Portfolio Managers' PERSPECTIVE

The Nuveen Real Estate Income Fund is subadvised by a team of real estate investment professionals at Security Capital Research & Management Incorporated, a part of JPMorgan Fleming Asset Management, which is the asset management business of JPMorgan Chase & Co. Tony Manno and Ken Statz, who each have more than 21 years' experience in managing real estate investments, lead the team. Here they review the economic environment, key investment strategies and performance of the Fund for the 12-month period ended December 31, 2004.

WHAT WERE THE GENERAL ECONOMIC AND MARKET CONDITIONS DURING THE YEAR ENDED DECEMBER 31, 2004?

Entering the year, a prolonged period of economic weakness had left many commercial real estate operating markets and property sectors around the United States under significant stress. Especially affected were those sectors for which business investment and job creation play a key role in creating and sustaining marginal demand, such as office buildings and hotels. In contrast, malls and smaller shopping centers, which tend to be more influenced by consumer behavior, continued to experience healthy operating fundamentals.

Throughout 2004, U.S. economic activity improved. New jobs began to emerge with consistency, raising the possibility that, from an operating perspective, a new cycle may be beginning for the hardest hit real estate property types. New supply additions remained largely in balance during the recent downturn, leading some to believe that any increases in demand as the economy improves may ultimately lead to higher occupancy levels. This, in turn, could mean potentially increased cash flow and dividend coverage for many real estate operating companies.

Accompanying these developments was a shift toward higher interest rate expectations by many market participants. In particular, we believe factors like the Federal Reserve's five increases in the fed funds rate over the course of 2004 had a dramatic affect on the actions and expectations of shorter-term-focused real estate securities investors. (On February 2, 2005, after the close of this reporting period, the Federal Reserve raised the fed funds rate by another 0.25% to 2.50%.) As a result, we saw unusually high volatility and trading volumes for real estate securities at various times throughout the year, and there was a significant dispersion of overall performance among property and security types.

4

WITHIN THIS ENVIRONMENT, WHAT WAS YOUR OVERALL MANAGEMENT STRATEGY AND WHAT WERE SOME OF THE PRIMARY TACTICS?

During 2004, we continued to focus on identifying and owning securities that we believed were best positioned to generate sustainable income and potential price appreciation. In managing the Fund's portfolio, we sought to maintain significant diversification while taking into account credit quality issues, sector and geographic exposure, and allocations among various types of securities. Every trading decision was based on a multi-layered analysis of the company, the real estate it owned, its management, and the relative price of the security.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

The ability to shift allocations between preferred and common stocks based on the relative attractiveness of these two distinct markets was an important tactic in managing JRS for income and long-term capital appreciation. As operating fundamentals began to turn the corner in 2004, our research indicated a shift in the risk and reward characteristics of common stocks versus preferred stocks. Acting on this analysis, especially in the latter half of the year, we tilted the portfolio toward common stocks, especially those of companies that we thought exhibited the greatest potential in an improving economy. From January 1, 2004 to December 31, 2004, the allocation toward common stocks increased from 65% of investments to 73%.

HOW DID THE FUND PERFORM?

Fund performance results, as well as the performance of a relevant index, are shown in the accompanying table.

TOTAL RETURNS ON NET ASSET VALUE

For the 12-month period ended December 31, 2004

JRS	30.12%
-----	--------

Dow Jones Wilshire

Real Estate Securities

Index ¹	34.81%
--------------------	--------

Past performance does not guarantee future results. Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares.

The Fund provided a very attractive total return on net asset value over the 12-month period, although its performance trailed the Dow Jones Wilshire index. Most of the gains

- 1 The Dow Jones Wilshire Real Estate Securities Index is an unmanaged index comprised of publicly-traded REITs and other real estate operating companies.

in the Fund and the index occurred in the last six months of the year as the economy continued to improve.

Since 2003, we had been gradually and selectively shifting the portfolio's property type weightings from a largely defensive posture to one that we think better positions it with respect to a growing economy. From January 1 to December 31, 2004, this resulted in an increase in our allocation toward more cyclically sensitive mall and apartment companies (from 12.9% to 14.1% of the portfolio, and from 17.3% to 19.3%, respectively), and a decrease in the allocation to the more defensive office buildings and shopping center sectors (from 37.7% to 30.4% of the portfolio, and from 12.2% to 7.2%, respectively).

Returns by property sector in 2004 began to reflect the value of this strategic shift. According to the Dow Jones Wilshire Real Estate Securities Index, mall companies outperformed substantially in 2004 relative to the wider real estate securities universe, while office companies underperformed. Apartment companies generally performed in line with the universe - however, the portfolio's

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

specific holdings in this area generally outperformed.

At the same time, the portfolio's selections among diversified companies (i.e. those not specializing in any one property type) did not perform nearly as well as the rest of the universe, and consequently negatively impacted the Fund's total return performance over this period.

While much of our emphasis was on finding attractive REIT common stocks, REIT preferred stock remained an important component of the income and appreciation performance of JRS. REIT preferred stocks are not included in the Dow Jones Wilshire index. While we believe REIT preferred stocks helped the Fund's overall risk profile, they did create a small drag on performance when compared with an all common stock REIT and real estate index.

Another factor benefiting Fund performance over the past year was the Fund's use of financial leverage. Using this strategy, the Fund effectively borrowed money by issuing Taxable Auctioned Preferred shares that paid shorter-term rates and invested those proceeds in its portfolio of real estate company common stocks and preferred stocks.

6

While this strategy had the potential to add volatility to the Fund's NAV and share price, this leveraging substantially enhanced total returns during the period by amplifying the already strong return performance of the Fund's portfolio investments.

HOW ABOUT THE FUND'S MONTHLY DISTRIBUTIONS AND SHARE PRICE?

The Fund's financial leverage, described immediately above, can increase share price volatility, but also can enhance Fund returns and supplement the income available to pay common shareholder distributions. This leveraging strategy provided incremental income and helped enhance shareholder distributions over the 12-month period.

On September 1, 2004, the Fund announced that it had adopted a managed distribution policy. Under this policy, the Fund's monthly distributions now are determined based primarily on investment income generated by its underlying securities as well as on realized capital gains and/or returns of capital representing unrealized capital gains. The Fund had built a significant balance of realized and unrealized capital gains since its inception in 2001, and we believed it was in the best interests of our shareholders to distribute a portion of the capital appreciation embedded in the Fund during the course of the year, rather than in a lump-sum distribution at the end of the year.

As a result of these strategies and policies, the Fund was able to increase its regular monthly distribution in September 2004 to \$0.135 per share from \$0.115 per share.

As of December 31, 2004, the Fund was trading at a -7.61% discount to its net asset value, compared with an average discount of -6.37% for the entire 12-month period.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

Nuveen Real Estate Income Fund (the "Fund") is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund's Common shares are listed on the American Stock Exchange and trade under the ticker symbol "JRS." The Fund was organized as a Massachusetts business trust on August 27, 2001.

The Fund seeks to provide high current income by investing primarily in a portfolio of income-producing common stocks, preferred stocks, convertible preferred stocks and debt securities issued by real estate companies, such as Real Estate Investment Trusts ("REITs").

The Board of Trustees of the Fund approved a change in the Fund's fiscal year end from October 31 to December 31 upon completion of the Fund's October 31, 2003 fiscal year.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. Prices of interest rate swaps are also provided by an independent pricing service approved by the Fund's Board of Trustees. If the pricing service is unable to supply a price for an interest rate swap the Fund may use a market quote provided by a major broker/dealer in such investments. If it is determined that market prices for an investment are unavailable or inappropriate, the Board of Trustees of the Fund, or its designee, may establish a fair value for the investment. In establishing a fair value, the Board of Trustees, or its designee, will use a wide variety of market data including yields or prices of comparable securities, indications of value from security dealers, general market conditions and other information and analysis. Short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method.

Investment Income

Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Income Taxes

The Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Commencing with the Fund's September 1, 2004 dividend declaration, payable October 1, 2004, the Fund intends to make monthly cash distributions to Common Shareholders of a stated dollar amount based primarily on the Fund's net investment income but also secondarily on net realized capital gains and /or on net unrealized capital gains in the Fund's portfolio (stated in terms of a fixed cents per Common Share dividend rate) ("Managed Distribution Policy"). The Fund seeks to maintain a stable dividend level, subject to approval and oversight by the Fund's Board of Trustees. Distributions will be made only after paying any accrued dividends or making any redemption or liquidation payments to Taxable Auctioned Preferred shares, if any, and interest and required principal payments on borrowings, if any. Under the Managed Distribution Policy, if, for any monthly distribution, net investment income and net realized capital gain were less than the amount of the distribution, the difference would be distributed

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

from the Fund's assets and would be treated by shareholders as a return of capital for tax purposes. The final determination of the source of all distributions for the year will be made after the end of the year.

REIT distributions received by the Fund are generally comprised of investment income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during a period are not known until after the fiscal year-end of the Fund. For the twelve months ended December 31, 2004, the character of distributions to the Fund from the REITs was 58.07%

16

ordinary income, 25.75% long-term and short-term capital gains, and 16.18% return of REIT capital. For the twelve months ended December 31, 2003, the character of distributions to the Fund from the REITs was 69.69% ordinary income, 12.66% long-term and short-term capital gains, and 17.65% return of REIT capital.

For the fiscal year ended October 31, 2003, the Fund applied a percentage estimate for the breakdown of income type, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of ordinary income so calculated. The Fund adjusted that estimated breakdown of income type (and consequently its net investment income) as necessary early in the following calendar year when the REITs informed their shareholders of the actual breakdown of income type. For the fiscal periods ended December 31, 2003 and December 31, 2004, the Fund applied the actual character of distributions reported by the REITs in which the Fund invests to its receipts from the REITs. If a REIT held in the portfolio of investments did not report the actual character of its distributions during the period, the Fund treated the distributions as ordinary income.

During the fiscal year ended October 31, 2003, the Fund treated each distribution to its shareholders from the portfolio REITs as being entirely from net investment income. The Fund recharacterized those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, at the beginning of the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities were held in the Fund's portfolio. Recharacterizations are reflected in the accompanying financial statements. For the fiscal periods ended December 31, 2003 and December 31, 2004, the Fund applied the actual character of distributions reported by the REITs in which the Fund invests to the distributions paid to the Fund shareholders.

Taxable Auctioned Preferred Shares

The Fund has issued and outstanding 1,720 Series M, 1,720 Series T, 1,720 Series W and 1,720 Series F, Taxable Auctioned Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate on each series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period.

17

Interest Rate Swap Transactions

The Fund is authorized to enter into hedging transactions, including interest rate swap transactions. The Fund's use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve the Fund's agreement with the counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on Taxable Auctioned Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that the Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Fund helps manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Due to recent clarification provided by the SEC to regulated investment companies, effective with the current reporting period, the Fund changed the way it presents net interest expense on interest rate swap transactions in the financial statements. In the December 31, 2004, financial statements net interest expense amounts paid are included in "Net realized gain (loss) from interest rate swaps". Net interest expense amounts accrued, but not yet paid, at December 31, 2004, are included in "Change in net unrealized appreciation (depreciation) of interest rate swaps". Previously, net interest expense was presented in "Expenses" and reported as "Net interest expense on interest rate swaps". This reclassification does not alter the tax treatment of interest rate payments on swap transactions which is to include such payments as operating expenses for tax purposes. For the fiscal year ended December 31, 2004, this reclassification, for financial reporting purposes only, resulted in a \$4,235,732 increase to net investment income, a \$4,017,763 decrease to net realized gain (loss) from interest rate swaps and a \$217,969 decrease to change in net unrealized appreciation (depreciation) of interest rate swaps.

18

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

Indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund had not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

The Fund did not engage in transactions in its own shares during the fiscal year ended December 31, 2004.

During the two months ended December 31, 2003, 2,658 Common shares were issued to shareholders due to reinvestment of distributions.

During the fiscal year ended October 31, 2003, 24,199 Common shares were issued to shareholders due to reinvestment of distributions.

3. SECURITIES TRANSACTIONS

Purchases and sales of investments (excluding short-term investments) during the fiscal year ended December 31, 2004, aggregated \$97,657,912 and \$97,701,129, respectively.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recording income and in recognizing certain gains and losses on security transactions.

At December 31, 2004, the cost of investments owned was \$559,308,530.

The net unrealized appreciation of investments at December 31, 2004, aggregated \$244,367,512, of which \$244,413,112 related to appreciated securities and \$45,600 related to depreciated securities.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. ("Nuveen") and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .009% as of January 31, 2005.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for the Fund is based upon the average daily Managed Assets of the Fund as follows:

	FUND-LEVEL
AVERAGE DAILY MANAGED ASSETS	FEE RATE

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

20

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily Managed Assets of the Fund as follows:

AVERAGE DAILY MANAGED ASSETS	MANAGEMENT FEE RATE
For the first \$500 million	.9000%
For the next \$500 million	.8750
For the next \$500 million	.8500
For the next \$500 million	.8250
For Managed Assets over \$2 billion	.8000

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into a Sub-Advisory Agreement with Security Capital Research & Management

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

Incorporated ("Security Capital"), under which Security Capital manages the investment portfolio of the Fund. Security Capital is compensated for its services to the Fund from the management fee paid to the Adviser.

The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first ten years of the Fund's operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING NOVEMBER 30,		YEAR ENDING NOVEMBER 30,

The Adviser has not agreed to reimburse the Fund for any portion of its fees and expenses beyond November 30, 2011.

FINANCIAL STATEMENTS (continued)

Subadvisor Acquisition

On November 24, 2003, Banc One Investment Advisors Corporation, an indirect, wholly-owned subsidiary of Bank One Corporation acquired Security Capital. Pursuant to the Investment Company Act of 1940, the change in ownership of Security Capital caused the existing sub-advisory agreement to terminate, and shareholders of the Fund were required to approve a new subadvisory agreement with Security Capital. At the Fund's annual shareholder meeting on January 20, 2004, shareholders approved the new sub-advisory agreement.

On July 1, 2004, Bank One Corporation was merged with JPMorgan Chase & Co. As a result of the merger, Security Capital became part of JPMorgan Fleming Asset Management. JPMorgan Fleming Asset Management is the marketing name for the asset management business of JPMorgan Chase & Co. Those businesses include JPMorgan Investment Management Inc. and its affiliates, including, without limitation, Banc One Investment Advisors Corporation, Banc One High Yield Partners, LLC, Security Capital Research & Management Incorporated, and JPMorgan Alternative Asset Management, Inc. As the merger was not deemed to cause a change in control of the Fund's Sub-Adviser, shareholder approval of a new

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

sub-advisory agreement was not necessary.

6. SUBSEQUENT EVENTS

Distributions to Common Shareholders

The Fund declared a distribution of \$.1350 per Common share which was paid on February 1, 2005, to shareholders of record on January 15, 2005.

Adviser Merger

Effective January 1, 2005, the Adviser and its affiliate, Nuveen Advisory Corp. ("NAC"), were merged into Nuveen Asset Management ("NAM"), also a wholly owned subsidiary of Nuveen. As a result of the merger, NAM is now the adviser to all funds previously advised by either NAC or the Adviser.

Announcement Regarding Parent Company of Adviser

After the close of trading on the New York Stock Exchange on January 31, 2005, The St. Paul Travelers Companies, Inc. announced that it intended to explore strategic alternatives to divest its equity stake in Nuveen.

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

MARKET YIELD (ALSO KNOWN AS DISTRIBUTION YIELD OR CURRENT YIELD): Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. REIT distributions received by the Fund are generally comprised of investment income, long-term and short-term capital gains and a REIT return of capital. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Real Estate Income Fund

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Institutional Advisory Corp. The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.
