## GENERAL MILLS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

### (1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature. Operating results for the quarterly and six-month periods ended November 25, 2007, are not necessarily indicative of the results that may be expected for the fiscal year ending May 25, 2008.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K, except as discussed in Notes 6, 16, and 18 to these Consolidated Financial Statements. In addition, certain reclassifications to our previously reported financial information have been made to conform to the current period presentation.

### (2) Acquisitions and Divestitures

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

During the first quarter of fiscal 2008, we acquired a controlling interest in HD Distributors (Thailand) Company Limited. Prior to acquiring the controlling interest, we accounted for our investment as a joint venture. The purchase price, net of cash acquired, resulted in a \$1.3 million cash inflow classified in acquisitions on the Consolidated Statements of Cash Flows. The pro forma effect of this acquisition was not material.

During the first quarter of fiscal 2007, our Cereal Partners Worldwide (CPW) joint venture completed the acquisition of the Uncle Tobys cereal business in Australia for \$385.6 million. We funded our 50 percent share of the purchase price by making additional advances to and equity contributions in CPW totaling \$135.1 million (classified as investments in affiliates, net, on the Consolidated Statements of Cash Flows) and by acquiring a 50 percent beneficial interest in certain intellectual property for \$57.7 million (classified as acquisitions on the Consolidated Statements of Cash Flows). During the six-month period ended November 25, 2007, we completed the allocation of our purchase price and reclassified \$16.3 million from goodwill to other intangible assets on our Consolidated Balance Sheets. We also sold our par-baked bread product line, including plants in Chelsea, Massachusetts and Tempe, Arizona, and recorded a \$5.9 million loss on the sale, including the write-off of \$6.2 million of goodwill, in restructuring, impairment, and other exit costs.

#### (3) Restructuring, Impairment, and Other Exit Costs

Restructuring, impairment, and other exit costs (income) were as follows:

Expense (income), in millions	Quarter Ended		Six-Month Period Ended	
	Nov. 25, 2007	Nov. 26, 2006	Nov. 25, 2007	Nov. 26, 2006
Closure of Poplar, Wisconsin plant	\$ 2.7	\$	\$ 2.7	\$
Closure of Allentown, Pennsylvania plant			10.1	
Closure of Trenton, Ontario plant			8.5	
Restructuring at Chanhassen, Minnesota plant			3.0	
Gain on sale of previously closed Vallejo, California plant			(7.1)	
Gain on sale of previously closed San Adrian, Spain plant				(8.6)
Loss from divestiture of par-baked bread product line		(0.3)		5.9
Charges associated with restructuring actions previously announced	0.1	(0.8)	0.1	(0.3)
<b>Total</b>	<b>\$ 2.8</b>	<b>\$ (1.1)</b>	<b>\$ 17.3</b>	<b>\$ (3.0)</b>

During the second quarter of fiscal 2008, we approved a plan to transfer *Old El Paso* production from our Poplar, Wisconsin facility to other plants and close the Poplar facility. This action to improve capacity utilization and reduce costs affects 113 employees at the Poplar facility, and resulted in a charge of \$2.7 million consisting entirely of employee severance. We anticipate this project will be completed by January 31, 2009.

During the six-month period ended November 25, 2007, we took additional restructuring actions beyond the item described above. Due to declining financial results, we decided to exit our frozen waffle product line (retail and foodservice) and to close our frozen waffle plant in Allentown, Pennsylvania, affecting 111 employees. We recorded a charge of \$10.1 million related to this closure, consisting of \$3.9 million of employee severance and a \$6.2 million non-cash impairment charge against long-lived assets at the plant. We also completed an analysis of the viability of our Bakeries and Foodservice frozen dough facility in Trenton, Ontario, and will close the facility, affecting 470 employees. We recorded an \$8.5 million charge for employee severance expenses and curtailment charges associated with a defined benefit pension plan. These actions, including the anticipated timing of the disposition of the plants we will close, are expected to be completed by February 28, 2009. We also restructured our production scheduling and discontinued our cake product line at our Chanhassen, Minnesota Bakeries and Foodservice plant. These actions affected 125 employees, and we recorded a charge for employee severance of \$3.0 million. These actions are expected to be completed by the end of fiscal 2008.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Collectively, the total charges we expect to incur with respect to these fiscal 2008 restructuring actions are approximately \$70.0 million, of which \$48.1 million is expected to be recognized in fiscal 2008. This includes a \$17.3 million non-cash second quarter charge related to accelerated depreciation on long-lived assets at our Trenton, Ontario plant, and an additional amount will be recorded in the third quarter prior to the plant's closure. The accelerated depreciation charges are recorded in cost of sales in our Consolidated Statements of Earnings, and in unallocated corporate expenses in our segment results.

During the six-month period ended November 25, 2007, we sold our previously closed Vallejo, California plant and received \$10.6 million in proceeds.

8

### Table of Contents

In the six-month period ended November 26, 2006, we sold our previously closed plant in San Adrian, Spain, for proceeds of \$9.5 million. We also received net proceeds of \$11.7 million from the divestiture of our par-baked bread product line.

#### (4) Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill during fiscal 2008 were as follows:

In millions	U.S. Retail	International	Bakeries and Foodservice	Joint Ventures	Total

 Total	 <b>\$ 1,567.2</b>	 \$ 1,173.4

(6) Derivatives and Hedging Activities

Application of hedge accounting under Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended (SFAS 133), requires significant resources, recordkeeping, and analytical systems. As a result of the rising compliance costs and the complexity associated with the application of hedge accounting, we have elected to discontinue the use of hedge accounting for all commodity derivative positions entered into after the beginning of fiscal 2008. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

9

Table of Contents

Regardless of designation for accounting purposes, we believe all of our commodity hedges are economic hedges of our risk exposures, and as a result we consider these derivatives to be hedges for purposes of measuring segment operating performance. Thus, these gains and losses are reported in unallocated corporate expenses outside of segment operating results until such time that the exposure we are hedging affects earnings. At that time we reclassify the hedge gain or loss from unallocated corporate expenses to segment operating profit, allowing our operating segments to realize the economic effects of the hedge without experiencing any resulting mark-to-market volatility, which remains in unallocated corporate expenses. Commodity derivatives previously accounted for as cash flow hedges are not affected by this change, and any gains or losses deferred to accumulated other comprehensive income (loss) in stockholders' equity will remain there until the hedged item affects earnings.

Pursuant to this policy, unallocated corporate expenses for the quarter and six-month period ended November 25, 2007 included:

	<b>Quarter Ended</b>	<b>Six-Month Period Ended</b>
<b>In millions</b>	<b>Nov. 25, 2007</b>	<b>Nov. 25, 2007</b>
Mark-to-market net gain on commodity derivative positions, primarily from agricultural derivatives	<b>\$ 32.8</b>	<b>\$ 42.1</b>
Net realized gains on hedge positions reclassified to segment operating profit, primarily agricultural derivatives	<b>(17.7)</b>	<b>(30.0)</b>
Net gain recognized in unallocated corporate expenses	<b>\$ 15.1</b>	<b>\$ 12.1</b>

(7) Debt

The components of notes payable were as follows:

<b>In millions</b>	<b>Nov. 25, 2007</b>	<b>May 27, 2007</b>
U.S. commercial paper	<b>\$ 1,152.4</b>	<b>\$ 476.9</b>

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Euro commercial paper	757.5	639.0
Financial institutions	136.1	138.5
 Total	 <b>\$ 2,046.0</b>	 \$ 1,254.4

Our commercial paper borrowings are supported by fee-paid committed credit lines consisting of a \$1.9 billion facility expiring in October 2012 and a \$1.1 billion facility expiring in October 2010. As of November 25, 2007, we did not have any outstanding borrowings under these agreements.

As of October 25, 2007, we terminated our credit agreement dated August 3, 2007, which provided an aggregate revolving commitment of \$750.0 million and was scheduled to expire on December 6, 2007.

On October 15, 2007, we and an affiliate of Lehman Brothers Holdings, Inc. (Lehman Brothers) settled the forward purchase contract established in October 2004 in conjunction with the issuance by Lehman Brothers of \$750.0 million of notes that were mandatorily exchangeable for shares of our common stock. In settlement of that forward purchase contract, we issued 14.3 million shares of our common stock and received \$750.0 million in cash from Lehman Brothers. We used the cash to reduce outstanding commercial paper balances.

On October 9, 2007, we entered into a new five-year credit agreement with an initial aggregate revolving commitment of \$1.9 billion which is scheduled to expire in October 2012. Concurrent with the execution of the new credit agreement, we terminated our five-year credit agreement dated January 20, 2004, which provided \$750.0 million of revolving credit and was scheduled to expire in January 2009, and our amended and restated credit agreement, dated October 17, 2006, which provided \$1.1 billion of revolving credit and was scheduled to expire in October 2007.

### Table of Contents

On August 29, 2007, we completed the sale of \$700.0 million of 5.65 percent fixed-rate notes due September 10, 2012. The proceeds of the notes were used to repay outstanding commercial paper. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed at our option at any time for a specified make-whole amount. The notes are senior unsecured, unsubordinated obligations and contain a change of control provision, as defined in the instruments governing the notes.

Our credit facilities and certain of our long-term debt agreements contain restrictive covenants. As of November 25, 2007, we were in compliance with all of these covenants.

### (8) Minority Interests

On August 7, 2007, we repurchased for a net amount of \$843.0 million all of the outstanding Series B-1 limited membership interests (Series B-1 Interests) previously issued by our subsidiary General Mills Cereals, LLC (GMC) as part of a required remarketing of those interests. The purchase price reflected the Series B-1 Interests' original capital account balance of \$835.0 million and \$8.0 million of capital account appreciation attributable and paid to the third party holder of the Series B-1 Interests. The capital appreciation paid to the third party holder of the Series B-1 Interests was recorded as a reduction to retained earnings, a component of stockholders' equity, on the Consolidated Balance Sheets, and reduced net earnings available to common stockholders in our basic and diluted earnings per share (EPS) calculations. We used commercial paper to fund the repurchase.

We and the third party holder of all of GMC's outstanding Class A limited membership interests (Class A Interests) agreed to reset, effective on June 28, 2007, the preferred rate of return applicable to the Class A Interests to the sum of 3 month LIBOR plus 65 basis points. On June 28, 2007, we also sold \$92.3 million of additional Class A Interests to the same third party. There was no gain or loss associated with these transactions. As of November 25, 2007, the carrying value of all outstanding Class A Interests on our Consolidated Balance Sheets was \$242.3 million, and the capital account balance of the Class A Interests, upon which preferred distributions are calculated, was \$248.1 million.

On June 28, 2007, we repurchased for \$150.0 million all of the outstanding Series A preferred stock of our subsidiary General Mills Capital, Inc. (GM Capital) using proceeds from the sale of the Class A Interests and commercial paper. There was no gain or loss associated with this repurchase.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Our minority interests contain restrictive covenants. As of November 25, 2007, we were in compliance with all of these covenants.

On December 10, 2007, the Board of Directors approved the retirement of 125.0 million shares of common stock in treasury effective December 10, 2007. This action will reduce common stock by \$12.5 million, reduce additional paid-in capital by \$5,068.3 million, and reduce common stock in treasury by \$5,080.8 million on our Consolidated Balance Sheets as of that date.

(10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, and restricted stock units, may be granted to employees and non-employee directors. These programs and related accounting are described on pages 58 to 60 of our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

On September 24, 2007, our stockholders approved the General Mills, Inc. 2007 Stock Compensation Plan, replacing the General Mills, Inc. 2005 Stock Compensation Plan. No additional shares may be issued under the 2005 Plan after the approval of the 2007 Plan. A description of the 2007 Plan can be found in our Proxy Statement for the 2007 Annual Meeting filed with the SEC on August 14, 2007.

Compensation expense related to stock-based payments recognized in selling, general, and administrative expenses in the Consolidated Statements of Earnings was as follows:

	Quarter Ended		Six-Month Period Ended	
	Nov. 25, 2007	Nov. 26, 2006	Nov. 25, 2007	Nov. 26, 2006
Compensation expense related to stock-based payments	\$ 31.5	\$ 27.6	\$ 86.6	\$ 80.8

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

As of November 25, 2007, unrecognized compensation expense related to non-vested stock options and restricted stock units was \$223.2 million. This expense will be recognized over 24 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

In millions	Six-Month Period Ended	
	Nov. 25, 2007	Nov. 26, 2006
Net cash proceeds	\$ 52.5	\$ 151.1
Intrinsic value of options exercised	\$ 31.0	\$ 85.2

We estimate the fair value of each option on the grant date using the Black-Scholes option-pricing model, which requires us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. For the fiscal 2008 grants, we have excluded historical volatility for fiscal 2002 and prior, primarily because volatility driven by the acquisition of Pillsbury does not reflect what we believe to be expected future volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained on pages 58 and 59 in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

### (16) Income Taxes

#### Effective Tax Rate

Our consolidated effective income tax rate is influenced by tax planning opportunities available to us in the various jurisdictions in which we operate. The effective tax rate for the second quarter of fiscal 2008 was 36.5 percent compared to 35.9 percent for the second quarter of fiscal 2007. The 0.6 percentage point increase in the effective tax rate is primarily due to a 1.8 percent reduction in the estimated value of tax credits and a 0.5 percent increase in the state tax rate which were partially offset by a 0.7 percent reduction of deferred taxes caused by a law change in Michigan, a 0.4 percent decrease related to additional domestic deductions, a 0.3 percent reduction related to additional foreign tax credits and 0.3 percent of miscellaneous other items.

The effective tax rate for the six-month period ended November 25, 2007 was 35.0 percent compared to 35.8 percent for the same period of fiscal 2007. The 0.8 percentage point decrease is primarily due to a 0.7 percent discrete tax decrease from international deferred foreign income taxes resulting from tax rate changes, a 1.0 percent benefit related to discrete and general foreign tax credits, a 0.4 percent decrease related to additional domestic deductions and 0.3 percent of miscellaneous other items. These were partially offset by a 1.1 percent reduction in the estimated value of other tax credits and a 0.5 percent increase in the state tax rate. The impact of the Michigan law change which impacted first and second quarters in offsetting amounts had no impact on the year to date effective tax rate.

#### Uncertain Tax Positions

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109, as of the beginning of fiscal 2008. Prior to adoption, our policy was to establish reserves that reflected the probable outcome of known tax contingencies. The effects of final resolution, if any, were recognized as changes to the effective income tax rate in the period of resolution. FIN 48 requires application of a more likely than not threshold to the recognition and derecognition of uncertain tax positions. FIN 48 permits us to recognize the amount of tax benefit that has a greater than 50 percent likelihood of being ultimately realized upon settlement. It further requires that a change in judgment related to the expected ultimate resolution of uncertain tax positions be recognized in earnings in the quarter of such change.

### Table of Contents

As a result of adoption, we recorded a \$218.1 million reduction to accrued tax liabilities, a \$151.9 reduction to goodwill, a \$57.8 million increase to additional paid in capital and a \$8.4 million increase to retained earnings at the beginning of fiscal 2008.

The following table sets forth changes in our total gross unrecognized tax benefit liabilities, excluding accrued interest, for the year to date period ended November 25, 2007. Approximately \$168.5 million of this total represents the amount that, if recognized, would affect our effective income tax rate in future periods. This amount differs from the gross unrecognized tax benefits presented in the table due to the decrease in U.S. federal income taxes that would occur upon recognition of the state tax benefits included therein.

As of November 25, 2007, we have classified approximately \$7.3 million of the unrecognized tax benefits as a current liability as these amounts are expected to be paid within the next 12 months. The remaining amount of our unrecognized tax liability was classified in other noncurrent liabilities.

We report accrued interest and penalties related to unrecognized tax benefits in income tax expense. For the six-month period ended November 25, 2007, we recognized \$20.9 million of tax-related interest expense and penalties, and had \$113.6 million of accrued interest and penalties at November 25, 2007.

We do not expect any significant changes to the estimated amount of liability associated with our uncertain tax positions that arose prior to fiscal 2008, other than the payment of the amount noted above which is identified as a current liability.

Annually we file more than 350 income tax returns in approximately 100 global taxing jurisdictions. The number of years with open tax audits varies depending on the tax jurisdiction. Our major taxing jurisdictions include the United States (federal and state) and Canada. With limited exceptions, we are no longer subject to U.S. federal examinations by the Internal Revenue Service (IRS) for fiscal years before 2002. The IRS recently concluded field examinations for our 2002 and 2003 fiscal years. A payment of \$24.8 million was made during the first quarter of fiscal 2008 to cover the additional tax liability plus interest related to all agreed adjustments for this audit cycle. The IRS also proposed additional adjustments for the 2002-2003 audit cycle including several adjustments to the tax benefits associated with the sale of minority interests in our GMC subsidiary. We believe we have meritorious defenses and intend to vigorously defend our position. Our potential liability for this matter is significant and, notwithstanding our reserves against this potential liability, an unfavorable resolution could have a material adverse impact on our results of operations or cash flows from operations. We do not expect that the amount of our tax reserves for these issues will change in the next 12 months. The IRS initiated its audit of our fiscal 2004 through 2006 tax years during the first quarter of fiscal 2008.

Various examinations by United States state taxing authorities could be conducted for any open tax year, which vary by jurisdiction, but are generally from 3 to 5 years. Currently, several state examinations are in progress. The Canada Revenue Agency is conducting an audit of our income tax returns in Canada for fiscal years 2003 (which corresponds to our earliest tax year still open for examination) through 2005. We do not anticipate that any United States state tax or Canadian tax adjustments will have a significant impact on our financial position, cash flows or results of operations.

#### (17) Business Segment Information

We operate in the consumer foods industry. We have three operating segments by type of customer and geographic region as follows: U.S. Retail, International, and Bakeries and Foodservice.

Our U.S. Retail segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, and drug, dollar, and discount chains operating throughout the United States. Our major product categories in the United States are ready-to-eat cereals, refrigerated yogurt, ready-to-serve soup, dry dinners, shelf stable and frozen vegetables, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, grain, fruit and savory snacks, microwave popcorn, and a wide variety of organic products

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

including soup, granola bars, and cereal.

Our International segment is largely made up of retail businesses outside of the United States. In Canada, our major product categories are ready-to-eat cereals, shelf stable and frozen vegetables, dry dinners, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza snacks, and grain, fruit and savory snacks. In markets outside the United States and Canada, our product categories include super-premium ice cream, granola and grain snacks, shelf stable and frozen vegetables, dough products, and dry dinners. Our International segment also includes products manufactured in the United States for export internationally, primarily in Caribbean and Latin American markets, as well as products we manufacture for sale to our joint ventures internationally. Revenues from export activities are reported in the region or country where the end customer is located.

In our Bakeries and Foodservice segment, we sell branded cereals, snacks, dinner and side dish products, refrigerated and soft-serve frozen yogurt, frozen dough products, branded baking mixes, and custom food items. Our customers include foodservice distributors and operators, convenience stores, vending machine operators, quick service chains and other restaurants, and business and school cafeterias in the United States and Canada. In addition, mixes and unbaked and fully baked frozen dough products are marketed throughout the United States and Canada to retail, supermarket, and wholesale bakeries.

Operating profit for these segments excludes unallocated corporate expenses (variances to planned corporate overhead expenses, variances to planned domestic employee benefits and incentives, all stock compensation costs, annual contributions to the General Mills Foundation, and other items that are not part of our measurement of segment operating performance, including gains and losses from commodity derivatives entered into after May 27, 2007, until passed back to our operating segments in accordance with our internal hedge documentation as discussed in Note 6), and restructuring, impairment, and other exit costs. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment. Our operating segment results were as follows:

**Cost of sales** increased \$185.2 million from the second quarter of fiscal 2007 to \$2,372.2 million. Higher input costs and changes in mix increased cost of sales by \$178.8 million. We recorded \$32.8 million of mark-to-market net gains on our commodity derivatives in the second quarter of fiscal 2008, pursuant to our policy described in Note 6 on page 9, \$15.1 million of which will mitigate future input cost inflation. We also recorded \$17.3 million of accelerated depreciation on long-lived assets associated with our previously announced restructuring action at our plant in Trenton, Ontario. In addition, we incurred \$19.0 million of costs, including product write offs, logistics, and other costs, related to the voluntary frozen pizza recall.

**Selling, general, and administrative (SG&A) expenses** were up \$35.8 million in the second quarter of fiscal 2008 versus the same period in fiscal 2007. The increase in SG&A was primarily driven by a 10.5 percent increase in consumer marketing expense. SG&A expenses as a percent of net sales in fiscal 2008 decreased 20 basis points from fiscal 2007 to 17.3 percent.

During the second quarter of fiscal 2008, we approved a plan to transfer *Old El Paso* production from our Poplar, Wisconsin facility to other plants and close the Poplar facility. This action to improve capacity utilization and reduce costs affects 113 employees at the Poplar facility, and resulted in a charge of \$2.7 million consisting entirely of employee severance. We anticipate this project will be completed by January 31, 2009.

**Net interest expense** for the second quarter of fiscal 2008 totaled \$115.9 million, a \$5.4 million increase from the same period of fiscal 2007. Average interest bearing instruments increased \$539.6 million leading to an \$8.2 million increase in net interest expense, while average interest rates decreased 20 basis points generating a \$2.8 million decrease in net interest expense. Average debt balances increased to fund higher share repurchases in anticipation of our issuance of shares to settle the forward contract with Lehman Brothers.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

The **effective tax rate** for the second quarter of fiscal 2008 was 36.5 percent compared to 35.9 percent for the second quarter of fiscal 2007. The 0.6 percentage point increase in the effective tax rate is primarily due to a 1.8 percent reduction in the estimated value of tax credits and a 0.5 percent increase in the state tax rate which were partially offset by a 0.7 percent reduction of deferred taxes caused by a law change in Michigan, a 0.4 percent decrease related to additional domestic deductions, a 0.3 percent reduction related to additional foreign tax credits and 0.3 percent of miscellaneous other items.

**After-tax earnings from joint ventures** increased \$4.2 million from the second quarter of fiscal 2007, to \$27.6 million. Net sales for Cereal Partners Worldwide (CPW) increased 21.4 percent driven by higher volume, including 5 points of favorable foreign exchange. Net sales for our Häagen-Dazs ice cream joint ventures in Asia grew 3.6 percent as an increase in sales volume was partially offset by unfavorable foreign exchange. 8<sup>th</sup> Continent, our soy products joint venture, recorded a 15.4 percent net sales decrease in the second quarter of fiscal 2008.

**Average diluted shares outstanding** decreased by 15.0 million in the second quarter of fiscal 2008, from the same period a year ago due primarily to the repurchase of 29.3 million shares of our common stock since the end of the second quarter of fiscal 2007. This was partially offset by the issuance of 14.3 million shares to settle the forward contract with Lehman Brothers, the issuance of shares upon stock option exercises, the issuance of annual stock awards, and the vesting of restricted stock units.

### Six-month Results

For the six-month period ended November 25, 2007, we reported diluted earnings per share of \$1.95, up 7.7 percent from \$1.81 per share earned in the same period last year. Net earnings were \$679.4 million, up 4.2 percent from \$652.3 million last year. Net sales for the six-month period grew 7.1 percent to \$6.8 billion and total segment operating profit increased 3.9 percent to \$1,294.4 million (See page 32 for a discussion of this measure not defined by GAAP).

### Table of Contents

**Net sales** growth during the six-month period ended November 25, 2007, was the result of 1.1 points of combined segment volume growth, 4.6 points of growth from net price realization and product mix, and 1.3 points of favorable foreign currency exchange. Volume growth was recorded in our U.S. Retail and International operating segments, while Bakeries and Foodservice volumes declined, including the effects of divested product lines in fiscal 2007. As discussed previously, on November 1, 2007, we voluntarily recalled certain varieties of frozen pizza. The pizza recall did not significantly impact our net sales for the six-month period ended November 25, 2007.

**Cost of sales** increased \$304.3 million from the six-month period ended November 26, 2006, to \$4,288.0 million. Higher volume drove \$51.6 million of this increase. Higher input costs and changes in mix increased cost of sales by \$258.6 million. We recorded \$42.1 million of mark-to-market net gains on our commodity derivatives in the six-month period ended November 25, 2007, pursuant to our policy described in Note 6 on page 9, \$12.1 million of which will mitigate future input cost inflation. We also recorded \$17.3 million of accelerated depreciation on long-lived assets associated with our previously announced restructuring action at our plant in Trenton, Ontario. In addition, we incurred \$19.0 million of costs, including product write offs, logistics, and other costs, related to the voluntary frozen pizza recall.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

**SG&A expenses** were up \$92.6 million in the six-month period ended November 25, 2007, versus the same period in fiscal 2007. SG&A expenses as a percent of net sales in fiscal 2008 increased 10 basis points from fiscal 2007 to 18.8 percent. This increase was primarily driven by a 10.5 percent increase in consumer marketing expense and \$10.9 million of costs associated with the remarketing of the Class A and Series B-1 Interests of our subsidiary General Mills Cereals, LLC (GMC).

**Restructuring, impairment, and other exit costs (income)** were \$17.3 million of expense for the six-month period ended November 25, 2007, and \$3.0 million of income for the same period last year, comprised of the following:

Expense (income), in millions	Six-Month Period Ended	
	Nov. 25, 2007	Nov. 26, 2006
Closure of Poplar, Wisconsin plant	\$ 2.7	\$
Closure of Allentown, Pennsylvania plant	10.1

During the six-month period ended November 25, 2007, we took additional restructuring actions beyond the item described in our Second Quarter Results section on page 22.

### Table of Contents

Due to declining financial results, we decided to exit our frozen waffle product line (retail and foodservice) and to close our frozen waffle plant in Allentown, Pennsylvania, affecting 111 employees. We recorded a charge of \$10.1 million related to this closure, consisting of \$3.9 million of employee severance and a \$6.2 million non-cash impairment charge against long-lived assets at the plant. We also completed an analysis of the viability of our Bakeries and Foodservice frozen dough facility in Trenton, Ontario, and will close the facility, affecting 470 employees. We recorded an \$8.5 million charge for employee severance and curtailment charges associated with a defined benefit pension plan. These actions, including the anticipated timing of the disposition of the plants we will close, are expected to be completed by February 28, 2009. We also restructured our production scheduling and discontinued our cake product line at our Chanhassen, Minnesota Bakeries and Foodservice plant. These actions affected 125 employees, and we recorded a charge for employee severance of \$3.0 million. These actions are expected to be completed by the end of fiscal 2008.

Collectively, the total charges we expect to incur with respect to these fiscal 2008 restructuring actions are approximately \$70.0 million, of which \$48.1 million is expected to be recognized in fiscal 2008. This includes a \$17.3 million non-cash second quarter charge related to accelerated depreciation on long-lived assets at our Trenton, Ontario plant, and an additional amount will be recorded in the third quarter prior to the plant's closure. The accelerated depreciation charges are recorded in cost of sales in our Consolidated Statements of Earnings, and in unallocated corporate expenses in our segment results.

During the six-month period ended November 25, 2007, we sold our previously closed Vallejo, California plant and received \$10.6 million in proceeds.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

In the six-month period ended November 26, 2006, we sold our previously closed plant in San Adrian, Spain for proceeds of \$9.5 million. We also received net proceeds of \$11.7 million from the divestiture of our par-baked bread product line.

**Net interest expense** for the six-month period ended November 25, 2007, totaled \$229.2 million, a \$13.7 million increase from the same six-month period last year. Average interest bearing instruments increased \$731.0 million leading to a \$22.7 million increase in net interest expense, while average interest rates decreased 20 basis points generating a \$9.0 million decrease in net interest expense. Average debt balances have increased to fund higher share repurchases in anticipation of our issuance of shares to settle the forward contract with Lehman Brothers.

The **effective tax rate** for the six-month period ended November 25, 2007 was 35.0 percent compared to 35.8 percent for the same period of fiscal 2007. The 0.8 percentage point decrease is primarily due to a 0.7 percent discrete tax decrease from international deferred foreign income taxes resulting from tax rate changes, a 1.0 percent benefit related to discrete and general foreign tax credits, a 0.4 percent decrease related to additional domestic deductions and 0.3 percent of miscellaneous other items. These were partially offset by a 1.1 percent reduction in the estimated value of other tax credits and a 0.5 percent increase in the state tax rate. The impact of the Michigan law change which impacted first and second quarters in offsetting amounts had no impact on the year to date effective tax rate.

**After-tax earnings from joint ventures** increased \$7.5 million from the six-month period ended November 26, 2006, to \$50.0 million. Net sales for CPW increased 23.5 percent driven by higher volume, including 3.9 points of growth from the acquisition of Uncle Tobys, and 5 points of favorable foreign exchange. Net sales for our Häagen-Dazs ice cream joint ventures in Asia matched prior-year levels as an increase in sales volume was offset by unfavorable foreign exchange. 8<sup>th</sup> Continent recorded a 15.5 percent net sales decrease in the six-month period ended November 25, 2007.

**Average diluted shares outstanding** decreased by 16.6 million in the six-month period ended November 25, 2007, from the same period a year ago due primarily to the repurchase of 29.3 million shares of our common stock since the end of the second quarter of fiscal 2007, 21.0 million shares of which were purchased in the first six-month period of fiscal 2008, partially offset by the issuance of 14.3 million shares to settle the forward contract with Lehman Brothers, the issuance of shares upon stock option exercises, the issuance of annual stock awards, and the vesting of restricted stock units.

#### SEGMENT OPERATING RESULTS

##### U.S. Retail Segment Results

Net sales for our U.S. Retail operations grew 3.2 percent in the second quarter of fiscal 2008, to \$2,521.0 million. Net price realization and product mix drove 5.1 points of growth. Volume on a tonnage basis fell 1.9 percentage points. The voluntary frozen pizza recall did not significantly impact our U.S. Retail net sales in the second quarter of fiscal 2008.

Net sales for our U.S. Retail operations were up 4.6 percent in the six-month period ended November 25, 2007, to \$4,552.7 million. Net price realization and product mix drove 4.4 points of growth. Volume on a tonnage basis increased 0.2 percentage points. The voluntary frozen pizza recall did not significantly impact our U.S. Retail net sales in the six-month period ended November 25, 2007.

Small Planet Foods	13.6	5.8
 Total	 3.2%	 4.6%

During the second quarter of fiscal 2008, Snacks net sales grew 12.0 percent driven by continued strong sales for *Nature Valley* grain snacks, *Fiber One* bars, and fruit snacks. Yoplait recorded net sales growth of 11.3 percent, reflecting net price realization, continued strong performance from *Yoplait Light* yogurt, and new products, including *Yo-Plus* yogurt. Net sales for Big G cereals grew 2.7 percent, driven mainly by pricing and package size changes on established cereal brands. The Meals division recorded a 0.9 percent net sales increase, led by *Progresso* ready-to-serve soups that offset slight declines in our dry dinners category. Pillsbury net sales declined 1.8 percent, as the impact of the voluntary frozen pizza recall more than offset growth in other categories within this division.

Operating profits for the second quarter of fiscal 2008, declined 2.0 percent to \$583.8 million from \$595.6 million in the same period a year ago. Volume declines decreased operating profit by \$21.9 million. Increased supply chain costs of \$65.1 million, excluding the effect of the frozen pizza recall, and a 7.1 percent increase in consumer marketing expenses were offset by favorable price and product mix. In addition, the voluntary frozen pizza recall reduced operating profits by \$19.9 million.

Operating profits for the six-month period ended November 25, 2007, improved 1.4 percent to \$1,057.1 million from \$1,042.9 million in the same period a year ago. Volume growth increased operating profit by \$5.7 million. Increased supply chain costs of \$96.6 million, excluding the effect of the frozen pizza recall, and an 8.1 percent increase in consumer marketing expenses were more than offset by favorable price and product mix. In addition, the voluntary frozen pizza recall reduced operating profits by \$19.9 million.

#### International Segment Results

Net sales for our International segment were up 22.2 percent in the second quarter of fiscal 2008 to \$665.7 million. This growth was driven by an 8.1 point increase in sales volume, 9.0 points of favorable foreign exchange, and 5.1 points of net price realization and product mix. Net sales were up 20.5 percent in the six-month period ended November 25, 2007 to \$1,265.1 million. This growth was driven by an 8.4 point increase in sales volume, 8.1 points of favorable foreign exchange, and 4.0 points of net price realization and product mix. Sales volumes increased across all of our geographic regions, especially in Europe and Latin America.

#### **International Net Sales Percentage Change by Geographic Region**

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Total 22.2% 20.5%

For the second quarter of fiscal 2008, net sales in Europe grew 19.9 percent reflecting strong performance from *Old El Paso* and *Nature Valley* across the region, and especially in the United Kingdom. Net sales in Canada increased 15.5 percent, led by *Nature Valley* grain snacks, ready-to-eat cereals, and *Old El Paso* products. In the Asia/Pacific region, net sales grew by 24.4 percent led by strong growth for *Häagen-Dazs* in China and new *Wanchai Ferry* products. Latin America and South Africa net sales increased 42.6 percent led by market share gains and pricing actions taken in key countries.

Operating profits for the second quarter of fiscal 2008 improved 36.2 percent to \$84.3 million from \$61.9 million in the same period a year ago, with foreign currency exchange contributing 24.6 points of that growth. The growth was also driven by a \$13.6 million increase from higher volumes resulting from increases in consumer marketing spending. Net price realization offset supply chain and administrative cost increases.

Operating profits for the six-month period ended November 25, 2007 improved 31.8 percent to \$155.3 million from \$117.8 million in the same period a year ago, with foreign currency exchange contributing 20.3 points of that growth. The growth was also driven by a \$28.0 million increase from higher volumes resulting from increases in consumer marketing spending. Net price realization offset supply chain and administrative cost increases.

### Bakeries and Foodservice Segment Results

Net sales for our Bakeries and Foodservice segment increased 7.6 percent to \$516.7 million in the second quarter of fiscal 2008. The increase in net sales was driven by an 8.6 point benefit from price increases taken to counter rising input costs, and changes in product mix. This was offset somewhat by a 1.0 point decline in volume, mainly in the distributors and restaurants customer channel, and included the effects of frozen pie and par-baked bread product lines divested in fiscal 2007.

Net sales for our Bakeries and Foodservice segment increased 3.5 percent to \$957.6 million in the six-month period ended November 25, 2007. The increase in net sales was driven mainly by 6.4 points of benefit from net price realization and product mix. This was partially offset by a 2.9 point decline in volume, mainly in the distributors and restaurants customer channel, and included the effects of frozen pie and par-baked bread product lines divested in fiscal 2007.

Operating profits for the segment for the second quarter of fiscal 2008 were \$48.0 million, down from \$56.1 million in the second quarter of fiscal 2007. For the six-month period ended November 25, 2007, operating profits for the segment were \$82.0 million, down from \$85.1 million in the same period a year ago. The decreases for the quarter and six-month period were largely driven by higher input costs and \$3.0 million of expenses for conversion from brokers to a direct sales force for the organization. This was partially offset by manufacturing efficiencies and benefits from prior restructuring activities.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

### Unallocated Corporate Expenses

For the second quarter, unallocated corporate expenses were \$26.2 million in fiscal 2008 compared to \$39.5 million in fiscal 2007. The decrease is primarily due to a net gain on commodity derivatives of \$15.1 million, the recognition of a previously deferred gain on the sale of a corporate investment of \$10.8 million and lower compensation costs. These benefits were partially offset by \$17.3 million of accelerated depreciation on long-lived assets associated with our previously announced restructuring action at our plant in Trenton, Ontario.

For the six-month period ended November 25, 2007, unallocated corporate expenses were \$79.9 million, compared to \$82.8 million for the same period last year. The decrease is primarily due to a net gain on commodity derivatives of \$12.1 million and the recognition of a previously deferred gain on the sale of a corporate investment of \$10.8 million. These were offset by \$17.3 million of accelerated depreciation on long-lived assets associated with our previously announced restructuring action at our plant in Trenton, Ontario and \$10.9 million of costs related to the remarketing of the Class A and Series B-1 interests in GMC.

### LIQUIDITY

During the six-month period ended November 25, 2007, our operations generated \$443.7 million of cash compared to \$565.2 million of cash in the same period last year. The \$121.5 million decrease in cash from operations was primarily due to increased working capital (accounts receivable and inventory).

During the six-month period ended November 25, 2007, \$374.6 million of cash was used to increase inventories, mainly due to inflation in commodity prices and higher levels of raw material inventories.

Cash used by investing activities decreased \$138.1 million from the six-month period ended November 26, 2006. Last year's period included the acquisition of the Uncle Tobys business by our CPW joint venture.

Financing activities used \$190.9 million of cash in the six-month period ended November 25, 2007. Net cash provided by notes payable was \$744.0 million. We used a significant amount of cash flows from notes payable to finance share repurchases and our repurchases of the Series B-1 interests in GMC and the Series A preferred stock of General Mills Capital, Inc. We used the \$700.0 million proceeds from the issuance of long-term debt to reduce outstanding commercial paper balances. Also, during fiscal 2008, we received \$750.0 million as part of the settlement of a forward contract with Lehman Brothers and used the cash to reduce outstanding commercial paper balances.

### Table of Contents

On August 7, 2007, we repurchased for a net amount of \$843.0 million all of the outstanding Series B-1 Interests in GMC as part of a required remarketing of those interests. The purchase price reflected the Series B-1 Interests' original capital account balance of \$835.0 million and \$8.0 million of capital account appreciation attributable and paid to the third party holder of the Series B-1 Interests. The capital appreciation paid to the third party holder of the Series B-1 Interests was recorded as a reduction to retained earnings, a component of stockholders' equity, on the Consolidated Balance Sheets, and reduced net earnings available to common stockholders in our basic and diluted earnings per share (EPS) calculations.

We and the third party holder of all of GMC's outstanding Class A limited membership interests (Class A Interests) agreed to reset, effective on June 28, 2007, the preferred rate of return applicable to the Class A Interests to the sum of 3 month LIBOR plus 65 basis points. On June 28, 2007, we sold \$92.3 million of additional Class A Interests to the same third party. There was no gain or loss associated with these transactions. As of November 25, 2007, the carrying value of all outstanding Class A Interests on our Consolidated Balance Sheets was \$242.3 million, and the capital account balance of the Class A Interests, upon which preferred distributions are calculated, was \$248.1 million.

On June 28, 2007, we repurchased for \$150.0 million all of the outstanding Series A preferred stock of our subsidiary General Mills Capital, Inc. using proceeds from the sale of the Class A Interests and commercial paper. There was no gain or loss associated with this repurchase.

During the six-month period ended November 25, 2007, we repurchased 21.0 million shares of common stock for \$1,226.5 million. As of November 25, 2007, we had unpaid obligations associated with our share repurchases totaling \$0.4 million included in other current liabilities.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

We settled these obligations shortly after the end of our fiscal quarter.

On December 10, 2007, our Board of Directors approved a quarterly dividend of 39 cents per share, payable on February 1, 2008, to shareholders of record on January 10, 2008. During the six-month period ended November 25, 2007, we paid \$259.4 million in dividends compared to \$247.4 million in the same period last year. In addition, the Board of Directors approved the retirement of 125.0 million shares of common stock in treasury effective December 10, 2007. This action will reduce common stock by \$12.5 million, reduce additional paid-in capital by \$5,068.3 million, and reduce common stock in treasury by \$5,080.8 million on our Consolidated Balance Sheets as of that date.

### Table of Contents

Commercial paper is a continuing source of short-term financing. We issue commercial paper in the United States, Canada, and Europe. Our commercial paper borrowings are supported by fee-paid committed credit lines consisting of a \$1.9 billion facility expiring in October 2012 and a \$1.1 billion facility expiring in October 2010. As of November 25, 2007, we did not have any outstanding borrowings under these agreements.

As of October 25, 2007, we terminated our credit agreement dated August 3, 2007, which provided an aggregate revolving commitment of \$750.0 million and was scheduled to expire on December 6, 2007.

On October 15, 2007, we and Lehman Brothers settled the forward contract established between the parties in October 2004 in conjunction with the issuance by Lehman Brothers of \$750.0 million of notes that were mandatorily exchangeable for shares of our common stock. In settlement of that forward contract, we issued 14.3 million shares of our common stock and received \$750.0 million in cash from Lehman Brothers. We used the cash received to reduce outstanding commercial paper balances.

On October 9, 2007, we entered into a new five-year credit agreement with an initial aggregate revolving commitment of \$1.9 billion which is scheduled to expire in October 2012. As of November 25, 2007, we do not have any outstanding borrowings under this agreement or any other credit facility. Concurrent with the execution of the new credit agreement, we terminated our five-year credit agreement dated January 20, 2004, which provided \$750.0 million of revolving credit and was scheduled to expire in January 2009, and our amended and restated credit agreement, dated October 17, 2006, which provided \$1.1 billion of revolving credit and was scheduled to expire in October 2007.

Our credit facilities, certain of our long-term debt agreements, and our minority interests contain restrictive covenants. As of November 25, 2007, we were in compliance with all of these covenants.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

We have \$2.0 billion of long-term debt maturing in the next 12 months and classified as current, including \$1.4 billion that may mature in fiscal 2008 based on the put rights of the note holders. We also have classified \$142.4 million of long-term debt as current based on our intention to redeem the debt within the next 12 months. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

On August 29, 2007, we completed the sale of \$700.0 million of 5.65 percent fixed-rate notes due September 10, 2012. The proceeds of the notes were used to repay outstanding commercial paper. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed at our option at any time for a specified make-whole amount. The notes are senior unsecured, unsubordinated obligations and contain a change of control provision, as defined in the instruments governing the notes.

We have an effective shelf registration statement on file with the Securities and Exchange Commission covering the sale of debt securities, common stock, preference stock, depository shares, securities warrants, purchase contracts, purchase units, and units. As of November 25, 2007, \$3.0 billion remained available under the shelf registration for future use.

### OFF BALANCE-SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance-sheet arrangements during the first six months of fiscal 2008, except for a new data contract that we entered into in June. We have contractual obligations of \$155.2 million over the eight year life of this contract.

### SIGNIFICANT ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007. The accounting policies used in preparing our interim fiscal 2008 Consolidated Financial Statements are the same as those described in our Form 10-K, except as discussed in Notes 6, 16, and 18 to these Consolidated Financial Statements for the quarterly and six-month periods ended November 25, 2007.

---

### Table of Contents

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for promotional expenditures, intangible assets, stock compensation, income taxes, and defined benefit pension, other postretirement, and postemployment benefits. Except for changes in these estimates as disclosed below, the assumptions and methodologies used in the determination of those estimates as of November 25, 2007, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

### Stock Compensation

We have various stock-based compensation programs under which awards, including stock options, restricted stock, and restricted stock units, may be granted to employees and non-employee directors. Stock option grants are made at 100 percent of the fair market value of our stock at the date of grant. These awards generally vest over four years and have a ten-year and one-month term. The expense recorded in our Consolidated Financial Statements is based on the fair value of the awards.

We estimate the fair value of each option on the grant date using the Black-Scholes option-pricing model, which requires us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. For the fiscal 2008 grants, we have excluded historical volatility for fiscal 2002 and prior, primarily because volatility driven by the acquisition of Pillsbury does not reflect what we believe to be expected future volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained on pages 58 and 59 in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

Income Taxes

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation (FIN) No 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48), as of the beginning of fiscal 2008. Prior to adoption, our policy was to establish reserves that reflected the probable outcome of known tax contingencies. The effects of final resolution, if any, were recognized as changes to the effective income tax rate in the period of resolution. FIN 48 requires application of a more likely than not threshold to the recognition and derecognition of uncertain tax positions. FIN 48 permits us to recognize the amount of tax benefit that has a greater than 50 percent likelihood of being ultimately realized upon settlement. It further requires that a change in judgment related to the expected ultimate resolution of uncertain tax positions be recognized in earnings in the quarter of such change.

Annually we file more than 350 income tax returns in approximately 100 global taxing jurisdictions. A number of years may elapse before an uncertain tax position is audited and finally resolved. While it is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position, we believe that our reserves for income taxes reflect the most likely outcome. We adjust these reserves, as well as the related interest, in light of changing facts and circumstances. Settlement of any particular position would usually require the use of cash.

The number of years with open tax audits varies depending on the tax jurisdiction. Our major taxing jurisdictions include the United States (federal and state) and Canada. With limited exceptions, the Company is no longer subject to United States federal examinations by the Internal Revenue Service (IRS) for fiscal years before 2002. The IRS recently concluded field examinations for our 2002 and 2003 fiscal years. A payment of \$24.8 million was made during the first quarter of fiscal 2008 to cover the additional tax liability plus interest related to all agreed adjustments for this audit cycle. The IRS also proposed additional adjustments for the 2002-2003 audit cycle including several adjustments to the tax benefits associated with the sale of minority interests in our GMC subsidiary. We believe we have meritorious defenses and intend to vigorously defend our position. Our potential liability for this matter is significant and, notwithstanding our reserves against this potential liability, an unfavorable resolution could have a material adverse impact on our results of operations and cash flows from operations. We do not expect the amount of our tax reserves for these issues to change in the next 12 months. The IRS initiated its audit of our fiscal 2004 through 2006 tax years during the first quarter of fiscal 2008.

Various tax examinations by United States state taxing authorities could be conducted for any open tax year, which vary by jurisdiction, but are generally from 3 to 5 years. Currently, several state examinations are in progress. The Canada Revenue Agency is conducting an audit of our income tax returns in Canada for fiscal years 2003 (which is our earliest tax year still open for examination) through 2005. We do not anticipate that any United States state tax or Canadian tax adjustments will have a significant impact on our financial position or results of operations.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB approved the issuance of Statement of Financial Accounting Standards (SFAS) No. 141 (revised 2007) Business Combinations (SFAS 141R). SFAS 141R establishes principles and requirements for how the acquirer in a business combination recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any controlling interest; recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R applies to business combinations for which the acquisition date is on or after December 15, 2008. We are evaluating the impact of SFAS 141R on our results of operations and financial condition.

In December 2007, the FASB approved the issuance of SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements an amendment to ARB No. 51 (SFAS 160). SFAS 160 establishes accounting and reporting standards that require the ownership interest in subsidiaries held by parties other than the parent be clearly identified and presented in the Consolidated Balance Sheets within equity, but separate from the parent's equity; the amount of consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the Consolidated Statement of Earnings; and changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently. This statement is effective for fiscal years beginning on or after December 15, 2008, which for us is the first quarter of fiscal 2010. We are evaluating the impact of SFAS 160 on our results of operations and financial condition.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

In June 2007, the FASB approved the issuance of Emerging Issues Task Force Issue (EITF) No. 07-3, Accounting for Nonrefundable Advance Payments for Goods or Services Received for Use in Future Research and Development Activities (EITF 07-3). EITF 07-3 requires that nonrefundable advance payments for future research and development activities for materials, equipment, facilities, and purchased intangible assets that have an alternative future use be recognized in accordance with SFAS No. 2, Accounting for Research and Development Costs. EITF 07-3 is effective for fiscal years beginning after December 15, 2007, which for us is the first quarter of fiscal 2009. We are evaluating the impact of EITF 07-3 on our results of operations and financial condition.

In June 2007, the FASB approved the issuance of EITF No. 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF 06-11). EITF 06-11 requires that tax benefits from dividends paid on unvested restricted shares be charged directly to stockholders' equity instead of benefiting income tax expense. EITF 06-11, which will be effective for us in the first quarter of fiscal 2009, is expected to increase our effective income tax rate by approximately 20 basis points.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of SFAS No. 115 (SFAS 159). This statement provides companies with an option to measure, at specified election dates, many financial instruments and certain other items at fair value that are not currently measured at fair value. A company that adopts SFAS 159 will report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. This statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. This statement is effective for fiscal years beginning after November 15, 2007, which for us is the first quarter of fiscal 2009. We are evaluating the impact of SFAS 159 on our results of operations and financial condition.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). This statement provides a single definition of fair value, a framework for measuring fair value, and expanded disclosures concerning fair value. Previously, different definitions of fair value were contained in various accounting pronouncements creating inconsistencies in measurement and disclosures. SFAS 157 applies under those previously issued pronouncements that prescribe fair value as the relevant measure of value, except SFAS 123R and related interpretations and pronouncements that require or permit measurement similar to fair value but are not intended to measure fair value. For financial assets and liabilities, this pronouncement is effective for fiscal years beginning after November 15, 2007, which for us is the first quarter of fiscal 2009. For non-financial assets and liabilities, it is effective for fiscal years beginning after November 15, 2008, which for us is the first quarter of fiscal 2010. We are evaluating the impact of SFAS 157 on our results of operations and financial condition.

### NON-GAAP MEASURES

We have included in this MD&A a measure of financial performance that is not defined by GAAP. This non-GAAP measure should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

#### Total Segment Operating Profit

This non-GAAP measure is used in internal management reporting and as a component of the Board of Directors' rating of our performance for management and employee incentive compensation. Management and the Board of Directors believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate segment performance. A reconciliation of this measure to the relevant GAAP measure, operating profit, is included in Note 17 to the Consolidated Financial Statements included in this Form 10-Q.

### GLOSSARY

**Derivatives.** Financial instruments that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

**Generally Accepted Accounting Principles (GAAP).** Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our published financial statements.

**Goodwill.** The difference between the purchase price of acquired companies and the related fair values of net assets acquired.

Table of Contents

**Hedge accounting.** Special accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items, only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

**Interest bearing instruments.** Notes payable, long term debt, including current portion, minority interests, cash and cash equivalents and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

**LIBOR.** London Interbank Offered Rate.

**Minority interests.** Preferred stock and interests of subsidiaries held by third parties.

**Net price realization.** The impact of list and promoted price increases, net of trade and other promotion costs.

**Total debt.** Notes payable and long-term debt, including current portion.

CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our management's current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the SEC and in our reports to stockholders.

The words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "estimate," "plan," "project" or similar expressions identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those currently anticipated or projected. We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, or tax rates; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in laws and regulations, including labeling and advertising regulations; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in customer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; disruptions or inefficiencies in the supply chain; volatility in the market value of derivatives used to hedge price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure of our information technology systems; resolution of uncertain income tax matters; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify on pages 5 through 10 of our Annual Report on Form 10-K for the fiscal year ended May 27, 2007, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes in our market risk during the six-month period ended November 25, 2007. For additional information, see Item 7A of our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

Item 4. Controls and Procedures.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of November 25, 2007, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

During our fiscal quarter ended November 25, 2007, we made a change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. During the second quarter of fiscal 2008, we finalized the design of, tested, and implemented a new consolidation and financial reporting system.
