## Passenger Traffic

For the fourth quarter of 2009, total passenger traffic declined year-over-year by 5.98%. International passenger traffic declined by 7.36% while domestic passenger traffic declined by 4.32%.

The 7.36% decline in international passenger traffic resulted mainly from a decline of 8.42% in international traffic at the Cancún airport. The 4.32% decline in domestic passenger traffic resulted mainly from declines of 23.29%, 26.27%, 21.61%, 10.02% and 11.92% at the Cozumel, Oaxaca, Tapachula, Veracruz and Villahermosa airports, respectively.

For FY09, total passenger traffic declined by 12.49% compared to FY08, with domestic passenger traffic down 12.21% and international passenger traffic down 12.70%. On April 28, 2009 the World Health Organization announced the outbreak of the H1N1 Influenza in Mexico. Mainly as a result of the outbreak and the global recession, total year-over-year passenger traffic declined 2.1% in April, 50.7% in May, 28.4% in June, 16.7% in July, 12.8% in August, 10.7% in September, 7.2% in October, 7.1% in November and 4.1% in December.

### Consolidated Results for 4Q09

Total revenues for 4Q09 declined year-over-year by 0.34% to Ps.753.4 million. This was mainly due to declines of:

- 0.08% in revenues from aeronautical services principally as a result of the 5.98% decline in passenger traffic; and
- 0.81% in revenues from non-aeronautical services despite the 0.87% increase in commercial revenues detailed below.

ASUR classifies commercial revenues as those derived from the following activities: duty-free stores, car rentals, retail operations, banking and currency exchange services, advertising, teleservices, non-permanent ground transportation, food and beverage, and parking lots.

Commercial revenues increased by 0.87% year-over-year during the quarter, principally reflecting the decline in passenger traffic. There were increases in revenues in the following activities:

- 39.98% in car rentals;
- 8.07% in ground transportation;
- 5.91% in food and beverage; and
- 8.28% in retail operations.

These increases were partially offset by revenue declines of:

- 8.11% in duty-free stores;
- 7.57% in banking and currency exchange services;
- 15.99% in advertising;
- 0.25% in parking lot fees;

- 47.27% in teleservices; and
- 8.40% in other revenues.

Total operating costs and expenses for 4Q09 decreased 2.33% year over year. This was primarily a result of a 10.67% decline in cost of services, mainly reflecting lower energy and labor costs, the latter due to the reassignment in 3Q09 of employees from certain operating areas to corporate.

The decline in cost of services was partially offset by the following increases:

- 18.11% in administrative expenses, principally in labor costs resulting from the reassignment of employees from certain operating areas to corporate;
- 3.79% in depreciation and amortization, resulting from the depreciation of new investments in fixed assets and improvements made to concession assets;
- 3.31% in the technical assistance fee paid to ITA, reflecting the increase in EBITDA for the quarter (a factor in the calculation of the fee); and
- 5.18% in concession fees paid to the Mexican government, mainly due to an increase in the taxable base (a factor in the calculation of the fee).

Operating margin for the quarter increased to 38.26% from 37.00% in 4Q08. This was mainly the result of the 2.33% decline in cost of services, which more than offset the 0.34% decrease in revenues during the period.

Comprehensive Financing Cost for 4Q09 declined year-on-year by Ps.69.7 million. During 4Q08 ASUR reported interest income of Ps.31.3 million and an exchange rate gain of Ps.32.9 million. During 4Q09, the Company reported an exchange rate loss of Ps.10 million and net interest income of Ps.4.5 million. Net interest income resulted from interest income of Ps.11.6 million, accrued interest of Ps.12.5 million – of which Ps.7.9 million was capitalized - and a mark to market loss in its interest rate swap of Ps.2.5 million.

Income Taxes. Following the changes in Mexican tax law that took effect January 1, 2008, which established a new flat rate business tax (“Impuesto Empresarial a Tasa Unica”, or “IETU”) and eliminated the asset tax, the Company evaluated and reviewed its deferred assets and liabilities position under Mexican Financial Reporting Standards.

Income taxes for 4Q09 declined by 9.44%, or Ps.13.0 million year-on-year, principally due to the following factors:

- During 4Q09, ASUR’s subsidiaries that pay IETU made provisional tax payments of Ps.11.3 million. Of these payments, Ps.2.4 million was recorded as an expense and Ps.8.9 million as an asset since ASUR expects to recover these taxes under the current tax law. The decrease of Ps.24.6 million in ASUR’s provision for IETU recorded in 4Q08 resulted from the annual calculation were we credited Ps.33.1 during 2009.
- A higher provision for income taxes in 4Q08 principally reflecting higher income from services provided to the airports during that quarter by the holding company.
- A decline in deferred income taxes during 4Q08 as a result of the initial recognition of deferred income tax at the holding company level for advances received from ASUR’s subsidiaries at year-end.
- An increase in deferred IETU during 4Q09 due to the loss of tax credits from asset investments as per the IETU law.

Net income for 4Q09 declined 23.44% to Ps.159.50 million from Ps.208.33 million in 4Q08. Earnings per common share for the quarter were Ps.0.5317, or earnings per ADS (EPADS) of US\$0.4069 (one ADS represents ten series B common shares). This compares with earnings per share of Ps.0.6944, or EPADS of US\$0.5315, for the same period last year.

#### Consolidated Results for FY09

Total revenues for FY09 declined year-over-year by 1.18% to Ps.3,131.2 million. This was mainly due to:

- A 2.82% decline in revenues from aeronautical services as a result of the 12.49% decline in passenger traffic during the period, partially offset by the increase in rates that was approved in 1Q09.
- A 2.03% increase in revenues from non-aeronautical services, principally as a result of the 4.14% rise in commercial revenues detailed below.

Commercial revenues for FY09 rose by 4.14% year-over-year, principally as a result of revenue increases in the following areas:

- 3.09% in duty-free stores;
- 7.48% in retail operations;
- 2.73% in banking and currency exchange services;
  - 39.76% in car rentals;
- 3.50% in other income; and
- 0.47% in ground transportation services.

These increases were partially offset by revenue declines in the following areas:

- 7.33% in parking lot fees;
- 1.71% in food and beverage;
- 10.86% in advertising; and
- 1.58% in teleservices.

Total operating costs and expenses for FY09 rose 0.50%, mainly due to the following increases:

- 6.61% in administrative expenses, principally labor costs, resulting from the reassignment of employees from certain operating areas to corporate; and
- 4.65% in depreciation and amortization, resulting from the depreciation of investments in fixed assets and improvements made to concession assets.

These increases were partially offset by the following declines:

- 2.66% in cost of services, mainly reflecting higher costs incurred in 2008 in connection with the master development plans, higher professional fees and a deferred mandatory profit sharing (PTU) provision that was reversed in 3Q08 as a result of the personnel reorganization. These increases more than offset declines in energy and maintenance costs as well as lower labor costs resulting from the reassignment of employees from certain operating areas to corporate;
- 0.93% in technical assistance costs, reflecting the corresponding decrease in EBITDA during the period; and
  - 2.71% in concession fees, mainly due to lower revenues.

Operating margin decreased to 42.71% for FY09, from 43.67% for FY08. This was mainly the result of a 1.18% decline in revenues and a 0.50% increase in costs and expenses during the period.

#### Tariff Regulation

---

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for FY09 were Ps.2,126.98 million, resulting in an annual average tariff per workload unit of Ps.132.99. ASUR's regulated revenues accounted for approximately 67.93% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

#### Balance Sheet

---

The terms of the agreement include a floating interest rate based on the Tasa de Interes Interbancaria de Equilibrio, or TIIE, and quarterly principal payments.

During August 2009 ASUR purchased a hedge against the risk of a significant increase in TIIE. The Company is hedged for 100% of the interest rate exposure under its Ps.750 million credit agreement. The interest rate was fixed for three years at 6.37%, 6.44% and 6.21% with each of the three banks, respectively. The cost of the interest rate hedge was Ps.2.56 million.

#### Capital Expenditures
