Equity LifeStyle Properties, Inc.  
Notes to Consolidated Financial Statements

Note 1 – Basis of Presentation

Equity LifeStyle Properties, Inc., a Maryland corporation, together with MHC Operating Limited Partnership (the “Operating Partnership”) and other consolidated subsidiaries (“Subsidiaries”), are referred to herein as “we,” “us,” and “our.” We are a fully integrated owner and operator of lifestyle-oriented properties (“Properties”) consisting primarily of manufactured home (“MH”) communities and recreational vehicle (“RV”) resorts and campgrounds. We provide our customers the opportunity to place factory built homes, cottages, cabins or RVs on our properties either on a long-term or short-term basis. Our customers may lease individual developed areas (“Sites”) or enter right-to-use contracts, which provide them access to specific Properties for limited stays.

Capitalized terms used but not defined herein are as defined in our Annual Report on Form 10-K for the year ended December 31, 2017 (“2017 Form 10-K”). These unaudited interim Consolidated Financial Statements have been prepared pursuant to Securities and Exchange Commission (“SEC”) rules and regulations. Accordingly, they do not include all of the information and note disclosures required by U.S. Generally Accepted Accounting Principles (“GAAP”) for complete financial statements and should be read in conjunction with the financial statements and notes thereto included in the 2017 Form 10-K.

The following notes to the unaudited interim Consolidated Financial Statements highlight significant changes to the notes included in the 2017 Form 10-K and present interim disclosures as required by the SEC. The accompanying Consolidated Financial Statements reflect, in the opinion of management, all adjustments and estimates necessary for a fair presentation of the interim financial statements, which are of a normal, recurring nature. Revenues and expenses are subject to seasonal fluctuations and accordingly, quarterly interim results may not be indicative of full year results.

Note 2 – Summary of Significant Accounting Policies

(a) Consolidation

We consolidate our majority-owned Subsidiaries in which we have the ability to control the operations and all variable interest entities (“VIEs”) with respect to which we are the primary beneficiary. We have determined the Operating Partnership, which is our sole significant asset, meets the definition of a VIE. Therefore, we consolidate the Operating Partnership. We also consolidate entities in which we have a direct or indirect controlling or voting interest. All significant intercompany balances and transactions have been eliminated in consolidation.

We apply the equity method of accounting to entities in which we do not have a direct or indirect controlling interest or for variable interest entities where we are not considered the primary beneficiary, but can exercise influence over the entity with respect to its operations and major decisions. We apply the cost method of accounting when our investment is (i) minimal (typically less than 5.0%) and (ii) passive. Our exposure to losses associated with unconsolidated joint ventures is primarily limited to the carrying value of these investments. Accordingly, distributions from a joint venture in excess of our carrying value are recognized in earnings.

(b) Identified Intangibles and Goodwill

As of both June 30, 2018 and December 31, 2017, the gross carrying amount of identified intangible assets and goodwill, a component of Escrow deposits, goodwill and other assets, net on our consolidated balance sheets, was approximately \$12.1 million. As of both June 30, 2018 and December 31, 2017, this amount was comprised of approximately \$4.3 million of identified intangible assets and approximately \$7.8 million of goodwill. Accumulated amortization of identified intangible assets was approximately \$3.0 million and \$2.9 million as of June 30, 2018 and December 31, 2017, respectively.

As of June 30, 2018 and December 31, 2017, the gross carrying amount of in-place lease intangible assets, a component of Buildings and other depreciable property on our consolidated balance sheets, was approximately \$84.4 million and \$76.7 million, respectively. Accumulated amortization of in-place lease intangible assets was approximately \$77.6 million and \$76.5 million as of June 30, 2018 and December 31, 2017, respectively.

(c) Restricted Cash

As of both June 30, 2018 and December 31, 2017, Cash and restricted cash included approximately \$5.3 million of restricted cash for the payment of capital improvements, insurance or real estate taxes pursuant to certain loan

agreements.

Equity LifeStyle Properties, Inc.  
Notes to Consolidated Financial Statements

Note 2 - Summary of Significant Accounting Policies (continued)

(d) Fair Value of Financial Instruments

Our financial instruments include notes receivable, accounts receivable, accounts payable, other accrued expenses, interest rate swaps and mortgage notes payable. We disclose the estimated fair value of our financial instruments according to a fair value hierarchy (Level 1, 2 and 3).

Our mortgage notes payable and term loan, excluding deferred financing costs of approximately \$24.1 million and \$23.7 million as of June 30, 2018 and December 31, 2017, respectively, had an aggregate carrying value of approximately \$2,251.1 million and \$2,193.7 million as of June 30, 2018 and December 31, 2017, respectively, and a fair value of approximately \$2,230.7 million and \$2,184.0 million as of June 30, 2018 and December 31, 2017, respectively. The fair value was measured using quoted prices and observable inputs from similar liabilities (Level 2). At June 30, 2018 and December 31, 2017, our cash flow hedge of interest rate risk included in Escrow deposits, goodwill and other assets, net was measured using quoted prices and observable inputs from similar assets and liabilities (Level 2). We consider our own credit risk as well as the credit risk of our counterparties when evaluating the fair value of our derivative. The fair values of our notes receivable approximate their carrying or contract values. We also utilize Level 2 and Level 3 inputs as part of our determination of the purchase price allocation for our acquisitions.

(e) Revenue Recognition

Our revenue streams are predominantly derived from customers renting our Sites and are accounted for in accordance with ("ASC 840"), Leases, which include the following classifications on our Consolidated Statements of Income and Comprehensive Income: Community base rental income; Rental home income; Resort base rental income; and Utility and other income. Customers lease the Site in which their home is located, and either own or lease their home. Lease revenues for Sites and homes are accounted for as operating leases and recognized over the term of the respective lease or the length of a customer's stay. A typical lease for the rental of a Site between us and the owner or renter of a home is month-to-month or for a one-year term, renewable upon the consent of both parties, or in some instances, as provided by statute.

All other classifications on our Consolidated Statements of Income and Comprehensive Income are accounted for under other applicable accounting standards.

We enter into right-to-use contracts that give the customer the right to a set schedule of usage at a specified group of Properties. Payments are deferred and recognized ratably over the one year period in which access to Sites at certain Properties are provided. Right-to-use upgrade contracts grant certain additional access rights to the customer and require upfront non-refundable payments. The right-to-use upfront non-refundable payments are recognized on a straight-line basis over 20 years. On January 1, 2018, we adopted ("ASU 2014-09"), Revenue from Contracts with Customers. See Recently Adopted Accounting Pronouncements within Note 2 for further discussion.

Income from home sales is recognized when the earnings process is complete. The earnings process is complete when the home has been delivered, the purchaser has accepted the home and title has transferred.

(f) Recently Adopted Accounting Pronouncements

On January 1, 2018, the Company adopted on a prospective basis ("ASU 2017-01") Business Combinations: Clarifying the Definition of a Business (Topic 805). This guidance clarifies the definition of a business and provides a screen to determine when an integrated set of assets and activities is not considered a business and, thus, is accounted for as an asset acquisition rather than a business combination. The screen requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not considered a business. Under this new guidance, transaction costs associated with asset acquisitions are capitalized, while transaction costs associated with business combinations are expensed as incurred. All of the acquisitions completed subsequent to January 1, 2018 met the screen and, therefore, were accounted for as asset acquisitions and, as such, the related transaction costs of \$1.3 million were capitalized for the

six months ended June 30, 2018.

On January 1, 2018, the Company adopted (“ASU 2016-18”) Statement of Cash Flows: Restricted Cash (Topic 230). ASU 2016-18 requires companies to include restricted cash with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The adoption of this guidance did not have any effect on the Company's Consolidated Financial Statements.

Note 2 - Summary of Significant Accounting Policies (continued)

On January 1, 2018, the Company adopted (“ASU 2016-15”) Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments (Topic 230) on a retrospective basis. ASU 2016-15 adds or clarifies guidance on the classification of certain cash receipts and payments in the statement of cash flows. The adoption of ASU 2016-15 impacted our classification of proceeds from the settlement of insurance claims and distributions received from equity method investments. The retrospective adoption of this guidance resulted in the reclassification of \$0.6 million of insurance proceeds from Operating Activities to Investing Activities and \$0.5 million of distributions from equity method investments from Operating Activities to Investing Activities in our Statement of Cash Flows for the six months ended June 30, 2017.

On January 1, 2018, we adopted ASU 2014-09, which is a comprehensive new revenue recognition model that requires revenue to be recognized in a manner to depict the transfer of goods or services to a customer at an amount that reflects the consideration expected to be received in exchange for those goods or services. We applied the modified retrospective method to our right-to-use upgrade contracts and related commissions that were not fully amortized as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under ASU 2014-09, while prior period amounts are not adjusted and continue to be reported under the previous accounting standards. As a result of the cumulative impact of adopting this guidance, we recorded a net reduction to retained earnings of approximately \$15.2 million as of January 1, 2018 in Distributions in excess of accumulated earnings in the Consolidated Statement of Changes in Equity. There have not been significant changes to our business processes, systems, or internal controls as a result of implementing the standard. In addition to the information included within Note 2 regarding the impact of ASU 2014-09, also see Note 10, Reportable Segments, for further disaggregation of our various revenue streams by major source.

The cumulative effect adjustments resulting from the adoption of ASU 2014-09 as of January 1, 2018 were as follows:

(amounts in thousands)	Balance at December 31, 2017	Adjustment	Balance at January 1, 2018

(g) New Accounting Pronouncements

In August 2017, the FASB issued ("ASU 2017-12") Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities (Topic 815). ASU 2017-12 provides guidance about income statement classification and eliminates the requirement to separately measure and report hedge ineffectiveness. The entire change in fair value for qualifying hedge instruments including ineffectiveness will be recorded in Other comprehensive income ("OCI") and amounts deferred in OCI will be reclassified to earnings in the same income statement line item in which the earnings effect of the hedged item is reported. The new guidance also amends the presentation and disclosure requirements. The intention is to align hedge accounting with companies' risk management strategies more closely, thereby simplifying the application of hedge accounting and increasing transparency as to the scope and results of hedging programs. ASU 2017-12 is effective in fiscal years beginning after December 15, 2018, including interim periods within those years. Early adoption is permitted. We are currently in the process of evaluating the potential impact, if any, that the adoption of this standard may have on our Consolidated Financial Statements and related disclosures.

In June 2016, the FASB issued ("ASU 2016-13") Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments (Topic 326). ASU 2016-13 requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Entities will now use forward-looking information to better form their credit loss estimates. ASU 2016-13 also requires enhanced disclosures to help financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity's portfolio. ASU 2016-13 will be effective for annual reporting periods beginning after December 15, 2019. Early adoption is permitted. We are currently in the process of evaluating the potential impact, if any, that adoption of this standard may have on our Consolidated Financial Statements and related disclosures.

In February 2016, the FASB issued ("ASU 2016-02") Leases. ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU 2016-02 requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. As the lessor, we generate rental income and other income when customers rent the Sites at our Properties. We are the lessee in other arrangements, primarily for office space, ground leases and certain equipment. We are currently in the process of evaluating the potential impact, as both a lessor and a lessee, this standard may have on our Consolidated Financial Statements and related disclosures.

Note 4 – Common Stock and Other Equity Related Transactions

Common Stockholder Distribution Activity

The following quarterly distributions have been declared and paid to common stockholders and non-controlling common operating partnership unit ("OP Unit") holders for the six months ended June 30, 2018.

Distribution Amount Per Share	For the Quarter Ended	Stockholder Record Date	Payment Date
\$0.5500	March 31, 2018	March 30, 2018	April 13, 2018
\$0.5500	June 30, 2018	June 29, 2018	July 13, 2018

As of June 30, 2018, approximately \$150.0 million of Common Stock remained available for issuance under the at-the-market ("ATM") equity offering program.

Exchanges

Subject to certain limitations, holders of OP Units can request an exchange of any or all of their OP Units for shares of Common Stock at any time. Upon receipt of such a request, we may, in lieu of issuing shares of Common Stock, cause the Operating Partnership to pay cash. During the six months ended June 30, 2018, 13,838 OP Units were exchanged for an equal number of shares of Common Stock.

Note 5 – Real Estate Acquisitions

On April 20, 2018, we completed the acquisition of Holiday Travel Park, a 613-site RV Resort in Holiday, Florida. The purchase price was \$22.5 million, including \$0.3 million of transaction costs, and was funded with available cash and proceeds from our line of credit.

On March 15, 2018, we completed the acquisition of Serendipity, a 425-site manufactured home community located in Clearwater, Florida. The purchase price was \$30.7 million, including \$0.6 million of transaction costs, and was funded with available cash, a loan assumption of \$9.2 million and new loan proceeds of \$8.8 million.

On March 8, 2018, we completed the acquisition of Kingswood, a 229-site manufactured home community located in Riverview, Florida. The purchase price was \$17.5 million, including \$0.4 million of transaction costs, and was funded with available cash.

(a) Loggerhead sites represent marina slip count.

(b) The percentages shown approximate our economic interest as of June 30, 2018. Our legal ownership interest may differ.

(c) Includes two joint ventures in which we own a 65% interest and Crosswinds joint venture in which we own a 49% interest.

(d) Voyager joint venture primarily consists of a 50% interest in Voyager RV Resort and 33% interest in the utility plant servicing the Property.

On March 29, 2018, the Crosswinds joint venture repaid a short-term loan to us in the amount of \$13.8 million. We provided the loan to Crosswinds in conjunction with the formation of the joint venture in June 2017.

We received approximately \$1.8 million in distributions from these joint ventures for both the six months ended June 30, 2018 and 2017. Approximately \$0.3 million of the distributions made to us exceeded our basis in joint ventures for the six months ended June 30, 2017, and as such were recorded as income from unconsolidated joint ventures. None of the distributions made to us exceed our basis in joint ventures for the six months ended June 30, 2018.

Note 7 – Borrowing Arrangements

Mortgage Notes Payable

During the six months ended June 30, 2018, we closed on one loan, secured by two RV resorts, for gross proceeds of approximately \$64.0 million. The loan carries an interest rate of 4.83% per annum and matures in 2038.

In connection with the Serendipity acquisition during the first quarter of 2018, we assumed a loan of approximately \$9.2 million and obtained additional financing of \$8.8 million for a total mortgage debt, secured by the manufactured home community, of \$18.0 million with an interest rate of 4.75% that matures in 2039.

As of June 30, 2018 and December 31, 2017, we had outstanding mortgage indebtedness of approximately \$2,028.5 million and \$1,971.7 million, respectively, net of deferred financing costs.

The weighted average interest rate on our outstanding mortgage indebtedness, including the impact of premium/discount amortization and loan cost amortization on mortgage indebtedness, for the six months ended June 30, 2018 was approximately 4.7% per annum. The debt bears interest at stated rates ranging from 3.1% to 8.9% per annum and matures on various dates ranging from 2018 to 2041. The debt encumbered a total of 124 and 120 of our Properties as of June 30, 2018 and December 31, 2017, respectively, and the carrying value of such Properties was approximately \$2,499.0 million and \$2,323.1 million, as of June 30, 2018 and December 31, 2017, respectively.

Unsecured Line of Credit

During the six months ended June 30, 2018, we paid off our unsecured line of credit balance, including approximately \$30.0 million outstanding as of December 31, 2017.

As of June 30, 2018, we are in compliance in all material respects with the covenants in our borrowing arrangements.

Note 8 – Equity Incentive Awards

Compensation expense related to restricted stock and stock options, reported in General and administrative on the Consolidated Statements of Income and Comprehensive Income, for the quarters ended June 30, 2018 and 2017 was approximately \$2.7 million and \$2.5 million and for the six months ended June 30, 2018 and 2017 was approximately \$4.5 million and \$4.3 million, respectively.

Our 2014 Equity Incentive Plan (the “2014 Plan”) was adopted by our Board of Directors on March 11, 2014 and approved by our stockholders on May 13, 2014. Grants under the 2014 Plan are approved by the Compensation Committee, which determines the individuals eligible to receive awards, the types of awards, and the terms, conditions and restrictions applicable to any award, except grants to directors which are approved by the Board of Directors. The Compensation Committee determines the vesting schedule, if any, of each restricted stock grant or stock option grant and the term of each stock option, which term shall not exceed ten years from the date of grant. Shares that do not vest are forfeited. Dividends paid on restricted stock are not returnable, even if the underlying stock does not entirely vest. A maximum of 3,750,000 shares of Common Stock were originally available for grant under the 2014 Plan. As of June 30, 2018, 2,934,810 shares remained available for grant.

On May 1, 2018, we awarded to certain members of our Board of Directors, 51,388 shares of Restricted Stock at a fair market value of approximately \$4.6 million and Options to purchase 6,270 shares of common stock with an exercise price of \$89.65 per share. The shares of common stock covered by these awards are subject to multiple tranches that vest between November 1, 2018 and May 1, 2021.

On February 1, 2018, we awarded 70,250 shares of restricted stock (the “2018 Awards”) at a fair market value of approximately \$5.9 million to certain members of our senior management for their service in 2018. These restricted stock grants vest over a three-year vesting period, with one-third vesting on December 28, 2018 and the remaining two-thirds vesting on each of December 28, 2019 and December 28, 2020, respectively (the “Extended Vesting Portion”). One-half of the Extended Vesting Portion of the 2018 Awards provide solely for time-based vesting and will vest in equal installments on December 28, 2019 and December 28, 2020. The remaining one-half of the Extended Vesting Portion of the 2018 Awards provide for performance-based vesting and will vest, subject to the satisfaction of the performance conditions to be established by the Compensation Committee in the year of the vesting period, in equal installments on December 28, 2019 and December 28, 2020.

Additionally, on February 1, 2018, we awarded a one-time transition award of time-based restricted stock (the “Transition Awards”) as a transition from our prior practice of granting annual restricted stock awards which vest in full on December 31 of the relevant grant year. On February 1, 2018, we awarded Transition Awards for 70,250 shares of common stock at a fair market value of approximately \$5.9 million to certain members of our senior management. These Transition Awards are intended to mitigate the impact of a reduction in the realized pay for certain members of our senior management in 2018 and 2019 resulting from the three-year vesting period for the 2018 Awards. Two-thirds of each Transition Award will vest on December 28, 2018, and the remaining one-third will vest on December 28, 2019. The Transition Awards are not subject to performance goals. The Compensation Committee does not intend to replicate these Transition Awards in future years.

The fair market value of our restricted stock grants was determined by using the closing share price of our common stock on the date the shares were issued. Time-based restricted stock awards are recorded as stock-based compensation expense and paid in capital over the vesting period. Stock-based compensation for restricted stock awards with performance conditions will be recognized using the closing price of our common stock at the grant date when the key terms and conditions are known to all parties.

Note 9 – Commitments and Contingencies

Civil Investigation by Certain California District Attorneys

In November 2014, we received a civil investigative subpoena from the office of the District Attorney for Monterey County, California (“MCDA”), seeking information relating to, among other items, statewide compliance with asbestos and hazardous waste regulations dating back to 2005 primarily in connection with demolition and renovation

projects performed by third-party contractors at our California Properties. We responded by providing the information required by the subpoena.

On October 20, 2015, we attended a meeting with representatives of the MCDA and certain other District Attorneys' offices at which the MCDA reviewed the preliminary results of their investigation including, among other things, (i) alleged violations of asbestos and related regulations associated with approximately 200 historical demolition and renovation projects in California; (ii) potential exposure to civil penalties and unpaid fees; and (iii) next steps with respect to a negotiated resolution of the alleged

violations. No legal proceedings have been instituted to date and we are involved in settlement discussions with the District Attorneys' offices. We continue to assess the allegations and the underlying facts, and at this time we are unable to predict the outcome of the investigation or reasonably estimate any possible loss.

Other

In addition to legal matters discussed above, we are involved in various other legal and regulatory proceedings ("Other Proceedings") arising in the ordinary course of business. Other Proceedings include, but are not limited to, notices, consent decrees, information requests, and additional permit requirements and other similar enforcement actions by governmental agencies relating to our utility infrastructure, including water and wastewater treatment plants and other waste treatment facilities and electrical systems. Additionally, in the ordinary course of business, our operations are subject to audit by various taxing authorities. Management believes these Other Proceedings taken together do not represent a material liability. In addition, to the extent any such proceedings or audits relate to newly acquired Properties, we consider any potential indemnification obligations of sellers in our favor.

Note 10 – Reportable Segments

We have identified two reportable segments which are: (i) Property Operations and (ii) Home Sales and Rentals Operations. The Property Operations segment owns and operates land lease Properties and the Home Sales and Rentals Operations segment purchases, sells and leases homes at the Properties. The distribution of the Properties throughout the United States reflects our belief that geographic diversification helps insulate the portfolio from regional economic influences.

All revenues are from external customers and there is no customer who contributed 10% or more of our total revenues during the quarters and six months ended June 30, 2018 or 2017.

Note 11 - Subsequent Events

On July 20, 2018, we completed the acquisition of Everglades Lakes, a 612-site MH community in Fort Lauderdale, Florida. The purchase price was \$72.0 million and was funded with net proceeds from sales of common stock under our ATM equity offering program and proceeds from our line of credit.

During July 2018, we sold 252,864 shares of common stock as part of our ATM equity offering program at a weighted average price per share of \$91.85, resulting in net cash proceeds of approximately \$22.9 million. As of July 26, 2018, \$126.8 million of common stock remains available for issuance under the ATM equity offering program.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2017, and with the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2017.

Overview and Outlook

We are a self-administered, self-managed, real estate investment trust ("REIT") with headquarters in Chicago, Illinois. We are a fully integrated owner and operator of lifestyle-oriented properties ("Properties") consisting primarily of manufactured home ("MH") communities and recreational vehicle ("RV") resorts and campgrounds. As of June 30, 2018, we owned or had an ownership interest in a portfolio of 409 Properties located throughout the United States and Canada containing 152,937 Sites. These properties are located in 32 states and British Columbia, with more than 90 Properties with lake, river or ocean frontage and more than 100 Properties within 10 miles of the coastal United States.

We invest in Properties in sought-after locations near retirement and vacation destinations and urban areas across the United States with a focus on increasing operating cash flows. We seek growth in earnings, funds from operations ("FFO") and cash flows by enhancing the profitability and operation of our Properties and investments. We seek to accomplish this by attracting high-quality customers to our Properties and retaining these customers who take pride in the Property and in their homes and efficiently managing our Properties to increase operating margins by increasing occupancy, maintaining competitive market rents and controlling expenses.

We believe that demand from baby boomers for manufactured housing and RV resorts will continue to outpace supply for several years. We believe these individuals will continue to drive the market for second home sales as vacation properties, investment opportunities, or retirement retreats. We believe it is likely that over the next decade we will continue to see high levels of second home sales and that resort homes and cottages in our Properties will continue to provide a viable second-home alternative to site-built homes.

We also believe that our Properties and our business model provide an opportunity for increased cash flows and appreciation in value. These may be achieved through increases in rental and occupancy rates, as well as expense controls, expansion of existing Properties and opportunistic acquisitions. We actively seek to acquire and are currently engaged in various stages of negotiations relating to the possible acquisition of additional properties, which may include contracts outstanding to acquire such properties that are subject to the satisfactory completion of our due diligence review.

We generate the majority of our revenues from customers renting our Sites, or entering into right-to-use contracts (also referred to as membership products) which provide our customers access to specific Properties for limited stays. Our MH community Sites and annual RV resort Sites are leased on an annual basis. Seasonal Sites are leased to customers generally for one to six months. Transient Sites are leased to customers on a short-term basis. The revenue from seasonal and transient Sites is generally higher during the first and third quarters. We consider the transient revenue stream to be our most volatile as it is subject to weather conditions and other factors affecting the marginal RV customer's vacation and travel preferences. We also have interests in joint venture Properties for which revenue is classified as Equity in income from unconsolidated joint ventures in the Consolidated Statements of Income and Comprehensive Income.

The breakdown of our Sites by type is as follows (amounts are approximate):

Total  
Sites as  
of June  
30,  
2018  
Community Sites 71,800

Resort Sites:

Annual	28,400

---

(1) Primarily utilized to service the approximately 110,400 membership customers who have entered into a Thousand Trails Camping Pass. Includes approximately 5,800 Sites rented on an annual basis.

(2) Joint ventures have approximately 2,700 annual Sites, 400 seasonal Sites, and 500 transient Sites and includes approximately 2,300 marina slips.

## Management's Discussion (continued)

In our Home Sales and Rental Operations business our revenue streams include home sales, home rentals, brokerage services and ancillary activities. We generate revenue through home sales and rental operations by selling or leasing Site Set homes that are located in Properties owned and managed by us. We continue to focus on our rental operations, as we believe renting our vacant new homes represents an attractive source of occupancy and the opportunity to convert the renter to a homebuyer in the future. We also sell and rent homes through our joint venture, ECHO Financing, LLC (the "ECHO JV"). We provide brokerage services to residents of our Properties who move from a Property but do not relocate their home. In addition, we operate ancillary activities at certain Properties, such as golf courses, pro shops, stores and restaurants.

In the manufactured housing industry, options for home financing, also known as chattel financing, are limited. Chattel financing options available today include community owner-funded programs or third-party lender programs that provide subsidized financing to customers and often require the community owner to guarantee customer defaults. Third-party lender programs have stringent underwriting criteria, sizable down payment requirements, short loan amortization and high interest rates. We have a limited program under which we purchase loans made by an unaffiliated lender to purchasers of homes at our Properties.

In addition to Net income computed in accordance with GAAP, we assess and measure our overall financial and operating performance using certain Non-GAAP supplemental measures, which include: (i) FFO, (ii) Normalized funds from operations ("Normalized FFO"), (iii) Income from property operations, (iv) Income from property operations, excluding deferrals and property management, (v) Core Portfolio income from property operations, excluding deferrals and property management, (operating results for properties owned and operated in both periods under comparison) and (vi) Income from rental operations, net of depreciation. We use these measures internally to evaluate the operating performance of our portfolio and provide a basis for comparison with other real estate companies. Definitions and reconciliations of these measures to the most comparable GAAP measures are included below in this discussion.

#### Results Overview

Net income available for Common Stockholders increased \$6.6 million or \$0.07 per Common Share, to \$46.1 million, or \$0.52 per Common Share for the quarter ended June 30, 2018, compared to \$39.5 million, or \$0.45 per Common Share for the quarter ended June 30, 2017. Net income available for Common Stockholders increased \$10.0 million, or \$0.09 per Common Share, to \$106.4 million, or \$1.20 per Common Share for the six months ended June 30, 2018, compared to \$96.4 million, or \$1.11 per Common Share for the six months ended June 30, 2017.

For the quarter ended June 30, 2018, FFO available for Common Stock and OP Unit holders increased \$10.7 million, or \$0.09 per Common Share, to \$85.6 million or \$0.90 per Common Share, compared to \$74.9 million, or \$0.81 per Common Share, for the same period in 2017. For the six months ended June 30, 2018, FFO available for Common Stock and OP Unit holders increased \$15.8 million, or \$0.13 per Common Share, to \$183.8 million or \$1.94 per Common Share, compared to \$168.0 million, or \$1.81 per Common Share, for the same period in 2017.

For the quarter ended June 30, 2018, Normalized FFO available for Common Stock and OP Unit holders increased \$8.7 million, or \$0.08 per Common Share, to \$83.8 million, or \$0.89 per Common Share, compared to \$75.1 million, or \$0.81 per Common Share, for the same period in 2017. For the six months ended June 30, 2018, Normalized FFO available for Common Stock and OP Unit holders increased \$13.4 million, or \$0.11 per Common Share, to \$181.7 million, or \$1.92 per Common Share, compared to \$168.3 million, or \$1.81 per Common Share, for the same period in 2017.

For the quarter ended June 30, 2018, property operating revenues in our Core Portfolio, excluding deferrals, were up \$11.6 million, or 5.6% and property operating expenses in our Core Portfolio, excluding deferrals and property management, were up \$5.4 million, or 6.0% from the quarter ended June 30, 2017, resulting in an increase in our Income from property operations excluding deferrals and property management of \$6.2 million, or 5.2%, from the quarter ended June 30, 2017. For the six months ended June 30, 2018, property operating revenues in our Core Portfolio, excluding deferrals, were up \$23.9 million, or 5.6% and property operating expenses in our Core Portfolio, excluding deferrals and property management, were up \$11.9 million or 6.8% for the six months ended June 30, 2018, resulting in an increase in our Income from property operations excluding deferrals and property management of \$12.0 million or 4.8% from the six months ended June 30, 2017.

We continue to focus on the quality of occupancy growth by increasing the number of manufactured homeowners in our Core Portfolio. Our Core Portfolio average occupancy consists of occupied home Sites in our MH communities (both homeowners and renters) and was 94.7% for the quarter ended June 30, 2018, compared to 94.6% for the quarter ended March 31, 2018 and 94.2% for the quarter ended June 30, 2017. During the quarter ended June 30, 2018, we increased occupancy of manufactured homes within our Core Portfolio by 63 Sites with an increase in homeowner occupancy of 150 Sites compared to occupancy as of March 31, 2018. By comparison, as of June 30, 2017, our Core Portfolio occupancy increased 114 Sites with an increase in homeowner occupancy of 204 Sites.

## Management's Discussion (continued)

We have experienced growth in revenues in our Core RV Portfolio as a result of our ability to increase rental rates and occupancy. RV revenues in our Core Portfolio for the quarter ended June 30, 2018 were 7.7% higher than the quarter ended June 30, 2017. Annual, seasonal and transient revenues for the quarter ended June 30, 2018 increased 7.0%, 11.8% and 8.3%, respectively, from the quarter ended June 30, 2017. RV revenues in our Core Portfolio for the six months ended June 30, 2018 were 7.6% higher than the six months ended June 30, 2017. Annual, seasonal and transient revenues for the six months ended June 30, 2018 increased 6.9%, 9.6% and 7.7%, respectively, from the six months ended June 30, 2017.

We continue to build on our successful multi-channel marketing campaigns, incorporating social media and advanced marketing analytics. During the quarter ended June 30, 2018, our RV revenue through digital channels increased 15% and our sales of online camping passes increased 42% compared to the quarter ended June 30, 2017. Our summer marketing campaigns are aimed at strengthening the commitment with our customer. We have increased the awareness of our product offerings and year over year we have seen an increase in social media fans of 20%.

We see high demand for our homes and communities. We closed 146 new home sales in the quarter ended June 30, 2018 compared to 120 during the quarter ended June 30, 2017 and 276 new home sales in the six months ended June 30, 2018 compared to 240 during the six months ended June 30, 2017. The new home sales during the quarter and six months ended June 30, 2018 were primarily in our Arizona, Florida, Colorado and California communities. As of June 30, 2018, we had 4,282 occupied rental homes in our MH communities, including 264 homes rented through our ECHO joint venture. Home rental program net operating income was approximately \$7.8 million, net of rental asset depreciation expense of approximately \$2.4 million for the quarter ended June 30, 2018, and approximately \$8.2 million, net of rental asset depreciation expense of approximately \$2.6 million for the quarter ended June 30, 2017. Approximately \$8.2 million and \$8.8 million of home rental operations revenue was included in Community base rental income for the quarters ended June 30, 2018 and 2017, respectively. For the six months ended June 30, 2018 and 2017, home rental program net operating income was approximately \$15.6 million and \$16.4 million, respectively, net of rental asset depreciation expense of approximately \$4.9 million for the six months ended June 30, 2018 and \$5.3 million for the six months ended June 30, 2017. Approximately \$16.5 million and \$17.6 million of home rental operations revenue was included in Community base rental income for the six months ended June 30, 2018 and six months ended June 30, 2017, respectively.

Our gross investment in real estate increased approximately \$134.0 million to \$5,049.8 million as of June 30, 2018 from \$4,915.8 million as of December 31, 2017, primarily due to the acquisitions of Kingswood, Serendipity and Holiday Travel Park, as well as capital expenditures during the six months ended June 30, 2018.

The following chart lists both the Properties acquired or invested in from January 1, 2017 through June 30, 2018, which represents Non-Core Properties; and Sites added through expansion opportunities at our existing Properties.

Non-GAAP Financial Measures

Management's discussion and analysis of financial condition and results of operations include certain Non-GAAP financial measures that in management's view of the business are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative

24

---

## Management's Discussion (continued)

of recurring annual cash flow of the portfolio. These Non-GAAP financial measures as determined and presented by us may not be comparable to similarly titled measures reported by other companies, and include Income from Property Operations and Core Portfolio, FFO, Normalized FFO and Income from Rental Operation, net of depreciation.

We believe investors should review Income from Property Operations and Core Portfolio, FFO, Normalized FFO and Income from Rental Operations, net of depreciation, along with GAAP net income and cash flow from operating activities, investing activities and financing activities, when evaluating an equity REIT's operating performance. A discussion of Income from property operations and Core Portfolio, FFO, Normalized FFO and Income from rental operations, net of depreciation, and a reconciliation to net income, are included below.

#### Income from Property Operations and Core Portfolio

We use Income from property operations and Income from property operations, excluding deferrals and property management, and Core Portfolio income from property operations, excluding deferrals and property management, as alternative measures to evaluate the operating results of our manufactured home and RV communities. Income from property operations represents rental income, utility and other income and right-to-use income less property and rental home operating and maintenance expenses, real estate tax, sales and marketing expenses and property management expenses. Income from property operations, excluding deferrals and property management, represents income from property operations excluding property management expenses and the impact of the GAAP deferral of right-to-use contract upfront payments and related commissions, net. Our Core Portfolio consists of our Properties owned and operated since December 31, 2016. Core Portfolio income from property operations, excluding deferrals and property management, is useful to investors for annual comparison as it removes the fluctuations associated with acquisitions, dispositions and significant transactions or unique situations. Our Non-Core Portfolio (or Acquisitions) includes all Properties that were not owned and operated during all of 2017 and 2018. This includes, but is not limited to, three properties acquired during 2018, three properties acquired during 2017 and Fiesta Key and Sunshine Key RV Resorts. Funds from Operations ("FFO") and Normalized Funds from Operations ("Normalized FFO")

We define FFO as net income, computed in accordance with GAAP, excluding gains and actual or estimated losses from sales of properties, plus real estate related depreciation and amortization, impairments, if any, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. We compute FFO in accordance with our interpretation of standards established by the National Association of Real Estate Investment Trusts ("NAREIT"), which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. We receive upfront non-refundable payments from the entry of right-to-use contracts. In accordance with GAAP, the upfront non-refundable payments and related commissions are deferred and amortized over the estimated customer life. Although the NAREIT definition of FFO does not address the treatment of non-refundable right-to-use payments, we believe that it is appropriate to adjust for the impact of the deferral activity in our calculation of FFO.

We define Normalized FFO as FFO excluding the following non-operating income and expense items: a) gains and losses from early debt extinguishment, including prepayment penalties and defeasance costs; b) acquisition and other transaction costs related to business combinations; and c) other miscellaneous non-comparable items. Normalized FFO presented herein is not necessarily comparable to Normalized FFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount.

We believe that FFO and Normalized FFO are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of depreciation, amortization, impairments, if any, and actual or estimated gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our operations. For example, we believe that excluding the early extinguishment of debt, property acquisition and other transaction costs related to business combinations from Normalized FFO

allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the properties. In some cases, we provide information about identified non-cash components of FFO and Normalized FFO because it allows investors, analysts and our management to assess the impact of those items.

**Income from Rental Operations, Net of Depreciation**

We use Income from rental operations, net of depreciation as an alternative measure to evaluate the operating results of our home rental program. Income from rental operations, net of depreciation, represents income from rental operations less depreciation

## Management's Discussion (continued)

expense on rental homes. We believe this measure is meaningful for investors as it provides a more complete picture of the home rental program operating results including the impact of depreciation which affects our home rental program investment decisions.

Our definitions and calculations of these Non-GAAP financial and operating measures and other terms may differ from the definitions and methodologies used by other REITs and, accordingly, may not be comparable. These Non-GAAP financial and operating measures do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

<sup>(1)</sup> The Company adopted ASU 2014-09, Revenue from Contracts with Customers, and all related amendments, effective January 1, 2018. Upon adoption, right-to-use upfront nonrefundable payments will be recognized on a straight-line basis over 20 years to reflect our current estimated customer life for the majority of our upgrade contracts. Results for reporting periods beginning after January 1, 2018 are presented under ASU 2014-09, while prior period amounts are not adjusted and continue to be reported under the previous accounting standards.

<sup>(2)</sup> The Company adopted ASU 2017-01, Business Combinations, effective January 1, 2018. Upon adoption, transaction costs related to asset acquisitions are capitalized. All acquisitions completed subsequent to January 1, 2018 were determined by the Company to be asset acquisitions and, as such, the related transaction costs were capitalized. Transaction costs related to 2017 acquisitions, occurring prior to the adoption of this guidance, are included in General and administrative on the Consolidated Income Statement.

<sup>(3)</sup> Represents insurance recovery revenue from reimbursement for capital expenditures related to Hurricane Irma.

<sup>(1)</sup> Non-GAAP measure, see the Results Overview section of the Management Discussion and Analysis for Non-GAAP Financial Measure Definitions and reconciliations of these Non-GAAP measures to Net Income available to Common Shareholders.

Total Portfolio income from property operations, which includes Core and Non-Core portfolios, for the quarter ended June 30, 2018 increased \$8.0 million, or 7.6%, from the quarter ended June 30, 2017, driven by an increase of \$5.2 million, or 5.0%, in our Core Portfolio income from property operations. Non-Core Portfolio income from property operations for the quarter ended June 30, 2018 was \$3.6 million, which increased \$2.8 million from the quarter ended June 30, 2017, and includes \$1.5 million of insurance proceeds which we have identified as business interruption recovery at our RV properties in the Florida Keys.

Property Operating Revenues

Community base rental income in our Core Portfolio for the quarter ended June 30, 2018 increased \$5.6 million, or 4.6% from the quarter ended June 30, 2017, which reflects 4.0% growth from rate increases and approximately 0.6% growth from occupancy gains. The average monthly base rental income per Site increased to approximately \$633 for the quarter ended June 30, 2018 from approximately \$608 for the quarter ended June 30, 2017. The average occupancy for the Core Portfolio increased to 94.7% for the quarter ended June 30, 2018 from 94.2% for the quarter ended June 30, 2017.

Resort base rental income in our Core Portfolio for the quarter ended June 30, 2018 increased \$3.7 million, or 7.7%, from the quarter ended June 30, 2017 driven by increases in annual, seasonal and transient revenues. Annual revenues increased due to increased rates and occupancy gains across the portfolio. Seasonal revenues increased due to an increase in rate and an increase

## Management's Discussion (continued)

in the number of night stays. Transient revenues increased primarily due to an increase in rent, particularly at our properties in Texas, New York and California.

Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio			
	2018	2017	Variance	% Change	2018	2017	Variance	% Change
Annual	\$34,793	\$32,523	\$ 2,270	7.0 %	\$36,595	\$32,869	\$ 3,726	11.3 %
Seasonal	4,938	4,416	522	11.8 %	5,206	4,902	304	6.2 %
Transient	12,150	11,222	928	8.3 %	13,430	12,284	1,146	9.3 %
Resort base rental income	\$51,881	\$48,161	\$ 3,720	7.7 %	\$55,231	\$50,055	\$ 5,176	10.3 %

Utility and other income in our Core Portfolio increased by \$1.7 million primarily driven by an increase in utility income due to usage and rate increases and insurance recovery revenue related to a flood event in California, which were partially offset by utility expenses and repairs and maintenance costs related to debris removal and cleanup following a flood event in California (see Property Operating Expenses below).

## Property Operating Expenses

Property operating expenses, excluding deferrals and property management, in our Core Portfolio for the quarter ended June 30, 2018 increased \$5.4 million, or 6.0%, from the quarter ended June 30, 2017, primarily driven by an increase in property operating and maintenance expenses of \$5.8 million. The increase in property operating and maintenance expenses was primarily due to an increase in repairs and maintenance expenses, including costs related to debris removal and clean up following a flood event in California, and an increase in property payroll, primarily as a result of 2018 salary increases. The increase in property operating and maintenance expenses was also due to an increase in utility expense, primarily due to increases in gas usage in the West and South and an increase in administrative expenses primarily due to legal costs.

## Home Sales and Rental Operations

## Home Sales and Other

The following table summarizes certain financial and statistical data for Home Sales for the quarters ended June 30, 2018 and 2017 (amounts in thousands, except home sales volumes).

(1) New home sales gross revenues and costs of new home sales does not include the revenues and costs associated with our ECHO JV.

(2) Total new home sales volume includes home sales from our ECHO JV.

Loss from home sales and other was \$0.9 million for the quarter ended June 30, 2018 compared with \$0.5 million for the quarter ended June 30, 2017. The increase in Loss from home sales and other was primarily due to an increase of \$0.4 million in the loss from used home sales.

Number of occupied rentals – used, end of period	1,668	2,157	(489 )	(22.7)%

Rental operations revenue consists of Site rental income and home rental income. Approximately \$8.2 million and \$8.8 million for the quarters ended June 30, 2018 and 2017, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

<sup>(2)</sup> Included in Depreciation on real estate and rental homes in the Consolidated Statements of Income and Comprehensive Income.

<sup>(3)</sup> New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$15.9 million and \$15.4 million as of June 30, 2018 and 2017, respectively.

<sup>(4)</sup> Occupied rentals as of the end of the period in our Core Portfolio and includes 264 and 257 homes rented through our ECHO JV during the quarters ended June 30, 2018 and 2017, respectively.

The decrease in income from rental operations was primarily due to a decrease in the number of used occupied rental units. This was partially offset by an increase in the number of new occupied rentals at a higher rental rate.

## Other Income and Expenses

The following table summarizes other income and expenses, net for the quarters ended June 30, 2018 and 2017 (amounts in thousands, expenses shown as negative).

	2018	2017	Variance	% Change

Total other income and expenses, net	\$(65,391)	\$(61,852)	\$(3,539)	(5.7 )%

Other expenses, net increased \$3.5 million for the quarter ended June 30, 2018, compared to the quarter ended June 30, 2017. The increase from the quarter ended June 30, 2017 was primarily due to increases in depreciation on real estate and rental homes, interest and related amortization and general and administrative costs. These increases were partially offset by \$1.8 million insurance recovery revenue from reimbursement for capital expenditures related to Hurricane Irma during the quarter ended June 30, 2018.

Total Portfolio income from property operations, which includes Core and Non-Core portfolios, for the six months ended June 30, 2018 increased \$12.1 million, or 5.3%, from the six months ended June 30, 2017, driven by an increase of \$9.3 million, or 4.1%, in our Core Portfolio income from property operations. Non-Core Portfolio income from property operations increased \$2.8 million from the six months ended June 30, 2017 primarily driven by \$2.5

million of insurance proceeds which we have identified as business interruption recovery at our RV properties in the Florida Keys.

#### Property Operating Revenues

Community base rental income in our Core Portfolio for the six months ended June 30, 2018 increased \$11.2 million, or 4.6% from the quarter ended June 30, 2017, which reflects 4.0% growth from rate increases and approximately 0.6% growth from occupancy gains. The average monthly base rental income per Site increased to approximately \$630 for the six months ended June 30, 2018 from approximately \$606 for the six months ended June 30, 2017. The average occupancy for the Core Portfolio increased to 94.6% for the six months ended June 30, 2018 from 94.1% for the six months ended June 30, 2017.

Resort base rental income in our Core Portfolio for the six months ended June 30, 2018 increased \$8.0 million, or 7.6%, from the six months ended June 30, 2017 driven by increases in annual, seasonal and transient revenues. Annual revenues increased due to increased rates and occupancy gains across the portfolio. Seasonal revenues increased due to an increase in rate and an increase in the number of night stays. All regions had an increase in transient revenues during the six months ended June 30, 2018 compared to the six months ended June 30, 2017.

Management's Discussion (continued)

Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio			
	2018	2017	Variance	% Change	2018	2017	Variance	% Change
Annual	\$68,713	\$64,297	\$4,416	6.9 %	\$71,751	\$64,965	\$6,786	10.4 %

Utility and other income in our Core Portfolio increased by \$3.9 million primarily driven by insurance proceeds related to Hurricane Irma, which were offset by debris removal and cleanup costs (see Property Operating Expenses below). Additionally, utility income increased as a result of an increase in electric income recovery.

Property Operating Expenses

Property operating expenses, excluding deferrals and property management, in our Core Portfolio for the six months ended June 30, 2018 increased \$11.9 million, or 6.8%, from the six months ended June 30, 2017, primarily driven by an increase in property operating and maintenance expenses of \$12.3 million. The increase in property operating and maintenance expenses was primarily due to an increase in repairs and maintenance expenses, primarily related to cleanup costs from Hurricane Irma, an increase in property payroll, primarily as a result of 2018 salary increases and an increase in utility expense, primarily due to increases in electric and water expenses, which was partially offset by an increase in utility income recovery.

Home Sales and Rental Operations

Home Sales and Other

The following table summarizes certain financial and statistical data for Home Sales for the six months ended June 30, 2018 and 2017 (amounts in thousands, except home sales volumes).

Number of occupied rentals – used, end of period	1,668	2,157	(489 )	(22.7)%

Rental operations revenue consists of Site rental income and home rental income. Approximately \$16.5 million and \$17.6 million for the six months ended June 30, 2018 and 2017, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

<sup>(2)</sup> Included in Depreciation on real estate and rental homes in the Consolidated Statements of Income and Comprehensive Income.

<sup>(3)</sup> New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$15.9 million and \$15.4 million as of June 30, 2018 and 2017, respectively.

<sup>(4)</sup> Occupied rentals as of the end of the period in our Core Portfolio and includes 264 and 257 homes rented through our ECHO JV during the six months ended June 30, 2018 and 2017, respectively.

The decrease in income from rental operations was primarily due to a decrease in the number of used occupied rental units. This was partially offset by an increase in the number of new occupied rentals at a higher rental rate.

## Other Income and Expenses

The following table summarizes other income and expenses, net for the six months ended June 30, 2018 and 2017 (amounts in thousands, expenses shown as negative).

	2018	2017	Variance	% Change
Depreciation on real estate and rental homes	\$(63,774 )	\$(60,357 )	\$(3,417)	(5.7 )%
Amortization of in-place leases	(2,945 )	(1,990 )	(955 )	(48.0)%
Interest income	3,812	3,568	244	6.8 %
Income from other investments, net	4,353	1,866	2,487	133.3 %
General and administrative	(17,707 )	(15,510 )	(2,197 )	(14.2)%
Transaction costs	—	(324 )	324	100.0 %
Other expenses	(710 )	(490 )	(220 )	(44.9)%
Interest and related amortization	(51,988 )	(49,701 )	(2,287 )	(4.6 )%
Total other income and expenses, net	\$(128,959)	\$(122,938)	\$(6,021)	(4.9 )%

Other expenses, net increased \$6.0 million for the six months ended June 30, 2018, compared to the six months ended June 30, 2017. The increase from the six months ended June 30, 2017 was primarily due to increases in depreciation on real estate and rental homes, interest and related amortization and general and administrative expenses. These increase were partially offset by \$2.1 million insurance recovery revenue from reimbursement for capital expenditures related to Hurricane Irma during the six months ended June 30, 2018.

## Management's Discussion (continued)

## Liquidity and Capital Resources

## Liquidity

Our primary demands for liquidity include payment of operating expenses, debt service, including principal and interest, capital improvements on properties, purchasing both new and pre-owned homes, acquisitions of new Properties and distributions. We expect similar demand for liquidity will continue for the short-term and long-term. Our primary sources of cash include operating cash flows, proceeds from financings, borrowings under our unsecured Line of Credit ("LOC") and proceeds from issuance of equity and debt securities.

We have entered into an at-the-market ("ATM") offering program, pursuant to which we may sell, from time-to-time, shares of our Common Stock, par value \$0.01 per share, having an aggregate offering price of up to \$200.0 million. As of June 30, 2018, \$150.0 million of common stock remained available for issuance under the ATM equity offering program. During July 2018, we sold 252,864 shares of common stock as part of our ATM equity offering program at a weighted average price per share of \$91.85, resulting in gross cash proceeds of approximately \$23.2 million. As of July 26, 2018, \$126.8 million of common stock remain available for issuance under the ATM equity offering program. In addition, we have available liquidity in the form of approximately 111.2 million shares of authorized but unissued common stock and approximately 10.0 million shares of authorized unissued preferred stock registered for sale under the Securities Act of 1933, as amended, by a shelf registration statement which was automatically effective when filed with the SEC. Our charter allows us to issue up to 200.0 million shares of Common Stock, par value \$0.01 per share, and up to 10.0 million shares of preferred stock, par value \$0.01 per share.

One of our stated objectives is to maintain financial flexibility. Achieving this objective allows us to take advantage of strategic opportunities that may arise. We believe effective management of our balance sheet, including maintaining various access points to raise capital, managing future debt maturities and borrowing at competitive rates enables us to meet this objective. We believe that as of June 30, 2018, we have sufficient liquidity, in the form of \$40.8 million in unrestricted cash, and \$400.0 million available on our LOC, to satisfy our near term obligations. Our LOC has a borrowing capacity of \$400.0 million with the option to increase the borrowing capacity by \$200.0 million, subject to certain conditions. The LOC bears interest at a rate of LIBOR plus 1.10% to 1.55%, requires an annual facility fee of 0.15% to 0.35% and matures on October 27, 2021.

We expect to meet our short-term liquidity requirements, including distributions for the next twelve months, generally through available cash as well as net cash provided by operating activities and availability under our existing LOC.

We consider these resources to be adequate to meet our operating requirements for capital improvements, amortizing debt and payment of dividends and distributions.

We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, property acquisitions and capital improvements by use of our current cash balance, long-term collateralized and uncollateralized borrowings including borrowings under the existing LOC and the issuance of debt securities or additional equity securities, in addition to net cash provided by operating activities. As of June 30, 2018, we have approximately \$3.0 million of scheduled debt maturities in 2018 (excluding scheduled principal payments on debt maturing in 2018 and beyond). We expect to satisfy our 2018 maturities with existing cash and anticipated operating cash flow.

During the six months ended June 30, 2018, we closed on one loan, secured by two RV resorts, for gross proceeds of approximately \$64.0 million. The loan carries an interest rate of 4.83% per annum and matures in 2038. In connection with the Serendipity acquisition, we assumed a loan of approximately \$9.2 million and obtained additional financing of \$8.8 million for total mortgage debt, secured by the manufactured home community, of \$18.0 million with an interest rate of 4.75% that matures in 2039.

During the six months ended June 30, 2018, we paid off our unsecured LOC, including the balance at December 31, 2017 of approximately \$30.0 million.

## Management's Discussion (continued)

The table below summarizes cash flow activity for the six months ended June 30, 2018 and 2017 (amounts in thousands):

	Six Months Ended	
	June 30,	
	2018	2017
Net cash provided by operating activities	\$226,026	\$212,982
Net cash used in investing activities	(121,894 )	(70,306 )
Net cash used in financing activities	(89,192 )	(131,276 )
Net increase in cash and restricted cash	\$14,940	\$11,400

## Operating Activities

Net cash provided by operating activities increased \$13.0 million to \$226.0 million for the six months ended June 30, 2018, from \$213.0 million for the six months ended June 30, 2017. The increase in net cash provided by operating activities was primarily due to higher income from property operations of \$12.1 million and an increase in rents received in advance and security deposits, partially offset by a decrease in insurance proceeds.

## Investing Activities

Net cash used in investing activities was \$121.9 million for the six months ended June 30, 2018 compared to \$70.3 million for the six months ended June 30, 2017. The increase in net cash used in investing activities was primarily due to an increase in real estate acquisitions and an increase in capital improvements. These increases were partially offset by receipt of \$13.8 million during six months ended June 30, 2018 as a result of the repayment of the short-term loan we issued to the Crosswinds joint venture at the time of closing.

## Capital Improvements

The table below summarizes capital improvement activity for the six months ended June 30, 2018 and 2017 (amounts in thousands):

	Six Months	
	Ended	
	June 30,	
	2018	2017
Recurring capital expenditures <sup>(1)</sup>	\$21,175	\$18,808
Property upgrades and site development <sup>(2)</sup>	25,580	11,870
New home investments <sup>(3)(4)</sup>	31,701	19,542
Used home investments <sup>(4)</sup>	1,807	2,191
Total property	80,263	52,411
Corporate	1,114	1,053
Total capital improvements	\$81,377	\$53,464

<sup>(1)</sup> Recurring capital expenditures are primarily comprised of common area improvements, furniture, and mechanical improvements.

<sup>(2)</sup> Includes \$9.5 million of restoration and improvement capital expenditures related to Hurricane Irma for the six months ended June 30, 2018.

<sup>(3)</sup> Excludes new home investment associated with our ECHO JV.

<sup>(4)</sup> Net proceeds from new and used home sale activities are reflected within Operating Activities.

## Financing Activities

Net cash used in financing activities was \$89.2 million for the six months ended June 30, 2018 compared to net cash used in financing activities of \$131.3 million for the six months ended June 30, 2017. The decrease in net cash used in financing activities was primarily due to an increase in new mortgage debt proceeds, net and a decrease in mortgage debt payoffs, compared to the six months ended June 30, 2017, partially offset by an increase in distributions and the line of credit payoff of \$30.0 million during the six months ended June 30, 2018.

## Contractual Obligations

Significant ongoing contractual obligations consist primarily of long term borrowings, interest expense, operating leases, LOC maintenance fees and ground leases. For a summary and complete presentation and description of our ongoing commitments and contractual obligations, see the Contractual Obligations section of Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 28, 2018.

Management's Discussion (continued)

Inflation

Substantially all of the leases at the Properties allow for monthly or annual rent increases. In addition, we have the opportunity to achieve rate increases, where justified by the market, as each lease matures. Such types of leases generally minimize our risks of inflation. In addition, our RV resort Properties are not generally subject to leases and rents are established for these Sites on an annual basis. Our right-to-use contracts generally provide for an annual dues increase, but dues may be frozen under the terms of certain contracts if the customer is over 61 years old.

Off-Balance Sheet Arrangements

As of June 30, 2018, we have no off-balance sheet arrangements.

Critical Accounting Policies and Estimates

Refer to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2017 for a discussion of our critical accounting policies, which include impairment, revenue recognition and business combinations. There have been no significant changes to our critical accounting policies and estimates during the quarter ended June 30, 2018 compared with those contained in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2017, except that we updated our revenue recognition policy related to right-to-use contracts pursuant to the adoption of ASU 2014-09 (see "Recently Adopted Accounting Pronouncements" within Note 2).

Forward-Looking Statements

This Quarterly Report on Form 10-Q for the quarter ended June 30, 2018 includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. When used, words such as "anticipate," "expect," "believe," "project," "intend," "may be" and "will be" and similar words or phrases, or the negative thereof, unless the context requires otherwise, are intended to identify forward-looking statements and may include without limitation, information regarding our expectations, goals or intentions regarding the future, and the expected effect of our acquisitions. These forward-looking statements are subject to numerous assumptions, risks and uncertainties, including, but not limited to:

- our ability to control costs and real estate market conditions, our ability to retain customers, the actual use of Sites by customers and our success in acquiring new customers at our Properties (including those that we may acquire);
- our ability to maintain historical or increase future rental rates and occupancy with respect to properties currently owned or that we may acquire;
- our ability to retain and attract customers renewing, upgrading and entering right-to-use contracts;
- our assumptions about rental and home sales markets;
- our ability to manage counterparty risk;
- our ability to renew our insurance policies at existing rates and on consistent terms;
- in the age-qualified Properties, home sales results could be impacted by the ability of potential home buyers to sell their existing residences as well as by financial, credit and capital markets volatility;
- results from home sales and occupancy will continue to be impacted by local economic conditions, lack of affordable manufactured home financing and competition from alternative housing options including site-built single-family housing;
- impact of government intervention to stabilize site-built single-family housing and not manufactured housing;
- effective integration of recent acquisitions and our estimates regarding the future performance of recent acquisitions;
- the completion of future transactions in their entirety, if any, and timing and effective integration with respect thereto;
- unanticipated costs or unforeseen liabilities associated with recent acquisitions;
- ability to obtain financing or refinance existing debt on favorable terms or at all;
- the effect of interest rates;
- the dilutive effects of issuing additional securities;
- the effect of changes in accounting for Leases set forth under the Codification Topic "Leases";
- the outcome of pending or future lawsuits or actions brought against us, including those disclosed in our filings with the Securities and Exchange Commission; and
- other risks indicated from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are based on management's present expectations and beliefs about future events. As with any projection or forecast, these statements are inherently susceptible to uncertainty and changes in circumstances. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements whether as a result of such changes, new information, subsequent events or otherwise.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We disclosed a quantitative and qualitative analysis regarding market risk in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk on Form 10-K for the year ended December 31, 2017.
