REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS(1)

(1) The material in this report is not "soliciting material," is not deemed "filed" with the SEC, and is not to be incorporated by reference into any filing of the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934 whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

The Audit Committee reports to and acts on behalf of the Board of Directors by providing oversight of the financial management, independent auditors and financial reporting procedures of the Company. The Company's management is responsible for preparing the Company's financial statements and Ernst & Young LLP, the independent auditors, are responsible for auditing those financial statements. The Audit Committee is responsible for overseeing the conduct of these activities by the Company's management and the independent auditors.

In this context, the Audit Committee has met and held discussions with management and the independent auditors. Management has represented to the Audit Committee that the Company's financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the financial statements with management and the independent auditors.

The Audit Committee has discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication With Audit Committees). In addition, the independent auditors provided to the Audit Committee the written disclosures required by Independent Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee and the independent auditors have discussed the auditors' independence from the Company and its management, including the matters in those written disclosures. Additionally, the Committee considered the financial information systems services and other non-audit services provided by the independent auditors and the fees and costs billed and expected to be billed by the independent auditors for those services.

The Audit Committee has discussed with the Company's independent auditors, with and without management present, their evaluations of the Company's internal accounting controls and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions with management and the independent auditors referred to above, the Audit Committee recommended to the Board of Directors on February 1, 2001, and the Board has approved, the inclusion of the audited financial statements in the Company's Annual Report on Form 10-K, as amended, for the fiscal year ended December 31, 2000, for filing with the Securities and Exchange Commission. The Audit Committee also recommended to the Board of Directors, and the Board has approved, subject to stockholder ratification, the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2001.

PROPOSAL 2

RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The Board of Directors has selected Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2001 and has further directed that management submit the selection of independent auditors for ratification by the stockholders at the 2001 Annual Meeting.

Edgar Filing: INTRABIOTICS PHARMACEUTICALS INC /DE - Form DEF 14A

Stockholder ratification of the selection of Ernst & Young LLP as the Company's independent auditors is not required by the Company's Bylaws or otherwise. However, the Board is submitting the selection of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee and the Board in their discretion may direct the appointment of different independent auditors at any time during the year if they determine that such a change would be in the best interests of the Company and its stockholders.

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting will be required to ratify the selection of Ernst & Young LLP. Abstentions will be counted towards the tabulation of votes cast on proposals presented to the stockholders and will have the same effect as negative votes. Broker non-votes are counted towards a quorum, but are not counted for any purpose in determining whether this matter has been approved.

AUDIT FEES. During the fiscal year ended December 31, 2000, the aggregate fees from Ernst & Young LLP for the audit of the Company's financial statements for such fiscal year and for the review of the Company's interim financial statements was \$137,500.

FINANCIAL INFORMATION SYSTEMS DESIGN AND IMPLEMENTATION FEES. During the fiscal year ended December 31, 2000, the Company did not have any fees from Ernst & Young LLP for information technology consulting.

ALL OTHER FEES. During fiscal year ended December 31, 2000, the aggregate fees from Ernst & Young LLP for professional services other than audit and information technology consulting services were \$301,060, including audit related services of \$276,370 and non-audit services of \$24,690. Audit related services generally include fees for SEC registration statements including the Company's initial public offering and accounting consultation.

The Audit Committee has determined the rendering of the information technology consulting fees and all other non-audit services by Ernst & Young LLP is compatible with maintaining the auditor's independence.

During the fiscal year ended December 31, 2000, none of the total hours expended on the Company's financial audit by Ernst & Young LLP were provided by persons other than Ernst & Young LLP full-time permanent employees.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE IN FAVOR OF PROPOSAL 2

- (1) All options have a term not greater than 10 years from the grant date. The Board of Directors determines the time or times during the term when the options may be exercised. Options generally vest ratably over a period ranging from four to six years.
- (2) Based upon options to purchase an aggregate 2,537,475 shares of common stock that were granted in the fiscal year ended December 31, 2000.
- (3)

Edgar Filing: INTRABIOTICS PHARMACEUTICALS INC /DE - Form DEF 14A

The exercise price per share of each option granted was equal to the fair market value of the common stock as determined by the Board of Directors on the date of the grant.

(4)

Potential realizable values are computed by (a) multiplying the number of shares of common stock subject to a given option by the initial offering price of \$15.00 per share, (b) assuming that the aggregate stock value derived from that calculation compounds at the annual 5% or 10% rate shown in the table for the entire 10-year term of the option and (c) subtracting from that result the aggregate option exercise price. The 5% and 10% assumed annual rates of the stock price appreciation are mandated by the rules of the SEC and do not represent our estimate or projection of future common stock prices.

(2)

The information regarding the value realized reflects the fair market value of our Common Stock underlying the option on the date of exercise minus the aggregate exercise price of the option.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION(2)

The Compensation Committee is composed entirely of non-employee, independent members of the Board of Directors. Decisions on compensation matters relating to the Company's President and Chief Executive Officer, Kenneth J. Kelley, and the Company's other executive officers are generally made by the Compensation Committee. The Compensation Committee also administers the Company's equity benefit plans including the 2000 Equity Incentive Plan (the 2000 Plan) under which option grants may be made to executive officers and other key employees.

(2)

The material in this report is not "soliciting material," is not deemed "filed" with the SEC, and is not to be incorporated by reference into any filing of the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934 whether made before or after

the date hereof and irrespective of any general incorporation language in any such filing.

GENERAL COMPENSATION POLICY

The Compensation Committee's overall policy as to executive compensation is to ensure that an appropriate relationship exists between the total compensation package established for each executive officer and the creation of stockholder value, while at the same time assuring that compensation is sufficiently competitive to motivate and retain key executives. In furtherance of this goal, executive compensation is structured so as to integrate competitive levels of annual base salary with discretionary stock options based upon individual and corporate performance. This annual cash compensation, together with the payment of equity incentives in the form of stock option grants, is designed to attract and retain qualified executives and to ensure that such executives have a continuing stake in the long-term success of the Company.

13

FACTORS

Since the Company is in the development stage, the use of traditional performance standards (such as profit levels and return on equity) is not appropriate in evaluating the performance of the executive officers. In particular, the unique nature of the biotechnology industry, specifically, the absence of revenues and the fact that the Company's stock performance is often a consequence of larger market forces than of actual Company achievements, makes it difficult to tie performance objectives to standard financial considerations. The primary factors that were considered in establishing the components of each executive officer's compensation package for the 2000 fiscal year are summarized below. The Compensation Committee may, however, in its discretion apply entirely different factors, such as different measures of strategic performance, for future fiscal years.

BASE SALARY

When establishing or reviewing base compensation levels for each executive officer, the Committee considers numerous factors, including the qualifications of the executive and his or her level of relevant experience, strategic goals for which the executive has responsibility, specific accomplishments of the executive during the last fiscal year and the compensation levels in effect at companies in the biotechnology industry that compete with the Company for business and executive talent.

Base salaries are reviewed annually, and adjustments to each executive officer's base salary are made to reflect individual performance. Salary increases are based on survey information taken from the biotechnology industry for companies of similar size (150 to 499 employees, taking into account that the Company is at the lower end of this range). A major objective, accordingly, is to have base salary levels commensurate with those of comparable positions with similar companies, given the level of seniority and skills possessed by the executive officer in question and the Committee's assessment of such executive's performance over the year.

LONG-TERM INCENTIVE COMPENSATION

The Compensation Committee has the authority under the 2000 Plan to provide executives and other key employees with equity incentives including stock option grants. Generally, the size of each option grant is set at a level that the Compensation Committee deems appropriate to create a meaningful opportunity for stock ownership based upon the individual's current position with the Company, but there is also taken into account comparable awards made to individuals in similar positions in the industry, as reflected in external surveys, the individual's potential for future responsibility and promotion and the individual's performance in the recent period. The Compensation Committee has also established general guidelines for maintaining the unvested option holdings of each executive officer at a targeted level based upon his or her position with the Company, and option grants are periodically made to maintain the targeted levels. However, the Committee does not strictly adhere to these guidelines, and the relative weight given to each of the foregoing factors varies from individual to individual, as the Compensation Committee deems appropriate under the circumstances.

The grants are designed to align the interests of the executive officer with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. Each grant allows the officer to acquire shares of Common Stock at a fixed price per share equal to the market price on the grant date over a specified period of up to ten years. Accordingly, the option will provide a return to the executive officer only if he or she remains in the Company's employ, and then only if the market price appreciates over the option term. All options currently held by executive officers have an exercise price equal to the fair market value of the Company's Common Stock as of the grant date.

14

CHIEF EXECUTIVE OFFICER COMPENSATION

In setting the compensation payable for the 2000 fiscal year to the Company's Chairman, President and Chief Executive Officer, Kenneth J. Kelley, the Committee reviewed a detailed performance evaluation compiled for Mr. Kelley. Such review considered Mr. Kelley's qualifications, the level of experience brought to his position and gained while in the position, Company goals for which Mr. Kelley had responsibility, specific accomplishments to date, and the importance of Mr. Kelley's individual achievement in meeting company goals and objectives set during the prior year. In addition, the Compensation Committee surveyed the salary levels in effect for chief executive officers in the biotechnology industry of similar size companies.

In determining Mr. Kelley's compensation level, the Committee sought to establish a competitive rate of base salary, while at the same time tying a significant percentage of his overall compensation package to individual and Company performance, such as the attainment of certain milestones in the testing of clinical products and Mr. Kelley's achievements in recruiting individuals to serve in key positions in the Company. Based on these factors, the Committee increased Mr. Kelley's base salary level to \$330,000. The level of base salary set for Mr. Kelley was in the 25th to 50th percentile range of the surveyed salary for the similar companies.

To reward performance, IntraBiotics provides its Chairman, President and Chief Executive Officer with additional current compensation in the form of an executive cash bonus which is competitive with annual incentives provided by other similar companies in the biotechnology industry. For the 2000 fiscal year, Mr. Kelley received cash incentive compensation of \$50,000.

During the 2000 fiscal year, the Committee also granted Mr. Kelley options to purchase up to 25,000 shares of the Company's Common Stock under the 2000 Plan, at an exercise price of \$4.00 per share. The grant was intended to provide Mr. Kelley with a meaningful incentive to continue in the Company's employ and contribute to the Company's financial success, as reflected in the future appreciation in the market price of the Company's Common Stock.

COMPLIANCE WITH INTERNAL REVENUE CODE SECTION 162(M)

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to publicly held companies for compensation exceeding \$1.0 million paid to certain of the corporation's executive officers. The limitation applies only to compensation that is not considered to be performance-based. The non-performance based compensation to be paid to the Company's executive officers for the 2000 fiscal year did not exceed the \$1.0 million limit per officer, nor is it expected that the non-performance-based compensation to be paid to the Company's executive officers for fiscal 2001 will exceed that limit. The 2000 Equity Incentive Plan is structured so that any compensation deemed paid to an executive officer in connection with the exercise of options granted under that plan with an exercise price equal to the fair market value of the option shares on the grant date will qualify as performance-based compensation which will not be subject to the \$1.0 million limitation. Because it is very unlikely that the cash compensation payable to any of the Company's executive officers in the foreseeable future will approach the \$1.0 million limit, the Compensation Committee has decided at this time not to take any other action to limit or restructure the elements of cash compensation payable to the Company's executive officers. The Compensation Committee will reconsider this decision should the individual compensation of any executive officer approach the \$1.0 million level.
