

Question: Now that Turkey has begun negotiations with the EU, will the equity market in Turkey be driven by external factors such as developments in the EU, or are internal factors more important?

Answer: Negotiations between Turkey and the EU are expected to continue for a decade, and it is likely that there will be some areas of dispute as the negotiations progress. Given that support in Turkey for EU membership has waned recently and that there has been some discussion of the EU's ultimately extending an offer for a "privileged partnership" in lieu of full membership, we believe there is some scope for continued volatility in the Turkish market related to the EU accession process. However, we also believe that recent reforms have enhanced Turkey's fundamental attractiveness as an investment destination. In addition to macroeconomic reforms, the Turkish government has progressed with its privatization program, and foreign direct investment nearly doubled in the first three quarters of 2005 compared with the same period in 2004. The Turkish banking sector, in particular, has benefited from the improving economic environment, falling interest rates and a budding mortgage market. As a result, we expect consumer demand, foreign investment and further development of the financial sector to be key drivers of the Turkish equity market.

THE CENTRAL EUROPE AND RUSSIA FUND, INC.
NOTES TO FINANCIAL STATEMENTS--OCTOBER 31, 2005

NOTE 1. ACCOUNTING POLICIES

The Central Europe and Russia Fund, Inc. is a non-diversified, closed-end management investment company incorporated in Maryland. The Fund commenced investment operations on March 6, 1990.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Security Valuation: Investments are stated at value. All securities for which market quotations are readily available are valued at the last sales price on the primary exchange on which they are traded prior to the time of valuation. If no sales price is available at that time, and both bid and ask prices are available, the securities are valued at the mean between the last current bid and ask prices; if no quoted asked prices are available, they are valued at the last quoted bid price. All securities for which market quotations are not readily available will be valued as determined in good faith by the Board of Directors of the Fund. The Fund calculates its net asset value per share at 11:30 A.M., New York time, in order to minimize the possibility that events occurring after the close of the securities exchanges on which the Fund's portfolio securities principally trade would require adjustment to the closing market prices in order to reflect fair value.

Securities Transactions and Investment Income: Securities transactions are recorded on the trade date. Cost of securities sold is calculated using the identified cost method. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Such dividend income is recorded net of unrecoverable foreign withholding tax.

Securities Lending: The Fund may lend securities to financial institutions. The Fund retains beneficial ownership of the securities it has loaned and continues to receive interest and dividends paid by the securities and to participate in any changes in their market value. The Fund requires the borrowers of the securities to maintain collateral with the Fund consisting of liquid,

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

unencumbered assets having a value at least equal to or greater than the "Margin Percentage" of the value of the securities loaned. "Margin Percentage" shall mean (i) for collateral which is denominated in the same currency as the loaned securities, 102%, and (ii) for collateral which is denominated in a currency different from that of the loaned securities, 105%. The Fund may invest the cash collateral into a joint trading account in an affiliated money market fund pursuant to Exemptive Orders issued by the SEC. The Fund receives compensation for lending its securities either in the form of fees or by earning interest on invested cash collateral net of fees paid to a lending agent. Either the Fund or the borrower may terminate the loan. The Fund is subject to all investment risks associated with the value of any cash collateral received, including, but not limited to, interest rate, credit and liquidity risk associated with such investments.

Foreign Currency Translation: The books and records of the Fund are maintained in United States dollars.

Assets and liabilities denominated in euros and other foreign currency are translated into United States dollars at the 11:00 A.M. mid-point of the buying and selling spot rates quoted by the Federal Reserve Bank of New York. Purchases and sales of investment securities, income and expenses are reported at the rate of exchange prevailing on the respective dates of such transactions. The resultant gains and losses arising from exchange rate fluctuations are identified separately in the Statement of Operations, except for such amounts attributable to investments, which are included in net realized and unrealized gains and losses on investments.

Contingencies: In the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

Taxes: No provision has been made for United States Federal income tax because the Fund intends to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders.

Dividends and Distributions to Shareholders: The Fund records dividends and distributions to its shareholders on the ex-dividend date. Income and capital gain distributions are determined in accordance with United States Federal income tax regulations which may differ from accounting principles generally accepted in the United States of America. These

differences, which could be temporary or permanent in nature, may result in reclassification of distributions; however, net investment income, net realized gains and net assets are not affected.

At October 31, 2005, the Fund's components of distributable earnings (accumulated losses) on a tax-basis were as follows:

Undistributed ordinary income*	\$ 5,533,934
Undistributed net long-term capital gains	\$ 25,563,226
Capital loss carryforward	--

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

*For tax purposes short-term capital gains are considered ordinary income.

During the year ended October 31, 2005, the Fund reclassified permanent book and tax differences as follows:

NOTE 2. MANAGEMENT AND INVESTMENT ADVISORY AGREEMENTS

The Fund has a Management Agreement with Deutsche Investment Management Americas Inc. (the "Manager.") The Fund has an Investment Advisory Agreement with Deutsche Asset Management International GmbH (the "Investment Adviser.") The Manager and the Investment Adviser are affiliated companies.

The Management Agreement provides the Manager with a fee, computed weekly and payable monthly, at the annual rates of .65% of the Fund's average weekly net assets up to \$100 million, and .55% of such assets in excess of \$100 million. The Investment Advisory Agreement provides the Investment Adviser with a fee, computed weekly and payable monthly, at the annual rates of .35% of the Fund's average weekly net assets up to \$100 million and .25% of such assets in excess of \$100 million. Accordingly, for the period ended October 31, 2005, the fee pursuant to the Management and Investment Advisory Agreements was equivalent to an annual effective rate of .86% of the Fund's average net assets.

Pursuant to the Management Agreement, the Manager is the corporate manager and administrator of the Fund and, subject to the supervision of the Board of Directors and pursuant to recommendations made by the Fund's Investment Adviser, determines the suitable securities for investment by the Fund. The Manager also provides office facilities and certain administrative, clerical and bookkeeping services for the Fund. Pursuant to the Investment Advisory Agreement, the Investment Adviser, in accordance with the Fund's stated investment objective, policies and restrictions, makes recommendations to the Manager with respect to the Fund's investments and, upon instructions given by the Manager as to suitable securities for investment by the Fund, transmits purchase and sale orders to select brokers and dealers to execute portfolio transactions on behalf of the Fund.

NOTE 3. TRANSACTIONS WITH AFFILIATES

Certain officers of the Fund are also officers of either the Manager or Deutsche Bank AG.

The Fund pays each Director not affiliated with the Manager retainer fees plus specified amounts for attended board and committee meetings.

NOTE 4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than shortterm investments, for the year ended October 31, 2005 were \$106,076,536 and \$105,706,792, respectively.

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

Federal income tax purposes. Accordingly, as of October 31, 2005, net unrealized appreciation of investments aggregated \$211,776,898, of which \$213,731,297 and \$1,954,399 related to unrealized appreciation and depreciation, respectively.

The Fund utilized \$3,492,000 of prior year capital loss carryforwards.

NOTE 5. INVESTING IN FOREIGN MARKETS

Foreign investments may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among others, the possibility of political and economic developments and the level of governmental supervision and regulation of foreign securities markets. In addition, certain foreign markets may be substantially smaller, less developed, less liquid and more volatile than the major markets of the United States.

NOTE 6. CAPITAL

During the year ended October 31, 2004, the Fund purchased 97,300 of its shares of common stock in the open market at a total cost of \$2,074,803. The weighted average discount of these purchased shares comparing the purchased price to the net asset value at the time of purchase was 9.35%. These shares are held in treasury. The Fund had no capital stock repurchase activity for the period ended October 31, 2005.

NOTE 7. RIGHTS OFFERING

On November 10, 2005, the Fund filed with the Securities and Exchange Commission a preliminary registration statement for a rights offering to the Fund's shareholders. The rights offering will commence only upon further approval by the Fund's Board of Directors and remains subject to market conditions.

require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at October 31, 2005 by correspondence with the custodian provide a reasonable basis for our opinion.

A more complete description of the Plan is provided in the Plan brochure available from Investors Bank & Trust Company, the plan agent (the "Plan Agent"), Shareholder Services, P. O. Box 9130, Boston, Massachusetts 02117 (telephone 1-800-437-6269). A shareholder should read the Plan brochure carefully before enrolling in the Plan.

Under the Plan, participating shareholders ("Plan Participants") appoint the Plan Agent to receive or invest Fund distributions as described below under "Reinvestment of Fund Shares." In addition, Plan Participants may make optional cash purchases through the Plan Agent as often as once a month as described below under "Voluntary Cash Purchases." There is no charge to Plan Participants for participating in the Plan, although when shares are purchased under the Plan by the Plan Agent on the New York Stock Exchange or otherwise on the open market, each Plan Participant will pay a pro rata share of brokerage commissions incurred in connection with such purchases, as described below under "Reinvestment of Fund Shares" and "Voluntary Cash Purchases."

Reinvestment of Fund Shares. Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable, at the election of shareholders, either in cash or in Fund shares, or payable only in cash, the Plan Agent shall automatically elect to receive Fund shares for the account of each Plan Participant.

Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable only in cash and the net asset value per share of the Fund's common stock equals or is less than the market price per share on the valuation date (the "Market Parity or Premium"), the Plan Agent shall apply the amount of such dividend or distribution payable to a Plan Participant to the purchase from the Fund of Fund Shares for a Plan Participant's account, except that if the Fund does not offer shares for such purpose because it concludes Securities Act registration would be required and such registration cannot be timely effected or is not otherwise a cost-effective alternative for the Fund, then the Plan Agent shall follow the procedure described in the next paragraph. The number of additional shares to be credited to a Plan Participant's account shall be determined by dividing the dollar amount of the distribution payable to a Plan Participant by the net asset value per share of the Fund's common stock on the valuation date, or if the net asset value per share is less than 95% of the market price per share on such date, then by 95% of the market price per share. The valuation date will be the

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

payable date for such dividend or distribution.

Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable only in cash and the net asset value per share of the Fund's common stock exceeds the market price per share on the valuation date (the "Market Discount"), the Plan Agent shall apply the amount of such dividend or distribution payable to a Plan Participant (less a Plan Participant's pro rata share of brokerage commissions incurred with respect to open-market purchases in connection with the reinvestment of such dividend or distribution) to the purchase on the open market of Fund shares for a Plan Participant's account. The valuation date will be the payable date for such dividend or distribution. Such purchases will be made on or shortly after the valuation date and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws.

The Plan Agent may aggregate a Plan Participant's purchases with the purchases of other Plan Participants, and the average price (including brokerage commissions) of all shares purchased by the Plan Agent shall be the price per share allocable to each Plan Participant.

For all purposes of the Plan, the market price of the Fund's common stock on a payable date shall be the last sales price on the New York Stock Exchange on that date, or, if there is no sale on such Exchange (or, if different, the principal exchange for Fund shares) on that date, then the mean between the closing bid and asked quotations for such stock on such Exchange on such date. The net asset value per share of the Fund's common stock on a valuation date shall be as determined by or on behalf of the Fund.

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (unaudited) (continued)

The Plan Agent may hold a Plan Participant's shares acquired pursuant to the Plan, together with the shares of other Plan Participants acquired pursuant to this Plan, in non-certificated form in the name of the Plan Agent or that of a nominee. The Plan Agent will forward to each Plan Participant any proxy solicitation material and will vote any shares so held for a Plan Participant only in accordance with the proxy returned by a Plan Participant to the Fund. Upon a Plan Participant's written request, the Plan Agent will deliver to a Plan Participant, without charge, a certificate or certificates for the full shares held by the Plan Agent.

Voluntary Cash Purchases. Plan Participants have the option of making investments in Fund shares through the Plan Agent as often as once a month. Plan Participants may invest as little as \$100 in any month and may invest up to \$36,000 annually through the voluntary cash purchase feature of the Plan.

The Plan Agent shall apply such funds (less a Plan Participant's pro rata share of brokerage commissions or other costs, if any) to the purchase on the New York Stock Exchange (or, if different, on the principal exchange for Fund shares) or otherwise on the open market of Fund shares for such Plan Participant's account, regardless of whether there is a Market Parity or Premium or a Market Discount. The Plan Agent will purchase shares for Plan Participants on or about the 15th of each month. Cash payments received by the Plan Agent less than five business days prior to a cash purchase investment date will be held by the Plan Agent until the next month's investment date. Uninvested funds will not bear interest. Plan Participants may withdraw any voluntary cash payment by written notice received by the Plan Agent not less than 48 hours

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

before such payment is to be invested.

Enrollment and Withdrawal. Both current shareholders and first-time investors in the Fund are eligible to participate in the Plan. Current shareholders may join the Plan by either enrolling their shares with the Plan Agent or by making an initial cash deposit of at least \$250 with the Plan Agent. First-time investors in the Fund may join the Plan by making an initial cash deposit of at least \$250 with the Plan Agent. In order to become a Plan Participant, shareholders must complete and sign the enrollment form included in the Plan brochure and return it, and, if applicable, an initial cash deposit of at least \$250 directly to the Plan Agent if shares are registered in their name. Shareholders who hold Fund shares in the name of a brokerage firm, bank or other nominee should contact such nominee to arrange for it to participate in the Plan on such shareholder's behalf.

If the Plan Participant elects to participate in the Plan by enrolling current shares owned by the Plan Participant with the Plan Agent, participation in the dividend reinvestment feature of the Plan begins with the next dividend or capital gains distribution payable after the Plan Agent receives the Plan Participant's written authorization, provided such authorization is received by the Plan Agent prior to the record date for such dividend or distribution. If such authorization is received after such record date, the Plan Participant's participation in the dividend reinvestment feature of the Plan begins with the following dividend or distribution.

If the Plan Participant elects to participate in the Plan by making an initial cash deposit of at least \$250 with the Plan Agent, participation in the dividend reinvestment feature of the Plan begins with the next dividend or capital gains distribution payable after the Plan Agent receives the Plan Participant's authorization and deposit, and after the Plan Agent purchases shares for the Plan Participant on the New York Stock Exchange (or, if different, on the principal exchange for Fund shares) or otherwise on the open market, provided that the authorization and deposit are received, and the purchases are made by the Plan Agent prior to the record date. If such authorization and deposit are received after the record date, or if the Plan Agent purchases shares for the Plan Participant after the record date, the Plan Participant's participation in the dividend reinvestment feature of the Plan begins with the following dividend or distribution.

A shareholder's written authorization and cash payment must be received by the Plan Agent at least five business days in advance of the next cash purchase investment date (normally the 15th of every month) in order for the Plan Participant to participate in the voluntary cash purchase feature of the Plan in that month.

23

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (unaudited) (continued)

Plan Participants may withdraw from the Plan without charge by written notice to the Plan Agent. Plan Participants who choose to withdraw may elect to receive stock certificates representing all of the full shares held by the Plan Agent on their behalf, or to instruct the Plan Agent to sell such full shares and distribute the proceeds, net of brokerage commissions, to such withdrawing Plan Participant. Withdrawing Plan Participants will receive a cash adjustment for the market value of any fractional shares held on their behalf at the time of termination. Withdrawal will be effective immediately with respect to distributions with a record date not less than 10 days later than receipt of such written notice by the Plan Agent.

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

Amendment and Termination of Plan. The Plan may only be amended or supplemented by the Fund or by the Plan Agent by giving each Plan Participant written notice at least 90 days prior to the effective date of such amendment or supplement, except that such notice period may be shortened when necessary or appropriate in order to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory body.

The Plan may be terminated by the Fund or by the Plan Agent by written notice mailed to each Plan Participant. Such termination will be effective with respect to all distributions with a record date at least 90 days after the mailing of such written notice to the Plan Participants.

Federal Income Tax Implications of Reinvestment of Fund Shares. Reinvestment of Fund shares does not relieve Plan Participants from any income tax which may be payable on dividends or distributions. For U.S. federal income tax purposes, when the Fund issues shares representing an income dividend or a capital gains dividend, a Participant will include in income the fair market value of the shares received as of the payment date, which will be ordinary dividend income or capital gains, as the case may be. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the date of distribution. If shares are purchased on the open market by the Plan Agent, a Plan Participant will include in income the amount of the cash payment made. The basis of such shares will be the purchase price of the shares, and the holding period for the shares will begin on the day following the date of purchase. State, local and foreign taxes may also be applicable.

INVESTMENT MANAGEMENT AGREEMENT AND INVESTMENT ADVISORY AGREEMENT APPROVAL

The Fund's directors unanimously approved the continuance of the management agreement between the Fund and Deutsche Investment Management Americas, Inc. ("DIMA") and the investment advisory agreement between the Fund and Deutsche Asset Management International GmbH ("DeAMI") (together called the "agreements") at a meeting held on July 17, 2005.

In preparation for the meeting, the directors had requested and evaluated extensive materials from DIMA and DeAMI, including performance and expense information for other investment companies with similar investment objectives derived from data compiled by Lipper Inc. ("Lipper"). Prior to voting, the directors reviewed the proposed continuance of the agreements with management and with experienced counsel who are independent of DIMA and DeAMI and received a memorandum from such counsel discussing the legal standards for their consideration of the proposed continuance. The directors also discussed the proposed continuance in a private session with counsel at which no representatives of DIMA or DeAMI were present. In reaching their determination relating to continuance of the agreements, the directors considered all factors they believed relevant, including the following:

1. information comparing the Fund's performance to other investment companies with similar investment objectives and to an index;
2. the nature, extent and quality of investment and administrative services rendered by DIMA and DeAMI;
3. payments received by DIMA and DeAMI from all sources in respect to the Fund and all investment companies in the Deutsche/Scudder family of funds;
4. the costs borne by, and profitability of, DIMA and Investment Adviser and their affiliates in providing services to the Fund and to all investment companies in the Deutsche/Scudder family of funds;
5. comparative fee and expense data for the Fund and other investment companies with similar investment objectives;
6. the extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of investors;

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

7. DIMA's and DeAMI's policies and practices regarding allocation of the Fund's portfolio transactions, including the extent, if any, to which DIMA and DeAMI benefit from soft dollar arrangements;
8. the Fund's portfolio turnover rates compared to those of other investment companies with similar investment objectives;
9. fall-out benefits which DIMA, DeAMI and their affiliates receive from their relationships with the Fund;
10. the professional experience and qualifications of the Fund's portfolio management team and other senior personnel of DIMA and DeAMI; and
11. the terms of the agreements.

The directors also considered their knowledge of the nature and quality of the services provided by DIMA and DeAMI to the Fund gained from their experience as directors of The European Equity Fund and, where relevant, The New Germany Fund and other Deutsche/Scudder funds, their confidence in DIMA's and DeAMI's integrity and competence gained from that experience and DIMA's and DeAMI's responsiveness to concerns raised by them in the past, including DIMA's and DeAMI's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the Fund.

In their deliberations, the directors did not identify any particular information that was all-important or controlling, and each director attributed different weights to the various factors.

The directors determined that the overall arrangements between the Fund and DIMA, as provided in the management agreement, and between the Fund and DeAMI, as provided in the investment advisory agreement, were fair and reasonable in light of the services performed, expenses incurred and such other matters as the directors considered relevant in the exercise of their reasonable judgment.

The material factors and conclusions that formed the basis for the directors' reaching their determination to approve the continuance of the agreements (including their determinations that DIMA and DeAMI should continue in those roles for the Fund, and that the fees payable to DIMA and DeAMI pursuant to the agreements are appropriate) were separately discussed by the directors.

Nature, Extent and Quality of Services Provided by DIMA and DeAMI

The directors noted that, under the management agreement, DIMA acts as our corporate manager and administrator and, subject to the supervision of our board of directors and pursuant to recommendations made by DeAMI, determines suitable securities for investment by the Fund. Under the investment advisory agreement, DeAMI, in accordance with the Fund's investment objectives, policies and limitations, makes recommendations with respect to the Fund's investments and, upon instructions given by DIMA as to

INVESTMENT MANAGEMENT AGREEMENT AND INVESTMENT ADVISORY AGREEMENT
APPROVAL (continued)

suitable securities for investment by the Fund, transmits purchase and sale orders and selects brokers and dealers to execute portfolio transactions on the

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

Fund's behalf. Under the management agreement, DIMA also handles the Fund's relationships with shareholders, is responsible for compliance with regulatory and NYSE listing requirements, negotiates arrangements with third party service providers, provides Fund directors with relevant reports, prepares the Fund's tax returns and SEC and shareholder reports, calculates dividends and net asset value, oversees payment of the Fund's expenses and maintains books and records. DIMA also provides the Fund with such office facilities and executive and other personnel adequate to perform its services. DIMA pays all of the compensation of our directors and officers who are interested persons of DIMA.

The directors considered the scope and quality of services provided by DIMA and DeAMI under the agreements and noted that the scope of services provided had expanded over time as a result of regulatory and other developments. The directors noted that, for example, DIMA is responsible for maintaining and monitoring its own and the Fund's compliance programs, and these compliance programs have recently been refined and enhanced in light of new regulatory requirements. The directors considered the quality of the investment research capabilities of DIMA and DeAMI and the other resources they have dedicated to performing services for the Fund. The quality of administrative and other services, including DIMA's role in coordinating the activities of the Fund's other service providers, also were considered. The directors concluded that, overall, they were satisfied with the nature, extent and quality of services provided (and expected to be provided) to the Fund under the agreements.

Costs of Services Provided and Profitability to DIMA and DeAMI

At the request of the directors, DIMA provided information concerning profitability of DIMA's and DeAMI's respective investment advisory and investment company activities and their financial condition based on historical information for 2003 and 2004. The directors reviewed with DIMA assumptions and methods of allocation used by DIMA and DeAMI in preparing Fund specific profitability data. DIMA stated its belief that the methods of allocation used were reasonable, but it noted that there are limitations inherent in allocating costs to multiple individual advisory clients served by an organization such as DIMA and DeAMI where each of the advisory clients draws on, and benefits from, the research and other resources of the Deutsche Bank organization. The directors recognized that it is difficult to make comparisons of profitability from fund management contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. In considering profitability information, the directors considered the effect of possible fall-out benefits, on DIMA's and DeAMI's expenses, including any affiliated brokerage commissions.

The directors noted that during 2003 DIMA and DeAMI revised their soft dollar practices to discontinue using soft dollars to receive third party research from brokers that execute purchases and sales of securities for us, and formalized this change in their policies in 2004. DIMA and DeAMI may continue to allocate brokerage to receive research generated by executing brokers and to receive other information services. The directors also noted that in 2004 DIMA and DeAMI revised their policies to prohibit consideration of the sale of shares of Deutsche/Scudder funds when selecting broker dealers to execute portfolio transactions for the Fund or other Deutsche/Scudder funds.

The directors recognized that DIMA and DeAMI should, in the abstract, each be entitled to earn a reasonable level of profits for the services it provides to us and, based on their review, concluded that DIMA's and DeAMI's levels of profitability from its relationship with the Fund were not excessive.

Investment Results

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

In addition to the information received by the directors for the meeting, the directors receive detailed performance information for the Fund at each regular board meeting during the year. The directors reviewed information showing the Fund's performance compared to that of other European Closed End Funds compiled by Lipper, plus three other equity oriented closed end country funds managed by affiliates of DIMA and DeAMI (a total of 12 funds, including us). The directors also reviewed information showing performance of the Fund's benchmark index, currently a blend of 45% CECE index of 26 Central European stocks, 45% RTX index of 8 Russian stocks and 10% ISE 30 index of 30 Turkish stocks.

27

INVESTMENT MANAGEMENT AGREEMENT AND INVESTMENT ADVISORY AGREEMENT APPROVAL (continued)

The comparative information showed that the Fund ranked in the top half for the one-, three-, five- and 10-year periods ended March 31, 2005. The Fund's results were significantly positive in absolute terms, and exceeded our benchmark in 2003 and 2004. The Fund exceeded its benchmark in two of the five years 1998-2002. (Comparisons prior to 1998 are not meaningful because until then the Fund had a purely German focus.) The Fund also exceeded its benchmark in each of the first two quarters of 2005. Taking into account these comparisons and the other factors considered, including the excellent performance since the Fund increased emphasis on Russian investments that began in mid-2003, the directors concluded that the Fund's investment results over time were satisfactory.

Management and Investment Advisory Fees and Other Expenses

The directors considered the management and investment advisory fee rates paid by us to DIMA and DeAMI. The directors recognized that it is difficult to make comparisons of management and advisory fees because there are variations in the services that are included in the fees paid by other funds. The Fund's peer group consisted of the 12 closed end country funds described above in "Investment Results." The information showed that the Fund's current effective management fee rate of 0.884% was the lowest in the peer group and significantly below the average and the median for the peer group. The directors noted that the Fund's effective fee rate reflects the effect of breakpoints.

The directors also considered the Fund's total expense ratio in comparison to the fees and expenses of funds within its peer group. The directors recognized that the expense ratio information for the Fund potentially reflected on DIMA's provision of services, as DIMA is responsible for coordinating services provided to the Fund by others.

The directors also noted that the Fund's expense ratio was the third lowest of the peer group. DIMA explained that this difference was principally the result of our relatively low management and investment advisory fee and the Fund's relatively large asset base. The directors concluded that the Fund's expense ratio was highly satisfactory.

Economies of Scale

The directors noted that the Fund's management fee and investment advisory schedules do contain breakpoints that reduce the fee rate on assets above specified levels. The directors recognized that breakpoints may be an appropriate way for DIMA and DeAMI to share their economies of scale with some funds that have substantial assets or that may grow materially over the next year. However, they also recognized that there is no direct relationship between

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

the economies of scale realized by funds and those realized by DIMA and DeAMI as assets increase, largely because economies of scale are realized (if at all) by DIMA and DeAMI across a variety of products and services, and not only in respect of a single fund. Having taken these factors into account, the directors concluded that the Fund's breakpoint arrangements were acceptable under the Fund's circumstances.

ITEM 2. CODE OF ETHICS.

As of the end of the period, October 31, 2005, Central Europe and Russia Fund, Inc. has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Principal Executive Officer and Principal Financial Officer.

There have been no amendments to, or waivers from, a provision of the code of ethics during the period covered by this report that would require disclosure under Item 2.

A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Board of Directors has determined that the Fund has at least one "audit committee financial expert" serving on its audit committee: Mr. Robert H Wadsworth and John H. Cannon. Each of these audit committee members is "independent," meaning that he is not an "interested person" of the Fund (as that term is defined in Section 2(a) (19) of the Investment Company Act of 1940) and he does not accept any consulting, advisory, or other compensatory fee from the Fund (except in the capacity as a Board or committee member).

Edgar Filing: CENTRAL EUROPE & RUSSIA FUND INC - Form N-CSR

An "audit committee financial expert" is not an "expert" for any purpose, including for purposes of Section 11 of the Securities Act of 1933, as a result of being designated as an "audit committee financial expert." Further, the designation of a person as an "audit committee financial expert" does not mean that the person has any greater duties, obligations, or liability than those imposed on the person without the "audit committee financial expert" designation. Similarly, the designation of a person as an "audit committee financial expert" does not affect the duties, obligations, or liability of any other member of the audit committee of board of directors.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

PROXY VOTING GUIDELINES

The Fund has delegated proxy voting responsibilities to its investment advisor, subject to the Board's general oversight. The Fund has delegated proxy voting to the advisor with the direction that proxies should be voted consistent with the

Fund's best economic interests. The advisor has adopted its own Proxy Voting Policies and Procedures ("Policies"), and Proxy Voting Guidelines ("Guidelines") for this purpose. The Policies address, among other things, conflicts of interest that may arise between the interests of the Fund, and the interests of the advisor and its affiliates, including the Fund's principal underwriter. The Guidelines set forth the advisor's general position on various proposals, such as:

- o Shareholder Rights -- The advisor generally votes against proposals that restrict shareholder rights.
- o Corporate Governance -- The advisor generally votes for confidential and cumulative voting and against supermajority voting requirements for charter and bylaw amendments.
- o Anti-Takeover Matters -- The advisor generally votes for proposals that require shareholder ratification of poison pills or that request boards to redeem poison pills, and votes "against" the adoption of poison pills if they are submitted for shareholder ratification. The advisor generally votes for fair price proposals.
- o Routine Matters -- The advisor generally votes for the ratification of auditors, procedural matters related to the annual meeting, and changes in company name, and against bundled proposals and adjournment.

The general provisions described above do not apply to investment companies. The advisor generally votes proxies solicited by investment companies in accordance with the recommendations of an independent third-party, except for proxies solicited by or with respect to investment companies for which the advisor or an affiliate serves as investment advisor or principal underwriter ("affiliated investment companies"). The advisor votes affiliated investment company proxies in the same proportion as the vote of the investment company's other shareholders (sometimes called "mirror" or "echo" voting). Master fund proxies solicited from feeder funds are voted in accordance with applicable requirements of the Investment Company Act of 1940.

Although the Guidelines set forth the advisor's general voting positions on various proposals, the advisor may, consistent with the Fund's best interests, determine under some circumstances to vote contrary to those positions.

The Guidelines on a particular issue may or may not reflect the view of individual members of the board, or of a majority of the board. In addition, the Guidelines may reflect a voting position that differs from the actual practices of the public companies within the Deutsche Bank organization or of the investment companies for which the advisor or an affiliate serves as investment advisor or sponsor.

The advisor may consider the views of a portfolio company's management in deciding how to vote a proxy or in establishing general voting positions for the Guidelines, but management's views are not determinative.

As mentioned above, the Policies describe the way in which the advisor resolves conflicts of interest. To resolve conflicts, the advisor, under normal circumstances, votes proxies in accordance with its Guidelines. If the advisor departs from the Guidelines with respect to a particular proxy or if the Guidelines do not specifically address a certain proxy proposal, a proxy voting committee established by the advisor will vote the proxy. Before voting any such proxy, however, the advisor's conflicts review committee will conduct an investigation to determine whether any potential conflicts of interest exist in connection with the particular proxy proposal. If the conflicts review committee determines that the advisor has a material conflict of interest, or certain individuals on the proxy voting committee should be recused from participating in a particular proxy vote, it will inform the proxy voting committee. If notified that the advisor has a material conflict, or fewer than three voting members are eligible to participate in the proxy vote, typically the advisor will engage an independent third party to vote the proxy or follow the proxy voting recommendations of an independent third party. Under certain circumstances, the advisor may not be able to vote proxies or the advisor may find that the expected economic costs from voting outweigh the benefits associated with voting. For example, the advisor may not vote

proxies on certain foreign securities due to local restrictions or customs. The advisor generally does not vote proxies on securities subject to share blocking restrictions.
